The Poupard school district had more pre-schoolers (571) than any other elementary census zone in the Pointe district. Defer was second with 533, followed by Ferry with 531.

Poupard also had more 5-11 year olds (1,233) than any of the others. Ferry was next with 1,116, and Defer was third with

a dozen fewer than Ferry. Monteith led in the 12-14 age group with 524 while Defer had the most 15-17 year olds (498) and Kerby the most 18-19 year olds (303).

67 Handicapped
Some 67 physically handicapped children were reported by parents in 1964. Of this number 30 were able to attend regular Grosse Pointe classes. Eleven others attended parochial schools and six were sent at Board of Education expense to special programs in Detroit public schools.

Permits Counted
A separate report released last week revealed that in the first six months of this year the largest number of home building permits in five years, 278, was issued.

Of these, the Woods had 122, the Park and Farms had nine each, the Shores had eight and the City seven.

A summary of home building permit data in the report revealed the average valuation of new homes planned in each of the areas.

The highest of these valuations was in the Farms (\$44,111.11 average), followed by the City (\$41,285.71), Shores (\$37,875.00), Park (\$33,444.44) and Woods (\$21,108.73).

Harper Woods Grows
Present population of that portion of Harper Woods which is also a part of the Pointe public school district was fixed at 7,473. This figure was 5,701 over that section of Harper Woods' 1950 census total, and 146 over last year's total.

The Harper Woods school area had 60 new residences under construction, most of them apartment dwellings. It also had 2,205 residences listed, and a total population of 7,473.

Some 2,397 children aged from 5-19 live in that section of Harper Woods, the report revealed. Of these, 62.7 percent attend Pointe public schools and 37.3 percent attend private or parochial schools.

The number of persons per residence in the Harper Woods portion was exactly equal to that of the Farms—3.39.

Congressmen To Hold Debate

Plunged together into the newly redistricted 14th Congressional district, two incumbents: Congressmen have squared off to fight for the Democratic spot on the November ballot.

The two incumbents, Harold M. Ryan and Lucien N. Nedzi, will meet to debate only once before the September 1 ballot, that meeting will be at 8:00 p.m. Friday, August 21, in the Grosse Pointe War Memorial, 32 Lakeshore drive.

Nedzi was appointed in November of 1961 to fill a space left vacant by the death of Thadious Machrowicz in the former First Congressional district. He was reelected in November of 1962 for a full term.

Congressman Ryan has represented the Pointe and 14th district since the death of Louis Rabaut in November, 1961. He, too, was reelected in 1962.

From the score of seniority, at least, the two are on an equal footing, each having been appointed in the same month. Ryan's district, the old 14th, was made up of over 462,000 residents.

The newly districted 14th is smaller, around 417,000, and the Pointes, Harper Woods, parts of Detroit south of Eight Mile road, and Hamtramck.

Farms Issues Building Report

Permits for three new homes in the Farms were issued during the month of July, a report made public last week revealed.

The new homes will be at 202 McKinley (\$26,000), 27 Warner (\$57,000) and 17 Carmel lane (\$58,000).

The three permits brought the total home permits this year to 12, as compared to 19 for the same period last year.

Ten miscellaneous permits, for structures with a total value of \$52,900, were also issued during the month of July.

Park Area

(Continued from Page 1)

The Park's independent planning consultant, Vilican-Leman and Associates, reported to the council at that time that the Three Mile area was the most logical spot for addition to the Park's barely adequate recreation acreage.

With the present lakefront park (over 7 acres) and school playgrounds and private clubs, the Three Mile drive was seen as a sufficient safety valve for immediate and future recreational needs.

REPORTS DOG BEATING

Mark Stevens, of 280 Moross road, reported Monday, August 3, that his dog had been beaten sometime between 8 p.m. and 10:30 p.m. on August 1. Mr. Stevens believes the beating took place in his backyard. The dog is now recovering in a veterinary hospital.

Arraign Shooting Suspect

(Continued from Page 1)

He had been struck on the head with a blunt instrument and fragments of a bullet were found in his head behind the right ear.

At the time of the assault, police said that the assailant apparently waited in the shadows behind Silvestri's home, for his victim, a Detroit bar owner.

Golding said that Long was one of three persons suspected of the crime, and after a thorough investigation, the man was picked as the logical suspect and arrested on the warrant, charging robbery armed.

The detective said that while in the hospital on the date of the assault, Silvestri claimed he did not know who his assailant was, but when Long was arrested, Silvestri identified him as the robber.

Silvestri has known Long for

the past five years, Golding said.

THE WORLD'S FINEST USED CARS ARE BUILT BY CADILLAC.

To prove our point, we offer as evidence the three Cadillacs shown above.

From top to bottom in our illustration are a 1960 Sedan de Ville, a 1962 Coupe de Ville and a 1963 Sixty Special. Each is unmistakably Cadillac. Each, regardless of vintage, will have special appeal to the man who desires the comfort, convenience and pride of ownership that only Cadillac can offer.

That's why every year increasing thousands of wise car buyers favor a previously

owned Cadillac over new cars of other makes.

First of all, they realize that Cadillac engineering is so far advanced that "newness" becomes a relative term. In fact, there are features found on late model Cadillacs that are only now being offered on other cars. This is a major reason why a Cadillac retains its value through the years, from buyer to buyer.

Another thing to consider. Cadillac owners lavish the most meticulous care on the cars

they are so proud to own. The "car of cars" almost always receives regular maintenance and servicing by skilled Cadillac mechanics. For this reason, many used Cadillacs are just nicely broken in.

Your authorized Cadillac dealer's selection of one-owner models has never before been so appealing. And he can probably match one of these fine cars to your budget.

Who knows? Your used Cadillac could possibly be the "newest" car you've ever owned!

Firemen Douse Burning Truck

City firemen took 30 minutes to put out a fire in a truck parked in front of the Grosse Pointe Valet Cleaners on Mack avenue August 4.

Nobody is quite sure how it started, but by the time firemen were summoned it was well on its way. When they began fighting the blaze, the chassis and front cab of the truck were in flames.

The truck belonged to the Mashmeyer Cement Co.

Hospital Emergency Rooms Jammed

(Continued from Page 1)

Emergency room has time to give a complete medical examination to everyone they treat. People mistake quick service for the quality service they can get from a practicing family physician.

As both doctors and hospital staffers are hasty to add, ailments are frequently more deep-seated than those that call for immediate treatment in an emergency room.

At St. John Hospital recently, an anxious mother rushed in with her daughter, and requested immediate service in the emergency ward. She got it.

One Small Bandage
The treatment consisted of one small bandage being applied to one small cut on one small finger.

Such a case, an official at St. John stated, is typical of the problem. After the "patient" left, the bookkeeping task began: complete records of the incident were compiled, in triplicate, and forwarded to the records department of the hospital.

The costs of such bookwork are very high, but legal considerations make them a necessity. "This woman should never have come to our emergency room, and we told her so." But the patient was treated, just the same.

Panic Is Factor
In addition to the prospects of saving time and money with the quick hospital treatment, there is another factor involved, in the opinion of Hugh Sheehan, an official at St. John Hospital.

That factor is panic. "People tend to get panicky with the slightest injuries . . . and come running to the back doors of hospitals," he observed.

Last week, for example, Sheehan saw a boy come into the emergency room and ask for stitches on a lip he had cut on a peach stone. "What he should have done would have been to put a little cold water on it," Sheehan said.

St. John's small emergency room treated some 23,267 persons last year; many of them would have done better to go elsewhere, for both their own sakes and the hospital's.

Hospital Costs High
Sheehan stressed the extremely high cost of each such treatment. Though there is a \$6 charge for use of the emergency room, and added fees of \$4 and up for treatment by a house doctor, costs for the hospital of maintaining the service are higher than that.

In the room there must be two nurses, two aides, an orderly, a doctor and a secretary. Additional people must be paid to process the records of each case.

Sister Clare Agnes, emergency room supervisor of Bon Secours Hospital, added several more factors to the rise of use of emergency rooms.

Emergencies "Rare"
At Bon Secours the situation is so severe that "real emergency cases are kind of rare," she observed. Business in the emergency ward picks up "on Sundays after church" or after the dinner hour as people come in for treatment of sore throats, fevers, or falls they suffered hours or even days earlier.

Some of the weekend traffic is understandable, because family physicians are harder to contact then.

Burglar Visits Home in Farms

A brazen burglar entered the home of Robert J. Voigt, 478 McKinley avenue, sometime between 10 a.m. and 5 p.m. Aug. 9. He escaped with \$35 in cash, a \$100 watch, a transistor radio and a coin collection valued at \$120.

Farms police reported that entry is believed to have been made through an unlocked garage door and attached breezeway and side door. A hand through the milk chute apparently unlocked the door, police said.

The articles were taken from two upstairs bedrooms. The coins were from a Voigt son's collection, and included pennies, nickels, dimes, quarters, half dollars and silver dollars, valued at \$100.

A separate collection of 10 Indian head pennies, valued at \$20, was taken from a metal box in a dresser. The \$35 in cash were taken from a tin box in the boy's closet.

Pointe Given High Rating For Its Business Vitality

On the strength of its economic progress in the past year, Grosse Pointe is given a high rating for business vitality by Sales Management.

This vitality expressed itself in the form of bigger-than-average earnings locally, greater consumer spending and more rapid growth.

The details are revealed in SM's current "Survey of Buying Power," a copyright market study that is issued once a year. It presents comparable figures on earnings, retail sales and the like for every area of the country.

Residents of Grosse Pointe, it shows, had a net income last year, after payment of their personal taxes of \$34,168,000, a gain over the previous year's \$32,880,000.

What this averaged out to on a per family basis was arrived at by dividing the income by the number of local households. It came to \$15,531 per household.

This was more than was available to people in most parts of the United States after providing for their taxes. The average was \$7,130 per household. In the State of Michigan it was \$7,696.

The increased purchasing power proved to be a boon for Grosse Pointe's retail merchants. Local residents, with more cash in their pockets and with few clouds on their economic horizon, gave free rein to their spending for goods and services.

As a result, retail sales in the year amounted to \$38,260,000, an increase over the 1962 figure of \$36,498,000.

The fact that expenditures were greater than earnings indicate that some of the local shopping is done by non-residents.

Most people throughout the country have been able to better their financial position during the past two or three years, thanks to one of the most sustained booms in American history.

The reports show more people at work than ever before. They also show, however, no significant change in the number of unemployed.

The relative standing of one community to another, with respect to market strength and potential, is given in the survey through a "quality of market" index. This takes into account local income, population, volume of spending and rate of growth.

The index rating for Grosse Pointe is given as 269, or 169 percent higher than the national average.

Senior Men To Convene

Reverend Robert D. Richards will talk on "My Debt to America" at the next meeting of the Senior Men's Club of Grosse Pointe, on Tuesday, August 25, at the Grosse Pointe War Memorial Center.

Born in Rhoslanerchrugog, North Wales, Reverend Richards, eldest of nine children, was a coal miner until he emigrated to the United States. He served with the British Armed Forces in the First World War.

He was educated at the Detroit Institute of Technology and Albion College, and retired after 35 years with the Methodist Church.

For the past 20 years, Reverend Richards has been the principal speaker at the Michigan Boys State, held annually at Michigan State University. He spends most of his time speaking before various groups throughout the country.

The Senior Men will gather at the War Memorial for lunch, prior to Reverend Richards' talk.

Life is a game of chance, and many feel that the cards have been stacked against them.

Park May Try Screening Debris-Filled Lake Water

(Continued from Page 1)

The problem is a complex one. As Lake St. Clair bottlenecks for the Detroit river intake, currents are such that debris tossed from shore or boats all over the lake ends up in the vicinity of the Park's lakefront park.

Freighters Churn By
In addition, lake freighters come within a mere 700 feet of the swimming area, churning up mud and mire as they pass. Of course, the problem has been around for a long time, and most of the Park's facilities are protected from debris.

First, a concrete wall was built and a chlorination pump made lake water inside the swimming cove a bit safer. Pumps were added so that the level inside the cove would not be affected by low water levels in the lake from year to year. Screens over these pumps kept all large debris out of the cove.

Finally, in 1958, a concrete bottom was added at a cost of over \$50,000, and the "cove"

began to look more and more like a swimming pool.

Cost Will Tell

However, many people still like to swim in the lake, chiefly because it is the only area that permits deep diving. The present efforts are aimed at clearing up only the lake swimming area.

The next two steps in the solution will be the study of estimates of costs of screening the area, and appropriate action by the city council.

Free lessons in weaving on hand looms will be given in the Home Arts Building at the Michigan State Fair which opens Friday, Aug. 28, through Labor Day, Sept. 7.

Park to Buy Civic Center Lot

(Continued from Page 1)

the Professional Building in Jefferson, abutting the lot.

The acquisition of the lot makes four that will be owned by the city. Three other lots, tied up in court litigation, are needed for the full development of the proposed civic center, which is part of the Windmill Pointe Subdivision.

The executive committee of the subdivision recently met with the Park Plan Commission, and approved a detailed outline on the development of the lots, as a whole, and on a "piece-meal" basis. The "piece-meal" plan will apply, if the city cannot acquire the other three lots. The city hopes to develop the civic center into a park and parking lots.

Holding up the acquisition of the needed three lots are the McBrearty family and the Brand-

dau family, both of Detroit, who sought to break the residential zoning restrictions on their properties and have them zoned for commercial use.

