IN A PRESS CONFERENCE, the first in more than five months, President Nixon declared that he was not going to resign from his office because of the Watergate affair. Questions concerning Watergate dominated the 50-minute conference held at the Western White House in San Clemente. Nixon said he accepted all the abuses of Watergate; however, he failed to clear up some inconsistencies concerning testimonies given before the Senate Watergate Committee. Nixon also announced the resignation of Secretary of State William Rogers and the nomination of Henry Kissinger to replace him.

Friday, August 24

HENRY KISSINGER, in a press conference Thursday, told reporters that President Nixon had delayed a planned trip to Latin America because of his preoccupation with the Watergate affair. The visit was tentatively scheduled for late in the year but had not been officially announced. Kissinger then pointed out that Watergate had affected foreign policy. However, he did feel that "the effects of Watergate can be minimized," and he hopes to create a "new consensus" behind American foreign policy.

U. S. DISTRICT JUDGE Barrington D. Parker ruled Friday that retail gasoline dealers can raise their prices starting September 1. The Justice Department and the Cost of Living Council said the decision would be appealed. Gasoline prices were to remain frozen until midnight, August 31. Then, under the Phase 4 plan, the retail price of gas would have remained frozen at Phase 3 levels. The gasoline dealers felt that the Phase 4 regulations discriminated against them, and that they had been "singled out for special treatment."

A CANADIAN RAIL STRIKE, which began on Thursday, is causing havoc in that country as well as the United States. Negotiations ended at a standstill Friday night with no indication of when talks would resume. The automobile industry in the U.S. is also greatly threatened by the strike. Auto plants in Canada are planning to lay off workers and trying to seek other ways of shipping parts to Detroit. However, UAW vice-president Douglas Frazer expressed little concern over the strike and did not feel it would substantially hurt the industry here.

HEAVY FIGHTING along Cambodia's three major highways, north, south and east of Phnom Penh, occurred Sunday. Insurgents cut off Phnom Penh's lifeline to the sea and the rice road to the northwest. Col. Am Rong, chief Cambodian military spokesman, said that the Cambodian insurgents and their North Vietnamese allies might be trying to secure trails before the monsoons begin in mid-September.

BEBE REBOZO, a close friend of President Nixon's, was instrumental in helping the President purchase his home in San Clemente, it was revealed Monday. Documents released by the Western White House show that Rebozo and Robert Abplanalp, another Nixon friend, formed a partnership in 1970 that took over most of the mortgage on the Nixon's San Clemente property. The White House said Abplanalp acquired Rebozo's interest in the company in the last month but gave no further details.

Enlarged School Ready to Receive Students

This big addition to South High School, seen from the Grosse Pointe boulevard side, contains 53 rooms, including 11 science labs and 16 general classrooms. The pavement work was nearing

completion when this picture was taken Monday. The building will be open for regular classes on schedule, next Thursday, September 6.

Rotary Club Sets Goals For Service

Continue Local Projects With Annual Antique Show Funds

Grosse Pointe Rotarians, always prominently involved in community activities, have set goals for the coming year that will see Rotary Club of Grosse Pointe going on even further in its community dedication, according to an announcement by the club president, Clarence F. Wascher.

"It is our aim as a service club," says Mr. Wascher, "to further serve the areas of need in the community by working with existing agencies and institutions, and to analyze the needs of the community in terms of service and to plan programs accordingly."

Has Fine Record

Grosse Pointe Rotary Foundation, drawing on funds made available through its annual benefit antique show, has a long record of educational assistance in the form of scholarships and grants to worthy students. A more recent student involvement is the Interact Club, a service club for high school students, chartered in 1970 and sponsored by Grosse Pointe Rotary Club.

Other beneficiaries of Grosse Pointe Rotary's community assistance have included the Foundation for Exceptional Children, Little League baseball, the Elworthy Field development and projects to help the aged where necessary.

Pick McNeill to Succeed Williams on Park Council

The Park council on Monday, August 27, regretfully accepted the resignation of Councilman O. J. Williams, Jr., after the solon has served less than two years of a four-year term to which he was elected on November 2, 1971. Mr. Williams had received a promotion by his insurance firm which requires that he take up residency in San Francisco, Calif.

Immediately after the resignation was accepted, Councilman Warren Couger submitted the name of Dr. Roger R. McNeill of 15525 Windmill Pointe Drive, as the appointive replacement to fill Williams' unexpired term, which runs to Novem-

Arrest Youths on First Curfew Night at Parking Lot Near Bar in Woods

Officers Working Overtime to Patrol Site of Many Nuisances Target of Obscenities; Pair Post Bonds

The first night Woods public safety officers worked overtime in the immediate area of the Lochmoor Lounge, 20934 Mack avenue, two youths were arrested on tumultuous conduct charges. This occurred late Thursday evening, August 23.

In an effort to curb noise and nuisance conditions in the lounge area, and at the Hampton road municipal parking lot adjacent to the bar, The Woods Council unanimously approved the closing of the lot at 11 p.m., plus the taking of whatever steps are necessary on the part of the Public Safety Department to correct the situation.

Residents Complained

This action occurred at the regular meeting Monday, August 20, after around two dozen area residents demanded quick results. The citizens complained of noise throughout the night, "obscene language," squealing tires, motorcycles, harassment, drinking on public thoroughfares, et. al. One resident told the NEWS that such activity has been going on since last summer.

Important!

The NEWS office will be closed on Labor Day, Monday, September 3.

As a result, the NEWS is asking the cooperation of its news sources and advertisers in observing the Friday, August 31, deadline for all copy. The earlier the copy can be obtained the more helpful it will be.

The Labor Day holiday will have no effect on mail or box deliveries.

Pick McNeill to Succeed Williams on Park Council

Against the opposition of Councilman Douglas Graham, who contended that the solons should wait at least until the next regular council session for other possible nominees for the post, the council voted that Dr. McNeill succeed Williams. Graham voted against the appointment. Councilman George Verdonck was absent, as was Williams, whose resignation took effect immediately.

City Attorney Richard Rohr said that the council had up to 60 days, according to the Park City Charter, within which to appoint a replacement for a member of the council.

Bon Secours Strives for Clearer Air

Improvement Program to Eliminate Chimney, Air Pollution

Early next month, two improvements of benefit to the Grosse Pointe communities will be realized through the Bon Secours Hospital expansion program.

The 150-foot chimney rising from the hospital's power plant and interrupting the skyline for blocks, will be dismantled. In addition a huge trash compactor will replace the incinerator for disposal of waste materials.

While the incinerator met the standards of the Wayne County Pollution Control Board, the compactor method of disposal is superior in protecting air quality. The compacted refuse will be hauled away to an approved land fill area.

Justify Cost

Both improvements will be more costly for the hospital to maintain, but hospital officials agree that the advantages of a clear skyline and pure air justify the cost.

A new chimney, one-third the size of its predecessor, will operate on a forced draft system with the help of a giant fan. The former chimney, built in 1954, required the added height because it depended on a natural updraft created by gravity.

The old smokestack will be dismantled one of two ways: manually, brick by brick, or mechanically in "bites" taken by a clamshell bucket steamshovel.

Postpone Trial in Glancy Case

The Wayne County Circuit Court trial date of Detroit Edward Williams, 22, who is charged with first degree murder in the beating death of Alfred R. Glancy, Jr., has been postponed from Monday, August 27, to Tuesday, September 25, reported Shores police.

Henry Reed Jr., 27, of Detroit, was found guilty of first degree murder in the same case on Tuesday, August 14, in Circuit Court. He will be sentenced Wednesday, September 5, and can receive a maximum of life imprisonment.

Both men have already been sentenced to from 10 to 15 years in Jackson Prison for the breaking and entering of an occupied dwelling, stemming from the burglary of Mr. Glancy's Lake Shore road home last November 12. They were sentenced in Circuit Court Tuesday, April 17, on this charge.

Teachers, School Board Continue Contract Talks

Both Sides Hopeful of Completing Negotiations Before Opening of Schools on Thursday, September 6

Negotiations between the Grosse Pointe teachers and the School Board are continuing, but a contract as not yet been finalized. The Board has filed for mediation, effective Saturday, September 1.

In a release from the Grosse Pointe Education Association, Rita Cary, chief negotiator of GPEA, reaffirmed the Association's satisfaction with the bargaining process prior to last Friday.

"We truly believe we were making mutual attempts to resolve the remaining eight issues, but the Board's demands for mediation indicates a lack of flexibility on the part of the Board."

"Delaying Technique" The Association is willing to go through the process of mediation but it would appear a delaying technique by the Board when one considers the progress that has been made to date."

Association leader ship speculates that the Board is attempting to delay negotiations until after the teachers are back to work. GPEA cannot understand this attitude because the Association has expressed every desire to resolve the issues.

