FOUR THOUSAND U.S. paratroopers from the 82nd Airborne Division have arrived in Vietnam to bolster allied defenses against new Communist attacks and pressure, the American Command announced Wednesday. The new arrivals are part of the 10,500 men President Johnson ordered from the United States two weeks ago in response to General William Westmoreland's urgent request because of North Vietnamese pressure on Khe Sanh and the prospect of new Communist attacks on South Vietnam's cities and towns.

GOVERNOR GEORGE ROMNEY surprised the nation yesterday when he announced at a Washington press conference that he was withdrawing from the presidential campaign. He said his decision was based on the fact that he was not getting the support he had anticipated.

Friday, March 1

DESPITE INCREASING OPPOSITION to the state aid bill for parochial schools, State Rep. William Ryan, D-Detroit predicted Tuesday that it stands a good chance of passing this year. If not, he added, "it is certain to pass eventually." Ryan and Senator George S. Fitzgerald, D-Grosse Pointe Park, met with newsmen prior to an afternoon meeting with the Detroit Board of Education to explain how the bill would help Detroit public schools. Despite their efforts, the Detroit board voted to oppose the aid measure. Fitzgerald said the bill which would grant up to \$150 in state aid to parents of non-public school children, would act as "preventive medicine" to halt massive enrollments by parochial children in public schools.

Saturday, March 2

GOVERNOR NELSON Rockefeller edged closer to open candidacy for the Republican presidential nomination but said he would not run for it in the primaries. He clearly invited Republicans to get out and work for him and indicated that if enough did so he might openly challenge Richard M. Nixon between the primaries and convention time.

Sunday, March 3

THE PRESIDENT'S NATIONAL Advisory Commission on Civil Disorders said tonight that if major American cities were to avoid a system of "apartheid" the nation must press simultaneously for enrichment of the slums and for racial integration. The commission also stated that it found cities unprepared in planning, equipment and training to cope adequately and justly with urban rioting. The commission said its basic conclusion was that "Our nation is moving toward two societies, one black, and one white, separate and unequal."

Monday, March 4

A 200-MAN Communist force killed 48 Americans soldiers and wounded 28 in an ambush along a key highway nine miles north of Saigon, the U.S. Command reported Sunday. The attack underscored the still-remaining enemy strength in the capital area. The command reported that most of the U.S. casualties occurred in the first eight minutes of a withering machine-gun assault from well prepared positions.

Tuesday, March 5

THE VIET CONG shelled five provincial capitals and two airfields in the Mekong Delta below Saigon today, the second straight day of widespread Communist attacks. Initial reports indicated light casualties and damage. Government military headquarters said 13 Vietnamese were wounded at Can Thon.

Ingenuity Enters Into Pool Construction

Believe it or not, this is a portion of the new swimming pool being built at Grosse Pointe Park's lakefront recreation area. ROBERT OHTONEN, superintendent, left, and CHARLES ROBERTSON, of Pad-

dock Pools, check progress under very comfortable conditions despite the fact that it was very cold outside. Plastic sheeting and large heaters solve the problem.

Park Pools Not Delayed By Weather

Workers and Concrete Protected from Elements by Oil Burners in Plastic Tunnels

Grosse Pointe Park's Pool, located at the foot of Alter road, is 80 percent completed, thanks to the ingenious efforts of the brothers Robertson, Chuck and Bill, of Paddock Pools.

In order to continue work when outside temperatures are zero and below, they have devised a plan which enables their crew to work under summer conditions.

They poured the concrete floor, (342 yards were poured by 23 men and two cranes in nine hours), and then tunneled wall areas by using two by four and clear plastic around the complete perimeter of the pool. They then placed oil-fired heaters in various areas under these plastic enclosures. Under this canopy they were able to maintain minimum temperatures of 55 degrees 24 hours a day.

Three Mile Pool was completed under similar conditions. The Waterfront Pool is 12,067 square feet and will hold nearly a half million gallons of water. The Paddock Company excavated the pool in seven days then placed 20 tons of reinforcing steel in the excavated area. Both pools will be ready for Park swimmers by the Memorial day opening.

Pleads Guilty to Shores Robbery; Awaits Sentence

John L. Powers, 37, of 24551 Valley street, Detroit, entered a plea of guilty to a charge of assault with intent to rob while being armed, at a hearing held before Wayne County Circuit Judge Theodore R. Bohn, it was disclosed by Shores police on Monday, March 4. The judge has set April 2 as the day for sentencing.

Powers, the father of eight children, can be sentenced to up to life in prison, the maximum under a State Law covering such an offense, according to information released by Dets. William Marshall and Frank Mustazza. The man is a "four-time loser," having been convicted for felonies on three other occasions, the policemen said.

Powers is accused of the September 18 attempted robbery of the Nehra residence, 791 Lake

Woods Council Presented With Complete Summary Of Capital Improvements

Current and Proposed Projects Outlined by City Administrator Petersen Represents Total Expenditures of \$2,156,736

City of Grosse Pointe Woods Administrator Chester E. Petersen presented a complete summary of current and proposed capital improvements to the Woods Council, sitting as a Committee-of-the-Whole, at a recent meeting.

The current capital improvements include: relief sewer construction, the Department of Public Works Storage and Wash Building, street construction, the installation of remote water meters at city expense over a six-year period, electronic data processing equipment, street lighting replacements amortization costs, civil disturbance control equipment and a master development plan for Lake Front Park.

The Committee concurred in the following proposed capital improvements to be made prior to June 30, 1968:

Street construction with the exception of improving east Vernier road but including the current street construction program. Included also in this program are many improvements on Mack avenue. The Wayne County Road Commission has already indicated its approval to share 60 percent of the total cost of such improvements and is already preparing plans and specifications for this.

More Parking Lots Acquisition of additional areas for off-street parking lots to be determined at a later date by the City Administrator and with the approval of the Council.

Equipment Purchases—Some of the proposed equipment pur-

chases are made possible through the deletion, upon recommendation of this city administrator's office, of the purchase replacement for a second street sweeper this year.

The purchase of a truck with a semi-trailer and a tractor equipped with a backhoe and loader should virtually pay for themselves in lieu of rental charges and hauling costs by private concerns as well as savings in the Public Works labor costs. The tractor and semi-trailer equipment would be utilized in the hauling of salt, sand, topsoil, sod, tree limbs, branches, etc.; while the tractor equipped with a backhoe and loader would be used primarily for the repair of water and sewer mains, and secondary uses would consist of salt loading, snow removal, leaf collection and other public works operations.

Previous consideration has been given to the installation of a security communications system for the Lake Front Park, and it was generally agreed that such a radio communications system should be installed.

Need Radio Tower The above purchase would be combined with the purchase of a radio tower and antennae which would be sufficient not only to serve the Park's needs but which could also be utilized by the Department of Public

Street Closing Reaction Varies

Two communications regarding the closing of Helen avenue at Vernier road appeared on the Woods Council meeting agenda of Monday, March 4.

One, written by Charlotte McCallan, 2664 VanAntwerp avenue, commended the action. The second communication, from John F. Hansen, 2039 Hampton road, was a petition signed by 86 persons objecting to the closing of the medial.

This petition stated that the closing is a hardship and inconvenience to all residents of the northwest section of the Woods and will delay police protection in that area.

