A SPOKESMAN FOR THE leftist Lebanese Arab Army claimed Wednesday that Lebanese Christian forces and Israeli commandos had attacked a Moslem-controlled village near the Israeli border. The village reported under attack is on the edge of the Arkoub region, once the main staging area for Palestinian raids against Israel. There was no immediate comment from Tel Aviv. Residents of Metulla, just south of the border, reported hearing artillery fire from across the frontier.

PRESIDENT-ELECT JIMMY CARTER will appoint women, blacks and persons with "different philosophies" to cabinet positions, a key advisor said Thursday. Hamilton Jordan, Mr. Carter's election campaign manager who now heads the incoming administration's job appointment search, said Mr. Carter also is considering naming Republicans to cabinet posts, including a conservative secretary of the treasury. The first cabinet appointments probably will be made in mid-December and they should be finished by the first of the year, said Mr. Jordan to reporters in Washington.

PATRICIA HEARST WAS freed on \$1.5 million bail Friday and went home for the first time since her bizarre kidnapping 33 months ago. The 22-year-old Miss Hearst, who has spent the last 14 months in prison, was released by U.S. District Judge William Orrick on bail pending appeal of her bank robbery conviction. She also awaits the January 10 start of a trial in Los Angeles on state charges of robbery and kidnapping. The judge also denied a motion by Miss Hearst's attorneys for a new trial on the bank robbery charge.

HIGH ALTITUDE WINDS carried radioactive fallout from a Chinese atomic bomb explosion across the U.S. Saturday but federal authorities said their only worry was that some radioactivity might fall to earth if it encountered a rain cloud. Government monitoring units were activated to measure radiation levels in the cloud. Early Saturday, the Environmental Protection Agency reported the cloud from the Chinese weapon had arrived over Washington State. The spokesman said the cloud would be out over the Atlantic off the New Jersey shore sometime Sunday.

AN EXPLOSION AND fire ripped through four floors of a gun factory in New York Sunday, injuring 55 workers and throwing some of them into the street four floors below. Several victims were covered with hot gun and many were sent for treatment to burn centers in three states. Some of the injured suffered burns over 90 percent of their bodies. Basement windows reinforced with wire were blown out of several floors and a loaded cabinet weighing about two tons fell onto a car below, crushing it.

MAYOR YOUNG ANNOUNCED Monday that the city will recall 125 police officers next Monday, bringing back to duty the last of those still out after last summer's massive layoffs. The recalled officers will be assigned to patrol downtown and some shopping areas on the east and west sides during the Christmas season, the mayor said. The Police Department will be reassigning the men later to neighborhood foot patrols and mini-stations in all the city's precincts.

## Population Statistics Explored

Figures Used in Obtaining Information Viewed; Four Pointes Show Drop

By George Polgar Jr.  
Last year, the federal revenue sharing allotment for The Woods was trimmed because estimates indicated a decline in population in that community.

In response, The Woods attempted to contest the action in court on grounds that the population figures used in the government calculations were based on a Southeast Michigan Council of Government (SEMCOG) report of questionable accuracy to the city.

Though The Woods later abandoned its case, city officials have maintained their contention that the SEMCOG figures, which show a decline in population, are being used to determine revenue sharing.

Difficult to Tell  
SEMCOG Executive Director Michael Glusac has repeatedly denied these claims and says that the federal revenue sharing office would not use the estimates generated by his organization because census bureau estimates are more reliable.

A check with the census bureau in Washington, D.C., and the Office of the Budget in Lansing has revealed that there is no way of telling whether SEMCOG figures have been consulted for computation of revenue sharing entitlements in the past.

However, a system of comparison and adjustment of census bureau findings with the findings of regional agencies like SEMCOG is being devised.

## Accountability Report On Kalamazoo System Viewed by William Coats

Information Seen in Relation to Pointe Schools; Study Financed by National Education Assoc. and Its Affiliates

By Susan McDonald

In countless speeches to Grosse Pointe's parent organizations, its teaching staff and administrators, Dr. William Coats has stressed the necessity for strict accountability in education.

Setting goals for the system, right down to the details of classroom curriculum, and measuring how well those goals are achieved, has been defined as the basis of his managerial philosophy.

Proposed changes in contract language for teachers, expansion of administrators' merit pay system and workshops on accountability and testing are the only hints we have, thus far, of just what kind of accountability system may be designed for Grosse Pointe.

May Offer Insights

But, a report recently issued on some aspects of the Kalamazoo accountability program, designed primarily by Dr. Coats, may offer some insights as to what might be expected here in the coming months.

The study, financed jointly by the National Education Assn. and its affiliates in Michigan and Kalamazoo, was conducted by Michael Patton and Barbara French of the Minnesota Center for Social Research at the University of Minnesota, and Vito Perrone, dean of the Center for Teaching and Learning at the University of North Dakota.

It is a survey of Kalamazoo teachers' feelings about the accountability and testing system they worked under and it shows an overwhelming lack of support from that group.

In Kalamazoo teachers' view, the system was judged a "dismal failure" and a "destructive force" on the system.

## GP Park's 'Family' Law Main Focus at Meeting

By James J. Njalm

Two career men who were denied a permit to reside in the same house as a "family," and who were served with eviction notices by the city within the deadline set for Tuesday, November 30, were granted a reprieve by the Park Council, sitting as a Board of Appeals, on Monday, November 22.

Their case will be reviewed on Monday, December 13, at 5:30 p.m.

The Board set aside its late October ruling that Don Mazzola and Richard Grodin, who have been living at 1435 Kensington for the past two months, not be granted a permit to reside under the same roof.

The Board rescinded its order that the pair evacuate the premises by the deadline.

Following this decision, the Board of Appeals, approved a permit to allow three women to live together as a "family," as provided by Chapter 20, Building Zone Ordinance No. 22, Section 16, which prohibits persons not related by blood, marriage or adoption to live together without permission of city, (without a permit issued by the city).

Permission to live together were granted to Gail Driver, Jane Rayburn and Judy Adams, all college graduates. Their home is located at

## Farms Streets Being Repaired

Motorists traveling on Grosse Pointe boulevard have been somewhat inconvenienced by construction, but the resurfacing work should end soon, according to Farms City Clerk Richard Solak.

"We try to recap, (apply asphalt), to a couple of streets in The Farms every year," said Mr. Solak. "It's a continuing program to maintain our streets."

The two streets undergoing recapping this year are McMillan from Ridge road to Williams, and Grosse Pointe boulevard from Fisher to Moran roads.

Mr. Solak estimated the work on Grosse Pointe boulevard would be finished in a week.

The total cost for recapping the two streets should be approximately \$50,000, added Mr. Solak.

Optimism Expressed over County Program Which Provides Free Meals to Seniors

By Roger A. Waha

A Food and Nutritional Program, offered by Wayne County for senior citizens 60 and over, made its debut yesterday, Wednesday, November 24, in temporary headquarters at the American Legion Hall, Grosse Pointe Post No. 303, 20916 Mack avenue.

Around 100 Thanksgiving meals were made available to kick off the debut of The Pointe area site, which is part of a Wayne County Agency on Aging program open to all seniors in the county.

Finally, the teachers said that the system created an undesirable atmosphere of anxiety among teachers.

Dr. Coats reacted to the report by knocking Dr. Perrone's credentials and pointing to differences between Kalamazoo and Grosse Pointe School Systems.

"I don't see any direct relevance of the Perrone report for Grosse Pointe at all," Dr. Coats said. "We will not set up a similar system here, not because of any flaws in the system, but because the needs of The Pointe schools are completely different from Kalamazoo."

He said he has read of Dr. Perrone's opposition to testing programs and that Dr. Perrone's stand on that issue invalidates the report.

Major Emphasis

Dr. Coats acknowledged the lack of teacher support of his system was a problem.

Further conclusions indicated teachers did not feel the system made them more conscious of their responsibilities to attend to basic academic skills, that it put too much pressure on students to do well on standardized tests and that it is not a good indicator of what students learn in school.

the part of Woods seniors alone. Based upon a questionnaire recently sent out by

the Senior Citizens Commission, around 130 expressed an interest at having meals at the center, while about 22 said they would like them at home.

