Submit Petitions for Housing

(Continued from Page 1) While the entire city wasn't canvassed because of the time element, Mrs. Sutton thought if this actually happened, only about four percent of those contacted would refuse to sign the petitions based upon reactions obtained from seniors who circulated the forms.

action shall, as soon as possible, establish a municipal building authority and transfer a portion of the city-owned Ghesquiere Park property for the purposes of constructing a self-supporting senior citizens apartment or housing complex thereon and shall rezone the said property as may be required for such purposes; said housing construction to be financed by a bond issue to be repaid from rental income from such housing complex.

council's denial of such a complex at the park in April was their feeling against using public park property for private housing. This also was a reason why the solons didn't vote to place this matter on the November ballot, (hence, again, the seniors' petition drive).

Farms Views Proposals on Guards

(Continued from Page 1) costs me over \$6,000 a year. I have two men inside five nights a week, and one man in two nights a week. Their salaries cost me more than one year's rent on my building. This is in addition to the outside security guards.

Mr. VanHoet suggested to the council the building of a guard rail along the alley way to stop the one remaining problem—trucks backing into residents' fences and knocking them down. This recommendation was turned over to the mayor's advisory planning committee for further study.

### Pleads Guilty to Attempted U-P

A 21-year-old St. Clair Shores man pled guilty to a charge of attempted uttering and publishing, (U-P), at his Wayne County Circuit Court trial Wednesday, July 30, reported Woods police.

Michael Raymond Krausman is now scheduled for sentencing on September 18. He could receive a maximum of five years in prison on the charge.

He was arrested on June 10 after attempting to cash a check at Manufacturers National Bank, 21303 Mack avenue. Police said he stole a blank check, made it out to himself for \$85 and then endorsed it.

At the scene, bank personnel checked with Father John Sullivan of St. Lucy's Church, St. Clair Shores, on whose account the check was written. Father Sullivan told officers he didn't write the check.

Krausman was held at the bank by personnel until police arrived.

Today's dime is about as useful as a glass eye at a keyhole.

### Scraps Will Turn into Puppets

Soon the scraps of paper, yarn and material scattered on this work table will be transformed into puppets. Busy making their own special creations are, (seated, from left to right), MICHELE AMES, of Notre Dame

avenue, JULIE HOPP, of Grayton road, JENNIFER AMES and JACKY MASIEE, of University place. Assisting the girls are MONICA and JEFF WHEATLEY, (standing, from left and right).

### Imaginations Take Over in Class

By Barbara Bruno  
Paper bags, tongue depressors, a pair of old socks. For most people, lunches go in paper bags, doctors use tongue depressors and worn-out socks turn into rags.

For Diana Howbert, head children's librarian at the Central Library, 10 Kercheval avenue, these items represent something else. They are all would-be puppets which dozens of children now know after attending the puppet-making sessions she directed on Wednesday afternoons throughout the summer.

Put some yarn, buttons and material scraps on an old knee sock, insert a wiggly little hand, and that once-useless item comes alive.

"I try to have a type of puppet they can make right here at the library," Mrs. Howbert explains. "Sometimes they take them home to finish them."

How does one come up with ideas for different types of puppets each week? "Being a children's librarian I have all these great books . . ."

She also has a book . . . ground that most children's librarians simply don't possess. Before The Pointe, Chicago was home and Mrs. Howbert and her fellow librarians there really got into puppet making and puppet performances.

It was an adult venture then and the shows were popular. When she came here she decided to see if kids were as enthusiastic about the pretend creatures as she was.

From the looks of one recent session where around 30 children attended, (on a day full of sunshine, no less), puppets are undeniably popular with kids.

They take instructions well, watching as Mrs. Howbert demonstrates the steps in creating a particular puppet and then they go to it.

"I was very pleasantly surprised," Mrs. Howbert remarked. "I have to do very little for them. They have all sorts of ideas."

There's definitely no shortage of ideas.

While learning to make puppets with styrofoam ball heads it became obvious these weren't going to be just

### Arrest Suspect In Bike Theft

A 24-year-old Detroit man was arrested by Woods police and charged with larceny under \$100 stemming from his alleged involvement in taking a bicycle from in front of the Harmony House, 19683 Mack avenue, Thursday, July 31.

