Master Victory of 1944

DONALD JOHN DANSBUR must have heard that the first baby born to Pounte parents in 1944 would be dubbed Master or Miss Victory. Note the fingers. Or navbe it's just the Churchill influence Let's hope the coincidence is significant Donald John was born at 1 a m January 1 in Cottage Hospital to Mrs. William Dansburr of 78 Mapieton. His dad is a member of the Farms police force. The baby as wincer of the annual Grosse Pointe News First Baby contest has garnered a lot of very nice presents.

Save electricity to save coal!

The government asks the utmost conser vation of electricity to save coal, man power, transportation and critical war resources. Turning off your office lights for an hour at lunchtime may not seem like much of a saving But one or two lights in thousands of offices, turned off one hour a day, will save in a year thousands of tons of coal vitally needed today.

Electricity is not rationed and there is no shortage of electric power in this area. The Government asks you to reduce your use VOLUNTARILY as part of the national conservation program. Save electricity whenever and wherever you can-in store and office and home. The Detroit Edison Company

For Real Total War

For Real Total War

The high sp t of President Roosevell's annual message to Congress was his recommendation for the enactment of a general cuthin drift for war service to continue for the durit on of the war member of the war of the strikes which have embarrassed the war of the war of

the confidence the people must have in a national leader in time of war. He is to be commended for his courage even lately ex-pressed. His sagacity as a reader of public thought stands pressed the sagacity as a reader of public thought stands, more conscious daily of the desperate character of our war adven-ture and becoming more insistent that nothing shall stand in the way of its victorious conclusion at the earliest possible moment

nt
this end they are insisting that the people all of the
shall carry it through on a total war basis

Guesses on Duration

The people cannot be criticized for entertaining and expressing growing hopes for an early ending of the war. With the office of War Information about to announce a cutback as stated Sunday in the production of small arms bullets non-combat planes and antime production of small arms bullets non-combat planes and antime production it is difficult for them to escape this deduction. The qualifying statement that production of war planes and certain other materials will be stepped up will not dispel this optimism. Furthermore when it is stated that steel production about which there was such alarm only a few months ago is now outstripping needs for the machinery of war and that arrangements are under way for the resumption of the manufacture of many articles for civilian use this hope grows stronger.

hand strategy accepts the the mischnery of war and the hand arrangements are under vawy for the resumption of the manufacture of many articles for civilian use this hope grows stronger.

Probably the most plausible explanation of the sasing of the hectic strain for war production and one which offers no unwarranted encouragement for an early ending of the strain for war production and one which offers no unwarranted encouragement for an early ending of the war is that our maximum militare enrollment will be foreign to the strain of the strain

"Few men bave been admired by their own domestics!

We happen to be on a domestic rampage this weekinspired by a picture of a sweet motherly looking little old
lady squatting on page 57 in the latest Harper s Bazaar, in

Viss Morisvy (that's Whittler's Mother) goes on to sav in the article that what servants hate most in a house are dogs. Vext on the list are children. What we dilke to know is just what they WOULD like. They don't seem to know themselves. Another complaint was "Servants don't like to be made to feel inferior-being made to leave the toous by the servants a centrance lined with garbage cans". Now here IS one plate where you employers of domestics might remen't we situation. After all you probably don't wan to destroy your children especially if you we become fond of them. Same with dogs. But you can excitailly do sometiting about that servants entrance to wit.—

Bonds

The Fourth War Bond Drive which is scheduled to start on January 18 began in Grosse Pointe and in thousands of other communities throughout the land last Tuesday one week earlier.

There is no question about Grosse Pointe doing its full share as it always does in any great enterprise of this war period. The start of the printe communities. A large number of the bingest substruptions that different the whole State of Michael will be supplied to the printe of the printe but will have to be credited to the big city to be credited to the big city below us for obvious reasons. The subscriptions that will be obtained out here will come through the usual channels that exist in ever community. The merchants large and small professional men and women businessmen the usual run of citizens and not least by any means the enthusiastic and effective work of the strated in the other campaigns will figure in the sales It is needless to dwell on the character of these bonds are good if they are not nothing else an Earth will be.
