REPEAT PERFORMANCE

Last November 19735 residents of Grosse Pointe Township went to the polls to register their choice in the Presidential Election. There were only 20,375 qualified elec for in the township at the time so this was truly a magnif cent record

BUT

A further study of the voting records of Grosse Pointa Township shows that only 2.764 voters cost their ballots in the 1944 primary electors

In the primaries of 1943 the record was even worse Only 701 township residents voted then

And n the Spring Election of 1943 a paltry 1097 voters went to the polls

Another pr mary election is scheduled for February 19 Another primary election is screeding for a business. EVERY election is important, and it is the duty and sacred privilege of every resident of age to cast a ballot.

Make it a repeat performance on February 19.

Don't confuse this election with any of the local primanes which might have been cancelled.

The Scouts

The Scouts
The Boy Scout organization has been celebrating the thirty fifth anniversary of its founding in America More power to them and to their patrotic adult leaders who are doing more to nourish and build a good citizenship in this country in the near future than any other secular agency. In this period when universal concern is expressed over the juvenile delinquency that seems to have arisen as one of the unwholesome and dangerous social concomitants of the water this poles apport of every right thinking citizen the poles apport of every right thinking citizen the country can have a strong and clean citizenry that also to direct its youth in that path. The peril that confronts fermany at this moment greater than the results of any military or political disaster is the Godless cruel and arrogant generation that has been prepared by the criminal rearing of its children.

The Boy Scout and Girl Scout movements in this country are the direct antidote to the social philosophy whose fruition today hangs like the sword of Damodles over the offer line and great German pools in the country are the direct antidote to the social philosophy whose fruition today hangs like the sword of Damodles over the offer line and great German pools in the prediction of the great principles for which our young men are fighting and dying today on all the battle fronts of the world.

It is the solemn duty of every man and woman in America to support these splendid organizations with might and main.