And this expression of interest doesn't even consider potential response from the other Pointers and neighboring county communities.

We've had calls coming in from individuals of other communities, noted Mr. McNamara, so the program has caught "the imagination of lots of people."

**Happy over Start**

For her part, Irene Sutton, chairman of the Senior Citizens Commission, stated, "I'm glad it got off first base and I hope it serves a real need in the community. I'm very happy it got started and I hope those who can go will bring other citizens."

She pointed out while meals are free, anyone who wants to pay may do so, (a 50-cent donation is requested). At the same time, Mrs. Sutton indicated such a program wasn't only for seniors on a tight budget, but was available to those who can afford to pay but who may not cook nutritionally balanced meals.

For further information on volunteering for the program or on the plan, itself, call Mrs. Lewis or Theresa LaCour at 224-0953.

**Suspect Faces Circuit Court**

A 22-year-old Detroit man was bound over to Wayne County Circuit Court for trial on a larceny from a person charge.

This action was taken at the Woods Municipal Court examination of Marcellus Smith (who previously gave his name as Anthony Young to police), on Wednesday, November 17. Bond in the amount of \$15,000 or two sureties was continued on the suspect, who was transported to the Wayne County Jail.

His circuit court pre-trial conference is scheduled for Friday, December 3.

Smith is charged in the Tuesday, October 26, incident where a man took two rings with a combined, total value of \$4,140 from Lochmoor Jewelers, 2028 Mack Avenue. The suspect was apprehended at the jewelry store on Wednesday, November 10, after an employee recognized him and called authorities.

According to information received by police, the two rings were sold for between \$400-\$500 each.

Farms youth, who verified the chase and the dunking.

With the scout car lights illuminating the lake, the officers ran to the shore line and saw Ogg trying to get out of the vehicle through the passenger's side. The auto, at this time, appeared to be floating.

Officer Hamilton removed his belt, service revolver and personal items from his pocket and dove into the water, swimming toward Ogg. But the water was too cold for him and he returned to shore.

**Pulled from Car**

In the meantime, Sgt. Otulakowski radioed for assistance and units from The Shores and Farms responded. Ogg was shouting and screaming incoherently and got back into the car as it was sinking, police said.

Sgt. Otulakowski said a fur-

into the water to search for other possible passengers.

When their search proved negative, they attached the tow truck chains to the station wagon, which was successfully hauled to dry land.

Sgt. Otulakowski noticed a large denomination of currency, radio equipment and deck tapes floating in the car and ordered the vehicle taken to The Shores auto pound at the rear of the station.

After the water was drained from the car, the money and equipment was retrieved. The sergeant said that he and other officers counted \$1,140 in 100s, 50s and 20s and numerous tape decks and radio equipment.

Run Further Check

A check on the Law Enforcement Information Network, (LEIN), showed nothing had been stolen and that all the property belonged to Ogg.

Sgt. Otulakowski said a fur-

ther search of the station wagon produced an amber colored vial, (prescription bottle), containing suspected marijuana.

Later in the day, Ogg talked to Shores Det. Sgt. Frank Mustazza, claiming that he had more than \$4,000 in cash in his auto, but did not state where the money came from, police said.

Ogg was detained in the Village Jail in lieu of \$200 bond on the two charges. He also is being investigated for possible possession of narcotics and dangerous drugs.

Besides his bond, Ogg will have to come up with \$200 to pay for having his station wagon pulled out of the lake, and \$150 to Mr. Sehoyan for his scuba diving services.

POSOs Darlington and Frasard, as employees of the Village, receive no pay for their work. The Shores also does not get paid for the officers' part in the operations.

November 15-16, the Grosse Pointe Education Assoc., (GPEA), completed its presentation. The Board got about one-third of the way through its presentation.

**Making Info Public**

Lawrence Kennedy, assistant superintendent of personnel for the schools, said his team presented about half of its 16 non-economic proposals Tuesday. The Board, he said, will need another full day to complete its case.

**Vial Recovered**

Shores Cpl. William Marshall conveyed Ogg to Bon Secours, as the Woods Public Safety Department was called in the belief that more people were in the sunken vehicle.

The Woods dispatched its ambulance with Cpl. Thomas Kerving, but fortunately it was not needed.

Shores PSO Hamilton and Woods PSO Theodore Hinz went to the hospital to pick up Ogg and convey him to The Shores station.

En route, the officers reported they heard Ogg saying "They are after me," but the man did not elaborate. He gave the appearance of allegedly being either under the influence of liquor or drugs, they said.

At the station, Ogg, who was still in hospital issued scrub suit and slippers, asked to see the men's rest room. He was accompanied by Officer Hamilton, who saw Ogg remove something from his person.

A call for assistance brought Officers Hinz, Beekman and Winter and the object was taken away from the man.

**Auto Pulled Out**

Police said the object was a white, (clear), glass vial with a black cover to which was attached a chain and small spoon. The vial contained a small amount of white powder, which was confiscated for analysis.

Officer Hamilton searched Ogg further before putting him in the local cell where he continued to rant incoherently for a time before falling asleep.

patched from a service station to haul the sunken vehicle

out of the lake. Shores PSO's Bruce Darlington and John Frasard, who are certified scuba divers, and Leon Sehoyan, a civilian diver who has helped authorities in other similar cases, went

object to the presence of the press at the hearings. She also made public 100 pages of proposals and exhibits presented at the meetings.

Much of the union's economic argument is based on Grosse Pointe teachers' pay scale in relation to other Wayne County school districts.

**Drop from Top**

Their exhibits show, for instance, that The Pointe was the top paying employer of teachers in Wayne County in 1972-73 for the "four corners" of the salary schedule — BA Beginning, BA Maximum, MA Beginning and MA Maximum positions.

For the 1975-76 school year The Pointe ranks 27th in Wayne County for the BA Beginning lane; 18th for BA Maximum; fourth for MA Beginning; and 28th for MA Maximum, according to GPEA figures.

Other exhibits plot recent teacher salaries in relation to the rise in the Detroit-area consumer price index, and compare the teachers' total salary to Board revenues.

Mrs. Cook said her team again proposed that "the fact-finder's report be made binding, for the good of the schools, community and especially the children."

The Board, she added, rejected the proposal.

**Spanish Club Meets Dec. 6**

## Possible Rip-Off Bid Alarms Woods Police

Two men who said they were from the gas company, were invited inside the home of an elderly Woods couple on Wednesday morning, November 17, after saying they had a refund of \$51 for the citizens.

However, while no money was believed lost during a subsequent exchange, Woods police feel this incident was a possible rip-off attempt.

The department learned of the case on Saturday afternoon, November 20, when the couple's daughter flagged down a patrolling Sgt. James Davidson, Det. Charles Philip Hamel, who investigated the incident, said the couple, who are in their 80's, reported no money missing. But officers still feel a potential flim-flam operation was in the making.

Such cases have been reported mainly in Detroit but there has been no particular problem in this area, said Det. Hamel. But a teletype received by Woods police from St. Clair Shores on

Tickets for the musical are \$2. All shows begin at 8 p.m. in the Pierce School auditorium, 15430 Kercheval Avenue.

The musical drama is about labor and capital. Labor threatens to strike against management because prices have been increased, but the men have not received wage hikes.

Included in the cast of 160 Austin men and Star of the Sea School women will be Darryl Schimeck as Capital and Karen Brouckaert as Labor. Kevin MacFarland, Tom Michels, Pat Reichling and Debbie Tate also are featured.

During this time, one of the men went to the basement and the other asked the wife for her most recent gas bill. He asked her to sign it and then left the premises without taking it.

Then, the pair left.

## Accountability Viewed

(Continued from Page 1)  
he said. "I hope we can get them with us here but I kind of doubt it because we're off to a bad start already."

Dr. Coats said that he expects to make public some of the present administration's plans for accountability at the Board of Education's Monday, December 13, meeting.

He said at this point in time he thinks major emphasis should be placed on improving the system's secondary level testing systems. "Conceptually, for the secondary schools, I favor a 'goals-objectives-tests system' similar to the one used in Kalamazoo," he said.

