TWO LIBYAN jet fighters fired on an unarmed U. S. Air Force C130 cargo plane over the Mediterranean between Malta and Libya, the State Department said. The U.S. plane was not hit and maneuvered into a cloud cover to escape its pursuers. It landed safely in Athens, Greece. Although the Defense Department refused to say where the U. S. flight originated, where it was headed or what the plane was carrying, other sources said it was based in Athens and was engaged in electronic surveillance of an undisclosed area.

PRESIDENT NIXON PLANS to consolidate all government programs for enforcing drug abuse laws into a single agency within the Justice Department, the White House announced. The plan will consolidate the narcotics law enforcement functions and will transfer 500 customs agents who specialize in drugs from the Treasury Department to the Justice Department. The reorganization plan will be sent to Congress within the next 30 days and will take effect automatically within 60 days unless vetoed by either the Senate or the House.

Saturday, March 24
A CONVICTED WATERGATE defendant, James W. McCord, told Chief U.S. District Judge John J. Sirica there was perjury at his trial and still unnamed people were involved in the burglary and bugging of Democratic national headquarters. The accusations were in a letter made public during the sentencing hearing where six other Watergate conspirators were given stiff prison sentences. McCord, a former CIA agent, was the security boss of President Nixon's reelection committee. He also charged that there was "political pressure applied to the defendants to plead guilty and remain silent." McCord asked to talk privately with the judge because he could not trust the FBI or the Justice Department.

THE UNITED STATES rejected new demands from the communists which resulted in the delayed release of the remaining 148 American POWs. The Vietnam told the Joint Military Commission, (JMC), the prisoner release would resume only if the U.S. agreed to withdraw every one of its uniformed military men in South Vietnam, including the Marine guards at the U.S. embassy in Saigon. The North Vietnamese also added that prisoners held in Laos were not covered by the cease-fire agreement signed in Paris.

EDWARD STEICHEN, the master photographer, died on Sunday in his home in West Redding, Conn. He was two days short of his 94th birthday. Born in Luxembourg, Steichen emigrated with his family to Hancock, Mich., and later moved to Wisconsin. He was a painter before he became a photographer. He believed in using his art to explain man to his fellow man. His 1955 collection, "The Family of Man," gathered together 503 photographs of people from the world over. "A thing is beautiful if it fulfills its purpose," he once said. "To my mind a modern ice box is a thing of beauty."

Tuesday, March 27
THE RELEASE of the last 148 American prisoners in Indochina, including the nine held in Laos, and the withdrawal of remaining U.S. troops in Vietnam will begin today after last minute negotiations.

Set Sights on Musical Evening

Working on plans towards a special evening, when Associates of the Grosse Pointe Fraternal Order of Police Lodge 102 presents its first annual Big Band Sound Ball, are, (from left to right), entertainment chairman JOE VITALE, whose 17-piece orchestra will provide the music, Shores Sergeant DONALD JACOB, Lodge 102 president, and WALTER KARAL, associate ticket chairman. The dance will be held Friday, April 27, at the Light Guard Armory. The proceeds will go to the GP-Harper Woods FOP Widows and Orphans Fund.

HUD Okays Woods for Insurance

Federal Subsidized Rates Available Against Flood Damage

The Woods has qualified for federal flood insurance. Effective Friday, March 30, the U.S. Department of Housing and Urban Development reports local property and casualty agents can start selling HUD national flood insurance in the city.

The National Flood Insurance Association has designated the Insurance Company of North America, Buhl Building, Griswold and Congress, Detroit, as the servicing company for The Woods. Agents should contact this company to obtain policy forms, rates, flood insurance manuals and any other necessary information.

Appraisal Condition
Woods City Administrator Chester E. Petersen said, "It's up to each prospective homeowner to appraise his own condition and read the applicable terms of flood insurance which may be applied to him." He pointed out each homeowner should have all terms and conditions explained to him by an insurance agent. In short, what will flood insurance do for you?

Waterfront Cities Work Hard to Prevent Further Flooding by High Waters

Pointes, Detroit and Other Communities Involved Are Discussing New \$30 Million Storm Sewer System with Government

The Pointes and Detroit and other communities bordering the Detroit River and Great Lakes, are making every effort to prevent a repetition of a flood such as that which hit Detroit and other cities on Friday and Saturday, March 16 and 17. Detroit city engineers absolved the Park of any blame in that catastrophe.

Park City Manager Robert Slone disclosed on Monday, March 26, that the city is willing to do anything possible to prevent any recurrence of a flood in Detroit, even negotiating with Detroit about blocking off the Fox Creek outlet, through which the Park has been pumping storm water for many years.

It was stated that residents of both cities agreed that they would not want to be responsible for the flooding of their respective communities at the expense of the other.

Very Little Pumping
Slone said that the Park has not pumped any storm water into Fox Creek since last August 16, and only three times before during 1972, on March 4; April 13; and on August 14.

The city manager said that the first agreement between the Park, then a village, and Detroit, in which Detroit asked the village to pump overflow storm water into Detroit's Fox Creek sewer enclosure was made in 1914. In 1926, Detroit asked the Park to relinquish this agree-

ment. Detroit offered to build the Park an outlet to Fox Creek, for this concession, and the Park agreed. The only time the Park pumps into the creek is during extremely heavy rains, Slone added.

The Park continued using the outlet into the creek without arousing any controversy, until 1969, when the Michigan Water Resources Commission accused the city of contributing to the pollution of Lake St. Clair and the Detroit River.

Updated Station
Making every effort to seek control methods to prevent bank overflows, the Park updated its Storm Water Pumping station, Jefferson and Maryland, at a cost of \$250,000 in 1962, so that it would pump into Fox Creek only a few times a year, and then only in extreme emergencies.

"During rains when we must pump below and to a maximum of 84 cubic feet of storm water per second, we pump into Detroit's sanitary sewer system," Slone pointed out.

Police Offer Evening Full Of Nostalgia

Big Band Sound Ball Will Benefit Widows and Orphans of Fraternal Order Members

By Robert A. Waha
Hark, to those golden, musical filled days of yesteryear when Glenn Miller, Tommy and Jimmy Dorsey, Artie Shaw, Guy Lombardo and scores of other band leaders played the sweetest sounds this side of heaven.

These magical moments will be recreated once again when the Grosse Pointe Fraternal Order of Police Lodge 102 Associates presents its first annual Big Band Sound Ball Friday, April 27, at the Light Guard Armory, East Eight Mile road at Ryan, from 8:30 p.m. to 1 a.m.

Joe Vitale and his big 17-piece orchestra will treat dancers to music from the 40's, while creating echoes of nostalgia for one and all. Frankie Rapp, local master of ceremonies, also will be on hand to delight the crowd.

To Benefit Widows
The 27th associates, non-police officer members, count on having a "really big" turn out with the proceeds going to the Grosse Pointe-Harper Woods FOP Widows and Orphans Fund. There's a capacity of 3,000 for the evening (Continued on Page 4)

Kerby to Have New Principal

Dr. Theos I. Anderson, superintendent of schools, made the recommendation that Richard W. Kay be appointed to the position of principal of Kerby School beginning in the 1973-1974 school year.

Dr. Anderson presented his recommendation at the Kerby PTA meeting on Monday, March 26. Final action on the appointment will be taken at the Monday, April 9, meeting of the school board.

Mr. Kay is presently director of employe relations in the Grosse Pointe school system.

Dr. Custer Homeier, current principal at Kerby, will be retiring at the end of the school year. He has been principal at Kerby since 1953 and associated with the Grosse Pointe school system since 1936.

War Memorial's Drive Goal Hiked By Costly Floods

Annual Family Participation Fund-Raising Campaign Launched; All Asked to Make Tax-Deductible Donations

Grosse Pointe War Memorial's need is doubly great this year due to the flood control measures being undertaken to preserve this magnificent property and buildings which were given to Grosse Pointers for their enjoyment and cultural and educational use. After the November storm the Memorial's Board of volunteer directors launched a \$80,000 program of additional seawall construction together with added huge pump installation on auxiliary generators backed by secondary diking.

Court Says Okay to Sell Dodge Estate
The sale price for the home of the late Anna Thomson Dodge, widow of the late auto magnate, Horace S. Dodge, and it's last occupant, is \$650,000. The mansion was constructed in 1934 at a cost of \$4 million.

Rose Terrace, the 60-room Dodge mansion, 12 Lake Shore road, can now be sold. Permission for the sale was granted by Wayne County Probate Judge Frank Szymanski on Thursday, March 22.

The Memorial Center uses no tax monies or United Foundation Funds. Many of its services are free and fees for other activities and programs, while they are designed to cover direct costs are kept as low as possible so as many citizens as possible may be able to participate. These fees do not cover overhead and maintenance of the buildings and grounds.