The McBreartys own two lots between Lakepointe and Beaconsfield and the Brandaus own a lot at Pemberton and Jefferson.

The McBreartys filed suit in Wayne County Circuit Court to force the Park to issue them a

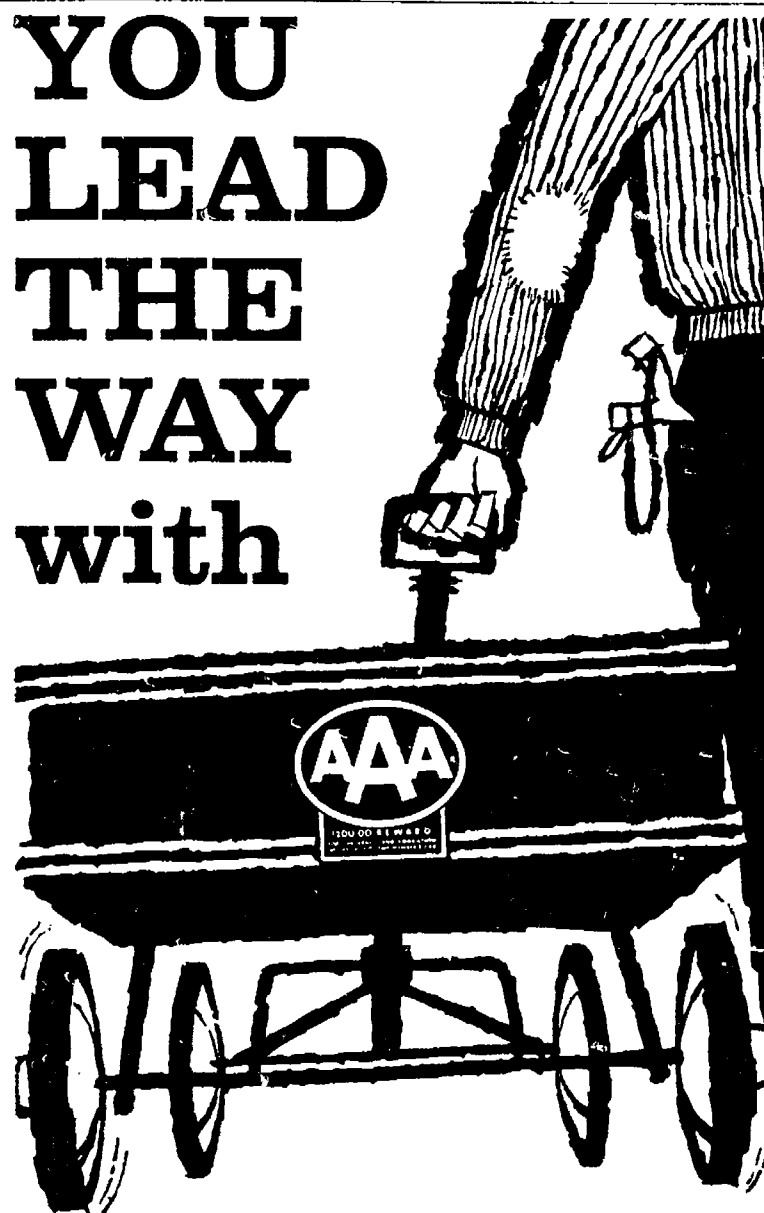

permit to construct a gas station on their lots, but lost the case last March 7. They are appealing to the Michigan Supreme Court.

The Brandaus are awaiting the outcome of the appeal before deciding what to do with their lot.

Senior citizens will have a big day Wednesday, Sept. 2, Old Timers Day at the Michigan State Fair will have special contests, shows and conveniences, with free admission for senior citizens until 3 p.m. The fair opens Friday, Aug. 28, and runs through Sept. 7.

Details of Proposed Code Given to Park Residents

The term itself is a bit sticky and scary: Reciprocal Refrigeration Code.

What it means and whether or not it's a good idea, has been under the study of the Park Council, which has expressed its tentative approval to such a plan.

Within a month, the so-called "Refrigeration Code" may be put into law in the Park. And it is already in effect in the Shores, and many communities bordering on the Pointe.

For those Park residents who have expressed confusion—or utter ignorance—of what the new plan means, Park city manager Robert A. Slone has answered some questions.

He explained last week that the ordinance establishing refrigeration equipment is similar to the successful heating and electrical ordinances.

Protects Resident

It sets forth not only the code for installation but also the procedures for licensing contractors.

When a contractor is licensed in one of the cities having the 'code' in force, he may do work in other communities under the plan. At present, there are 22 such cities in the area.

The property owner would be protected in that he would have the assurance that the contractor doing refrigeration work in his home or place of business would be qualified, Slone pointed out.

The ordinance would provide uniform technical procedures for air conditioning and refrigeration installing, or provide technical regulations to assist the home owner in installing his own equipment, providing he has the ability to do so, Slone added.

Under the code, all refrigeration equipment must meet the requirements of the American Standard Safety Code for Mechanical Refrigeration.

The Reciprocal Council furnishes technical advice to the city inspector and also has schools that are operated periodically keeping the inspector up to date.

Creates Uniformity

The code would not apply to single or two-family residence systems containing 10 pounds or less of refrigerant or running on a motor of one horsepower or less, Slone remarked. Also not covered in the regulations are all portable units.

In short, the code regulates uniformity of installations throughout the area.

Under the reciprocal licensing plan, only one license is required of the contractor to work in all the areas covered by the code.

Since the contractor does not have to be re-examined in each community, this is a time saver to him and reduces delay to the home owner.

The question was raised about the present Building Code. Does it not have some control over refrigeration equipment?

Slone replied that the building code does not provide for the examination, licensing or registration of contractors. It also does not provide detailed restrictions such as are in the proposed code.

The present code DOES provide some controls for the installation of equipment, however, it in no way assures the home owner that the contractor that he is employing is a qualified licensed contractor.

Such assurance is a part of the electrical, heating and plumbing licensing codes, Slone said.

In a recent survey made by

the Park of 13 cities under the code, all said they were in accordance with it and felt that their communities had benefited under it.

Only one other Pointe city, the Shores, is now under the Refrigeration Code. The Park's plans of adopting the code have been delayed, because Slone and the Park's attorneys are investigating with the Council the possibilities of the Park's joining the Council while still injecting some qualifications into their own local code.

The qualifications they seek would exempt small, easily installed refrigeration and air conditioning units from the code's jurisdiction.

How to add to your living space without adding an inch to your home.

Simply install a Gas baseboard heater. And suddenly that enclosed porch, breezeway, playroom or add-on room—any room that was too chilly for comfort before—becomes a real family room. Economically.

Gas heats add-on rooms for about 1/4 the operating cost of any other type of baseboard heat. So every \$25 you spend for Gas baseboard heat represents savings of up to \$75 compared to the operating cost of other baseboard heaters. Savings like that really add up. And, of course, when you heat with Gas, you get super-comfort . . . without super-insulation.

So don't shut off that hard-to-heat area. Heat it easily—and economically—with Gas. To find out how to make your home grow—without stretching your budget—call 965-8000, Ext. 3375. Today. LIVE MODERN . . . FOR LESS . . . WITH GAS

MICHIGAN CONSOLIDATED GAS COMPANY

FHA Observing 30th Birthday

The Detroit insuring office of the Federal Housing Administration, on August 14 will mark its 30th anniversary of service to prospective home owners in 26 Southeastern Michigan counties.

Civic and business leaders, most of whom have participated in these vast programs for better housing during three decades, have been invited to the open house at FHA headquarters in the Book Building, Detroit, starting at noon.

Hosting the affair will be Dwight K. Hamborsky, the director, and his staff. A number of FHA officials from Washington are expected to join representatives of other Government agencies in the Detroit celebration.

Among the guests of honor will be Raymond M. Foley of Grosse Pointe, the Detroiters who put the FHA show on the road 30 years ago shortly after the housing agency was created by act of Congress.

Hundreds are expected to visit the FHA during the afternoon and evening, among them builders, financial leaders of the city and state and others who have worked with FHA and helped make the Detroit insuring office second largest in the nation, and at the same time done much to bring Michigan the distinction of being the country's leader in home ownership.

Key people supervising the activities of the FHA insuring office in Detroit and the service office in Flint include Victor C. Adler, chief, property acquisition and disposition section.

Although he joined the local staff in his present capacity in March, 1963, Adler was affiliated with the office back in 1935, when it was only a year old. He served a number of years as chief of the architectural section and subsequently with the parent agency (Housing and Home Finance Agency) in Washington. Interspersed were affiliations with various building and development companies.

Mr. and Mrs. Adler (Marie) are residents of 1938 Severn road.

INJURED IN HOME

Mrs. Jean Germack of 1160 Berkshire, fell from a chair in the kitchen of her home on Friday, August 7, and injured her back. She was conveyed to Bon Secours Hospital by Park police ambulance, treated and released.

Open Letter to Durant Issued by Jack Matheus

Jack Matheus, Chairman of Republican Citizens — 14th District, has issued the attached open letter to Richard Durant.

August, 1964

As we enter the final month before the 1964 primary election, it seems only proper that we pause for a moment to take a look again at where Republican Citizens — 14th District has been these past two years, where we are now, and where we hope to go. There seems to be doubt in the minds of you and some in your organization as to our purposes.

Two years ago many of us who now comprise Republican Citizens — 14th District were engaged in a tremendous effort to elect a Republican governor for the first time in 14 years. Following George Romney's election in November of 1962, the Republican Committee of 109+ and the Romney Volunteers began planning a merger which was realized early in 1963 under the name of Republican Citizens — 14th District. Those volunteers who joined in the merger shared the conviction that the Republican leadership in the 14th District, namely Richard Durant, should be replaced by one who more nearly represents the thinking of the majority of Republicans in the district.

Since the merger in 1963, our organization has worked diligently to recruit candidates for precinct delegate whose intentions are to be elected in the primary and then proceed to the district convention in sufficient numbers to elect more responsive leadership. Under this new leadership, these delegates will work just as hard to elect a total Republican ticket in November.

We have again and again stressed why all of this is necessary. No dedicated Republican relishes an "in-party squabble" of this kind; however, the continuation of your present leadership is far too great a price to pay just for the sake of party unity on your terms, Mr. Durant.

We cannot and will not support leadership which (1) saw fit to malign the Eisenhower administration, (2) failed to give Paul Bagwell support in two gubernatorial campaigns, (3) openly worked against the calling of the Constitutional Convention and the vote for the New Constitution, (4) openly

and vigorously opposed a redistricting plan which would have given the 14th a fighting chance for a Republican congressman, (5) sued Governor Romney for a million dollars and sought to embarrass him in other ways, and (6) failed to elect a Republican lawmaker from this district in eight years except one man — Representative Robert Waldron, who is also now our Wayne County Chairman and who has long since left your fold because of your political tactics.

These and many other long-standing objections to your leadership are not figments of our imagination. They are a matter of public record. Your claim against us of mud-slinging is an old worn-out tactic used by those who can't defend their actions in any other way than to slander those who would dare expose them.

Let's set the record straight once and for all, Mr. Durant. We're not fighting all Republicans — just you and those like you. As Republicans ourselves and citizens in a free country, we have a right to criticize those who choose to hold political office, and that includes you as long as you don't fill your position the way we think it should be filled. Any charges made against you these past two years are fully documented and if these facts have hurt you in any way, we can only reply that they are your deeds, not ours.

We have recruited a nearly full field of precinct delegate candidates (271 to your 241). We are very proud of this. Our job is to help elect those who have joined us in our common cause, and we shall continue to do so in these next few weeks despite your efforts to confuse them. Frenzied claims of foul play or veiled threats of legal action aren't about to deter a group of sincerely dedicated Republicans in their efforts to

Club Hears Talk On Auto Paints

Tests have proved that moisture deteriorates automobile finishes faster than sunshine, Ralph J. Wirshing, a club member, and for 41 years a member of the General Motors organization, told the Senior Men's Club at the July 14 meeting.

"If you have a garage by all means keep your car there over night rather than outside," he declared. "Car finishes, although only 4/1000's inch thick, are exceedingly important to the manufacturer and dealer. They are the first thing customers always see. If they don't like yours, they go elsewhere. The car manufacturers use 50 million gallons of paint materials annually."

"No relatively inexpensive material has yet been found to supplant the salt used on northern streets and highways during bad weather in winter. But all considerable progress in recent

return the party to the majority of Republicans in this district. The voters in this district have a right to hear the facts, and they will continue to hear them from us.

Very truly yours,
Jack Matheus, Chairman

Boy Scouts Take Band to Jamboree

Lakeshore District of the Boy Scouts sent a band along with their "JAMBO" Troop 55 to the 6th National Scout Jamboree at Valley Forge. All 50 states and over 40 countries are represented in the program and number well over 52,000 boys and leaders. Scouts in a Jamboree Troop come from many individual troops. Shown above with their local troop numbers are left to right: DOUGLAS BROWN (TRP 479); BYRON STUCK (TRP 74); DON MOORE (TRP 156); GLEN ROBINSON (TRP 175); ROBERT COCHELL (TRP 34); BRUCE KEFGEN (TRP 479); ART KING (TRP 479); STEPHEN McNEW (TRP 479); RUSS BOLTZ (TRP 156); and the leader PAUL KING (TRP 479).