The Peronne report was distributed to each school principal and central office administrators, by the Grosse Pointe Education Association (GPEA). Union President

Doris Cook said she did it for "obvious reasons."

### Views Impact

"It is information on an accountability program of which our new superintendent was a prime architect, and it is the only available study," she said. "Since the subject is currently being discussed by our own people, it is important they are aware of as many systems as possible."

Mrs. Cook said copies of the Peronne report are available for public review at the GPEA office, 17108 Mack Avenue.

Dr. Coats defended the overall impact of his four years as Superintendent of Kalamazoo Schools by pointing to the marked decrease in student violence, the increased property values in the city and the fact that for the first time in eight years Kalamazoo voters approved a millage increase while he was there.

**KEEP PROMISES**  
"Now Moses summoned the leaders of the tribes and told them, 'The Lord has commanded that when anyone makes a promise to the Lord, either to do something or to quit doing something, that vow must not be broken; the person making the vow must do exactly as he has promised.'" (Numbers 30: 1-2).

## Mediation in Woods

(Continued from Page 1)  
according to the officer. On the latter, officers currently have unlimited residency provisions. Possible pension changes also are still open, he noted.

The union will try for a one-year contract, said Officer DeVine. This was echoed by Officer Thomas Hunke, also a member of the bargaining team, although he added a two or three-year pact is always open to negotiation.

A meeting was held Thursday evening, November 18, at departmental headquarters, at which time an estimated two-thirds of the association's members unanimously gave a vote of confidence to the union's bargaining committee, reported Officer DeVine. "The men have been extremely patient, considering they have had no new pact for five months, but they are frustrated," he noted.

For the municipality, City Comptroller-Assessor Frederick G. Hornfisher, a member of the city's bargaining committee, said the ground work for the upcoming mediation sessions is being laid.

Mr. Hornfisher indicated if everything goes right, "may be we can come up with an answer. I hope for an agreement without arbitration but if we don't have one, we may have to have it."

He also confirmed that the forced residency proposal was brought up by the city but said it was only one bargaining item on which no decision has been made.

Assessing the current talks from his perspective, Mayor Benjamin W. Pinkos said, "I'm reasonably certain negotiations can be concluded without arbitration." He

hoped a settlement will be reached during mediation or immediately thereafter, while feeling neither side really wants arbitration.

For his part, he would prefer a two or three-year pact rather than a one-year agreement because both sides would be at negotiations once again on another contract after the first of the year.

"I would like to have a longer term contract, (than one year), to avoid negotiations on a continual basis," he said. Calling this an "exercise in futility for both," Mr. Pinkos felt it would be to the benefit of each side to work toward a longer term pact.

## Victim Escapes Her Kidnaper

A 16-year-old St. Clair Shores girl claimed she was kidnapped by a motorist on Tuesday, November 16, according to Woods police. Inasmuch as the incident happened in the Detroit venue, she was advised to contact Detroit police to make a formal complaint.

Woods Officer Robert Kwiatkowski responded to a call from a Beaufait road citizen to whose home the girl ran after escaping her kidnaper.

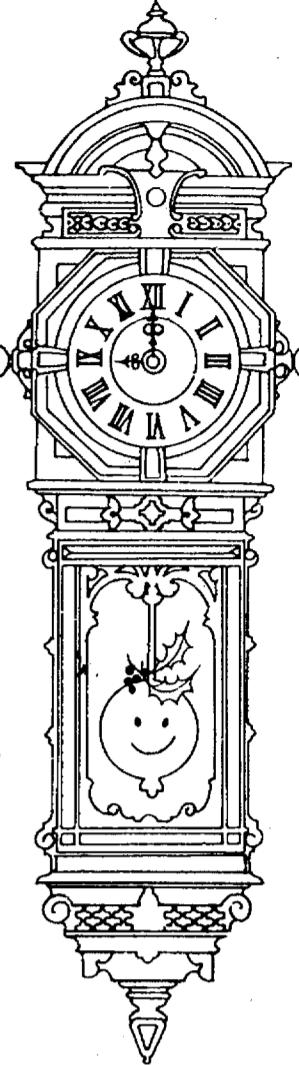

While waiting for a bus on East Eight Mile road, east of Gratiot, the girl said she was approached by a man who attempted to initiate a conversation.

When the girl refused, the man allegedly pulled her into his vehicle. The suspect then drove east on Eight Mile to Mack and south on Mack to Beaufait.

While on Beaufait, the girl said she turned the ignition key, shutting off the motor, and exited the car, which left going west on the thoroughfare. She ran to the residence and the citizen contacted police.

Her purse, which contained identification, house keys and about \$8 in cash, was left in the vehicle. The complainant was then taken home by the officer.

The driver was described as around 20 years of age, with black hair, brown eyes, a mustache and short and stocky in build. His clothing description is unknown. He was said to be driving a bright green, older model Cadillac.

Grosse Pointe, Mich.

We had no pension plan where I worked, and you didn't get a tax break for putting money aside for retirement, either.

Not like today. Today you open one of those Individual Retirement Accounts, IRA they call it, and the money you put in there is deductible when you file your tax return.

Detroit & Northern Savings has these IRA's and the money you put in there can earn as much as 7 1/4% per year interest compounded daily. Now, daily compounding means it actually pays 8.05% per year. Daily interest and daily compounding. That means the more days your money is in an IRA, the more you earn, because even your interest earns interest. If I could have an IRA, I would get my money into it as early in the year as possible. That way I would earn more — and that's tax-free earnings, to boot.

There's nothing I can do about it now, but if you're still working and don't have a company sponsored pension plan, see the people at D&N and get started. Get that retirement savings plan going as soon as possible, so you can take advantage of that daily interest and daily compounding — all tax free until retirement.

From what I know, D&N's plan is one of the best around. No cost. High returns. Insured safe. Believe me, I've been retired for 6 years and I can tell you, income from Social Security just isn't enough.

Nancy Dickerson, prominent national correspondent, reports for Detroit Edison:

# "November is Energy Month...but energy conservation is a year-round job."

November is "Energy Month" in Michigan.

Governor William Milliken has officially dedicated November to promoting energy conservation through increased public awareness of energy problems.

Throughout "Energy Month" everyone is encouraged to find and share new ways to conserve energy.

This is an important time. Many of the fuels used to supply our energy are becoming scarce and expensive.

So energy conservation directly concerns us all...during "Energy Month" and every month of the year.

Each of us, as energy users, is responsible for using energy wisely. The job begins right at home. Here are just a few things you can do to be wise, and be dollars ahead on energy costs.

Insulate exterior walls, floors, heating and cooling ducts, attics, and crawl spaces with the correct amount and proper type of insulating materials.

Regulate your heating and cooling loads by dialing your thermostat down in winter and up in summer, especially at night or when your house is empty. Lower water heater and furnace fan settings, too.

Ventilate with an attic exhaust fan in hot weather to lower your air-conditioning load and operating costs.

Control heat loss through glass areas in winter with storm windows and doors. Check weatherstripping and caulking. Drapes and shades also help; they control heat gain and air-conditioner strain in summer.

Maintain your furnace and air conditioner with regular service checks. Replace filters often. Repair faulty appliances because they could be wasting energy...and costing you extra money.

**And Plan Ahead** when buying a new air conditioner. Make sure it's the right size (BTUs) with an Energy Efficiency Rating of 8 or more (EER = BTUs/watts). Building a new home? Consider installing a heat pump...the most energy efficient way to heat, cool, filter, and dehumidify electrically...delivering over 1½ units of heat for every unit of electricity it uses.

As an energy supplier, Detroit Edison is an active and concerned participant in America's crusade for conservation.

So, even though the people at Detroit Edison cannot control the use of energy, other than their own, they are continually working to produce and supply electricity as efficiently as possible, both to conserve our non-renewable natural resources and to give you the most for your energy dollar.

Here's what Detroit Edison is doing:

- salvaging and recycling paper, wire, lines hardware, poles, street lighting equipment, transformers, capacitors...even oil, again saving limited resources and over \$8 million in 1975
- using compact service vehicles for more efficient and economical operation and gas mileage
- pioneering time-of-day rates and remote-controlled air conditioning and water heating to save millions of investment dollars and reduce energy consumption and waste
- continuing research into alternative energy sources such as solar, nuclear, wind and refuse in order to conserve scarce fossil fuels.