Offers Many Activities
The uniquely beautiful and active, (night and day), Memorial Center provides wholesome family activities such as travelogues with ethnic meals, plays, movies and appearances of a nationally known speakers and performers. Hospital equipment is kept for free loan to those in need — crutches, walkers, wheel chairs, beds, commodes, etc. Youth is served through the Children's Theatre, the Youth Council, the Ski Hi Club, guitar classes, art classes, riding classes, ballet, sailing instruction and many social activities.

Senior citizens, both the men's group and the ladies, enjoy speakers, programs of high caliber, special tours and continuous activity. Concerts, exhibits and special events fill the Center's calendar. Study opportunities are offered from university level to pre-school. Forums and seminars (Continued on Page 8)

Center Offers 'Thank You' Activities During Drive
Six complimentary activities are scheduled by Grosse Pointe War Memorial Association as "Thank You" to the people of Grosse Pointe during the current 1973 Family Participation Campaign.

All Pointers interested in enjoying these programs are urged to pick up free tickets for them in advance so the Center can prepare for the proper numbers. Of course, if there is room, people will be welcomed at the door too.

Opening event of the "Thank You" activities is a Grosse Pointe Theatre presentation of a mini-musical written and directed by Grosse Pointe's own John Diebel. It will be presented in Fries Theatre Monday evening, April 2, at 8:30 o'clock.

On Saturday evening, April 7, at 8, there will be a free coffee house for the high school and college crowd in the Center's Crystal Ballroom. Everyone is encouraged to bring their guitars or other instruments and play and sing along with Alex Sucek. The room will be set up cabaret style and coffee and pop will be served without charge.

Easter Egg Decorating will be taught to parents and children free of charge on Sunday afternoon, April 15. There will be two sessions, both held in the Crystal Ballroom, one at 2 o'clock, the second at 3:30. The art of decorating (Continued on Page 2)

4 Proposals Submitted To Electors

Schools and Libraries Will Close Unless Voted Operational Millage Is Renewed

Community residents who will ballot on Thursday, March 29, are reminded that all the school district's voted operational millage expired with the December 1972 tax collection.

Unless local residents approve tax levies, the public libraries will close June 30, and the public schools will close November 1, 1973.

Approval of Proposition #1 (renewal of 20.9 mills) on March 29 will maintain a basic educational program for Grosse Pointe students for the 1973-74 year.

No Salary Increases
The projected budget makes no provision for improved salary schedules, it takes into consideration a projected decline in student enrollment of 700 students, it anticipates the elimination of 30-35 teaching positions due to the enrollment decline, plus others in clerical, plant, and administration and it assumes that the school system will lose \$500,000 in state aid.

Approval of Proposition #2 (1.12 mills for three years) on March 29 will maintain the public libraries' present program, (without Friday opening of the Central Library, which has been provided this year by donations of the Friends of the Library).

Passage of Propositions #1 and #2 will not increase residents' school taxes unless their property tax assessment has been changed from last year. No general reassessment, (upward adjustment), is anticipated by the municipalities this year.

Curtailments Made
Passage of Proposition #3 (0.6 of a mill) will be used to restore for one year a small portion of program curtailments sustained by the public schools since the 1969-70 year.

1. Included is restoration of 2.4 counselors and 6 teachers for program enrichment and remedial work in the basic subjects in the middle schools. Although this does not constitute a restoration of the "middle school concept," it will assure significant improvements in the instructional program.

2. The elementary schools will benefit from Proposition #3 by the addition of three remedial teachers, (reading improvement and speech correction), and three teachers for enrollment imbalances that occur yearly.

3. The current program at the high school level will be improved by hiring specialized counselors for career education and two teachers, (one for each school), for enrollment imbalances (Continued on Page 2)

Residents Upset Over Gas Odor

A Roslyn road resident contacted The Woods Department of Public Safety Monday, March 19, to report an odor of gas.

At the scene, Officer Russell Allard discovered the strong gas odor and also detected it on Fleetwood, Allard, Arthur, South Oxford, Broadstone and Brancaster roads.

He contacted the Michigan Consolidated Gas Company, and was told the problem also was reported by The Shores, Farms, Harper Woods and other east side communities.

The NEWS contacted Michigan Consolidated and a spokesman said the air-borne odor was tentatively traced to an east side incinerator. He added over 100 calls had been received regarding the (Continued on Page 2)

(Continued from Page 1) lower line, extending from Fox Creek, at Alter road, to Conner Creek, at Continental, in Detroit, which will cost an estimated \$30 million, of which the Federal Government will pay \$24 million, and the balance of the cost will be spread among other communities affected," Slone said. "The construction of such a system will be supervised by the Wayne County Drain Commission.

Restrict Basins
"One thing we are doing throughout the city is restricting catch basins, so that rain water and drainage that accumulates on the street surfaces, will drain very slowly and therefore, not overtax the pumping station equipment," Slone said. He said that by doing this, the water would drain gradually and if pumping must be done, it will not cause an overflow of the Fox Creek canal banks. Also, by keeping the water in the streets,

it will prevent the flooding of basements of homes in the Park.
Department of Public Works personnel have been working on the catch basins since March 2.
"Of course, all this will be monitored by our city departments, and in cases where the water spills over the curbs and reaches the sidewalks, residents are urged to call the police department and emergency DPW crews will be dispatched to these areas to relieve the basins.
"I wish to point out, one, that water in the street will help prevent flooded basements, and two, it will help to prevent the overtaxing of the pumps at the Storm Water Pump Station during high level periods," the city manager said.
Welcome Discussion
He said that Park city officials would welcome any form of discussion with Detroit officials regarding the

closing off of the Fox Creek canal. He said the Park administration is not opposed to any means that will help in preventing flooding in the Park and its neighboring communities, especially Detroit, which experienced heavy damage in the flood nearly two weeks ago.
Slone said that on Saturday, March 24, 100 students from Pierce Middle School, and DPW workers filled more than 2,100 bags with sand and have placed them in areas where it appeared re-inforcement was needed.
Volunteer Help
At least 1,300 sand-filled bags were taken to the War Memorial Center to shore up weak spots, through which water got into the Fries Auditorium, causing considerable damage in the past flood.
Assisting the Pierce students in the filling of the bags, were the Earth Lovers groups from Grosse Pointe South High School.
Mrs. G. William Duffield, who is president of Environmental Action Now (EAN) and her organization, were on hand to make sure that the volunteers had plenty of hot coffee and hot chocolate and sandwiches during the break periods.
The lake water level has risen a little more since March 13, on which date the level was recorded at 575.64 feet above sea level.
Records Predicted
The U.S. Army Corps of Engineers predicted that by June 15, the lake will crest over 582 feet, which will be the highest ever recorded, beating the record 575.5 feet in 1952.
The danger is not from the height of the water level, but in the possibility of gale winds coming from the northeast, which, as on two previous occasions, November 14, and the weekend of March 17, raised waves as much as three to six feet high, blowing the water over

low spots and inland, causing floods that damaged properties along the waterfront. Damage was estimated at several millions of dollars.
Residents living along the lake and the Detroit River, aided by scores of volunteers, are working long, hard hours, sandbagging and diking low areas in hopes of stemming further floods. They are working under the direction of the Corps of Engineers, which furnished the bags, sand, materials and dirt for dikes.

Story Reduces Judge's Salary

In last week's story regarding applications for the position of interim municipal judge in The Woods, it was reported the selected applicant would receive \$150 per month. That figure was incorrect -- the figure should read \$250 per month, (\$3,000 a year).
Applications are still being received for the post through the November elections. Municipal Judge Don J. Goodrow retires May 1, and the judicial selection committee, chaired by Councilman Benjamin W. Pinkos, is currently reviewing all applications.
Any Woods resident who wishes to apply, (with that "extra" \$100), should send his resume to the City Council, City of Grosse Pointe Woods, 20025 Mack avenue, zip code 48236, attention: City Administrator's office.

WOODS OKAYS AUDITORS

The Woods Council at the regular meeting Monday, March 19, unanimously concurred in the recommendation of City Comptroller-Assessor Frederick G. Hornfisher that Price Waterhouse and Company be appointed as the city's auditors for 1973. The charge is \$8,250 for the year ending June 30, 1973.

