PRESSURE IS RISING for a call-up of group reserve units from the Army National Guard to bolster the strategic reserve of divisions available in the United States for swift deployment around the world. Senior military officers say they believe at least one division should be called up.

However, three days after the Viet Cong opened their devastating city offensive Secretary of Defense Robert S. McNamara told newsmen "we believe that the American forces there at present are adequate." A member of Congress said the dispatch of more troops to Vietnam would be announced shortly and indicated that they were already programmed.

THE LATEST ROUND of peace probing between the United States and North Vietnam has not produced any basis for stopping the bombing of the North and opening peace talks. However, Secretary of State Dean Rusk, in making this report said that the United States remains interested "in a serious move toward peace when Hanoi comes to the conclusion that it is ready to move in that direction."

THE ARMY IS stockpiling riot control equipment in strategically located depots across the country, officials in Washington reported on Thursday, and is ready to airlift it to any city if civil disorders break out next summer. Details of the military establishment's riot duty preparations were disclosed after sources reported the President's Commission on Civil Disorders is dissatisfied with the National Guard's performance in quelling last summer's violence, and is considering recommending creation of a specially trained federal riot-control force.

THE JOHNSON Administration was severely criticized by the nation's educators for abolishing graduate draft deferments except for medical and dental students, students in related fields and those who will have completed two or more years of their studies by June. At the same time the National Security Council suspended indefinitely the official list of essential activities and critical occupations that Selective Service draft boards have used as a guideline in making occupational deferments. Administration officials estimated that 150,000 or more men would be drafted as the result of the changes in graduate deferments.

VIETCONG TROOPS SHELLED Tansennut Airport in Saigon and about 20 other military installations and cities from the Central Highlands to the Mekong Delta today. Allied troops braced for a possible renewal of the recent wave of enemy assaults in South Vietnam. Preliminary reports from Tansennut airport said that some planes had been damaged, a chapel burned and six men injured. General William C. Westmoreland, the American Commander in South Vietnam, was spending the night at the United States military headquarters compound there. None of the shells fell near the compound.

HALF A MILLION Florida public school children were shut out of classes Monday by the nation's first statewide teacher walkout. One-third of the state's teachers, 25,077 of 60,844, already had resigned Monday with 12 counties not yet reporting, according to figures from the State Department of Education and county school boards. The teachers acting through their professional organization, the Florida Education Association, began the walkout after rejecting as insufficient last Friday a legislative program for increasing financial support to public schools.

City Plans To Replace Old Meters

Study Shows Some Water Measuring Devices Built Before 1900 Are Still Being Used

The Council of the City of Grosse Pointe voted on Monday, February 19, to undertake a water meter replacement program consisting initially of the annual replacement at city expense of approximately \$7,500 worth of old existing meters with new remote reading meters.

The installation of remote reading meters will be required at the expense of the property owners for all new water services. Remote reading installations will be made available upon request to any water customer at a charge of \$25, (priority to be on a first come, first serve basis, and within the capabilities of city personnel and budget allotment).

Earlier this year City Manager Thomas Kressbach advised the Council of the need for such a program. He explained at that time that the old meters have a tendency to "run slow" at low rates of flow thereby under-registering actual water used; that it was difficult to get spare parts for very old meters and that it is often more economical to install new meters than to repair old ones.

Some Real Antiques
He pointed out that recent studies show that the City has 41 meters in service which were built prior to 1900 and another 58 meters of pre-1910 vintage.

Mr. Kressbach said that when the water rates were revised (Continued on Page 4)

School Board Treasurer Explains Need for Tax Raise to PTA at Mason

John Short Cites Higher Salaries and Other Costs and Growth in Population as Factors Behind Necessity for Additional Levy

John T. Short, treasurer of the Grosse Pointe Board of Education, addressed the membership of the PTA of Mason School Monday night on the issues of the special school election slated for February 26. His talk was part of a community-wide series of meetings designed to inform the public.

"Your Board of Education is committed to the principle of keeping the salaries of the staff members competitive with those offered in comparable Detroit metropolitan area school districts," Mr. Short said.

"You are certainly aware that in a period of turmoil, strikes, and uncertainty about the opening of schools this fall, our Grosse Pointe schools did open on time," he added.

Trustee Short cited the foresight of the Board and bargaining agent in agreeing to a re-examination clause which provided for a re-opening if the local schools fell below fifth place in the composite ranking among 19 Detroit area school districts.

Meet Challenge
As a result, the teachers assumed a more competitive standing. "However, unless the local schools meet the challenge for top calibre personnel, the neighboring districts, which already have set beginning salaries of up to \$7,500 for 1968-69, will outdistance Grosse Pointe again," he added.

"But collective bargaining and its impact on the budget is only part of the story. Over the last couple of years we have added staff. For example, more than 50 additional teachers were employed this year to meet enrollment growth and to provide an educational program of

a better quality," Mr. Short commented. "As we open Grosse Pointe North and change to a middle school type of organization approximately 50 additional teachers and administrators will be needed for the 1968-69 year. Included in this number are both elementary and secondary teachers to eliminate oversized classes and to meet increased enrollments. We estimate the cost of these additional professionals to be \$450,000.00 he said.

Costs Have Increased
"Because of the growth of the public school population and the national economic spiral which has caused prices and wages to rise higher and higher, the 6-year levy approved in 1963 will not provide adequate funds. The Board of Education would have had to request additional millage from the voters in the fall of 1966 to meet staff payroll if the State's reassessment of property had not provided the school district with a larger tax base," Mr. Short said.

Trustee Short discussed the implications of the outcome of the election to the total community. "For those with children in school or about to enter school, the need for a successful outcome to the ballot is obvious," he said. "However, I wish to stress the community-wide nature of the improvements inherent in the election. The package is one of total community betterment. Every segment of our population benefits from an effective public school organization," he said.

Cites Examples
Mr. Short cited these examples:
1. Property values are tied closely to the reputation of the schools in a community.
2. The public schools provide a variety of services that are used by everyone in the district. The most obvious of these is, of course, the public library system. Another widely used activity is the program provided by the Department of Community Services. For example, the Adult Education Program alone attracts 6,000 students in evening classes.
3. Under the State Law 343 the public schools make available such services as speech correctionists, remedial reading teachers, psychologists to the non-public schools in the area.

Continue Effort To Inform Voters On School Issues

Possible Questions About Proposition 3 Answered In Quiz Prepared By Trustees Of Board Of Education

In an effort to inform the community fully on the background to the special school election scheduled for February 26, the trustees of the Grosse Pointe Board of Education are conducting an informational campaign designed to answer all questions that citizens may have concerning the issues.

Proposition #3 asks permission to borrow money to improve public library facilities at a cost of 34 of one mill for 15 years. The funds would be used to expand Central Library, to replace the present inadequate Woods and Park branch and give the space to the schools, and to acquire a site for the Park Branch.

WHEN DID WE LAST EXPAND OUR PUBLIC LIBRARY SYSTEM?

The last expansion took place when the Central Library was opened in January, 1953, given by D.M. Ferry, Jr. at no expense to the taxpayers. Mr. Murray Sales, members of the Friends, and many local organizations also contributed.

WHAT HAS BEEN THE GROWTH OF THE COMMUNITY SINCE THE LAST LIBRARY EXPANSION?

Population increased 50% from 47,000 to 70,000 in the school district since the Woods Branch and Central Library were planned in 1951.

WHERE IS THE NEW PARK BRANCH LIBRARY TO BE BUILT?

We hope to purchase three lots at the southwest corner of Jefferson at Pemberton.

WHERE IS THE NEW WOODS BRANCH LIBRARY TO BE BUILT?

It will be constructed on the grounds of Parcels Junior High School.

WHY NOT EXPAND THE PRESENT BRANCH LIBRARIES INSTEAD OF BUILDING NEW ONES?

The space is not only needed for classrooms and school use at both Pierce and Parcels, but it is inadequate to meet the demands of the community for library service. For the past 7 years, the Woods Branch Meeting Room has served as a classroom. Also, the location of the Park Branch is far from ideal for a public library.

WHO USES OUR PUBLIC LIBRARIES?

All residents of the Grosse Pointe school district, including adults of all ages, college students, and youngsters, grade school and high school students from public, private and parochial schools, use the libraries.

WHY IS PUBLIC LIBRARY EXPANSION NECESSARY?

In addition to a 50% population growth, the number of registered library users increased 150% from 11,000 to 31,000, the percentage of registered users to school district population increased from 25% in 1951 to 44% in 1967, the total circulation of all library materials increased from 190,000 in 1950-51 to 512,000 in 1966-67, the per capita circulation increased from 4 books per capita in 1950-51 to 7 in 1966-67.

Schools Ask Millage Hike, Bond Issue

Three Separate Proposals on Ballot; Polls Located in All Elementary Buildings

Monday, February 26, is the day that voters of the Grosse Pointe School District will go to the polls located in the public elementary schools serving their areas, and ballot on the fate of three school propositions.

The polls will be open from 7 a.m. to 8 p.m., and any one waiting in line at closing time will be permitted to vote.

All qualified registered voters may vote on Proposition No. 1, and only qualified registered voters who have property assessed for taxation in the District, or their spouses, may vote on Proposition No. 2 and No. 3.

Applications for absentee ballots may be obtained from the Election Office of the Grosse Pointe Public School System, 389 St. Clair avenue, or telephone 885-2000, Extension 23. The absolute deadline is 2 p.m. on Saturday, February 24.

Set by State Law
According to State Law, all qualified electors (and their spouses) may ballot on levies which run five years or less.

Proposition No. 1 is designated for two years; whereas, if a millage proposition runs for more than five years, only property owners (and their spouses) may vote. Proposition No. 2 is for 10 years.

Under the law, all bonding propositions, regardless of length of time, may be approved by property owners.

Proposition No. 1 asks for an increase of the tax limitations against all property in the School District by seven and one-half mills, or \$7.50 for each \$1,000, as equalized for the years 1968 and 1969, to meet general operating expenses of the District.

Proposition No. 2 calls for an increase of one mill, or \$1 on each \$1,000 assessed valuation, as equalized, for a period of 10 years, to be used for the construction, furnishing and equipping of additions to existing school buildings, the remodeling and repairing of existing school buildings and to purchase real estate for school purposes.

Library Expansion
Proposition No. 3 is a request for permission to sell bonds to raise \$2,450,000, to provide funds for the erection, furnishing and equipping an addition to the existing Grosse Pointe Central Library Building, to erect, furnish and equip two new branch libraries within the School District (to replace two existing branch libraries) and to acquire an additional site for one of such new branch libraries.

The bond issue will be paid back over a period of 15 years, and will cost the taxpayers .75 mills, or 75 cents per \$1,000 valuation.

The last expansion of the Public Library System took place in January 1953, when the Central Library was donated by D. M. Ferry, Jr., at no expense to the taxpayers. Murray Sales and Friends of the Library, and many local organizations contributed to this.

Population Increase
The population jumped from 47,000 to 70,000 in the School District since the Woods Branch (Parcels Junior High School Building) and the Central Library were planned in 1951. Another branch library is located in Pierce Junior High School.

In addition to the population growth, the number of registered users of the libraries increased from 11,000 to 31,000. The percentage of registered users to school district population increased from 25 percent in 1951 to 44 percent in 1967, and the total circulation of all library material jumped from 190,000 in 1950-51 to 512,000 in 1966-67.

If the taxpayers approve the bond issue, the Central Library will be expanded by 30,000 square feet, extending south into the area presently occupied by the parking lot, with minimal encroachment on high school property; the new Woods Branch on the Parcels site, Vernier and Mack, will be 13,000 square feet; and the new Park Branch on the grounds of the hospital building on the grounds that it would increase the already existing on-street parking problem in the area. The hospital proposes to increase its present 110-bed capacity, to 180 beds.

This, the area citizens protested, would only add to the parking problem. They asserted that visitors have inconvenienced them by parking in front of their homes, making it impossible for the residents to park there themselves.

Hospital officials said that they would like to remedy the situation, but find it impractical under the present ordinance, which requires the institution to provide one and one-half parking spaces for each bed, which, under the proposed expansion program, means that the hospital would have to provide 135 parking spaces.

City Council Joins COG on Trial Basis

Follows Move Taken by Farms Last Year; Mayor Burgess Named Representative

The City of Grosse Pointe Council, at its meeting on Monday, February 19, voted unanimously to become members of the Southeastern Michigan Council of Governments and pay the annual dues of \$360.

The members selected Mayor David E. Burgess as their representative to the Council and Councilman George D. Henry as alternate. The City Council agreed that the membership would be subject to review annually.

The Council of Governments is a voluntary organization of counties, cities, townships, and school districts in a six-county area, comprised of Wayne, Oakland, Macomb, Monroe, St. Clair and Washtenaw. Its purpose is to foster among governmental units in Southeast Michigan a cooperative effort in resolving mutual problems, policies and plans that are common to the members and regional in nature.

Grosse Pointe Farms joined the organization in December of last year, also on a temporary-trial basis.

Park Policeman To Quit Force

Park Patrolman Robert Corey, a veteran of four years on the police force, submitted his resignation on Tuesday, February 13, which will become effective on February 28, it was disclosed by Police Chief Arthur Louwers.

Corey, who was appointed to the Park Department on March 16, 1964, is leaving to join the Sterling Township Police Department, which hopes to eventually have a 100-man force patrolling the 36-square mile township. He is the 25th man hired by this agency.

The officer said that he had taken into consideration the large area of the township and its rapid growth, and felt that as the Police Department increased its number of officers, he would have a better chance of advancing in rank.

In the most recent examination given a large number of prospective recruits, Corey finished third at the top of the list.

Cottage Hospital Granted Variance on Zoning Law

Cottage Hospital, at odds with its neighbors and city officials for many months because of proposed additions and alterations, appealed a denial of a permit for a \$3 million dollar expansion of facilities, and was granted a temporary variance of a section of the Zoning Ordinance which requires a certain number of off-street parking spaces for the total allowable beds in the institution.

On Monday, February 19, the Farms Council, sitting as a Board of Appeals, heard arguments from Muir and Mapleton road residents directly affected by the proposed expansion, and from hospital officials.

The residents, most of whom reside within 300 feet of Cottage, were opposed to any additions or alterations to the hos-

pital building on the grounds that it would increase the already existing on-street parking problem in the area. The hospital proposes to increase its present 110-bed capacity, to 180 beds.

This, the area citizens protested, would only add to the parking problem. They asserted that visitors have inconvenienced them by parking in front of their homes, making it impossible for the residents to park there themselves.

Grosse Pointe Woods Councilman Kenneth W. Boerner, Thomas E. Leah and Benjamin W. Pinkos, will run unopposed for four-year terms as councilmen at the coming April election.

Mayor Kenneth R. McLeod, who has been Mayor of the Woods since 1962 is running for a two-year term unopposed. The deadline for filing nominating petitions was 5 o'clock on Monday, February 19.

