Flood Damages Make Amount Needed Higher Than \$100,000 Goal stablished

Response to Grosse Pointe War Memorial's 1973 Annual Family Participation Campaign has been very good so far from a monetary point of view, but the Memorial are needed for flood conthe thousands, came from all rounding communities, and

The \$100,000 goal was set prior to flood damage and it has been necessary to erect \$60,000 seawalls, dikes and install huge new pumps to protect the property. A total of \$48,643 has been received from 2,450 families, as compared to \$43,643 received from 2,484 families by this same date last year.

Gifts Appreciated The Center's Board of volunteer directors hopes all families will make their donations soon. Gifts in whatever amounts large or small are most urgently needed and much appreciated. A follow up letter will soon he sent to families not yet heard from. All gifts to the Memorial are deductible from taxable income. The Center serves Grosse

Pointe day and night throughout the year. It offers services, education and activities to people of all ages from pre-school to senior citizens. It houses a host of community groups and is a complex of great beauty and utility which was given outright to the community and for which no tax monies or United Foundation Funds are used. Its classes, programs and activities are self supporting, but one fourth of its budget must be met by the people of the community for maintenance and to meet unusual needs such as caused by the high waters and flooding now

taking place. To those who have so generously responded thus far, the Memorial is deeply grateful. They include: March 28, 1973

Precautions Taken Keep Loss Down

Community Effort of Sand Bagging Pays Off; Lake Shore Road Lane Closed

Mother Nature has not been kind to Grosse Pointe recently, or to the rest of the State for that matter. On Monday, April 9, high winds, rain and a turbulent lake worked havoc with the Lake St. Clair shore line.

The feel of the storm made the day seem more devastating than it was in reality. And too, Pointe residents were better prepared this round which kept damage at a minimum.

The spring temperature of 38 degrees compounded with snow and rain created an aura of doom and destruction. Winds from the east, northeast at 21 miles per hour, gusting up to 37 miles per hour made piercing daggers out of the rain.

The wind also churned the lake into an angry sea of whitecaps, which became 10-20 feet tongues of water when they hit the land.

New Sea Wall Helps While some Pointers were calmly eating lunch at the War Memorial, waves battered the shoreline in front of the Center. A cement sea wall had just been com-pleted last week which prevented extensive damage.

John Lake, director of the War Memorial said the wave action was worse than it was on March 17 but "we are better prepared." Along with the sea wall, the area around the Fries Auditorium had been sandbagged which prevented flooding. The center had temporary pumps at work and had installed large sump pumps which would be

electrically connected later in the week. Mr. Lake said that in midmorning, the waves were at least 20 feet high when they hit the wall and some of the spray reached the steps of the terrace. "This is the first

time I've known Alger House to shake." He went on to say that 'The wall is helping, it is keeping the lake from moving in altogether. Along with the pumps, we should be okay."

Church Lawn Chewed Some areas were not as well barricaded as the War Memorial. At the foot of the parking lot behind Memorial Church, the lawn area was a victim of the lake. The lot itself was not in danger since it was on a grade. However, part of the fence along the shoreline had been knocked down and the water and waves roared in unobstruct-

Council, Community Association for Quality Education and Citizens for Education to a Legislative Roundup Tuesday, April 17, at 8 p.m. in the Board Room of the Administration Building, 389 St. Clair avenue.

The meeting will inform the public about the possible impact of future state and federal programs on local schools and on the taxpayers' pocketbooks.

Topics to be discussed include local versus state funding for education, proposed spending limitations, prob-lems faced by public libraries and the legislative program of the Grosse Pointe Board of Education. Also included will be developments in the busing suit and in the suit attacking the present system of property x. Village Trustee His other local civic responsibility was his trustee-ship with the Village of

Grosse Pointe Shores. His pet project was the harbor and boatwell section of The Shores George Osuis Park on Lake St. Clair. He demanded that the marina remain self-supporting and often stressed the importance of a local government maintaining strong fiscal responsibility.