Important Millage Election Today

(Continued on Page 2) richment and remediation in basic subjects.
4. All students will benefit because more instructional supplies, (paper, pencils), will be available as requested by parents, to comply with the Supreme Court mandate.
5. The entire student body of both senior high schools will benefit because the base for financing a large number of athletics and extra-curricular activities will be assured.
To Restore Services
Passage of Proposition #4, (0.14 of a mill for one year), will be used to restore public library services which have been curtailed since the 1969-70 year.
Approval of Proposition #4

on March 29 will expand library hours for users and improve services, (including Saturday opening of the Woods Branch), and will also strengthen book inventories and make provisions for replacement of equipment.
School officials point out that by law, the ballot must contain the word "increased" even though Propositions #1 and #2 are a renewal of tax levies that have expired. Propositions #3 and #4 represent a restoration of some school and library services that have been curtailed since 1969-70. The cost of Propositions #3 and #4 is 74 cents per \$1,000 of the taxable worth of property -- \$14.80 yearly on a home with a sale price of \$40,000 and a state equalized-valuation of \$20,000.
All qualified registered voters may ballot on Thursday, March 29, in their neighborhood public elementary school.

School Board Approves Contract Terminations

At a special meeting on Monday, March 28, the Board of Education approved the recommendation that two administrative contracts not be renewed for the 1973-1974 school year.

The reason for the non-renewals is an inefficiency of operating revenue for the upcoming school year. The administrative positions were either abolished in previous years or are being abolished at the end of the school year in a cutback of the education program.

Administrators involved are Dr. George Eddington, Assistant to the Superintendent,

in the Central Administrative Office. He will be reclassified from administrator to teacher and will be assigned as a teacher of foreign languages in the 1973-1974 school year.

Mary Jo Dillman, former assistant principal and now Elementary Resource Teacher at Ferry School will be reclassified as a teacher and assigned as an elementary resource teacher.

As provided in each of the above administrative contracts, the individual involved has attained tenure in the school system as a classroom teacher only, in accordance

with the provisions of the Michigan Teachers Tenure Act.

School Superintendent Dr. Theos Anderson cited reduction figures to emphasize the necessity of the termination of the contracts. Over the past four years, the professional staff has been reduced from 706 to 544, over 22 percent. The administrative staff has faced a reduction of 21 percent, from 42 staff members to 33.

There was no public discussion of the recommendation before final approval was given since it did involve school personnel. However, after the conclusion of the official business, members of the audience voiced their disappointment with the board in abolishing Dr. Eddington's position.

As assistant superintendent, Dr. Eddington served also as a public information officer. Audience members stressed the necessity of the position and cited Dr. Eddington as an effective administrative-public liaison.

In response to audience re-

marks, Board President William Huetteman emphasized that "In the matter of priorities we must question whether we can afford to keep a certain job."

He went on to say that Dr. Eddington's position would not be abolished entirely. As it stands now, the position is under a 12-month contract where 50 per cent of the time is spent as assistant superintendent and 50 per cent in a public information capacity.

This will be changed to a 10-month contract where an employee spends 40 percent of his time as a public information and communications official, with additional stipends for extra work.

The school system would save about \$17,500 in making the changes.

Board Secretary Joan Bower was authorized to give official notice of the non-renewal action to the affected employees at least 90 days before the end of the school year.

Pleads Guilty On 2 Charges

A 19-year-old Woods youth pled guilty and was found guilty on two charges before Woods Municipal Judge Don J. Goodrow Wednesday, March 21.

Richard Kevin Ballew was charged under a city ordinance with malicious injury or destruction of property, (in this case, fire hydrants), and violation of the Controlled Substance Act. He was assessed \$50 on each charge.

Ballew was arrested early Friday morning, March 16, by police after an open hydrant complaint was received in the area of Fairholme road near Fairford road. A red handled pipe wrench was discovered on him. At the station, police stated Ballew admitted opening some hydrants on the 16th.

Police also discovered suspected hashish, wrapped in tin foil, on Ballew.

Hit-Run Driver Damages Car

Farms police recorded a hit-and-run accident reported by Herbert Hackenberg of 31901 Courtland drive, St. Clair Shores.

Hackenberg, who made his complaint in person at the Farms station, told the authorities that he was stopped in the southbound lane of Moross road, at 7:42 p.m. on Wednesday, March 21, when the rear left side of his vehicle was hit by another car, driven by a middle aged male.

Hackenberg said that the other motorist made a wide turn north onto Moross from west bound Lake Shore and ran into his car. There was considerable damage to his auto, the St. Clair Shores man said.

When it appeared that the other man was going to stop, Hackenberg got out of his auto and started to walk to the other car. However, the hit-runner, who had a female passenger with him, stepped on the gas pedal and drove off.

The hit-run victim gave police a description of the car that struck his, and an all-points alert was sent to law enforcement agencies in the area to be on the lookout for the car and motorist. The alert was without results.

Woods Shifts Meeting Date

The second regular council meeting in The Woods during May falls on Mayors Exchange Day, so the council unanimously approved the rescheduling of the meeting from May 21 to Thursday, May 17. A public hearing on the city's proposed 1973-74 budget also is scheduled for the 17th.

This action was taken at the regular meeting Monday, March 19.

Bus Schedules Are Plentiful

Schedules for the Kercheval-Deanhurst, Jefferson Beach and Charlevoix lines, plus a brochure covering charter service, are available at each Pointe city hall, all libraries, the War Memorial and the Neighborhood Club, 17150 Waterloo avenue, according to Mary Lou Wood, passenger representative for the SEMTA Lake Shore Division.

Mrs. Wood said, "We have distributed literally thousands of these schedules, yet I know of people who are not even aware Lake Shore publishes schedules. It is my responsibility to keep these schedules replenished and available to whoever wants one."

"The latest schedules for the Kercheval-Deanhurst line and the Jefferson Beach line are dated September 25, 1972. The latest schedule for the Charlevoix line is dated October 7, 1972. Schedules dated earlier are not accurate so people using these schedules should get up-to-date ones. They can be picked up at the above locations, or you could simply call Lake Shore, (822-9516), and have them mailed out," she added.

'Canine Capers' Ends Happily for Resident

A dog owner, particularly if his pet is named "Rover," has probably sung the old jingle, "Oh where or where has my little dog gone . . . That's what a St. Clair Shores woman undoubtedly thought when she reported her dog

stolen Thursday, March 22, to Woods police. She flagged down patrolling Corporal Peter Thomas on Mack avenue and reported her pooch suffered a fate worse than not getting his yummies — "Pookie" was the principal subject of an apparent larceny.

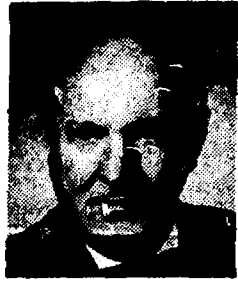

Police were told the mixed Beagle-Basset Hound was snatched from her unlocked car between 3:40 and 3:50 p.m.

It was obviously a distressing hour for the woman, with her fairly short but lonely ride home.

But all wasn't lost, (particularly "Pookie"), for upon returning home, she discovered, much to her embarrassment, she never took the dog with her in the first place.

And, as a result, it's very possible that "Pookie" had the "last woof."

Evening of Nostalgia

(Continued from Page 1) and Associate Warren Brush, publicity chairman, expects a sellout.

Tickets are \$5 a person, \$10 a couple. Beer, ice, mix, chips, pretzels and prizes are included.

Woods Traffic Safety Officer Stephen J. Petrik, Jr., associate chairman, said he was glad to see such an evening which "goes back to the 30's and 40's for music — music like 'Stardust,' 'String of Pearls' and 'Song of India.'"

"We're hoping to make it a success, and if 10 come in a group, they can have a table reserved. Tickets are available at all Pointe police stations and at the Harper Woods station," he added. Officer Petrik is the District Four director of the FOP, (including Wayne and Monroe Counties), State Lodge of Michigan.

Praises Associates

Shores Sergeant Donald Jacob, Lodge 102 president, stated, "Here are some gentlemen, (the associates), who are interested in the welfare of police officers, not only in Grosse Pointe but throughout the State, and have donated their time and effort to make this a success."

"All those young enough to remember the music of the 30's, 40's and 50's, who remember the big band sound, should attend. If we can make a success out of it we hope to have such dances periodically," he said.

Students Press Sandbag Effort

The Pierce Middle School sandbaggers were at it again. But this time they ventured beyond Grosse Pointe with their energy and volunteer spirit into Harrison Township.

Forty-two students including five girls departed from Pierce at 8:30 Saturday morning, March 24, aboard a baby blue elementary school bus donated by the Mt. Clemens Y.M.C.A.

They returned at 5 p.m. after filling 2,000 sandbags for Harrison Township residents.

Item Interests Woods Council

A resolution from the City of Westland regarding a constitutional amendment prohibiting judges and courts from ordering any legislative body in Michigan for any purpose was of interest to The Woods Council at the regular meeting Monday, March 19.