Facilities Outgrown
Present library facilities are called inadequate for the present population of 70,000 in the School District. For a community of this size, books should number 192,000 based on minimal national standards almost universally observed.

As of June 1967, there were 119,000 books, leaving a shortage of 73,000 to serve the present population. Since the population is increasing, the book collection should ultimately be 221,000. This leaves a projected shortage of 101,000 books which should be provided for the future.

The expansion program is planned to provide for an anticipated population of 80,000 as recommended by an outside consultant, Ransom Richardson, who was hired and paid by the Friends of the Library.

In addition to the capital improvement program, the School Board is considering leasing space in the Seven Mile-Mack area as a pilot project, as recommended by Richardson.

Mrs. Alice M. Hykes, president, and the six members of the Board of Education urge all qualified electors to ballot favorably for all three propositions, but nevertheless, go to the polls and vote.

He pointed out that six of the persons who have applied to join, have rendered valuable assistance in that they have already installed technical equipment, which proved very successful.

IN WHAT WAYS ARE PRESENT FACILITIES INADEQUATE?
In many ways, but of first importance, there are simply not enough books; and not enough shelf space, requiring discarding one book for every book added. The Public Library's basic service is its book collection. For a community of 70,000, the books should number 192,000, based on minimal national standards almost universally observed. As of June 1967, there were 119,000 books, leaving a shortage of 73,000 to serve the present population. Since our population is increasing, the book collection should ultimately be 220,000. This leaves a projected shortage of 101,000 books which should be provided in the near future.

IN WHAT OTHER WAYS ARE THE EXISTING PUBLIC LIBRARIES INADEQUATE?
There is an acute shortage of floor space for patrons and the staff. Workroom facilities are so crowded that the staff cannot operate efficiently.

HOW DID THE PROPOSED EXPANSION PROGRAM ORIGINATE?
The proposed expansion program is the direct result of a study in 1966 by an outside consultant, Mr. Ransom Richardson, authorized and paid for by the Friends of the Library. This objective study was made by a nationally recognized expert in the public library field and incorporates recommendations contributed over the years by staff members.

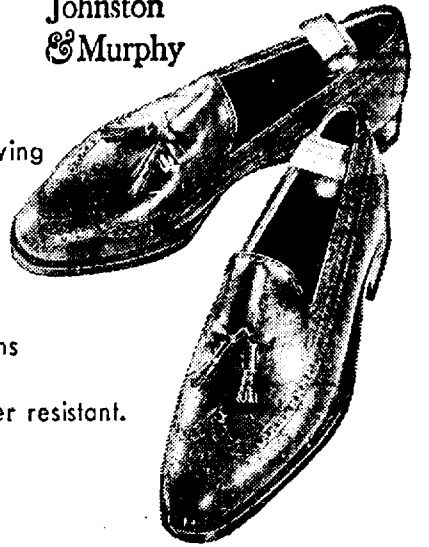

WHAT FACILITIES WILL BE PROVIDED?
The Central Library will be expanded by 30,000 square feet, extending south into the area presently by the parking lot, with minimal encroachment on high school property; the new Woods Branch building on the Parcels Junior High site at Vernier and Mack will be 13,000 square feet and the new Park Branch building will be 10,000 square feet. The bond issue covers furniture and equipment, as well as a site for the Park Branch.

IS THE EXPANSION PROGRAM PLANNED TO ANTICIPATE FUTURE GROWTH?
The expansion program provides for an anticipated population of 80,000, as recommended by the consultant. In addition to the capital improvement program, the Board is considering leasing space in the 7 Mile-Mack area as a pilot project, as recommended by the consultant.

WHY IS IT NECESSARY TO EXPAND THE PUBLIC LIBRARY FACILITIES WHEN THE SCHOOLS HAVE THEIR OWN LIBRARIES AND INSTRUCTIONAL MATERIALS CENTERS?
Emphasis in the school libraries is upon materials related to various curricula and courses of study while the public libraries gear their collections to the taste of the more general adult reader.

OPEN THURSDAY EVENINGS

Vote Yes Vote Yes Vote Yes

(Keep Pace, Grosse Pointe.

**Vote Yes 3 times
on Feb. 26)**

**When you vote YES on Monday February 26, you make
an important investment in your community.**

Your YES vote on Proposition I will:

- meet rising school costs
- retain and attract good teachers
- meet other needs of our growing enrollment.

Your YES vote on Proposition II will:

- provide building expansion for our growing enrollment
- help renovate schools to maintain our traditional high standards.

Your YES vote on Proposition III will:

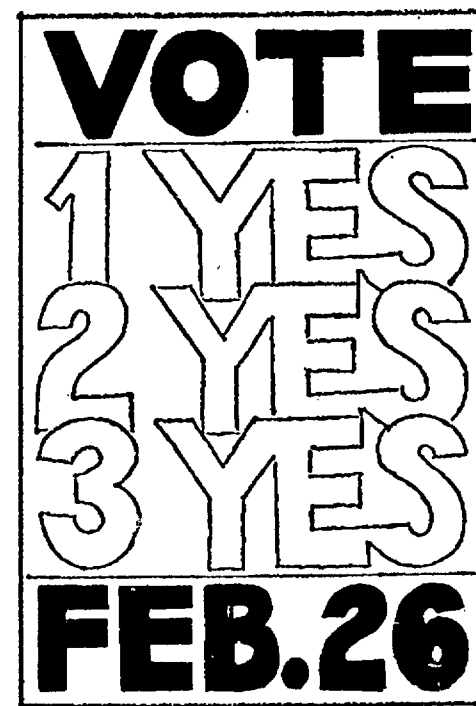

- improve and expand library facilities used by everyone.

Excellent schools are a priceless community asset. They keep property values high and make Grosse Pointe an even more desirable area in which to live.

Nearby communities have followed our lead and improved their school systems. Our teaching salaries must be more competitive. Our facilities need to be enlarged and strengthened to serve our growing enrollment. We must keep pace.

Three YES votes on February 26 will maintain your excellent schools . . . your property values and will keep Grosse Pointe an excellent community in which to work and live.

Everyone benefits.

Here's how some of your neighbors feel:

Dr. and Mrs. Douglas Sargent
Concerned that you are not asking enough.

R. Fred Kolowich
I am convinced that the request to voters is reasonable. A strong public school system is vital to not only our public school students, but to our parochial and private school students as well.

Mr. and Mrs. William Bowerman
Yes votes provide insurance for the maintenance of high quality education for our children and high property values for all property owners.

C. Jack Persson
My careful study indicates all three propositions are needed.

Sara Leopold
The values of a community are reflected in the quality of its schools.

Dr. Armin Grams
It's time to back up our talk about excellence in schools with some substantial financial support.

David H. Fairless
I personally endorse all three proposals. Let us continue and expand the educational heritage that means so much to all of us.

Charles E. Swenson
I wholeheartedly endorse all three proposals.

Mr. and Mrs. J. Fischer, Jr.
The League of Women Voters of Grosse Pointe fully supports the bond and millage proposals and urges a Yes vote on February 26.

Frank Hedge
Continuing improvement in our democracy depends primarily upon strong support of our public school system.

Paul J. Blackburn
Although our fourth and "last" child graduated last year, as parents and taxpayers our family deserves the best education we can give them.

Mr. and Mrs. Donn G. Kipka
Our youth are our most important asset. They should be expected from them, they are going to have to have the very best education that can be provided, and it can't be provided unless we vote favorably on the bond and millage issues.

Mr. and Mrs. James Kearney
Any investment residents make in education and library facilities is returned a hundred-fold in the community. Our library cannot stand still.

Mr. and Mrs. Thomas E. Candler
Education is the greatest gift that we can give our children. Support the millage February 26 and continue to provide fine schools for them.

Dr. Alfred H. Whitaker
I should like to emphasize the importance of Proposition No. 3. The library system is hurting.

Mr. and Mrs. Ted J. Wilner
Our needs for strengthened facilities are urgent. The program outlined by the school board proposals appears to be a very workable one. We endorse it.

William H. Genematas
I am favorably inclined toward our progress but feel that each professional teacher will be teaching more students in each class in the future.

David E. McCarron
Education is a must. I can think of no better investment.

Robert E. Mozena
I believe in an increase in salaries and additional housing for the schools.

Mrs. Hilda Pongracz
My three children derived great benefits from their Grosse Pointe Schools.

Mr. and Mrs. C. R. Randall
We are pleased to be able to vote Yes on the three proposals. We feel that the Grosse Pointe School system is an excellent one and that proper education is the only solution to future and present problems.

Mr. and Mrs. Arthur Sherman, Jr.
We urge adoption of the three proposals on the ballot February 26, 1968. They are vital to the maintenance of our standard of excellence.

City to Replace Meters

(Continued from Page 1)

last year, it was contemplated
that a water meter replacement
program be undertaken at city
expense, and should include the
installation of remote reading
registers.

Mr. Kressbach felt it to be in
the City's best interests to
utilize the Neptune Meter Com-
pany's meter in the replace-
ment program since the City
has purchased its water meters
from them in the past and has
been satisfied with both the
product and the service of the
company.

Prices Are Comparable

He added that in comparing
prices, his office found that
like meters from different com-
panies had nearly identical
prices. He also felt it best to
continue with a uniform make
meter in the City.

In reaching this recommenda-
tion various types of remote
meter reading devices were in-
vestigated. The device offered
by Neptune is called the ARB
system, Automatic Reading-Bil-
ling. Investigation of this sys-
tem revealed that it was a very
sound system which would meet
the City's needs.

Some of the advantages of
this remote reading system are
that it will speed meter read-
ings, eliminate call backs and
estimated bills, insure reading
accuracy, and reduce meter-
reader accident potential. This
system also will facilitate the
introduction of data processing
in the future for billing pur-
poses.

Exclusive of meter and instal-
lation costs, the Neptune ARB
remote reading device costs \$13
with a new meter and approxi-
mately \$17 when connected to
an old meter. A remote reading
system for all city customers

Biting Dog

(Continued from Page 1)

Under the law, a biting animal
must be kept under obser-
vation for a 10-day period to
determine if it has rabies, or
not. In this case, the Old Eng-
lish Sheep Dog was apparently
in excellent health, since the 10
days had expired on February
16, the day the animal was re-
turned for identification, much
to the satisfaction of all con-
cerned.

If the dog had not been found
by Saturday, February 17,
young Roddewig and Doyle
would have had to take the com-
plete series of shots for pos-
sible rabies.

The parents of the two bite
victims had made every effort
to obtain information to locate
the dog, especially Mrs. Rodde-
wig.

They sought the assistance of
the NEWS (story was printed
in last week's issue), police,
schools, postmen, radio stations,
veterinarians, and others, in
trying to locate the dog.

They express their thanks to
all who helped in the search.

Driver Flunks
Drinking Test

Warren D. Bracken, 46, of
22418 Alexander, St. Clair
Shores, was arrested by Grosse
Pointe Shores police on Friday,
February 16, and charged with
driving while under the influ-
ence of liquor.

Shores Patrolmen Stanley
Olulakowski and Ronald Forth,
the arresting officers, said they
were on patrol when they ob-
served Bracken traveling south
on Lake Shore road at a slow
rate of speed, his car weaving
from lane to lane.

The officers said they saw the
motorist drive through the inter-
section of Vernier as the traffic
light turned red. Bracken was
stopped at Fontana lane, and
asked for his operator's license
and car registration.

Bracken, the policemen said,
claimed that someone had
stolen his coat at a bar in Fair
Haven, which contained the
needed papers. The man was
placed under arrest and taken
to the station, and later trans-
ferred to the Woods station for
a breathalyzer test. The results
showed that he was intoxicated
under the legal definition of the
law.

Project HOPE Surpasses Goal

The Greater Detroit Chapter for Project HOPE surpassed its fund-raising goal in 1967 for the fourth consecutive year.

A 1967 total of \$307,437.72 was announced by Herman P. Sattler, chapter chairman, and Jack M. Cudlip, 1967 campaign chairman, at a HOPE Board of Directors meeting.

It was pointed out that the total represents cash donations only, and that additional large gifts of medicine and medical equipment were also received by the Chapter. The cash total includes donations from many corporations and foundations, as well as gifts from thousands of individual Detroiters.

Special credit was also given to the Women's Division of Project HOPE which raised over \$40,000 at its Ambassadors Ball in May.

The money will be used to support the hospital ship S.S. HOPE, which will sail for Ceylon on March 6 to begin a 10-month treating and teaching mission. In the seven-year history of the S.S. HOPE, 9,000 major operations have been performed, 100,000 people have been treated and over 1 million children have been immunized. Some 3,500 native doctors, dentists, nurses and technicians have received medical education aboard the HOPE.

The Board of Directors voted to set the 1968 goal at \$325,000.

tal will have to provide 270 off-street parking spots on its lot. A variance from this requirement was asked.

In order to fully comply with the regulation, the hospital contended, it would be necessary to tear down the nurses' home on the grounds, and to remove all trees and green areas on the property and pave this area, to create the required spaces. This, it was said, would be detrimental to the neighborhood.

There are 175 parking spaces on the hospital lot, at the present time, it was pointed out with an entrance drive on Muir road, and an exit drive on Kercheval, and one on Ridge road.

The hospital officials offered two plans, one, which they asked for, which would provide a total of 189 spaces, 14 more than at present, or one that will require the removal of the nurses' home and the elimination of the trees and green areas, which would make room for about 207 spaces.

Over the objections of several of the residents in the audience, Councilman Henry Bodman proposed a motion, which was approved by the Board of Appeals, with two members absent, that the hospital be granted a temporary variance from the ordinance, which would allow the 189 spaces, and which will save the trees and the green belt on the property.

Bodman's proposal, as he stressed, means that the variance will be for one year, which should be sufficient time to determine if this move is adequate. After the expiration of the year, the matter will be reviewed for further consideration.

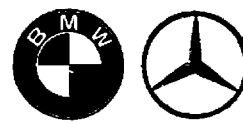

It was pointed out that the one year will begin with the completion of the proposed expansion, which will be started as soon as feasible.

It was apparent that the audience was displeased with the action taken by the Board of Appeals, but they appeared slightly appeased when the hospital officials promised that parking facilities will be provided on hospital property, to keep construction workers and equipment off the streets in the area.

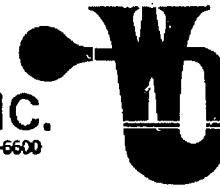

Voting for the granting of the variance were, Mayor William Butler, and Councilmen Mark Stevens, Richard Hudson, Bodman and William Kirby. Absent were Councilmen James Dingeman and Benjamin Warren.

At Michigan Bank. We pay 5% interest on time savings over \$1,000.00. Processes of Recruiting Teachers Undergo Changes

With last week's report of the "new look" in recruiting materials being put into use for the first time this month by The Grosse Pointe Public School System in its efforts to garner its share of the top calibre teachers in the growing competition, Lawrence F. Kennedy, Assistant Superintendent - Professional Personnel provided further insights into the schools' recruiting process and how it is changing to meet the growing demand for the talented teacher.

