Thursday, October 25 THE SOVIET UNION has listed three demands, one specifically directed to the U.S. At a meeting of the U. N. Security Council, the U.S.S.R. told the U.S. to force Israel to curb its activities against the Arabs. The Soviets also asked the U.N. to invoke sanctions against the Israelis and cut off all diplomatic relations with them. Egypt claims its forces are still under attack, but Israel says the fighting has stopped. President Nixon has been in touch with Soviet Communist Party General Secretary Leonid Brezhnev to discuss the situation.

Friday, October 26 THE U.N. SECURITY COUNCIL voted to police the Mid-East with an emergency force that would exclude troops from the Soviet Union, the United States and the three other nuclear powers, Britain, China and France. The arrangement was designed to avert a possible U.S. Soviet confrontation that arose from Egypt's demand that Moscow and Washington send troops, and Mos-cow's readiness to fulfill the request. Until the resolution was accepted, key military units across the U.S. had been placed on precautionary

Saturday, October 27 PRESIDENT NIXON held a nationally televised press conference Friday night, and announced he would choose another special prosecutor to replace Archibald Cox. He still insisted, however, that he would not turn over documents involving presidential conversations to a new special prosecutor. Mr. Nixon also attacked his critics in the mass media, particularly television commentators, for what he feels is vicious, distorted coverage of both the neth W. Boerner's name crisis in the Mid-East.

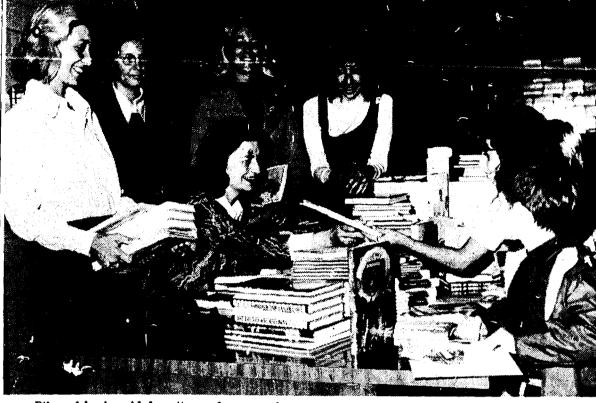

Sunday, October 28 THE PENTAGON reneved four-year most of the 1.7 million servicemen in the United States and the Pacific that were on military alert, but left key units in readiness in this country and Europe. The U.S. is still not certain that the Soviet Union has removed about 50,000 paratroopers from an alert which triggered a brief crisis between the U.S. and Russia, and is waiting to make sure there is no danger that the Russians will make a military move before the alert is ended for all forces.

Monday, October 29 SENIOR EGYPTIAN AND ISRAELI OFFICERS held a conference about 60 miles from Cairo and agreed to allow a convoy to resupply the Third Egyptian Army, surrounded in the Sinai Desert by a ring of Israeli tanks. Israel was prompted by the United States to hold the secret meeting with the Arabs and encouraged to allow the Third Army food and medical supplies. Prime Minister Golda Meir said the battlefield meeting was a good start toward a permanent set tlement of the conflict.

"We have to study the financing method. No method has been worked out on how to pick up the tab. I don't want the village committed to a long financing deal," he stated. "It's hard to commit a small community to a contract when we're unsure of costs in the future."

There's also another aspect Director Vitale is considering in relation to this. "We don't have that big a need for training facilities like the city of Detroit has," (regarding Detroit's large police department). "We don't have that many men. We need training but we don't have a large amount of personnel to train." he stressed, as the Public Safety Department has a total of 21 officers.

And related to this is the fact there's a "very small feels turnover" rate in the department, he noted. In fact, only one man has left in the last points will play an important five years and he joined a role in his ultimate decision.

Fire Damages Home in Park

A Park woman who came home after a three-hour shopping tour, did not notice that her house was on fire, until after she let out the family's pet dog and was about to bring in her purchases, according to information re-leased by Park Assistant Fire Chief David Taylor,

The chief said that the alarm was called in at about 2:12 p.m. on Monday, October 22, by an unknown per-son. The flames gutted the kitchen and caused extensive smoke damage to the rest of the home of Mr. and Mrs. Albert E. Mertens, 1224 Maryland, a single residence.

Taylor said that it is believed that the fire was started by a small portable television set in the kitchen By the time firefighters and equipment from the Park Pending the examination and the City arrived, flames were shooting out of the kitchen windows and smoke was pouring from the windows in the rest of the house. City firemen responded automatically to the two-alarmer, Chief Taylor said.

The assistant chief said that nine on-duty and offduty Park firefighters and equipment responded, with the City sending one engine and three men automatically under the Mutual Fire Aid Pact. The blaze was brought under control, although it had a good start before it was discovered, within 10 minutes, Taylor disclosed. The firemen remained at the scene for approximately one and one half hours putting out the

Marv. has been a dedicated public official serving the citizens of Grosse Pointe Woods in their best interests for over 21 years. He served at a City Councilman from April 6, 1959 through September 10, 1973. Mary has been Mayor pro tem in 1965-66 and 1970-71-72 and '73 and was, prior to his required resignation, the presiding elective official for ten months in our City.