Scouts Return From Jamboree

Grosse Pointe Boy Scout Troop 55 has returned from the 1964 National Jamboree held at Valley Forge from July 17 to 23. On the return trip the scouts visited sights in and around Washington, D.C. Among them were a boat trip to Mt. Vernon, the statue of the Marines raising the flag on Iwo Jima, the Capitol Building, the White House, Blair House, and several others.

One of the highlights of the visit to the capital was a trip to Arlington Cemetery and President John F. Kennedy's grave.

Paperback Books Needed

Do you have paperback books you have read—and that are now taking up room in your home?

If so, Sheriff Peter L. Buback wants them for the Wayne County Jail Library.

This branch of the Wayne County Library is suffering from a book shortage, and with insufficient funds to cure it. This shortage means that the County Jail's prisoners—averaging over 800—are prevented in substantial degree from indulging in their favorite entertainment—reading.

"William Burns, the Wayne County's Library Aide at the Jail, tells me that the prisoners, like most readers, go for fiction first," said Sheriff Buback. "Not too ironically, perhaps, detective stories are top favorites. But they also read biographies, science, history, religious books—in fact, books in virtually every category."

Most of the prisoners, according to the Sheriff, have more than mere divertissement as a reason for devotion to reading. About 85 percent of them are awaiting trial for various felonies, including murder, breaking and entering, robbery armed, and other serious sins against society. They want to get their minds off their troubles, if only for an hour or so.

To make it easy for book contributors, Sheriff Buback suggests that in driving to the County Jail at Beaubien and Clinton, they use the Jail's parking lot. It is at the rear of the Jail and is approached from Gratiot Avenue.

To any contributor bringing in books between 11 a.m. and

3 p.m., the Sheriff promises a Jail tour, if desired. This, he points out, is interesting from both the human and the technological angle. For the Wayne County Jail is one of the most scientifically guarded, high-security jails in the United States.

"Please make clear," Sheriff Buback requested, "that we can accept only paperback books. Hard-cover books can be dangerous. Prisoners have been known to convert hard-cover books into weapons. They can do this by tearing off the covers, soaking them in water, twisting several book covers together, letting them harden, and thus producing a hard effective club. So—it's paperbacks only!"

Paperbacks can also be mailed. The rate—which applies only to books mailed to libraries, is stated by Detroit Post Office authorities to be 4 cents for the first pound, and 1 cent for each additional pound or fraction.

Books when mailed should be addressed to: "Branch of Wayne County Public Library, County Jail, Beaubien and Clinton Streets, Detroit Michigan, 48226. Attention: Mr. William Burns, Wayne County Public Library Aide."

Possession may be nine points in the law, but self-possession has no equal.

OIL

The United States government will put up at public drawing in Santa Fe, New Mexico, the third Monday of each month, millions of acres of oil and gas leases in Texas, New Mexico and Oklahoma for sale to the public at 50 cents per acre. Many of these leases are valued by the major oil companies and other interested buyers at many hundreds of dollars per acre. But, under Federal rules and regulations you have the same EQUAL chance to draw one of these valuable leases as the largest oil company in the nation. Write for how you may obtain service in filing for leases, Federal termination lease lists, advance postings and monthly winners lists. This is not a drilling venture.

14th District Republicans Hear Report on Resolutions

The Resolutions Committee of the 14th District Republican Organization has submitted its report, listing the principles it supports, and its position in local, national and state affairs. The report, over the signature of Janey M. Kendall, follows:

Republican Principles

We reaffirm our faith in and adherence to the Republican Principles enunciated by Fourteenth District Republican Conventions on many occasions and last restated at our convention on August 15, 1962; namely:

1. The function of government is to govern, and to provide only those essential services which otherwise would be unobtainable.

2. The best government is that which governs least and is the closest to the people.

3. The federal government should perform only those governmental functions which cannot be performed by the states; state governments should perform only those governmental functions which cannot be performed by local units; all governments should perform only those functions which cannot be performed by the people themselves.

4. Government should not impede, subsidize, nor compete with the legitimate activities of the people.

5. Governmental regulation of the lives of people should be confined to the minimum essential to the preservation of security in person and property and equality before the law.

6. Government should restore and preserve to the people the maximum degree of individual freedom and enterprise.

7. Government should encourage the maximum degree of private discharge of duties which have been assumed by government but which are not necessarily governmental in character.

8. The costs of government should be assessed wherever practicable in proportion to benefits conferred.

9. Party principles should never be sacrificed for the sake of winning an election.

10. Every political candidate, every governmental action, every legislative proposal and every political pronouncement should be tested against the foregoing principles and denied support if in conflict therewith. Under and pursuant to such principles, we adopt the following statements with respect to particular issues.

Local Affairs

1. We oppose the treatment of water supply with fluorides or any other chemicals except those necessary for purification.

2. We congratulate the Port of Detroit on the rapid and continuing development of harbor facilities entirely by private capital.

3. Both for economy and to improve educational opportunities, we urge incentives for maximum use of private schools.

4. We urge enactment of legislation to furnish standards which must be complied with in the imposition of any local non-property taxes.

5. If for any reason there shall not be a Precinct Delegate in any precinct, the District Committee shall fill the vacancy by letter of appointment to any qualified person, and

6. We urge the Legislature to clarify the distinction between state-established religion and freedom of religious exercise.

7. We support Governor Romney and the Legislature to continue to build Michigan with its own resources without seeking help from federal funds.

8. We exhort the Legislature to implement as rapidly as possible those portions of the Constitution of 1963, especially by reorganization of the court structure and administrative offices.

9. We urge overhaul of the state's tax laws, with emphasis upon removing the present discrimination against corporations and against business in order to encourage expansion of Michigan industry and increase employment opportunities.

10. We urge that the current surplus of revenues over budgeted expenditures, after elimination of the accumulated deficit, be applied entirely to the reduction of taxes, with no further increases in expenditures.

11. We urge enactment of the Political Freedom Bill forbidding employers and unions to compel political contributions as a condition of employment.

12. We commend the Legislature for its current efforts to clarify the Workmen's Compensation Law and to restore it to its purpose of providing just compensation for injuries suffered in occupational accidents.

13. We support Governor Romney and the Legislature to continue to build Michigan with its own resources without seeking help from federal funds.

14. We exhort the Legislature to implement as rapidly as possible those portions of the Constitution of 1963, especially by reorganization of the court structure and administrative offices.

15. We urge overhaul of the state's tax laws, with emphasis upon removing the present discrimination against corporations and against business in order to encourage expansion of Michigan industry and increase employment opportunities.

16. We urge that the current surplus of revenues over budgeted expenditures, after elimination of the accumulated deficit, be applied entirely to the reduction of taxes, with no further increases in expenditures.

17. We urge enactment of the Political Freedom Bill forbidding employers and unions to compel political contributions as a condition of employment.

National Affairs

1. We urge an immediate reduction in foreign aid and its early complete elimination to correct the balance of payment problem which it has created and to permit tax reduction.

2. We urge the disposal of all government-owned businesses to private business, the proceeds to be applied to the national debt.

3. We urge encouragement of privately insured health plans and oppose any form of socialized medicine.

4. We urge that the government confine its activity in foreign trade to its only legitimate role of providing protection against confiscation, and we oppose all so-called "incentives" and penalties applied to control or influence foreign trade.

5. We urge the gradual removal of price supports and elimination of existing restrictions on agriculture and oppose any further restrictions.

6. We oppose any form of federal aid to education. This does not preclude the employment of state and private educational facilities to perform services for the federal government nor reimbursement to facilities that are burdened as the result of government installations or activities.

7. We deplore the ineptitude of the government and in particular of the State Department in opposing foreign governments friendly to the United States and aiding foreign governments and usurpers friendly to international communism.

8. We urge firm insistence upon respect for treaty obligations, including the Panama Canal Treaty.

9. We adhere to the principles of the Monroe Doctrine and urge their uncompromising application to any situation which invokes them.

10. We favor freedom of labor and employers to bargain collectively without governmental coercion.

11. We urge fiscal policies to encourage price and economic stability which will provide a solid foundation for progress and growth, and the best and only sound solution to problems of unemployment and poverty.

12. We urge adoption of a constitutional amendment to clarify the distinction between state-established religion and freedom of religious exercise.

STATE AFFAIRS

1. We urge Governor Romney and the Legislature to continue to build Michigan with its own resources without seeking help from federal funds.

2. We exhort the Legislature to implement as rapidly as possible those portions of the Constitution of 1963, especially by reorganization of the court structure and administrative offices.

3. We urge overhaul of the state's tax laws, with emphasis upon removing the present discrimination against corporations and against business in order to encourage expansion of Michigan industry and increase employment opportunities.

Tuition Rates Set by Board

At Monday evening's meeting officers and trustees of the Grosse Pointe Board of Education set the non-resident tuition rates for the 1964-65 school year at \$450 for elementary students and \$500 for secondary students. The rates are based on a formula supplied by state school officials.

Dr. Charles H. Wilson, Superintendent of Schools, said that the number of boys and girls concerned last year was the lowest in 17 years. There were 16 non-resident tuition students in the entire school district at the end of 1963-64. There will definitely be even fewer in 1964-65 year, he concluded.

The superintendent indicated that many of these were young people whose families had moved from Grosse Pointe after the school year was well along. Others were former residents and a few were people living in close proximity to the district. Each of those accepted had a strong school record.

While the system received 16 non-residents, it sent 15 Grosse Pointe students to other area schools for special training at a variety of schools.

Gerald E. McCarron Given Commission

Gerald E. McCarron, 22, son of Mr. and Mrs. Charles P. McCarron, 311 Kerby road, received a commission as an Army second lieutenant at Fort Riley, Kan., on July 31.

Lieutenant McCarron received the commission in the corps of engineers upon completion of six weeks of advanced Reserve Officer Training Corps summer camp training.

A member of Pi Tau Sigma and Rho Iota Eta fraternities, he was graduated from Austin Catholic High School in Detroit in 1959 and from the University of Detroit this year.

McCarron's program of half-way houses.

8. We recommend that delegates from our District to the State Convention continue to vote as individuals and not use the Unit Rule.

9. We urge amendment of the Teacher Tenure Law to recognize the right of each school district to make its own decisions with respect to tenure.

Bombard Cyclist With Big Melon

Watermelons are a great treat during the hot, humid weather but evidently not so when temperatures cool off a bit.

Recently young wise guys have found a new use for them: as great things to throw at people.

William Byron, 13, of 251 Hamilton court was riding his bicycle west on Ridge road Tuesday night, August 4, when an occupant of a passing car heaved a watermelon at him, striking his right leg. The boy was knocked off his bike, injuring his right leg and wrist.

William was taken to Cottage Hospital in a Farms ambulance where his leg and wrist were

X-rayed. No broken bones or abrasions were reported.

Watermelon remains were left splattered in the street.

Park Employs Two Patrolmen

Two replacements have been
hired by the Park Police De-
partment, to fill vacancies re-
sulting from the resignation of
police officers who left to find
employment elsewhere.

Ronald Peplowski, 21, of
18428 Gable, Detroit, and
Richard Warren, 25, of 501
Lakepointe, were sworn in as
fourth class probationary pa-
trolmen on Saturday, August 8,
according to information re-
leased by Chief Arthur Lou-
wers.

The recruits replace John
Carroll, who resigned to go to
work with the Advertising De-
partment of the Detroit Free
Press; and Paul Rook, who left
to become a patrolman with the
Pontiac Police Department.

Peplowski recently received
an honorable discharge from
the United States Navy. He is
a native of Hamtramck and is
a graduate of the Hamtramck
High School.

He is married to the former
Judith Ann DeMario of De-
troit, and is the father of a two-
month-old girl.

Warren, who was honorably
discharged from the United
States Army in August 1963, is
a native of Chicago, Ill., and
is a graduate of the American
High School in that city.

He is married to the former
Jessica Louise Mayer of Los
Angeles. They have a five-
month-old son.

Crash Produces Three Tickets

Three violations were issued
as a result of a two car colli-
sion on Tuesday, August 4. The
accident occurred on Kerby
road.

William Archie Boyd, of De-
troit, was issued a violation for
not having his car under con-
trol. His car hit one driven by
a 17-year-old Park girl, from
the rear.

The girl, Christine Munk-
holm, of Whittier road, told
police that she had stopped on
Kerby road because of a parked
car in front of her, a bicycle
rider next to the car, and on-
coming traffic when Mr. Boyd
rammed into her car.

Mr. Boyd informed police
officers that Miss Munkholm
had not signalled a stop. She
was cited by police for failure
to signal to stop and for driv-
ing without her driver's license
on her person.

Mr. Boyd, who received a
bump on the head in the course
of the accident, refused to go
to the hospital for treatment.

University of Michigan Club Will Hold Annual Freshman Sendoff

The University of Michigan
Club of Grosse Pointe will hold
its annual Freshman Sendoff
program for all those entering
the University this fall. It will
be held at the Grosse Pointe
War Memorial Center, 32 Lake-
shore, on Wednesday evening
August 19 at 8:00 p.m.

The program is planned to
give freshmen an insight into
what they can expect of the
University and what the Uni-
versity will expect of them.

There will be a film entitled
"Michigan Rhapsody" and a
panel of students and recent
graduates to answer questions.
There will be informal discus-
sion groups and time to social-
ize over refreshments.