America's crusade for conservation requires a working relationship between those who supply energy and those who use it.

Detroit Edison is working hard to do its part. But the success of this crusade depends on all of us...every day, every month, all year round.

Save energy for all it's worth.

## Population Statistics

(Continued from Page 1) the Office of the Budget, a procedure for making comparisons between local studies and census bureau estimates will be used to figure out revenue sharing allotments for 1977-78.

"There has been a personnel change here, (in the Office of the Budget), so there is no way to check whether or not anyone consulted the SEMCOG estimates before," said the source.

### Cities Show Drop

"But, it just so happens that I recently got a set of figures from the census bureau in Washington, D.C., and on comparing them to a set of SEMCOG figures, I sent the census estimate back to be revised. In that case, the SEMCOG figures seemed more accurate."

The estimates generated in the census bureau are based primarily on the 1970 census with adjustments made with administrative records, i.e., Internal Revenue Service, Social Security and other sources.

The census bureau estimate of population for 1973, which is currently being used

### HUMAN WICKEDNESS

"When the Lord God saw the extent of human wickedness, and that the trend and direction of men's lives were only towards evil, He was sorry He had made them. It broke His heart." (Genesis 6:5-6).

for computation of revenue sharing, shows a 4.8 percent decline in population for The Woods since 1970. A SEMCOG study in 1973 was only 0.1 percent lower in its estimate for The Woods.

Besides The Woods, all the other Pointes, except The Shores, have seen a decline in population according to the census estimate. The City's population drop was four percent, The Park's drop was five percent, and The Farms' decline was 1.3 percent. The Shores' population rose by .9 percent.

### Cause for Concern

The greatest variation between these findings and those of SEMCOG was for The Farms, where SEMCOG was off by \$46 or 4.7 percent.

Population decline is a problem for city officials, who are expected to provide adequate services for the community, while they receive less assistance from the state and federal government.

Besides federal revenue sharing, decreasing population cuts state revenue sharing, sales and income tax revenues as well as returns from highway funds and gas and weight taxes.

Initial reports on the yet unpublished school census conducted in The Pointe last spring also are pointing to a drop in school enrollment which may eventually necessitate the closing of some underpopulated schools.

## New Master Plan

(Continued from Page 1) two-thirds of City houses will be over 60-years-old, according to Brandon Rogers and, especially in three target areas, a major improvement effort will be necessary to maintain the high-quality, residential nature of the city.

This can be accomplished through low-interest home improvement loans, possibly funded by the federal government, Mr. Rogers said. He also hinted The City may step up its efforts to enforce local maintenance codes as well.

"Hopefully, the survey at least makes people aware of areas that need improvement," Mr. Rogers said. "If the plans do nothing else they will help us work together to improve our city...to save a block from corrosion and blight."

"And believe me, there are some areas that are very dilapidated in the city," he added.

About 40 citizens attended the public hearing that preceded the commission's approval of the master plan. Many had specific complaints about run-down homes in their areas and wondered just what the officials can do about them.

Right now, the council's power is limited to its present zoning and maintenance ordinances, and much of the work to bring homes up to code can be mandated only when the home is sold.

But, as Mr. Rogers pointed out, a 10 percent turnover in single family homes each year means that with strict enforcement, most of The City's 1,700 residences can be cleaned up in the life span of the report.

The bulk of the land-use plan conforms to current zoning and use patterns in The City, with three major exceptions:

- Encouragement of low-density development along

### U-M Musicians To Visit Area

Seventeen front-line members of the University of Michigan Marching Band, on their way to a January 1 performance at the Rose Bowl, will visit three Pointe schools next week.

The marching musicians will be in town Thursday, December 2, to perform and demonstrate marching techniques to morning assemblies in the gymnasiums at each school.

They will be led by Frank Krager, a graduate of North High School and a senior music major at U-M. He is the son of May Krager, who teaches music at Richard Elementary School.

The group will be at South High from 8:15-9 a.m., Defer Elementary from 9:30-10:15 a.m. and Richard Elementary from 10:45-11:30 a.m.

the lakeshore and high-density around the "Village" shopping area.

- Expansion of Neff Park by purchase of five or six properties on the west side and one on the east side of the park.
- An expansion of commercial office zoning onto St. Clair avenue between Waterloo and Kercheval.

Mayor John King assured the citizens in attendance that the city "is not about to start condemning land for its own use" in the area of Neff Park, but will purchase the lands when they come on the market, if feasible.

Miss Driver is production manager at Kelley-Schoenberg Communications; Miss Rayburn is employed by the National Bank of Detroit; and Miss Adams is program director at WDET-FM, (owned by Wayne State University).

The property is owned by the Milton Trumbauer family. The upper flat, besides having the three bedrooms, has a spacious living room, kitchen and dining room, which the women said is adequate for their needs.

Mrs. Trumbauer informed the Board that the previous tenants were undesirable and had trouble evicting them from the flat. The evicted family caused considerable damage to the property and she had to expend a large sum of money to make repairs.

There were a few objections from residents living in the vicinity of the two-family flat. They requested that the three women be denied permission to live together. The objectors based their appeal on the destructiveness of the previous tenants, but the Board overruled their requests and granted the women the right to apply for the permits.

In the case of Mr. Mazzola and Mr. Gronan, the house in which they presently reside is owned by the Verheyden Funeral Home, Inc., of which Councilman Clayton Alandt is executive director.

As in the original petition by the two men, the councilman disqualified himself from voting on the issue and sat with the audience, while the debate was in progress regarding the granting of permits to the pair.

Mr. Mazzola's and Mr. Gronan's original request for a permit to live together met with practically overwhelming objection by residents

**Petition Filed in Mishap Case**

A 16-year-old Detroit boy is being charged with felonious driving in the October 23 incident in which the van he was driving struck a 15-year-old Harper Woods girl, who was riding her bicycle at the intersection of Lochmoor boulevard and Jackson avenue.

After an extensive investigation by the Youth Service Division, (YSD), and the Woods Department of Public Safety, a petition charging the youth was filed last week with the Wayne County Juvenile Court.

"There was no question regarding filing a petition in this case," said YSD Det. John Albrecht, who conducted the investigation on behalf of the division. But when the investigation was beginning, police were unsure of a specific charge.

"I talked with City Attorney George Caudlin, Woods Det. Lt. Jack Patterson and the intake supervisor at juvenile court. After talking with those individuals and reviewing the statutes, the felonious driving charge was decided," said Det. Albrecht.

"I feel we have a good case for it but what juvenile court does is an unknown factor," he stated.

Noting that both the accused youth and his mother are greatly concerned over the incident, the detective stated witnesses indicated the youth was speeding along Fleetwood and Jackson prior to the accident. Each street has a 25 mph speed limit and three witnesses reported the van was traveling between 40-60 mph on both thoroughfares.

"This is a big leeway but 40 mph is still 15 mph over the speed limit," said the detective, who added, when the mishap occurred, the youth was allegedly following a friend in another vehicle.

Det. Albrecht, who hasn't

been able as yet to talk with the accident victim, Mary Miller, said he has no idea whether the girl stopped for a stop sign or not before she was struck. He felt this information wouldn't affect the case because the youth was allegedly driving recklessly.

Mary was reported in stable condition at Saint John Hospital last week. The hospital reported the girl, who suffered head injuries, a ruptured bladder and other injuries, will require rehabilitation toward her recovery.

**Werner Spitz  
Talks to Group**

By George Polgar Jr.

Members and guests of the Eastern Metropolitan Area Safety and Traffic Committee, (EMASTC), an organization of police and civic leaders sponsored by AAA Automobile Club, met last week at its monthly luncheon to hear a presentation from Wayne County Medical Examiner, Dr. Werner Spitz.

Speaking on the topic of "Traffic Accidents from the Medical Examiner's Point of View," Dr. Spitz used color slides and diagrams to illustrate his points.