The body unanimously approved Councilman Benjamin W. Pinkos' motion that the council draft a similar resolution for adoption at a later date.

Approve Flood Insurance for Woods

(Continued from Page 1) available to our residents," added Mr. Petersen.

According to Federal Insurance Administrator George K. Bernstein, "now that the community has established its eligibility, owners of both residential and nonresidential properties should take prompt advantage of this vital insurance protection." He pointed out that annual U. S. property damage resulting from natural disasters averages \$1 billion and that about 5,000 communities in the nation have some kind of flood threat.

Insurance at federally subsidized rates may be purchased from local property and casualty agents and brokers for all existing and new structures built prior to the identification of the areas of special flood hazard in amounts up to \$17,500 for single family houses and up to \$30,000 for all other residential and nonresidential structures.

On structures, rates range from 25 to 60 cents per \$100 of insurance, depending on their value. Contents may be insured up to \$5,000 with rates changing from 35 to 45 cents per \$100 of insurance on residential contents and 75 cents per \$100 of insurance on contents of nonresidential properties.

Insurance policies will be effective immediately as issued during the first 30 days the insurance became available. Insurance purchased after the first 30 days of community eligibility will become effective after a 15-day waiting period.

Besides providing coverage

against loss, the Federal flood insurance program helps promote sound flood plain management and land use control. Mr. Bernstein explained that "in becoming eligible for flood insurance, communities must adopt land use and control measures, which vary according to the characteristics and specific flood threat of the individual community. These measures are generally designed to guide future development away from flood hazard areas and set construction standards such as minimum foundation and floor evaluations."

Park Fire Sergeant Benoot Set to Retire

Park Fire Sgt. Andrew Benoot, 63, will serve his last day on the departmental payroll on Saturday, March 31, after nearly 39 years of service with the community. He was appointed to the department on May 5, 1934.

He was born in Throuout, Belgium, the son of Gordon and Julia Benoot, who emigrated to the United States when the sergeant was only four years old.

Before becoming a fire-

fighter, Benoot was hired by the then Village of Grosse Pointe Park, to work indirectly with the Fire Department, installing fire hydrants, alarm box systems, etc. He decided to become a fireman, and applied for the job and was accepted.

He interrupted his service with the city to join the United States Army during World War II, serving with the Chemical Warfare Division, from 1942 to 1946. His

tour of duty was in the European Theater of Operations (ETO), in England, France and Germany. He was honorable discharged with the rank of staff sergeant, and promptly returned to his job as a firefighter.

While working for the city he recalls he served under six fire chiefs and one director of public safety.

The sergeant had been a resident of the Park for 50 years, until about three years ago, when he and his wife, the former Loma Seay of Aaron, Tenn., moved to 4185 Beaconsfield, Detroit.

The Benoots are the parents of three children. Mrs. Bobby (Virginia) McAlister, whose husband is a Park police sergeant; Michael, 19, and Andy, 13. Benoot stressed that his youngest son is not "Junior".

Mr. and Mrs. Benoot are the grandparents of two girls,

Brenda and Christie. The sergeant, and a sister, Mrs. Ralph (Jennie) Moore, both of Warren, Mich.

Benoot was promoted to fire corporal in 1966 and sergeant in 1971.

He was given a departmental citation about three years ago for saving the life of a young lady. He was about to enter Bon Secours Hospital to visit a sick friend, when the young woman came out through the hospital entrance. She had just received an injection for an insect bite. The girl collapsed, apparently from the after effects of the shot, and her breathing stopped.

Sgt. Benoot promptly went into action and applied mouth-to-mouth resuscitation, until the girl began breathing again.

Fire Chief Phillip Costa had this to say about the sergeant: "Sgt. Benoot has always been a dedicated firefighter. Even when he was off duty, when an alarm was received he would respond and assist the on-duty firemen. On three occasions the sergeant was overcome by smoke and was hospitalized. He was always there when we needed him."

"He will be missed by his colleagues, to whom he has been an inspiration during his years of service. His kind will be hard to replace."

Benoot said that he has no definite plans on what he intends to do after his retirement becomes official. All he can say for sure is that he and Mrs. Benoot "will travel a little", after which, they will decide what course to take when they return home.

His colleagues of the department and his friends will honor him at a party to be held at the Allard House, 19478 Harper, on his final day of work on March 31, starting at 7 p.m.

Recent additions to membership include Bert Emanuel, of Picke lane, Don Little of Country Club drive, John Moran of Williamsburg road, Jack Reneck of Lennon avenue, Clarence Williams of University avenue, Dr. Edward Wallace of Blossom lane, Mack Camp of Anita drive and Bud Abbott of Kensington road.

The Woods Council at the regular meeting, Monday, March 19, unanimously concurred in the recommendation of City Comptroller-Assessor Frederick G. Hornfisher, and moved a resolution authorizing the city to acquire a piece of land, (Post and Brys Park subdivision), from the State.

This matter is regarding the conveyance of state-owned land to the city. The land is in the area where Brys drive and Eight Mile road meet and reportedly is too small to utilize for a building.

Woods Gains Piece of Land

Name Pointer Chief Officer

Dean E. Richardson, president of Manufacturers National Bank of Detroit, has been designated the bank's chief executive officer. Mr. Richardson, a resident of Cloverly road, began his banking career in 1953 with the Industrial National Bank. He joined Manufacturers Bank in 1955 when the two banks consolidated. He was first named an officer in 1959 and became bank president in 1969.

Resident Writes Woods on Bus Safety

By Roger A. Waha
A resident, concerned about two areas of traffic safety for children, recently wrote The Woods Council and requested the body take legislative action on bus operator's license requirements and bus "basic safety."

In action taken at the regular meeting Monday, March 19, Councilman Kenneth W. Eberner's motion to refer the matter to the Committee of the Whole for further study, (with a report back to the council with recommendations) was unanimously approved.

City Administrator Chester E. Petersen reported that City Attorney George Catlin has been preparing an ordinance on buses including safety aspects, driver's qualifications, et. al.

The resident, attorney Joseph G. Aprea, focused upon the matter of qualifications for bus operators who transport children and, secondly, the "inherently dangerous condition of the SEMTA buses now being used within our city limits," according to the letter.

"There has been a focus of attention upon the general dilapidated condition and excessive pollution emissions of

the vehicles," he said, "however, I feel that basic safety is even a more important area of concern."

He suggested, on this point, the counsel "adopt the new federal regulations with regard to private and public vehicle safety features including all of the proposed passive restraint systems for public vehicles which operate in our city."

As for operator's qualifications, Mr. Aprea noted, "In my opinion, it would be quite appropriate for the council to not only specifically enforce state driver's license requirements for the drivers of all buses, but, in addition, to make more stringent requirements for the operation of such vehicles within the city limits."

In commenting upon the condition of SEMTA buses, Daniel D. Morrill, SEMTA assistant operations manager, said, "I don't believe there are any unsafe vehicles being operated by SEMTA." The Authority, he continued, doesn't allow equipment to be operated in an unsafe condition. "If any equipment is unsafe, we take it off the road."

Mr. Morrill also mentioned the Authority has State guide-

lines and controls which must be met regarding the maintenance of equipment and is subject to the Wayne County Pollution Control Board regarding pollution emissions. "I think the gentleman is substituting a surface appearance for knowledge of coaches," he added.

When the Lake Shore line was purchased by SEMTA in September 1971, the Authority was left with an older fleet, he said. A plan has been submitted calling for the purchase of \$10 million worth of new equipment in fiscal year 1974, noted Mr. Morrill.

YFU Chorale Picks Students

Four Grosse Pointe South High students have been selected to participate in Youth for Understanding's Chorale, one of the teenage exchange program's three musical groups.

They are Diane Swanson of Chalfonte avenue, Vanessa Helin of Windmill Pointe drive, Howard Wooden of East Jefferson avenue and Rebecca Hewens of Washington road.

Each year the groups alternate their tours between Europe and South America, performing in concert halls, community centers, parks, factories, churches and schools. The students also live with host families while touring.

The four students were

selected upon recommendation from their high school music teacher, a personal interview and audition by the YFU conductors.

Since the basis of Youth for Understanding is a family living experience, the students were also chosen as exchange students — for their maturity, ability to accept responsibility for their own actions, and ability to represent their country overseas. Members are drawn from Michigan and Ohio and weekly rehearsals are held until departure.

The 57-member Chorale, under the direction of Robert Pratt, chairman of Pioneer High School's Music Department, and 18-member String Ensemble directed by Gabriel Villasurda, orchestra director at Tappan Junior High School and Huron High School, will tour Latin America for six weeks.