Daniel Ray Wallace was released after paying a \$100 bond pending his scheduled court appearance on Wednesday, August 13.

After a Roseville youth's bike was taken, a general broadcast was put out which led to the suspect's arrest.

While patrolling Cook road at Mack avenue, Officer Robert Kwiatkowski spotted the man, who looked over his shoulder several times, pedaling a green, 10-speed bicycle along Mack at a high rate of speed, according to the report. The man turned onto Broadstone and went west before turning into the drive of a Broadstone home.

After approximately 10 minutes the officer observed the man on foot at the corner of Broadstone and Eastborne. Upon seeing the scout car, the man began walking east on Broadstone.

The officer stopped the man, who told him he was visiting a friend but with police noting he couldn't supply the friend's name and address. Along with Sgt. Bernard Kelly, Officer Kwiatkowski and the suspect went to the Broadstone residence where the bike had been placed.

At that time, the officers received the broadcast of the theft, plus the description and license number of the bike. The license number of the cycle in the driveway matched the one which had been stolen and Wallace was then arrested.

### EAN Shelves Recycling Effort During Summer

Environmental Action Now (EAN), has "temporarily shelved" their recycling effort for the summer months, according to EAN board member Ann Lockhart.

A majority of residents are willing to drive material to recycling centers, providing they are not too far away.

"We found the survey to be very encouraging," said Mrs. Lockhart, "but the funds are just not coming in."

### Area Youths In MYI Tour

Two Pointe residents are among more than 100 high school age youths currently touring Europe with Musical Youth International, (MYI), a combined band and choir group dedicated to the fostering of international good will.

Nancy Winkler, of The City, and Taryn Finerty, of The Park, will have performed in some 35 concerts before the tour is completed. Highlights of the tour include the Congress Hall in Berlin, La Scala Opera House in Milan and Tivoli Gardens in Copenhagen.

Founded over 10 years ago by Dr. Lester McCoy, MYI is the original youth chapter of the People-to-People organization of former President Dwight Eisenhower. The students live with families of their host countries, thereby fostering people-to-people contacts.

The tour ended with concerts in Oxford, Mich., Tuesday, August 5, at the high school, and in Hill Auditorium, Ann Arbor, Wednesday, August 6.

As a result, the group refers Pointers to the following locations for bottle and newspaper recycling:

- Madison Heights Department of Public Works, 801 Ajax, open every day, 24 hours.
- Hazel Park, 22830 Russell, open Saturdays from 9 a.m.-1 p.m.
- Oak Park, 14300 Oak Park boulevard, open every day, 24 hours.

For further information, the EAN office, 20090 Morningside drive, will be open from 1-3 p.m. on Tuesdays and Thursdays.

A lack of funds has contributed to some disarray in the EAN, which elected a new board of directors in June. The group was forced to dismiss its director, Tim Lozen, at that time because of financial problems.

As for the survey, it also showed that a plurality of Pointers think the individual municipalities should take care of recycling. That is the direction that the EAN now intends to move in, according to Mrs. Lockhart.

So far, though, the group said it has had no luck getting the municipalities involved.

### Cook Kids Hold MD Carnival

A group of Cook road youngsters, headed by 8-year-old Allison McNeill, raised \$25.16 in a Muscular Dystrophy Carnival Saturday, July 26.

Allison, aided by her friends and neighbors, sponsored such activities as games of chance, pitch the penny and pot ball.

A variety of refreshments also were provided.

Chaperoned by their parents, who acted more as overseers, the children claimed they had a wonderful time raising the money for a cause which they felt was most worthy.

Giving their time for the benefit, along with Allison, were her brother, Colin, Lisa, Denise and Ralph Barbier, Kristi Lewis, Robyn Oxley and Sheri Ghandi.

Pauline McNeill, Allison's mother, said, "This event warmed the hearts of the parents and neighbors who were looking in on this group actually giving of themselves to help others less fortunate."

The student should be accompanied by his parents and should bring a transcript from his last school.

Quack dentists were plentiful in the eighteenth century and were a popular attraction at fairs and markets in Europe and America. One of the most famous, experts tell us, was Martin van Butchall, who was one of the sights of London in the 1770's. He claimed to supply a complete set of dentures and fit them "without drawing stumps or causing pain." If it had been true, he would have been famous enough without riding around London on a white horse painted with purple spots. Lucky for us, good dentistry is one of the joys of modern society.