Director of Public Safety Allen H. Andrews is currently reviewing the situation and will report his findings to the Council.

Braggadocio Lands Youth In Handcuffs

Gets Five Days in Jail for Running Out on Restaurant Tab and Then Boasting About It

A boasting Detroit teenager received the surprise of his life on Thursday, February 29, when handcuffs were slipped on his wrist by a Park police officer sitting next to him in a Jefferson avenue confectionery store in Detroit.

The youth was charged with defrauding an innkeeper, a misdemeanor under a State Law.

Arrested before Park Municipal Judge C. Joseph Belanger on Friday, March 1, was Ralph Schlereth, 19, of 654 Newport, who was found guilty as charged, and sentenced to pay for the meal, by serving five days in the Wayne County Jail.

Det. Lt. Arnold Hough said that on February 1, a complaint was received from Robert Kostrowski, owner of the Westfield Restaurant, 15506 Mack avenue, that two youths deliberately ran from the place after eating their meals, failing to pay a total of \$4.26.

Gets License Number Kostrowski said he ran after the boys, and saw them enter a car, with another youth behind the wheel. The vehicle sped away, but not before the restaurant owner noted the license plate number.

The case was assigned to Det. James LaPratt and Patrolman Charles Petrie, who was working in plainclothes with the Detective Bureau, who traced the license plate number to the home of the young driver. The youth refused to co-operate with the policemen, but was finally induced by his parents to reveal the names of the two defrauders, Schlereth and a 16-year-old boy.

After being questioned further, the car driver told the officers that both boys usually frequented the Sanders Store, Jefferson and Lakewood, in Detroit. The youth claimed he did not know where the pair lived, that they were merely acquaintances, but again he was persuaded by his parents to reveal their home addresses.

Petrie went to the home of the juvenile, and took this lad in custody there, and took him to the station. Charges were filed against the teenager in Juvenile Court and he is awaiting a hearing date.

The officer made repeated calls at Schlereth's residence,

Motorcycle Crash Kills One, Witness Sought by Police

Man In Short, Red Coat, Who Might Have Seen Accident, Asked To Help Officers Complete Report; Victim Father Of Three

One person died, and another was injured when their motorcycle went out of control on Lake Shore road on Tuesday, February 27, and Shores police are looking for a witness who is believed to have seen the accident. His statement is needed to complete an accident report.

Dets. Frank Mustazza and William Marshall, who are investigating the fatality, said the witness was wearing a short, red coat. The man got into his car before officers at the scene were able to question him, and drove away. The make of the man's car is not known. Information should be relayed to the two detectives at the Shores station, TUxedo 1-5500.

Father of Three Dies

The accident took the life of Walter Russell, 27, of 13805 Beth, Warren, the father of three children, who was pronounced dead on arrival at Bon Secours Hospital, apparently of a broken neck.

Injured was Bernard J. Green, 29, of 23200 Jefferson, St. Clair Shores, who suffered a broken nose, a cut lip, lacerations about the face and shock. He was also taken to the hospital, but later released. He was unable to give police a statement on the cause of the fatality.

Police are trying to determine who was driving and who was riding on the rear of the cycle, and what caused the mishap.

According to an accident report, as far as could be determined, the two men were traveling south on Lake Shore road, when in the vicinity of 707 Lake Shore, at the Lochmoor island crossover, the operator of the motorcycle somehow lost control, the vehicle hit the curb of the island traveled its full length, ran off and ended up on the north bound lane of the road.

Investigating officers said that Russell either struck his head against a tree on the island, or fell off the cycle just before, in such a way that he broke his neck.

The man with the red coat stopped. It is believed that he was driving behind Russell and Green, and might have seen the entire incident. If he reads this story, he is urged to contact Mustazza and Marshall.

Anyone who might know who this man is asked to inform him that his statement is important toward completion of the investigation.

Correction

Due to a typesetting error it was reported in last week's NEWS that Michael Malcoun, 1771 Hollywood, who was charged with car not under control resulting in an accident was found guilty and fined \$20.

The copy should have read Mr. Malcoun was found not guilty and his case was dismissed. Richard K. Arms, Jr., 16808 Cranford, was charged with car not under control resulting in an accident and he pled not guilty and was found guilty and fined \$20.

Pointe Review Boards Set To Hear Local Taxpayers

Farms taxpayers will be given additional time to petition for relief, or to seek adjustments on taxes levied against their properties, it was brought out at a regular council meeting held on Monday, March 4.

Carroll Lock, city assessor, said that the regular days for the review of the 1968 Assessment Rolls for the Farms are Tuesday, March 12 and Tuesday, March 26, from 9 a.m. to 5 p.m. However, because a number of people will be unable to appear before the 5 p.m. deadlines, hearings will be held again from 7 p.m. to 9 p.m. on both these days, at the City Hall, 90 Kerby road.

He pointed out that all persons who will appear will be heard, and if time does not permit, then the people will be given alternate days in which their petitions can be heard.

Woods Sets Program on Maintenance

Rotating Plan Divides City into Five Districts with Services Provided Each Five Years

The Grosse Pointe Woods Council, acting as a Committee-of-the-Whole, concurred with City Administrator Chester E. Petersen's Five Year Rotating Maintenance Program, a proposed new policy for the Department of Public Works, at a recent meeting of that body.

This program of preventative maintenance is designed to give more complete services to residents of the Woods.

Basically the plan calls for the city to be divided into five districts in which a different specified type of public works maintenance will be performed each year for a five-year period after which the cycle will begin again.

Five Types Proposed The five types of public works maintenance to be performed will include:

Concrete Maintenance—street and curb patching, repairs and/or replacement and inspection of sidewalk and driveway approach repairs and/or replacement.

Woods Approves Emergency Law

The Woods Council on Monday, March 4, passed unanimously an ordinance authorizing the Mayor, Mayor Pro Tem, City Administrator and the Director of Public Safety to proclaim a state of emergency and to provide for imposing curfews.

The new law also provides for closing places of public amusement or assembly and restricting, use, storage or sale of alcoholic liquors, flammable liquids, firearms, ammunition and explosives, to restrict or prevent the movement of vehicle or pedestrian traffic on all streets and alleyways and to provide for penalties for violations of such proclamations.

The Woods becomes the second of the Grosse Pointes to provide such enabling legislation. The City of Grosse Pointe recently amended its city code to include this provision.

New Group Attracts 150 To Meeting

First Formal Session Held at War Memorial; Former City Mayor Bergmann Is Chairman

A group of concerned citizens from the five Grosse Pointe communities and Harper Woods have formed Grosse Pointe Citizens for Education, a non-profit, (unincorporated), volunteer organization to study the goals of public education in the Grosse Pointe School System.

More than 150 persons attended the first formal meeting of the recently formed group on Wednesday evening (February 28) at the Grosse Pointe War Memorial. Arthur G. Sherman, Jr. of Grosse Pointe Shores, vice chairman and one of the organizers of Grosse Pointe Citizens for Education, explained the history of the organization, and then turned the meeting over to the chairman, Kenneth F. Bergmann of Grosse Pointe Woods.

Bergmann outlined the purposes of the organization and membership qualifications and then introduced members of the executive committee.