They depart on June 27 from Detroit. Included in their itinerary following the arrival in Maracaibo, Venezuela, will be performances in Caracas; Bogota, Columbia; San Jose, Costa Rica and San Salvador. The group will return to Detroit from Guatemala on August 8.

Prep Speakers Place Fourth

The Austin Prep High School Forensic team took fourth place in the Detroit Catholic Speech League. Austin speakers have participated in monthly rounds of speech activities with 25 other schools since October. The final tournament was held Sunday, March 18, at Bishop Borgess. To attend this event a speaker must have won an award for speaking excellence during the regular season.

The students who participated were Charles Pentis, Richard Belanger, Kevin Taylor, Greg Holland, Albert Allen, Joseph Vermillion, Patrick Connell, Douglas Thomas, Wayne DeFour, Richard David, Frank Palazzolo, Mike Sawicki, Robert Zinser, Mike Freitas, Tom Vaughn, Craig Keller, Bob Burchette, Dan Spataro, Duane Jelley, Jim Bidigare, and Mike Ryan.

At the final event, Charles Pentis took third place in the area of declamation which qualifies him to attend the national competition in June in Chicago.

Taking fifth place in multiple reading was the group presenting "See, I Told You So." Tying for first place in

the league were the two multiple readings, "Clockwork World" and "Lord of the Flies".

The Austin Forensic team is moderated by Thomas E. Bailey, John Joseph and Bruce Keftgen.

The next event for the Austin speakers will be the state league finals. Austin will host the district match of school speakers on April 4. Participating in this state contest will be Austin, Grosse Pointe North, Regina, Notre Dame, Finney, Bishop Gallagher and Star of the Sea. Thomas Bailey will act as district chairman.

Set Blood Drive For March 30

The Red Cross Bloodmobile will be at The Pointe Masonic Temple, Vernier road and Mack avenue, Friday, March 30, from 3-9 p.m.

The Masonic Temple arranged to have the Bloodmobile, and everyone is invited to come as the Red Cross is reportedly in dire need of blood. For further information, call the temple at 885-9719.

Cheerleaders Being Cheered

Our Lady Star of the Sea Grade School junior varsity cheerleaders have something to shout about.

The group laid claim last week to a third-place trophy in city-wide competition among cheerleading teams from 30 schools. The victory marked the first time in the school's history a junior varsity squad placed in the upper three teams in such a contest.

Although the varsity team failed in its attempt to bring home a trophy, this season also marked the first time both teams had qualified in the same year to represent the school in the competition. Coached by Sally Steele, the junior varsity team was led to its win by Captain Lynda Southan and Co-Captain Ann Cohan. Other members of the unit included Jennifer Marciniak, Colleen Bingham, Joy Promack, Mary Scarfone, Cathy Ventimiglia and Colleen Fannon. The girls were treated to a victory dinner at the Detroit Yacht Club after their winning performance by Doctors Sam Scarfone and Walter Promack, fathers of two of the team members.

Mite Bruins Nip Leafs To Win Costello Trophy

In a come-from-behind victory, the powerful Bruins won the final championship playoff game of the Grosse Pointe Hockey Association Mite Division by defeating the Leafs, 2-1, to capture the coveted Costello Trophy.

Called by coach Jim Brown, the Bruins went into the final period of play behind, 1-0, and without having made a shot on goal.

However, led by center John Mueller and backed by defenseman Peter Jacobell and Jeff Griffin with forwards Todd Mobley and Steve Aiuto, the Bruins held off the Leafs first line of Marty Wittmer, Brian Dalby and Pat Boll and began an assault in the middle of the final period.

The tempo was continued by the Bruin second line when, with about four minutes to go, Peter Moody drove hard on the net to score unassisted, after John Forbes broke the puck loose, to notch the game, 1-1. Within a minute, an alert Toby Monforton, assisted by Moody, slammed in a rebound for the winning goal. The Bruin third line led by John Weber, Mark LeChard and Tony Ugval then held onto the victory.

Parents of both teams and spectators were proud of all the young boys who skated their best hockey attempting to win the Trophy. The Leafs displayed great effort and strong skating but the determined Bruins were not to be denied.

The playoff championship roster includes: centers John Mueller, Peter Moody and Randy Barker; forwards Todd Mobley, Steve Aiuto, John Forbes, Toby Monforton, John Weber and Tony Ugval; defenseman Peter Jacobell; Jeff Griffin, Bob Swaney, Doug McNair and Mark LeChard with goalie Pat McKee.

Coach Brown, assistant coach Jim Barker, along with manager Norma Brown, reportedly deserved praise for this accomplishment.

Estate

(Continued from Page 1) at their present location on Belle Isle.

Costly To Maintain The attorney said that the estate cannot continue to bear the cost of maintaining the mansion, the annual maintenance of which is estimated at \$110,000.

Purdy said that the Farms council was notified by letter on February 5, of the SLI's intentions on the proposed development, provided the zoning amendments are approved. He added that he hoped that the study will include amendments that will permit the development of the complex on the Dodge property.

Purdy said, at a later date, if his group is prohibited by the ordinance to develop the estate, the property will not be purchased, and no further action, legal, or otherwise, will be taken. However, if the project is approved, permits will be obtained and work will proceed as planned.

It was disclosed that the Farms city planning consultants should complete their study of the zoning laws and submit their recommendations to the council in about three weeks.

'Free' Strip

(Continued from Page 1) see pays his quarterly fee, he will receive a different colored sticker, to show that the fee has been paid.

The Farms council enacted an ordinance in January, at the request of The Hill businessmen, who had complained of the difficulty in finding a place to park for themselves and for their employees during business hours. Customers, and others without stickers, will be prohibited from parking in the strip from Monday through Saturday of the week.

Police Chief Robert Ferber said that under the ordinance, unauthorized parkers will be issued warnings during the first week of April. However, on the second week, violations will be issued.

Under the new law, the fine for illegal parking in the strip is \$5, if paid on the day the ticket is issued. If the fine is not paid within a 24-hour period, it becomes \$10. This will be strictly enforced, the chief added.

LOMBARDO TO APPEAR

Guy Lombardo and his Royal Canadians will give one show at the Masonic Auditorium on Sunday, April 8, at 3 p.m. Tickets for the show are available at the Masonic Auditorium box office and all J.L. Hudson and Grinnell's ticket centers.

Youth Service Cases Decline

A decrease in complaints processed by the Youth Service Division, (YSD), occurred in February as against January. Thirty-eight complaints were received in February, while 45 were taken the previous month.

The leading complaint once again was Drug Abuse Violation. During February, 19 such complaints were received while 20 were processed in January.

Of the 19 complaints, 13 were marijuana cases, two were synthetics and four were classified as "all other."

Runaways / missings was the second leading complaint received in February. There were eight such complaints in comparison to three during January.

For the first time in several months larceny complaints showed a slight drop—from six in January to two in February.

Seven applications for petition were filed with the Wayne County Juvenile

Court, all for males. Three were for larceny, two were runaways and two were for violation of the Controlled Substances Act, (marijuana). As of the report, court action has placed six on probation, with no action as yet being taken on one runaway.

The breakdown of total cases for February shows: Violation of the Controlled Substances Act, 19; runaways/missings, eight; larceny-theft, weapons laws and other criminal contacts, two each; aggravated assault, other assaults, burglary, drunkenness and traffic arrest, one apiece.

Bookends Given Defer School

In keeping with the "Project Share 50" program celebrating the 50th birthday of Camp Fire Girls in the Detroit area, Bluebird and Camp Fire troops from Defer School presented the school library with 50 bookends.

The girls, led by Mrs. Edward Hanpeter, Mrs. Edward Evans, and Mrs. Richard Forton used proceeds of the just-completed candy sale to finance their gift.

In a special ceremony on Friday, March 16, in the school library, the girls presented the bookends to Betty Lou Frounfelter, the instructional resource and materials librarian and to Jesse Lawther, the principal of Defer.

The colorful plastic bookends will bear a Camp Fire sticker as a tribute to the groups' generosity.

In addition to the bookends, the girls presented books on the history of Detroit, donated by the Wayne State Press of Wayne State University. The books are not only needed and valuable reference books, but also mark the beginning of a paperback collection in the Defer library.

Vandals Break Van Windows

Mark Collinson, 538 St. Clair, reported to City police on Wednesday, March 21 that two windows of his 1969 Ford van had been broken while it was parked on St. Clair. A baseball bat may have been used to smash the windshield and window on the driver's side of the van. Police noticed broken windows in another car parked on St. Clair and also on University.