Hints of his sometimes pugnacious character could be feit at meetings when he would not rest until he thought a topic had been thoroughly discussed, be it a new building program or a bicyclist's safety on Lake Shore road at night.

Once when a reporter introduced himself to Mr. Glancy, The Shores trustee said "You're working for the wrong paper!" as he did not respect the newspaper's accountability. The trustee then offered to refer him to the staff of a more respected publication.

After the assault incident, Mr. Glancy called the NEWS twice from Harper Hospital to ask that a story be written on the cards he had received from Pointe school children. "You have no idea how

much these cards have

cheered me up. I wish that I could thank those kids personally," Mr. Glancy said. The crayon sketches, often of trains, were typically

signed in a seven-year-old's scrawl, "Your friend, John." Other Involvements Mr. Glancy's Detroit area involvements included serving as head of the Plaza Land

The council's first clubhouse was at the corner of Parker and East Jefferson. Council No. 2463 began all over again by holding its meeting in a small hall over a butcher shop on Mack, near McCrerry, Guards; and Trus-Chalmers. Woods Officer Has Close Call

Woods Public Safety Officer William Desilets apparently escaped serious injury during a training exercise at the rear of The Department of Public Safety station Monday, April 2.

Officer Desilets and Officer of St. James Lutheran Bruce Marone were train- Church; Deacon Tom Gorney ing on the Seagrave Snorkel of St. Paul Catholic Church is at the police-fire apron. Officer Desilets was about to make an emergency descent end John McCreight, associon a rope from the Snorkel basket. The basket was reportedly extended to approximately its maximum height, (around 60 feet).

The officer sat on the edge of the basket's opening, exited the basket and grasped the rope with both hands to start his descent.

Public Safety Director Henry Marchand reported as Officer Desilets was swinging out of the basket, the rope somehow got out of the hook on his belt and left him hanging by his hands. The director said he yelled for Officer Marone to lower the basket, while Officer Desilets hung on as long as he could.

The officer slid down the rope some 35-feet, stated Director Marchand. In fact, he slid down so fast one of his rubber fire fighting gloves was burned through to his hand. Both the gloves and the rope were reportedly wet. He landed feet first and penetrated the wet ground some three to four inches, added the director. Upon hitting the ground he fell over

on his back. As he was taken to St. John Hospital, police said he complained of pain in his back, chest and ribs. How-ever, x-rays revealed nothing was broken and he was released from St. John Wednesday, April 4. Officer Desilets is currently recovering at his home and the director said he should be back on the job sometime this week.

When you play another man's game he expects you to be it.

on Monday, April 9, Dr. Theos I. Anderson, superintendent of schools, urged Pointe residents to contact their local state representatives voicing their support of the Bursley bill, Senate

The bill, which has passed the Senate and is currently in the House, needs seven votes to be put on the floor for a House vote.

Dr. Anderson felt that the Bursley bill, as it stands now, will provide the best benefits for the Grosse Pointe area as it does not put a ceiling on monies a district can spend for the schools. He also believed it would provide equal oppor-tunity for all Michigan school districts.

He felt time was of great importance and residents should write as soon as possible. There are currently bills in the legislature which could limit available monies. In addition, the Bursley bill could be further amended, limiting funds.

Dr. Anderson's remarks were made in conjunction with a trip to Lansing on Tuesday, April 3, by Dr.

Mr. Morrill continued, "As much fun as these Friday night Tiger games are, a let of the fun can be dimmed when people have to struggle their way through congested raffic, look for places to park nearby and then pay very high parking fees. Lake Shore wants to take these problems out of the trip.

"We expect this bus service to be very popular. We urge anyone interested in taking them, to call in advance to be sure of the seat. The Lake Shore number is 822-9516."

Buses for all Friday night games will depart at 7 p.m. from two locations. The Woods Municipal Building, (\$2 a person round trip), and the St. Clair Shores Municipal Building, 11 Mile and Jefferson, (\$2.50 a person round trip).