"Although the winter is the traditional 'beginning' of the recruiting season, we do recruit on a year-round basis, and have for many years. But it is in February that we begin in earnest to talk to the spring graduate about his plans for the coming year," he said.

"In addition to the imaginative, colorful new packet of recruiting materials produced in cooperation with the local schools' Public Relations Advisory Committee and which represent a gift of time and talent to the schools estimated at between \$10,000 and \$15,000, we have embarked upon a number of new recruiting practices which we hope will prove fruitful," he said. "For example, we ran an ad in the New York Times on February 4, in an attempt to interest candidates in applying for fall vacancies," Mr. Kennedy said.

In recent years the schools' Department of professional Personnel has grown to meet the demands placed upon its staff. For example, with the advent of collective bargaining, Mr. Kennedy spends more and more of his time on this aspect of personnel work.

Several years ago an administrative assistant, Miss Warena Rhodes, was added to help with out-of-town recruiting and office routine. The secretarial force has also doubled to meet the increased work load.

To meet the demands of a growing school system, Mr. Kennedy said, "We are exploring 'fractional day' teachers. This means that we are considering taking halves, thirds, or sixths, to staff positions. We expect that more of this will be done, even in the elementary grades, in self-contained classrooms."

Some easing of certification procedures is now authorized by the Michigan Department of Education, although not being practiced. There is currently, as in the past, the possibility of certification on the basis of experience or examination with a reduction in the professional education sequence reduced.

"This will help us, when used, to get at people who have had good liberal arts training but no professional education training," Mr. Kennedy indicated.

"Although greater rewards have developed in education, so they have in other fields of employment. For example, statistics tell us that salaries nationally have advanced 61.9 percent since 1957, while the cost of living rose 38 percent. Therefore, relatively speaking, teaching pays better than was the case 10 years ago," he said. Locally, salaries for teachers, however, have advanced only 45 percent in the same period.

"Exciting practices, facilities,

Do you know what Christian Scientists really believe?

Relatively few people do. They are often surprised at the logical and understandable theology of this Christian religion. In fact, many people have become Christian Scientists when they have discovered how clearly it relates the teachings of the Bible to living in today's world.

Home Gardening Course Offered

The Department of Community Services-Grosse Pointe Public School System in cooperation with the Men's Garden Club of Grosse Pointe is offering a six-week course in Home Gardening beginning Wednesday, March 6, from 7:30 to 9:30 p.m. in the Community Service Building, 43 Grosse Pointe boulevard, and concluding on April 10.

The opening session will feature F. MacLean Alexander, Jr., who will discuss "Planning Your Garden." He will suggest how to make the most of your available garden area, what to do and what to avoid in planning your home grounds, use of ground covers, borders, beds, pools, terrace, trees and screens.

Mr. Alexander studied landscaping at the University of Michigan and Michigan State University and was graduated from Wayne State University. He is presently a landscape contractor and a member of the Men's Garden Club of Grosse Pointe.

This course is open to the public and the cost is \$8. Interested persons should call TUXedo 5-3808 for reservations.

CAR WINDOW SMASHED

City Police received a report of malicious damage to property from Thomas Blakely, 4131 Kensington, Detroit, on Sunday, February 18. Mr. Blakely said that his auto was parked in front of 583 Lakeland from 6 p.m. on February 17, until 1:04 a.m. on February 18, while he was visiting a friend during that time persons unknown broke the rear window of his car. Police officers found fragments of beer bottle glass inside the car and on the street.

School Trustees' Pledge On Tax Levy Reiterated

In his remarks to the PTA of Trombly School on Monday night, Russell H. Peebles, vice-president of the Grosse Pointe Board of Education, reiterated the pledge of the school trustees regarding the reassessment of property within the school district.

"The Board will vote to levy only the taxes required to meet the \$5,100,000 projected deficit over the next two years," he assured the membership.

Mr. Peebles showed a chart of the Board's projected budgets for the next two years. He indicated that a deficit of \$1,649,651 is anticipated during 1968-69 and one of \$3,449,396 is foreseen for the 1969-70 year.

"The total deficit for the two years," totals more than \$5 mil-

lion. This figure, divided by the school district's current State Equalized Valuation of \$347,911,403 equals 14.656 mills, or 7½ mills for each of the two years," he explained.

Commenting upon the building and site levy, Mr. Peebles reminded the audience that Grosse Pointe is an "old" suburban community. Defer, Trombly and Grosse Pointe High are at least 40 years old. Mason and Richard are approaching that age.

"If you know these buildings, you know that we have wisely spent money on preventive maintenance. They are all in excellent condition, but there comes a time when one must advance beyond maintenance. At Trombly School, for example, the heating plant must be replaced. The proposed building and site levy will permit us to provide both for a growing population and an aging physical plant at the same time," Mr. Peebles said.

The vice-president of the Board summarized the need for the passage of the three propositions.

Battery Thieves Strip 20 Cars

The thieves who have been stealing batteries from brand new vehicles of three Park car sales agencies are believed to be one and the same, according to Park Police Chief Arthur Louwers.

The sales firms have been experiencing a number of such thefts, the chief said, with the latest report revealing that the thieves had taken a total of 20 batteries from as many automobiles parked in outside yards adjacent to the company buildings.

The heaviest hit was Grosse Pointe Chrysler-Plymouth, 15401 East Jefferson, from where 12 batteries were stripped from new cars during the night of Thursday, February 15. The items, all of the 12-volt variety, are valued at approximately \$30

each. Ted Ewald Chevrolet company officials said that robbers entered the lot of the firm at 15175 East Jefferson, sometime during February 11 and 12, and removed the 12-volt batteries from three new cars in the lot.

Officials of Richard Buick, 15027 Kercheval, reported the theft of five batteries, all of the 12-volt type, from as many new cars in the company lot. These thefts took place sometime between January 31 and February 13, it was said.

Similar complaints have been made by the companies on other occasions.

The retiring Den Mothers were awarded certificates thanking them for serving, and the new Den Mothers were introduced.

The Cubs and their families were entertained by a fine western documentary.

When you vote YES three times on Monday, February 26, you brighten the future of your child. Every year your investment in better education provides even greater dividends.

It broadens capacity to serve family and community, and deepens understanding of our fast-changing modern world. It paves the way to college and business opportunities which, in turn, mean higher earning power.

Above all else, the character and quality of a school system are determined by its faculty. The men and women who mold the minds and challenge the imagination of students are a priceless educational commodity.

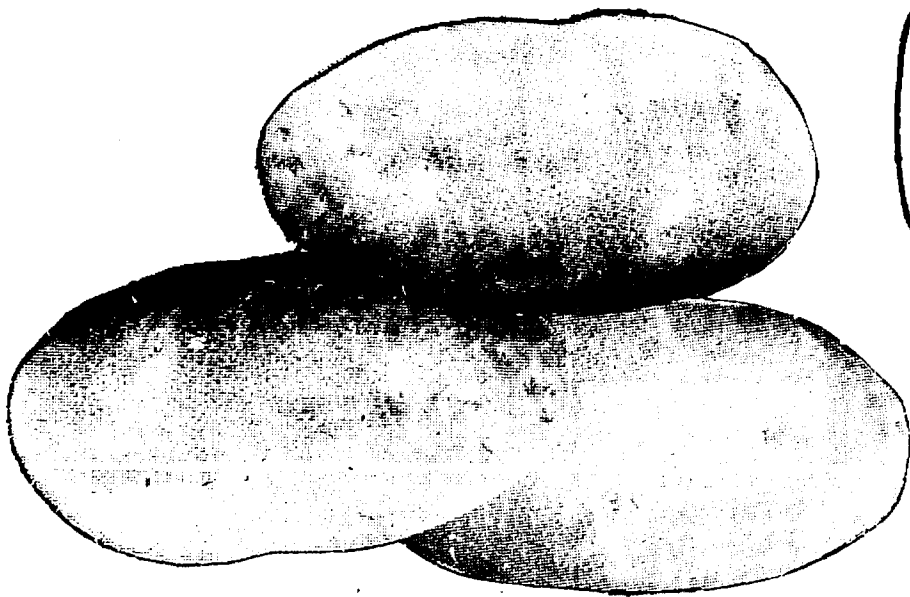

Your support of all three propositions will help retain and attract good teachers, librarians, and all the other dedicated people who make our system work.

It all adds up to better schools . . . better education. These enhance property values and make Grosse Pointe a more desirable community in which to work and live.

Pingel Elected To Hall of Fame

The 1968 National Football Foundation Hall of Famers features a balanced blend of passing, running, blocking, and tackling, as well as one of the game's great coaching innovators.

Five former backfield stars including John S. Pingel, of 582 Peach Tree Lane, Grosse Pointe Woods, and three ex-linemen joined retired Coach Clark Shaughnessy as 1968 inductees.

The running backs included Harvard's late Eddie Casey, Michigan State's gifted Johnny Pingel, Illinois' Mr. Five-By-Five, Claude (Buddy) Young, and the star of the first Sugar Bowl game, Claude (Monk) Simons, whose 86-yard touchdown sprint in the closing moments gave Tulane a victory over Pop Warner's Temple Owls in the initial New Orleans post-season spectacular.

The passer is blond Bobby Layne, the University of Texas' colorful backfield star and field general extraordinary.

The linemen are Adam Walsh, captain of Knut Rockne's most famous Notre Dame team—the Four Horsemen 1924 eleven, tackle Albert (OX) Wistert, second of three All-American brothers at Michigan to be elected to the Football Hall of Fame, and Yale's heralded Henry Ketcham who won all-America honors at two different positions, center and guard just prior to World War I.

The 1968 electees will be inducted into the Football Hall of Fame in New York December

JOHN S. PINGEL

3 at the Eleventh Annual Awards Banquet at the Waldorf-Astoria.

Michigan State's John Pingel paced the Spartans to 20 victories in three years of varsity competition as a triple threat halfback. He was named to the 1938 Associated Press All-America backfield which also included three men already elected to the Football Hall of Fame, Columbia's Sid Luckman, Davey O'Brien of TCU, and Marshall Goldberg of Pittsburgh. He was regarded as a superb runner, kicker, and passer. He served in the Army for five years during World War II, rising from second lieutenant to Lt. Colonel and was awarded the Purple Heart and Bronze Star.

Pingel was born in Mount Clemens, Mich. He started his advertising career in Detroit after the War and today is president of the Ross Roy, Inc. He is a trustee emeritus of his alma mater and is also vice-president of the Detroit Area Council, Boy Scouts of America; Chairman Political Action Committee, Greater Detroit Chamber of Commerce, is currently on the Board of Directors of Greater Metropolitan Detroit Project HOPE, and Community Action for Detroit Youth. He has received the Michigan State Distinguished Alumni Award and this year was presented the Boy Scout's highest honor to a volunteer leader — the Silver Beaver Award. He is also an Elder in the Church.

THIEF TAKES COAT

Allan Cook of 717 Westchester road, called Woods police on Sunday, February 18, and disclosed that he had hung his coat on the clothes rack in Blazo's Restaurant, 19299 Mack Avenue, while eating. When he was leaving he discovered the garment was missing. In the pocket of the coat was a pair of gray pigskin gloves and his pipe, he added. He did not give the value of his loss.

Woods and Liggett School Agree on Playground Use

The Liggett School-Woods Shores Homeowners Association-Grosse Pointe Woods, controversy over the use of Liggett School playground facilities was resolved at a meeting of the Committee-of-the-Whole, on Monday, February 12.

Members of the Woods Council, acting as a Committee-of-the-Whole, accepted the conditions outlined by the Board of Trustees of Liggett School in a letter dated January 4, and addressed to Mayor Kenneth R. McLeod.

That letter limited the use of the playground for a period between June 15 and September 1, and specified that the City of Grosse Pointe Woods be responsible for the maintenance of the facilities and for the restoration thereof after its use. It also stated that the facilities be supervised and policed by the City during the period of use and stipulated that in no case shall it be earlier than 9 a.m. nor later than 9 p.m.

It asked that the City indemnify the school for any damages arising out of the use of the playground and for any liability to the public arising

out of such use. It also specified that a representative of the Department of Parks and Recreation be present during the periods of use and that the City be responsible for locking the premises at the finish of any use of property.

In a letter to Liggett School

1968 FORD XL FASTBACK

Hot water costs less with Gas.

Today you need more hot water than ever before. And you can have it. All the hot water you want. Oceans of it. Hot as you like it. For just pennies a day with Gas.

Only Gas gives you so much hot water for so little. Saves dollars over electricity. In fact, a Gas water heater turns out more hot water in one day than an electric one twice its size.

So, if you've been running short of hot water at your house, check into the new fast-action Gas water heaters at your plumber's or your plumbing and heating dealer's. Or, if you wish, call us. You can have all the hot water you want for less than you'd imagine.

Gas makes the big difference... costs less too!

MICHIGAN CONSOLIDATED GAS COMPANY

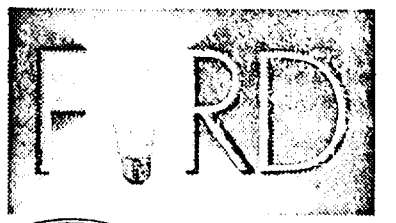

Check our LTD and XL. We've lowered the prices...and widened your choice. We did it by simply changing some standard equipment. LTD now comes with a bigger V-8 while power ventilation and the 2-door's vinyl roof are now options. On XL you now get the Big Six—and a choice of 4 V-8's. Buckets are now optional. And this year you get a standard manual shift on either XL or LTD. Choose SelectShift only if you want it. See the man with better ideas... your Ford Dealer.

FACTS ABOUT THE 1968 FORD

The Ford XL shown above comes with a strong die-cast grille and hidden headlamps as standard equipment. Top-of-the-line Fords are the only cars in their class that offer these features at no extra cost. Choose a 6-passenger XL fastback or an XL convertible with a power top and a rear window of real glass. Both come with a full-width front seat. Or you can choose foam-cushioned buckets and a padded console if you prefer. Smart GT-style stripes and wheel covers are standard on both models.

From the luxurious XL, LTD, Country Squire and Galaxie 500, right down to the practical Ford Custom, the entire 21-car Ford line is loaded with better ideas like these: Power front disc brakes at no extra cost when you order power brakes • Ford's exclusive push-button tuning when you order AM radio/Stereo-Sonic tape • An optional Convenience Control Panel with lights that warn you if your brake is on, a door is ajar, and to remind you to fasten your seat belt • A 2-way Magic Doorgate

and rear pillar air deflectors on all seven Ford wagons • Choice of formal or fastback styling on Galaxie 500 2-Door Hardtops • An optional automatic ride control system • A 7-position Tilt Steering Wheel and other exclusive options • Ford's famous Twice-a-Year (or 6000-mile) Maintenance. And to top it all, one of the world's smoothest, quietest rigs—proved year after year in tests against some of Europe's most expensive cars. Test-drive a new Ford today and see for yourself.