Other Officers

In addition to the chairman and vice chairman, other officers are: Norman A. Bolz of Grosse Pointe Farms, treasurer; Mrs. William J. Waugaman of Grosse Pointe Farms, assistant treasurer, and Mrs. Winifred Bolton of Grosse Pointe Woods, secretary.

According to Bergmann, a former mayor of the city of Grosse Pointe, any adult resident of the Grosse Pointe Public School System may become a member by contributing five dollars or more. Bergmann and Sherman urged all to join and to invite their neighbors to join. Contributions may be made by either a husband or wife which includes membership for a spouse.

Purposes Outlined

Bergmann said the purposes of Grosse Pointe Citizens for Education in addition to providing a forum of study and discussion of goals of public education in the Grosse Pointe School System and making recommendations thereon; is evaluating and recommending financial needs; distributing information; fostering support and interest in the school system and to evaluate the qualifications of the candidates for membership on the Board of Education—supporting candidates of the highest qualifications.

Bergmann stressed the fact that recommendations established by the executive committee to be made in the name of Grosse Pointe Citizens for Education will be presented for approval at meetings of the members.

Executive Committee

Members of the executive committee in addition to the officers are: John M. Chase, Jr., Geno Cioe, John Dodge, Jack Dryden, David H. Fairless, Dr. Max L. Gardner, Alfred R. Glancy, Jr., Edward C. Hanpeter, Richard C. Hudson, Robert A. Martin, Mrs. Beneth Morrow, Mrs. Lee Nelson, Floyd Nixon, Dr. Frank H. Parcells, Raymond Peleman, Mrs. Kenneth Pitts, Martin K. Schurr, Jr., John A. Study, Mrs. William Tily, G. Sheldon Veil and John H. Woody.

Interested citizens who wish to join should write to the membership chairman of Grosse Pointe Citizens for Education, P.O. Box 6872, Grosse Pointe Farms 48236, or call any member of the executive committee.

WATER PIPE BREAKS

Robert N. Brewer, 715 Washington road, called City police on Sunday, March 3, to report that a water pipe leading into the house was broken somewhere underground between the sidewalk and his home. He called a plumber who advised him that he should contact the city to turn off the outside water. City police officers found on arrival that the water was beginning to seep into the basement. Jules Maes of the Highway Department was notified.

Capital Improvements in Woods

Safety for an auxiliary police-fire communications system in case of natural disasters, civil disturbances or other emergencies.

The additional mobile radio is proposed to be installed in the vehicle assigned to the City Administrator so that in times of emergencies, civil disorders, etc. such vehicle could be utilized effectively for patrol duty.

An additional water deluge gun is also requested to be added to fire fighting equipment for the purpose of fighting any multiple fires which may occur—especially in civil disturbances.

Repairs To Pool

Progressive Repair of Lake Front Park Swimming Pool — Varying estimates of \$50,000 to \$80,000 have been made for the repair and rehabilitation of the Lake Front Park pool surface. It would appear that the most economical method of making needed repairs to the pool's surface would be to utilize the "gunite" concrete spray application. Successive budgets could include sufficient funds to completely repair and rehabilitate the pool surface.

Park Picnic Shelter — This structure would be built in Lake Front Park and would provide a facility for large picnics as well as being utilized in the summer recreation program. The Kiwanis Club has indicated a willingness to contribute funds toward this project.

Progressive Construction and Installation of a Complete Communications and Dispatch Center for the Department of Public Safety—The purpose of this remodeling is to accomplish in several phases a completely rebuilt and modernized communications and reception desk area which will allow the clerk-dispatcher to function with maximum efficiency as a communications point for all city services sometime in the future; more adequately perform the clerical functions which are being added to the position but which cannot now be housed at the desk; increase the file storage space at the desk; accommodate the statewide computer teletype terminal at the desk in an appropriately acoustically treated cabinet; increase the security of the dispatcher from assaults by drunks and mentalists; provide for reception of the increasing number of alarms in an organized and efficient manner; materially improve the present disorganized appearance of the desk; reduce wasted space and allocate it to the overcrowded records area for future use; provide a second dispatching position in efficient relationship to the first and its associated communications equipment to allow us to handle peak communications overloads, both radio and telephone; and simplify the control equipment necessary for our radio system, internal communications and telephone service.

The elements of this first phase are:

- 1) Replacement of present ineffective built-in wood desk with unitized office furniture selected according to the needs of the operation.
- 2) Installation of a raised platform to allow for future wiring and cable change without expensive and damaging modifications and to put the seated dispatcher on a more comfortable level with standing citizens.

3) Install electrical service and acoustic cabinet for the statewide computer teletype terminal at the dispatcher's elbow.

4) Install adequate electrical service outlets to meet present and future needs.

5) Install tempered glass protective closure over the front of the position to prevent drunks and mentalists from climbing over the counter.

6) Install an alarm pedal under the desk to actuate existing bells to alert standby men that the dispatcher needs assistance, either emergency or overload.

7) Relocate the records office partition eastward and the Lieutenants' office partition and door northward to enclose the desk for better acoustic control and to reduce confusion of personnel in the desk and to make present wasted space usable for the records functions.

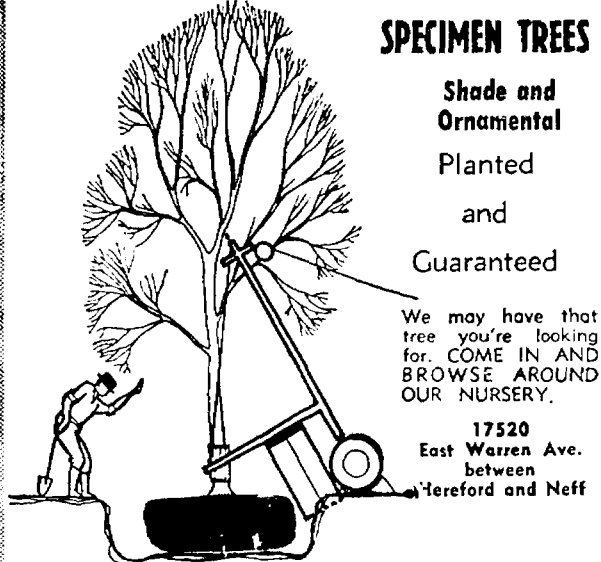

8) Install a main dispatching panel to handle three frequencies and related switching and having a standby panel for emergency use to place a second dispatcher in operation during peak load conditions.

9) Install a card-operated electrical status board, showing in-service status of mobile units and related fire departments, to relieve dispatcher of the difficulty of remembering the status of approximately 10 to 15 units, which may be moving, by acquisition of a time clock that she must keep track of; and, incidentally, this will allow, stamp, analysis of dispatching and workload by time of day and geographic location for manpower scheduling and establishing of patrol car district boundaries.

The above measures, which must be done together to assure an integrated design providing for all possible future improvements which might arise, will meet the city's most pressing needs for security and operating efficiency. The second or additional phases can be budgeted in successive future years.

Progressive Installation of Aluminum Exterior Siding on Municipal Building — Rather than continually expend funds for the maintenance of the painted exterior wood of the Municipal Building it is believed that the installation of aluminum siding on this exterior wood will be the most economical over the years.