Among other specifics, Dr. Spitz discussed the indications he looks for on the bodies of traffic accident victims with which he can reconstruct an accurate picture of the mishap as well as the actual cause of death.

Pointing out certain lacerations and scrapes on the slides, Dr. Spitz explained how a medical examiner can determine the direction of impact in an accident, the approximate speed at impact, whether the car had been braking at the time and numerous other facts essential to the investigation of hit-and-run fatalities.

Though the presentation was technical in nature, Dr. Spitz proved to be an able and amusing lecturer despite the seriousness of his subject matter.

At the outset he told his audience he didn't know whether or not his collection of explicit medical slides were appropriate for a luncheon presentation.

Representing the Pointes at the meeting were Public Safety Director Henry Marchand, Traffic Safety Officer Paul Crook and Officer Stephen Petrik of The Woods, Lt. Charles Wenrich of The Shores, Lt. Ignatius Backman of the Farms and Chief Robert VanTiem of The City.

living in Kensington and in areas within 300 feet of the home.

Besides the verbal objections, a 77-name petition signed by residents of the area was presented to the Board of Appeals demanding the permits be denied to the two men — because, it was claimed, it would ruin the single family character of the neighborhood, and devalue property.

With the Board short one vote when Councilman Alandt was disqualified, three councilmen approved granting the permit and three were against, which, in fact, denied the permit because of the tie vote.

This stirred up quite a controversy. When Mr. Mazzola and Mr. Gronan were served notice to vacate by November 30, they threatened to take the matter to court as did Mr. Charles Verheyden, funeral home owner.

At Monday night's public hearing, Mr. Mazzola and Mr. Gronan were represented by Howard Simon, director of the Civil Liberties Union, who spoke on behalf of the gentlemen.

He disclosed that the state legislature is in the process of enacting a statute against such ordinances.

Mr. Simon asked that the Board rescind its ruling and reschedule another hearing as soon as possible, preferably before the November 30 deadline.

Mayor Matthew C. Patterson said this was impossible because under the city's Zoning Ordinance, 15 days are required in order to notify people, living within the 300 feet, of the impending hearing.

This would bring the date to Thursday, December 9, but this was not feasible, as some of the councilmen said they would not be in town for the hearing.

The mayor then stated that the only thing that can be done is to rescind the November 30 deadline notice and schedule the hearing for December 13. This was approved by the solons.

Following the close of the hearing, City Attorney Richard Rohr disclosed in a private opinion that in 1974, the United States Supreme Court sustained ordinances permitting two or more people not related by blood, marriage or adoption to live together as a "family," only by permission granted by municipal councils.

A total of 4,500 Masons and friends celebrated the 50th anniversary of the Masonic Temple Building, Saturday, November 13.

Fred Waring and his Pennsylvania band entertained the audience in the auditorium, after 3,000 enjoyed dinner in various locations throughout the temple.

This was followed by refreshments including a birthday cake and music and dancing in the fountain ballroom.

At the outset he told his audience he didn't know whether or not his collection of explicit medical slides were appropriate for a luncheon presentation.

Representing the Pointes at the meeting were Public Safety Director Henry Marchand, Traffic Safety Officer Paul Crook and Officer Stephen Petrik of The Woods, Lt. Charles Wenrich of The Shores, Lt. Ignatius Backman of the Farms and Chief Robert VanTiem of The City.

Your diet should include adequate amounts of water daily. Lack of exercise, fresh air and sunshine shows up first in dull skin and hair. The best beauty treatment for the total you is to go outside for a short time every day and do something to give yourself some vigorous exercise—you will be beautiful, well-fed, and more happy, too.

## Police Subdue Violent Man

Woods police raced to a call from a woman who said her son had been drinking, became violent and threatened her and her husband. They apprehended the man, who was brandishing a knife, in an upstairs bedroom. This incident was reported early Saturday evening, November 20.

The man, who's in his late 20's, reportedly threatened police and was cornered in the bedroom by five officers.

## Auto Disables Traffic Lights

A freak mishap knocked out the traffic signal lights from Pemberton-Jefferson in The Park to Alter road in Detroit, according to information released by Park Lt. Gordon Duncan.

The lieutenant disclosed that a minor traffic accident occurred at Nottingham and Jefferson at about 8:10 a.m. on Wednesday, November 17.

A service station was called and ordered to remove one of the involved autos to the police pound at the rear of The Park station, 15115 Jefferson avenue.

Everything was functioning perfectly until the truck, with the car in tow, turned into the driveway leading to the pound. As the car swung on the chains, one of the chains snapped, causing the automobile to swing sharply and slam into the traffic control signal box near the sidewalk.

The wiring was ripped from the box and the box was torn loose from its base and the signal lights went out.

Lt. Duncan said the Wayne County Road Commission, which is in charge of the avenue and its lights since Jefferson is a county thoroughfare, was notified and a crew was dispatched to make repairs.

A new pole base for the box had to be anchored before the wiring could be attached, putting the signal lights back into action. This took the better part of the afternoon, the lieutenant said.

The initial installation of the old base and box, which had been at the driveway entrance for a number of years, was \$7,000, the lieutenant pointed out.

It is not known what it is at today's costs, but he was sure it was quite a bit more than the original price, which, it is believed, will be covered by the service station's insurance company.

## GROSSE POINTE NEWS

### Center Hosts Kids' Program

The Grosse Pointe Children's Theater, in conjunction with the Memorial Center's Youth Council, "Innerlink," has planned a special afternoon for younger children ages 5-9 on Saturday, December 11, beginning at 2 p.m. in the Crystal Ballroom and Fries Theater.

As Officer Desilets approached the pair, the man yelled at him "to get out of here or I'll kill you," according to the report. The man, who was armed with a hunting knife, then jumped onto the rear porch and entered the upstairs bedroom.

Officer Desilets and Robert Kwiatkowski went upstairs whereupon the man closed the door and locked it. At this point, Officer Desilets asked him to unlock the door and come out and talk. The man then responded, "Get out of here" and "I'll kill you if you come in here," police said.

A second effort to get the man to come out was unsuccessful with the officers saying he became more violent and began stabbing at the door with a knife.

Sgt. Thomas Kane, was requested to come to the scene, and the man still refused to come out. So the door was forced open at which time the man began stabbing at the door opening with the knife, before kicking the door shut.

Sgt. Kane then forced the door a second time and shot chemical Mace in the man's direction. (This container was found afterwards to be defective because of a leak).

Along with Officers Desilets, Kwiatkowski, Michael Makowski and Jack Treppa, the sergeant entered and approached the man, who was standing in a corner with a knife in each hand. He was ordered to drop the weapons, which he did, without further incident.

A new pole base for the box had to be anchored before the wiring could be attached, putting the signal lights back into action. This took the better part of the afternoon, the lieutenant said.

The initial installation of the old base and box, which had been at the driveway entrance for a number of years, was \$7,000, the lieutenant pointed out.

It is not known what it is at today's costs, but he was sure it was quite a bit more than the original price, which, it is believed, will be covered by the service station's insurance company.

## Celebrates 50th Anniversary In Automobile Business

Erwin Bauer of Seymour Cadillac marked his 50th anniversary in the automobile business, all at the same location, on Wednesday, November 24, 1976.

At seventy-plus years of age he still looks forward to each new day... and its opportunities.

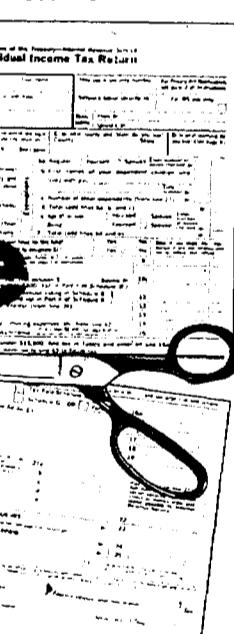

A Grosse Pointer for over 26 years, his present area of involvement is sales, where he ranks consistently among the top 15 of Seymour Cadillac's 26 sales representatives.

Prior to joining the sales force in 1947 Mr. Bauer was responsible in the service department as Senior Write-up Man.

While Seymour Cadillac boasts being just 10 minutes from Grosse Pointe at their East Jefferson at McDougall location, Mr. Bauer says it takes him almost 15 coming from his home on Somerset.