GP Swim Club Hosts Weekend Meet

The Grosse Pointe Swim Club hosted the Michigan AAU boys and girls 16 and under State championships the weekend of March 24-25 at North High School. Over 600 swimmers from as far away as the Upper Peninsula attended the two-day event.

Pointers took the girls High Point Team Trophy winning both the 400-yard medley relay and the 400-yard free relay, plus placing girl swimmers in seven individual events.

Mickey Montagne won the 50-yard freestyle and finished second in both the 200 IM and the 200 freestyle. This was enough to place her sec-

ond for the individual high award which was won by Shannon O'Connell from Dearborn. She won three firsts and broke three state records.

Meegan Montagne placed in three events — the 100 back, 200 free and the 100 free. Laura Rinke placed third in the 100-yard breaststroke and swam on the winning medley team with Star Hessburg, Mickey Montagne and Pam Hallman. Pam Hallman won the gold medal in the 100-yard butterfly with a winning time of 1:05.9.

Marsha Maurer placed in the 100-yard free and swam on the winning freestyle re-

lay. Beth Boerner and Joy Promack placed on a relay along with Debbie King. Most of the Grosse Pointe swimmers did a fine job and coach Tim Kennary was proud of his girls.

Ray Bernard finished third in the 100-yard backstroke with a time of 1:00.4. He also swam on the boys medley relay team that placed sixth along with Jeff Kirk, Tom Scherr and Hank Kuhlman. Hank Kuhlman placed sixth in the 50-yard free.

The Grand Blanc Team took the boys high point trophy and the runnerup went to Grand Valley Swim Club. Six State records were set

in boys events. The meet was a success in every way and the Swim Club gives many thanks to the parents who helped make the meet possible.

The 1975 auto emissions standards: do they represent "overclean"?

We believe they do. And the reasons why can be found in the March issue of Motor News, official publication of Automobile Club of Michigan.

We want cleaner air. Everybody does. But the present standards mandate auto engines that are cleaner than clean at prices you won't want to pay—up to \$1 for a gallon of gas... up to 40 percent reduction in gas mileage... the possible rationing of gas... and worse, engines that could stall out as you try to cross a street or highway.

Youth Service Cases Decline

A decrease in complaints processed by the Youth Service Division, (YSD), occurred in February as against January. Thirty-eight complaints were received in February, while 45 were taken the previous month.

The leading complaint once again was Drug Abuse Violation. During February, 19 such complaints were received while 20 were processed in January.

Of the 19 complaints, 13 were marijuana cases, two were synthetics and four were classified as "all other."

Runaways / missings was the second leading complaint received in February. There were eight such complaints in comparison to three during January.

For the first time in several months larceny complaints showed a slight drop—from six in January to two in February.

Seven applications for petition were filed with the Wayne County Juvenile

Court, all for males. Three were for larceny, two were runaways and two were for violation of the Controlled Substances Act, (marijuana). As of the report, court action has placed six on probation, with no action as yet being taken on one runaway.

The breakdown of total cases for February shows: Violation of the Controlled Substances Act, 29; runaways/missings, eight; larceny-theft, weapons laws and other criminal contacts, two each; aggravated assault, other assaults, burglary, drunkenness and traffic arrest, one apiece.

Bookends Given Defer School

In keeping with the "Project Share 50" program celebrating the 50th birthday of Camp Fire Girls in the Detroit area, Bluebird and Camp Fire troops from Defer School presented the school library with 50 bookends.

The girls, led by Mrs. Edward Hanpeter, Mrs. Edward Evans, and Mrs. Richard Forton used proceeds of the just-completed candy sale to finance their gift.

In a special ceremony on Friday, March 16, in the school library, the girls presented the bookends to Betty Lou Frounfelder, the instructional resource and materials librarian and to Jesse Lawther, the principal of Defer.

The colorful plastic bookends will bear a Camp Fire sticker as a tribute to the groups' generosity.

In addition to the bookends, the girls presented books on the history of Detroit, donated by the Wayne State Press of Wayne State University. The books are not only needed and valuable reference books, but also mark the beginning of a paperback collection in the Defer library.

Vandals Break Van Windows

A baseball bat may have been used to smash the windshield and window on the driver's side of the van. Police noticed broken windows in another car parked on St. Clair and also on University.

GP Swim Club Hosts Weekend Meet

The Grosse Pointe Swim Club hosted the Michigan AAU boys and girls 16 and under State championships the weekend of March 24-25 at North High School. Over 600 swimmers from as far away as the Upper Peninsula attended the two-day event.

Pointers took the girls High Point Team Trophy winning both the 400-yard medley relay and the 400-yard free relay, plus placing girl swimmers in seven individual events.

Mickey Montagne won the 50-yard freestyle and finished second in both the 200 IM and the 200 freestyle. This was enough to place her sec-

ond for the individual high award which was won by Shannon O'Connell from Dearborn. She won three firsts and broke three state records.

Meegan Montagne placed in three events — the 100 back, 200 free and the 100 free. Laura Rinke placed third in the 100-yard breaststroke and swam on the winning medley team with Star Hessburg, Mickey Montagne and Pam Hallman. Pam Hallman won the gold medal in the 100-yard butterfly with a winning time of 1:05.9.

Marsha Maurer placed in the 100-yard free and swam on the winning freestyle re-

lay. Beth Boerner and Joy Promack placed on a relay along with Debbie King. Most of the Grosse Pointe swimmers did a fine job and coach Tim Kennary was proud of his girls.

Ray Bernard finished third in the 100-yard backstroke with a time of 1:00.4. He also swam on the boys medley relay team that placed sixth along with Jeff Kirk, Tom Scherr and Hank Kuhlman. Hank Kuhlman placed sixth in the 50-yard free.

The Grand Blanc Team took the boys high point trophy and the runnerup went to Grand Valley Swim Club. Six State records were set

in boys events. The meet was a success in every way and the Swim Club gives many thanks to the parents who helped make the meet possible.

The 1975 auto emissions standards: do they represent "overclean"?

We believe they do. And the reasons why can be found in the March issue of Motor News, official publication of Automobile Club of Michigan.

We want cleaner air. Everybody does. But the present standards mandate auto engines that are cleaner than clean at prices you won't want to pay—up to \$1 for a gallon of gas... up to 40 percent reduction in gas mileage... the possible rationing of gas... and worse, engines that could stall out as you try to cross a street or highway.

What are the alternatives? Find out by joining informed Triple-A members reading the March Motor News. We'll send you a FREE copy.

Has Suggestion on NFL Rules

A Pointe woman, who's a sports columnist for The Football News, will have her idea to change the National Football League's post-season playoff rules considered at the NFL Spring Owners meetings at Scottsdale, Ariz., Monday-Thursday, April 2-5. Pamela Stanton, 7 Stratford place, received a letter from Joe Robbie, owner of the Miami Dolphins, that he agrees with her suggestion that playoff sites should be decided by giving preference to the team with the best regular season record, rather than use the current rotation method.

Mr. Robbie told Mrs. Stanton her suggested rule change is on the agenda for the meetings. Currently, the NFL gives priority designations to the Eastern, Central and Western Divisions each season and each division takes turns in being the hosts for playoff games.

Mr. Robbie indicated that the incentive plan is much more preferable and the proposed change would give teams which wrap up their division crowns early an incentive to keep winning so that they can be the home team for the upcoming playoffs.

During the past season the champion Dolphins who were 14-0 for the regular season

had to travel to Pittsburgh, (11-3), for a playoff game. Under the new plan Miami would have been the home team because it had the better record. Mrs. Stanton said, "I'm thrilled that the NFL will talk about my suggestion. I hope they adopt it right away." Mrs. Stanton's husband, Roger, is publisher of The Football News.

Those whose work "stands proud" include Debbie Young, Mimi Werner, Barbara Hanson, Kim Halsey, Kevin Maloney, Gerry Damm, Mike Smith, Steve Jara, Paula Stenczynski, Debra Robert, Tim Freeland and John Webster.

Jaycee Drive Wins Approval

The mayors of The Farms, City and Park, the mayor pro tem of The Woods and the village president of The Shores have issued proclamations declaring the week of Monday-Sunday, March 26-April 1, "Jaycee Jelly Week" in recent action.

Farms Mayor William Butler, City Mayor John King, Park Mayor Matthew C. Patterson, Woods Mayor Pro Tem Marvin R. Boutin and Shores Village President Gerald Schroeder signed the proclamations in recognition of the campaign that will be conducted by the Grosse Pointe Jaycees to aid in the financial support of Pointe handicapped children.

Co-chairmen Pieter Van Horne and Sissy Pierce have arranged for sales to be conducted In-The-Village, Seven-Mack Shopping Center, Sears Roebuck and Co., Farms Auto Wash, in addition to a door-to-door campaign.

