that year. Thirteen babies and their mothers were transferred from Oak street and a surgeon had to perform an emergency appendectomy before the moving of patients to the new building was complete. The new hospital had a capacity of 58 beds and 13 bassinettes.

The nurses residence was donated so that the women could be near their jobs in an area where there were no boarding houses, and rentals were difficult to find. It is currently being refurbished for planned use as business offices.

During World War II the hospital was used as a local distribution center for penicillin and provided hometown care for the war-wounded after the battles.

24-hour banking locations to handle your deposits, withdrawals, transfers, etc. any day of the week.

## Here's how UniBank/Cash Management works:

If you have both checking and savings accounts at various financial institutions with a total average balance of \$2,000 -or if you have an average balance of \$2,000 in a single account-it makes good sense to shift your money to a Cash Management Account at National Bank of Detroit.

3

Here are two reasons why.

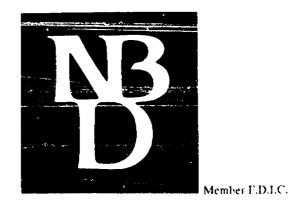

First, as long as you average a \$2,000 balance in your savings account, the plan has no service charges. Notice that the \$2,000 is an average balance. Not a minimum balance. That means the balance in your account could drop well below \$2,000 during some parts of the month, provided you make it up with a higher balance during other parts of the month.

Second, the funds in your savings account earn the highest bank interest allowed by law. When funds are needed in your checking account to cover checks, only the exact amount is transferred-not increments of \$50 as is the case with some banks.

This allows you to keep a zero balance in your checking

account at all times while earning a maximum 5% annual interest compounded continuously on funds in your savings account. That's an effective annual yield of 5.20%.

So, if your objective is to keep all of your funds earning maximum interest all the time they're not actually needed to pay bills and cover checks, stop in at any nearby National Bank of Detroit office. One of our representatives will gladly answer any questions you may have about NBD's UniBank/ Cash Management Account.

Now, only uniform criteria for major streets remain so "based upon information from them we do not foresee widening the street to 25' to replace it," continued Mr. Petersen, much to the delight of the citizens.

While mostly everyone admits the street is in a bad way, the city administrator noted if a majority of the citizens didn't want the proposed work done, "we can utilize the money for other projects throughout the city.' As it turned out, this ap parently won't be the case

"In so doing, no trees would be lost, no fire hydrants would be moved and no street lights would be moved," he said, while indicating all new driveway approaches would be at the city's expense. When sewer work occurs

small trees will come out, be balled and then put back in, while tunneling would occur under larger trees. The street also would be tapered in around six inches at The Shores' boundary toward avoiding any glaring changes in size. The old cul-de-sacs in Hawthorne also would be straightened out, it was said Until the sewer and street work transpires, the thoroughfare will be patched out. In response to a question from one citizen, Mr. Petersen said any curb walks on city property would be re-placed by the municipality and not come out of a resi-

great majority of city sewers are combined storm and sani tary, it was pointed out, with the current sewer in Hawthorne dating back to around 1932.

Mr. Pate told the audience that sewers are replaced for several reasons including lack of service or high maintenance costs, (in this case, maintenance of the system is

over a period of time). Other reasons include some of the lots in Hawthorne, near the east city limits, drain into The Shores with officials saying flows should be diverted back into the city's sewer system, plus a chance to re-evaluate the size of the sewer in eliminating surface water when getting into a new system.

Mr. Petersen explained that the existing sewer is too flat and shallow, some tiles are broken and, overall, its capabilities aren't what they should be.

The current sewer on the north side of Hawthorne is around four and a half feet deep, while the new sewer, as proposed, will be around 1?' to 15' deep.

One citizen wanted to be assured that when sewer work commences it will be a "finish and fill" operation as the lines are laid to avoid unnecessary disruption or unsightliness. He was told an effort would be made in this direction.

The Neighborhood Club has been part of the community for 68 years, but until recently geared most of its programs to children and young adults. Last year it had a paid membership of more than 6,300 people.

After the Village Club was formed, it won an enthusiastic response from hundreds of senior citizens in The Pointe and Harper Woods. Currently, the club uses a nursery school area for its activities, but is limited because of a lack of space.