Friday night Tiger games include April 13, Cleveland, April 27, Kansas City, May 4, Texas, May 11, Milwaukee, May 18 Baltimore, May 25, Oakland, June 15, Minnesota, June 29, Baltimore, July 13, California, July 27, Boston, land, September 14, Milwaukee, and September 21 Bos-

members of the Grosse Pointe Study and Action Committee.

In a legislative news bul-letin, Dr. Eddington stated that "Regardless of which state aid bill is enacted ultimately, we are virtually cer-tain that our district will receive no general state aid for 1573-1974.

Therefore, our immediate concerns during the amendatory process in the House center on the amount of funding available for mandatory special education and on whether or not a limitation may be imposed on a local district's per pupil expenditures.

"One of the amendments offered on Tuesday afternoon by Senators John Toepp and Alvin Degrow, (and supported by a number of speakers from low millage districts), would have changed the Bursley concept of power equalization back to a deductable millage formula.

"This would enable low effort districts to continue to receive substantial state aid, possibly at the expense of adequately funding special education throughout Michigan. Thus, Grosse Pointe could have been adversely affected indirectly by passage of such a bill."

There is some confusion as to the cost of the special education at this time. And since special education was made mandatory by law last

It is for this reason that Dr. Anderson stressed im-mediate supportive action of the Bursley bill since it does not impose limitation in its present form.

Trees Fall Prey to Lashing Waters of Lake

Monday's big blow sent Lake St. Clair beyond its normal confines once again and damage was heavy along much of the shore. These trees were toppled near Kerby road and soon after this picture was taken the east bound lane of Lakeshore road was closed by traffic. The crashing waves raised the water in the lane to hubcap height in many places.

Big Storm

(Continued from Page 1) most of it had been done in November and March.

Donald Hallmann, director of Parks and Recreation in The Woods, said that "there was an awful lot of dirt from the lake water in our swim-ming pool." He stated that some land was lost between the swimming pool and the lake but that the situation wasn't 'too serious." It will necessitate a replacement of sod and land.

River Overflows He added there was some overflowing of the Milk River into the Lakefront Park where there was no sheet piling in the park areas. No trees were blown over from the high winds.

On Tuesday morning, April 10, Mr. Hallmann said after the storm had passed, that overall conditions were "very

minor seepage. "The total amount of water on the lawn, and at the end of Lakeland and Elmsleigh was the greatest amount to date," he said.

Marina Damaged He also cited that at the City marina, the storm had beaten away at the wooden docks, loosening some of them. He went on to say that there was some damage to

At Windmill Pointe Park, catwalks along the marina were under eight inches of water. When the storm subsided, the water level dropped eight inches below the catwalks. Wind gusts created waves up to five to six feet high, with water going over the sandbags and dikes.

At Three Mile Park, waves washed away about 40 to 50 feet of fencing. Volunteers and workers attempted to pile sandbags atop the present seawall's reinforcements, but were forced back because of the high waves,

Water poured over the seawall into streets and onto lawns from Trombley to Cadieux, and in some sections caved in the cement blocks. Three houses in the area re ported flooded basements as a result of water backing up through sewers.

Fire Damages Home in Park

An overheated electrical fuse box in the basement of the home of Richard Palmer, 803 Beaconsfield, burst into flames and caused some fire damage to the basement ceiling and smoke damage throughout the house, according to information received from Park Fire Chief Phillip Costa.

The chief said that the alarm was given at 5:49 p.m. on Tuesday, April 3, and that the City Fire Department responded under the Mutual Fire Aid Pact.

The cause of the overheating is believed to be too much of an overload of the elec-

trical system.
The chief said that the fuse box suddenly burst into flames and ignited several ceiling joists in the base-ment. The blaze also destroved the fuse box and surrounding electrical wiring. With the aid of City firefighters, Chief Costa said,

the flames were extinguish ed within five minutes.

Hockey Chiefs Offer Surprises

The G.P. Chiefs closed out | spot in the semi-finals, with their 1972-73 hockey season goals by assistant captains in the Grosse Pointe Hockey Association with as much excitement and anticipation as when they began.