Marv. has always been independent of mind and has maintained unwavering loyalty to the citizens and there is no reason to believe that he would change in any way as "our Mayor."

Mary's integrity is beyond reproach and his proven record during his tenure of office deserves your solid support and your vote.

Let us all help him become "our Mayor" by casting your vote for him on Tuesday, November 6th.

Now. An official program that can cut heating costs up to 17% and conserve Natural Gas.

If you're like most people, holding down heating bills is an idea that hits you right where you live. And, chances are, you'd like to help save Natural Gas, too. Especially during this time of energy

shortages. Now there's an official program that supports both of these objectives. It was developed at the direction of the Michigan Public Service Commission, which is seeking ways to conserve Natural Gas and hold down utility bills by the wise use of energy.

The heart of the program is simply this: Installing ceiling insulation in your home. It's quick. Economical. Easy. A recent White House study found that "the most significant opportunity" for homeowners to conserve energy was through "improved insulation of houses." "Such improved in-

sulation," the government said, "would benefit the individual homeowner by reducing winter fuel bills, summer air conditioning bills, size and capital cost of heating cooling equip-

ment, and air pollution."

The Michigan Public Service Commission agrees with this conclusion. It has supported a study prepared by Michigan Consolidated Gas Company which found that Michigan homeowners can achieve fuel savings of as much as 17% by adding six inches of insulation to their attics. Naturally, results for your home may vary due to architectural differences and your heating habits.

To help you realize fuel savings in your home, we've designed an easy home insulation program. Here's how it works. First, you can install the ceiling insulation yourself. It's a simple do-it-yourself project-and the most economical way to put in ceiling insulation and hold down your heating bills. Many customers can accomplish the task for less than

\$100. Michigan Consolidated Gas Company has even prepared a helpful booklet that shows you just how to do the job. Secondly, you can call a contractor of your choice and arrange to have the work done. Or call Michigan Consolidated Gas Company. We'll have one of our participating insulation subcontractors install it for you.

Our insulation program is easy on your budget, too. Many houses with up to 1,000 square feet in the ceiling area can be insulated for less than \$200. And, there's a payment plan to suit most every customer. You can pay cash. Or, you can pay just 20% down at the time the contract is signedthen simply have the remaining cost included in your gas bill. Pay it off on your next three gas bills with no interest or carrying charges. Finally, you can pay for the job over an extended period at an interest rate of 1% monthly on the unpaid balance. ANNUAL PERCENTAGE RATE OF 12%.

Whichever you choose, you'll be taking an important step toward holding down your heating bills. And cutting down on the use of Natural Gas. Why not plan on doing it now. Contact us today for additional details. And if you're a do-it-yourselfer, ask for our free booklet.

On amendment "A", Officer Petrik stated: "This al employes are excluded amendment would allow a from social security." member to retire at the age of 50 years providing he has 25 years seniority. All cities under Act 345, plus many other pension systems, have this benefit.

"With the new contract signed at Chrysler Corporation with the UAW, a man with 30 years seniority and as young as 46 years of age could retire at more money than we receive. All of industry will soon come under the same retirement as Chrysler. "At present we have to

work to the age of 55 years with at least 25 years service. It must also be noted that we pay five percent of our pay towards our pension and if this proposal passes, we will increase our payment to six percent or a 20 percent increase for the men.

"Some departments are retiring members with 20 years service at half pay. Many others pay one-half pay after 25 years service with an escalator clause. In asking for this amendment we are not asking for anything unusual." Amendment "D"

On amendment "D", the officer said: "In this amendment we are requesting two and one-half percent of our final average for the first 25 years, and one percent for each year thereafter.

"Unknown to many people is the fact that when a member of our department recity, (for 1974 only), is tires, he has three options to \$9,902." pick from for retirement.

'Common belief is that a policeman receives half pay automatically when he retires. He would receive half pay if he took the first option but should that officer die, his widow and orphans would only receive what monies he invested, (five percent), into the pension plan—then they would be cut off without any further compensation."
"As a result, most retirees

do take another option which does not afford a retiree half pay but considerably less, so there would be something for the widow and children.

"You see we do not belong to social security so our widows would have to fend for themselves. We voted to increase our payment to the

Speaks on "E" On amendment "E", which affects both public safety and general employes, Officer Petrik said: "This amendment would allow for a retiree to receive a maximum of two and one-half percent cost-of-living increase.

"Retirees under many pension systems receive some increases, even social security is periodically updated, but under our present pension there is no increase, (regarding public safety officers only here).

"With this amendment a retiree would be able to receive a maximum increase of two and one-half rercent for costof-living Even though the cost of living may go up 10 percent, we could get two and one-half percent of it only, which is better than what we have, which is no increase at all."

In a "Factual Summary of Proposed Charter Amendments," The Woods cites the following "cost examples" for amendments "A", and "E":

"Private Lives", one of Mr. Coward's wittiest offerings, will be casting Wednesday, November 7, at 7:30 p.m. in the third floor art room of the Grosse Pointe War Memorial, while "A Funny Thing Happened on the Way to the Forum" opens the next evening at the Fries next door. "Private Lives", which will

be presented in January, opened in London in 1930 with the principal roles being played by Coward, Laurence Olivier, Gertrude Lawrence, and Adrianne Allen. The full cast includes the four principals, two women and two men thirty to fifty years of age, and a great character woman who speaks only French.