Donations of \$1 will return a glass mug of grape or peach jelly. The handle on the mug makes it appropriate for reuse as a drinking mug for children or adults.

The goal of the "Jelly Week" drive is to sell 7,300 mugs. Proceeds of the sale will benefit the recreational and educational programs conducted for the total development of retarded children of the Grosse Pointe communities to supplement the education provided by the school system. All donations are tax deductible.

The week culminates several long weeks of planning and work of the two organizations. Community response to this effort is needed to guarantee a successful sale, report the Jaycees.

To Give 'Roar Of Greasepaint'

The plot deals with the idea that few people get everything they want out of life yet true contentment lies in the heart.

Tickets, at \$2, should be bought in advance. They are available from students in the production or by calling 882-8500. A few tickets will be available at the door.

BOYS BLOCK TRAFFIC

Two boys, about 18-years-old were standing in the street and refused to move. When Mr. Johansson got out of the car to investigate, one of the boys became violent and struck him in the face, causing several lacerations. The other boy did not attack him but used obscene language. They then ran through the backyard of a Cadieux residence.

PLAGUE HITS POINTE
When heroin spread through the black ghetto in the early forties, we, the white majority, ignored it as if it were something to be expected of "those" people.
Today this same plague is preying on the children in Grosse Pointe. We are frantically searching for ways of halting its progress and curing its effects, but so far we have been unsuccessful. It will take time to find its sources and to develop means of treating its effects. It is too bad that we were not equally concerned in the early forties.
Doesn't it make you wonder what new plague lies seeding in the inner city, nurtured by our own indifference? What new pestilence will creep over our imaginary walls because we are too concerned with our pleasure to realize how much we are affected by the well being of all people.

Farms Court Docket Light

Farms Municipal Judge Robert Pytell disposed of a light court docket within a very short time on Wednesday, March 21, when only six persons were summoned before him to answer for various law infractions.

Daniel Cassey of 21418 Palister, St. Clair Shores, accused of failing to stop within an assured clear distance ahead, pled guilty and was found guilty and assessed a fine of \$25.

George A. Rideout of 19652 Blossom lane, charged with three counts of law breaking: driving while under the influence of liquor; failure to stop within an assured clear distance ahead; and being

drunk in a public place, entered pleas of not guilty to all counts. His trial date was set for May 23.

George Martin of 448 Roland, charged with driving on a suspended license, stood mute. The court found him not guilty.

Edward W. Taube, Jr., of 20 Duval road, who had been ticketed for speeding 35 miles an hour in a 25-mile zone, pled guilty as charged and was found guilty, but was given a suspended sentence.

Kevin D. Miller of 264 Kerby road, accused of speeding 30 mph in a 25-zone, pled guilty. He was placed on probation for three months, the period to terminate on July 1.

Marshall Troester of 460 Madison, pled not guilty to a parking violation, and was found not guilty.

City Firemen Attend Course

John Onstwedder and Sergeant Gerald Mehl, firemen in Grosse Pointe City, took part in an officers' fireman's training course at the University of Michigan's Civil Defense Center in Ann Arbor.

The 40-hour course was held from Monday, March 19, to Friday, March 23, and the men lived at the center during that time.

The class was for fire officers and prospective officers. Its purpose was to make the 22 participants more informed and better prepared fire fighters.

Topics covered during the session included leadership, chemical fire control, deploying equipment, directing men in an emergency, fireground operation and problems and maintaining morale.

Award Sheet Piling Contract

A bid for the installation of 500 lineal feet of sheet piling on the Milk River, north of the Jefferson street bridge, was awarded to Riedel Construction Company this week, (subject to a check by The Woods city engineers).

The amount was \$86,861.68, (an alternate amount was \$87,296.80). Work is reportedly scheduled to begin immediately.

At a meeting of the Milk River Drain Drainage Board Wednesday, March 14, six bids were reportedly taken, ranging from a low bid of \$79,761 to the high bid of \$146,069.

Installation of the piling will help protect and curtail the erosion of soil on the embankment of the Milk River channel.

BUYS VOTING MACHINES

The Woods Council at the regular meeting unanimously approved the purchase of four used voting machines at a price of \$1,075 each. The overall total is \$4,300. It was revealed at the meeting the cost of one new machine alone is around \$6,000 to \$8,000.

THE FATAL MARRIAGE

A Lion was so grateful to a little Mouse for setting him free from a hunter's trap that he told the Mouse to choose anything in the world that he wanted.

The Mouse was so ambitious that he said he wanted the Lion's daughter to be his wife.

The Lion knew that this was a very stupid choice, but a promise was a promise; so he sent his daughter, a big Lioness, to marry the Mouse.

She became so excited when she saw her husband-to-be that she accidentally stepped on him and that was the end of the Mouse.

The Moral . . . What we think we want is not always the best thing for us!

P. S. As the man said, "What we think we want is not always the best thing for us!"

Whenever there is the shadow of a doubt: Be safe! Consult experts!

When it comes to a major move like lioness, mouse, and marriage: Consult a marriage broker.

Pointer Misses Hockey Trip to Europe

Due to a charley horse suffered in the recent NCAA hockey finals, Pointer Rob Palmer of the University of Denver will miss participating with the United States ice team in the World Hockey Tournament, Graz, Austria. In Denver's game against Wisconsin, won by the Badgers, 4-2, Palmer was hit by an opposing defenseman in the first period. The junior center finished the rest of the contest but was unable to make the trip last week to Europe.

Palmer, who netted 25 goals and had 40 assists, was his team's second leading scorer. Denver notched a 29-8-3 record and captured the Western Collegiate Hockey Association crown.

Rob hopes to become a professional hockey player, and has already been drafted by the National Hockey League's Chicago Black Hawks and the World Hockey Association's Houston Aeros.

Book Jose Greco For 'Lighter Side'

Famous Spanish Dancer and Company Stellar Attraction for War Memorial Gala Evening Set for April 12

Jose Greco, Nana Lorca and the Jose Greco Company of Spanish dancers, musicians and singers will bring Grosse Pointe War Memorial's "Lighter Side of Life" series to a stellar finale Thursday evening, April 12, in Frigate Theatre.

The 9 o'clock performance will be preceded at 6 p.m. with cocktails by subscription at Grosse Pointe Hunt Club. Then the gala crowd will move to the Center's Crystal Ballroom for a black tie dinner at 7:30 prior to the show in the theater immediately below.

Reservations for the entire evening including Hunt Club, dinner and performance may be had for \$17.50. Those wishing to come to the performance only may do so for \$8. All seats are reserved and are good.

For over a decade, Jose Greco's name has been synonymous with the Spanish dance, and this company is rated as "the most exciting of its kind in the world today." With Nana Lorca for many seasons his leading lady and

a superbly versatile group of young dancers, singers and musicians Greco has thrilled a multitude of audiences.

While Greco is the most impressive Spanish dancer in the world today, Miss Lorca can safely be called awe inspiring and the personality projected when she dances is not far short of radioactive. The entire company evokes all the uninhibited emotions of the exciting flamenco songs and dances that have made them so popular throughout the world.

Another youth accused in the case, Randy Wassman, 19, of Detroit, was arrested in September on a similar charge. He also was placed under the youthful offender act, police said.

Help Keep The Pointe Proud

The school election being conducted today, (Thursday), is an extremely important one for The Pointe. The NEWS urges the approval of every voter for each of the four proposals on the ballot.

For years the Public School System and the standard of education offered to our young people have been among this community's proudest possessions. The quality of this education has been diluted during the immediate past by the failure of the electorate to provide financial support to maintain these standards.

No election in our memory has received more publicity than this one. Every effort has been made to supply the voters with every bit of information available. There is no possible excuse for anyone to plead ignorant to the issues, excepting sheer laziness or a stubborn refusal to accept the facts. Our public schools and libraries must have enough money to meet operational expenses or they will be forced to close. This is what Proposals One and Two are about. Proposals Three and Four are very modest requests for very small millage approvals to take a very small step toward restoring a very few important services which were eliminated from the educational programs.

Get to the polls today. Cast your vote to evince your pride in, and your determination to, preserve the type of schools and libraries which have contributed so much toward making The Pointe one of this nation's most desirable suburban communities.

Fathers-Sons Cage Battle Set

The Seventh Annual Our Lady Star of the Sea Grade School Father-Son Faculty basketball game will be held Thursday, March 29, at 7:30 p.m. in the high school gymnasium. Members of the community are invited to attend the contest with a thoroughly entertaining evening guaranteed.

Somebody who cares.