The Bantam team, coached by John Clor and assistants Joe Clor and Jeff Lubeck, and managed by Ross Naidow, finished in fifth place during the regular season. Although the team showed marked improvement to wards the end of the year, they were not considered a big threat in the league playoffs.

In the quarter-final play off game, they did surprise and overpower their archrivals, the Grosse Pointe Seals, 4-2. The Chiefs out skated and outplayed the fourth place Seals to earn a

Then in the semi-final game, the Chiefs stunned the Lakeland Athletics, 3-0, on superb goaltending by Will Hosler, and goals by defenseman John Marcus and assistant captains Paul Gracey and Max McKee.

Led by the playmaking of McKee, much to the surprise of everyone, the Chiefs now had fought their way to the final playoff game for the league championship on Sunday, April 1, at the Lakeland Arena.

However the Chiefs came up flat against a very large and powerful Madison Heights team and were soundly defeated, 5-0. But all the parent sand players agreed, finishing second best for a team that wasn't expected to even be a serious contender proves that what they lacked in talent, they reportedly made up for in hard work, spirit and sheer determination.

Other players participating on the Chiefs include: forwards Mike Jacqueman, Steve Douglass, Lew Farmer, Mark Naidow and Dan Galli, and defensemen Mike Zenoni, Jim Perry, Mark McMahon, George Maghielse and back up goalie Al Casby.

I was pleased to see an author with the stature of Alexander Solzhenitsyn represented with his current best-seller AUGUST 1914. Next is the provocative title, BARE RUINED CHOIRS, by Garry Wills, dealing with "doubt prophecy, and radi-cal religion." A book dealing with foreign policy in Vietnam is The BEST AND THE BRIGHTEST, by David Halberstram. Certainly this vital topic of the day should he represented.

The Civil War is still a popular topic as witnessed by another title: THE CHIL-DREN OF PRIDE: A TRUE STORY OF GEORGIA AND Robert Manson Meyers. I was delighted to see that one of my favorites was on the - THE CLOCKS OF COLUMBUS, by Charles Shiverly Holmes. It tells of the literary career of the late James Thurber, one of my most admired authors and cartoonists.

It was almost inevitable that ELEANOR: THE YEARS ALONE, by Joseph P. Lash, would be chosen. Simone de Beauvoir is represented by THE COMING OF AGE. Another author who I think writes so well is Isaac Bashevis Singer. I was pleased to see his ENEMIES: A LOVE STORY as one of the books selected. Another imaginative and

arresting title on Vietnam is FIRE IN THE LAKE: THE VIETNAMESE AND THE AMERICANS IN VIET-NAM, written by Frances
Fitzgerald. The drug scene
is represented by LICIT
AND ILLICIT DRUGS, by
Edward M. Brecher and the
editors of Consumer Reports.

We have several more biographies to mention. The first made me happy, as I had chosen it to review this Library Association's Notable | year - PIAF, by Simone interesting to read about is QUEEN VICTORIA, FROM HER BIRTH TO THE DEATH OF THE PRINCE CONSORT, by C. George Orwell has not been neglected. Peter Stansky and William Miller Abrahams have written, and been tapped on their shoulders for, THE UNKNOWN ORWELL. A well-known author who has fascinated many people is Virginia Woolf. She is represented by a book written by Quentin Bell, and titled simply: VIRGINIA WOOLF. A title that fascinates me,

and one that I would very much like to read), is THE SAVAGE GOD: A STUDY OF SUICIDE, written by Alfred Alvarez. An unusual subject is THE MOUNTAIN THE CIVIL WAR, edited by PEOPLE, by Colin M. Turnbull; still another is THE MEGASTATES OF AMERI-CA: PEOPLE POLITICS AND POWER IN THE TEN GREAT STATES, by Neal R. Peirce; nor has the Commit-tee forgotten ecology, since the book MY LAND IS DYING, by Harry M. Caudill, was chosen.

It is also that time of year when the Newberry and Caldecott awards are made in the field of juvenile literature. This year's John Newberry award has gone to JULIE OF THE WOLVES, by Jean Craighead George. The setting is Alaska, and concerns Miyax, a young Eskimo girl who must display great courage to survive, lost, without food or compass, in an alien and hostile world. This is a hairdresser looking at your face.