His wife Agnes and he has a daughter Beverly Nacey, also a resident of Grosse Pointe, and two grandchildren.

And if you were so inclined, Mr. Bauer would be proud to show you the 1977 Cadillac line. He says, "It's far and away the finest of all my 50 years with the company."

## Cut Your 1976 Federal Income Tax Now...

With a Tax Sheltered  
Retirement Savings Account  
at Standard Federal Savings!

### Individual Retirement Accounts

An Individual Retirement Account (IRA) is a personal tax-sheltered retirement savings plan for people who are not covered by a pension or profit sharing plan. The IRA plan allows you to deposit up to \$1,500 annually, or 15% of your earned income, whichever is less, in a tax-sheltered savings account. Your annual deposit is deductible from your gross income when computing your Federal Income Tax and your IRA savings account interest is tax-deferred until you redeem your account.

### How IRA grows compared to normal savings

INTEREST RATE	AFTER 6 YEARS		AFTER 12 YEARS		AFTER 18 YEARS		AFTER 24 YEARS	
	IRA	Normal Savings	IRA	Normal Savings	IRA	Normal Savings	IRA	Normal Savings
5 1/4 %	\$10,845	\$8,134	\$25,676	\$19,257	\$45,956	\$34,467	\$73,689	\$55,267
6 1/4 %	11,347	8,510	28,054	21,040	52,652	39,489	88,870	66,653
7 1/4 %	11,875	8,906	30,697	23,023	60,529	45,396	107,810	80,856

The chart assumes wage earner is in the 25% tax bracket and wants to save \$1500 annually with a deposit in each calendar year. With IRA the full \$1500 (not tax payable) is deposited and the interest accumulates tax sheltered until retirement. Under IRA, the \$1500 pre-tax dollars would be reduced by taxes to a net deposit of \$1125 and all interest accumulations would be taxed during the current tax period.

### Keogh Plan

The Keogh plan allows self-employed persons to set aside tax-sheltered dollars up to \$7,500 each year, or 15% of your earned income, whichever is less. The amount you set aside is tax deductible and the interest earned is tax-deferred until you retire. Income taxes on both principal and interest are payable only when benefits are withdrawn from your account.

### Vehicle Law Aired in GPW

An Anita Avenue citizen, who recently received a ticket for parking his van on his outside property, appeared before the Woods Council at its regular meeting Monday, November 15, seeking clarification of the city's law on commercial vehicles.

Robert A. Schaltenbrand appeared in court earlier this month and pled guilty to a charge of the outside storage of a commercial vehicle and was fined \$5.

After telling the council he had parked his van outside since last October, (and received a ticket this September), he stressed there was no commercial lettering on the vehicle, making it difficult to tell if it was being used for business purposes.

For his part, because he uses the van as part of his business, he kept commercial plates on the vehicle.

The council, sitting as the Committee of the Whole (C-W), is currently considering a proposal defining commercial vehicles and regulating their storage. The proposal defines commercial vehicles as "any motor vehicle containing any sign, lettering or advertising display of a commercial nature."

But, at this time, no specific recommendation has been made by the C-W for

the council's action at a public meeting.

City Attorney George Catlin said the current law affecting such storage is the zoning ordinance which says commercial vehicles cannot be parked in residential neighborhoods. (In Mr. Schaltenbrand's case, it was impossible for him to park the van in his garage).

With an increasing problem regarding the number of vans for passenger use, along with other non-commercial uses, it was said Mr. Schaltenbrand's problem should be considered by the C-W.

Indicating he would appreciate some discretion on the part of the public safety department regarding the issuance of violations in such instances, Mr. Schaltenbrand added there are many nice looking vans on the road today, their specific usage notwithstanding.

## Let's Talk Real Estate

by John E. Brink

With the discovery of gold in 1848, San Francisco became the major port of entry for miners arriving from the East and from Europe. Land was needed for homes, businesses, and other activities to support the burgeoning population. Competition for the town lots intensified. In a sale in 1853, four lots brought \$1.2 million. As the supply of town lots diminished, the town began to sell water lots, many of which were in the bay, under several feet of water. In 1853, however, the land bubble burst, and speculators were unable to find buyers for their lots.

Austin's harriers finished the season with a 3-2 league record and were runners-up in the A-B Division.

During the season, the Austin cross country team won three invitational titles at the Macomb, Huron and Lancer Invitations.

Winning individual honors in cross country were captain Dan MacLellan and Tom Lewis, who were named All Catholic, while MacLellan and Dave Dennis were awarded All League honors in the Double A Division.

MacLellan also was named the team's most valuable player.

The cross country team,

coached by Bruce Dyer, captured the Class B Regional Championship and went on to place second in the Class B State Finals.

Austin's golfers finished the season with a 7-2-1 league record. The team, coached by Harry Miller, also placed second in the Catholic League Regionals.

Peter Kingsley was awarded All Catholic honors. Captain Ryan Mullaney, named this year's most valuable player, was voted All League, as was Kingsley.

The Austin varsity football team set a new school record by staying undefeated in league play. The team, under the direction of head coach Peter Pucher, captured the A-East Championship with a 5-0 league record. With an overall record of 8-1, the club was ranked as high as fourth in newspaper polls for Class

## STAYING TOGETHER

"Don't make me leave you, for I want to go wherever you go, and to live wherever you live; your people shall be my people, and your God shall be my God; I want to die where you die, and be buried there. May the Lord do terrible things to me if I allow anything but death to separate us." (Ruth 1:16-17).

St. Emilion is a very special appellation controlled wine from Saint Emilion, the largest wine-producing region in Bordeaux. L'Union de Producteurs, the winery which produces this wine, is on the right bank of the Dordogne River near the charming medieval town of Saint Emilion. The very mild climate and gravelly soil of the region are ideal for the Cabernet Sauvignon and Merlot grapes from which this wine is made.

And wine is an ideal accompaniment for any meal, whether it is simple family dining or an elegant company dinner: come in to PARKIE'S PARTY SHOPPE, 17255 Mack, corner of St. Clair, 885-0626 and choose a wine to enhance tonight's dinner. And while you're at it, why not select a wine to compliment your Thanksgiving turkey. Open: 10-10 Mon.-Thur.; 10-11 Fri., Sat.; noon-10 Sun.

## WINE WISDOM:

Saint Emilion will improve in the bottle for ten years or more.

## On Being Thankful

Among the variety of materials in my press packet for the regular meeting of the Woods Council on Monday, November 15, was a copy of a communication to the city from the mayor of Jacksonville, Fla.

The mayor, Hans B. Tanzler Jr., happens to be chairman of the mayors' committee of National Bible Week, sponsored by the Laymen's National Bible Committee.

Unaware this week was designated for November 21-28, during the Thanksgiving period, I was pleasantly surprised over the timing. In his communication, Mr. Tanzler commented upon "the reaffirmation of the spiritual values of the Bible and our need to live its teachings."

This is true for every day of the year but, with the time period encompassing Thanksgiving Day, recognizing something extra, i.e., a further and deeper expression of appreciation, for the great variety of blessings we all have, (whether some of us realize this or not), is decidedly appropriate.

In this respect, the most important is the willing sacrifice of our Lord and Saviour, Jesus Christ, to die on the cross for our sins.

This action should epitomize the exact and true meaning of thanksgiving on our part.

For this is something for which everyone should be thankful.

R.A.W.

## Project Hope Plans Cruise

Project Hope, which began in 1958, is again featuring a winter benefit cruise to the Caribbean from January 23-February 12.

For several years, the organization has offered such cruises to its contributors and friends. The goal is to raise money for the continuation of Project Hope's medical teaching and training programs in 10 countries on four continents.

The SS Hope, the world's first peacetime hospital ship, sailed on her maiden voyage in 1960 and was retired in 1974.

For further information on the cruise, call 875-8775.

Six teams competed in the meet, which saw West Bloomfield finish first with 370 points. North finished second with 276 points, and was followed by Rochester, Fraser, Lakeview and Lake Shore.

The Norsemen compiled some excellent results, despite the second place showing.