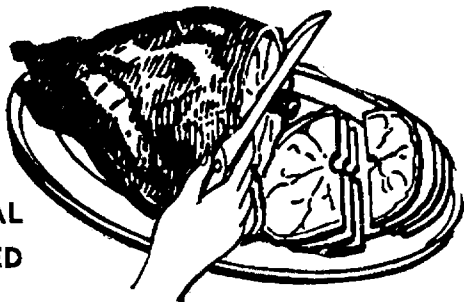

...has a better idea.

Organization of Scientists Fights Spraying with DDT

The Environmental Defense Fund, of Brookhaven, N.Y., an organization of scientists, is carrying into the courts the oft-debated problem of the use of persistent, broad spectrum pesticides in publicly-financed and directed pest control programs.

All five of the Pointes have been included in a staggering list of communities who are named as defendants or would-be defendants, in a suit that is attempting to prevent the use of DDT spray for control of Dutch Elm disease.

The Kalamazoo Nature Center also is embarking on a program, in cooperation with the new Michigan Pesticide Council, to stop the use of these broad spectrum pesticides. The Nature Center and the Council are co-operating to help provide whatever scientific or technical information may be required to

make the change to methoxychlor.

City managers of all the Pointes were asked if they had been contacted by the Environmental Defense Fund group before they received information regarding the court action. All of them said they had not been contacted by the group.

Thomas Jefferis, Village superintendent of the Shores said that he would be open to any suggestion regarding sprays used but added that methoxychlor was more costly.

Robert Stone, City manager of the Park, said the Park does use methoxychlor for summer spraying and has used it for five years. However it uses DDT for spring spraying. He also mentioned that the price of methoxychlor was almost four times that of DDT and added that bids for both DDT and methoxychlor were requested.

None of the City Managers voiced any objection to the use of, or the discussion of the use of, methoxychlor.

The Environmental Fund members maintain that efforts to correct immediate damage by pests often fail to consider the long-range harm of the persistent pesticides. The group is not opposed to pesticides that break down to a non-toxic form in the environment.

Most of the scientists in this group are nationally recognized experts in the relationship of living things to environment. Their studies have shown that while a pesticide may be diluted when applied, the concentration rebuilds to dangerous proportions as smaller animals accumulate them in their bodies and are eaten by large animals. Concurring with the Fund members the Michigan Department of Agriculture recently revised its recommendations and now warns against the further use of DDT.

Old Landmark Unique Place of Business

By Pepper Whitelaw
In its 90 years, (that's the best estimate we could get of its

age), the building at 2076 Mack Avenue has served many masters.

It was first a school house, in the days when Mack was just a dirt road. In the twenties it was rented to a church group and named The Church of Christ. Next it was a musicians studio, then a bachelor's pad. Today it's a place of business—a place of history, reminiscent of the old private banking houses.

Its new owner, Marc J. Alan, has a reputation for preserving the old, combining it with the new, and creating a place of beauty. Mr. Alan is a real estate consultant and intermediary. He moved into the building last June.

Took Much Planning
He and Mrs. Alan spent many a sleepless night planning the renovation. Mr. Alan frankly admits that most of the decorating ideas were his wife's, but the original idea for the purchase of the old landmark was his.

Years before he had visited the financial district in New York and quite by accident came upon an old private banking house that had retained all the charm and beauty of yesterday and used this charm as a background against which to conduct business. He never quite forgot that office, so when he heard that the old church was for sale he hurried out to see it and decided on the spot that he could recreate it into the business establishment of his dreams.

Lowered Ceiling
One of the major changes he has made is the lowering of the old 11-foot ceiling. He has used free hanging white acoustical dropped ceilings.

He retained the old wainscoting but antiqued it. The wallpaper above the wainscoting is oatmeal-colored burlap. The overhead lighting comes from antique brass chandeliers with teardrop light bulbs, (complete with dimmers for a softer, warmer atmosphere).

The room is furnished with three high walnut desks with distressed mahogany finish. The chairs are walnut with gold leather seats. The desks are lighted with student lamps.

Original Windows
The room still retains its original distorted glass in the window panes, with walnut shutters. The old bookcases too, have been retained, with the exception of the upper half of the shelves—this has been enclosed with shutters to hide the modern air conditioner.

Plush olive green carpeting covers the floors. The old cloak room still has the original coat hooks upon which, perhaps, a shy young lad in the late 1800's hung his cap when he came to school.

The woodshed is now the conference room. It has all of its old charm with its sloped ceiling and its short door. The flooring is of brick-like vinyl. The room is paneled with cedar planking and in one corner there is a cold snack bar with olive green bottle-glass doors on the cupboards.

Other Essentials
These are just surface improvements. Preceding all this Mr. Alan put new backing on all the walls, installed new wiring and added a completely new hot water heating system.

The exterior color of the brick building posed a real problem to the Alans. They tried three different colors before they

came up with the present putty-pearl shade. The crooked spire is painted black as is all the trim and the old tomato can lid that closed a once-used opening still remains as a touch of long ago.

Discoveries Add Zest
During the renovation the Alans found a 1932 newspaper, field mice, square nails, joined boards, crumbling plaster . . . but all these discoveries merely added to their growing enthusiasm for the place.

The grounds are full of the promise of spring. The old wire and post fence will remain, as will the old raspberry bushes, the peach trees, the grape ar-bors and the old playground with its big old Maple tree.

Through the Alans' efforts this old Pointe landmark still remains an object of pride to Grosse Pointers.

CAR BATTERY STOLEN

Joseph Giogetti of 1804 Aline, phoned Woods police on Sunday, February 18, and informed them that during the night an unknown person entered his unlocked garage and stole the battery from his car. He discovered the loss when the vehicle failed to start and he lifted the hood to see what was the matter.

We Urge You To VOTE "YES" on Proposition No. 3

Those of us who are familiar with the fine work of the Grosse Pointe Public Library are very much concerned about the Election next Monday, and particularly Proposition #3, which asks for permission to borrow \$2,450,000 for Public Library expansion, at a cost of 3/4 of one mill for 15 years.

Today, our Public Library facilities are so limited that the staff members can not give good library service no matter how hard they try; for example, our Public Libraries need space for 80,000 more books in order to give even minimal library service. This is the first time in the Public Library's 38-year history that we voters have been asked to provide additions to Public Library facilities. Mr. D. M. Ferry, Jr. gave \$500,000 for the Central Library, now it is our turn to help. If this Proposition is turned down, there is no question that our Public Libraries will become second-rate compared to other suburbs.

We Urge You To VOTE "YES" on Proposition No. 3

BROKEN WATER MAIN

City Police received a report from Mrs. Robert M. Cone, 17, Wellington place, on Sunday, February 18, of a possible broken water main. Mrs. Cone told officers that water was coming out between the curb and sidewalk on East Jefferson, just west of Wellington, and draining into the catch basin. Mel Beatty, water superintendent, was notified.

Group Organizes to Fight Diversion of State Money

Representatives of 20 active Michigan civic and church groups organized Monday night to fight against diversion of state money to private and parochial schools.

Called STOPS. (Spend Taxes On Public Schools), the groups represent two million Michigan taxpayers. Meeting at Ford High School they massed support for a drive to convince Michigan lawmakers that a large majority of Michigan taxpayers are opposed to further support of private and parochial schools.

The group, which takes the position that taxpayers' aid to parochial or private schools is unconstitutional and a drain on the already short supply of money for public schools, is seeking support from other organizations and citizens.

Among the groups represented at the meeting were the League of Women Voters, Citizens to Advance Public Education, the Urban League, Metropolitan Detroit Council of Churches, Berkeley Education, American Jewish Congress, American Civil Liberties Union, Michigan Council of Churches. The groups included people of Catholic, Protestant, and Jewish faiths.

Elected co-chairmen were: Mrs. Harriett Phillips of 2510 W. Roycourt, Huntington Woods, and Mr. Roy L. Stephens, 20305 Beaverland, Detroit. Mr. Stephens previously served as president of the Detroit School Board. Mrs. Phillips is president of CAPE (Citizens to Aid Public Education).

STOPS new headquarters is located at 2033 Park Avenue, Detroit.

Mrs. Phillips said STOPS is going to legislators with three fundamental reasons why they should oppose erosion of the public school tax base. They are:

"Private and parochial school supporters led by a few very active parish groups have flooded the Legislature with letters and telegrams supporting this tax diversion," Mrs. Phillips said.

"It is our hope that our elected officials will not be hoodwinked into believing they represent a substantial part of Michigan voters."

"STOPS will act as a watchdog organization and will work against election of legislators who support aid to non-public schools."

Car Thief Eludes Pursuing Police

A car thief who damaged a stolen car while eluding a pursuing police officer, escaped on foot and disappeared before the policeman could apprehend him, according to an official report. The chase ended in St. Clair Shores after the fleeing youth ran into a parked car.

According to a Shores police report, John H. Calder, 26, of 19799 Wedgewood drive, called the station to reveal that his Volkswagen had been stolen at about 8:15 p.m. from in front of 41 Fontana, where he was visiting. The key had been left in the ignition, he said.

Approximately an hour after an all-points broadcast to area police agencies to be on the lookout for the stolen auto, Woods Patrolman Donald Sabel spotted the car at Anita and Mack and gave chase.

In his report regarding the chase and the escape of the culprit, Sabel said he saw the driver of the stolen vehicle drive into the Big Boy parking lot, Mack and Vernier, and he followed. The other driver, on seeing the police car, took off at high speed, going north on Mack.

As the stolen auto reached the intersection of Mack and Red Maple lane in St. Clair Shores, the driver made a fast left turn and lost control and ran into the left front bumper of a parked car. The left rear fender of the Volkswagen was badly damaged. The parked vehicle, owned by Robert C. Downey of 22848 Lingemann, St. Clair Shores, received very minor damage to the bumper.

Sabel said that the thief then jumped out of the car he was driving and ran behind several store buildings. Sabel said he continued the pursuit on foot. The youth crossed to the west side of Mack, ran behind another building into a back yard on Elizabeth street, jumped over a fence and made good his escape.

The officer said that the youth was about 16 or 17 years old, about five feet nine inches tall, medium build, had dark long hair, and was wearing dark trousers and jacket.

An Open Letter to Whom It Should Have Concerned

On Wednesday, February 14, 1968 at 10 o'clock in the evening our dog, Smokey, was run down and killed in front of our home.

He was hit first by one car and then, almost at once, by another traveling in the opposite direction. Neither one of these motorists stopped.

Smokey was a fun-loving, good-natured family pet who belonged primarily to our nine-year-old son. We rushed the dog to a veterinarian who was kind enough to come to his animal hospital at that hour of the night in an attempt to save Smokey. It was, needless to say, too late to help. Fortunately our son was asleep at the time and was spared the horrible sight and the hysteria that followed.

The following morning of course, he had to be told. How do you tell a small boy that his pet had been killed the night before and he will not see him again? How do you explain the apathy of the drivers who were in such a hurry they could not be concerned over the death of an innocent animal who brought such happiness to his family?

There is no law which states that a motorist must stop at the scene of such an accident, but what about the unwritten, moral law. Have the mores of our society evaporated to the point that no moral concern is

left? God help us all if this is the case.

A great deal of the unrest in the world is due to such people, to their unconcerned attitude toward life. These individuals are to be pitied.

We do not seek revenge against the persons responsible,

we only wish to make our sorrow and grief known in order to help others to understand what is caused by such senseless, unfeeling behavior.

With the passing of time our grief will be abated, but we will never forget the terror of that night or the shattered heart of a young child who has lost his best friend.

Park Accident Injures Three

Three persons suffered minor injuries and two escaped being hurt when the car in which they were riding smashed into a tree at Buckingham and Kercheval on Sunday, February 18, following a chase in which the driver tried to elude police.

The driver of the accident car, Daniel Smith, 19, of 2950 Ashland, Detroit, was arrested and taken to the station, where he was issued a ticket for reckless driving and released after posting bond of \$50. A court date is pending. Smith escaped injury, as did a passenger in his car, William F. Marko, 19, of 21805 Downing, St. Clair Shores.

Three other youths in the car, however, suffered minor injuries and were taken to Bon Secours Hospital for treatment and released. They are, Thomas V. Furnari, 20, of 1029 Balfour, who suffered bruises and abrasions; and William J. Seria, 20, of 20504 Alexander, St. Clair Shores, and Thomas K. Sullivan, 20, of 634 Ashland, Detroit, both of whom reported neck whiplashes.

Park Patrolmen Donald Del-Place and Robert Corey said they were on patrol, and were at the corner of Kercheval and Beaconsfield, when they observed Smith traveling east on Kercheval at a high rate of speed and gave chase.

Prior to arriving at the Berkshire intersection, Smith, the officers said, passed another vehicle, left of the center line, and Smith's car went out of control and spun around and began skidding sideways. The car jumped over the north curb and the rear end of the automobile smashed into a tree, bounced off and landed in the middle of Kercheval where it came to a halt.

At the station, Smith refused to make a statement, the policemen said.

REPORTS THEFT

Gerald Poelker of 19910 Kingsville, Detroit, notified Woods police that while his car was parked in the Woods Theater lot on Saturday, February 17, someone broke into the vehicle and stole his stereo tape deck and four tape packs. He did not give the value of the items.

St. Paul Tankers Win First Meet

St. Paul's Tankers won their first meet in six starts when they downed St. Rita 58-43. The Tankers took six firsts and five seconds Friday, February 16, in the Brownell Pool.

In the first event a combination of Bob Hurley, Neil Person, Ted Remke and Pete De Galan placed the team on top 8.0 by taking the 200-yard medley relay.

Dave Fromm and Keith Karapuz placed second and third respectively in the 200-yard freestyle to give the team an additional four points. Pete Peacock's first in the 50-yard freestyle made the score 18-8.

But St. Rita's first in the individual medley, first and second in the diving, and first and third in the 100-yard butterfly gave it the lead, 27-26.

Bob Hurley nailed down the number one position and Steve Weitsman placed third in the 100-yard backstroke event as the Tankers regained the lead. St. Paul's one-two combination in the 400-yard freestyle and Jim Webb's first in the 100-yard breaststroke event increased the margin, 50-41.

In the final event, St. Paul's 400-yard freestyle relay team consisting of Bob Gorski, Chris Jensen, Steve Weitsman and Jim Hayes, grabbed a first for a 58-43 final victory.

News From Austin Prep

Austin Prep continues with its cultural activities by showing a film series this school year. Already shown have been "Raising the Sun," "Tales of Terror," "Macbeth" and "All the King's Men." "Julius Caesar" will be seen on March 10 and "Requiem for a Heavyweight" on April 8.