**Brochure Mailed** In a fund raising brochure recently mailed to hundreds of Grosse Pointe homes, the club points out that more than 18 percent of the population in The Pointe is 60 years or older, but there are few daytime activities offered for the group in the community.

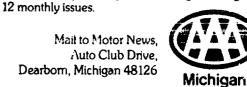

The proposed addition to the club, located at 17150 Waterloo avenue, will contain 9,500 square feet of space and be connected to the main building by a covered runway. It'll include a large multi-purpose room, kitchen, lobby, offices and rooms for meetings, classes and crafts. Land for the project has already been purchased and cleared, and the estimated cost of the building is \$500.000.

Why is wine decanted? Usually, it is only red wine that is decanted. It is done for two or three basic reasons. One, and not necessarily the most important, the feeling that a decanter is much more attractive than a wine bottle. Another might be that the bottle itself is too large for the kind of storage available. However, the most important reason is to remove sediment. Red wines have a tendency to have sediment at the bottom of the bottle. A careful decanting leaves the sediment in the wine bottle

and clear wine in the decanter.

What is your reason for purchasing a particular beverage? Many people purchase for flavor and quality while many purchase only to collect the containers. Whatever motivates you will be found at PARKIE's PARTY SHOPPE, 17255 Mack, Corner of St. Clair, Detroit, where you will discover the beautiful containers that have been filled with quality and are waiting just for you. Open 10-10 Mon.-Thurs., 10-11 Fri. & Sat., noon-10 Sun. Tel, 835-0626.

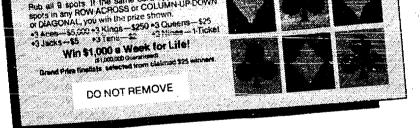

#### HELPFUL HINT:

to receive a tavern license would hurt, he feels.

"There's no question. The two operations cannot exist without a glass of wine to go along with their fine dining," stated Mr. Barbieri Sr.

The owners indicate they have developed "two beautiful restaurants" right in The Pointe, with Mr. Serba stating, "Our customers feel the city should support us to keep us here so we can continue to contribute to the area." In this respect, he also was viewing potential growth and improvements, e.g., landscaping, in the future.

Upgrading Question The owners emphasized under no circumstances do they want to serve hard liquor at any time, while viewing City Attorney George Catlin's report to the council on the subject of license upgrading in the event citizens had any questions in this respect.

In January, Mr. Catlin told the council that a tavern license may be upgraded to a Class C liquor license only upon the approval of the governing body. A local tavern license cannot be upgraded or changed into a C license without amending the city's ordinance by a vote of the people and approval by the council, the city attorney said

Voters also will consider an advisory question on cable television on the 20th.

This question asks, "Should the city council proceed with an investigation and possible authorization of a cable television franchise which would provide for installation of a cable network, at no cost to the city, and a voluntary subscription fee to the individual user?

## Marie Contends South Tankers Swamp For Sports Title Competition, Take EML

Marie McKee, the daughter of Mr. - and Mrs. Bradshaw McKee of Kenwood court, was a recent finalist in the Rochester, N.Y., Sports Woman of the Year competition, college division.

The Pointe native was among five women selected as finalists by the Rochester Press-Radio Club, Sue Mulroney of Saint John Fisher College was the winner, based on outstanding play in volleyball and basketball.

For Marie, it was the culmination of an outstanding year with the RIT Tigers. She led the women's tennis team with a 10-2 singles record last fall, while the squad enjoyed its best season ever, (9.2). She is completing her

first ice hockey season. Playing number two slot on the team, Marie captured all but her final match of the year. She set three school marks, including most wins in a season, (10), most wins in a career, (18), and most consecutive wins, (15, including two seasons),

Property tax relief is felt | our noses at those who er by many to be necessary or out against the property tax desirable because they believe property taxes are regressive taxes.

"Regressive" means poorer people pay a higher portion of their income than higher income taxpayars. The opposite would be "progressive." Michigan ranks second in

each of two separate studies of state tax structure pro-gressivity, so it already has a progressive tax structure. It does not matter if one tax in the structure is progressive or regressive. To judge your version or my version of equity one must look at the impact of the total mix of taxes imposed.

We have competing philosophies at work. Many say we must replace property with the more progressive income tax and others say leave it alone, we already have a relatively progressive tax structure and it need not, should not, be more progressive.