In other words, this is a hairdresser that cares. He doesn't consider his clients faceless ladies in shapeless robes. He considers them interesting individuals. Which is why he studies their faces and clothes and asks about the lives they lead and the way they really see themselves. It's also why he gets the most beautiful results. This kind of hairdresser isn't easy to come by. But if you come by our place, you'll find quite a few. You see, it's the only kind of hairdresser we believe in.

BUYING A SECURITY SYSTEM?

When you buy an apartment at

The Jefferson Apartments Grosse Pointe's newest condominium

... you get not one, but a network of the most modern security systems to guard you, your home and your possessions.

A CLOSED TV MONITORING SYSTEM covers the entrance, outside parking areas and inside garage. The caller can be viewed from a selected channel on the owner's TV set in each apartment. The doorman and manager's office views the same areas.

THE ENTRY COMMUNICATIONS SYSTEM is a new system conceived and engineered by Michigan Bell Telephone Company. Using a touchtone panel telephone in the lobby, the caller dials the owner's apartment. This enables each party to have a private conversation. During the time the caller is in the entrance vestibule, he is under surveillance by the concealed TV camera.

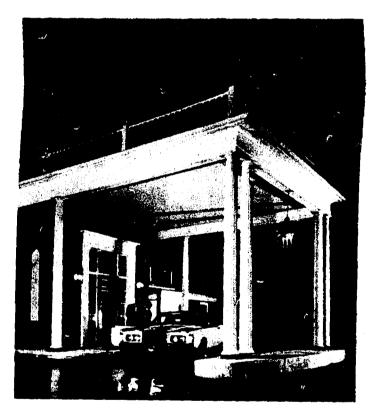

AN ON-GUARD ALERT SYSTEM features a control panel in the manager's apartment and the attendant's office. This notifies of any intrusion into any apartment when the occupants are away. The doorman or manager controls the system by activating the apartment's security supervision at the

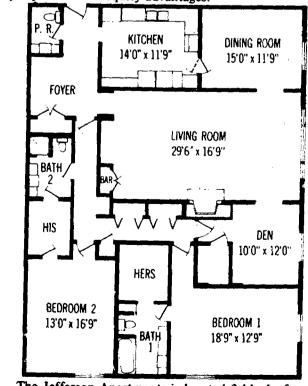

THE FIRE PROTECTION ALERT SYSTEM gives added protection to all occupants of the building and will insure notification of each individual occupant of a fire in an unoccupied apartment.

Further elements of security are the uniformed doorman-attendant and resident caretakers.

Besides security, you also get really gracious living. Here is a typical spacious floor plan of an apartment home which features 9 foot ceilings, individual heating and cooling, top of the line G. E. kitchen with an icemaker and a washer-dryer. A wet bar is conveniently located for entertaining. Insulated walls, floors, plumbing and windows insure maximum quiet. Natural fireplaces, naturally.

There are three separate elevators and approximately a thousand square feet of private storage. Exterior maintenance, gardening and snow removal are arranged. The Jefferson Apartments is an adult community. Residents are home owners and enjoy tax deductions and the investment security of being a property owner and equity advantages.

The Jefferson Apartments is located 2 blocks from a beautiful park with boat slips, 3 blocks from Grosse Pointe Village shopping, 20 minutes from downtown Detroit by

Some people can give you a complex.

Besides being articulate, energetic and attractive, they always find time to join a worthwhile organization, grant an interview, or initiate their own BIG PROJECT.

Mrs. Jack E. Rosch, of Grand Marais boulevard, is a case in Pointe. Now that she has "retired" from her job at Merrill know the first thing about Lynch as executive secretary, now that she and her husband have completely redecorated their Grand Marais house, now that she has her many volunteer commitments under control, she has decided to start an eightsession tennis camp this summer. It's a full business undertaking.

Anne could seem the stereotype of an attractive blond ner is a woman with great understanding of music and the arts and an excellent business acumen.