In the preliminaries, Ann Hoffman qualified for the State Meet in the 50 freestyle with a time of 26.0. Ann went on to finish third in the finals in this event. She also captured first in the 100 fly with a time of 1:05.

Patti Hallmann had her best time ever in the 100 breaststroke, 1:12.5, good for first place. Teammate Barb Wybo finished third in this event with a time of 1:16.

Amy Rentschler finished first in the 200 freestyle with a time of 2:07.9.

North's Jenni Elie took first place in the 50 freestyle with a time of 25.8, and second place in the 100 freestyle with a time of 57.6.

Out of 22 entered in the diving competition, North did well in the finals. Judy Stout placed third with 289.6 points. Judy Olsen was fourth with 282.25 points and Lisa Stout came in fifth place with 273.65 points.

North wrapped up another undefeated Bi-County League season on Monday, November 22, by defeating Lake Shore. They also finished first in the league. The team and its coach, Peggy Lestan, deserve much credit for the excellent way in which they have represented their school and community.

Low living and high thinking will produce better citizens than high living and low thinking.

In ancient times, the Egyptians, familiar with most of the processes of ornamenting metal that are still carried on today, produced skillfully chased, engraved soldered, repousse and inlaid jewelry. They usually wore gold and silver, inlaid with semiprecious stones such as carnelian, jasper, amethyst, and lapis lazuli. Their jewelry included diadems, necklaces, bracelets, and rings. Many Egyptians wore two bracelets on each arm, one on the wrist and one above the elbow.

VALENTE JEWELRY, 16601 East Warren at Kensington, Detroit, 881-4800, has been designing fine jewelry since 1934, but our prospective is on today and tomorrow. We invite you to come in whether you are presently contemplating the purchase of a piece of fine jewelry or not. For someone not familiar with jewelry knowing and having confidence in your jeweler is of the utmost importance, that's why we want you to become familiar with us and our work.

## Know Your Schools

By Dr. William Coats,  
Superintendent of Schools

On Thursday, November 4, I convened the Superintendent's Student Advisory Council for the first time for the 1976-77 year. The group, composed of the Student Association (SA), president and one representative from each class at North and South High Schools, will meet on a monthly basis for the balance of the year.

Representing South High are Greg Jay, SA president; Gina Berry, ninth; Kim Peatlie, 10th; Dan Smale, 11th; and Steve Swanson, 12th. North High students who participate are SA president Tom Rousseau; Carol Seski, ninth; Providence Villa, 10th; Judy Olsen, 11th; and Don Ford, 12th.

I believe that student input is extremely valuable. While we do not allow students to administer and control the school system, we do believe that they have insights and reactions that can help us to do a better job with them.

After all, in the final analysis students are the consumers of the educational opportunities we provide.

It has been demonstrated through research that secondary students do have the ability to discriminate between positive and negative features of a school program. Therefore, we welcome the opportunity to involve these students in our communication network.

To begin the meeting I asked them such questions as "What are the system's strengths and weaknesses?" and "What are our most pressing problems?"

In pursuing these general areas we touched on several

specific concerns. These students, forthright, intelligent and hard-working, provided insights from their points of view.

I look forward to continuing discussions with this group. Also, I want to talk to many other student groups or representatives as often as possible.

Among the specific topic areas we explored were (1) Duties of the assistant principals, (who replace the administrative interns at North and South); (2) Schedule for final examinations in June; and (3) Possible participation in a domestic student exchange program sponsored by the National Association of Student Councils.

As a result of their inquiries they learned that the assistant principals will spend most of their time on the improvement of instruction. We also reported that a proposal has been made to schedule all final examinations at the same time in June.

We expressed enthusiasm at the possibility of participating in a student exchange and indicated that even if this formal student exchange proposal did not materialize, we would explore other avenues to enable students to meet their counterparts in other towns and cities.

Before the session ended, our discussion touched on school vandalism, drug abuse and smoking.

All in all it was a most worthwhile session. I look forward to future meetings with this fine group of students.

## Students to Participate In New FLEC Program

A task force of students from Grosse Pointe and Harper Woods high schools will soon begin a unique alcohol education project among their fellows.

The group is not intended to be a mod version of the temperance movement but a new attempt to increase understanding of alcohol and its effects on community youth.

The task force was formed by the Family Life Education Council (FLEC), which, for the past two years, has conducted seminars and workshops on responsible drinking aimed primarily at adults. This year, FLEC decided to focus its efforts on the youth of the area and unanimously agreed that no program would be successful unless the youth were in charge.

Training sessions for the student volunteers were arranged with professionals in the field of alcohol education from the Catholic Youth Organization (CYO). CYO offers the alcoholism program in cooperation with the Wayne County Department of Health.

Some of the subjects to be covered in the sessions include the psychology, physiology and pharmacology of alcohol use, alcohol and high-

way safety and cross-addiction with other drugs.

A one-day training workshop in group leadership and recorder skills has been offered to the students by the League of Women Voters.

Once their training has been completed the members of the task force will participate in alcohol education programs in their own schools. These will include small discussion groups during after-school hours, debate panels with peer drinkers and discussion groups with junior high school students.

Mrs. Patti Adler is chairperson of the FLEC Alcohol Awareness Training for young adults. Tom Godell, co-chairperson, is working with Harper Woods schools, and Lorraine Foley is providing staff coordination of the project.

Training sessions for the student volunteers were arranged with professionals in the field of alcohol education from the Catholic Youth Organization (CYO). CYO offers the alcoholism program in cooperation with the Wayne County Department of Health.

High school students interested in taking the training course for the program may call 885-3510 for further information. Training will begin on Monday, November 29.

## From Another Pointe of View

By Janet Mueller

The foot of Stratford place becomes Christmas Street Tuesday, December 7, when the Grosse Pointe Symphony Women's Committee departs from tradition to welcome the entire community to its Christmas tea.

In the past, the Christmas tea has been a thank you party, for members only—but this year the Orchestra has increased its budget to \$7,000, to improve its quality, and this places an additional fund-raising burden on the Women's Committee...

So it was decided to make 1976's Christmas tea a donation tea, and open it to everyone interested in helping and supporting the Grosse Pointe Symphony.

\* \* \*

As always, the Pointe Symphony Women provide value for Symphony supporters' money.

The party takes place in not one but THREE homes. Tea and cookies will be served at One Stratford place, the residence of Mr. and Mrs. Malcolm L. Denice. Baked goods will be for sale at Four Stratford place, the residence of Mr. and Mrs. Donald Cherry.

There'll be music all afternoon, featuring ensemble groups from Grosse Pointe North and South High Schools, at Two Stratford place, the residence of Dr. Elizabeth Downie and Robert Downie.

\* \* \*

Christmas Street will be open from 1 until 5 o'clock. Because there has been no charge for the party in the past, the Women's Committee is not setting a definite donation figure . . . but reminds its friends that all donations are, of course, completely tax deductible.

Holiday Treat Baskets will be featured as special prizes. Chairman of the tea is Mrs. R. Gerald Jordan, of Blairmoor court. Chairman of the Bake Sale is Mrs. Harold Lee, of Lakeland avenue.

Coordinators are Mrs. Lyndle R. Martin, of Middlesex boulevard, and Mrs. John E. Young, Jr., of Audubon road. Anyone who has not received an invitation and wishes further details may call 822-7141 or 886-6829.

## Taylor-Lindstrom Rites Celebrated

Newlyweds Are at Home in Ypsilanti After Toronto Vacation; Venise Lace and Pearls Trim Bridal Gown

The early evening wedding of Catherine Jean Lindstrom and Bruce Allan Taylor Saturday, October 30, in Grosse Pointe Memorial Church, was followed by a reception at the Grosse Pointe War Memorial.

For the 5:30 o'clock rites at which The Reverend David Antonson presided, the daughter of Mr. and Mrs. William Robert Lindstrom, of Bedford road, chose a traditional ivory gown, styled with a chapel train and bishop sleeves and trimmed in Venise lace and seed pearls. Her Juliet cap was fashion-

ed of matching lace and pearls. She carried white roses, stephanotis and baby's-breath.