I believe we must seek ways to alleviate this pressure against the property tax for only one reason. That reason is to protect the right of our community to tax itself to pursue excelsystem.

and risk a radical proposal, by ballot or legislative action, passing which may take away our right to tax ourselves. If such a proposal were to succeed, and the pressure as the only source of money

available to exceed some brand of universal mediocrity imposed statewide. There are really only two clear alternatives for avoidance of this unacceptable situation. One is to allow a school district to replace certain millage with a local, school district income tax. The Governor and I support

this, but it is not popular. The other alternative is to increase the property tax credit against the state indiwilling to do if we do not create a graduated income tax.

One last thing. Many people object to property taxes because we have to vote them to be levied against ourselves. That hurts. Many people also have to pay them in large lumps, and that hurts. The Grosse Pointe Academy's 11th annual Action Auction-the major fund raising event which, since its inception, has raised nearly \$500,000 to aid in maintaining the school's standards of educational excellence—is set this year for Friday, April 27, at the Grosse Pointe Yacht Club.

Chairmen are Mr. and Mrs. Craig Curtiss. Honorary chairmen are Mr. and Mrs. J. Addison Bartush.

Five hundred friends of the academy will gather at 5:30 o'clock for cocktails and a silent auction featuring 150 items. The live auction begins at 7:30. Larry DuMouchelle will entertain bids on 75 especially selected items.

This year, as always, they're fabulous, ranging from a five-day freighter trip to a personalized cartoon by Draper Hill, a custom made Ultra-Suede coat to a quail dinner.

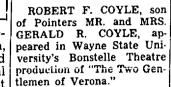

Plus tickets to sporting events, lessons for everything from skiing to disco dancing and week-(Continued on Page 20)

#### A Gift to the Future

When she bought the land, 15 acres in Livingston County, valley and streamside country stretched beside a third mile of Woodruff Creek, Dr. E. Rae Hudspeth, of Hollywood avenue, thought of it as an investment . . . perhaps a place to settle after retirement.

But lately she'd been having second thoughts. And so, last July, the Pointe gynecologist decided to donate her half-acre bog and woods to the Michigan Nature Association.

She wanted to preserve it in its natural state for all naturalists' enjoyment, "The stream and its valley with hills that surround it constitute an interesting natural spot. The land has many unusual botanical features, and I did not want to see it developed."

She chose to give it to the MNA because, "in my many years as a member, I've followed the MNA very closely and been impressed with its purposes,"

She contributed it as a living memorial to her father and mother, Ernest and Minnie Hudspeth, formerly of Cleburne, Tex.

It's now the Woodruff Creek Plant Preserve. 56th project of the citizens' organization, headquartered in Mount Clemens, dedicated to establishing nature sanctuaries and plant preserves for the native flora and fauna of Michigan.

Rich spring flora on steep hillsides on both sides of the valley are an outstanding feature of the property, located near the I-96, US 23 junction, with access from Van Amberg road.

The upland area contains the unusual alum root and bird's foot violet. Grasses, sedges and flowering shrubs line the banks of a crystal clear creek.

The most unique part of the preserve is its halfacre, spring-fed quicksand bog, surrounded by tamaracks and poison sumac, where the prairie dock, pitcher plant, fringed gentian, sundew, bladderwort and yellow star grass can be found.

Oak-hickory forest and other trees, including sugar maple, big-toothed aspen, chokecherry and basswood cover the hillsides. Dwarf birch is also present, and among the plants in the open valley are shrubby cinquefoil, false asphodel and vanilla

Bertha Daubendiek, executive secretary of the MNA, describes her organization as thrilled to receive the property. "We don't receive any government funds," she explains, "and with the present high price of land it is becoming increasingly difficult for us to acquire land.

"Thanks to Dr. Hudspeth, this beautiful place will be enjoyed untouched by development." (Continued on Page 30)

art, donations to be knocked Dottie and Richard Doerer. down to high bidders on-theair during the 1979 Channel 56 Television Auction, are on display at Somerset Mall through this Saturday, March

The preview is designed to provide an opportunity for viewing the art "in person" prior to the annual fund raiser: a nine-day telecast running March 30 through April 7

Although art will be up for bid all nine auction days, many of the finest items are being reserved for "Art Day," Sunday, April 1, when from 1 o'clock until midnight they will be displayed and described by experts from the auction's Art Advisory committee.