Ms. Cary then went on to repeat her previous statement: "The Association is willing to negotiate, and we do wish to conclude a master agreement prior to the opening day of school."

Carl Lord, president of the GPEA, reiterated some of Ms. Cary's comments at the School Board meeting Monday, August 27. "We can't tolerate deterioration at the table after we are back in the classroom," he said. "We are seeking settlement of the issues prior to the opening of school."

Mr. Lord went on to say that "We think mediation is premature at this time. We think we have grounds laid where we could reach settlement. It is vital for all concerned."

Board President Robert Warner, in a written response to Mr. Lord, indicated that the Board was extremely pleased that the Association publicly endorsed the trustees' concern that the successful conclusion of the current negotiations prior to the opening of school for pupils next Thursday, September 6, is in the best interest of the student body and the citizens of the district.

"Since November 1972 both parties had expended much time and effort in hard but good faith bargaining with compromise emanating from both sides. The parties have made real progress in successfully reducing their differences to a few outstanding issues," Mr. Warner stated.

"Caution Dictated" He went on to say that, "Contrary to the Association's optimism that a settle-

Shores Board Approves Contract with Employees

By Roger A. Waha The Shores Board of Trustees unanimously approved two contracts for the Village's public safety employees at the regular meeting Tuesday, August 21. The one-year pacts, which are retroactive to July 1, 1973, provide increased pay and other benefits for 12 public safety officers and eight command officers, (three corporals and five sergeants).

Superintendent Thomas X. Jeffers and attorney William Killibrew represented the village during bargaining sessions, while attorney Ralph Musilli represented both the Grosse Pointe Shores Public Safety Officers Association, (GPSPOA), and the Grosse Pointe Shores Command Officers Association, (GPSCOA), which was formed in January 1973.

After four years service, a public safety officer under the new contract will receive \$14,550 a year. Last fiscal year, (July 1, 1972, through June 30, 1973), an officer received \$13,400. He also will be paid double for working holidays.

Mr. Killibrew said the command officer's "professional package" includes a straight salary with no holiday or overtime pay. In fiscal year 1972-73, command officers received overtime pay and compensation time

Big Project 98 Percent Completed

Enlargement and Improvement Program Costing \$3,600,000 Began in December 1971

By Holly Angell The construction, enlargement and improvement at South High School will be virtually completed by the time school starts on Thursday, September 6.

Ben Zenn, director of administrative services, said that the building and addition will be about 98 percent finished on opening day and "we are expecting to move in on schedule, about September 5."

Numerous finishing touches will be put on the building while the students are in school. Jobs still left to be done include the installation of the fire extinguishers, bathroom mirrors, classroom doors, some painting, placing of ceiling tiles, grading and seeding of the lawns, paving portions of the parking lot and laying of sidewalks.

Hit Target Date The target date for total completion was September 10, and the construction will be substantially finished by that time. The touch-up items will be completed in mid-October.

Mr. Zenn said that "We ask people to bear with us during the final days. We'll be living with a few problems and need to work out a number of bugs."

The \$3,600,000 construction project began in December, 1971. The west wing of the construction, housing the music department, was completed last spring. It includes two storied vocal and instrumental rooms as well as seven practice rooms, offices, classrooms, and storage areas.

Built Around Library However, the most visible aspect of the project, was the east wing, the portion facing Grosse Pointe boulevard. The addition was built around the Wicking Library and contains 53 rooms including 11 science labs, 16 general classrooms, storage areas, lecture rooms, closets and bathrooms as well as seven entrances.

Connecting passage ways were also built to join the addition to the main building on both the first and second stories and to provide for a continuous flow of student traffic.

Park Officers Nab Gun Toter

A 51-year-old Ohio man was pursued and apprehended by Park police after a yard-to-yard search Sunday evening, August 19.

Harry Riedel, who's charged with felonious assault, was arraigned before Park Municipal Judge William E. Speer on August 20. His bond was set at \$5,000, two sureties. Riedel was held in The Park jail until his examination, which was scheduled for yesterday, Wednesday, August 29, before Judge Speer.

Lieutenant Gordon Duncan said Sergeant George Blair was stopped by a citizen who reported Riedel struck a parked car. The sergeant ultimately stopped the suspect, who had a revolver in his hand. When Sergeant Blair ordered Riedel to drop the gun, he only lowered it, said the lieutenant. He then dashed between some houses before being arrested about 15 minutes later in the bushes of a Pemberton road residence. The lieutenant said a total of 10 to 12 officers from The Park, Farms and Detroit participated in the search, with Park Patrolmen Robert Chester and Steven Molitor nabbing Riedel.

South High Project Almost Completed

(Continued from Page 1)

The Wicking Library still remains intact; however, it will not be in use until late October. There is still painting and carpeting improvements in the planning.

The coaches' quarters have also been remade to provide for offices, and shower rooms. Furthermore there will be four new tennis courts and a practice area on Fisher road.

An additional 125 parking spaces are in the process of being completed, bringing the total parking area to 365 spaces. Space will be available on Fisher road as well as on Grosse Pointe boulevard on the site of the old Annex, the former Country Day School.

Outstanding Colors
The east wing on the boulevard is outstanding in its use of colors and sense of spaciousness. Walls of the rooms are painted in deep purple, stop sign yellow,

chartreuse green and pumpkin orange. The bright color scheme is also duplicated in the lockers located in the wing.

The stairwells in the main building have been enclosed to meet fire standards. Thus, if a fire breaks out on the second floor, the smoke will be unable to descend to the first floor.

Mr. Zenn as well as Mike Satmary, head engineer at South High, itemized a few statistics which emphasize the enormity of the project and the school.

The building plans called for 63,000 square feet of new space but with the removal of the Annex, the end result of space was 38,000 square feet.

23 Acres of Land
The School is located on 23 acres of land with a total building area of 285,000 square feet. The main hall which runs from Fisher road to Grosse Pointe boulevard is 680 feet long and there

are about 900 electric motors used to run the facility.

Board of Education members on the South High Building Committee were Muir Snow, as chairman, Mrs. Joan Hanpeter and Laurance Harwood.

Architect for the construction was Linn, Smith, Deminens, Adams, Inc. Matthew Lalewicz Inc. was general contractor with Wilbur N. Williams Inc. as mechanical contractor, and Conti Electric Inc. as electrical contractor.

All the public schools will open for classes on Thursday, September 6 at the scheduled time.

Slate Bond Bid Meeting in City

The Grosse Pointe City Council will hold a special meeting on Wednesday, September 5, at 7:30 p.m. to open and consider bids for the sale of the \$975,000 Automobile Parking Improvement and Refunding Revenue Bonds.

The City has received approval from the Michigan Municipal Finance Committee for the amended ordinance of August 13 which increased the permitted interest rate from six to eight percent. The Commission also approved the September 5 sale date.

Previously, the City had

not received any bids for the sale of the bonds and thus asked to increase the interest rate.

ment is imminent, the Board must inform the residents and taxpayers of the school district that a somewhat more realistic assessment dictates caution on our part. The unresolved items, while few in number, represent extremely important and costly issues on which the parties are still considerably apart."

In hopes of bringing the parties together on these few remaining issues, the Board has petitioned the State Mediation Service for its assistance and counsel. With school scheduled to open within a week the Board hopes that this timely request will expedite a con-

structive and equitable settlement.

President Warner concluded by saying, "We wish to assure the citizens of the Grosse Pointe School District that the Board of Education will continue to exert every effort and travel any avenue to reach a just settlement promptly with the Grosse Pointe Education Association which is within our financial capabilities and which will continue to assure the continual excellence of the Grosse Pointe Public School System."

O'Connor Heads Team

The Board's negotiating team is headed by William O'Connor, of the Department of Personnel assisted by North's principal, G. Bruce Feighner, Barnes principal, Jack McMahon, and Roger McCaig, Curriculum Associate in the Department of Instruction.

There will be a general membership meeting for all teachers on Tuesday, September 4, at 7:15 a.m. in Parcels auditorium.

Park Hit Hardest As Soot Sails Over Pointe Area

A cloud of black, oily smoke billowed over Windsor, portions of Detroit and The Pointe area Monday, August 27, leaving in its wake a layer of greasy soot which covered cars, swimming pools and boats.

Howard Murray of the Wayne County Department of Health's air pollution control division said Tuesday afternoon, August 28, that inspectors were investigating the source of the soot.

"We are trying to determine a pattern from the samples we have in, but that takes time," Mr. Murray said. "Possible sources around Zug Island are being checked."

Evidence has pointed to Edison power plant operations either in River Rouge or Delray, as the source of the soot. John Hamann, Edison's executive vice-president for operations, said that Edison, as well as the Wayne County Health Department, have been investigating the problem.