These films are open to the public at 7 p.m. without charge.

They are shown at Austin and the public and students from other schools are invited.

The Austin Yearbook was prepared for the second deadline February 19. The yearbook has submitted 100 pages of the fall and winter activities. One hundred and thirty pages are left to be submitted. The yearbook is under the editorship of Bob Berschback and assistant editor Joe Shea with Mike Szymanski as layout editor. To include the activities of late spring, a supplement of 20 pages will come out in August which may be inserted in the back of the book. The publisher is American Yearbook Company.

February 19. At this time certificates of merit and trophies were awarded. Winners will go on to the Genesee Festival on February 25 and to the Michigan Forensics in March.

The National Honor Society is planning the annual Career Day on March 25 at Austin. This is the day when business and professional men come to speak to the students on their careers. There will be 30 careers represented. Each student will have the opportunity to visit two lectures.

The Austin Friar Basketball Team evened its season record at 5-5 with a 53-51 loss to the University of Detroit High School. Jim Montgomery of U. of D. led all scorers with 18 points. Mike Gibson continued to lead the Austin scorers with 16 points.

The swimmers of Austin fell for the first time this year as they were beaten by the Warriors of Brother Rice by a score of 55-51. Austin's relay team made up of Rick Evtz, Kevin Cross, Bill Griffith, and John Ricci gave the Friars a first in this event. John Matthews, Bob Cleary and Ted Laliberte also took firsts.

The hockey team bowed out of the High School Championship matches at Gordie Howe Hockeyland by losing to Lake Shore by the score of 2-1. Outstanding members of this year's team include Gager Patricio, Vince Peseski, Phil Michalowski, Tom Black, Rick Scarfone, Tim Campbell and Phil VanHollebeck.

Under the direction of Thomas E. Bailey, Vice Principal and Chairman of the English Department, the Augustine Speech Festival is in full swing. Each student at Austin selects a literary selection of poetry, prose or drama which he reads before his section. After judging by his English teacher, he goes on to further school competition. Winners of the entire school appeared at the annual Augustine Speech Festival Assembly on

The School Election

The NEWS urges all qualified voters to go to the polls next Monday and give their approval to all three of the propositions on the ballot in the special School Election. Every bit of support that can be mustered is needed, as there appears to be grave danger that the proposals might be rejected. In our opinion this would be a real tragedy.

The real threat to the plans for continued development of our public school system, lies in the fact that everyone is stuffed to the gills with ever-mounting taxes. Inflation, profligate government spending and the waging of the most controversial war in the nation's history, account for the bulk of the bite that is put upon us all. We bleed with the rest, and our sympathy is great, but we feel it would be an enormous error to flout our frustration by handicapping one of the finest school systems in the country... our own.

There is no possible excuse for anyone who is genuinely interested, not to have a complete understanding of the issues in this election. We have never known a more sincere attempt than that made by everyone connected with the schools, to provide information for intelligent voting. The trustees, who perform a great public service for a pittance, lay themselves open to unbelievable abuse, mostly by a very few self-centered citizens whose only thought lies in avoiding sharing the burden of providing anything for anyone but themselves.

A summation of the election issues follows, for the benefit of those who have not followed the proceedings to date. Election Day is Monday, and it is a most important one. Do we continue to maintain the high standards in educational equipment we have prided ourselves on providing, or do we toss sprags in the wheels and shackle our students of today and many tomorrows with handicaps that would only cast shame upon this proud community? Let's keep on progressing... and give our young the opportunity to be leaders of the future. Vote 'Yes' on all three proposals.

Election Summary

Property reassessment, collective bargaining, comparative tax rates, Martin Luther King, the cost of North High School, Branch Library expansion, the budget, the proposed building program, staff salaries, Harper Woods, questions on these matters—and on others as well, have been asked of the trustees of the Board of Education as they have conducted an informational campaign designed to inform the public of the issues of the special school election slated for February 26.

Some of these are pertinent to the election, others are indirectly related, while still others are completely peripheral to the trustees' responsibility of keeping the schools open and providing good education for more than 12,500 young people. Let us attempt to clarify each of these issues so that the citizens who will cast their ballots on Monday will do so with as much information as possible.

Property Reassessment

In January each trustee of the present Board of Education pledged that he would vote to levy only the taxes required to meet the \$5,100,000 projected operating deficit over the next two years. The trustees have stated that they will not have full information on the effects of the reassessment in all the communities that comprise the school district until late spring or early summer. It is obvious that to hire teachers, to develop instructional programs, and to meet the continuing increase in enrollments—an election cannot wait.

The property reassessment question is further confused by the fact that during recent years a conversion factor has been applied to the tax rate to bring it in line with the State's requirements. This year for the first time, this factor was not listed on the tax bills, but only the State Equalized Valuation has been shown, resulting in confusion over the amount of the increase. But the present and proposed tax levies applied to the estimated overall rise in valuations (8% to 10%) will not provide the school the money needed. Hence, the election.

Collective Bargaining

The Board of Education has not in any way "pre-bargained" with the teachers for the next two years in setting the amount of millage and in presenting a projected budget. The trustees have indicated a desire to keep staff salaries competitive with the better school districts in the Detroit metropolitan area. The teaching staff of The Grosse Pointe Public School System is professional in every way, and demonstrated its faith in the Board of Education by agreeing to a settlement early in the spring. Schools in Grosse Pointe opened on time last fall and the trustees want them to open again in 1968—and every fall—in spite of economic and labor turmoil that have prevented the opening of many schools throughout Michigan this past year.

Comparative Tax Rates

Out of 43 school districts in Wayne County, Grosse Pointe currently ranks 29th from the top in total school tax, 25th in taxes levied for operation, and 29th in debts for buildings already constructed.

The results of a recently conducted survey indicate that at least 20 Wayne County school districts contemplate requests for increased operational millage within the next two years, the amounts of the proposed levies range up to 10 mills. Even with Grosse Pointe's proposed increase in millage, it is estimated that the local schools will rank no higher among Wayne County than 8th place for total operation.

Beyond Wayne County, Grosse Pointe's school tax of 25.49 mills (\$25.49 per thousand of State Equalized Valuation) is considerably lower than Birmingham's 35.20 and Bloomfield Hills' 29.36. For example, Bloomfield Hills is asking 14 additional mills in April, which will total 43.36 mills as compared to our projected maximum of 34.74.

The current tax rate in the Grosse Pointe school district is 25.49 and the addition of 9.25 mills would mean that the maximum the schools could levy would be 34.74 mills. This represents an increase in the rate of 36%. However, with the reassessment of property in the school district, it appears highly unlikely that the Board will levy the full amount authorized by Proposition #1. The trustees have stated repeatedly that they will vote to levy only the taxes required to meet the proposed \$5,100,000 deficit in estimated budgets over the next two years.

The trustees of the Board of Education are unanimous in seeking other means of financing public education rather than relying upon the local property tax. Indeed, they have gone on record with our legislators in Lansing as well as with the Michigan Association of School Boards to urge the exploration of other means of providing public education.

Martin Luther King

Contrary to rumor, the Board of Education is not sponsoring the appearance of Martin Luther King in Grosse Pointe. Dr. King, who will be in Detroit to preach two Lenten services has accepted the invitation of the Grosse Pointe Human Relations Council to appear here. The long-standing written policy of the Board of Education is to permit responsible community groups to rent school facilities. The Human Relations Council (and not the Board of Education) will pay the normal rental as well as any unusual costs incurred by his appearance.

North High School

North High School, which will open in September, and which has been needed desperately in Grosse Pointe for many years, will benefit the entire district by the accommodation of students from overcrowded South High School. It amounts to 335,000 square feet at \$28.10 per square foot. The cost for the building amounts to \$9,415,806. This includes general contracting, mechanical and electrical work. From the \$480,000 budgeted for the opening of North High School must come the cost of additional staff members (teachers, secretaries, administrators, custodians), the cost of heat, light, and water, and all the other items that are needed to put the facility into operation.

On July 1, for example, 20 members of the plant personnel staff at North High School will begin full-time work. At that time, the head engineer, who has been working as assistant to the construction superintendent, will begin full-time duties in his designated work category. Other members of plant personnel will assume responsibilities at North High School between now and July 1.

The principal of the building has been on duty since last July to perform many necessary organizational and recruiting tasks. Two administrators started at the beginning of the second semester, assisted by a skeleton secretarial force. Members of the school's library staff will be on duty this Spring. Teachers and department heads have been assigned to a number of summer duties directly related to the opening of the

school. All staff members are expected to be available for at least a short period prior to the beginning of classes in September.

Library Expansion

Details of the proposed expansion of facilities for the public libraries have been well-documented in recent weeks. But one fact does not seem to be well-known: The space currently occupied by the Woods Branch in Parcels Junior High School will be utilized. As Parcels and Pierce are reorganized into middle schools, the public library space is desperately needed.

Budget

The passage of Proposition #1 at Monday's election will raise funds to meet an estimated deficit of \$5,100,000 over the next two years. Operating costs include salaries, teachers, custodians, secretaries, administrators, and the costs of light, heat, water, supplies and the hundreds of items needed to run Grosse Pointe's biggest and most important industry. Sufficient money to operate the schools during the next two years will not be available unless the public gives its approval at the polls.

If the millage does not pass, the schools will undoubtedly have to make do with a staff of lesser quality, class size will be increased, thereby giving students less individualized attention in their basic subjects, and fewer special services (remedial reading, speech correction, psychologists) will be available to non-public schools.

Proposed Building Program

Proposition #2, the building and site levy, will permit the schools to attempt to solve housing problems before they reach the crisis stage. Inherent in this method of financing, which is not new to Grosse Pointe, is the flexibility that will enable the Board to move swiftly to solve problems as they arise without the necessity of a bond issue. Further, it is a "pay-as-you-go" type financing which carries no interest charge.

Harper Woods

We are often asked this question: Why do we permit students from Harper Woods to attend classes in Grosse Pointe when our own schools are crowded? The answer is that the one-third of Harper Woods residents who send their children to classes in The Grosse Pointe Public School System have as much right to do so as those who live in the Grosse Pointe communities. The land that has become Harper Woods was included within the school district boundaries long before Harper Woods was developed as a municipality. The residents of the school district's portion of Harper Woods pay Grosse Pointe school taxes to educate their children, the same as residents of Grosse Pointe.

Staff Salaries

The policy of the Board of Education is to pay competitive salaries to staff members in its employ. The teachers received an adjustment in the fall (after the contract had been signed in the spring) in order to make their wages competitive with those paid in 19 Detroit area school systems. They received an initial overall 7% adjustment in the spring and a 3 1/2% overall increase in the fall. They were the only group of employees in the school system whose salaries were re-examined and readjusted. The average increase in administrative salaries was comparable percentage-wise to that granted the teachers before the fall re-examination.

Center Plans Sports Night

Grosse Pointe War Memorial is presenting a special Sports Night Monday evening, February 26, at 8 p.m. The evening is especially pitched to fathers and sons who are interested in basketball, but since this includes many mothers and daughters too, the entire family is invited.

Dave DeBuschere will appear in person and talk about his basketball experiences and give pointers on the game. Dave went to Austin High School where he developed under the tutelage of Coach Hollosy who is now basketball coach at Grosse Pointe High School. He is now a professional ball player and a star with the Detroit Pistons for whom he has acted as manager as well as player.

Dave will bring with him movies of recent exciting national basketball games which few have as yet seen.

Tickets for this sport special are 75c but groups of students are welcome at 50c. For those interested, a special spaghetti plate supper will be served at 7 giving time to stop first at the polls for the school election. The spaghetti supper, talk and show are just \$1.25 inclusive, but paid reservations must be at the War Memorial by Saturday, February 24.

BOILER RUNS DRY

City Firemen responded to a call from police about steam coming from the roof of Monday's Cleaners, 369 Fisher, on Friday, February 16. They found the boiler on the furnace had overheated and was out of water. Firemen shut off the main gas valve and pulled the switch to turn off the alarm. Police notified the owner, David McCarron.

Letters to the Editor

AN OPEN LETTER TO MRS. BRUCE FAUSONE:

I read your letter in the Grosse Pointe News, and I want to answer because I am interested in education, and I want you and others who share your viewpoint to realize why the schools need your support.

First a word, though, in behalf of Mr. Pongraz. His point, which you mentioned, was that he was grateful to others for helping in the education of his children. He was speaking to a group of parents at the Maire School and he wanted those parents to realize what a bargain he and they were receiving.

Others in the community did pay the balance of the cost that Mr. Pongraz didn't pay. But parents with children in the non-public schools shouldn't take all the credit. Free public education is for all children in the community and is paid for by a number of groups, such as:

- 1) young residents with children in public schools
- 2) young residents with children in non-public schools
- 3) young residents without children
- 4) old residents without children
- 5) residents and outside people with business property
- 6) residents and outside people with non-business property
- 7) outside people who visit or do business in our state
- 8) outside people who pay taxes to our state or national government

I don't know the percentage paid by each of these groups, but they all contribute.

The "head tax" which you suggest might, in my opinion, destroy the wonderful concept of free education for all children regardless of the ability of their parents to pay. All groups should want our children educated and should want our schools to be the finest and should be willing to back up their desire with monetary support. Long ago we decided that public education should be for all who choose and should be supported by all without penalizing the young child and the young parent who can least afford to pay for good education, which each child should have for his and society's welfare.

I don't quarrel with your desire to educate your children in the non-public school, as this is your right. I sent my son to a non-public eastern college which was more expensive than an adjacent public college, and I did this for the reason you do, because I wanted to. But having so chosen, I have no right to complain about the additional cost.

I continue to hear that taxes would certainly increase if the non-public schools went out of existence. I realize this is true, and I am willing to accept it. Mrs. Fausone, education is necessary and is becoming more expensive and isn't likely to become less expensive. But let us not forget our values. Education for the children in our community should rank in necessity closely behind food and shelter.

Very truly yours,
Russell H. Peebles,
Vice President,
Grosse Pointe Board of Education.

To the Editor:

I would like the privilege of replying to the letter from Mr. Renville Wheat which you published on February 15. Inasmuch as I was the neighbor who mailed him the Ashbrook pamphlet on Dr. Martin Luther King, and did so with a personal covering letter, I am confused as to why Mr. Wheat implies this was done anonymously.

The inference is made by Mr. Wheat that anybody who disagrees with him or with the Grosse Pointe Human Relations Council is, quid pro quo, against improving living standards of the American Negro. Such is most certainly not the case. Most white Americans I know agree that every citizen of this country, no matter what his race, creed or color, should be entitled to equal opportunities.

The question is not a matter of integration, segregation, racism or selfishness. It is, rather, is Dr. King the man to provide the leadership for such a program of improvement? Many of us who are working quietly to correct the wrongs of past generations do not feel he is, nor do we feel it is the American way to force our will upon our neighbors. Furthermore, we cannot overlook the plain fact that while Dr. King talks about non-violence, rioting usually follows him. Is not a man better known for his actions than by his words?

