WAVES Second Anniversary

WAVES DECOND ANNIVERSARY

It is lard to realize that two years have passed since the organization of the Women's Auxiliary Volunteer Emergency. Services better known as the WAVES Since them this splen dis body of patriotic woing women have done a distinguished service. Their relation to the Naval establishment is the same as that of the WACS to the Army except that the women in the WAVES are not sent abroad. Their work is confined to shore bases and naval stations in this country. When the Women's Naval Auxiliary was conceived it was intended to recruit a force of 100 000. Their strength now stands at 75 000 and the Navy Department is anxious to take on the additiona. 25 000 to bring the Corps to full strength. The WAVES organization offers many advantages to ambitious women between the ages of 20 and 35. The paxing good and many opportunities exist within the Corps for advancement. In addition to this service in the WAVES permits the members to play a vital role in the war of which every Patrotic American woman can wall be proud.

Grosse Pointe Woods' Bathing Beach on Lake St. Clair The state of the s

The Village of Grosse Pointe Woods has recreed this fine stretch of beach on Lake St. Clair in th. Village of St. Clair Shores for the exclusive use of its resident. In past years the Village of Grosse Pointe Shores has invited the Woods residents to use its beach on specified days. When the invitation was withheld this year the Woods Commission got busy and acquired the rights to this beach near Nine Mile road. Picture by Fred Runnells.