In The Pointe area, The Park seemed to be hardest hit. Police reported receiving over 100 calls from residents questioning them, or complaining about the problem.

A spokesman for the Windmill Pointe Park said that a black film settled on the swimming pool, but the filters removed it without draining. Many boat owners were also out with buckets and detergents cleaning soot from their boats.

The swimming pool at the Norbert Neff Park in The City was closed and drained between 10 a.m. and 2 p.m. Monday because of the soot. After being re-filled, a staff of county health inspectors analyzed the pool and approved its re-opening. City police also reported receiving 20-30 calls from residents with queries on the situation.

The Farms police said they received between 25 and 30 calls, mostly from people questioning them on the problem. There was no problem

with the swimming pool at The Farms Pier Park, however, the tennis courts and many boats were covered with soot, creating the main clean-up problem.

Neither The Woods nor Shores police reported any calls.

Girls Raise \$17 To Battle MD

The neighborhood girls of Raymond road in The Woods worked together giving a carnival to provide funds for the muscular dystrophy campaign. Allison Maxwell, 12, announced the group raised \$17 for the cause.

Miriam Maxwell, 11, Sharon Ellerbrock, 15, Pam Flood, 11, Carol Demars, 13, Janie Huetter, 10, Julie Huetter, 11, and Kathy Huetter, 13, provided games of skill, refreshments, prizes and other surprises Friday, August 17.

Mrs. Richard Maxwell said, "These young girls are to be congratulated for giving their time and energies unselfishly for the benefit of others, as they did all the organizing, poster painting, etc., unaided, (Mom did act as dishwasher, though)."

"All other young Pointers are wholeheartedly encouraged to organize their own neighborhood carnival, as all money raised is just that much more to help prevent and/or find a cure for muscular dystrophy. No amount is too small to help—besides working and attending is great fun for everyone. Write or call WKBD-TV for additional details." The station's number is 444-8500.

Libraries Have Acting Director

William T. Peters will serve as acting director of the Grosse Pointe Public Libraries, due to the death of Robert M. Orr. Mr. Peters was assistant director and is still chief of Central Library and head of the Audio-Visual Department.

Wants Caucus of Delegates

In an effort to make their opinions more strongly felt, The Woods Council requested a caucusing of State Delegates at National Municipal League meetings. At the regular meeting Monday, August 20, this subject was discussed.

City Administrator Chester E. Petersen reported cities which have a population of over 30,000 have direct membership and direct voting rights at National League of Cities, (NLC), meetings.

Cities under 30,000, (such as The Woods), are represented by 10 votes cast by the Michigan Municipal League, (MML), on behalf of such cities.

"The council feels that before the 10 votes are cast, the MML should caucus with delegates from the smaller cities," said Mr. Petersen.

It was reported the MML could not really do this because they represent over 400 cities and each city would not be in attendance at National League of Cities meetings.

Nonetheless, the MML advised The Woods it would try to make it a policy to poll as many delegates present as possible. In this regard, the council unanimously passed Councilman George S. Freeman's motion to have Michigan Municipal League Director Robert E. Fryer explain his intent on this matter in writing to Mr. Petersen and Mayor Pro Tem Marvin R. Boutin.

In a related matter, The Woods will have a resolution considered at the NLC's December meeting in San Juan, Puerto Rico. The resolution urges the NLC's board of directors to consider an amendment to Article II of its by-laws for reducing the population minimum for direct city membership from 30,000 to 20,000.

In a letter from Mr. Fryer

to Allen Pritchard, executive vice-president, NLC, Mr. Fryer said the Board of Trustees of the MML has taken action at its July meeting to record its support of The Woods' request to the NLC contained in the council's May 17 resolution.

(Continued from Page 1)
for holidays.

Under the new pact, corporals will receive \$16,190 annually in comparison to \$14,350 last fiscal year. Meanwhile, sergeants will get \$17,500 a year under the new contract as against \$15,300 last fiscal year.

All public safety officers, even if off-duty, have to be on call and must follow check-in and check-out procedures, said Mr. Killebrew. The pay increase includes some money for officers being subject to such procedures.

In this respect, all officers must live close to their duty posts and otherwise be available in the event of emergencies. The boundaries remain the same as those last year reported Mr. Killebrew. All officers must reside within a boundary that lies south of Twelve Mile road, east of Beaconsfield, and north of Alter road.

Longevity pay for each officer increases by \$25 for the following years of service:

\$150 for five years, \$275 for 10 years and \$400 for 15 years. Uniform allowances also jump \$25 for each man.

Each officer is entitled to 15 days paid sick leave per year, with a maximum accumulation of 150 days. Any accumulation over 150 days shall be lost. The new pacts specify that the village agrees to give an officer with at least 10 years service severance pay in the amount of his salary for 25 percent of his unused sick leave upon retirement.

Everyone appeared pleased with the new contracts. "I think they got a good deal," commented Mr. Jefferis, while Mr. Killebrew said, "Basically, everyone thought it was a fair pact."

Mr. Musilli said he was impressed with the "civility of the negotiations" and mentioned the gentlemanly conduct of both sides.

The bargaining committee for the GPSPOA included Officers John Frasad, association vice-president, Harry Hamilton and Robert Bensing, while Sergeant James Jurcak, association vice-president, and Corporal Dan Fronczak, association secretary-treasurer, represented the GPSPOA.

Park Burglary Arrests

(Continued from Page 1)
Vernor in Detroit.

This came about, it was said, when Detroit received a call that there was a man in that area with a gun. On the Detroit policemen's investigation, they were allowed to enter 2526 Drexel, by the mother of one of the youthful suspects. They recovered the stolen air pistol.

During the course of their search, the Detroit agents observed a number of watches and coins, which they recognized from Law Enforcement Information Network (LEIN) descriptions sent out by Park police following the Park burglaries.

Get Search Warrant
Park Det. Sgt. James LaPratt picked up the pistol from the Fifth Precinct, and on the information submitted by the Detroit officers, obtained a search warrant for the Drexel address.

LaPratt, accompanied by Lt. Duncan, Det. Robert Saiford and Patrolman Collin Lalonde, executed the warrant.

The Park policemen recovered several items reported taken in the burglary of a home at 1381 Kensington.

With the consent of an owner of an apartment building at Drexel and Vernor, The Park policemen searched an apartment occupied by the young suspects and recovered still more items taken in Park breakins. They also found the .32 caliber gun taken in the Detroit burglary.

All the recovered items were taken to The Park station, where burglary victims identified their own properties, some of which were retained as evidence for proper prosecution of the cases against the young thieves.

The breakings and enterings were committed over a period of two weeks, Duncan said.

Cleared were the breakins of the following homes: 1381

Kensington; 1429 Devonshire; 1358 Devonshire, broken into twice; 1442 Devonshire; 1275 Balfour; 1390 Audubon; 1373 Balfour; 1384 Balfour, and 1387 Yorkshire.

Duncan said that all the burglaries were committed during the daytime, when the owners were absent from home, some on vacations. In searching for loot in these homes, it was said, the boys made a complete mess in every room, even overturning beds and other furniture.

Erratic Golfer Irks Resident

An erratic golfer at The Shores' M. O. Park raised the ire of a Hawthorne road resident Wednesday, August 22.

Upon his arrival to the back yard of the James Arisynos residence, Public Safety Officer Gary Mitchell was shown a golf ball lodged in the webbing of a lawn chair.

Mr. Arisynos told the officer if he had been sitting in the chair he could have been seriously injured. His wife said they have picked up over 20 golf balls in their yard so far this summer.

The errant balls were the result of persons smacking them from the area of the M. O. Ski Hill, Mr. Arisynos said. The officer checked the area of the hill but found no golfers at that time.

Village Superintendent Thomas K. Jefferis said he hoped people would use the park intelligently and not make a driving range out of it. He stated the park committee is currently considering isolating a specific area for such activity. Mr. Jefferis also said the village is considering putting up signs emphasizing park use by Shores residents only.

Nab Youths Trespassing In Residence in Shores

During an investigation of a Clairview road residence containing a group of youngsters Sunday evening, August

26, Shores Sergeant Stanley Otulakowski was injured when a youth slammed a door on his left arm. The impact shattered the glass which caused a deep gash near the elbow area.

The injury required emergency treatment at Bon Secours Hospital where the sergeant received eight stitches on the inside of his arm and 13 stitches outside, police said.

Nine youths, including a 14-year-old Woods juvenile, were charged with trespassing. Besides the trespassing charge, Armond Cassil II, 17, of The Woods was charged with obstructing an officer in the performance of his duty.

Each youth posted \$35 bond on the trespassing charge, while Cassil posted a total of \$70 bond on both charges. All will appear in The Shores Municipal Court Monday, September 24.