Director Henry Houston is looking for rich, urbane, clever characters, and will aspire to a British flavor in speech. Anyone unfamiliar with the show may bring their own material if desired, although scripts are available from producer Mary Stutt at 885-1356 or 962-8900 ext. 214. Nonmembers are welcome at the November 7 audition.

Letters to the Editor

To The Editor: a serious problem in our teacher with a certificate schools. I was surprised by working half-time) is the thank these Grosse Pointers for their interest.

My reason for writing to the School Board was to present to them the problem at Kerby school in expectation they would use their expertise to inspire our school administrators to use their abilities to solve this problem. There were several statements in your article attributed to me that were not this evening. mine. I would appreciate your printing my letter to Mr. Warner and the School Board to set the record straight.

Pointe Board of Education: Kerby school through the years has had parents and residents who have supported consistently millage votes and school-board elections. Kerby school through the years has been blessed with an excellent teaching staff. This year Kerby school has an air of excitement with a new principal, Richard Kay. But, Kerby has a problem: two highly overloaded second grade sections with seventyfive percent each of active seven-year-old boys. Kerby has two of the finest secondgrade thachers in the Grosse Pointe school system in Pauine Schemmel and Edith Rasch. They are dedicated teachers who always give their best and then some to our children. They now need assistance to continue giving their fine talents and feel themselves they have done a good job. This situation can affect the whole morale of Kerby school. Mr. Kay has preciated.

Dear Siz:

I, once again, wish to express my pride in our teenagers. For the second time in three years, we have had the South High Senior float built at our home and have found the students most welcome guests, not only welcome by our family but by our neighbors.

Their forethought and skill have made them float competition winners. Their en thusiasm, warmth, spirit and consideration made them people fun to be with. And for their ability to conduct themselves in an adult-like fashion, they deserve a pat on the back.

I'm only sorry more famlies are unable to experience the joy of housing a float and getting to know our teen-

bergh interesting. The theme, without and the force within.

Frances Richardson, the gal who reviewed Mrs. Lindbergh's works did a fine job. And as the evening progressed I began to see how this theme would work out quite well. We had been wise in picking two such different women to contrast. Anne Morrow Lindberg has written many books: BRING ME A UNICORN, (diaries and letters published in 1972); DEARLY BELOVED, (1962 -fiction); EARTH SHINE, (essays, 1969); GIFT FROM THE SEA (1955), HOUR OF GOLD, HOUR OF LEAD, diaries, letters showing up autobiographical bits of information); NORTH TO THE ORIENT (1935) and THE UNICORN (poems, 1956.)

Frances Richardson referred to some of Mrs. Lind-bergh's other works in reviewing the two titles mentioned at the beginning of the column, and slowly but surely Mrs. Lindbergh "unfolded" to us. The greatest wonder to me was that she was able to speak so freely about the infamous kidnapping of her first-born-her quently, many people would very, very different. Zelda met Scott when she was a high school girl; after much on-again-off-again romance, they were married and for 10 years were the idols of the public who liked their escapades. Zelda was lovely; Scott, handsome. They were restless and travelled a great deal. Their friends were the "beautiful people" and everything seemed to be going their way. On the other side of the coin, they bickered and fought ceaselessly; they drank too much, especially Fitzgerald, and as time went on Zelda's high spirts turned into hysteria and finally serious emotional disorders. She was institutionalized several times and towards the end of her life she lived with her mother, and played casino. Could this be the same Zelda? Scott eventually died of a heart attack and Zelda died tragically in a fire in an institution a few years later.

Thus, we complete a full circle and see the contrasts and similarities of Zelda Fitzgerald and Anne Morrow Lindberg. It is fun and interesting to play around with the thought of "force" with these personalities—so quiet one fought her inward battles, underwent a terrible tragedy. I'm sure she suffered greatly but came out strong and was able to share her thoughts in book form with the rest of us. Zelda could write, as one can see in the letters she sent to Now Zelda Fitzgerald is a Scott and others, (which different personality. National Presidency For Mrs. Zilly

Mrs. G. Sam Zilly, of Merriweather road, president of the Detroit Archdiocesan Council of Catholic Women, was elected president of the National Council of Catholic Women at NCCW's recent convention in New Orleans.

A member of Saint Paul's-on-the-Lakeshore Parish, Bernice Zilly is a former Detroit high school teacher, holder of a Bachelor of Science degree from the University of Illinois and a Masters degree in Education from Wayne State University.

She was first president and founder of the Mayor's "Keep Detroit Beautiful" committee.

She is a past-president of College Women's Volunteer Service of Detroit and serves on the Southeastern Michigan Chapter American Red Cross executive committee and the CYO board of directors. Among other things.

(I remember a rainy afternoon last winter at Mrs. Zilly's home, a lovely, friendly "Pointer of Interest" interview wth a gracious lady. The NCCW has picked itself a grand president.)