This work would be accomplished on a progressive basis and funds budgeted in following years to complete the installation. Immediate attention however must be given to the west and south sides of the building, which are experiencing considerable paint peeling. Sufficient funds are on hand and currently available to finance the current projects and the entire proposed program. These revenue figures have been verified by the City Comptroller. Total combined current and proposed total costs for improvements comes to \$2,156,736. The proposed improvements will be reviewed and authorized as the occasion for the improvement arises.

Cub Pack 481 Holds Dinner

The Annual Blue and Gold Dinner for Kerby School Cub Pack 481 was held Tuesday, February 27, at the Grosse Pointe Methodist Church.

The group was addressed by Leon Anderson, Assistant District Commissioner of the Boy Scouts of America, who emphasized the role of scouting and home-parent activities in combating crime and delinquency.

Pack 481 had 46 advancements in 1967, which was more than the average for all packs in the Detroit Area Council. Awards for Den 1 were as follows: Dale Kronback, wolf badge and gold arrow; Chris Munchausen, bear badge and gold arrow. Den 2 awards: Frank Willard, wolf badge and gold arrow; Tom Curto, wolf badge and gold and silver arrows. David Bogle outlined the role of the Webelos as a transitional step from the Cub Scouts to the Boy Scouts, and presented some additional awards.

James Swift of the Michigan Bell Telephone Company showed a fine film, "The Story of Teletar," on the pioneer communication satellite.

Toastmaster J.H. Munchausen announced that Den 2 won the award for the best table decoration. Thanks were extended to the Brownell Girl Scout Cadets for their help in serving the dinner.

but never found the youth at home. On the afternoon of February 29, Petrie completed his duties for the day and was on his way home. Mindful that Schlereth frequented the confectionery store, the officer stopped there for a cup of coffee. He entered and sat next to three young men.

Pins Guilt on Self As luck would have it, while sipping his coffee, one of the young men was boasting to the others how he obtained a free meal at the Westfield Restaurant earlier in the month, by running out and not paying for the food.

While still talking, Schlereth felt something cold on his wrist and heard a click, and was startled to discover that he had been handcuffed. The youth was informed of the reason for the action, and placed under arrest, and taken to the Park station, where he was booked and charged.

His half of the \$4.26, which he bragged he did not pay, resulted in the five days in jail.

State Assessed Valuation Explained by City Assessor

State Assessed Valuation has been a matter of interest to Grosse Pointe residents since the arrival of their tax statements. In an effort to better acquaint residents with State Equalized Valuation the NEWS went to Robert Bendzinski, Assessor for the City of Grosse Pointe.

Mr. Bendzinski explained State Assessed Valuation and how it affected the residents of the City of Grosse Pointe.

With the adoption of the new state constitution in 1963, came the provision that all assessments in the State of Michigan should not exceed 50 percent of the market value, enabling the legislature to set the level of assessment for local communities.

In 1964 the Legislature passed Act 275, which stated that State Equalized Valuation of property shall appear on the individual property tax statements, effective for 1966. (This bill was subsequently amended by Act 410-1965 which changed the effective date to 1967.)

In 1965 the State Legislature implemented the Constitution by passing Act 409 which required that the level of local assessment be 50 percent of the market value. This is the reason for re-evaluation in many communities.

In many instances local assessors felt it easier if their local level be the state equalized level.

Complications develop with the term "current market value." Because of today's economy the sale prices of houses are not relating to reproduction cost of these houses, (the normal method of appraisal). As a result State Equalized Valuation of property will tend to rise until the economy levels off or the desirability of living in that particular community diminishes. (Because of the extra services, good schools, parks and recreation programs in The Pointe, this has been historically a highly desirable area to live in.)

The tool used by the Tax Commission to determine State Equalized Valuation is a Sales Study—a statistical sampling of those properties sold in a given community during the last two years.

Mr. Bendzinski felt that in order to have a better picture than presented by the Tax Commission, a more inclusive study was necessary. He then began an intensive sales study of his own based on all the sales in the city in the past year, discrediting sales considered not normal and omitting those from the final average. He compared this study with assessed valuation and determined the base average of the local level of assessment. Then using a tolerance figure of ten percent in either direction, he arrived at the norm for the market.

After recomputing the average, Mr. Bendzinski was not satisfied. He felt this was too inaccurate to apply to all properties. He then proceeded to group the sales within the ten percent range by type or class of property, adding a special classification to the classifications of the Tax Commission. He then computed the average from each class of property.

He took the average for each classification back to the assessment roll to reflect properly what State Equalized Valuation should be in terms of dollars and cents, and applied these factors to the dollars on the assessment roll and came up with State Equalized Valuation for his community.

He took his findings to the State Tax Commission along with other pertinent data. The Tax Commission agreed that the total dollars arrived at through his statistical study method would be acceptable to them as the State Equalized Valuation for the 1967 assessment rolls in the City of Grosse Pointe.

They then arrived at one factor to apply to all properties in the City of Grosse Pointe. They used the local assessed valuation divided into the dollars pro-

duced through the above sales study and came up with 1.36 factor for 1967 only. This factor was then applied to all properties. It produced the City of Grosse Pointe's State Equalized Valuation.

Mr. Bendzinski's study saved the residents of Grosse Pointe substantial amounts of monies in the form of county and school taxes. (The State Tax Commission's sampling had produced a 1.40 factor.)

Mr. Bendzinski adds that assessment has historically been based on two values... buildings and land. Assessment of the buildings is arrived at by taking the cost of building less depreciation, in accordance with the assessor's manual, which is developed by the Tax Commission. The land value is arrived at by the use of market values converted to front foot value based on a depth factor. These two values become the basis for valuation of real property by local agencies. State Equalized Valuation is based on the Sales Study.

Mr. Bendzinski expressed the hope that after reading this article, the residents of the City of Grosse Pointe will be better apprised of just what State Equalized Valuation and its purposes are.

QUESTION:

"Where can I get the highest interest on bank savings in Detroit?"

ANSWER:

At Michigan Bank. We pay 5% interest on time savings over \$1,000.00. Since this interest is compounded daily and paid four times a year, you earn the highest interest in dollars and cents at Michigan Bank. Interest is paid every three months by adding to your time deposit passbook, credit to your regular savings passbook or by check, sent to your home.

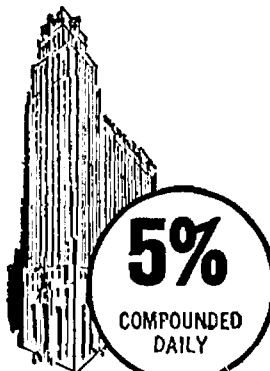

THIS IS THE HIGHEST RATE THAT FEDERAL LAW WILL ALLOW ANY BANK TO PAY (except on certificates of \$100,000 or more) AND IT'S AVAILABLE RIGHT NOW!

ACT NOW! Compare the interest you are now receiving on your savings at other financial institutions. Bring in your passbook and in a few short minutes you will be earning 5% compounded daily and paid quarterly with the safety and peace of mind that only a bank can provide!

Automatically renewed at every 90-day maturity unless you or the Bank have given notice that the time savings certificate will not be renewed.