Mr. Wheat seems to have missed the point entirely. Nobody questions the right of the Grosse Pointe Human Relations Council to invite Dr. King to speak in Grosse Pointe... only the wisdom of it. Should not those of us who believe that Dr. King speaks only for a small minority of his race be allowed to speak up, too? Are not Grosse Pointers entitled to have a detailed and factual history of Dr. King's background so that they can make an informed judgment for themselves?

As to Mr. Wheat's implication

that there is something incorrect about the pamphlet which he received: It is common knowledge that Congressmen are granted the privilege of inserting information into the CONGRESSIONAL RECORD which they may not have actually spoken to their fellow Congressmen. Furthermore, they are also permitted the right to reprint this material at their own expense for additional distribution. The fact is that Rep. Ashbrook received so many requests from throughout the nation for additional copies of this report on Dr. King that he finally resorted to having a portion of the original report reprinted at HIS OWN EXPENSE. When the reprints were made by Cong. Ashbrook's office, pictures—which are NOT printed in THE CONGRESSIONAL RECORD—were included, something which is not at all unusual. So there was nothing "anonymous" about this mailing to Mr. Wheat in any sense of the word.

May I add that no place in his letter does Mr. Wheat question the credibility of the pamphlet prepared by the Hon. John M. Ashbrook, Congressman from Ohio. May I urge all Grosse Pointers who are interested in obtaining this material to drop me a line at the address below.

Sincerely,
Mrs. Earl I. Heenan, Jr.

February 15, 1968

Dear Sir:—

The history of the League of Women Voters reveals action promoted and stands taken with members' study and direction on vital issues which would benefit the community, a state or the nation for an end result of hopeful progress. And so with the coming school election on February 26th, your local League of Women Voters takes its stand of full support of the three proposals with the dedication that its passage will secure the end result of progress and fine educational achievement for the community.

The details of the proposals have been laudably disseminated by the School Board, the PTA's and the news media; however, not enough emphasis can be placed upon the critical need for moneys for (1) the increased cost of operation, for hiring additional staff members and for keeping teachers' salaries competitive, (2) for the long range capital improvement plan, and (3) for the expansion and improvement of the library facilities.

Inasmuch as the Grosse Pointe League believes that "a democratic government depends upon the informed and active participation of its citizens," the League urges the community to become an informed voter on these vital issues by reminding them to question any School Board member, the Principal of the nearest school, the PTA Council or by contacting a League member through the War Memorial for information.

The quality of a community depends largely upon the citizens' respect for the educational systems and it is with this concern, that the Grosse Pointe League of Women Voters strongly urges a YES vote to the three proposals to be voted upon the 26th of February.

Sincerely,
Mrs. Cary F. Fischer
President, Grosse Pointe League of Women Voters

To the Editor:
When the Board of Education passed a resolution calling an election for February 26 to seek authority to levy additional operational millage of 7.5 mills, the trustees did so after carefully studying estimated budgets for the coming two years, which showed a probable deficit of \$5,100,000. The additional tax proposal is based on the school district's present State Equalized Valuation of \$347,911,000.

Since we took action on December 18, we have learned of the possibility of an increase of the total State Equalized Valuation of taxable property within the school district. This increase has been estimated to be from 8.10 per cent. However, a successful election on February 26 does not mean that the Board of Education must levy the 7.5 mills thereby authorized.

Indeed, on at least two occasions in the recent past the Board has not levied all it was authorized, or, for example, in 1963-64 the rate was reduced from 11.25 to 10.25 mills for operation because sufficient revenues were available to meet the school's needs. And, in 1960-61 Wayne County allocated to us \$900,000, but the school system levied only 8.40 mills.

I wish to make absolutely clear my position, which is shared unanimously by the other six trustees, that the Grosse Pointe Board of Education is not, in the event of such an unexpected increase in the total assessment base of the school district, levy only such taxes as are required to meet the necessary demands of the operating budgets tentatively proposed for the next two years.

Sincerely yours,
Alice Mary Hykes
President, Grosse Pointe Board of Education

'Murder in Cathedral' To Open Tomorrow

T. S. Eliot's Play Will Be Presented In Chancel Of St. Michael's Episcopal Church; Second Performance Scheduled Saturday

"Murder in the Cathedral" under the direction of Charles Michael Moraco, will be presented at St. Michael's Episcopal Church, Grosse Pointe Woods, on Friday and Saturday evenings, February 23 and 24.

The play, a dramatization of the murder of Thomas Becket of Canterbury, was written by the poet T. S. Eliot for the English Canterbury Festival of 1935 and has since been performed around the world.

Unique is the fact that the play was written to be performed in the Church Chancel area.

Featured in the role of Becket will be Detroit's Charles Western Noel, together with some of Michigan's finest dramatic talent.

Mr. Noel has just completed a lengthy run of Becket for the University of Detroit Theatre, (to the raves of Detroit critics), and will be remembered for his many leading roles with the Wayne State University Theatre, Mendelssohn Theatre in Ann Arbor and the Bonstelle Theatre, in such plays as Christopher Fry's "Sleep of Prisoners," Anouilh's "Tiger at the Gates" and Archibald Mac Leach's "J.B."

Several Pointers have roles in the play or will be assisting with the production.

Winn Meredith, of Littlestone road, Ed Slowik, of Doyle place, Carol Roller, of Roslyn road, Li Miller of Mt. Vernon road, Dick Bauhof, of Rivard blvd., Karen Atkinson, of Lorraine road, Donna Mumford, of McKinley avenue, Katherine and Susan Viger, of Moross road, and Sally Murray, of Hawthorne road, are handling play assignments.

Mr. Moraco, of Lincoln road, was a producer-director for Air Force Special Services and was involved in 73 major stage productions both in the United States and Europe.

After service he went back into radio-television work in the Southwest before returning to Detroit. This will be his third run with "Murder."

Other cast members represent

theatre groups in Lansing, Ann Arbor, Trenton, Roseville, Birmingham, Bloomfield, St. Clair Shores and Detroit.

Tickets and further information may be obtained by contacting Mr. and Mrs. Louis Troglia, 886-6030, Mrs. John Renick, 881-5671, or the Parish Office, 884-4820. Donation is \$1.50.

The nicest little shop in Grosse Pointe
is often said to be too posh

—You may have driven by and not noticed it — but if you were to stop and go in you would be surprised — it's quite pretty but not scary. It looks expensive and it's meant to.

—The fashions and services are not, unless you wish them to be.

—As the door closes behind you a world of fashion in garden colors asks to be touched. Coat and Jacket costumes, spunky dresses of new shapes to be belted or not and so smart. 3 piece suits of knitted comfort to show off anywhere.

—That special after Five Cocktail dress with a touch of sparkle also in a froth of color.

—Marvelous make-up too! Then the ever great little play dress with undershorts... by now several nice people have extended a warm welcome and, you begin to wonder why you haven't been here before.

—Then just a few steps further and you feel the comfort of a marvelous beauty salon — where the specially chosen people — some boys — some girls — know just how to create beauty—

—No it's not new—quite the contrary, to some we may even be well known.

—The truth is we would like to know you.

Miss Theuerkorn Married Saturday

Bride's Ivory Peau de Soie Gown Is Accented With Chantilly Lace; Pair Will Make Their Home In Grand Rapids When They Return From Montreal Vacation

Christ the King Lutheran Church was the setting for the Saturday, February 17, ceremony at which Noreen Marie Theuerkorn, daughter of Mr. and Mrs. Gay Theuerkorn, of Pear Tree Lane, and Craig Lee Betteridge exchanged marriage vows.

The Reverend Walter J. Geffert officiated at the candlelight rites, which were followed by a reception at the Gourmet House.

The bride's A line, Empire gown of ivory peau de soie featured wrist length sleeves of Chantilly lace. Matching lace, motifs accented her bodice and skirt, and a headpiece of re-embroidered Alencon lace, trimmed with seed pearls, caught her silk illusion veil.

She carried a cascade of white roses, stephanotis and ivy.

Linda Theuerkorn served as her sister's honor attendant, in

a floor length frock styled with an Empire bodice of Hunter's green chiffon skirt and matching green chiffon train.

Bridesmaids, wearing gowns identical to that of the maid of honor, were Mrs. Gary Theuerkorn, the bride's sister-in-law, and Mrs. James Warn, of Buffalo, N.Y.

Their headpieces were fashioned of Hunter's green velvet leaves and tulle flowers, and they carried Colonial bouquets of coral Sweetheart roses.

Junior attendant Kathy

St. Jude Society Sets Mardi Gras

Ticket donation is \$1.50. Further information may be obtained by contacting chairman Mrs. James Cole, LA 7-5380, or co-chairman Mrs. Paul Jones, VE 9-5888.

Theuerkorn, another sister of the bride, wore a floor length, Empire dress of Hunter's green velvet and a matching velvet headband, and carried an arrangement of yellow roses.

Acting as best man for his brother was David Betteridge. They are the sons of Mrs. Arthur Betteridge, of Grand Rapids, and the late Mr. Betteridge.

Guests were seated by Joseph Maggini, William Hemmer and John Reaser, all of Grand Rapids.

Mrs. Theuerkorn selected, for her daughter's wedding and the reception, a street length costume of mint green peau de soie, accented with Alencon lace, and matching accessories.

Mrs. Betteridge, the bridegroom's mother, wore a champagne gold silk dress and jacket ensemble, with bead trimming, and matching accessories. Both mothers pinned cymbidium orchids to their purses.

When the newlyweds left for a vacation in Montreal, the bride was wearing a cream wool sleeveless dress and camel-colored double-breasted wool gabardine coat.

They will return to make their home in Grand Rapids.

Maybe a dollar did go further in the old days, but it didn't get anywhere half as fast.

To Open Easter Seal Campaign March 1

Detroit Society For Crippled Children And Adults Will Benefit From Drive Which Culminates Easter Sunday, April 14

Lisa and Lori Yauch are very special little girls again this year, very special little girls because they are not only the Easter Seal poster children for the Detroit Society for Crippled Children and Adults, Inc., for the second year but represent all of the Easter Seal Children in the United States as Easter Seal poster children for the National Society for Crippled Children.

Lisa and Lori are the four-year-old twin daughters of Mr. and Mrs. Gail Yauch, of Southfield.

Tiny victims of cerebral palsy, resulting in spastic paraplegia, the little blond sisters met press, radio and television media last week at a luncheon

day, April 14.

This once-a-year campaign, conducted in Detroit, Harper Woods and the five Grosse Pointes enables the Detroit Society to carry on its program at the Therapy Center in Schaefer road, for youngsters like Lisa and Lori as well as many, many adults.

Easter Seals provide the means for the Center to tell more and more happy stories about those receiving treatment.

Lisa and Lori were referred to the Center for treatment in August of 1966 by their doctor. Both have made unbelievable progress.

Although Lisa could walk a little at first, walking independently has been enhanced and strengthened by the provision of braces and subsequent muscle toning.

Lori, who had to learn to stand, can walk now! She surprised her friend, Mr. Lindsay one day recently by ambling along the Center's hall to welcome him.

At home the two little girls are the apples of the eye of two brothers, Gregg, 9½, and Jeffrey, 6½. And both girls think their big brothers are pretty much all right, too.

Mrs. Yauch says the girls have distinctly different dispositions. "Lisa is the leader," she says. "She's the noisy one, who loves to talk a lot, while Lori sits quietly and waits her turn. Lisa loves to mother her sister."

They share one unmistakable feminine trait, though—the love of pretty frocks. They both love to get dressed up.

Patients come to the Therapy Center on recommendation of doctors, who know of the excellent work being done there. The work involving both children and adults has the overall objective of rehabilitation of the handicapped person to the activities of daily living.

Its scope is the conditioning of parents or relatives to a role in the rehabilitation and, more difficult, the conditioning of parents or relatives to a role in the rehabilitation and, more difficult, the conditioning of the individual patient to achieve his greatest potential despite his handicap.

It can be as small a thing as learning to pick up a fork—or put on a shirt. For a stroke patient, learning to move a limb, only slightly, can be as important as life itself—if the ailment has made him a psychologically beaten adult.

Specifically, the area of living with a handicap embraces cerebral palsy, muscular dystrophy and multiple sclerosis. It concerns the youth or adult with arthritis and rheumatism, the person incapacitated from an accident or amputation, or the person rehabilitating from a cardiac seizure.

All of these and many more areas concern the people at the Detroit Society's Therapy Center, as well as the summer camp program supported for crippled children.

As Easter Seal chairman, Ted Lindsay spoke briefly at the luncheon and said:

"Team play is the thing. I know. The professional staff members at the Society's Therapy Center know it, too. And, they all work as a team."

"Close to 115,000 letters with Easter Seals are being mailed to our friends in the seven communities in Wayne County

to supplement the efforts of the thousands of volunteer paraders, who will be ringing doorbells in many areas March 30 through April 7 to tell the Easter Seal story and accept contributions."

Assisting Lindsay on his fund raising team are George Bott, C. H. Chisholm, William Davis, Joseph Dimond, Marvin Garrick, George Kelly, John Mahler, Alfred McKeown and Frank Tschirhart.

William R. Ludwig, of Rivard boulevard, is acting Detroit Society president because of the recent death of Paul J. Abele. Marvin Garrick now holds the post of acting first vice president, Mrs. Rosemarie Evenhuis is executive director.

Windmill Pointe Club Will Meet

Members of the Windmill Pointe Garden Club will gather Wednesday, March 6, at 12:30 o'clock, in the Westchester road home of Mrs. George Eversman.

Miss Mozal Speaks Vows To Mr. Probst

Dolores Bernice Mozal, of Cook road, daughter of Mr. and Mrs. Joseph Mozalouskas, of Detroit, and George James Probst, son of Mr. and Mrs. George Probst, of Fraser, exchanged marriage vows Friday evening, February 9, in Our Lady Star of the Sea Church.

The Reverend William Palmer officiated at the 6:30 o'clock ceremony. A reception at Eddie Pawl's followed the rites.

Nylon lace accented the bride's floor length, A line satin gown, styled with bell-

shaped sleeves a fitted bodice and a detachable train. Her bouffant illusion veil fell from a white, beaded crown, and she carried a cascade of red roses centered with a white orchid corsage.

She was attended by her sister, Mary Diane, who served as maid of honor, and bridesmaids Dolores Brohi, Cathy Kutyla and Jackie Piellusch.

Their floor length frocks of pink peau de soie were fashioned with semi-A line skirts and trimmed with rose velvet. Their headpieces were garlands of velvet orchids, and they carried rose bouquets.

Paul J. Probst acted as his brother's best man. In the usher corps were Jim Stark, Rick Mozalouskas and Joe Roberts.

The mother of the bride wore a three-piece ensemble of pale blue wool-and-silk, a matching hat and a white orchid corsage.