## Advice To Investors from an economist who's earned the right to say, "I told you so"

Dr. Henry Hazlitt

Dr. Henry Hazlitt's forecasts about economic trends have proved correct so often, it's surprising he never says "I told you so." Now in an exclusive interview with the *Gold & Silver Newsletter*, Dr. Hazlitt gives his latest forecasts--with his advice to investors. You may have a copy of the interview upon request.

Investors who want to preserve their assets. He has agreed to share these insights in an exclusive interview with the *Gold & Silver Newsletter*, now available upon your request.

### In the interview Dr. Hazlitt gives his candid, specific answers to such questions as:

- Who are the true profiteers from today's inflation?
- Why are we having both high inflation and high unemployment?
- What are the two principal causes of today's recession and what can be done about them?
- Why does he fear that inflation has now entered a more dangerous stage than ever before?
- How likely is a nightmarish, Germany-style hyperinflation in America?
- How does advanced inflation affect investment potential?
- How did common stocks and gold perform during Germany's hyperinflation?
- What are examples of investments that he believes will not do well if inflation continues?
- How does he believe savings accounts, bonds, common stocks, real estate, commodities, silver, and gold will fare in the future?
- What steps does he recommend for investors to preserve their wealth--even if the worst comes to pass?
- What does he recommend as "by far the best single investment" in the economy he sees ahead?

### Free Copy of Interview

May we send you a copy of Dr. Hazlitt's 4,500 word interview, absolutely free? For your copy, simply fill out and return the coupon below to Monex International, publisher of the *Gold & Silver Newsletter*, and one of America's leading suppliers of precious metals to investors.

With the interview, we'll also send you a copy of Monex's new booklet, "How to Buy Gold & Silver." The booklet answers several frequently asked questions about investing in gold and silver. As with the interview, there is no charge or obligation.

Described by H. J. Mencken as the only economist people can understand, Dr. Henry Hazlitt has been a champion of capitalism and an authority on inflation for more than 40 years. Anyone familiar with his financial editorials and columns in *The New York Times* and *Newsweek*--or with his 15 books, was forewarned, sometimes by 30 years in advance, of such developments as:

- The long-term decline in value of the dollar.
- The danger of planning for retirement with a fixed income.
- The wholesale failure of wage price controls.
- The outflow of the government's gold which forced devaluation of the dollar.
- The end of dollar convertibility.
- The failure of America's foreign aid program.
- The predominance of inflation as a major trend.
- Even our present recession and high unemployment.

That's not to say that Dr. Hazlitt never makes mistakes. Of course he does, but unlike many economists, he's quick to admit an error and that his current expectations may not be realized. For instance, when asked why he didn't recommend investing in gold coins in his 1960 book on inflation, he said, "I hoped then that our fiscal and monetary managers would discontinue or slow down their inflationary policies. I was wrong."

Wilson Peeler, of Moorland drive, chairman of the Metro-Detroit chapter of the National Multiple Sclerosis Society announced that the Detroit chapter, along with the American Red Cross, will conduct free home care classes for family members of multiple sclerosis, (MS), patients in September.

Classes are for two hours and will run for 10 consecutive weeks. Subjects include basic health procedures, nursing fundamentals, nutrition, transfer techniques, equipment, physical therapy and aids to daily living. The psychological consequences of MS also will be discussed.

Mr. Peeler said pilot programs held last spring in Roseville and Dearborn were tremendously successful and informative. These pointed out the need for additional classes in more metropolitan locations, he said.

Depending on response, the fall series of home care classes will include daytime classes in Oak Park and

downtown Detroit. Evening classes are scheduled for Roseville and Wyandotte. "Though we have mailed hundreds of program announcements, many metro MS families are not on the Society's mailing list and, therefore, will not know of the home care program," Mr. Peeler said.

"We urge interested MS families to contact us for more information about this health education program."

For registration information, call the Multiple Sclerosis Society office at 342-1770.

"The home care classes are another important service of the MS Society, American Red Cross and the United Way of Michigan," added Mr. Peeler.

## Woods Police Recover Bike

The Woods Public Safety Department made a quick recovery of a bike stolen from a Farms resident Saturday afternoon, August 2.

The bike, an orange 10-speed, was stolen while parked in front of Mr. A's party store, 19210 Mack avenue.