Officers John Frasad and Archie Grieve spotted three vehicles in the drive at the home. Knowing this property was under control of the National Bank of Detroit and that no one should be on the premises, the officers notified Sergeant Otulakowski to respond.

After the sergeant arrived, the three officers found the lights on and several youths inside. Sergeant Otulakowski and Officer Grieve went to a side door and discovered it locked.

Hearing the sergeant's knocking, Cassil answered the door and was requested to let the officers enter as the youths inside were in violation of the Village ordinance for trespassing.

At this time, police said Cassil began swearing and abusing the officers and refused them admittance. He then slammed the door injuring the sergeant's arm. Police reported Cassil violently resisted arrest and had to be physically subdued and handcuffed.

Assistance was requested from The Woods and Sergeant Peter Thomas, Officer Frederick Lovelace and Auxiliary Officer Ross Richardson responded. Some of the youths, who had fled the premises, were arrested in the area by Woods police.

The other youths charged with trespassing include David Philip McCourt, 18, of The Woods; Donald Joseph Thibodeau, Jr., 17, of Ypsilanti; Christy Lee Wood, 17, of The Woods; Joseph Bresciani, 18, of The Woods; David Frank Robert III, 17, of Harper Woods; Dennis Paul Bledsoe, 17, of The Woods, and Lori Ann Linnell, 17, of The Woods.

The department reported National Bank of Detroit has guardianship of the house and had given police authorization to evict and/or remove unauthorized people from the property.

Taking it with you is not so important — the problem is to make it last until you're ready.

Schools Open September 6

The Grosse Pointe Public Schools will open for business on Thursday, September 6. Teachers will report to their respective schools on Tuesday, September 4.

Assistant Superintendent Lawrence Kennedy reports that the faculty for the 1973-1974 school year will total 577 persons, including public librarians, counselors, school librarians and special education personnel. There are nine new teachers; 12 others were re-employed from lay-off status.

There were two staff vacancies as of Friday, August 24. A part time teacher of English is needed at Parcels Middle School and a part time teacher of physical education and science is needed at Pierce Middle School.

Mr. Kennedy does not anticipate any difficulty in filling the two vacancies.

An estimated 11,738 students are expected to enroll in the 15 public schools. A substantial number of elementary classes are presently projected as having an excessive number of pupils enrolled. Because enrollment has declined, the teaching staff has been reduced, causing the elementary overflow.

The Department of Personnel has a pool of six unassigned teachers to assign as additional staff or as half-time helping teachers. Assignments will be made the second week of school when actual enrollments are verified.

Overall, the staffing ratio for 1973-74 is better than that of 1972-73. However, due to a lopsided distribution of pupils in certain schools, some grades will have a low enrollment while others will be over-sized. Efforts will be made to balance the size of classes.

Six split sections, the combination of students in two grades, have been planned. There may be more split sections if the teaching staff proves inadequate.

Mr. Kennedy states that the Grosse Pointe faculty is one of the strongest in the mid-west in terms of training and experience. The teachers' average training is a masters degree plus 12 additional semester hours of course work. Over 400 teachers possess the masters degree or higher. Five possess the doctorate.

Brownell Sets Rap Sessions

Brownell Middle School Principal William Christoferson has announced two new discussion programs for the 1973-1974 school year. The first, entitled PRIDE, Principal Raps with Interested Dads on Education, is designed for to further open the doors of communication between the school and parents.

Ten rap sessions for fathers only have been scheduled on the third Wednesday of each month, beginning September 19 at 7 a.m. in the Brownell Cafeteria.

In an informal coffee and doughnut setting, a special opportunity will be given for fathers to find out more about their children's educational program at Brownell. The emphasis will be on informal give and take; no long speeches are permitted.

The sessions will conclude no later than 7:45 p.m.; fathers are invited to come for all or part of each session.

The second program, called SMILE, School and Mothers Interested in Learning Environment, is planned for the first Wednesday of each month beginning October 3 from 10 to 11 a.m. in the cafeteria.

The purpose of the meetings, as with PRIDE, is to seek better communication between home and school. A wide range of topics will be discussed at these coffee gatherings with ample time devoted to straight talk questions and answers about school, education and children.

Endorsed by the Brownell PTA, the monthly forums should greatly augment the traditional evening PTA programs scheduled four times during the school year.

the council who resigns or dies, after which the decision is left up to the voters of the city.
The quick appointment to fill a council seat vacancy is almost without precedent. Normally, the names of prospective appointees are submitted for study, or the mayor would offer the name, or names of civic minded citizens, interested in serving the community. After the council picked the best possible candidate to fill a vacancy, then the solons would vote for his acceptance.
Couger said that the entire Council knew of Williams' intended resignation for approximately a month, when Williams informed them of his promotion and that he was moving out of the city.
Williams, who had been a resident of the Park for five years, after several years in Grosse Pointe City, was a manager of a group division of Aetna Life Insurance company. He was promoted to district manager of the San Francisco office.
Williams, his wife, Eileen and their three children have already left the Park to take up residence in their new city.
Dr. McNeill, a resident of the Park since 1957, is a physician and surgeon, with his office located in the Hill District. His most recent appointment was to the Park Plan Commission last September 25. He is a native of Lincoln, Neb.
He is married to the former Marcy Bauer of Riverside and Pasadena, Calif. They have two children, Douglas, 23, and Nancy, 21.
Dr. McNeill received his undergraduate degree from Yale University, completed Medical School at the University of Nebraska and was awarded his residency in Surgery Degree from the University of Michigan.
He is on the staff of both Bon Secours and Cottage Hospitals.
The Park solons approved a resolution to be presented to Williams for his service to the community, to which, he stated in his letter of resignation, "I hope I have made some small contribution to a wonderful city."

Grosse Pointe Rotary, and has been commended as one of the first community organizations in the Detroit area to fight drug abuse on a community level. The council received an initial grant of \$10,000 from the Rotary Foundation in 1969 and a second grant in the same amount in 1972.
Serving with Rotary President Wascher are the following officers, elected for the 1973-74 club year: Fred Seltzer, first vice-president; William J. Peters, second vice-president; Carl Meyering, secretary; Don Gilbert, treasurer; M. Richard Marr, membership secretary; Frank J. Sladen, director and past president; and Dr. Jose M. Porrego, William McCourt and William Speer, directors.

Of all the passers who have ever played pro football, which one had the best percentage of completed passes in a season? Record is held by Sammy Baugh, who in 1945, completed 70% of his throws. No other regular pro passer has ever topped that.
Oddly enough, here's a football question that looks easy, but it's surprising how few fans — even the real good ones — can answer it... Try it on your friends and see... The question is this: Everybody knows a football field is 100 yards long from goal line to goal line — but, do you know how WIDE a football field is? A football field is 160 feet, or 53 1/3 yards wide.
Ever wonder where the tradition started of having a band at football games... It was at Notre Dame, which was the first college in America to have a band... Their band first marched at a football game in 1888... They really started something, didn't they?

'Helpful' Man Scares Woman

A South Renaud road resident received quite a "start" after returning to her vehicle, parked in the rear of the Kroger lot, 18870 Mack avenue, Wednesday, August 22.

The woman told Farms Corporal Ronald Wooten just as she was opening her door, a tan vehicle with a white male in his late 20's pulled alongside of her. The man told the resident he saw a youth tampering with the front of her auto, causing possible motor damage.

At that point, the man volunteered his services, saying he'd be glad to check under the hood. The woman told police she accepted his offer because he was polite and nicely dressed.

The woman said the man did something under the hood and when she tried to start the auto, she couldn't. He told her to move over, entered the vehicle and started pushing on the accelerator with his hand while yelling orders to her.

Growing frightened, she exited the auto and ran to the super market to call police after he left the car to check under the hood. When police arrived at the scene, the man had left the area.

The woman obtained his license number and gave it to police, who are investigating the incident. And, as it turned out, nothing was wrong with her auto.

City to Have Tree Guards

The Grosse Pointe City Council passed a resolution at the regular meeting on Monday, August 20, to install guards around the trees in the Village.

The tree guards were the suggestion of the Grosse Pointe Commerce and Civic Association, made up of the Kercheval avenue businesses. Headed by the Beautification Committee, the Association said it would pay half the cost of the guards if the City would pay the remaining half.

The guards will be of a black, wrought iron fence type, about four to five feet tall and one foot in diameter. They will not only provide an ornamental addition to the Village but also protect the young trees from damage.

The tree guard plans will be finalized after a sample guard is installed and proves to be effective. In addition, the Association must accept the responsibility for maintenance of the guards.

The City will also offer the Fisher road merchants the opportunity to install guards under the same conditions.