In soft blue and white print frocks, styled with square necks, puffed sleeves and tiered skirts, were honor maid Kathryn Jo Fortner and bridesmaids Carol Ann Marinelli and Nancy Lee Maynard.

Carnations and chrysanthemums formed their Colonial bouquets.

Mr. Taylor, son of Dr. and

Mrs. Marcus Edward Taylor, of Bloomfield Hills, asked Bryan Kirk White to act as best man.

Ushers were John Edward Solano, Mark Edward Taylor, brother of the bridegroom, and Christopher William Lindstrom, brother of the bride.

The bride's mother wore a cowl-necked, blue jersey dress. The bridegroom's mother chose coral jersey, with chiffon butterfly sleeves. White Sweetheart roses formed both mothers' corsages. The newlyweds vacationed in Toronto, and are at home in Ypsilanti.

Modern	Crystals, polished or painted metals, wood, plastic, pottery glass	Clear, colored opal, etched, textured or plain	Metal, textured fabric, silk, rayon, plastic, paper

Add a flourish to your decor with rich decorative fixtures. Use them for their styling impact by restyling or contrasting with the motif of the room. Chandeliers emphasize the traditional or contemporary character of a room. They can also add a charming counterpoint to it, such as the use of an elegant Mediterranean fixture in a contemporary setting.

## Ready for the Ball

Ready for the Fontbonne Auxiliary of Saint John Hospital's White Christmas Ball, slated for Friday, December 3, at the Detroit Athletic Club, are MRS. EMMET TRACY and MRS. JOHN ELIAS, (left and right), honorary chairmen of the 1976 black tie fund-raiser which traditionally raises the curtain on Grosse Pointe's holiday season.

pointments was made at the DGOA's fall orientation meeting, held at the Mack home. The Pointe pair will share a number of activities designed to promote an artistically and financially successful Opera Season, including public relations, advertising sales for the souvenir program, membership development and special events.

They will be assisted by members of the DGOA and its General Committee throughout the Detroit area and 10 other Michigan cities.

Both women expressed confidence and enthusiasm in accepting their positions, saying that the 1977 Opera Season will be one of the most exciting since the Met began its visits to Detroit 19 years ago.

Productions scheduled for performance in Detroit May 23 through 28 are Puccini's "La Bohème," Saint-Saëns' "Samson et Dalila," Meyerbeer's "Le Prophète," Puccini's "Tosca," Wagner's "Lohengrin," Mozart's "Die Zauberflöte," (The Magic Flute), and Verdi's "Il Trovatore."

"The 1976 Opera Season was our best in five years," Lois Mack noted. Ticket sales increased by five percent over the 27,250 sold in 1975.

"Despite the increase in ticket sales, one of our major objectives will be to inform the public that tickets are available for all performances at virtually all prices," Mrs. Mack continued.

"We are pleased once again that there will be no change in ticket prices—although the cost of bringing the Metropolitan to Detroit will reach an all-time high this year."

JAMES J. BOOMGARD, JR., DIRECTOR OF THE CHILDREN'S HOME OF DETROIT

Photo by Tom Greenwood

By Susan McDonald

The Children's Home of Detroit has seen a great deal of change in its 140-year life. It was founded before Michigan became a state, when Detroit was a bustling metropolis of a mere 9,000. What was made safe from the Indians and the long, midwestern winters often fell to the pandemic plagues that spread through the area.

It was in the wake of such a crisis — the cholera epidemic of the 1830's — that the wife of the mayor, and of an ex-major among others, founded the Protestant Children's Home of Detroit. Located in Jefferson avenue, in the old Cullen home, at least seven orphans of the plague were fed, clothed and educated on an annual budget of \$200.

**Now Cares for 72** The quiet, landscaped 15-acre campus in Cook road that now houses the Children's Home is a far cry from the Cullen home operation. Seventy-two, rather than seven, children are now housed and cared for by the institution. And instead of an orphanage, the home has evolved into a sophisticated residential care center for the "orphans of the living" as one worker put it — those children, six to 12 years old, whose chaotic home life has left them emotionally disturbed. Their annual budget is now in the hundreds of thousands of dollars.

Remarkably, there are a few things about the home that haven't changed in 140 years.

Its list of trustees still reads like a social registry of Detroit, and in fact, many of the current members are descendants of the original founders.

Over the years the Board has also managed to maintain the Home's complete independence from the huge charitable foundations that dominate most philanthropic work today. To make up for the financial loss, in part, they depend on a custom be-

lief. He's An Administrator He comes to the home with a background far different than most recent directors. Rather than a social worker, Mr. Boomgard has spent much of his career as an administrator of hospitals, retirement centers and with a technical assistance firm.

A native of Michigan, the 55-year-old Mr. Boomgard was educated at Western Michigan University, with majors in psychology, accounting and biology. After a four-year stint in the Coast Guard, he completed his

His plans include streamlining the home's accounting systems to give its directors a more accurate idea of just where their money is going. He is making a bid for more foundation funds to help expand the program in certain areas and hopes to increase the facility's use of alternate systems as well. By this June, he hopes to have improved the ratio of social workers to children to 1-12.

Mr. Boomgard's wife Ardra, a registered nurse formerly with the University of Michigan hospital, and his daughter Jean, 15, a University Liggett freshman, now reside in the director's home on campus.

There is a James III as

His Work-a-ville "I'm just 200 mil's short of flying one million miles on my United Airlines card alone," he laughs. "I confess to being a work-a-holic, but after a while I started missing my family. It was time to slow down a bit."

to bring the Home "out of

been amazed, he said, in talk-

**Many Have Helped**

The Home has benefited from card parties by the Beta Epsilon Chapter of Beta Sigma Phi and Halloween and Christmas events sponsored by the TUXIS Club, Concerned Ten, Kiwanis, Optimists and National Bank of Detroit Women's clubs.

year with a ceremony. Uni-

versity Liggett invites the

group to final dress re-

hearsals of its plays. Local

doctors Joseph Sloan, Donald

B. Shumaker, T. H. Joos,

Mariam U. Scott, J. A. Kim,

and Gerald Mullan donate

their services as well.

**Many Lack Friends**

But Mr. Boomgard would

still like to see more of the

community involved in and

aware of the Children's Home

program. One plan he's par-

ticularly enthused about is a

volunteer foster parent pro-

gram. Although all the chil-

dren must be sponsored by

a legal guardian to enter the

home, many are really with

out family or friends, he ex-

plained. "A Thanksgiving or

Christmas doesn't go by with-

out at least 10 or 12 of the

kids left behind for the holida-

y. We do what we can, but it's those times especially

when they need a family."

Under the volunteer parent

program, an adult could plan

to spend one Sunday a month

or a whole weekend with a

child, he said. The home can

license foster parents and

arrange for visitations itself.

**One of Nation's Best**

He has many ideas for

change, but overall, James

Boomgard is very proud of

the home. Its social service

staff, headed by Don De-

Palma, is "one of the best in

the country," he says. "With

some increased funding this

can be one of the elite child-

care facilities in the nation."

The need for more dollars

is always there. Not only for

expanding and perfecting the

program, but "for brick and

mortar too." The campus' 11

buildings, all built in the

early 1950's are in need of

renovation.

And that's where the

Thanksgiving appeal comes

in.

### Short and to the Pointe

Mrs. Donald M. Ditmars, of Lincoln road, is the East Side lady to call for advance tickets and further information. Her number is 882-6034. If you leave it too late, you can still pick up a ticket on either Walk day, at any Walk house, for \$4.

All proceeds go, of course, to the Detroit Sym-

phony Orchestra. Assisting general chairman Mrs. Kenneth M. Cheyne, III, is area chairman Mrs. Arthur Z. Ostrowski, whose Cumberland way home is one of seven on the Walk route.

**Looking Past Christmas**

The Great TV Auction isn't 'til April, but Chan-

nel 56 needs helpers right now to begin training to seek donations for Detroit public television's annual fund-raising event.

Volunteers are needed by the station for several other purposes, too. Those who train early are assured a place in the Channel 56 studios for the fun of the Auction itself—and it is GREAT fun; nine hectic, hilarious days of bidding and buying, that