The bridegroom's mother selected a green suit, matching accessories and a white orchid corsage.

Following a vacation in Chicago, Ill., the newlyweds will make their home in Lakepointe avenue.

The first performance took place in Paris in 1940 with the composer conducting. Paray led the Detroit Symphony in performances of the work in 1955 and 1961.

Tickets for the concerts are available at Ford Auditorium Box Office (961-0700), all 15 metropolitan Grinnell's stores and all Hudson's stores.

A sparkling new idea has been added to the usual "Fair" or "Charitable Bazaar" festivities by the Historic Memorials Society in Detroit. This year, the Society's Heritage Day Luncheon and Market will include a "Plum Tree" laden with tokens representing authenticated antiques, (the plums!), mixed up with surprises, (the prunes!).

All antiques will be authenticated by Leonard Berry, who has also agreed to be present at the Fair to appraise and authenticate antiques brought in by guests for the modest fee of \$1, all for the benefit of the "Fair."

Other departments at the Market will include an Attic Shop, Pantry Shop, Jewelry Booth, Aprons and Bibs and Paperback Books.

Arrangements have been made to have a "candid camera-man" present at the luncheon so that guests can have an instant memento of the occasion.

Proceeds from the Historic Memorials Society in Detroit are used for special grants to cultural and community organizations, together with annual awards to outstanding students in the field of local history at Wayne State University, the University of Detroit and Oakland University.

MR. and MRS. W. B. WALDRIP, of Lexington road, are spending a winter holiday at the Lido Biltmore Club, Lido Beach, Sarasota, Fla.

Fine Pointes of Real Estate

Lake Shore Drive Or Lake Shore Road?

Like every community, Grosse Pointe has its idiosyncracies. One that continually confuses visitors is the inconsistency in names given to certain streets. Traveling east on Vernor Highway, in the Park, a stranger is surprised to see the street signs change to Waterloo, and then to Ridge at Fisher Road, the third name within three-quarters of a mile.

East Jefferson becomes Lake Shore Drive in the Farms, but in the Shores it is called Lake Shore Road. Maumee is known as Grosse Pointe Boulevard in the Farms, and Goethe converts to Beaupre. Such multiple names actually are not unusual when streets cross the boundary between two different cities. They often were established independently of each other and then eventually extended to join at the city limits. It is not expected here, though, by visitors who are inclined to think of Grosse Pointe as one community rather than five.

However there are other streets that bear two different names within one city. Audubon becomes Grand Marais at Jefferson. Somerset becomes Westchester. Devonshire changes to Harcourt and, in the Woods, Dorthen to Manchester. Differences of this nature are usually the result of the developer's desire to give to his subdivision an identity separate from that of the adjacent properties, which may be older, less expensive or completely different in style from the new houses.

Not all of these variations, however, originated when the streets were first subdivided. Robertjohn Road was platted in the Shores and Woods several decades ago, but it was only five years ago that the portion of it in the Shores was renamed Crestwood Drive.

Dinner Precedes Unusual Movie

One of the most unusual films of the year will be shown locally, when "Village Beneath the Sea" is presented at Grosse Pointe War Memorial's Fries Auditorium on Thursday, February 29, at 8:15 p.m. The title is deceptively tranquil, judging from the preview and storyline.

For there is real drama in the lives of the citizens of the underwater villages.

The show, a feature of the Center's George Pierrot selected Grosse Pointe Adventure Series, will be preceded by a sea food dinner in the Fries Crystal Ballroom at 7 p.m. Tickets should be ordered in advance by check made payable to the Grosse Pointe War Memorial Association, 32 Lake Shore Road. Dinner and show \$4.50 (tax and service included). Show only \$1.50.

A classic among underwater films, "Village Beneath the Sea" will be presented in person by its producer, Harry Pederson, one of the world's leading authorities on undersea behavior. Surprisingly, with its locale in the liquid world of the sea, the film manages to be very human in its interest.

Some scientists believe that the twentieth century may well be remembered as much for exploration of the seas as for conquest of space, for science now has made possible extended expeditions below the surface of the ocean. The goings-on in the society of the villages beneath the sea are truly fantastic. Mr. Pederson's intimate, painstaking film, which was more than 10 years in preparation, holds special appeal to audi-

ences of scientists and underwater fans as well as to the general public because much of the action in it never has been photographed.

Harry Pederson and his brother Verne rank as two of the world's leading underwater photographers. Their film footage has been seen and enjoyed by hundreds of thousands, in motion pictures such as Rachel Carson's "The Sea Around Us"; "Hunters of the Deep"; "Twenty Thousand Leagues Under the Sea"; and "Mysteries of the Deep," by Walt Disney.

He has provided illustrations for Time and Life Publications' "The World We Live In" and "The Sea."

World Day of Prayer Observance Planned

Women From Many Pointe Churches Participating In Traditional Service To Be Held At St. Michael's Friday, March 1

The 81st annual World Day of Prayer Service will be observed in the Grosse Pointe area on Friday, March 1, at 1 o'clock at St. Michael's Episcopal Church in Sunningdale drive.

The women of the Asia Church Women's Conference were invited to prepare the World Day of Prayer Service for 1968.

They chose Mrs. Rathie Selvaratnam, of Ceylon, to do this on their behalf. Mrs. Selvaratnam is the chairman of the Asia Church Women's Conference and has attended churchwomen's gatherings in Africa, other parts of Asia and in the United States.

For this order of worship she has drawn on resources common to Christian Churches in many parts of the world but particularly those from Asia. Mrs. Selvaratnam's service also reflects her experiences of worship as an Anglican.

The theme selected this year

is "Bear One Another's Burdens."

Detroit churchwomen will join women from 145 foreign lands on five continents in the same worship service. The service has been translated into 50 languages and some 1,000 dialects.

The Reverend Chandler Benton will be the speaker this year at St. Michael's Church. Reverend Benton was graduated from the Harvard School of Theology and has been the assistant minister at the Jefferson Avenue Presbyterian Church for the past four years.

Mrs. Richard Tennent, of St. Michael's Church, is the chairman for the Grosse Pointe area this year, in charge of arrangements for the day. He co-chairman is Mrs. John Dobbins, also of St. Michael's Church.

Participating in the service will be Mrs. Lathrop Morse, of the Grosse Pointe Presbyterian Church, Mrs. Robert Raese, of the Grosse Pointe Baptist Church, Mrs. Robert Choate, of the Grosse Pointe Congregational Church, Mrs. Dobbins, of St. Michael's, Mrs. George Johnson, of Grosse Pointe Memorial Church, and Mrs. Robert Roddewig, of the Grosse Pointe Methodist Church.

Ushers include Mrs. Alfred Tapert, of Grosse Pointe Congregational Church, Mrs. Marilyn Wickline, of Grosse Pointe Methodist Church, Mrs. G. B. Sibley, of Grosse Pointe Memorial Church, Mrs. Walter Cook, of Grosse Pointe Baptist Church, Mrs. Gerald Schroeder, of Grosse Pointe Woods Presbyterian Church, Mrs. Robert Waters of St. Michael's, Mrs. Ed Thompson and Mrs. Arthur Zillgitt, of Grace United Church, and Mrs. James Long and Mrs. Richard Baedle, of Christ Episcopal Church.

Mrs. Clayton Lein, of St. Michael's, will be organist for the service.

Nursery service will be available at church for care of small children.

The Rev. Edgar H. Yeoman cordially invites all women to attend this devotional service.

Hear Policies Of New School

Dr. William Craig, principal of Grosse Pointe North High School, met with sophomores who will be attending North next year to explain some of the policies of the new school.

Dr. Craig said that an individual study pass will be made available to all students. This pass will entitle the students with study halls to go to the library, resource centers, labs, study areas, or union center. This pass will give the student more independence in studying.

Both schools will introduce a structured honors program next year. This program means if a student has a 3.5 honor point average and has completed eight honors courses upon graduation, his name will be placed on the principal's list, comparable to the dean's list at the college level.

North will have two lunch periods, each 45 minutes long during which time the library, study areas, labs, resource centers and small gym will be open to the students, as well as the open court, when weather permits.

Attendance at the new high school will be on the honors system. No notes or phone calls will be required if a student is absent. When the student returns to school he must pick up a card in the office to be signed by his first hour teacher before being allowed to return to class. If any students show they cannot function on an honors system they will be handled on an individual basis.

The students of both high schools will be able to use the facilities of both school libraries with presentation of a high school I.D. card.

There will be a full athletic program, with varsity and junior varsity sports, including foot-

Those Busy College Alumnae

Magazine articles in recent months have been telling us the all-girl college is fast becoming extinct, that rising costs and faculty raids are forcing amalgamation and affiliation . . . but try telling local alumnae groups that "their" alma maters will ever be absorbed in an octopus-like megaversity!

The ladies simply chuckle. "There'll ALWAYS be a Wellesley Girl, a Vassar Girl," they maintain. "Look at Radcliffe — It's managed to survive Harvard for a good number of years now . . ."

Far from viewing themselves as dodos, the girl's college alumnae are hard at work raising funds for new

buildings, proselytizing for new students — and doing both successfully . . .

The Alumnae Association of Garland Junior College, Boston, Mass., is holding a tea for prospective students and their mothers at the Vendome road home of Mrs. Joseph W. Farley this Sunday afternoon, beginning at 3:30 o'clock.

Hostess Mrs. Farley is the former Jean Posselius, a Garland graduate. Assistant hostess will be another Garland graduate, Janet Fuger.

Among those who've already made plans to meet and confer with Mrs. Beckett Jones, director of Garland's Alumnae Relations, and James Soderberg, director of Admissions, are Mrs. Frank Wilberding and her daughter Mary, Mrs. William Tuscany and her daughters Christine and Lorelle, Mrs. Robert Hess and her daughter Susan and Mrs. Forrest Old and her daughter Clarinda.

That evening, Mr. and Mrs. William D. Gilbride, of Radnor circle, are hosting an informal reception in honor of Mrs. Jones and Mr. Soderberg.

Guests will include Mr. and Mrs. Dexter Ferry, Mr. and Mrs. Frederick Bloy, the Daniel Kings, the William B. Krags, Mr. and Mrs. Charles L. Matthews, III, Virginia Little, Janet Fuger and her mother, Mrs. Pierre Fuger, and many, many other parents, alumnae and friends of Garland.

Mother Elizabeth McCormack, president of Manhattanville College, Purchase, N.Y., is paying a flying visit to Detroit next Wednesday, and the Manhattanville Club of Detroit has scheduled two "let's get acquainted" receptions in her honor.

The first will be in the afternoon, at the Convent of the Sacred Heart in Bloomfield Hills. In the evening, Mr. and Mrs. John Ross will open their Touraine road home so that Pointe parents, alumnae and friends of Manhattanville may meet Mother McCormack.

Smith College Club's project to raise scholarship money for Detroit-area girls is a pecan sale. The alumnae offer one-pound bags plus two-page pecan recipe leaflets for \$2 each, and promise immediate delivery as soon as checks, made out to the Smith College Club of Detroit, are received at the Ridge road home of Mrs. A. C. Dickson, Jr.

In excellent condition, and attractively decorated, it features 4 family bedrooms, (all with delightful scenic views) 2 baths and paneled den with fireplace, as well as a maid's room and bath, all on the garden floor. In addition there is a large second floor playroom which could house additional members of the household, if desired. HIGBIE REALTY
886-7100

FOR THOSE of you who believe there's nothing new under the sun Purdy & Edgar have come up with three sparkling new listings this week. A shining example of the center hall colonial makes its appearance on Rivard Boulevard. There are five bedrooms on the second floor and two more on the third. Newly decorated, and a kitchen which will eclipse in size and decor any we have seen. There's not a shadow of a doubt in our minds that this will be sold by Sunday.

THE RADNOR CIRCLE area has always been popular. When a house appears in this handy location priced in the mid-thirties, we expect to be swamped with inquiries. This colonial has three bedrooms up, and has a screened and covered porch off of the separate dining room. The basement is finished with a paneled play room. The lot is wide enough to accommodate a two car garage attached to the side of the house.

SOUTH OF Jefferson on a street where prices are usually much higher, we offer a very attractive colonial, also with three bedrooms up. This one is very similar to the one advertised above, only includes new carpeting and draperies, air conditioner, color television antenna and disposal.

IN THE CITY of Grosse Pointe we believe we have listed the perfect house for the family which requires four bedrooms, all on the second floor. This newer colonial was originally built with a library off of the entrance hall. The owner has recently added a large family room which has access to both the kitchen and the dining room. There is a finished basement with a big play room. By locating the attached garage up front, the backyard is larger than most others in the block.

THIS LARGER house offers the perfect combination to those who want lotsa land, and a house with rooms with room to roam in. The kitchen has been completely done over and includes every gadget in the catalogue. A greenhouse with its independent heating and watering system makes it a focal point of the large entrance gallery. Bedrooms and baths for a large family. All this on a deadend street leading to the lake.

LAKE SHORE ROAD has long been known for its magnificent mansions, but few of the great old homes are left. We are proud to offer a complete estate which has been maintained in superior condition. Call when you have a few minutes to talk, and we'll illuminate the many features of this special listing.

"Observe how system into system runs. What other planets circle other suns." Alexander Pope

Harriett Lafer... our "Pointer of Interest," and Ann (Mrs. Thomas) Creed have an interesting experience ahead of them... On March 28, the two ladies will travel to Cleveland to head a workshop for community volunteers on "How the Junior League Set Up Its Poison Control Project in Detroit," part of a symposium to be held at the Cleveland Academy of Medicine's Poison Information Center... Poison Prevention Week, by the way, is March 17 through 23...

In past years... through the generosity of various organizations in the Grosse Pointe community and with proceeds from its annual dinner-dance, the Grosse Pointe High School Adult Foreign Exchange Committee has maintained a Scholarship Fund for foreign students studying at GPHS and for GPHS students going abroad... In addition to providing Detroit Symphony Orchestra season tickets for the foreign students, the Committee last year arranged for a trip to Washington, D.C., for Youth For Understanding-sponsored students, climax of their stay in the United States... This year, the Committee's fund-raising dinner-dance is scheduled for Saturday, March 2, at the Grosse Pointe Hunt Club. Dancing will be to the music of the Tom Liebold Quartet... Molly (Mrs. George J.) Beyer, 882-4785, is the lady to contact for tickets; other dance committee members are Mrs. Jack Frey, Mrs. King Clifford and Mrs. Robert Schnoes.

We opened... our invitation to "100 Years of Fashion." Women of Wayne's Centennial Fashion Tea and Card Party, and spent a good 10 minutes studying a charming period drawing of Young Ladies of the 'Nineties, with their nipped waists, straight backs and carefully curled coiffures... And, as we looked, we sighed and wondered, "Whatever happened to elegance?"... We suppose we'll find out at the party this Saturday afternoon, in the Grosse Pointe War Memorial's Crystal Ballroom...