The cost of the guards in the Village will be about \$1,300 for both the City and the Association.

YSD Says Larceny Cases Top Others During July

The Youth Service Division processed 63 complaints during July 1973. This was a decrease of four from June's total but an increase of one over July 1972.

From January-July of this year, 382 complaints have been received as compared to 381 for the same period last year.

Larceny incidents led the July report as 10 such cases were processed. These incidents, when considered with related offenses such as breaking and entering, (one), assault and battery/attempted larceny, (one), possession of stolen property, (eight), total 20 cases involving 30 males and two females.

Runaways accounted for eight incidents, involving three males and six females, four of whom were self returned while five were arrested.

Violation of the Controlled Substance Act cases totaled seven in July. Four were marijuana cases involving three male adults and two female adults, one was a synthetic drug case involving one male adult and two are classified as "all other," (sale, possession and/or use of drugs of all types), involving four male adults.

The YSD says it appears that an increase in juvenile use of alcohol is being noted, though not particularly indicated in the total case breakdown for July due to the fact violation of controlled substances cases frequently include possession and use of alcohol.

Ten applications for petition were filed with the Wayne County Juvenile Court during July. These involved 10 males for the following offenses: assault and battery, (one), larceny, (four), home truancy, (two), aiding the escape of a prisoner from lawful custody, (one), and breaking and entering, (two). Court disposition was made in two of the applications. Both were referred to the probation department.

Last month it was noted in the June report there was a marked increase in "For Information Only" reports forwarded to the YSD during 1973 as compared to 1972 for the same period.

During January-July 1972, 70 information reports were received involving 66 juvenile males and 24 juvenile

females, and in violation of the Controlled Substance Act, two adult males and one adult female.

For the same period this year, 102 "info" reports have been received involving 128 juvenile males, 33 juvenile females and in violation of the Controlled Substance Act cases, 20 adult males and four adult females.

In order to reflect a more accurate account of juveniles involved in adverse police contact in The Pointe area, pertinent information from these reports will be included in future YSD monthly tabulations.

The July breakdown of total cases looks like this: larceny, 10; stolen property laws and runaways, eight; violation of the Controlled Substance Act and vandalism, seven; other criminal contacts, six; other assaults, four.

More are forcible rape, auto theft, and traffic offenses, two, plus burglary, fraud, sex related offenses, liquor laws, drunkenness, disorderly conduct and neighbor trouble, one.

Thieves Enter Shores Garage

Someone entered the garage of a North Edgewood drive residence and took two sets of golf clubs and a golf cart, with a total estimated value of \$585, on Friday, August 24.

Daniel Ivan told Shores Public Safety Officer Gary Mitchell somebody entered the garage between 5 and 10 p.m. and took the golf equipment. There were no signs of forced entry, police said. Mr. Ivan believed a door to the garage may have been unlocked. Nothing else appeared missing at this time.

The items include set of Gorman golf clubs and bag with four woods, five irons and a putter, valued at around \$275; an unknown brand of clubs and bag with four woods, eight irons and a putter, \$275, and one golf cart, \$35.

A witness told police she saw a black male run from the garage and enter an old, blue vehicle which left toward Lake Shore road. The incident is under investigation by the Detective Bureau.

Shores Warns Residents On Breakwall Loitering

By Roger A. Waha

Whether Shores residents and other "locals" know it or not, there is an ordinance which prohibits fishing, picnicking, loitering and swimming near the breakwall from the village's boundary line to the Grosse Pointe Yacht Club.

From the looks of the frequent activity along the shore line, (despite the fact signs are posted approximately every 500-feet emphasizing the prohibition), residents of all ages often bring their tackle boxes, rods and bologna sandwiches for a day at the breakwall.

"All this property is private," emphasized Shores Sergeant James Jurcak. "Complaints are an everyday occurrence. Our officers clear the seawall 24 hours a day over the scout car PA system."

It's not only fishermen, sun bathers, song fest or beer party groups who leave their litter behind causing consternation. On one occasion,

a couple pulled their boat near the wall, got out and proceeded to fish from the seawall while their craft remained moored nearby, the sergeant said.

While noting that walking does not constitute loitering, Sergeant Jurcak said, "All ecology minded people would appreciate cleaner looking roadways," and if that doesn't deter prospective loitering litter bugs, the sergeant stressed, "All violations are being strictly enforced."

Village Ordinance No. 85, which regulates bathing, fishing, picnicking, loitering and swimming, prohibits fishing, picnicking or loitering on public property, except in parks and other public places set aside for such purposes by the village, and on private property, except by the owner, lessee or occupant, or persons having written permission from such individuals.

At the same time, swimming or bathing from public property on the shore of Lake St. Clair, and from private property on the shore is prohibited with the exception of parks and other public places set aside for such purposes in the former case, and permission from the owner, lessee or occupant in the latter case.

Violators, upon conviction, will be subject to a fine of not more than \$100 or imprisonment for not more than 90 days, or both, in the court's discretion.

Finally, the ordinance states, "Any person who has received any notice to appear in answer to a charge under this ordinance may for the first and second offense and within the time specified in said notice answer at the Village Violations Bureau to the charges set forth in such notice by paying a fine of \$2 for each such offense in person, by proxy or by mail.

"By so doing, (the person), shall be deemed to have pleaded guilty to the charge, to have waived a hearing in court and to have given power of attorney to the person in charge of the bureau to make such a plea and pay such fine in court. In each such case an appropriate receipt shall be issued showing the payment of the fine."

Woods Denies Variance Bid

After three hearing postponements, The Woods Council at the regular meeting Monday, August 20, denied the request of S. D. Palazzolo, owner of the land at Mack avenue and Fleetwood, for a variance in off-street parking requirements in order to permit the construction of an office building.

The vote was 5-1. Originally deficient by four parking spaces, Mr. Palazzolo reduced the second floor area of the proposed two-story building and was then reportedly deficient by around one and one-half spaces.

A report from Public Safety Director Henry Marchand on the revised plot plan was read and emphasized the shortage of off-street parking. The director added he still couldn't approve the plot plan.

Mayor Pro Tem Marvin R. Boutin, while liking the aesthetics of the proposed structure, failed to see where the hardship prevailed. Mr. Palazzolo stated it was based on the economics of the venture, (he was talking in terms of a building costing around \$150,000).

Mr. Boutin told Mr. Palazzolo he wasn't giving him much to "hang his hat on" on the hardship other than the economic factor. He then suggested something be developed within the restriction.

City Receives Hi-way Plaque

Franklin D. Meyers, representing the Inter-County Highway Committee, presented the City Council with a plaque at the meeting on Monday, August 20.

The plaque was in recognition of the City's approval of the Committee's plans and right of way requirements. In the City, this would apply to Jefferson avenue and Mack avenue, as instituted in September, 1971.

The purpose of the Inter-County Highway Committee is to co-ordinate highway planning in southeastern Michigan. The committee tries to insure that there is a continuous transportation network that not only meets the needs and demands of a specific community but also those of southeastern Michigan.

Traffic Conditions Rapped by Cook road Residents

By Roger A. Wahn
Thirty-two residents, most of whom reside in Cook road, wrote The Woods Council about their concern over alleged speeding violations and traffic safety on that street.

Some of these citizens attended the regular meeting Monday, August 20, seeking council action to alleviate their problem.

After a discussion between the residents, the council and Public Safety Director Henry Marchand, this matter was unanimously referred to the Public Safety Department for further study and action with a report back to the council.

In their petition, these residents of Cook road and abutting courts in the blocks from Mack avenue to and including Holiday road, said traffic "is too fast and too heavy for a residential area. This is caused, we believe, by drivers using Cook road as a main thoroughfare, giving access to areas which are already served by other direct routes."

was "unbearable" on Cook road, and that this was the first time in 19 years she has complained about this situation.

A Blossom lane resident suggested a stop sign be placed at Cook and Blossom lane to "curtail speeding." Another citizen, a Holiday road resident, suggested a small traffic circle be constructed on Holiday to help "alleviate the congestion on our block."

In a memo to City Administrator Chester E. Petersen on the Cook road matter and resident petition, Director Marchand said "more man hours are spent on Cook road on patrol and traffic enforcement than on any other street within the city."

felt the radar units have a lasting effect "on the motorist's driving behavior" for the entire length of Cook regardless of where such units are located.

On the possibility of making Cook a one-way street, Director Marchand stated, "This would not eliminate or lessen the traffic problem, but have a tendency to increase the traffic and speed. The designation of one-way streets is an admission that the street is too narrow to handle the traffic load, and that it was necessary to establish a one-way street to expedite the flow of traffic." He noted "it would play havoc with the Master Street Plan for the entire southwest area of the city."

