ON MEN'S CLOTHES IS WELL

When a well dressed woman offers an opin ion on the cut and fit of a man s clothes we listen with respect and you can safely do likewise She has a quick eye for the little things that make or mar a good appearance Instinctively she rules out high colors hour glass waistlines and full back shoul ders She is just as emphatically against either a poured in fit or the flour sack kind She likes a man to look trim and well set up but thoroughly at ease in his clothes

A great many smart women are enthus astic about the way our clothes make men look. We think that s a good endorsement. And we re not pantywaists, either

We thought the following letter would be of such great interest to so many people that we asked permission to print it. We consider it a privalege to do so. It was written in 1881 by Mars Charles Mayo (wile of one of the famous Mayo Brothers) when she was about 11 years old. The original letter was loaned to us to copy by a relative Here is the letter was Jonaco to us to copy by a relative Here is the letter exactly as it was written.

On this most interesting subject I wish is convey as plainly as mostly the reach the was a subject in which is convey as plainly as the convey as the property of the plain as the convey as plainly as the convey as the plain as the plain

On this most interesting subject I wish is convey as plainly as possible my opinions and 1 ope to make a good impression on you for I shull speak fruly and as plainly as possible New, first of all women have as good a right to vote as ment and if everything was as power for its endorsement and if the females will fallow my example we shall VOZE soon.

The idea on women not knowling enough to hold office. Where you see one smart man you are a dozen smart women and to bear a man say a wo nan don't know enough to hald office when he is exercisely more than a foot himself is ridiculous And I say that a woman who will listen to this don't know her own mind but ought to learn it

woman who with lates to this cost know her own man ast ought to learn it. I think a woman has as good a right to be President as a man and would raise Congress right store; if an equil be Secretary of State or something of that kind. And it think it is just awful that they have to work sexto mits cover dip polations ets when her were born to something higher. But No their broiles much have an education he must not werk he must be king if possible—life is a boy.

Yes that is the way but it won the long if I can help it. Follow my example ciris and we will soon we can do hold offices and be president and serve in Congress and rule cm in general Follow.

Mrs. Mavo was a great leaf and as he proved (at the age of 11).

Mirs Mayo was a great lady and she proved (at the age of 11) to be person of great fores ght We are sending this to Clare Booth Luce because e think she will appreciate and understand the value of the letter and will see that it reaches the eyes of women everywhere

Problem for DeGaulle

Problem for DeGaulle

General De Gaulle is deeply engrossed in political maneuvering, to enhance France sposition as an important factor in the post war arrangements. He wants nothing less than a stone equal to that of Britain America or Russia. Doubtless the visit of Prime Minister Chirchill and Foreign Secretary Eden to France at this time has been to mollify, the ambitions of the Fronch leader and effect some arrangement which will satirfy French pride without having her as a disturbing a staff of the pride without having her as a disturbing a staff of the pride without having her as a disturbing a staff of the pride without having her as a disturbing a staff of the pride without having her as a disturbing a staff of the pride without his pride without his maje to be basedly responsible. It maje the timely of suggest to General De Gaulle that as an act precedent to France a admission to full standing, as a partner in the military decisions during the fighting and of equal status at the post war council table he might mean while undertack the expulsion of the Germans from the French ports they still hold at St. Nazarre and Lorient Inasmuch as the soil of France has been cleared of the enemy by the military action of the Americans British and Canadians General De Gaulle might make some small gesture of effective cooperation by cleaning up these important harbors whose retention by the Germans is still serrously against Germany before the winning of a complete victors.

Hitler's Promise

A German prisoner of war recently picked up on the Western Front who is obviously not one of the young last dicht fanatics sujs that Adolph Hitler has told at least each great truth. At the beginning of his career he said. If I could have control of German for 10 years you wouldn't be able to recognize it.

According to the testimons given by this soldier fresh from the habitat of the master race greater truth was never anoken.

nom the habitat of the master race greater truth was never apoken.

The hombs that were dropped with such glee on Londouduring the terrible fall and winter of 1940 were dragon's teeth which sprouted a hundred fold in Hamburg Berlin and scores of other German cities British and American bombers have left their calling cards on every community that had the misfortune to house a war industry. It is a language which the enemy understands