March 1 is The Day!... Twelve noon The Time! The Place? — The Crystal Ballroom of the Grosse Pointe War Memorial; The Occasion? — "Spice Of Life," the Grosse Pointe Woman's Club's annual scholarship luncheon, card party and fashion show, with proceeds earmarked to help deserving local students continue their education... There'll be prizes plus knit fashions, modeled by Club members, by Irene Brown, who will also give the commentary... Busy, busy chairman Mrs. Robert Winckler, co-chairman Mrs. John J. Kelly and committee members Mrs. L. J. Carwell, Mrs. Alexander J. King and Mrs. Thomas J. Pearsall have planned this party for Club members and guests... Mrs. Kelly, 881-7683, is doubling as ticket chairman...

Remember when... Detroit League for the Handicapped was first introduced to the community, in 1921, under the auspices of the Junior League of Detroit with Mrs. Stephen T. Stackpole as president? During that first year, the League for the Handicapped served 260 physically handicapped people... Last year, 2,586 mentally and physically handicapped individuals received League services which now include medical, psychological, casework, vocational counseling and training, audiological, groupwork and recreation, sheltered employment, job placement and hospital equipment on loan... Next Tuesday, February 27, Paul D. Bagwell, of Devonshire road, will be guest speaker at the Detroit League's 47th annual meeting in the League's central Ash street headquarters. (The League also operates six branches in the Metropolitan Detroit area)... Mr. Bagwell will talk on the opportunities and barriers the handicapped encounter in business and industry... The meeting begins at 2:30 o'clock and will be followed by tea... The public is cordially invited...

PILFERINGS

One evening at a Bread Loaf Writers Conference, Robert Frost was reading his poems and talking about some of his "technical tricks." He read a poem, paused to ask the audience in what meter it was written, and then had fun scolding those who did not know it was in hendecasyllables. He was well cast in the role of the master craftsman, and he was having a good time.

The applause had hardly died down when a sweet elderly lady was on her feet, waving her arm furiously for attention. "But, Mr. Frost," she cried, "SURELY when you are writing one of your beautiful poems, SURELY you can't be thinking about" — and here her voice slurred the dirty words — "about TECHNICAL TRICKS!"

Frost put his hands together, the spread fingers touching tip to tip, looked wishful for a moment and leaned forward into the microphone and said in a playfully gravelly bass, "I REVEL in 'em."

Pointer of Interest

MRS. WILLIAM B. LAFER, OF HAMILTON COURT

By Janet Mueller

We hereby nominate Harriett Lafer for membership in the (Female) Young Presidents' Club. Harriett, still several years on the sunny side of thirty, as president of Tau Beta, serves as chief executive officer of an organization that numbers some 750 members.

She's been Tau Beta president for more than 12 months, assuming office a year ago January, for a two year term.

Concurrently, she's been serving as chairman of the Junior League's Poison Control Project Slide Program.

"We have an adult talk and a children's talk on how to poison-proof homes and prevent poison accidents," she explains. "We feel that if, through our talks, we prevent just ONE accident, move someone to poison-proof just ONE home, our Program justifies the time and energy we spend on it."

Since Harriett took over the Poison Control Slide Program chairmanship last June, the Program has been given 58 times, been seen by 2,663 people. The Junior League's Poison Control Project culminates next December.

Changes Projects
"It is the League's policy not to sustain a project, but to institute it and, if it proves successful, to hand it over to the community," Harriett notes.

To this end, the League has made Poison Control Slide Program Resource Units for both the adult and the children's talks. (The children's Unit includes such things as bulletin board ideas, teaching aids, game and poster suggestions; the adult Unit's materials are on a more mature level—both include a film strip and narrative), and is in the process of distributing these Units to all libraries in the tri-county, (Wayne, Macomb, Oakland), area and all public schools in Detroit.

Neither the Tau Beta presidency nor the Poison Control Slide Program chairmanship is in any sense a "little" job—but Harriett feels her time for "little" jobs is still to come.

Now, as a young married woman without children—yet!—she believes she has an obligation to do as much community work as she can... Because, when the children DO come, she knows she'll be considerably more house- and family-bound than she is now.

Both Native Pointers
Harriett and Bill Lafer, (he's in Merchandising at J.L. Hudson's, an assistant buyer in the Drapery Department), are both native Pointers.

"Bill was a year ahead of me at Grosse Pointe University School," Harriett reminisces, adding, "As a matter of fact, he was my first date, when I was in the fifth grade, at an Annie Ward Foster Dancing School party."

Harriett's 5th grade impression on Bill must have been less than spectacular: "I never saw him again until he went in the Army," she admits. But she kept his Dancing School party invitation. It's framed and hanging now on the Lafers' "Rogues' Gallery Wall," along with family photographs, mementos—and a picture of the "Hush Puppy Dog," who happens to be the father of Harriett and Bill's long-haired Bassett, Mandy.

Also Have Siamese
The Lafers have a cat, too, a Siamese king-of-the-house named Charles Alfred Dickens, (he likes to be called by his FULL name), who's 12 years old and, Harriett explains, "came with Bill."

When four-year-old Mandy moved in last September, Dickens wasn't exactly overjoyed... but he and Mandy have managed to arrive at a Workable Arrangement: Dickens ignores Mandy, and Mandy has given up trying to play with Dickens. Harriett likes to make things with her hands, but disclaims:

Grandfather's Table
Harriett proudly shows off "Grandfather Lafer's old coffee-testing table"—and a papier mache-over-old-coffee-cans female head, one of Bill's "experiments," that is, frankly, a "hust" in more ways than one!

any true creative talent. "Bill is the one who is really clever," she says. "He does the designing; I just sort of 'fill in'..." She does crewel work and needlepoint, knits and makes some of her own clothes. She's fashioned decoupage, needlepoint and monogram purses.

She and Bill make all of their Christmas presents. "I worked for the Memorial Church Christmas Fair Felt Booth last year," Harriett smiles, "and I admit that I snitched quite a few ideas..."

This past Christmas, the Lafers made themselves a wooden ornament tree, using original, (or Memorial Fair "snitched"), designs, figures that Harriett's parents had brought back from a recent trip abroad, from Oberammergau, Germany, even Harriett's old wooden toys.

They Collect Lions
The Lafers, both born under the sign of Leo, have scattered Lions throughout their home.

Harriett's covered one of her living room sofa pillows with a needlepoint lion head. A Pewabic mosaic lion, made by Bill long before they were married, hangs on a wall in their back hall. (This lion, with a banner proclaiming Harriett's and Bill's names, was placed above the mantel of Harriett's parents' home at Harriett's and Bill's engagement party).

"We've done a lot to the house," Harriett says, glancing proudly around the surprisingly large, (from the outside, it looks tiny), interior of her Hamilton court home.

They moved in a little over two years ago, one week before Christmas. Luckily, both Lafers enjoy decorating, looking for things, picking up household accessories, re-finishing furniture.

Lovely, Messy Job
They painted their library last summer, then Bill antiqued it: "A lovely, messy job," says Harriett.

They're creating their garden from scratch. When the old Neighborhood Club building was torn down, Harriett rummaged through the rubble, looking for—and finding—bricks and fancy stonework for her own backyard. A graduate of Wheelock College, (she served as Class Agent for five years, returned for her fifth reunion last fall—"I still love the Boston area," she admits), Harriett taught first grade for three years before she was married and still tutors professionally.

Grows Mushrooms
Last year, she added door-to-door canvassing for the United Foundation to her schedule. This year, among other things—Harriett generally has a variety of "small" projects going in addition to her "big" ones—she's growing mushrooms in her downstairs powder room!

The Lafers enjoy visiting Williamsburg. Bill was stationed in Virginia during his service with the Army. Harriett visited him there—toogether, they grew to know the area around Washington, D.C., and Williamsburg well.

They still have many friends in Washington and seem to keep gravitating there on vacations and long weekends.

As their "Rogues' Gallery" indicates, they're inclined to be sentimental about personal and family mementos.

Grandfather's Table
Harriett proudly shows off "Grandfather Lafer's old coffee-testing table"—and a papier mache-over-old-coffee-cans female head, one of Bill's "experiments," that is, frankly, a "hust" in more ways than one!

ury. "But after all," says President Harriett Lafer, "we're not in the investment business."

"Our object is to raise money to spend in good causes. We're looking into possible short-term fund-raising projects. We plan to keep making money, and to keep spending it..."

Which, as any President, Young or Old, will tell you, (providing, of course, what goes out doesn't exceed what comes in), is EXACTLY the way to run a railroad...

The Governor's salary is \$40,000 per year — the Lieutenant Governor makes \$22,500 per year. Since our Honorable Governor is so seldom in his own state, I think it would be a nice gesture if Governor Romney would switch salaries with Lieutenant Governor Milliken... or better yet refund ½ to the state.

Pointe Counter Points

by Pat Rousseau

Because... we wear a size five, we're always on the lookout for small but smart junior size dresses and coats. Where do we find them? We've had a lot of luck at Walton-Pierce! Let us tell you about two "finds" for spring and summer. One pearl gray and white plaid is neatly cut and newly belted. It also comes in navy. We were delighted with a crisp coat dress in a sophisticated abstract print (black, navy, royal and white). Being a city girl from way back, we know it's perfect for travel and town. Both are from a designer who really understands "the little woman" and how she wants to look... all the days of her life.

A New Film... is influencing fashion these days and Tony at Leon, 17888 Mack Avenue, is styling the "Elvira Madigan" hair-do for the Pointe's pretty girls. A pompadour is tied with a ribbon on top. Long back curls fall gracefully. If your hair is long he will do it in ringlets... skillfully and quickly with a Capilustro iron. If your hair is short, he will pin on extra curls. For the neosy and pretty looks in hair fashion, call TUzedo 4-9393.

Do You... paint, sew write? Would you like to spend more time with your hobby? Mutschler Kitchens, 20227 Mack Avenue, says... "Bring your hobby into the kitchen. Give it a work center close enough to the cooking area so that you can combine painting with popovers... basting seams with basting a roast and come to think of it, writing a column with jotting an on-the-spot shopping list."

Beautiful Butterflies... alighted in Michelle's Boutique at Leon, 17888 Mack Avenue. They were part of the antique reproduction jewelry collection she had selected in New York. Romantic bowknot pins, lovely hears and the like are charming. Their prices are sure to charm you into collecting them.

The Modelia Fashion Show... was at Claire Pearone, 397 Fisher Road, yesterday. Two of our favorites were a coat ensemble... light beige, embroidered all over with white daisies for one of the freshest fashion looks. For relaxing, there are white slacks paired with a cut-away silk jacket, striped with pink, green and yellow. If you missed the collection, it will be at the Livernois shop, February 22nd, 23rd and 24th. However, you can find stylish samplings in Grosse Pointe.

Get In the Swim... of things with Seaweed bathing suits from Martha's Closet, 373 Fisher Road. So many south-bound customers have been asking for them and now they are here. All Seaweed gatherers don't go south but they do stash Seaweeds for summer.

Very Timely Special... at the Notre Dame Pharmacy... is the savings on hand lotions. Revlon's Intimate lotion is one seventy-five for the two ninety-five size. You save one-fifty on Rubinstein's lotion Dorothy Gray's special price for her hand cream is one-fifty. Coty's three-fifty size is now two dollars. Lavish those winter weary hands.

Pet Pins... are at The Sphere, 19849 Mack Avenue. If you don't have a lucky bug or a lovable little animal pick a pet. They're fun, care-free and cost about two dollars. The Sphere also carries Trafari and Hobe jewelry. Many of the pieces you will see in national ads.

The Kaleidoscope... 16135 Mack at Bedford, has two sizes of tins in which you can vacuum pack gifts. You can select clever, colorful labels for your greeting. Homemade cookies have been sent to service men. Among other things, golf balls have been surprise-packaged this way.

The Stitchery... is the name of the new fabric shop in the Block at Mack and Three Mile. It will open March 1st and will stock good basic fabrics, patterns and notions... 886-6685.

Menu Musing... at Wesfield's, 15506 Mack at Somerset, were tempted by the baby beef liver with bacon, baked potato and green beans. There was more temptation in another selection, chicken croquettes, whipped potatoes and green peas. We have two delicious reasons to go back again because we ordered the char-broiled steak with a baked potatoe and sliced tomatoes.

Adore a New Kitchen?... Let one of the kitchen experts at Kitchen Remodelers Inc., 15218 East Jefferson, show you how to save money on kitchen planning. Then let their interior decorator, Miss Mary Anne VanderWeele, do a color rendering of your new kitchen... Phone LO 7-2400 for a free bid or visit the beautiful showrooms.

"It's a Heck of a Hike" from the east side to Metro airport. Next time ride the Royal Coachman Limousine, scheduled every hour, every day... to and from Metro... TUxedo 6-1322.

Foil Streaking... and nothing else? Mr. Dennis, who so many of you know for his expert styling and as a hair colorist is now at Edward Nepi Parrucchiere, 19463 Mack Avenue. He is one of the few, who do foil streaking. Call TUzedo 4-8858 for an appointment with Mr. Dennis. By the way, the salon has had so many requests for Princess Marcella Borghese and Revlon cosmetics to be delivered to the home. They are happy to continue this service at no charge.

Decorators... have used shags as accents for years. Now they have come into the popular price area. At Ed Maliszewski Carpets, 21435 Mack Avenue, they are available in many materials. Cabin Crafts' shag carpets have interesting textures and come in so many colors. Go ahead be a decorator... it's easier than you think... 776-5510.

From London, England... Vidal Sassoon, great artist in hair cutting, arrived in Detroit for the North American Hair Show to give the interested hair stylist his latest hair fashions. The stylists at Tres Chic, observed with pride, his excellent technique in cutting and creating up-to-minute looks in hair fashion for you, the smart woman... 886-1377... for an appointment with them. By the way, Tres Chic will be enlarging their beauty studio once more for your convenience with a new boutique, a new look in and out. The new name will be The Posh Studio of Beauty, Inc., same location, 18700 Mack Avenue... same superb stylists.

Explorer's Haven... is the Ports of Call... ten unusual shops with one address... 13220 Mack Avenue. Discover antique glassware, china and furniture from Michigan and the East Coast. You'll love the pair of antique Venetian mirrors. The one with the original glass is two hundred-thirty dollars. It's mate with the glass replaced is two hundred dollars. We also admired the standing Victorian hall rack. It is beautifully refinished... ninety-five dollars.

If... you want to make a lamp out of a family heirloom, go to Thingamajig's General Store at 23161 Mack Avenue, where they have the necessary equipment and will show you how. Gaslight hubs are available.

The Newest Idea... in metal today is found at Jacobson's Home Decorative Shop. It is engraving on non-tarnishable silver plate. Contemporary styled accessory pieces are finely engraved with an exciting design. Each piece of this WMF collection is designed for today's living and each engraving is planned to compliment the shape.