As for the elimination of the traffic light at Cook and Mack, he said the light was necessary for many reasons: the crossing of children to and from school and providing gaps in Mack traffic so motorists can enter Mack—without the light this would be virtually impossible.

"The very nature of the street does not lend itself to any foreseeable solution to lessen the traffic volume. The records indicate that Cook road is an extremely safe street in consideration of the number of cars that daily travel it."

In this regard the director reported in 1973, to date, (August 15), four accidents have occurred on Cook out of the 161 reported for the entire city.

The citizens suggested two possible solutions to the problem: (1) make Cook road a one-way street, and (2) eliminate the traffic light at Mack and Cook, "since the new Torrey road light is so short a distance away." They hoped some cars would be diverted from entering Cook and thus be channeled through "their proper streets."

"We are concerned about the speeding, the noise, the danger in exiting from our driveways and the use of Cook road by non-residents who use it as a fast channel to homes which are already served by other direct access streets," stressed the citizens.

At the meeting, Charles Wartian, of Cook road, told the council he was concerned with the block between Mack and Holiday which takes "the brunt of traffic in the area." He said he was tired of trucks rumbering by, plaster cracking and not being able to sleep at night. Mrs. Wartian stated the traffic

"I continually receive complaints from citizens who state we are over-zealous in our traffic enforcement on Cook road and that they are tired of seeing our cars on Cook road every time they use the street," he said.

Considering the numerous complaints and amount of citations issued, the director

Farms Citizen Thwarts Thief

A Vendome road resident had a run-in with an apparent bicycle thief Wednesday, August 22.

After spotting the youth in his driveway, he told Farms Patrolman Kenneth Pine the suspect approached two bikes left in the drive.

The resident left his house to pursue the youth, who ran across the street, stopped, pulled a knife on the citizen and told him to stop. At this time, a white Ford, possibly a 1968-1969, pulled up and the youth entered the vehicle.

Then the resident followed the auto to Moross road, north on Mack and finally to Saint John Hospital. At this point, three white males exited with belts wrapped around their hands, and the citizen went to The Farms station to report the incident.

The youth who pulled the knife was described as between 16-18 years, 5-9 to 5-10 tall, and having shoulder length brown hair, brown eyes and a clear complexion. He was wearing blue pants and a light colored print shirt.

The vehicle had a total of four males and two females in it, the citizen said.

Family to Vacate Park; Blame Buses for Decision

A Park couple with four children, who objected to the Southeastern Michigan Transportation Authority (SEMTA) using the intersection near their residence, Wayburn and St. Paul, informed the Park council on Monday, August 27, that they were moving from the city because of this reason. They asserted that the turning buses were dangerous, not only to the people of the neighborhood, but also to property.

Mr. and Mrs. Albert Lamb of 1107 Wayburn, disclosed that a late model car that they owned was struck by a turning bus, and as a result, their vehicle lost a bumper. They claimed that the streets and the intersection were too narrow for a large bus to negotiate a turn, and in the course of a year, several accidents have resulted.

Roland Metevier, SEMTA safety director, told the council and the Lambs, that since January 1 of this year, only six accidents have been reported, in which automobiles have collided with turning buses, but the collisions were only minor. In some of the mishaps, the car drivers continued on their way, without stopping.

He said that the Park's relocating of a "No Parking from Here to Corner" sign four feet further back from the intersection of St. Paul and Wayburn, has been a big help.

Mr. and Mrs. Lamb, were referring to the Charlevoix buses, which turn onto Wayburn to St. Paul, turn east on St. Paul and then south on Maryland.

Metevier, when questioned by Mrs. Lamb, said that all the accidents were of a minor nature, and since the streets have been used as part of the bus route, there have been no fatalities. He said that the number of buses in service has been the same since 1935, and since SEMTA took over the lines from the Lake Shore Coach Lines last year, and refuted a claim of the Lambs that buses recently acquired from the Detroit Department

of Street Railways (DSR) were wider and longer than the old Lake Shore coaches. Metevier said that DSR-acquired buses were exactly the same width and length as the present buses being used by SEMTA.

Mrs. Lamb said that she and her husband are primarily interested in seeing that the buses be re-routed to another street, such as Alter road in Detroit, before a fatality occurs. They are the only parents in the block with four children. But, they were not only concerned for the safety of the people in the neighborhood and for themselves and their children, but also for the family

who might buy their house.

Metevier, who said he was a bus driver for Lake Shore and SEMTA for 10 years before he took over the safety director position, said that his organization is willing to undertake any measure that will increase the safety of the people of the neighborhood. He said he was even willing to sit on the porch of any home near the intersection and watch the bus drivers as they maneuver their huge vehicles around the corners.

He said he would sit unnoticed where the drivers would be unable to see him, and even took up the offer of Mr. and Mrs. Lamb when they said he could sit on their porch during his survey.

At a previous council meeting, the Lambs registered a complaint regarding the buses, claiming that the buses were too large to make the turn on the narrow street. They recommended that the coaches be rerouted to Alter road. Mr. Lamb said he registered a complaint with SEMTA, but the person he had talked to had been with the organization only a few days and was not familiar with the lines' operation. Both he and his wife expressed concern for the safety of their family and neighbors.

City Manager Robert Stone said that Wayburn is a designated bus route for which the Park receives revenue from Major Road Tax.

Shores Police Warn Youths

Four youths received a warning from Shores Public Safety Officers after they allegedly snatched a "Do Not Enter" sign placed at Lake

Shore and Hampton road to facilitate traffic for a wedding party. The incident occurred Saturday evening, August 25.

Police Break Up Noisy Party

A "noisy party" report brought Shores Public Safety Department officers to a Willison road residence around 12:30 a.m. Saturday, August 25.

Sergeant Donald Jacob found around 100 youths congregating on the lawn in front of the residence. The sergeant advised them that the party had gotten out of hand and would have to break up.

As he was leaving, the scout car was struck by an empty bottle and beer can, which landed on the hood. Bottles and cans were then being thrown on the street, police said.

A back-up car was requested and Officers Harry Hamilton and Michael Kenyon responded to help break up the affair. The resident and some of the youths assisted in picking up the empties in the street, police added. There was no damage to the scout car.

After ordering one youth to pick up the sign and place it in the scout car, the youths, three from St. Clair Shores and one from the Shores, were warned and released. Police said the group were told they might be contacted at a later date on this matter.

Appeals Board Slates Hearing

A Board of Appeals hearing date of Monday, September 10, was unanimously set by The Woods Council on the request of John W. Fisher, 1545 Brys drive, to build a six-foot stockade privacy fence along the west side of his property.

The action was taken at the regular meeting on Monday, August 20. According to the fence ordinance, the adjacent property owner must approve in writing the installation of the six-foot stockade fence before a permit can be issued. In a letter to the council, Mr. Fisher said the property owner west of him has objected to the fence and wouldn't sign the permit as required.

Officer Petz has been with the City force for eight years, working part-time during the summer and on holidays.

BUYING A SECURITY SYSTEM?
When you buy an apartment at **The Jefferson Apartments** Grosse Pointe's newest condominium ... you get not one, but a network of the most modern security systems to guard you, your home and your possessions.

A CLOSED TV MONITORING SYSTEM covers the entrance, outside parking areas and inside garage. The caller can be viewed from a selected channel on the owner's TV set in each apartment. The doorman and manager's office views the same areas.

THE ENTRY COMMUNICATIONS SYSTEM is a new system conceived and engineered by Michigan Bell Telephone Company. Using a touchtone panel telephone in the lobby, the caller dials the owner's apartment. This enables each party to have a private conversation. During the time the caller is in the entrance vestibule, he is under surveillance by the concealed TV camera.

AN ON-GUARD ALERT SYSTEM features a control panel in the manager's apartment and the attendant's office. This notifies of any intrusion into any apartment when the occupants are away. The doorman or manager controls the system by activating the apartment's security supervision at the request of the owner.

THE FIRE PROTECTION ALERT SYSTEM gives added protection to all occupants of the building and will insure notification of each individual occupant of a fire in an unoccupied apartment.

Further elements of security are the uniformed doorman-attendant and resident caretakers.

Besides security, you also get really gracious living. Here is a typical spacious floor plan of an apartment home which features 9 foot ceilings, individual heating and cooling, top of the line G. E. kitchen with an icemaker and a washer-dryer. A wet bar is conveniently located for entertaining. Insulated walls, floors, plumbing and windows insure maximum quiet. Natural fireplaces, naturally.

There are three separate elevators and approximately a thousand square feet of private storage. Exterior maintenance, gardening and snow removal are arranged. The Jefferson Apartments is an adult community. Residents are home owners and enjoy tax deductions and the investment security of being a property owner and equity advantages.