The suspect, a 14-year-old Detroit resident, was apprehended on Hawthorne about a quarter mile from Lakeshore road. He was taken to The Woods police station and was later transferred to The Farms station.

After a Youth Service Division contact card was made out on the suspect, he was released to his parents.

The bike was returned to its owner.

## DYC Natators Have Fine Meet

The small group of Detroit Yacht Club, (DYC), swimmers who recently attended the 1975 Michigan Long Course Age Group and Open State Championship AAU Meet did very well.

The three day meet with prelims and finals was hosted by Southfield at its civic center 50-meter pool. A total of 3,800 entries made for tough competition in every event.

Pointer Nick Trost, 14, did a spectacular job taking firsts in the 13-14 boys' 200-meter fly, (2:34.2), 100 back, (1:11.3), and 200 back, (2:33.4). He also took a third in the 100 fly, (1:08.4), a seventh in the 200 free, (2:16.8), and finished eighth in the 100 free.

Not far behind him was DYC teammate Toby Lindheim, 14, who took third place medals in the 200 back, (2:35.8), and the 100 back, (1:13.0).

He also medaled in the 200 individual medley with a time of 2:38.6 and was an alternate in the 100 and 200 free events with times of 1:02.5 and 2:17.3, respectively.

Todd Lindheim, 13, came through with a seventh place qualifying time in the 13-14 boys' 200 fly at 2:51.8. These three boys, with Howie Anderson, also placed and medaled in the 13-14 boys' 200-meter medley relay.

Other DYC swimmers who qualified for the meet by having Michigan AA Class times, and who improved their long course events, were Greg Tarrant, Laurel Baculius, Bill Brownell, Bob Brownell, Cindy Dawson and Matt Sobieski.

Matt, 16, captain of the DYC boys' team, recently placed first in the Pontiac All-American Class A Short Course Meet in the 100-yard fly. He and Bill Brownell placed in many events at that meet. They are varsity swimmers at North and South High Schools, respectively.

## Attends FCA Conference

Nick Manzella of The Woods, a North High School baseball player, attended a Fellowship of Christian Athletes, (FCA), conference Saturday-Thursday, July 26-31, at Central Michigan University.

The five-day program of "inspiration and perspiration" is one of the 28 FCA national conferences scheduled this summer involving 10,000 high school, college and pro athletes and coaches and family members.

In addition to "huddle" group discussion, the daily schedule consists of competition in a variety of sports, special events, workouts, coaches clinics and evening assemblies where top sports figures share their Christian faith.

The purpose of the FCA is "to confront athletes and coaches, and through them the youth of the nation, with the challenge and adventure of following Christ and serving Him through the fellowship of the Church and in their vocations."

## Trio Train at Cottage

Three university students will soon be going back to school after gaining experience by working at Cottage Hospital.

They are Joseph J. Meles of Grosse Pointe, who is a sophomore at Wayne State University Medical School; Cathy Glick of New Jersey, who is entering her sophomore year at the University of Michigan Medical School; and Peter Colbert, also of New Jersey, who is in the Graduate School of Business and Public Administration at Cornell University.

All three students have one thing in common: they are pursuing careers in the health field. Two of them — Mr. Meles and Miss Glick — are at Cottage under the SAMA-MECO program, which is the Student American Medical Association project for Medical Education and Community Orientation sponsored by the State Medical Society and the Michigan Hospital Association.

SAMA-MECO was designed as a 10-week program to give students a first-hand look at hospital operation and the many departments not usually studied by medical students early in their training, according to Cottage Administrator Ralph L. Wilgarde.

Mr. Colbert is studying for a Master's Degree in Hospital Administration and part of his graduate work is at Cottage as an administrative intern.

At this time, ophthalmology is the career of Mr. Meles, while Miss Glick plans to specialize in neonatology. "The main advantage of this program is to help medical students learn more

about medicine in general before they must make up their minds about what and where to practice," says Mr. Wilgarde.

### Pointe Police Team Have Successful Softball Week

By Mark Brecht  
Pointe Police, representing the smallest community in the Friday-Sunday, August 1-3, competition, invaded the city of Dayton, O., for the National Fraternal Order of Police Softball Tournament and finished eighth out of 47 entries.