That committee includes such people as George V. Bayliss, dean of the School of Art at the University of Michigan, Dr. Frederick J. Cummings, director of the Detroit Institute of Arts, Jerome Grove, president of the Center for Creative Studies, Kenneth Gross, executive director of the Birmingham-Bloomfield Art Association, and Joy Emery, art director of the Detroit Artists Market.

## **Right now** you could be playing golf or tennis in 70° weather.

It's 70° and sunny at Sea Pines at Hilton Head. A typical February/March day.

The azaleas are blooming. And the dogwood trees. By the time you get there, the air will be filled with camelia.

Fortunately for you, not everyone realizes that spring comes so early to South Carolina.

Not everyone realizes that right now is one of the very finest times for golf and tennis at the very finest place for golf and tennis in America.

Imagine playing on three championship 18hole golf courses that are in better shape than at any other time of year.

Imagine playing the Harbour Links Course before it's covered with the biggest names in golf-the Heritage Classic will again be televised by CBS from Sea Pines on March 29th.

Imagine plaving tennis at one of our three racquet clubs—a total of 60 courts—before they're covered with the finest women players in the world-the Family Circle Cup Tournament will again be nationally televised from Sea Pines beginning April 10th.

Imagine it's 70° and the grass is green. It is at Sea Pines.

There is plenty of space for you right now at Sea Pines-from now through the end of May. The only times we're full are from 3/23 through 4/1 and 4/10 through 4/15.

Our spring villa rates are as follows: Feb. 15-Mar. 17 Mar. 18-Apr. 30 After May 1 1 BR \$40-\$50 \$68-\$90 \$61-\$90 2 BR \$72-\$92 \$99-\$128 \$93-\$123 Rates are lower if booked on a week or more basis

But the sooner you get here the better. There are some wonderful special family air fares through Atlanta from now through March 31. Call your Travel Agent for reservations -or call us toll free.

two car garage, finished basement and fast occupancy, too! .

#### 1145 NOTTINGHAM

AH, THE CHARM OF AN AUTHENTIC ENGLISH ... at a price that's definitely Scotch! The living room and dining room are bright and cheerful and spacing. The dom is a state of the living spacious. The den is generous and the modern kitchen has ample eating area, too. The fireplace is included . . . but the live parrot in the living room isn't!

#### EXTRA SPECIAL RANCH

Sharp is the word for this 3 bedroom brick ranch located on a low-traffic street in Harper Woods. More good news is that it has central air, too. The bad news is that it may be sold by the time you see this ad. Call Now!

#### CLASSIC CENTER ENTRANCE COLONIAL

It's situated on a 75-foot lot on a beautiful street just off Windmill Pointe Drive. Big bedrooms (there are four) lots of baths and extra lavatories (two of each) just add value, as does the spacious step down family room! You're advised to call early this value isn't "long" for our market!

EXCITING AND CONTROVERSIAL. This exciting new home represents a fresh departure from much of the conservative, if not routine housing usually for sale. It's a residence for a family that has gregarious, extraverted life style; for people who can appreciate quality presented in a fresh home. If you desire a fresh life style take a few moments to enjoy a peek at a "California Concept Home" right here in Grosse Pointe.

SPECIAL CUSTOM RANCH-Unusual 6 room brick ranch, 3 bedrooms, living room that measures 30 feet. Professionally landscaped front with sprinkler system Lot measures 100x350 with fruit trees. Fireplace in dining room; no basement; central air. A real potential gas saver; nice residential East Detroit neighborhood now at an extra reasonable \$64.500!

Jerry Silverman . . . has always been one of my favorite lines, so I'm really looking forward to the showing of his spring collection at Walton-Pierce, Wednesday, March 14, Somerset Mall and Thursday, March 15, Grosse Pointe. There will be smart dresses, dresses and jackets and suits plus cocktail and evening clothes that are perfect for fashion-wise married and career women. The collection includes neutrals and fresh spring colors, lovely fabric blends and Ultra Suedes. The sizes are 4-14 and the price range is from \$25 to \$550. Come see the informal modeling 10 a.m. to 4 p.m. There is a new shipment of Austin Hill separates in a blue and white daisy pattern on a polyester and cotton blend. The skirt is pleated all around, the jacket is shorter and the pants fit well. In a colorful wild flower print, pick a wrap skirt, a shirt and slacks. Tanner offers many possibilities to coordinate a casual look. Tanner cardigan knit sweaters come in pink, white, yellow, green, blue and turquoise. Blouses are either short sleeve floral print or long sleeve floral print. The solid color blouse from Tanner has pink or green piping. Slacks and skirts come in a range of coordinating colors. Talking about colors, you'll love the terry jogging shorts in yellow, purple or rose. There are terry slacks in bright colors and tops in yellow or white in the swimwear area. By the way, lots of new swim suits have arrived and are waiting for your trip south.