* NOTE THE COMPOUNDING EFFECT:

	When Held
Effective Rate of 5.1%	12 Months
Effective Rate of 5.5%	46 Months

Robber Awaits Sentence

(Continued from Page 1)

While he was beating the woman, and trying to tie her hands with baling wire, the mother-in-law managed to escape from the house and ran across the street to the police station and informed officers of what was taking place.

Four policemen dashed across the street to the residence, where they were met by the younger Mrs. Nehra, and Mrs. Cherry. Mrs. Nehra told the officers that Powers had gone to the garage and was trying to escape in her car.

The officers raced to the garage and placed themselves on both sides of the open door, just as Powers was backing out. The surprised man, on seeing four revolvers pointed at him, gave

up without a struggle, and was placed under arrest.

The arrest of Powers was instrumental in the apprehension of two other men, who, police said, although not with Powers at the time of the Nehra robbery, were directly involved.

The pair, Robert M. Beasley, 49, of 10525 East Jefferson, Detroit; and James Mahler, 44, of 420 Adelia, Sarasota, Fla., were taken into custody by FBI agents and officers of the Detroit Hold-Up Squad last November 2, as the two men alighted from a plane at the Metropolitan Airport.

Marshall and Mustazza, after weeks of investigation, located the whereabouts of Beasley and Mahler, and on receiving information that the men were arriving onboard a plane, relayed the information to the FBI and Detroit authorities.

The arrests cleared up at least 23 hold-ups in the Detroit area, and the smashing of an interstate armed robbery ring.

It was disclosed, after the arrest of Powers, that it was Beasley, who lived near the Jefferson party store owned by George Nehra, and George's father, Anthony, who set up the robbery attempt.

It was Beasley who dropped Powers off in front of the Nehra residence, then drove to a Woods bar at Mack and Anita, where he parked Powers' car. The vehicle was found at that location by Woods police.

Beasley waited until the Nehras entered their place of business then drove Powers to the Nehra home.

The trio were known as the "wire bandits" because they always tied the hands and feet of their victims with baling wire. They specialized in holding up credit unions, bars and loan offices, it was said.

Beasley is awaiting trial in Detroit for the crimes committed there, and Mahler is in Baltimore, Md., awaiting trial for felonies committed in that city.

The trio had been sought by authorities of Michigan, New York, Maryland, Florida and other states, according to Mustazza and Marshall.

Unlit Tail Light Snags Motorist

Eleanore Margaret Coddens of 12265 Riad, Detroit, was arrested by Woods police on Friday, March 1, and charged with tow counts of traffic violation.

The woman was apprehended by Patrolman William Duster, who while on routine patrol, saw her car traveling west on Prestwick and stop for the Eastbourne stop sign. Mrs. Coddens' car taillight failed to turn on, when she stepped on the brakes, the officer said, and he stopped her at the Tyrone intersection. Duster said he tested the

vehicle and found that it had no taillights, and when the woman

could not produce an operator's license, Duster called the station for a check and was informed that Mrs. Coddens' license had been revoked under the Finan-

cial Responsibility Law. Mrs. Coddens was taken to the station where she was issued a violation ticket for no operator's license on her person, and

given another ticket, when it was found that the brakes of her car were very bad. She was released on \$25 bond until her scheduled appearance

in court on March 30. Her automobile was released to a relative, but it was towed, not driven, from the auto pound because of the faulty brakes.

Dial direct and let the savings roll in.