The Pointe stood among such giant departments as New York City, Philadelphia, Washington, D.C., Pittsburgh, St. Louis, Detroit, Nassau County, N.Y., the Ohio State Police, Indiana State Police and the Maryland State Police.

Despite the heavy competition, the "dwarfs" from GP promptly reared their heads by upsetting the Cleveland Police Department on Friday night on a poorly lighted field, swallowed in a smothering humidity.

Saturday morning marked the start of a new day, a day which would see the police squad play a total of six games which consumed 10 hours in such diverse weather that made one think he was back in Michigan. It featured blistering heat and high humidity, thunderstorms and lightning, heavy winds and lots of rain.

The Pointers took on Cincinnati, O., Police at 10 a.m. on one of 24 diamonds in the huge Kettering Field complex. The result was a crushing loss where Cincy scored 11 runs in the first inning. The Pointers attempted to fight back, but were thwarted by the Cincinnati team and some questionable decisions on the part of a home town umpire.

The Pointers were now one down in the double elimination tournament. They faced the monumental task of having to win five consecutive games to qualify for the championship bracket on Sunday.

They could have quit right here. Instead, they demonstrated their courage in the face of harrowing odds. In order, they defeated the departments from Columbus, O., #1, Dayton, O., Columbus, O., #2, and Lexington, Ky.

By now the playfields at Kettering resembled battle fields. Of those teams still in the competition many were beset with crippling injuries: broken hands and legs, pulled muscles, sun strokes and just plain exhaustion.

The Pointers faced one more hill to climb. They had

to travel to Lyons Field to play the Kettering, O. County Sheriff's department who were playing only their second game of the day.

It was in this final game that the Pointers' bubble burst. GP fell behind 7-0 in the first inning and their stamina and perseverance ran out as they battled back but lost, 10-5.

The Pointers walked off the field losers, but they could hold their heads high for they outlasted many of the big cities.

Leading the hitting attack for GP were Mike Kortas, (Park), with a .611 average and John Trevillian, (Shores), was a .565 mark. Mike Vandeginste, (Woods), drove in 12 runs, while Archie Grieve, (Shores), and Mike Cavanagh, (Woods), knocked in 10 runs apiece.

Team members said they would like to give special thanks to all the wives who made the trip and who endured the long days to cheer the club to victory.

By John Kraisa  
On Thursday, July 21, Elworthy Field hosted the championship game of the Grosse Pointe City Neighborhood Club League. The tournament was comprised of the following teams: the Woods Sport Shoppe, Lue-

deke's, Meldrum and Smith Landscaping, the Nomad's, Brook's, Walton-Pierce, J. X. Palms and the Grosse Pointe Police. Luedeke's and The Pointe policemen played for the championship.

Luedeke's won the toss of the coin and elected to be the home team. In the first inning the Pointers had seven base hits and scored four runs.

However, Luedeke's came back and showed they also were on the field to play ball. After one complete inning the score was 4-2.

But the policemen came back in the second with seven more hits and six runs. With the score at 10-2,

the game turned into a defensive battle. Luedeke's was held at bay in the scoring column and the Pointers were able to scrape up only two more runs over the last five innings, making the final score, 12-2.

The following players are from the five Pointe police departments and have contributed to a very successful season. From the Park, Mike Kortas and Dave Hiller; Farms, John Kraiza and Mark Brecht; Shores, John Trevillian, Archie Grieve and Mike Kenyon; City, Dave Teolis, and Woods, Pat Devine, Ron Hayden, Bruce Marone, Paul Crook, Mike VanDeGinste, Ted Hinz and Mike "Wachooka" Cavanagh.

**Preceptorship Program Has Advantages**

(Continued from Page 1)  
 Dr. Danforth feels that med students of today are more knowledgeable than med students of yesterday. "They're getting a better, broader education. This preceptorship is a good example. Is that right?"

**Slows Down Pace**  
 He asks this question of a young man named Richard Duff, a third-year med student at Wayne. Rick agrees. "The trend of medicine in the past years has been towards specialization," he claims. "There is a definite need for specialists because one doctor cannot possibly know everything. But the move towards specialization was too fast. Everybody wanted to be a surgeon or an obstetrician. The idea of family practice was being ignored, and there were not enough general practitioners. "This preceptorship program slows down the pace," Rick continues. "It makes us realize that people have social, emotional and financial needs, as well as organic needs."