The Jefferson Apartments is located 2 blocks from a beautiful park with boat slips, 3 blocks from Grosse Pointe Village shopping, 20 minutes from downtown Detroit by bus.

Don't worry about protecting your home. Visit us and learn of our new trade-in program for your home, and our new pricing policy.

The apartment is open 12 to 5 daily except Wednesday. Enter on Neff or St. Clair Roads.

One View From The Capitol
 By William R. Bryant, Jr.

Detroit is choosing a new mayor. As you know, of course, only Detroit residents vote in the mayoral election. All of us are affected by what happens, by the choice made and even by the kind of campaign that is waged by the candidates.

Detroit is our city. We work there, shop there, do things there. A large market for our products and services is there. Much of our labor force comes from there. In myriad ways, economic, social, political, physical and psychological our lives are touched by what happens in Detroit.

It would be interesting, and appropriate, if the metropolitan area outside Detroit could have an advisory vote on the mayor's race at the time of, or before, the Detroit primary. That way the collective judgment of the region affected would be known and the Detroit voters would have and could then consider the views of the whole region in their choice.

Major Candidates

The race is between five major candidates, two of whom will emerge next month as the finalists in the race for mayor.

First to enter the race was Ed Bell, a black, former Circuit Court Judge. He is an intelligent and articulate moderate who has had trouble sparking any great enthusiasm.

Next to announce was Council President Mel Ravitz, whom I once termed "the establishment radical." Ravitz is a political pro who has been the leader of the liberal contingent on the council for many years. He has garnered the support of the major unions.

John Mogk, pronounced "Moke," was the next to enter the race. John is a brilliant, hard-hitting newcomer to politics. He lives in the Jefferson-Chalmers area and has organized, in that large and mixed neighborhood, the most effective community groups in the nation.

His campaign is a people

campaign and he is the only candidate walking the streets and answering the questions of people who have never met a candidate before. He is the candidate who could have the best chance to unify and revitalize Detroit but his newness has made it hard to raise needed money.

Next to throw his hat in the ring was Coleman Young, the second major black candidate. Young is a State senator, a polished veteran of political wars and probably the candidate favored by black liberals.

Last, Not Least

Last, but not least, of the major candidates to enter the race was John Nichols. As police commissioner, Nichols has had high visibility and is well known. Hated by some and the automatic choice of others, Nichols may well lead the primary but could easily fail to muster a majority to win. The negativism which leads people to want a police commissioner as mayor is not what people want to feel, and after due reflection they may well choose a more positive candidate.

So the race is on. Five major candidates. Two old pros in Ravitz and Young, the police commissioner, and two political newcomers in Mogk and Bell. It is those newcomers, however, who are the best qualified in my view to unify and lead. And it is Mogk and Bell who, with adequate financial support and better media coverage, can and should emerge the finalists.

Get involved. It is your city. Study all the candidates. Choose the one you think is best qualified and support him or her, regardless of whether that candidate is first or fifteenth in the polls. This is hardly a time in Detroit to back someone just because it looks like that candidate may come out on top.

Pick the best candidate and help that candidate. And hurry, because time is getting short, for the mayoral race, and for Detroit.

Letters to the Editor

Dear Sir:

Re: Sentence in eighth paragraph of article "Pointe, Detroit Cooperate in Raid on Angel Park" (August 23 edition): "This undercover work revealed the problem to be 'extensive,' he said, with warrants covering such narcotics as marijuana and heroin."

The Grosse Pointe News, I have noticed, has always applauded attempts at drug education programs for Grosse Pointe youth. I applaud you for that stand. Drug education is needed; especially factual drug education.

You certainly realize that your newspaper is a most efficient and effective vehicle for any type of information, especially for drug information that parents may obtain nowhere else. I guarantee you that the above-mentioned article will be the most widely-read, most often-read and thoroughly-read one of the week.

One of the sentences, (which I have indicated above), mentions that marijuana is a narcotic and in the same class as heroin. You are wrong. It is recognized in both the scientific and legal vein as NOT being a narcotic.

I hope you realize the seriousness of your mistake. Too many parents do not extend their efforts any further than their community newspapers for information concerning the "drug scene," for various

reasons. You, therefore, have an important responsibility. You effectively stressed and well-dramatized the illegal activities at Angel Park and the resulting consequences of those activities. That you did a good job in that respect does not excuse you from contradicting federal, state and local statutes, responsible drug education programs and scientific study which acknowledge that marijuana is not a narcotic and therefore in quite a different class than heroin.

Your reporter and anybody else who feels that marijuana is a narcotic would do well to read "Drug Use in America: Problem in Perspective: The Second Report of The National Commission on Marijuana and Drug Abuse" which was released in the spring of this year and which includes such members as Jacob Javits and Harold E. Hughes, (U.S. Senators), and Tim Lee Carter and Paul G. Rogers, (U.S. Representatives).

An apology and a correction is due the public, either from Agent Ferrence who was indirectly quoted, or the reporter who wrote the story. How about it, folks?

Diane Rayl
 (Editor's Note: Diane Rayl is correct—marijuana is not considered a narcotic but is considered a controlled substance. The original error belongs to the reporter, not to Youth Service Division Agent Michael Ferrence).

Gas Should Be Available For Labor Day Weekend

Motorists, expected to drive 651 million miles on Michigan roads during the upcoming Labor Day weekend, should have no serious difficulty obtaining gasoline during the 78-hour holiday, according to Automobile Club of Michigan.

"Despite a current refusal of some gasoline distributors to supply fuel to service stations and a possible curtailment of gas sales by a retailers' group, holiday travelers should have little trouble purchasing gas if minimal precautions are taken," stated Fred Rehm, Auto Club general manager.

The Michigan Petroleum Association, (MPA), representing distributors, and the Service Station Dealers Association of Michigan, (SSDA), are opposed to Phase IV price rollbacks which set profits at levels in effect last January 10. At that time, stations in many large southern Michigan cities were engaged in a price war, and profits for both retailers and distributors were greatly reduced.

The Auto Club notes if present trends continue, the MPA boycott will be extremely limited in scope. Most member distributors are located in areas where there was no price war last January while in Southeast Michigan—where the price war was in effect—MPA distributors service only 10 percent of all stations.

Should a SSDA gas sales boycott materialize over the Labor Day weekend, 20 percent of the state's service stations could close. However, closures would be primarily concentrated in southern Michigan urban centers if a boycott is in fact called.

"While certainly the SSDA boycott would impose hardships if carried out over the Labor Day weekend, motorists would still be able to find fuel throughout Michigan," said Mr. Rehm. He added that gasoline supplies in northern Michigan resort centers will continue to be ample.

Based on trends from previous Labor Day weekends, an estimated 3.3 million vehicles will be traveling on Michigan highways during the period from 6 p.m. Friday, August 31, to midnight Monday, September 3.

The Auto Club anticipates the heaviest traffic of the year to date in Michigan on Monday from 2 to 10 p.m. due to the return trips of weekend tourists and cottage owners bringing children home for school. Two-lane roads should be particularly congested, and at times up to 50 percent of the traffic may be recreational vehicles or cars pulling boats.

"Throughout the Labor Day weekend, the biggest concentration of traffic and crowds will probably be along Lake Michigan's 'Coho Coast,' especially between Manistee and Traverse City," Mr. Rehm said.

"However, since salmon runs are not expected to peak until mid-September, campgrounds and motels near popular coho fishing areas may not fill to capacity," he added.

Auto Club offers this advice to Labor Day weekend vacationers:

- To minimize problems purchasing gasoline at night and all day Sunday and Mon-

What Goes On at Your Library
 By Virginia Leonard

I thought I would once again give you a potpourri of some of the new books that are coming out now. It's a mixed bag, as usual.

I know I'm not too late for a book on golf—and for women! I'm referring to THE NEW GOLF FOR WOMEN, edited by John Voyné. The blurb reads: "This is a golf book for women to identify, a book that allows them to see those of their own sex accomplishing what they hope to achieve." Most important of all, golf here is revealed as "a sport in which women have natural advantages."

In the foreword, Bob Toski says that the eight professionals who have compiled this book have the knowledge and experience to put together a book that will help all golfers. All are excellent players. They are totally dedicated not only to competing but also to teaching well.

Another new book, which may appeal particularly to men, is IRON WHEELS & BROKEN MEN, by Richard O'Connor, and deals with the railroad barons and the plunder of the West. The author is attempting to strip away the legend from what really did happen. Like most myths of the American Dream, the "Winning of the West," this book is based on images of heroic cavalry charges defeating the red savages and dramatic shoot-outs. Mr. O'Connor wants, instead, to show you the real heroes—the courageous settlers who tried to subdue the wilderness, the droughts, blizzards and dust bowls; in short, a very inhospitable land. Stripping away legend, this book discloses how and why railroads were built, with a cast of players from exploited Chinese to dance-hall girls and land barons. From years of study and observation Mr. O'Connor cuts through the pathetic irony of "farms at \$3.00 per acre and not a foot of waste land," and shows how the golden spike that linked the first transcontinental railroad would ultimately become the spike driven into the very heart of the American dream.