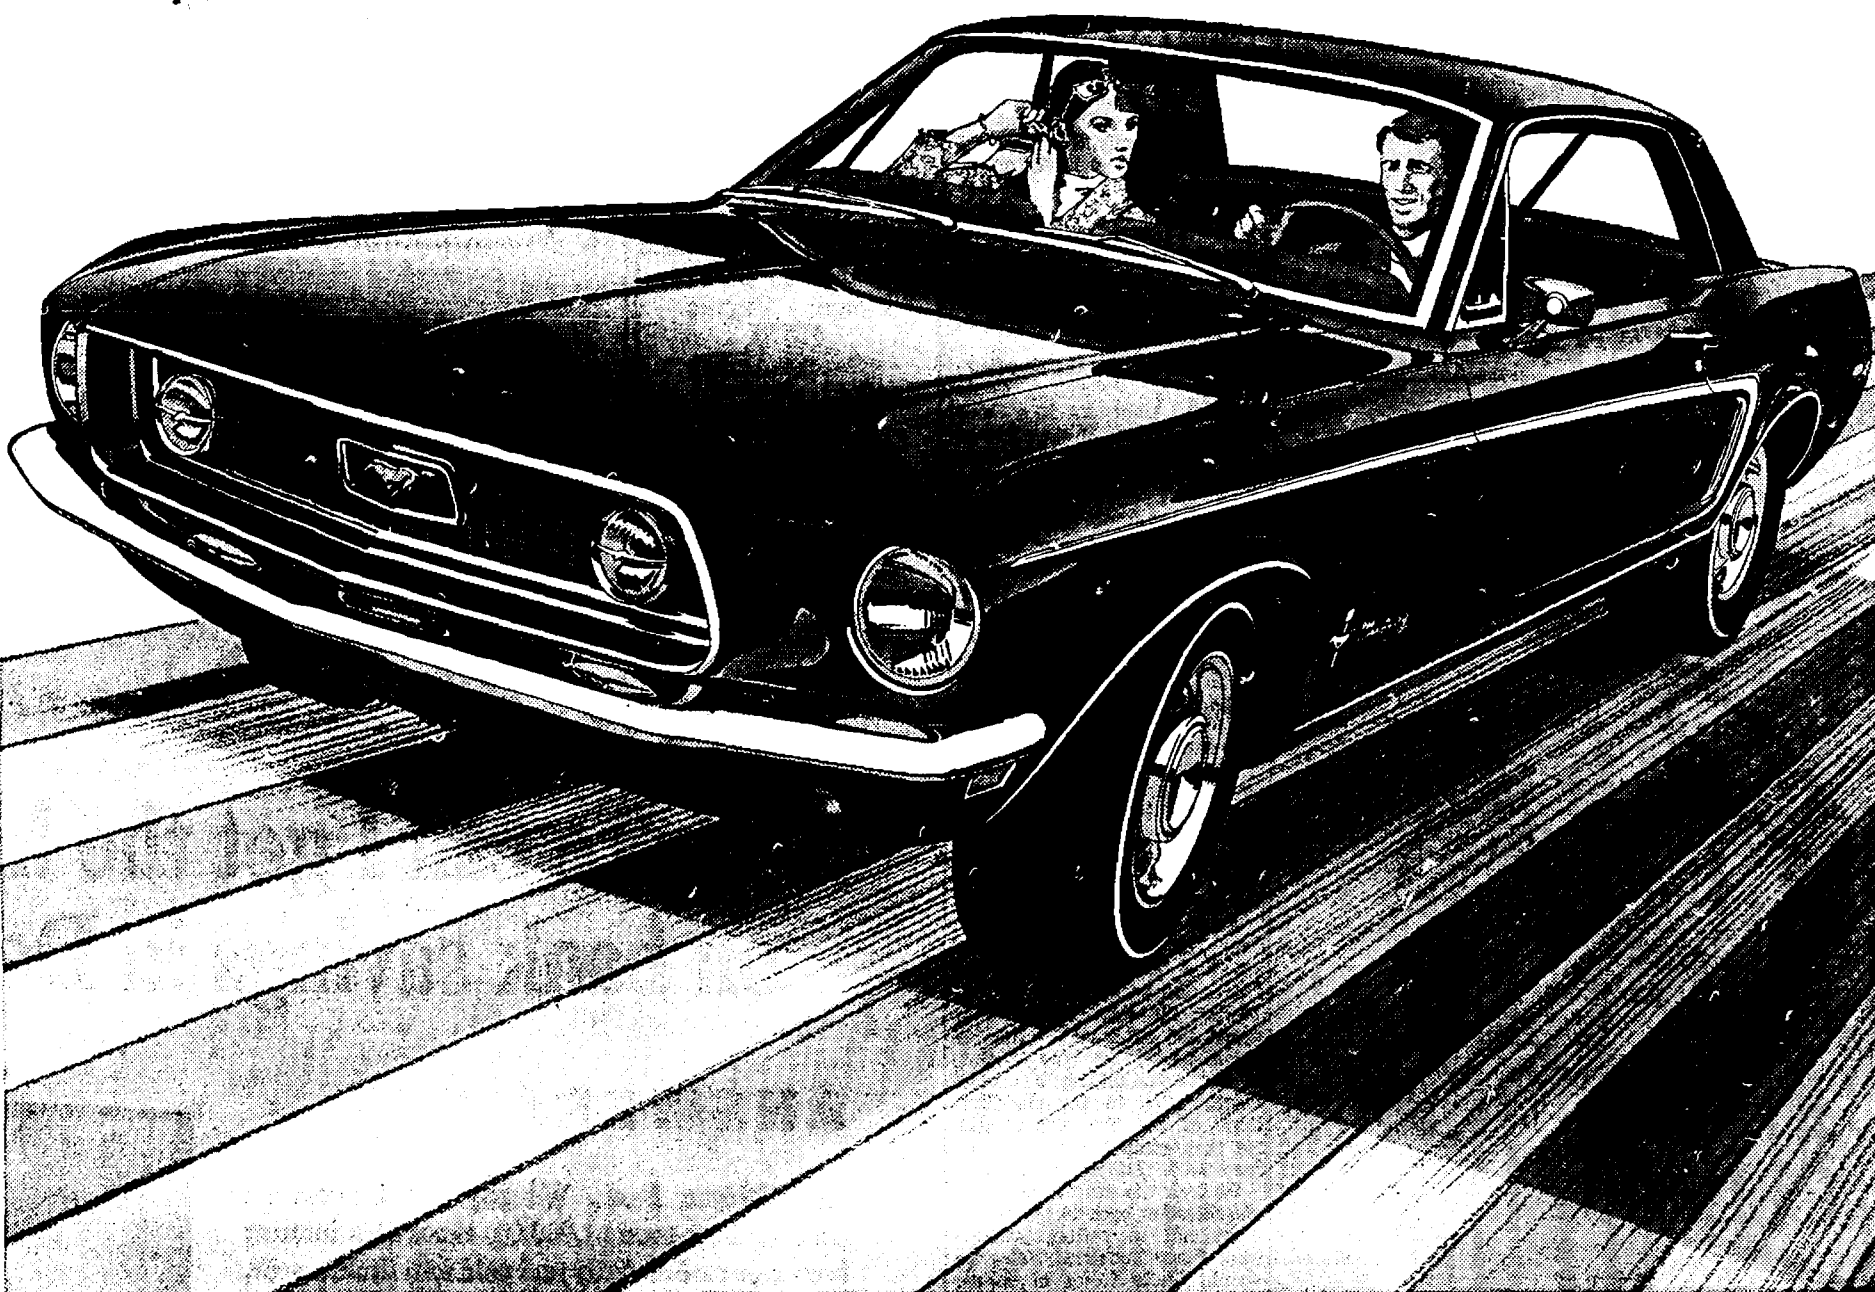

If you'd like to save some money, you'll be interested in Direct Distance Dialing. It's a more economical way to call Long Distance because direct dialed calls are all Station-to-Station instead of Person-to-Person.

It's easy, too. Just dial "1", then the Area Code, if it's different from your own, and the number you want. For an idea of how much you can save, here's an example. A 3-minute Person-to-Person call between Detroit and Chicago costs \$1.30 at the day rate. Dial direct and the cost is only 85¢.

So whenever you're reasonably sure the party you're calling will be there, dial direct and let the savings roll in!

House Speaker Robert E. Waldron (R-Grosse Pointe) has offered a resolution of tribute to the late Frank E. Cooper of Grosse Pointe Farms. Mr. Cooper was a distinguished Professor of Law at the University of Michigan.

"Professor Cooper was a great man, and we have tried to honor the memory of his greatness in this tribute by the House of Representatives," Speaker Waldron said.

Asphalt Maintenance—street and curb patching, repairs and/or resurfacing or replacement, and street surfacing joint and crack sealing.
Sewer Maintenance—sewer cleaning, removal of solid objects causing stoppage or reduction in flow of sewer by excavating and replacing sewer tile, replacement of broken or cracked sewer tile as discovered and construction of additional manholes where necessary for better servicing.

To Maintain Signs
Sign Maintenance—replacement of faded, rusted, distorted or otherwise damaged street regulatory signs, bringing all street regulatory signs in compliance with national standards as to type size, reflectivity, location and height of installation, reduction of street sign poles required, straightening and painting of street sign poles where needed, cleaning of street signs when needed.

Street Tree Maintenance—cut all dead wood out of street trees, trim tree branches overhanging streets and sidewalks according to accepted standard practices, trim any tree branches reducing the effectiveness of street signs or street lights and remove any dead or dangerous street tree and offer street trees in accordance with a developed master street tree plan.

Revenues Raised
With the exception of the Sewer Maintenance Program (30 per cent chargeable to this program), the entire maintenance program can be financed from revenues anticipated to be received from the State Motor Vehicle Highway Funds. Receipts from these funds will be greatly increased this fiscal year.

THIEF TAKES TIRES
Jerome Zielinski, of 656 South Rosedale, informed Woods police on Saturday, March 2, that unknown thieves entered his garage and stole two tires and wheels. He said he did not know the value of the missing items, but did disclose that the tires had been driven only 6,000 miles.

Donates Suite in Memory Of Late Joseph M. Dodge

A gift of \$40,000 to establish the chaplain's suite in Harper Hospital's new Webber Memorial Building in memory of the late Joseph M. Dodge — prominent Detroit financier and director of the Bureau of the Budget during the Eisenhower Administration — has been made by his widow, Mrs. Joseph M.

Dodge of Washington road. The gift was announced Wednesday by Alfred R. Glancy, Jr., major gifts chairman for the Harper-Webber Medical Center Fund. The suite memorializing Mr. Dodge — who was president and later chairman of Detroit Bank & Trust — will consist of four rooms on the first floor of the Webber Building. Included in the suite will be a chapel, meditation room, the chaplain's office and a combined waiting room and secretary's office.

Mr. Dodge was a member of the board of trustees of Harper Hospital from 1936 until his death in December of 1964.