"This program makes you realize that you're treating a patient, not a disease," says Gordon Nubur. Gordon is a second-year med student, learning under Dr. Bedell at the Family Practice Center at Bon Secours Hospital.

**Bolsters Incentive**  
 His partner, Tom Klein of MSU, feels the same way. "It kind of brings it all together. While you're studying those text books in the classroom you wonder if it is all going to fit in. By working with these doctors you're seeing things you'd never thought you'd see," he declares. "Any practical experience serves to bolster your incentive to want to learn," adds Gordon.

Gordon and Tom are both doing this as a matter of choice. Neither of them are at a point in their medical studies where the preceptorship program is required. But both opted for this work-study combination over a conventional summer job. As Gordon explains, "It's not really a job, it's a learning experience."

"I used to work in the emergency room at Saint John," states Tom, "and there is nothing like practical experience. I'm sure I could find a job that pays better, (they're given an allowance of \$84 a week), but for what I'm learning here, the small pay check is worth it." He adds that Michigan State also is giving him class credit for his participation.

**Notes Importance**  
 Rick is participating in this program under the third year rotation program all third-year med students at Wayne undergo. Besides observing family practice, he will be studying neurology, psychiatry, internal medicine, obstetrics and pediatrics, throughout his third year.

**Young Diver Bests Elders**

Mike Brown, 14, of The Woods, defeated his college and post-college competition to become the youngest qualifier for the 1975 Senior Men's AAU Diving Championships to be held in Woodland, Tex., Tuesday-Saturday, August 12-16.

To qualify for the meet, Mike scored 391 points to take fifth place in the 10-meter platform event at the Senior Men's AAU Qualifying Meet held at the University of Tennessee in Knoxville Saturday-Sunday, August 2-3.

**SHIRKS DUTY**  
 The man who does less than his share makes it necessary for another to do more than his.

is leaning towards becoming a surgeon rather than a family doctor, he feels that working under Dr. Danforth has been an invaluable experience for him.

"It made me realize how important the family physician is," he states. "He is the one who is responsible for diagnosing your problem, and then treating it himself, or referring you to a specialist he feels can do more for you. He is the first one who sees you, the last one, and the one who follows your case all the way through."

Have any of the students had any problems with their doctors' patients? "When I first walk into the examining room sometimes the patient will ask, 'Where's Dr. Bob?' I then explain to them who I am and why I'm here and they usually realize at that point that I am a doctor. I generally get along with his patients very well," says Rick.

"The truth is," interjects Dr. Danforth, "they like him better than they like me."

Rick laughs and then considers for a moment. "Down to Earth"

"Working directly with those patients . . . it really brings you down to earth. It takes you out of that ivory tower med school can put you in."

"Dr. Bedell's patients are really our patients," claims Tom. "I mean, they're real patients. They've gotten to know us and like us."

Gordon adds, "Some of the patients do not know that we're not full-fledged doctors, and we don't bother to tell them if we feel it would upset them."

"But that's not deceptive," he believes. "We are student doctors and are qualified to do many of the things that Dr. Bedell does."

What exactly do they do? Dr. Bedell explains. "They observe patient management and care, learn office practices, assist in home management of chronic disease patients, learn how to take histories, and make daily rounds to my patients in the hospital."

Rick's functions are basically the same, except for the hospital rounds. Dr. Danforth's clinic is independent, separate from any hospital.

**Learn Many Things**  
 "It's not so much exactly what the physician does, it's more the basics about running a successful practice," explains Rick. "I mean, when we leave after our four-week training period, we do not come away with the ability to diagnose cases as the doctor would, or treat patients in any complete medical capacity."

"We've been exposed to it and that's good, but what we're really learning is how the office is arranged, how a waiting room is operated, how the girls in the office assist the doctor, how they help him budget his time, how the patients are taken care of in the examining rooms, how the fees are collected. Things like that."

What advice would these young men, who have already gone through four years of undergraduate study and have had a taste of what med school is all about, give to other young men and women who are thinking of becoming doctors?

"The best advice I could give is to enjoy your undergraduate years," says Gordon. "They are really an important time in your life."

Rick sides strongly with this idea.

**Don't Give Up**  
 "Get out and mix with people. Learn to relax and enjoy life. Of course, you have got to study hard, especially the sciences, but when the time is right, play hard, too."