All Grosse Pointe area stu-
dents planning to attend the
University are invited.

57-Day-Old Strike Ended Against Consolidated Gas

The 57-day-old strike of about
2,000 Michigan Consolidated Gas
Company employees was ended
when members of Local 80,
BSEIU, voted to accept a settle-
ment agreed upon by union and
company negotiators.

Nine strikers, fired after they
were arrested and charged with
acts of sabotage, will not re-
turn to employment at Michi-
gan Consolidated. They were to
send letters of resignation to
the company.

A new three-year contract
was to be signed, embodying
wage and fringe benefits valued
at 37.27 cents an hour. The
"package" calls for an imme-
diate increase of 14.5 cents an
hour, an additional 10 cents an
hour general increase at the
beginning of the second year,
and 12 cents in the third year.
In addition, improvements in
the employee retirement plan are
valued at .77 cents an hour.

This economic settlement was
reached by company and union
negotiators some weeks ago but
a deadlock continued over the
future of the nine accused
strikers, who are facing crim-
inal charges.

The union demanded that the
company drop prosecution of
the men and either reinstate
them in their jobs or arbitrate
the charges. The company re-
fused.

A company spokesman said:
"Whether the charges against
these nine men will be dropped
or reduced is a decision for
the prosecutor. The union has
informed us they will make a
renewed effort to obtain dis-
missal of the charges. We have
told them that if they do so, the
company will not put any ob-
stacles in their way. The com-
pany is not seeking vengeance,
but only to resume the good
relations it has enjoyed with its
employees prior to this strike."

The company spokesman said
it would take about 24 hours to
return all strikers to their
jobs and relieve the supervisory
and to her non-union employees
who have been maintaining
service during the strike.

The walkout, which affected
a little more than half the
company's employees in the De-
troit and Ann Arbor areas, be-
gan on June 6, when the union
rejected an offer valued at
23.17 cents an hour in a two-
year agreement.

The following statement was
issued by Ralph T. McElvenny,
President of Michigan Consoli-
dated Gas Company.

"We are happy that the period
of economic hardship suffered

by some 2,000 of our employes
who were on strike, is over. We
welcome our employes back to
their jobs without rancor or
bitterness. This was our first
strike in 112 years and we hope
the experience will not be re-
peated.

"We respect and value our
employees, despite this unfortu-
nate incident, and we want to
resume our relationship of mu-
tual good will as quickly as
possible. There will be no re-
primandings or reprisals on the
part of the Company.

"We seek only to continue,
with the loyal help of all our
employees, the high standards
of utility service we have main-
tained in the past.

"The wage settlement reached
by Company and Union negoti-
ators is a good settlement, fair
to all three interests involved
— to the Company, to our em-
ployees, and to our 900,000 cus-
tomers, whose rates are based
upon our costs of service."

Licenses Taken From Pointers

Two Grosse Pointe residents,
William Milford Reeves, of 360
McMillan road, and Edward
Henry Smith, of 16555 E. Jef-
ferson avenue, lost their li-
censes last month because of
undesirable driving records.

Mr. Reeves lost his for the
month of July and part of Aug-
ust while Mr. Smith lost his
for only 10 days during July.

Over 670 Michigan motorists
found themselves with the same
problem the same week while
nine others had their licenses
revoked.

Buback Gives New Image to Sheriff's Office

There's a bright, new look to the
Wayne County Sheriff's Office.

Architect of the new look is Sheriff
Peter L. Buback. Under him, this
Department of County Government
has taken on entirely new dimensions.
For years recognized as one of the
top administrators in County Govern-
ment, Sheriff Buback has made his
Department remarkably effective in
law enforcement. Other sheriffs re-
gard it as a model.

Among the "new look" measures in-

augurated by Sheriff Buback is a cen-
tral, scientific Identification Bureau.
This constantly assists a high-
efficiency network of 47 Police Depart-
ments. Sheriff Buback also cooperates
with the Juvenile Court to deter crime.
His new Youth Bureau arranges
scores of teen-age youth tours of the
County Jail. These are powerful object
lessons that crime does not pay.
We ask you to join us in supporting
Peter L. Buback at the polls, Tuesday,
Sept. 1. A public servant of his caliber
should be retained.

Governor Romney Issues Good Financial Report

One of the happiest and most satisfying reports I have been able to issue in the 18 months I have been Governor is Michigan's financial statement as of the end of the fiscal year on June 30, 1964.

After closing the books on the year's activities, I was able to report this good news:

Michigan ended the fiscal year with an actual surplus of \$48.8 million.

This means that in two years time, Michigan has gone from \$105 million in debt to almost \$50 million in the bank.

Two years ago, Michigan had a general fund deficit of \$85.6 million. This was well known.

But we also had a hidden, unpublicized obligation that had to be paid. This was about \$20 million that we owed to suppliers of liquor for our state-

monopoly state-operated liquor business. Back in 1959, with payless paydays staring Michigan in the face, our public officials were looking everywhere for methods to pick up a few dollars to make ends meet as long as possible. One method they found was to delay payment for liquor suppliers already received. This delayed payment provided millions of dollars in cash for immediate needs.

So instead of a pay-in-30-days system, which is the usual system for paying for state purchases, the liquor suppliers were told they had to wait 90 days or even 120 days for payment for liquor supplies already purchased by the state and distributed through our state warehouses and retail liquor outlets. The liquor suppliers had no choice; the state just didn't pay its bills on time. This was an obligation of the state, just as much as paying for food for hospital patients, or gasoline for cars, or anything else the state buys. But the liquor suppliers were told to wait.

Well, today, these payments to liquor dealers have been brought up to the normal 30-day period.

So, in addition to completely wiping out the well-known \$85.6 million deficit, Michigan also has paid up a continuing and unpublicized \$20 million obligation liquor suppliers.

And in addition, we have built up an actual \$48.8 million cash surplus.

That's what I call financial progress of the highest order. In the meantime, of course, Michigan has not lagged in taking care of legitimate needs of people. Our budget for the current fiscal year provides needed increases for higher patient loads in hospitals, higher student loads, increases in cost of living, and in selected additional programs.

The primary reason our state treasury looks so healthy, of course, is the fact that Michigan's economy is booming. Our sales tax collections are higher than ever, and the yield of our other revenue sources is high.

More people are working than was the case a year ago, and when people work, they spend money and they pay taxes. Thus our healthy economy makes itself felt in how much money is on hand to run state government.

But that's not the whole story. With more people working, fewer people need welfare

assistance. Thus a booming economy reduces our welfare costs at all levels of government, and this is the case this year.

But of special significance is the care with which state government is being operated.

This administration has conducted a continuous but undramatic program of spending reform. We have watched carefully how every penny is spent, and have searched diligently for new and better ways of doing things. During the fiscal year just closed, and estimated \$6 million was turned back to the general fund from various state agencies, largely due to our intensive efforts to provide public services more effectively and with the least cost possible. This is the kind of fiscal integrity that is welcome news to taxpayers.

Oldest Building Stands Deserted

Detroit's oldest public building stands deserted and forlorn at the northwest corner of Griswold and Larned streets, a tiny grimy four-story fortress symbolical of a dead past, contrasting sharply with the beautiful new Michigan Consolidated Gas Company structure and dwarfed by towering office buildings.

The ancient edifice has long served as the headquarters for the Michigan Customs collection district. According to Louis A. Mezzano, Collector of Customs.

No tears were shed by the 95 federal government employees removed this week from the one hundred and four year old Customhouse to new, air conditioned quarters on the third, fourth and fifth floors of the Marquette Building which is a mere sixty-four years old. Moved in addition to the Collector's force were the personnel of the Appraiser of Merchandise, the Customs Agency Service, which is the Customs investigative branch and the Plant Quarantine Division, Department of Agriculture.

They had occupied a building regarded as hopelessly obsolete even during the New Deal of the nineteen thirties. Plans of the Federal Works Agency to demolish the structure were dropped in 1940, although President Franklin Roosevelt vetoed a bill passed by Congress to preserve it.

When constructed in 1860 as the first government-built post-office, it formed the hub of federal activity in Detroit, housing Customs and the Federal Courts as well as the post office. President Lincoln's proclamation of the opening of hostilities with the Southern States was announced from the wide steps which then extended from the front entrance on Griswold Street into a broad plaza. The

first Michigan volunteers mustered there. From those steps an anxious citizenry heard the reading of dispatches on the victories and defeats of the Civil War. The steps, front entrance and plaza have long since given way to progress on Griswold St.

When dedicated on January 30, 1860, the thick-walled limestone structure, with high ceilings and wide corridors was regarded as a model of beautiful efficiency although monstrously inadequate by today's standards. The big rooms, antedating central hearing, were warmed by fireplaces which often failed to raise the temperature of the feet of Federal judges to a satisfactory degree. The fireplaces have been sealed shut, but an ornate stairway of black cast iron still winds its way from the main floor lobby to the third floor, the original top story.

Still remaining in the building are some of the fanciest plumbing fixtures anywhere to be seen. They are genuine museum pieces. An even more pre-

cious antique is the elevator, which was installed over fifty years ago. It is of the open continental, or bird-cage type, operating on direct current rather than alternating kind which is in general use today.

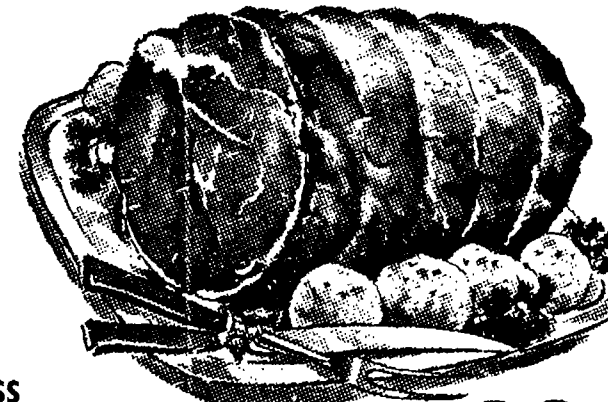

The land on which the old Customhouse stands, purchased by the government in 1854 for \$24,000.00, was sold at auction last June to the Michigan Bank for \$1,325,008.00. The purchaser, located across the street in the Guardian Building, plans to use the site as a parking lot. Prior to the sale a belated move was begun by sentimental Detroiters to preserve the historic structure as a shrine to the past, housing a tourist information center, a downtown historical museum, and a reception center for foreign visitors. This dream is improbable of accomplishment since the hammers of the demolitionists will soon be directed against those sturdy old stone walls.

Mezzano added that the Michigan collection district is the second largest in the country in terms of both amount of

revenue and number of transactions and that it operates at a cost of less than two per cent of collections, the lowest rate for any of the 10 largest Customs districts in the country, with collections for the fiscal year ended June 30, 1964, totaling over 129 millions of dollars. The collectors expect even greater operating efficiency in the new quarters.

**Campbell Residence Fire
Damage Placed at \$50,000**

First estimates of damage from a fire Monday evening in the Douglas Campbell residence at 5 Rathbone place range in the neighborhood of \$50,000, according to the City fire department.

The blaze, which is believed to have started in the pantry of the large lakeside home,

caused extensive damage from flames on the first floor, and smoke and heat damage throughout the house.

None of the Campbell family was in the house at the time of the fire.

First report of the blaze came to the City police from the gateman at the City park, who called at 5:29 p.m. City firemen responded with all units.

When they arrived, they found smoke and flames coming from the front and east wings. Two lines of hose were laid and put into service immediately, and two more later.

The second alarm was sent out to the Farms fire department at 5:33 p.m. A third alarm, to the Park, went out one minute later, at 5:34 p.m.

According to City fire department, the fire was well under control within 20 minutes.

The Campbell residence is a large old frame house, with a number of additions. The blaze spread quickly, and heaviest damage was reported to be in the pantry, kitchen, dining room and hallways.

City firemen said most of the first floor of the home was "in very, very bad condition" as a result of the blaze. Exact estimates of the damage were not to be made until Wednesday or Thursday.

**Senior Men Hold
Hobby Show**

Judging from member comments, the senior men's club's second Hobby Show was an unusual success, just as the first one was in 1963.

The myriad exhibits included such divergent objects as paintings, a hand made car, a vintage auto, stamp and coin collections, ceramics, woodworking, Joe Black and some of his well-loved violins, Joe Hickey's collection of venerable firearms and other weapons, antique vases, etc., etc.

Exhibitors included Paul Baldwin, Joe Black, Rudolph Blair, Carl Breer, Charlie Cooke, Walter Dailey, Carl Daniel, Elmore Frank, Ed Gehrig, Ed Gore, Ed Hahn, Joe Hickey, Art Hirt, Bill Kennedy, Si Klippel, Paul Kolvoord, Ernie Lang, Charlie Marks, Wayne McCarty, Clair Stuchell, Bill Waltsgott, Harry Whittingham, Art Neff, Elmer Ross, Ed Schutte, Sam Shenefield, Jess Shields, Fred Slocum, Jim Steep, and Hal Wiek.

Leo Gabel, scheduled to show some of his paintings, was in the hospital and unable to get them to the meeting.

As great an attention getter as any, despite the heat, was Carl Breer's hand-built steam automobile, which he finished when 17 years old. It was just outside the foyer doors. Another was Paul Baldwin's vintage Packard, parked just inside the main parking lot. As one viewer expressed it, "the tires are almost as high as the tops of present-day cars." Carl Breer worked until 1:30 a.m. the day of the Hobby Show to get his little used venerable car running.