I always find good animal stories appealing and we have one here now: FROSTY: A RACCOON TO REMEMBER, by Harriett E. Weaver. It all began when a little boy found a small, orphaned raccoon and took it to the author. The raccoon was lonely, frightened and hungry, but by the time California's "first lady ranger" had fed it, it snuggled down on her shoulder, and she had a pet. From then on life was very different with such a wild and unpredictable animal to take care of. Rolling window-blinds, a truck full of chickens, fun and games at 1:30 in the morning and that wonderful contraption that made the water go round and round when flushed! There were some terrifying things

Invitations are being mailed this week to a cocktail party benefitting the Cottage Hospital Speech Therapy Department. With Mrs. James T. Barnes, Sr., as chairman and Mrs. Harold E. Cross as co-chairmen, the party will be given at the home of Mr. and Mrs. Troy Mashmeyer in Renaud road, on Sunday, September 16, from 5 to 8 p.m.

Heading the honorary committee are Mrs. Lynn McNaughton and Mr. and Mrs. John N. McNaughton. Other committee members are Mr. and Mrs. Byran A. Chaplow, Mr. and Mrs. William Cudlip, Mr. and Mrs. Charles T. Fisher, III, Mr. and Mrs. Dean E. Richardson, Mr. and Mrs. Arthur F. F. Snyder, and Mr. and Mrs. Emmet E. Tracy.

This will be the second benefit cocktail party for the Cottage Hospital Speech Therapy Department arranged by Mrs. Barnes, the other having been given a year ago at her home in Lake Shore road.

"The funds raised at that time enabled Cottage Hospital to conduct a most successful summer speech and language program this year," Mrs. Barnes said. "Sixty children from two to 18 years of age received speech therapy in groups according to their age level and type of problem."

Children were enrolled in the program, she explained, because of such problems as poor articulation, hearing loss, cleft palate, voice deficiencies, mental retardation, and learning disabilities encompassing difficulty in following directions, reading, writing and utilizing expressive language.

A special session of emotionally disturbed, language-deprived children was also conducted in cooperation with the Northeast Guidance Center.

The program was co-directed by Dr. Susan Greif, director of the Cottage Hospital Speech Therapy Department, and Dr. Gary Cooper, with a staff of speech therapists including Mrs. Doris Bess, Mrs. Linda Hodgdon, Mrs. Margaret LaGrant and Susan Howell.

"With the summer help the children received, each made progress instead of taking a backward step because of school vacation," Mrs. Barnes said. "We hope, of course, that our benefit cocktail party this year will raise sufficient funds to provide adequate staff for another successful summer program next year."

Miss Livingood Wed in Garden

Elizabeth Livingood became the bride of John William Cotton on Saturday, August 25, in a 4 o'clock ceremony in the garden of her parents' home. Immediate families and close friends of the bride and bridegroom were present at the rites.

The Reverend William Butler Sperry performed the ceremony which was followed by a reception at the Grosse Pointe Club.

The bride, a graduate of Alma College, is the daughter of Dr. and Mrs. Clarence Livingood, of University place. The bridegroom, a staff attorney for Legal Assistance in Concord, N.H., is the son of Mr. and Mrs. Eugene Samuel Cotton of Lexington, Mass.

For her wedding, the former Miss Livingood wore a dress of self-trimmed Swiss embroidered cotton with a Juliet neckline and sleeves. She carried a bouquet of stephanotis, phalaenopsis and ivy.

Her attendants were her sister, Susan Livingood, who served as maid of honor; Katharine Manning, of Virginia, a bridesmaid, and her niece, Anne Furbush, of Houston, who served as junior bridesmaid.

Greenfield Village Hosts Old Car Festival

Greenfield Village will take time out from the activities of the 23rd annual Old Car Festival Saturday and Sunday September 8 and 9, to honor some very special guests.

On Saturday, September 8, the Village will pay tribute to Gordon M. Buehrig, one of the country's automotive designers whose accomplishments in his field are almost legendary.

He is most famous for designing the fabulous classic Cord 810 and 812 models of the mid-thirties, but his reputation could just as easily rest on his revolutionary design of the Auburn and Duesenberg boat-tails of the same period.

All are highly acclaimed and much sought after by classic car collectors, and all have been revived as near-replicas by later manufacturers as further proof of the timelessness of their design. More recently, Mr. Buehrig was body engineer for the near-classic Continental Mark II.

On Sunday, September 9, the Village will honor four historical automobile societies for their preservation and dissemination of automotive history and their restorations of antique automobiles. They are: the Antique Automobile Club of America, and Historical Automobile Society of Canada, the Horseless Carriage Club of America and the Veteran Motor Car Club of America.

These recognition ceremonies will be just a part of the varied activities of the Festival. Each day's festivities begin at noon with a parade of antique cars through the Village streets to the Activities Area where they compete for blue ribbons for the excellence and accuracy of their restoration and vie for prizes in a series of races and contests.

Among the highlights of the Old Car Festival is a demonstration by 60 members of the

Wheemen, a national organization devoted to keeping alive the heritage of American cycling, of the techniques of riding antique high wheel bicycles.

Another is the Canadian Model T Assembly Team which converts a walter of component parts into an operating car in a matter of minutes and triumphantly drives it off the field.

Helping to re-create the

nostalgia of America's early motoring days are appropriately costumed hostesses, and authentic Dixieland band and related special exhibits and crafts demonstrations.

There is no additional charge for the Old Car Festival beyond the regular Greenfield Village admission of \$2.25 for adults and \$1.00 for children 6 through 14. Children under six are admitted free.

MR. and MRS. S. D. PALAZZOLO, of Trombley road, celebrated their 25th wedding anniversary at a noon Mass, on Sunday, August 26, at St. Clare of Montefalco Church. The Reverend John E. McLaughlin, O.S.A., pastor emeritus of St. Clare, presented a papal blessing from the Vatican. A brunch followed at Lochmoor Club, where the couple with their daughters, LINDA and DIANE, gathered with relatives and friends.

"I think: here I lie under a haystack . . . The tiny space I occupy is so infinitely small in comparison with the rest of space, in which I am not, and which has nothing to do with me; and the period of time in which it is my lot to live is so petty beside the eternity in which I have not been, and shall not be . . . And in this atom, this mathematical point, the blood is circulating, the brain is working and wanting something . . . Isn't it loathsome? Isn't it petty?"

"I think: here I lie under a haystack . . . The tiny space I occupy is so infinitely small in comparison with the rest of space, in which I am not, and which has nothing to do with me; and the period of time in which it is my lot to live is so petty beside the eternity in which I have not been, and shall not be . . . And in this atom, this mathematical point, the blood is circulating, the brain is working and wanting something . . . Isn't it loathsome? Isn't it petty?"

FRENCH INFLUENCED IS THE ARCHITECTURE of this petite maison in the Windmill Pointe area. This one has that much sought after carriage house, swimming pool and central air conditioning. There are four master suites, each with private bath and three more bedrooms on the third floor. Recently redecorated and mechanically in A-1 order.

DOWN HAS COME the price on the best little colonial in the Woods. For \$33,000 you can snap up a gem with three bedrooms, full basement, extra paneled room on the first floor and within walking distance to Mack-7 shopping and a half dozen schools.

IF YOU HAVE WANTED to purchase a larger house in the Farms, which will give your family the required elbow room that only an older home seems to offer, then you should take advantage of the opportunity to see this house on Lewiston Road. Now the luxury of five family bedrooms can be yours if you are shopping in the low seventy bracket. Step-down living room, library and large foyer are all random-width flooring.

HEAD AND SHOULDERS above all the ranch houses for sale in the Farms. We know of no other house which offers two master bedrooms, two fireplaces, family room, central air and a heated swimming pool. Make a big splash and show this to your spouse.

1604 EDMUNTON. A newer ranch in the Woods. Three bedrooms, 1 1/2 baths and a fantastic family room with sliding glass door to a patio. Finished recreation room, two car attached garage and the package is priced to be wrapped up in the mid-fifties.

SUMMERTIME, wintertime, all the time this house provides the ultimate in living. Enjoy central air conditioning and reliable forced air gas heat. The family room has a fireplace and the kitchen is a showplace. Upstairs are five bedrooms and two baths. There's a full basement with playroom, laundry and storage rooms. The two car garage is attached and the fenced yard magnificently landscaped. Just add your furniture and move in.