Finding a competent nurse to live in or help out isn't nearly so difficult as finding a competent nurse who cares. Our RNs, LPNs, aides and companions are second to none in training and experience. One View From The Capitol

By William R. Bryant, Jr.

Today, Thursday, is school and library millage day. As your State Representative I urge you to support the proposals for two basic reasons.

First, the U.S. Supreme Court in the Rodriguez case has found the Texas school finance laws constitutional. This means that property tax methods of school finance do not violate the U.S. Constitution and the property tax may continue as the backbone of school revenues.

Second, the state aid bills being considered in Lansing for next school year will not help our school system because of its high property value per school child. Thus, except for minor amounts of money for special, categorical programs, the district must rely on its own property

The title of Mr. Wright's address is "The American Indian Today," as Mr. Wright has been employed for the past 15 years by the Department of Social Welfare as coordinator for Indian Concerns. One of his administrative duties has been the organization of "Pow-Wows" throughout the state.

The regent, Mrs. Cyrus Weatherly, will preside at the meeting. Mrs. Gordon Ripley, chaplain, will give the invocation. Mrs. William Sampich and Mrs. Marvin Putnam plan to report on the State Conference recently held in Troy.

Members may call 824-1849 or 822-7579 for reservations.

General Chairman Mrs. George Shammis, of Saddle lane, says the show is a sell-out, which proves that Pointers have not given up entirely on Spring '73. Over 1,000 members of the Auxiliary and their friends are expected to attend.

Proceeds will be used toward the purchase of a linear accelerator for the Cancer Radiation Therapy Center at St. John.

Budding Otto Premingers

Eleven Michigan State University students, from The Pointe, have taken second place in the advanced film category at the MSU Film Festival. The Festival took place in East Lansing at the beginning of the March.

Lynn C. Franklin, a journalism student at the university, recently sent the NEWS a story detailing the venture.

"Under the direction of MSU senior Dennis E. Wickline, the crew was mobilized to produce a 25-minute short subject, which was filmed over the period of one year in the cities of Detroit and Birmingham.

"The film, titled 'The Sword of Pith Creek,' is based on a combination of Greek legends and takes place in the Middle Ages. The story, which was written by Wickline, deals with a young boy who must destroy a magical sword.

"Eugene Whitley, of Lakeland avenue, wrote and performed the musical score. Johanne Kanney, of Bishop road, did the drawings for the animated war sequence.

"The rapid-pace full color film was produced with a budget of \$1,300 and a total crew of 17 people. One of the biggest problems, caused by the lack of money and staff, later proved to be beneficial, Wickline claims.

"The story contains a war scene, for which there were not enough cast members or funds for

Decorative Fabrics For The Selective Shopper

Calico Corners sells fabrics, but not the sort of fabrics the name would suggest, their specialty is not the typical kitchen curtain material, but the fine decorator fabrics, usually available only through the decorators.

Their comprehensive stock of fabrics, gathered from all over the world, include all the pedigree names of the Decorative Fabrics "400"; they run along the selvages to see and marvel at. Designed for home decorative use, they are appropriate for upholstery, slip covers, draperies and bedspreads. In addition, the shop deals only in finest quality "seconds" bringing enormous savings to the customer. "Seconds" in case you are unfamiliar with the term, refers to some flaw in the pattern or color or weave of the fabric—often not discernable unless you compare it to the decorator "first." "For example," explained Bob Davis, one of the owners, "if a bolt of fabric is slightly darker, or lighter, than the original dye lot, it becomes a second. Or perhaps there is some small flaw in the material that repeats at regular intervals. "This sort of imperfection is easy to work around if you are making slip covers or doing an upholstery job. If you require long lengths of yardage for draperies, you get around the problem by buying extra yardage. Because of the price savings on "seconds" this is still a great bargain. So the customer may examine the fabric before purchase, the bolts are placed on a viewing machine and slowly unwound. Flaws are marked on the selvage edge, to identify areas to work around. Short lengths are examined on a large counter top. A small select offering of dress fabrics is offered from the haute couture houses of Dior, Bill Blass, Yves St. Laurent, Oscar de Larenta Davidov, Malcolm Starr and Adele Simpson. These are usually small end cuts in one of a kind patterns, at sensational savings. To the dedicated seamstress, Calico Corners is the greatest invention since the sewing machine. The two shops in Michigan, 25008 Little Mack near Ten Mile Road, 1933 South Telegraph, just north of Square Lake Road, are two in a nationwide group of some twenty-five stores. The business was conceived in 1945, the brainchild of two New York businessmen whose background included fabric and design. Opening the first shop in Bedford Village, they set about gathering a full range of the finest domestic and imported fabrics. The success of this venture is evident in the growth of the business. "Fabric shops are plentiful," said Davis, "but Calico Corners has the advantage of offering the most exquisite fabrics at the most exquisite savings! Each spring our buyers spend six weeks in Italy, France and England, collecting new imports for our shops." Other services of the store include a full selection of trims, accessories, and drapery hardware. To aid those who do not do their own sewing, the shop will furnish a list of names and phone numbers of excellently qualified craftsmen. If you're in the mood to do some spring decorating, pay a visit to Calico Corners... open daily (except Sunday) from 9:30 to 5:30, Monday and Thursday evenings until 9.

Preludes Concert Finale of Season

The season's closing program of the Detroit Symphony Preludes is scheduled for Friday, April 6, at the Grosse Pointe War Memorial, in the Crystal Ballroom of Fries Auditorium.

The three mini-musical-luncheon series, presented by the Women's Association for the Detroit Symphony Orchestra, are designed primarily to the theme of "getting-to-know" your Detroit Symphony Orchestra and its members. The morning performance begins at 11:15 o'clock. Luncheon follows at 12:15.

The season's studies of the different sections of the orchestra has featured "strings" with an outstanding performance by concertmaster Gordon Staples and the "woodwinds" with an interesting program by the Detroit Symphony Woodwind Quintet. Its members are Ervin Monroe, principal flutist; Arno Mariotti, principal oboist; Paul Schaller, principal clarinetist; Charles Sirard, principal bassoonist; and Eugene Wade, principal French horn player.

The upcoming mini-musical "percussion" promises to be equally interesting and musically exciting.

Participants will view an exclusive setting of the familiar "left stage" setting of percussion instruments.

The percussion ensemble includes Salvatore Rabbio, principal timpanist, a Bostonian who came to the Detroit Symphony in 1958 from the Boston Pops Orchestra. Head of the Percussion Department of Wayne State University, he is also Director of WSU's Percussion Ensemble.
 Mr. Rabbio currently is building a percussion library of solo and ensemble literature and is also involved in locating and restoring old and rare percussion instruments. He resides in St. Clair Shores.

Robert Pangborn, principal percussionist, joined the Detroit Symphony in 1964, following work with the Indianapolis and Minneapolis symphony orchestras, the Cleveland Orchestra and Metropolitan Opera Orchestra.
 The percussionist has been solo performer in premiere works for percussion instruments under conductors George Szell and Sixten Ehrling and has been a recording

percussionist in Motown and London labels. Currently, he teaches at Detroit Community Music School and Cranbrook. He resides in Ferndale.

Norman Fickett, assistant principal percussionist, from Portland, Me., attended the Eastman School of Music. He joined the Detroit Symphony at the beginning of the 1965 season.

Previously principal percussionist with the Rochester Philharmonic Orchestra, he currently is on the faculty of Oakland University and Schoolcraft College. Electronics and photography are his hobby interests. He resides in Pleasant Ridge.

Sam Tundo, percussionist, is a native Detroit who joined the Orchestra in 1963. He has held posts with the New Orleans Symphony, Santa Fe Opera Company, Florida Symphony and the North Carolina Symphony.

While in New Orleans, Mr. Tundo also managed a French Quarter night spot for four years. Currently he is a drummer with the Metamorphosis rock group and a percussionist with the 18-piece Austin Moro Big Band. He resides in Royal Oak.

Included in the program will be "Theme and Variations for Percussion Quartet with Narrator" by William Kraft, principal percussionist with Los Angeles Philharmonic Orchestra.

Preludes chairman Mrs. Arnold W. Lungershausen, of Berkshire road, has been asked to narrate. The customary informal discussion will close the program.

Hostess chairman Mrs. Winfield S. Jewell, Jr., of Washington road, has asked the Mesdames C. Jackson France, John W. Griffin, Alfred D. Moran and Berj H. Haidostian to assist her April 6.

Tickets may be obtained by contacting Mrs. Arnold W. Lungershausen at 849 Berkshire road, Grosse Pointe Park, 48230, (VA 1-6922). Tickets for the mini-musical-luncheons are \$7.50 each, by reservation.

Tickets for the mini-musicals only are \$3 each and may be purchased at the door.