The thanks of the club are due to these exhibitors for the time and effort necessary to prepare and transport them to the Fries Building, and to Ernie Graham and Bill Cook, notably, for their hard work in preparing for the show and the many hours spent in arranging the exhibits.

**Plan Program
For Retarded**

During the regular August meeting of the Grosse Pointe Board of Education, held Monday night in the Board Room of the schools' administrative offices at 389 St. Clair Avenue, the officers and trustees voted to participate in an area program for the trainable retarded.

Described as "broad and exciting," the program will operate under the auspices of the Wayne County Intermediate School District. Scheduled to open this fall in Pulaski Elementary School, it will be open to all children from age 4 to 21 who qualify.

Harper Woods, Highland Park, and Grosse Pointe are among the school districts invited to participate in the program that will offer such educational services to the handicapped children as swimming, arts and crafts, music, gym, and nursing.

In addition, it will provide impressive research opportunities in teacher training and in instructional programming deemed most profitable for the trainables. The University of Michigan is to be involved in the research project, said to be the only one of its kind in the nation.

Superintendent of Schools Charles H. Wilson has indicated that the comprehensive program is extremely well staffed, has the assurance of professional research, and will do more for the children of Grosse Pointe who need this kind of training than could be done for them locally.

**Lt. Theodore Vernier
Attends CG School**

Coast Guard Lieutenant (JG) Theodore L. Vernier, son of Mr. and Mrs. T. A. Vernier of 864 Rivard boulevard, recently graduated from Captain of the Port School at the Coast Guard Reserve Training Center, Yorktown, Va.

A reservist on two weeks active duty, he studied the duties of the officer in charge of protecting a port from sabotage and accidental damage in wartime. The curriculum included pier surveying, ship boarding and harbor patrol procedures, and use of radiation detection devices.

He has returned to his local reserve unit for regular training sessions.

Pointers To Head Canvass In Torch Drive

Robert Palenchar, Torch Drive vice chairman, Community Business, for the Eastern Wayne Unit, has announced the re-appointment of Edward Hickey III, to head the canvass of small businesses in Grosse Pointe.

Hickey of Hickey's Men's Wear, 17140 Kercheval, again will lead a group of business and professional men in soliciting the smaller business establishments and their employees in the Grosse Pointes.

The solicitation of business places is part of the Community Campaigns section of the Torch Drive. Mrs. Kenneth Koppin, 1271 S. Renaud, heads the residential solicitation as Grosse Pointe Region Chairman.

dential solicitation will be carried out between September 30 and October 30, to raise money for the 1965 budgets of 204 local, state, and national health and community services.

HERE, NEW IDEAS ARE BORN ANYTIME

Take that light in the window. How often will you find a pride of bankers working late, working out a new idea about how to make loans to people, for example? □ Look at it this way. Like other banks, The Commonwealth takes deposits and makes loans and does all the things you'd expect from a bank. □ So the best way for us to become more successful than other banks is to develop some very good ideas about doing all those banking jobs in a little better way. □ There's been a light in the window quite often lately.

Luffers and Lubbers

By Bob Wells

What a weekend for Crescent! In faraway San Diego, Calif., Crescent's Jerry Jenkins copped the NATIONAL Snipe Championship in competition with 100 of the best sailors in the country.

And a bit closer to home, Crescent ace Jim Kohls garnered first place (what else, where Crescent is concerned?) at the Higgins Lake Lightning Invitational last weekend.

And even closer to home than that, Ross Kogel, another Crescent perennial and resident of the Pointe, walked away with first place in the International Folkboat Regatta hosted by Crescent Sail Yacht Club (alias, the Crowned Princes of Sailing, alias, Kings of the Lake, etc., etc.).

A word about these impressive victories one at a time:— Jenkins performed his winning stunt sailing in a Snipe he bought in California and had,

of course, never laid eyes on before.

(The boat that he'd used a few weeks earlier to win the District Snipe meet at Crescent July 11-12 was left at home...)

All alone, the only boat from his club—the only boat from the area—he weathered the qualifications that began a week ago Monday, and breezed through the 25-boat finals that ended last Saturday.

Word is that he's on his way back, or perhaps back in town already. He lives in Lexington road, and he's in the phone book, and congratulations are in order.

Jim Kohls' victory at Higgins Lake was his second such performance in recent weeks. On July 25-26, he came through first in the Lightning Class Association's Michigan district championships on Traverse Bay. Competing against a fleet of about 30 boats, he placed first.

second and third in three runs-off for an overall first. Crewing for him were the two Ellery brothers, Chuck, Jr., and Bill.

And there's no rest for the victorious, because Kohls is now packing for the trip out to San Diego to defend his district championship in the nationals August 17-22. Another Crescent skipper, Hank Cavithra, who finished second behind Kohls in the districts will also compete at San Diego.

At Crescent's annual Folkboat Regatta, an international affair with eight top boats of that class competing, Ross Kogel, as we mentioned, took top honors. Behind him was William Abbott and a crew from Sarnia, Ont., followed by Jerry Naumann from the Detroit Yacht Club. Kogel's win was a repeat performance—he won it in 1962 as well.

Next weekend, action on the Detroit River Yachting Association schedule moves to the Grosse Pointe Yacht Club Regatta. Last weekend the activity was downriver, at the rather sparsely attended Ford Yacht Club Regatta.

Though many of the boats were downriver entrants, a few local boats deserve a mention.

In the combined Cruising A-B-C Class, R. L. Taylor's Alibi from DBC was first. In Cruising C-II, Gerald Sharp's Ariel from Bayview placed second behind a downriver entrant, Doug Wake's Velerio (Crescent S. Y. C.) was third, and William L. Gmeiner in Edleweiss (DYC) was fifth. Crescent's Gerald A. White in Johnny Tim was sixth.

In the Crescent class Crescent's Richard C. Hill in We Do was first; DYC's Charles Keresztes in Manon second, and Don Criner from Bayview in Moxie was third.

Third and fourth, respectively, in the Polarix class were Charles V. Orr from Crescent in Sierra and Floyd A. Wylza-

Woods Swim Team Beats City

Grosse Pointe Woods Barracudas splashed their way to their third consecutive victory in the final meet of the first annual dual inter-city meets, held at Grosse Pointe City.

The Woods' "Baby" Barracudas, Susan Heholt and Debbie Masten, placed first and second in the Girls 8 and under freestyle to snatch the lead for their teammates. Mark Stevens and Mike Rosiere lent their support by also placing first and third in the Boys 8 and under freestyle.

The Barracudas continued to chalk up points race after race. Shelley Shaw backstroked her way to a new pool record with a time of 16.0, and the "Jones Girls," Karen and Kathy, bubbled their way to a first and second place in the Girls' 12 and under breaststroke.

Mindful of their company manners the Woods team spared coaches Pete Biglin and Fred Cutler their traditional "victory dunking" in the City pool but team members produced prolonged and lusty cheers in behalf of their coaches.

Final tabulation showed the Woods had defeated Grosse Pointe City by a score of 210 to 97 to capture the dual inter-city trophy that is to be awarded each year to the victors.

At the suggestion of D. J. Hallmann, Woods Recreation was selected to display this spectacular trophy to pay tribute to the youngsters who had earned the trophy.

Director Hallmann also expressed gratification at the spectator attendance at these events and the parental interest and support of these young swimming competitors. The summer season's swimming competition will be climaxed with Grosse Pointe Woods hosting the Annual All Pointe Inter-City Meet on August 22. An invitation and good wishes are extended to all participating competitors.

Final results of the individual races are listed below: 100-yard mixed relay: 1. Woods, 52.3; 2. City, 52.8. Boys 8 and under, 25 freestyle: 1. Mark Stevens (Woods), 17.4; Brian Peck (City), 20.1; 3. Mike Rosiere (Woods), 20.2. Girls 8 and under, 25 free-

Inter-Club Swimmers Set For Finals This Weekend

By Mike Granger

The Michigan Inter-Club Swimming Association Finals will be held this weekend at Lochmoor Club, and in all probability the Detroit Yacht Club will grab first place honors.

Host team Lochmoor and the Detroit Golf Club will be the highest obstacles in the D.Y.C.'s attempt to win their first M.I.C.S.A. title. Defending champion, Western Golf Club should finish a strong fourth.

The Detroit Golf Club won the dual meet championship with a spotless 6-0 record, while the D.Y.C. finished second, having been upset by a weak Grosse Ile team.

The Detroit Yacht Club boasts the best female in the league, Sue Stuckey, 15, as a certain double-winner. Currently, Sue leads the league in the freestyle, backstroke, and butterfly events. (In the finals, M.I.C.S.A. regulations do not permit a swimmer to enter more than two individual events.) Doug Hitch and Tom Mertz (15-16 age group) will also finish high for the D.Y.C.

The D.Y.C. has two powerful boys freestyle and medley relays, which will place high. Lack of young swimmers and poor girls relays will prevent the D.Y.C. team from running away from the rest of the league.

The Detroit Golf Club possesses two superb 13-14-year-old swimmers, Skip Sherwood and Phobie Bedford. Both swimmers lead their age-group in the backstroke and freestyle events.

The Golf Club has two strong girls relays. The girls freestyle relay and their 56-year medley relay could finish first in the finals.

Lochmoor's talent lies in the young swimmers, ages 9 through 12. Lisa Beckenhauer, 10 years old, appears unbeatable in her two individual events,

CCD Swimmers Rank With Mets

by Ric Hendee

With a 175-135 loss to the Detroit Yacht Club last Thursday, the Country Club of Detroit swimmers undisputedly gained the position of the "New York Mets of Swimming" and the only team in the league to lose six straight.

All was not lost, though, for the sputtering squad as the younger tankers pulled through. The 11-12 boys medley relay, swum by Tim Woodhouse, John Humphreys, Mark Brooks and Charley Williams, captured its first win of the season.

C.C.D. took two slams in the 9-10 girls' backstroke and freestyle. Lele Weller won both events with Sue Speer close behind in the freestyle and Mary Ann Tompkins taking second in the backstroke. Lele was away most of the summer at camp and this was her first chance as a swimmer. Since this was the final meet of the season (excepting the finals), it was also her last chance.

BaBa Bartholomew and Chris Batchelor split firsts and seconds in the girls' 11-12 events for two more C.C.D. slams. Also adding to the excitement of the meet was the presence of Miss Detroit and Miss Michigan. This may have been a reason for the little boys doing so well but what's the girls' excuse?

Lakers to Open September 17

St. Paul's High School football season will open on September 17, at 7:30 p.m. at Roseville Memorial Stadium with Sacred Heart of Roseville. This will be the first of a schedule of seven games with three being played at home and four of the games away.

The first day of practice allowed by state law will be on Saturday, August 29, at Kerby Field at 10 a.m. Equipment may be picked up at school by the Seniors and Juniors on Monday, August 24; the sophomores and freshmen will pick up their equipment on Tuesday the 25th, at 10 a.m. in the school locker room.

All players are reminded that a physical examination and a mouthpiece are compulsory under the state law. The doctor will be on hand both days to examine all football players; to be fitted for a mouthpiece all boys are instructed to get in touch with Dr. John Koerber at TU 4-5000 as soon as possible. One new coach has been hired, Martin Thomas, the new line coach, an alumnus of Eastern Michigan University who played his high school football at De LaSalle High School. William Schade is the backfield coach and Tom Bentley is in charge of the reserve football team.

Pointe Tankers In Big Meet

By Ric Hendee and Mike Granger

A handful of Grosse Pointe swimmers represented various teams in the annual Water Wonderland swimming meet last weekend. The AAU meet, which was held at Brennan pools, was the only chance, (in Detroit), for several of the big teams to swim. Next fall several meets will start.

Swimming for Golden Lion Swim Club a 15-17 boys freestyle relay placed fourth in the finals. The 400-meter relay was swum by Craig Dever, Tom Mertz, Ric Hendee (all swimmers on the varsity squad at GPHS) and Jim Thomas (Austin varsity). Their time in the 50-meter pool was 4:06.7, only a few seconds off the pace of the Detroit champions.

Another Golden Lion relay was composed of Lisa Beckenhauer, Laurie Simon, Mary Beth Ryan, and Mary Ambrose. They won the girls' 11-12 freestyle relay in easy stride to uphold their reputation as "one of the best little girls relays in the state."

Jack Teetaert, life-guard and co-coach at the City Park, represented a Dearborn team in the men's open relays. His team finished ninth in the 800-meter freestyle relay, only one place away from qualifying for the finals. But when Jack swam his specialty (backstroke) in the 400-meter medley relay, the Dearborn squad qualified and finished third that night in the finals.

The Golden Lion Swim Club, swimming under Coach Roy Pouloit, finished fifth in last weekend's Water Wonderland meet held at Brennan Pool. There were over 30 teams entered in this meet, which Paton Aquatics Club won.

Cynthia Goyette, Sue Stuckey, and Johanne Cook paced the Golden Lion's attack. All three girls have qualified for the Olympics try-outs to be held in New York later this month. Super-star, Goyette placed first in both the 100- and 200-meter breaststroke. Her winning times were 1:21.5 and 2:53.3, close to the American record for such distances. Both times established new meet records. Johanne Cook finished behind Cynthia in both races.