Tom emphasizes that

they shouldn't get discouraged if they are set back. "Both Gordon and I did not get accepted when we first applied to med school. We both took some more classes and worked and then reapplied a year later. I feel that I really benefited from that extra year," he relates. "I had a chance to get away from the situation, view it objectively and see if that was what I really wanted."

"I realized it was and I tried all over again. You have to be determined and not give up."

**Original Statement**  
 But back to the original statement, "The success of this program depends on the success of the doctor as a teacher." It was made by Tom Klein. Has his experience in the preceptorship been a successful one, based on that criteria?

"Definitely," is his answer. "Dr. Bedell is a fantastic teacher. He just loves to teach. He is always taking the time to explain."

"He really makes all the difference in the world," adds Gordon. "I can't say enough good things about him."

"I am working with an exceptional man," states Rick. "He is a man who has truly taken on the ideology of a family doctor. Dr. Danforth really makes the program. He is putting forth an effort on his part to help aspiring doctors, and he is pure when he says that he really enjoys doing it."

"Of course," he adds as a sort of afterthought, "I don't think a doctor would volunteer his services unless he were a conscientious and concerned person. He'd have to be. I'm sure they're all outstanding physicians."

by KEN MEADE

If you are stuck in traffic, one of the most typical and difficult problems that can occur in your car, is that the cooling system may become overworked. This will cause the temperature light in your car to come on. If the light comes on, immediately turn on the heater and turn off the air conditioner. Place the transmission in neutral and run the engine at moderately high speed. If the warning light does not go out in a few minutes, however, pull off the road, stop the engine so that it does not overheat any further.

When you buy a new car be sure to see us at **POINTE DODGE, INC.**, 18001 Mack Ave., 884-7210. With every new car we sell, we provide you with "The Clincher", Chrysler Corporation's Owner Care program. We replace without charge any defective factory-installed part for one full year no matter how many miles you drive . . . and we even put it in writing.

## From Another Pointe of View

By Janet Mueller

Suzanne Reed, daughter of the Paul Reeds, of Vernier road, is home for the summer, working and writing a paper about her experience as a three-month internship staff member of the California Youth Authority in Sacramento.

Suzanne, graduated in 1972 from Grosse Pointe North High School, is a Michigan State University student now, majoring in Criminal Justice, enrolled in MSU's James Madison College where the curriculum emphasizes a multidisciplinary approach to public policy problems.

She spent spring term in Sacramento. Her duties covered all aspects of juvenile delinquency problems, from attending juvenile court to home visits to youngsters on parole. She worked with regular parole officers, observing firsthand how they counsel young people in trouble with the law.

"The California Youth Authority is recognized nationwide for its very progressive and effective programs," she reports. "I really liked the independence and resourcefulness needed to become an effective parole agent—and this experience has helped me to decide on a career after I graduate."

So how come they never offered interesting, rewarding internships like this when I was in college?!!

## Consider Pets in Landscape

Your home grounds should meet the needs of all members of your family—including the family dog!

"Even house dogs need to get outdoors," observes Joe Cox, Extension landscape architecture specialist at Michigan State University. "And other dogs may need to spend most or all their time outside the house, so a pet area can be important in the landscape."

It may be something as simple as a metal stake with a swivel at the top for attaching a chain or rope or as complex as a chain link fenced dog run with a cement floor for easy cleaning. What you choose depends on the needs of your pet and the resources you have to work

with. "Accessibility to the pet area is important," Cox points out. "You want the pet area to be easy to get to for cleaning, feeding and watering your dog. A storage place for grooming tools, food and dishes and a water source nearby can be handy." Shelter for the animal is necessary, too. A dog that stays outside all the time needs protection against all kinds of weather. For the dog that stays outdoors for only short periods of time, a choice of sunny or shady spots may be all that's necessary.

Because it's generally unsafe—if not illegal—to let dogs run loose at will, some type of enclosure is often needed, Cox says. A run or some other type of pen also gives the animal a chance to be free of a leash or chain.

Wire chain link fencing is usually a good choice for a dog pen, Cox says. "It is sturdy and relatively easy to install and maintain. It is expensive, but you can cut costs by fastening the pen to one or two sides of a building and so reduce the amount of fence you need."