Mr. Dodge first achieved national prominence when he was elected president of Detroit Bank & Trust (then Detroit Savings Bank) in 1933. Despite the nationwide depression, the bank remained open throughout this period except for a brief government-imposed "holiday." Upon Mr. Dodge's retirement as chairman of the bank in 1963, he was elected honorary chairman and held this title until his demise.

Mr. Dodge held numerous government positions and is credited with having played a major role in the rebuilding of post-World War II Germany and Japan. Among these positions were:

- Director of the Bureau of the Budget and, later, Special Assistant to President Dwight D. Eisenhower who made Mr. Dodge a member of his Cabinet while he was head of the budget bureau.
- United States Minister and Financial Advisor to General of

the Army Douglas MacArthur in Japan.

• Financial Advisor to General of the Army Eisenhower, and later, General Lucius B. Clay in Germany.

• United States Minister to the Austrian Treaty Commission for President Harry S. Truman and special deputy to Secretary of State George C. Marshall for Austrian affairs at the Council of Foreign Ministers conference in London in 1947.

Earlier, he had served in a number of positions with the Reconstruction Finance Corporation and with military services.

Mr. Dodge was one of only six bankers in the country to have served as president of his state banking association, the American Bankers Association and the Association of Reserve City Bankers.

He held honorary degrees from Olivet College, the University of Michigan and Wayne State University and received a large number of medals and awards from both the U.S. Government and from foreign nations. Among these awards were the Grand Cordon of the First Class Order of the Rising Sun, the highest honor which the Japanese government can bestow on a foreign dignitary, and the Medal of Merit presented to him by President Truman.

His papers were presented to the Burton Historical Collection of the Detroit Public Library by his widow and son—Joseph J. Dodge—in June, 1965.

The Harper-Webber fund is conducting a public subscription campaign to help finance construction of the Webber building and the renovation of Harper Hospital's existing buildings. The estimated cost of the entire Harper-Webber project — part of the Detroit Medical Center plan — is \$33 million.

Christ Church Lectures To Depart from Tradition

The Lenten Wednesday Lectures at Christ Church this year depart from the traditional focus of Lent in order to enable members of the parish and of the community to examine the crisis in American life.

All of us remember the prophecies of "a long hot summer." Some of us thought that it couldn't happen here in Detroit, but it did, in a week we will never forget. Now the report of the President's National Advisory Committee on Civil Disorders warns that we are risking the development of two nations, one black, one white, separate and unequal.

The Huntley-Brinkley Report has said, "Whatever happens in Detroit will bear watching by every major industrial community in this country."

Since actions and attitudes will determine in part what does happen in Detroit, these four evenings offer specific information about what is happening, and what is being done.

Bishop Emrich, speaking at the General Convention in Seattle in September, said that there were three options. We could do nothing, which will lead to a repetition of what has already happened. We can repress all dissent and discontent, at the price of a police state. We can mobilize the resources of the nation to deal with the root causes, while there is still time.

On March 13 Ralph McElvenny and Andrew Barr will speak on the New Detroit Committee and the Churches on the East Side for Social Action.

On March 20 Robert Semple, Jr., a correspondent of the New York Times, will speak on the Urban Crisis.

On March 27 the Rev. William Logan, Executive Director of Program for the Diocese of Michigan, will speak on the role of the churches.

On April 3 Chief Jack Roh of the Grosse Pointe Farms Police Department will speak. The meetings will be held at 8 p.m. in Miller Hall at Christ Church, 61 Grosse Pointe boulevard, and are open to the public.

Punch and Judy Theater Plans Return to Golden Days of Silent Movies

There will be a brief return to the golden days of the silent movies at 2 p.m. on Sunday, March 10, when the Motor City Chapter of the American Theater Organ Enthusiasts presents the 1923 film "The Covered Wagon" at the Punch and Judy Theater, Kercheval at Fisher road.

Also on the program will be a Laurel and Hardy comedy "The Finishing Touch." Both films will be accompanied by Bill Buswell at the console of the Punch and Judy's "Mighty Wurlitzer" theater pipe organ. "The Covered Wagon" was the first epic western film to be made and served as a model for western movies for many years. Starred in the film are such silent favorites as J. Warren Kerrigan, Lois Wilson and Alan Hale. Laurel and Hardy started their long film careers in the silent movie days and some of their funniest films were those made before the advent of sound.

Bill Buswell, of 17226 Cincinnati, on Detroit's east side, started his musical career playing the organ for silent movies in eastern Pennsylvania theaters just before sound movies came into being. He continued playing in theaters during the 30's and later switched to playing organ on radio and in hotels and clubs. For a number of years he has been head of the organ department at Hudson's downtown store.

Restore Old Organs
 The Motor City Chapter of ATOE is made up of more than 100 Detroit area people in restoring and playing the old theater organs. They recently renovated the Redford Theater organ as well as the one in the Punch and Judy. Several theater organs have been installed in homes of chapter members. Proceeds from "The Covered Wagon" program (donation \$1.50 per person; main floor \$2.25 loge), will be used to help restore other pipe organs.

The showing of silent movies in the Detroit area is not a new idea. Numerous silent film programs are given during the year by various groups. Many are accompanied by recorded music, a few by a piano, and some with no accompaniment whatsoever.

Needed Accompaniment
 Silent movies were meant to have musical accompaniment, and undeniably the most ideal source is the theater pipe organ, which was built for that purpose. Then why aren't they used? Simply because they are too few in number.

(None were built after the golden age of the motion picture palace came to an end at the close of the 1920's), and the few that do remain in theaters require months of restoration before they can be considered "playable." In addition, constant maintenance is required to keep these organs in playing condition.

The theater organist has at his fingertips a variety of effects (cymbals, drums, gong, siren, horses' hooves, bird whistle, etc.), in addition to the endless combination of hundreds of pipes to provide the appropriate music for any scene in a film.

The Motor City Chapter of

eral years following the opening for intermission music, audience sing-alongs, and occasional private concerts. The organ was used most recently when church services were held in the theater, over 15 years ago, by St. James Lutheran Church.

Graham McNamee, Elsie Ferguson and Arthur "Bugs" Baer attended the opening of the Punch and Judy on January 29, 1930, which featured a stage show and the talking picture, "Disraeli."

Several Grosse Pointers have been among those who since early last fall have been renovating the Punch & Judy organ.

Among them are: Peter Henkel, of McMillan road; Donald Lockwood, of Moran road; George Strachan, of Moran road, and Glenn Rank, of Lakepointe avenue.

Hit-Run Driver Sought by Police

Shores police need the help of witnesses to determine who was behind the wheel of a hit-and-run car that smashed into the rear end of a parked vehicle belonging to George R. Krogh of 81 Vernier road. The impact caused considerable damage to both vehicles, it was said.

Dets. William Marshall and Frank Mustazza said that Krogh called the station on Thursday, February 29, to report that the unknown driver had smashed into his automobile parked in front of 79 Vernier. The hit-runner was traveling toward Lake Shore road at the time of the smashup, which occurred at about 7:53 p.m.

At 8 p.m., while officers were at the scene, Krogh, who had been searching the area for the accident driver, called the station and reported that he had located the hit-run car, and that two people were sitting in it. Police officers who went to the location, Lake Shore and Lochmoor, said they saw Peter J. Klavinger, 27, of 9010 Brady, and Letha Diane Hagewood, 19, of 12017 Faust, both of Detroit, sitting in the alleged hit-run car, but after questioning them, each denied having been behind the wheel at the time of the accident.