Sue Stuckey notched two second places, as Louise Kennedy, a leading Canadian swimmer, edged Sue in both 100- and 200-meter freestyle races. Sue's 200 time of 2:32 qualified her for the Olympic try-outs. She has a good chance of becoming a member of an Olympic relay team. Also, Sue finished fourth in the 100-meter breaststroke.

These three girls, along with Kathy Filgo, swam in two winning relays: the 400-meter freestyle and medley relays.

In addition to her relay victory, Lisa Beckenhauer swam in three other events. She placed second in both the 100-meter freestyle and 50-meter breaststroke. Her freestyle time was 1:11.8. Lisa also finished third in the 50-meter butterfly.

Mary Ambrose, who with Lisa swims for Lochmoor, finished fourth in the 100-meter freestyle.

Marcey Snyder, 16, finished third in the 200-meter backstroke.

Lions, Colts Meet Friday

Two clubs with National Football League pennant aspirations, Don Shula's Baltimore Colts and George Wilson's Detroit Lions, kick off the home pre-season campaign in Tiger Stadium, Friday night, August 14, at 8 o'clock.

The game is sponsored by the Free Press Charities and a share of the proceeds will go to Children's Hospital for the purchase of much needed equipment.

Tickets for the game are available at the Lions Office at 1401 Michigan, where the box office is open from 9 to 5 daily. Unreserved bleachers will go on sale at 6 p.m. on Friday at Tiger Stadium. Both upper deck (\$5.00) and lower deck (\$4.00) reserved seats are available.

Spartans Seek Cheerleaders

Future cheerleaders of America will be happy to know that all girls between the ages of 10 and 13 are invited to try out for the Woods Spartans football team cheering squad on August 22.

Tryout sessions will be held from noon until 4 p.m. All girls chosen must be able to attend regular practices. Selected cheerleaders will be given new uniforms this year to give a brighter and better support to the young Woods football heroes.

For additional information call TU 1-9462 or TU 4-3976.

WOODS BOY HURT

Mike Abeli, 4, of 511 Saddle lane, while playing with other boys stuck his right hand into a hand lawn mower while it was moving and lost the tips of his second and third finger. He was transported to St. John Hospital by Woods police where the wounds were treated.

Lochmoor Tankers Defeat GPYC in Season's Closer

By Mike Granger

Lochmoor swimmers defeated the Grosse Pointe Yacht Club team last Thursday 171-134, for their fourth victory in six dual meets. Lochmoor won 5 of the 8 relays, and 12 of the 20 individual events.

Lisa Beckenhauer and Tommy Heholt continued their domination of the 9-10 age group, while Bruce Black once again paced the weak Yacht Club attack. Each swimmer won two individual events, the 50-yard backstroke and freestyle, and were on winning relays.

Lisa swam butterfly in both the 10 and under medley relay, and the 56-year relay. Tommy anchored the boys 12 and under medley relay, and swam butterfly in the 10 and under relay. Bruce Black swam backstroke in Grosse Pointe's winning medley relay.

Grosse Pointe was handed the first event, as Lochmoor's 11-12 girls medley relay was disqualified. Lochmoor's boys relay put them in the scoring column, as the quartet of John Walters, Max Gardner, Jim Godin, along with anchorman Heholt, edged a strong Grosse Pointe relay.

In the 8 and under age group, Patty Ray won for the Yacht Club, her fifth victory of the season. Patty's winning time was 18.3. Lochmoor's little boys, though, notched a 1-2 sweep, thus tying the score, 21-21. D. J. Godin's time for the 25 yards was 16.0.

The teams split the next relays — the freestyle relays; with Lochmoor winning the girls race, while the boys won for the Yacht Club. Pinky Sinclair, Kitty Wilkins, Cherly Gardner, and cute, little Mary Ambrose made up the girls relay. Pete LaFond, Steve May, Steve Mason, and Jim Black were members of Grosse Pointe's winning relay. Therefore, after six events the score was deadlocked, 33-33.

Three events later, Lochmoor had climbed in front by 15 points, 47-32. Lisa Beckenhauer and Tommy Heholt won their first individual events of the evening, the 50-yard freestyle. Lisa's winning time was 30.0, and Tommy won the 11-12 backstroke, before Yacht Club star Bruce Black ended the drought by winning the backstroke event.

The teams split the 15-16 butterfly and the 13-14 backstroke events. Connie Shultz won the butterfly and Pinky Sinclair was victorious in the backstroke. Both girls swimmers were from Lochmoor. Steve Mason and Steve May were winners for the Yacht Club. Chip Rohde finished second to Mason in the butterfly event. Mason's winning time was 29.8.

At the half-way point of this meet, Lochmoor had built a substantial lead, and continued to add to their margin. They won both 10 and under medley relays.

The girls relay consisted of

Mary Klein, Carron Promack, Lisa, and Becky Simon. Along with butterfly Heholt in the boys relay were Ken Godin, Bob Ambrose, and 8-year-old anchorman D. J. Godin.

Next Cherly Gardner won the 15-16 freestyle. Then Pete LaFond and Kit Tennyson finished 1-2 for the Yacht Club.

Lochmoor's strength continued to show as they won the next four events. Kitty Wilkins and John Hoffman took the 13-14 freestyle, followed by Lisa's and Tom's first place finish in the backstroke event. Carron Promack finished second to "little Lisa," and Ken Godin finished behind Heholt.

At this point, Lochmoor had built a commanding 39 point lead, 138-99, but Grosse Pointe put in a strong finish, as they won three of the four final individual events, and split the last two relays.

Gail Hillger defeated Bonnie Klein in the backstroke, and Kit Tennyson and Steve Mason "slammed" the backstroke event for the Yacht Club.

But, Mary Ambrose and Laurie Simon, both just 11 years old, placed 1-2 for Lochmoor, before Bruce Black's final individual triumph in the freestyle. Bruce's winning time was 26.3.

The final two relays were split, as Lochmoor won the girls medley relay, and Grosse Pointe won the boys relay.

Pinky Sinclair swam backstroke, Kitty Wilkins swam breaststroke, Lisa swam butterfly, and Cherly Gardner anchored this winning relay. For the Yacht Club, Black swam backstroke, Larry Ray swam breaststroke, Mason swam butterfly, and Steve May swam freestyle.

This meet concluded the schedule for both teams, and from the Yacht Club point of view—a long, fruitless season. The team produced just one victory—they did manage to beat Oakland Hills—but suffered five defeats.

Except for the efforts by swimmers such as Patty Ray, Steve May, Steve Mason, Kit Tennyson, Joan Couzens, Gail Hillger, Tarry Gostow, and of course the three Black brothers, Jim, Jeff, and Bruce, the season has been rather dismal. But for Lochmoor, this victory left them tied with Western Golf Club, as both teams finished behind the Detroit Golf Club in the "A" division. The Golf Club finished their season undefeated, while Lochmoor and Western lost two of the six dual meets.

In contrast to the dreary future of the Yacht Club, the Lochmoor squad still has not reached its peak. Under the excellent guidance of Coach Roy Pouloit, one of the best swimming coaches in the area, Lochmoor's swimming success will continue to grow, and maybe next year, they will be the dominant team in the league.

Babe Ruth Champs Meeting In Regional Tournament

The Babe Ruth Ohio Valley Regional Tournament is being held at the Grosse Pointe University School, involving the State Champions from Ohio, Indiana, Kentucky, Illinois, Wisconsin, and Michigan, and the All-Star team from Grosse Pointe Woods as the host team.

Following the Opening Ceremonies on Saturday, which were attended by Grosse Pointe Woods city officials, as well as guests from the six-state Ohio Valley region, the first round of games got under way.

In the first game, Illinois beat Wisconsin 3 to 2 behind the 3-hit pitching of Randy Dollinger. The second game of the first round saw Indiana beat Kentucky 13 to 1. Eddy Inman, the Indiana pitcher held Kentucky to 2 hits and was helped by the hitting of Lloyd Michaels, whose single and triple drove in three of the Indiana runs.

In the third game, Grosse Pointe Woods lost to Ohio 6 to 1. Gary Cowgill, the Ohio pitcher, helped his own cause with a home run to drive in two runs. In the first round, Michigan drew a bye.

The second round started on Sunday, with Michigan beating Illinois 6 to 0. Again, pitching dominated the game with Dick Lang throwing a one-hitter, striking out 12. In the second game, Ohio's pitcher, Myron Williams, pitched a no-hitter, beating Indiana, 2 to 0.

In the third game of the second round, Grosse Pointe Woods eliminated Kentucky from the tournament, 11 to 4, with Paul Shakotko getting the win. Grosse Pointe Woods hitting was led by Bob Lynch and Gary Pagoto, whose doubles combined to drive in five of the runs.

On Monday, the third round saw Indiana eliminate Wisconsin by a score of 7 to 5. The hitting star for Indiana was Jim Jeffers with a single and a double, driving in four runs. John Jenks, of Wisconsin, helped his team with a home run and a single.

In the second game, Grosse

Came The Rains

If this turns out to be a sloppy issue of the Grosse Pointe News, please extend the warm, dry hand of understanding and compassion. Few have had more valid reasons for producing a sloppy, even soggy product, than have the beleaguered members of the staff this week.

With the publication deadline approaching at sickening speed Tuesday morning, and every occupant of the NEWS building feverishly attacking the final hurdles in wrapping up an issue... came the rains... and how they came, along with the thunder and the lightning and the scared females scurrying for storerooms and their make-believe security. Then the dam burst and the indoor flood began. The rain continued in torrents without... confusion reigned, in torrents, within.

Something went haywire with the building's drainage system. It has happened several times in the recent heavy rains, but they never came on a Tuesday, when the pressure is really on, to get the sheet to press. The experts are still trying to figure out what is causing this phenomenon that entices flood waters into the building instead of letting them go obediently and gracefully down the sewers constructed for this precise purpose. The drains have all been reamed out very recently, and pronounced perfect by those who were paid for knowing their business.

As this is being written, the male members of the staff are taking turns wielding squeegees, mops and brooms, trying to divert the flowing tide around corners and out the doors. The females, all bare-footed, are screaming about the waves lapping at their desks. The phones are beginning to be short-circuited, setting up a continuous buzzing that can only be stopped by pulling the plug that will cut off the entire incoming calls signal system. Last minute advertisers and news sources are frantically trying to penetrate the pandemonium. A water wizard from the Farms engineering department is sloshing around to trying to unravel the mystery. We're wondering if the rug will dry in time for the Christmas party. A few more inches and we won't have to water the plants for weeks. It's a pretty unpleasant perspective. In fact... it's a ghastly spectacle.

Our last memory of comparably adverse conditions for getting out a newspaper goes back to New Year's Eve of 1931 when the daily with which we were then associated was bombed by a mob of disgruntled bootleggers whom we had chosen as a target for unfavorable publicity. That was quite a mess too.

We didn't miss an issue then, and we'll be on the streets tomorrow. If you find us ripe for floods of criticism... please be lenient.

Psychologist Airs Problems Suburban Housewives Face

By Bob Wells and Kathy Dickson

On a very sunny morning last month, most of the Pointe's women were washing breakfast dishes, taking their children swimming or perhaps planning their itinerary for a shopping trip.

Meanwhile, one Shores woman had left her home and made her way, alone, down the long block to the lake. She crossed Lakeshore drive, sat down on a stone block, and stared passively over the water.

Two neighbors had seen her go, and thought little of it. Later, one heard commotion and crying from the home, and summoned police. After a short search, the woman was found, and returned to her home, and to the four children (ranging in age from four years to six months) she had left unattended at home.

A common incident? No. But nonetheless this incident was symptomatic of a fearful potential within many suburban women today: an inner feeling of confusion, lethargy, loss of identity, or purposelessness.

Though a majority of the Pointe's women are happy and well-adjusted living in one of the world's finest suburbs, some are plagued by unanswered questions about the dilemma of today's suburban housewife: with the help of banks of household appliances and occasional or constant domestic help, they are experiencing a new freedom that can become either a salvation or a drag.

Some women counteract this new and "dreadful" freedom by sanctifying their role as mothers, as a lone remaining purpose in life; others escape into a sea of trivia that leaves them unable to realize their real selves; some, the extremes, may fall into alcoholism or other drastic methods of escape; and some, the fortunate ones, develop free time into a meaningful and profitable escape: to hobbies and special long-locked interests.

Though psychiatrists stress that each woman's situation is unique, they agree that all women share one factor: time. For some the duties of motherhood are so demanding that it seems there will never be enough time to escape long enough to experience a life of their own. In communities like the Pointe, a further complication comes when the father's role as parent becomes strictly a weekend preoccupation, and the mother is left alone to wield punishments and parcel out affection.

For other women, the factor of time has a reverse effect. With frozen food and a maid, a homemaker's responsibilities begin to diminish, until a woman may eventually come to believe that her home could function quite neatly without her. Her free time, and lack of real responsibility, leaves a gap in her mind ready to be filled either by new rewarding activities or, too often, by ennui and a new sense of meaninglessness.

Some are Not Free... A psychiatrist who makes his home in the Pointe, Dr. William Bedwell, acknowledges and regrets the chains that bind some women to home and daily chores, but stressed that such ties are not necessarily a bad thing.

It all depends on the individual woman, he said: on her background and personality. Many who cannot escape from housework and child-rearing would not know what to do if they could. Some may want to, like the woman who expressed her desire to escape by walking out on her children for a few hours. But if they ever gained even a part of their freedom, many would fumble it.