A permanent kennel should have a concrete floor for easy cleaning, according to the specialist. Pea gravel on a sand base is another alternative while sawdust, newspapers or other litter spread on the ground as the least desirable option. Daily cleaning is a must.

## Hyland - Nutter Rites Celebrated

Beaconsfield Avenue Home Awaits Pair, Vacationing in Europe after Afternoon Service and Garden Reception

A garden reception at the Moran road home of her father, Russel Howard Nutter, followed the wedding of Carol Davenport Nutter and Timothy Joseph Hyland Saturday, August 2, in Christ Church, Grosse Pointe.

The bride, who is also the daughter of Mrs. Mary Jane Nutter, of Lee court, St. Clair Shores, wore a 1920's-style white chiffon gown and wide-brimmed picture hat, and carried a dozen long-stemmed roses.

She was attended by her sister, Mrs. Walter Cytacki, as honor matron, by honor maid Robyn Semmler and by bridesmaids Lisa Hollerbach, Linda Haller and Pamela Haracz, of Chicago, in coral chiffon frocks similar to the bridal gown, each carrying a pair of roses.

The bridegroom, son of Mr. and Mrs. John H. Hyland, of Troy, asked Thomas Bogus to act as best man.

John Hyland, Jr., John Bradley, Russel Nutter, Jr., and Dave Moross seated guests for the 2 o'clock ceremony, at which The Reverend Vincent W. Warner presided.

The bride's mother wore a street length dress of yellow linen. The bridegroom's mother's dress, also street length, was fashioned of teal blue jersey.

The newlyweds will return from a European vacation to make their home in Beaconsfield avenue.

The new Mrs. Hyland is an alumna of Grosse Pointe South High School and attended Chicago's Ray Vogue School of Design. Her husband, a United States Marine Corps veteran, attended Ferris State College.

## The Gary Regentins

Wed Friday evening, July 18, in Saint Joan of Arc Church were CHERYL ANN GRIFFITH, daughter of Mr. and Mrs. Myles Griffith, of Roslyn road, and Mr. Regentin, son of the Gilbert Regentins, of Ubyly.

## Varied Fare for Festival

A wide variety of music will be presented during the Meadow Brook Music Festival's five concerts this Thursday through Sunday, August 7 to 10.

Programs range from all-Mendelssohn evenings by the Detroit Symphony Orchestra through the distinctive jazz sound of the Benny Goodman Sextet to the popular two-piano artistry of Ferrante and Teicher.

Music for children will be offered as well, at a special Children's Concert conducted by DSO Conductor-in-Residence Paul Jack Faxon as narrator of "Peter and the Wolf."

The week's symphonic concerts tonight and Saturday, both at 8:30 o'clock, will feature the distinguished Swiss conductor Peter Maag in his Meadow Brook debut, with violinist Daniel Heifetz.

Heifetz will perform Mendelssohn's Violin Concerto in E minor. Maag also will conduct the "Fingal's Cave" overture and — appropriate enough — the overture and incidental music to "A Midsummer Night's Dream," with the Meadow Brook Festival Chorus, Raynold Allvin, director, and soprano Jan Albright and mezzo-soprano Elsie Inselman, last heard at Meadow Brook during the Tchaikovsky Marathon in June.

Benny Goodman and his Sextet are star attractions on the jazz series Friday evening, August 8, at 8:30 o'clock. Appearing in the group with clarinetist Goodman will be drummer Ronnie Bedford, trombonist Urbie Green, native Detroit pianist Hank Jones, guitarist Bucky Pizzarelli and bassist Slam Stewart.

Ferrante and Teicher return to Meadow Brook for the first time since 1972 for a sophisticated pops concert Sunday evening, August 10, at 6:30 o'clock, combining serious piano technique with the popular themes of today.

The Meadow Brook Music Festival grounds, lawn and picnic area are open from two hours before concert-time each evening. Meals and refreshments are available at Trumbull Terrace. Parking on the grounds is free.

The Festival runs through the rest of the summer, to August 31, with symphonic concerts on Thursdays and Saturdays, jazz on Fridays and pops on Sundays.

Tickets for evening concerts are priced at \$7, \$6 and \$5, (\$3 for lawn seats). All seats at Children's Concerts are \$2.50.

Tickets are available at Hudson's, Grinnell's and the Meadow Brook Music Festival Box Office, 377-2010.