#### Rut Custom Kitchens have recently introduced a new door style to their line of fine kitchen cabinets. It's called "Geneva," a contemporary style to rival the popular Europeans, yet with all the advantages of American manufacturing. The stereo receiver and speaker made sweet music at Youth Service Division, (YSD), headquarters last week, much to the enjoyment of those working at the office. But the music wazn't as "sweet" as the day of accomplishment of Dets JAMES FOWLER, (left), and WILLIAM DESI-LETS on Wednesday, February 28. Both investigated two separate burglary incidents which occurred the previous day. After starting out with no leads in the morning, by the time the day ended, some 16 to 17 hours later, they had identified the suspects and recovered most of the property, (including the receiver and speaker taken from a Woods home and the combination television and AM-FM radio set and portable telephone removed from Jacobson's).

## Here's how UniBank/Cash Management works:

If you have both checking and savings accounts at various financial institutions with a total average balance of \$2,000 -or if you have an average balance of \$2,000 in a single account—it makes good sense to shift your money to a Cash Management Account at National Bank of Detroit.

Here are two reasons why. First, as long as you average a \$2,000 balance in your savings account, the plan has no service charges. Notice that the \$2,000 is an <u>average</u> balance. Not a minimum balance.

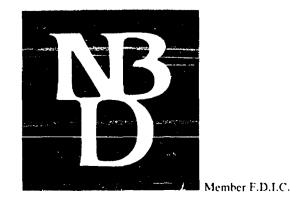

That means the balance in your account could drop well below \$2,000 during some parts of the month, provided you make it up with a higher balance during other parts of the month.

Second, the funds in your savings account earn the highest bank interest allowed by law. When funds are needed in your checking account to cover checks, only the exact amount is transferred—not increments of \$50 as is the case with some banks.

This allows you to keep a zero balance in your checking

account at all times while earning a maximum 5% annual interest compounded continuously on funds in your savings account. That's an effective annual yield of 5.20%.

So, if your objective is to keep <u>all</u> of your funds earning maximum interest all the time they're not actually needed to pay bills and cover checks, stop in at any nearby National Bank of Detroit office. One of our representatives will gladly answer any questions you may have about NBD's UniBank/ Cash Management Account.

outside world.

The Neighborhood Club has been part of the community for 68 years, but until recently geared most of its programs to children and young adults. Last year it had a paid membership of more than 6,300 people.

After the Village Club was formed, it won an enthusiastic response from hundreds of senior citizens in The Pointe and Harper Woods. Currently, the club uses a nursery school area for its activities, but is limited because of a lack of space.

Brochure Mailed In a fund raising brochure recently mailed to hundreds of Grosse Pointe homes, the club points out that more than 18 percent of the population in The Pointe is 60 years or older, but there are few daytime activities offered for the group in the community.

The proposed addition to the club, located at 17150 Waterloo avenue, will contain 9,500 square feet of space and be connected to the main building by a covered runway. It'll include a large multi purpose room, kitchen, lobby, offices and rooms for meetings, classes and crafts. Land for the project has already been purchased and cleared, and the estimated cost of the building is \$500,000.

Major donations have been granted by the Kresge Foundation, McGregor Foundation and Grosse Pointe Rotary Club.

In this respect, he also was viewing potential growth and improvements, e.g., landscaping, in the future

**Upgrading Question** The owners emphasized under no circumstances do they want to serve hard liquor at any time, while viewing City Attorney George Catlin's report to the council on the subject of license upgrading in the event citizens had any questions in this respect.

In January, Mr. Catlin told the council that a tavern license may be upgraded to a Class C liquor license only upon the approval of the local governing body. A tavern license cannot be upgraded or changed into a C license without amending the city's ordinance by a vote of the people and approval by the council, the city attorney said

To the Editor:

The claim of school officials that the Grosse Pointe district is number one in the state is ridiculous. (Front page story in February 15 issue.)