It takes both discipline and imagination to make a meaningful experience out of freedom, Dr. Bedwell said. Without these qualities, women can find a little freedom is worse than no freedom at all.

Perspective on Motherhood...

When the inevitable degree of freedom concomitant with affluence comes to a woman, a constant and unfortunate reaction is to "fall back on her role as mother as something no one can take away," according to psychologist Armin Grims, who lives in the Pointe.

When the feeling of importance and responsibility of a homemaker dwindle in the face of "automation," the mother takes her role so seriously that she feels she must develop a child-centered home where son or daughter becomes ruler. This does not necessarily mean coddling or babying the child, but simply making child-rearing a 24-hour task.

Such an attempt to cast every woman into the same mold, that of child-rearer, leads to frustrations. In Dr. Grims' opinion, woman's first responsibility is to be a person, her second is to be a wife, and her third is to be a mother. "After all," he says, "motherhood is only a temporary role, because unless we eventually stop being fathers or mothers our children never stop being children."

The Sin of Triviality... When the mother's exact roll as homemaker becomes confused, another common reaction is to resort to busyness—"eternal activity that leads to nothing," in Dr. Grims' words. "This activity," he adds, "serves only to keep us from realizing the reality of our own emptiness."

What existentialists write about—a fear of nothingness and meaninglessness—can have real meaning for a woman in today's suburbia, he said. Women struggle to stay busy, doing almost anything, in order to avoid the realization that they can no longer be individually constructive.

The result: "We are an age of busybodies: not busybodies in the sense of snoops or gossips, just always on the move," in Dr. Grims' opinion.

The Need for Dependence... "We tend to think today that once someone is an adult, he overcomes his need to be dependent." Though this is the way people think, it is simply not the case with many women.

With the husband away much of the time, and perhaps no older relatives or helpful neighbors nearby, many women have nobody to turn to "when they want to be dependent."

Such a dependence, Dr. Bedwell agreed, is "vital to a woman's femininity." In the perfect married relationship, the woman is boss while the husband is away, and then she yields control of family discipline and all decision-making to her husband when he is home. By being able to "rely" at moments like this, a woman remembers her own femininity.

Another pressure on suburban women is the need to behave in a certain way when her husband's future depends on it. The cliché-ridden example is when the husband's employer comes to dinner; the too-frequent result of such pressures are the same as those felt by anyone, man or woman, who is not quite playing the role of self. Deception breeds anxiety.

And why are parents sometimes guilty of pressuring their own children into adult behavioral patterns? Very simply, Dr. Grims explained, "we don't want to see our own immaturity reflected in our children, because it would be too threatening a revelation of our own immaturity." Thus the children become adults before they are emotionally ready. The pain here is felt by the child first, although the parent may feel it too late when a child's premature adulthood leads him into trouble or identity problems of his own.

The Woman Alone... A specific case, and one prevalent in the Pointe, is the case of the woman living without a husband, due to one reason or another. In Dr. Grims' opinion, the danger is that she can too easily become more and more isolated, more and more lonely. If this aloneness is coupled with the loss of a loved one, the emotional results can be severe, Dr. Grims warned.

In almost every woman, there

Emergencies strike with sudden swiftness. A slip, a fall, a collision is seldom announced. So be prepared. At least one member of every family should have a working knowledge of first aid. There are books on the subject and the American Red Cross gives classes where such information and training can be acquired. We recommend that you, or someone in your household, acquire the know-how. Another worthy recommendation is to maintain a supply of first-aid medications on hand at all times—antiseptic, gauze bandages, adhesive tape, alcohol, soothing creams, etc. The cost is small and we'll be glad to assist you in your selection. What Goes On at Your Library

By Virginia Leonard

In another week my younger son will be Alaska-bound—part of a YMCA-sponsored three-week trip to one of our two newest states. In the flurry of preparation, map-making, clothes selection and list making, there has also been much reading done concerning this area. And this in turn brought to my attention the material we do have in our Libraries on Alaska. Let me share it with you.

All books mentioned will have a copyright date no older than 1959, so all will have gone to press after Alaska became a State.

A good sourcebook is Herbert Hilscher's ALASKA, U.S.A. Here every aspect of northern life is considered, from how to get there through job, school, church and housing conditions, as well as social life, job openings and community organizations. Another, entitled ALASKA BOOK, and subtitled: Story of our northern treasureland, presents 54 selections by various authors. Harry Kursh's THIS IS ALASKA includes geography, climate, economic situation and employment conditions of Alaskans.

For a guided tour through Alaska, there is Kathryn Winslow's ALASKA BOUND. Trips by boat, plane, railway, bus and car are outlined, and practical advice is given on shelter, food prices, etc. A guidebook to this region, with lovely color illustrations, is Sunset's ALASKA. In the same category is R. G. Hart's MCKAY'S GUIDE TO ALASKA. From the economic standpoint, we can suggest George Rogers' THE FUTURE OF ALASKA: ECONOMIC CONSEQUENCES OF STATEHOOD. This book examines past activities and plans future development and obligations brought about by the changing status.

For more personal, anecdotal material we can offer Sara Machetanz' THE HOWL OF THE MALEMUTE, and subtitled: The story of an Alaskan winter.

Already living in Alaska and familiar with its harsh weather and friendly people, Fred and Sara Machetanz decided to spend a winter in an Eskimo village in the northern-most part of our new state.

For autobiography, there is Kare Rodahl's THE LAST OF THE FEW — an account of a Norwegian doctor's experiences with the Eskimo in Alaska. A plane trip through this state is described by Tay Thomas, wife of Lowell Thomas, Jr., in FOLLOWS THE NORTH STAR. Grant Pearson gives us a true life adventure story of one of Alaska's

best-known 20th century pioneers as a United States National Park Ranger in MY LIFE OF HIGH ADVENTURE.

Dorothy Les Tina calls hers, imaginatively, ICICLES ON THE ROOF. Here the wife of Lieutenant Colonel Raymond John tells of her experiences as an army wife in Alaska. She settled in a quonset house in the bleak Tundra where there are no radios or telephones — but did have some unusual neighbors—the lemmings she adopted.

Ben Adams' ALASKA: THE BIG LAND (in both the adult and juvenile collections) is a capsule history of Alaska's cities, towns, outposts, natives, early settlers and general development. There are several titles in our juvenile collection exclusively which deal with the history and description of this new state of ours.

It would hardly seem fair at this point not to mention some material on Hawaii, our 50th state, much of it paralleling the Alaska collection. Ben Adams has a book on this area: HAWAII: THE ALOHA STATE, giving a complete report of its history, racial strains, economic and cultural development etc. There is also, again, parallel, a HAWAII BOOK with the same format and intent as the one on Alaska. In the Reference Shelf Series, we have William Lineberry's THE NEW STATES: ALASKA AND HAWAII, encompassing both regions.

In the field of history, R. S. Kuykendall has a revised edition (1961) of his HAWAII. For a social history there is L. H. Fuchs' HAWAII PONO, showing the predominant social forces in the recent history of the Hawaiian Islands. An interesting one is Arthur Day's HAWAIIAN READER containing 37 selections by a number of authors, giving an informal history of the islands from their discovery in 1778 by Captain Cook to their present status.

For guidebooks there are Fodor's HAWAII, Sydney Clark's ALL THE BEST IN HAWAII, and Bob Krauss' TRAVEL GUIDE TO THE HAWAIIAN ISLANDS. Again, this subject is well represented in the children's literature as is Alaska.

In an effort to aid all those suffering from the current Detroit newspaper strike, all three Grosse Pointe Public Libraries are now subscribing to the WINDSOR STAR, the CHICAGO TRIBUNE, and the Park and Woods Branches have ordered the daily NEW YORK TIMES (already received at

whom others will want to cultivate, want to have around," Dr. Gram said.

The Basic Problem... then, is an increasingly frequent "role dilemma." The full-time homemaker feels she has not fulfilled her desired role. Women with time on their hands, and dwindling responsibilities, fumble for a new role to replace the old. And the

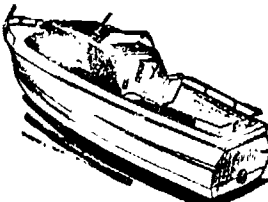

woman alone may be caught in a widening gyre of isolation.

In each case it is personality, the effects of childhood training and later experience, that largely determines what a woman will make of her less than ideal situation. One thing remains: each woman alone to determine her life is her own, no matter how great its responsibilities, or how boundless and fearful its freedom.

Workers for the Planned Parenthood Christmas Mart, scheduled October 27 through 29, in Detroit's Veteran's Memorial Building, do not sit idle during the summer.

Many of the ladies are busy at home; others work during their vacations at resorts. Up North, in Petoskey, Mrs. Joseph B. Schlotman is acknowledging patron letters, and Mrs. John B. Ford, Jr., has signed up an art gallery, a pet portrait painter and a favorite children's shop.

Mrs. Henry Woodhouse is bringing "the greatest sporting goods store in the country" to the Mart. She will be looking for more shops during her Cape Cod vacation.

Mrs. Ross Wilkins, Shops committee chairman, spent many hours rounding out the list of 20 exciting stores before she left for Nova Scotia; enlisting sales girls keeps Mrs. Willard P. Kerr busy; Mrs. James Macpherson, II, and Mrs. Peter Stalker, II, are recruiting models and other volunteers.

Plans for two elegant dinners and luncheons are in the capable hands of Mrs. Robert Valk.

The annual Mart, sponsored by and for the benefit of the Planned Parenthood League, has several New-This-Year surprises in store for patrons, including an art gallery and the pet portrait painter.

Leaving a ranch in Luzerne and doing primitive camping along the way, they reached East Tawas on Friday afternoon.

When they reached East Tawas, they were met by the East Tawas Cadette Girl Scout Troop and celebrated the happy event together with cold pop supplied by the local troop.

One of the high spots of the ride was being able to ride their horses into the waters of Lake Huron at the end of the trip.

The girls riding the trail were Judy Gajewski, Cheryl Newberry, Sue Harrison, Sue Sessions, Jan Smith, Gail Squiers and Pam Thompson.

They were accompanied by Warren Trout and Keith Newberry. Mrs. Robert Newberry was Troop Camper and Robert Newberry was First Aider.

Whiteman-Goddard Nuptials Celebrated

On Saturday afternoon, at a small family ceremony, Margery Russel Goddard, daughter of Mr. and Mrs. Wendell Converse Goddard, of Provençal road, became the wife of Michael Whiteman, son of Mr. and Mrs. Henri Whiteman, of Great Neck, L. I.

The marriage was performed by the Reverend William B. Sperry, Rector of Christ Church, Detroit, in the garden of the bride's parents home.

Sarah Hutchins Goddard was maid of honor for her sister and Dr. Demetrius Pertsemidis was best man for his brother-in-law.

Henry Sheldon Dykema, cousin of the bride, and son of Mr. and Mrs. Jere Hutchins Dykema, of Cambridge, Mass., was the ring bearer.

The bride's gown was of pale peach Swiss taffeta. She carried a bouquet of stephanotis and ivy.

The maid of honor's dress was of figured French taffeta in shades of pale pink, peach and violet, and she carried a green bouquet.

Henry Dykema wore a white sailor suit which his father had worn as ring bearer in the wedding of the bride's parents.

The out of town guests included Mr. and Mrs. Whiteman, Dr. and Mrs. Pertsemidis, Mrs. Walter Brandon, of Leland, Mich., Julia Broderick of Providence, R.I., Kristie Miller, of Washington, D.C., Gregory Harvey, of Philadelphia, and

Stanton H. Goddard of Wallingford, Conn., the bride's uncle.

After a wedding trip in Canada, Mr. and Mrs. Whiteman will live in Albany, New York, where Mr. Whiteman is an assistant legal counsel to the Governor of New York.

Janet Weber Speaks Vows

St. Paul's Episcopal Church was the scene of the wedding, Saturday afternoon, of Janet Dorothy Weber, daughter of Mr. and Mrs. Richard S. Weber, of St. Clair, formerly of Grosse Pointe Shores, and Wayne Emerson White, Jr., son of Mr. and Mrs. Wayne Emerson White, Sr., of Royal Oak.

The ceremony was performed by Reverend John Osgood Hart, of the Church of the Redeemer, Southfield, Mich., a lifetime friend of the Webers, and Reverend Richard P. Jennings of St. Paul's Episcopal Church, St. Clair.

The bride wore a gown of silk organza with applique lace design. The three quarter length sleeves were of transparent lace. The lace design was carried down the back of the dress and into a chapel train.

A beaded crown caught her shoulder-length illusion veil, and she carried a cascade bouquet of white roses.

The bride's cousin, Rosalind Weber, was the maid of honor, wearing a light yellow linen jumper over a chiffon blouse with blouson sleeves and cowl neckline.

The bridesmaids were Shirley Brown, of Southfield, Mrs. Neil Georgi, of Harper Woods, Mrs. Terrance Noonan, of Grosse Pointe, Mrs. Richard Kohn, of Grand Rapids, and Mary White, the bridegroom's sister, of Royal Oak.

The maid of honor and the bridesmaids each carried a pendant of yellow carnations, hanging from their wrists on wide, olive green velvet ribbons.

David White, brother of the bridegroom, was the best man.

The guests were seated by Richard Kohn, of Grand Rapids, David Regan, of East Lansing, David Guiliani, of Birmingham, Gary Schubert of Lake Orion, and Ted Wahl, of Fraser.