Instead of demonstrating that Grosse Pointe is first in an area that can be validly measured, this hollow boast simply shows how far a testhappy school district will go in an effort to prove to the community that its testing system is a smashing success. In spite of an admonition

by the Michigan Department of Education against using state assessment scores to rank school systems, Grosse Pointe has not only developed a ranking system, it uses unsanctioned combinations of scores to arrive at an overall "achievement" rank.

To arrive at its mythical number one status, Grosse Pointe takes the 3.1 margin it achieved over the school district with the next highest score in the seventh grade math assessment and uses these "points" to bolster its "rankings" in the other three assessment areas where its scores were at the third or fourth level below the highest-scoring district.

Since the leading scores in these three assessments were much more tightly clustered. the 3.1 point spread, when distributed across the other math score and the two reading scores, enabled the doughty Pointers to eke out

a narrow win. The director of Research and Development calls it "unofficial."

A more appropriate word is "balderdash." Henry B, Maloney,

## 'Come As Child' Women Are Told

Grosse Pointe Memorial Church Women Invite Women of Community to Enjoy Special Program Next Tuesday

The song titled "Come As A Child" is the inspiration for the program Mrs. David T. George, Christian Education director, will present for the Women's Association of Grosse Pointe Memorial Church next Tuesday, March 13, at 10 in the morning in the church's music room.

All women of the community are invited to join the Memorial Church women for the presentation. Reservations are not necessary.

Mrs. George, known as an innovator in her field, will use puppets, music, slides and special exhibits, and re-

theme. Born in Wilmington, N.C. a graduate of High Point College where she majored in Christian Education, she came to Grosse Pointe Memorial Church in July, 1977, from the Highland Presby-terian Church of Winston-Salem, N.C., when her husband became associated with Henry Ford Hospital.

She was responsible for last December's "Old Fash-LER, of Kalamazoo and Mat- ioned Christmas" at the Wardwell House which of-

Last June's Jerusalem Fair at Grosse Pointe Memorial Church was another of Mrs. George's successful projects. For three evenings running, families were absorbed into the culture of Jesus' time, its music and dances, crafts and marketplace sights and sounds.

There was even a vaguely familiar looking, bearded shepherd tending live sheep in the parking lot.

long and weekend stays donated by prestige resorts throughout the country.

#### A Gift to the Future

When she bought the land, 15 acres in Living-ston County, valley and streamside country stretched beside a third mile of Woodruff Creek, Dr. E. Rae Hudspeth, of Hollywood avenue, thought of it as an investment . . . perhaps a place to settle after retirement.

But lately she'd been having second thoughts. And so, last July, the Printe gynecologist decided to donate her half-acre bog and woods to the Michigan Nature Association.

She wanted to preserve it in its natural state for all naturalists' enjoyment. "The stream and its valley with hills that surround it constitute an interesting natural spot. The land has many unusual botanical features, and I did not want to see it developed.'

She chose to give it to the MNA because, "in my many years as a member, I've followed the MNA very closely and been impressed with its purposes."

She contributed it as a living memorial to her father and mother, Ernest and Minnie Hudspeth, formerly of Cleburne, Tex.

It's now the Woodruff Creek Plant Preserve. 56th project of the citizens' organization, headquartered in Mount Clemens, dedicated to establishing nature sanctuaries and plant preserves for the native flora and fauna of Michigan.

Rich spring flora on steep hillsides on both sides of the valley are an outstanding feature of the property, located near the I-96, US 23 junction, with access from Van Amberg road.

The upland area contains the unusual alum root and bird's foot violet. Grasses, sedges and flowering shrubs line the banks of a crystal clear creek.

The most unique part of the preserve is its halfacre, spring-fed quicksand bog, surrounded by tamaracks and poison sumac, where the prairie dock, pitcher plant, fringed gentian, sundew, bladderwort and yellow star grass can be found.

Oak-hickory forest and other trees, including sugar maple, big-toothed aspen, chokecherry and basswood cover the hillsides. Dwarf birch is also present, and among the plants in the open valley are shrubby cinquefoil, false asphodel and vanilla grass.

Bertha Daubendiek, executive secretary of the MNA, describes her organization as thrilled to re-ceive the property. "We don't receive any govern-ment funds," she explains, "and with the present high price of land it is becoming increasingly difficult for us to acquire land.

"Thanks to Dr. Hudspeth, this beautiful place will be enjoyed untouched by development." (Continued on Page 30)

## **Right now** you could be playing golf or tennis in 70° weather.

It's 70° and sunny at Sea Pines at Hilton Head. A typical February/March day.

The azaleas are blooming. And the dogwood trees. By the time you get there, the air will be filled with camelia.

Fortunately for you, not everyone realizes that spring comes so early to South Carolina.

Not everyone realizes that right now is one of the very finest times for golf and tennis at the very finest place for golf and tennis in America.

Imagine playing on three championship 18hole golf courses that are in better shape than at any other time of year.

Imagine playing the Harbour Links Course before it's covered with the biggest names in golf-the Heritage Classic will again be televised by CBS from Sea Pines on March 29th.

Imagine playing tennis at one of our three racquet clubs-a total of 60 courts-before they're covered with the finest women players in the world-the Family Circle Cup Tournament will again be nationally televised from Sea Pines beginning April 10th.

Imagine it's 70° and the grass is green. It is at Sea Pines.

There is plenty of space for you right now at Sea Pines—from now through the end of May. The only times we're full are from 3/23 through

4/1 and 4/10 through 4/15. Our spring villa rates are as follows: Feb. 15-Mar. 17 Mar. 18-Apr. 30 After May 1 \$68-\$90 1 BR \$40-\$50 \$61-\$90 \$72-\$92 2 BR \$99-\$128 \$93-\$123 Rates are lower if booked on a week or more basis

But the sooner you get here the better. There are some wonderful special family air fares through Atlanta from now through March 31. Call your Travel Agent for reservations -or call us toll free.

Jerry Silverman . . . has always been one of my favorite lines, so I'm really looking forward to the showing of his spring collection at Walton-Pierce, Wednesday, March 14, Somerset Mall and Thursday, March 15, Grosse Pointe. There will be smart dresses, dresses and jackets and suits plus cocktail and evening clothes that are perfect for fashion-wise married and career women. The collection includes neutrals and track women. The con-lection includes neutrals and fresh spring colors, lovely fabric blends and Ultra Suedes. The sizes are 4-14 and the price range is from \$25 to \$550. Come see the informal modeling 10 a.m. to 4 p.m. There is a new shipment of Austin Hill separates in a blue and white daisy pattern on a polyester and cotton blend. The skirt is pleated all around, the jacket is shorter and the pants fit well. In a colorful wild flower print, pick a wrap skirt, a shirt and slacks. Tanner offers many possibilities to coordinate a casual look. Tanner cardigan knit sweaters come in pink, white, yellow, green, blue and turquoise. Blouses are either short sleeve floral print or long sleeve floral print. The solid color blouse from Tanner has pink or green piping. Slacks and skirts come in a range of coordinating colors. Talking about colors, you'll love the terry jogging shorts in yellow, purple or rose. There are terry slacks in bright colors and tops in yellow or white in the swimwear area. By the way, lots of new swim suits have arrived and are waiting for your trip south.

Rut Custom Kitchens have recently introduced a new door style to their line of fine kitchen cabinets. It's called "Geneva," a contemporary style to rival the popular Europeans, yet with all the advantages of American manufacturing. See door samples today at Mutschler Kitchens, Inc., 20227 Mack Avenue, 884-3700.

At The Notre Dame Pharmacy . . . during the month of March Notre Vites are on SALE . . . regularly \$4.95, now \$3.98.

... Saturday, March 17, pick up cards and party goods at the Squirrel's Nest, 19849 Mack. For Your St. Patrick's Day Party

Thru The Rockies . . . along the sea in the United States and Canada, MR. departures are April through August. Travelwise travelers always ask for Mr. Q . . . 886-0500.

Tony Cueter's Bijouterie . . . is very happy in the new location and wants to share it with you. Tony Cueler welcomes you to march in all during March and remount your old ring at a 25% savings. March out with a beautiful new ring from Bijouterie, 20445 Mack Avenue between Lan-caster and Flectwood. Closed Mondays, open Tuesdays through Saturdays 10 a.m. to 5 p.m.

Spring is in the air at Martha's Closet. We have a large selection of crisp separates from Gordon . . . . pants, skirts and blouses in lovely garden flower prints certain to revitalize any wardrobe.