Fisher Books
Sammy Davis

The musical version of Clifford Odets' "Golden Boy" starring Sammy Davis will open a four week engagement at the Fisher Theater in Detroit on Tuesday, August 25, prior to Broadway.

The Hillard Elkins production has a score by Charles Strouse and lyrics by Lee Adams, the team who wrote "Bye Bye Birdie." Peter Coe who directed "Golden Boy" did the smash hit "Oliver." The book was written by the late Mr. Odets.

Billy Daniels, remember "Old Black Magic," heads a supporting cast that includes Paula Wayne, Kenneth Tobey, Ted Benedes, Roy Glenn, Charles Welch, Don Crabtree and Jaime Rogers, Jeanette DuBois, Johnny Brown.

"Golden Boy" marks Sammy Davis' return to the legit theater after having kept "Mr. Wonderful" going for a full year on the strength of his personality and performance.

Since then Davis has actually become the world's outstanding entertainer, playing to capacity in the top night clubs in the world and makes such movies as "Robin and the Seven Hoods," "Sergeant's Three," "Ocean's Eleven" and a score of others.

Those expecting to see Sammy Davis the night club star have a surprise in store for them, in that instead they will see a matured actor playing a role. None of the songs, which stem from the script, have been written in keeping with Davis' night club identity. Yet the critics, who praised the show in Philadelphia, and in Boston, have found that there are five or six potential pop hits.

Mark well "Gimme Some," the opening number in "Golden Boy" which has been recorded by Mr. Davis, Tex Ritter, Kay Starr and a host of others; "Night Song," "Lorna's Here," "Don't Forget 127th Street" which stops the show nightly, "This is the Life" and "Golden Boy."

There will be two extra performances on Sunday, September 13, in place of the Tuesday, September 15 and Wednesday, September 16 performances which will not be played.

What d'ya hear these days? The Detroit Hearing Association will check what you hear, and how well, free of charge at its booth at the 115th Michigan State Fair, Aug. 28 through Labor Day, Sept. 7.

Reverend Richard Mitchell officiated at the double ring ceremony.

The bride chose a floor length Edwardian gown of silk chiffon, fashioned with a controlled skirt, scooped neckline, elbow length sleeves and detachable train.

Swiss motifs accented her neckline, skirt and headpiece, from which fell a petal veil of silk illusion. She carried an oval bouquet of white orchids.

Maid of honor Virginia Joy Pearson, and bridesmaids Carolyn Krebs, sister of the bridegroom; Sjoukje Dewitte, the bride's American Field Service sister from The Netherlands; Mary Lee Wilcoxen, Katharine Kridler and Virginia Bartholomew, sister of the bride, wore floor length, Empire waisted gowns of forget-me-not blue.

Their headpieces were bands of fresh flowers entwined in ivy, and they carried nosegays of pom-poms and assorted baby blue flowers.

The bridegroom asked his brother, Charles Krebs, to serve as best man. Ushering were Donald Klug, of Evanston, Ill., David Britigan, of Kalamazoo, Walter E. Ruch and William E. Stocum, of Ann Arbor, Wilford T. Stannard, II, of Salt Lake City, and Arthur P. Bartholomew, III, and James Bartholomew, brothers of the bride.

A reception at the home of the bride's parents followed the ceremony. Mrs. Bartholomew greeted her guests, wearing a Carnegie blue silk suit with a sheath skirt and overblouse applied in garlands of plates

and rhinestones, and a Chanel jacket.

She wore a matching blue velvet hat and carried a silk handbag.

Mrs. Krebs chose a rose colored gown, designed for her of Italian Dupioni, with a matching hat and accessories.

Both mothers pinned white corsages to their purses.

The bride donned a three piece olive green suit with a beige blouse and matching accessories for travelling to Bermuda. The newlyweds will make their home in Ann Arbor.

Among the out of town guests were Mrs. Arthur P. Bartholomew

'Heavy' Taxes
Paid in Woods

Tax officials in the Woods are wondering if they are "taxing the pants" off the people residing in their community.

Somehow, a large brown envelope, with a tax-return envelope attached, was mailed to the Woods Municipal Building on Monday, August 10.

The smaller envelope contained an annual tax statement and a check to cover the amount of city tax due.

Tax department employees, curious to find out what the large envelope contained, opened it, and out dropped a pair of lady's slacks!

The "find" was shown to City Administrator Chester Petersen and City Treasurer Helen Fox, and other personnel in the municipal building. All had a good laugh, and joked about the city's taxing system.

Later, the sender, name withheld to avoid embarrassment, was contacted by phone, and it was disclosed that the slacks had been sent in error. They were to have been returned to a mail order company from where they were purchased, but somehow the envelope wound up in the city tax office.

The owner advised city officials that the slacks would be picked up and forwarded to the proper destination.

Shall the County of Wayne increase the millage as provided in article IX, Section 6, of the State Constitution by one mill for a period of five years from 1965 through 1969 (\$1.00 per one thousand dollars of State equalized valuation), the proceeds to be used to help meet the rising cost of County services, maintain hospitalization for the medically indigent, help furnish medical care of the aged poor, help care for and train juveniles under County care, help provide treatment for the mentally ill and those suffering from tuberculosis and maintain adequate public health, and safety services?

All registered electors may vote on the tax-rate limitation increase proposition.

This proposition is being submitted in accordance with the following resolution duly adopted by the Board of Supervisors of said County on the 7th day of July, 1964.

RESOLUTION OF BOARD OF SUPERVISORS OF THE COUNTY OF WAYNE

WHEREAS, diligent effort has been made to bring the County budget into balance, within the available millage allocated by the Wayne County Tax Allocation Board under statutory limitation, by pursuing every possible economy and yet provide sufficient funds to meet the ever rising costs resultant from providing essential minimum services to a rapidly expanding population in a period characterized by increased cost of commodities and personal services; and

WHEREAS, the County will be faced with a deficit as of November 30, 1964, of approximately \$16 million consisting primarily of unpaid bills due the City of Detroit and the State of Michigan for hospitalization and other social service functions; and

WHEREAS, the County has no alternative but to seek approval by the electorate of extra tax revenues to maintain minimum essential services without incurring further indebtedness; Now, Therefore, Be It

RESOLVED, by the Board of Supervisors of the County of Wayne, this 7th day of July, 1964:

1. That there be submitted to the qualified electorate of the County of Wayne, State of Michigan, at the primary election to be held in said County on Tuesday, September 1, 1964:

TO THE QUALIFIED ELECTORS OF THE CITY OF GROSSE POINTE, MICHIGAN

PLEASE TAKE NOTICE that a Special Election will be held in the City of Grosse Pointe, County of Wayne, Michigan, on the 1st day of September, 1964, at which time there will be submitted to the vote of the qualified electors of said City the following Charter Amendment Proposals:

PRESENT CHARTER PROVISIONS

Section 33. The fiscal year of the city shall begin with the first day of April.

Section 34. On or before the first Monday in January of each year the assessor shall make and complete an assessment roll of taxable property in the city, and shall submit the roll, over his certificate to the council. The subjects of taxation for municipal purposes shall be the same as for state, county and school purposes under the general law. The assessment roll shall be open to public inspection during the week of the second Monday in January, and notice to that effect shall be published by the clerk at least four days prior to the second Monday in January. Within the inspection period any person may file in writing with the clerk a complaint of any assessment, stating specifically the grounds of the complaint.

Section 35. The board of review shall meet on the third Monday in January to review the roll and to consider the complaints which may have been filed with the clerk and to hear any complaints which property owners may make in person, or by authorized agent. The board shall continue its meeting on such successive days as may be necessary to hear all complaints. Notice of the meeting of the board of review shall be published by the clerk at least four days prior to the third Monday in January. Before the first Monday in February the board shall complete its review of the roll, which shall, during the next fiscal year, be the basis for the levy and collection of taxes.

Section 36. Before the third Monday in January, each city officer shall submit to the city clerk an itemized estimate of the expenditures for the next fiscal year of the department or departments under his control. The clerk shall prepare a complete itemized budget for the next fiscal year and shall submit it to the council on or before the first Monday in February.

Section 41. Not later than the first Monday in March, the council shall, by resolution, adopt the budget for all municipal expenditures for the next fiscal year and such resolution shall provide for a levy of the amount necessary to be raised by taxation, which shall not exceed two per cent of the assessed valuation of all real personal property in the city. Upon adoption of the annual tax levy, the assessor shall prepare a tax roll before the twentieth day of March. The taxes thus assessed shall become at once a debt to the city from the persons to whom they are assessed, and the amount assessed, together with all charges thereon, shall, on the first day of April, become a lien on the property assessed, of the same character and effect as the lien created by state law for state and county taxes, until paid.

Section 42. One-half of the taxes levied by the city shall be due and payable on the first day of April, and one-half on the first day of July. On and after the 11th day of May, a penalty of 3 per cent shall be charged on all unpaid city taxes due April 1; and, in addition, on and after July 1 interest at the rate of three-fourths of one per cent per month shall be charged on all such taxes until paid or returned to the county treasurer. On and after the 11th day of August, a penalty of 3 per cent shall be charged on all unpaid city taxes due July 1st, and, in addition, on and after October 1 interest at the rate of three-fourths of one per cent per month shall be charged on all such taxes until paid or returned to the county treasurer. The city treasurer may receive payments of city taxes prior to the due dates, or may receive partial payments at any time, for which he shall issue temporary or partial payment receipts. In returning unpaid city taxes to the county treasurer, the city treasurer shall add all penalties and interest due on said taxes to date; and from and after the date of the return, interest at the rate prescribed by state law for state and county taxes shall be collected by the county treasurer on the whole amount returned against any description of property.

Section 16. An official of the city, theretofore either elected or appointed, shall be designated by the council to be purchasing agent for all city purchases. The purchasing agent shall have authority to purchase all supplies and materials for the city, except that the city council shall approve purchases exceeding \$100 in value; but he may not purchase any item which exceeds any budget appropriation until the council has increased the appropriation as provided by this charter.

Section 51. The council shall audit and allow the claims and accounts against the city, or may delegate that function or any part of it to some other officer or officers. After such claims and accounts are approved by the council, or in such manner as the council may direct, vouchers shall be drawn upon the proper funds and certified by the city clerk. and thoroughly enjoys The Pointe area, with its park-like atmosphere, its many trees.

Lake St. Clair surprised him — he kept expecting tides in such a "big" body of water — but he has had no trouble adjusting to life in the Hulswit home... and the Hulswits have had no trouble adjusting to him.

A 'Traveling' Man

Prince Panya visited Washington for a State Department briefing and stopped off at the New York World's Fair before he came to Michigan. He spent last weekend in Montreal, seeing something of Canada. He will go to California for a few weeks, then return to France, perhaps by way of Laos.

For him, travel is a Way of Life. His mother is French; he was educated in France, returned to Laos during the summers when he was younger, but lately has preferred to travel to other countries during vacations, to see a bit of the world.

He has one more year of school in Paris, then intends to return to the United States and continue his studies at Harvard.

"I feel an obligation to my own country," he says. He wants to keep in close touch with Laos, perhaps to be active there politically, but will probably use his business and economic training in France or the United States.

Seldom Homesick

Homesickness rarely troubles him. "Everybody has homesickness," he notes, "but I have lived in so many countries!"

French and Laotian are both his native languages. "When I was in France, I used to miss Laos. When I was in Laos, I used to miss France. Now, I enjoy so many things in the United States, I miss nothing at all."

There are between 25 and 30 Laotian students in the United States (one is currently studying Horticulture at Michigan State University; Prince Panya hopes to pay him a visit), about a half dozen more in Canada.

Several hundred other young Laotians are presently studying in France. Laos is a former French colony, language and custom difficulties are minimal for students who choose to pursue their education in France.

But Prince Panya claims languages are relatively easy subjects for Laotians, whose own language involves so much memorization in the early stages of "reading and writing."

Auto Racer

A racing driver in France, Prince Panya thought, when he first arrived in America, that our traffic signs advising people to "Drive Carefully" were direct admonitions to himself!

He wouldn't dream of NOT driving carefully — "I don't like to drive fast, because you cannot be con-

scient of other people" — and is astounded at the relatively casual American attitude toward auto racing. In France, a racer must have a special driving license. In the United States, anyone authorized to drive a car can enter a race.

His reflexes MUST be good... the young men of Roland road have been trying to find a sport at which he doesn't excel. They took him bowling for the first

From Another Pointe of View

(Continued from Page 27)
time a few weeks ago — and he bowled a 185 game, beating everyone.
They taught him to play billiards — and he beat the teachers. Prince Panya claims his school training, with its emphasis on versatility, plus the fact that he has been "traveling a long time," have helped to make him adaptable.
He makes friends easily and quickly. So, for that matter, do the Hulsuits; they have two sons of their own, and have entertained a series of foreign exchange students over the years.
Last year, they opened their home to two Danish girls. The year before that, they were American "mother and father" to a Danish boy.
Prince Panya is their latest guest, and, like his predecessors, he "fits right in." If he has any complaint about American hospitality, it is that people are too friendly and direct, that they tell all about themselves in the first half-hour of conversation, leaving nothing to be discovered, unearthed, sought for.
But he likes the people of the United States, he likes the country. "Everything," he says, "is a splendid souvenir."