They said they were passengers in the car, and that the person who had been driving, was a Don Devine, but did not know his address, or anything else about him.

The pair said that "Devine" left the car to make a phone call and never returned.

Marshall and Mustazza said that it is believed that one, or more persons might have heard the noise at the time of impact, and had gone outside of their homes to investigate, or perhaps had seen the accident.

In any case, the detectives said, any person having knowledge of the accident, or knows who does, are asked to contact them at the Shores station, 749 Lake Shore road, or call TUxedo 1-5500.

Two Cars Tangle On Mack Avenue

Walter Thomas Bradford, Sr., 5249 Spokane, Detroit, was issued a court notice to appear for interfering with moving traffic on Friday, March 2, by City Police.

Bradford pulled out of Notre Dame onto Mack and into the path of a car driven by Arthur F. Clemett, 1376 Philip, Detroit, which was heading east on Mack. Clemett attempted to avoid hitting the Bradford car by swerving left. He was unable to do so and hit the car, then careened across Mack and into the west side of a building at 17201 Mack.

Show Collection Of Music Boxes

Music boxes from two noted collections are included in "The Wonderful World of Music Boxes" on display in the Industrial Hall of the Detroit Historical Museum until April 21.

The exhibit provides the rare opportunity of seeing and hearing the prize mechanical musical boxes from the noted collection of Mr. and Mrs. Arch L. Rankin of Grosse Pointe.

Among their choicest pieces is an early 19th century watch housing a minuscule musical movement that sounds the quarter hours and even plays a little tune each time another 60 minutes rolls around. In contrast will be the gigantic, colossal and amazing Belgian Fair Organ that stands a good twelve feet wide and eight feet high and projects with an astonishing purity the tones of xylophone, drums, cymbals, organ pipes, trumpets, flute, castanets and violin!

The display includes traditional musical boxes such as cylinder examples by Samuel Troil Fils, and Charles Ullman and a Swiss "sublime harmonie." The versatile disc playing box, which heralded the golden age of "Regina" will also be seen in many forms. In all, 70 instruments will be shown.

The exhibit also features the Museum's Leonard N. Simons Collection which includes such splendid examples as a Baccarat Decanter incorporating an early cylinder movement, a product of Mermod Freres and one of Nicole Freres' (c. 1861-65) boxes distributed by Imhof and Mukle of London.

Rounding out the exhibit and suggesting the stereophonic sound of the 1960's will be a selection of instruments inspired by Thomas Edison's invention of the phonograph.

You are invited to see and hear the "Wonderful World of Music Boxes" Tuesday through Sunday from 9 a.m. to 6 p.m. Admission is free.

Broken Water Pipe Reported

City Police received a report from Elaine Thurber, 528½ St. Clair, on Sunday, March 3, reporting a broken water pipe at 522 St. Clair.

Miss Thurber told police that while taking a walk she heard

noises of running water from the St. Clair address and noticed that the windows were cloudy. Upon arrival officers found that the residence was unoccupied. They gained entry through a partially opened upstairs window with the assist-

ance of the Fire Department. They found a broken water pipe in the third-floor bathroom. They shut off the water and notified the building owner.

Percussionist Symphony Star

Robert Pangborn, chief percussionist for the Detroit Symphony will be the guest artist with the Grosse Pointe Symphony, on Sunday afternoon, March 17.

Mr. Pangborn has been tympanist with the Indianapolis Symphony and the Minneapolis Orchestra. He was featured soloist with the Cleveland Orchestra under George Szell for the performance of Rolf Lieberman's Geigy Festival Concerto for Side Drum and Orchestra.

Mr. Pangborn was formerly the head of the Percussion Department at the Cleveland Institute of Music and taught percussion at the Cleveland Music School Settlement and at the Western Reserve University in Cleveland. He was educated at the Eastman School of Music, Juilliard and at Berkshire.

He was with the United States Military Academy Band at West Point for three years.

Sunday's program will include Three Dances from the Bartered Bride by Smetana, the Overture from Fidelio by Johann Strauss, the Beethoven Seventh Symphony, Milhaud's Concerto for Percussion and Orchestra and Three Miniatures for Percussion and Chamber Orchestra by William Kraft.

Parents Invited To Defer School

Tuesday, March 12, is "Back to School Night" for both parents and students at George Defer Elementary School, according to school principal Jesse Lovther and P.T.A. president James Mauer.

"This is probably the most important P.T.A. meeting of the year," Mauer said, "because it affords the child and the parent an opportunity to share in the learning program."

Lowther said the school had planned an unusually strong program for parents returning to school with their children.

"Mr. Lambka is conducting a mini-phys-ed program in part of the gymnasium. The other part will be devoted to Miss Reeves' exhibit of current pop, op, mod and camp art as seen through the eyes of Defer's young art students."

"In the music room there will be a selection of tapes of the year's musical highlights by the Defer chorus, brass band and concert orchestra. The Instructional Materials Center will display a wide variety of library books, audio/visual and other equipment."

"Back to School Night" begins at 7:30 and ends at 9. Because of the on-the-move nature of the program, refreshments will not be served.

City police officers found the animal to be dead. Mr. Gross estimated that damages to his car were about \$100.

The dog's owner, Anthony Morse, 283 Lincoln, was notified at 6:40 a.m.

THE CITY OF

Grosse Pointe Park (WAYNE COUNTY, MICHIGAN)

ORDINANCE

Section 1. Whenever used in this ordinance or in the bonds to be issued hereunder, except when otherwise indicated by the context:

(a) The term "city" shall be construed to mean the City of Grosse Pointe Park.

(b) The term "Council" shall be construed to mean the Council of said City of Grosse Pointe Park, the legislative and governing body thereof.

(c) The term "Marina" shall be construed to include all lands described in Section 2 hereof and all improvements and appurtenances thereto.

(d) The term "project" shall be construed to mean the acquisition of the repairs, improvements and additions to be acquired from the proceeds of the bonds issued pursuant to this ordinance and the placing of the same in readiness for operation.

(e) The term "acquired" shall be construed to include acquisition by purchase, construction, installation, or by any other means.

(f) The terms "revenues" and "net revenues" shall be construed as defined in Section 3 of Act No. 94, Michigan Public Acts of 1933, as now amended.

Section 2. The Council hereby finds it to be advisable and in the public interest, and hereby determines to make repairs, improvements and additions to the Marina at the City's Waterfront Park at the foot of Barrington Road to consist of the following: 126 new boat wells, together with the necessary pilings and docks therefor. The site of the said Marina is more particularly described as follows:

Beginning at the southeast corner of lot 7 of Windmill Point Subdivision; thence southerly along the east side of the existing causeway a distance of 714 feet, more or less, to the intersection of the causeway with the southerly edge of the east-west breakwater; thence westerly along the breakwater a distance of 540 feet, more or less, to the westerly end of the breakwater; thence northerly and parallel with the existing causeway a distance of 336 feet, more or less, to a point on the existing concrete retaining wall along the southerly side of the former swimming area; thence easterly along the concrete retaining wall a distance of 270 feet, more or less, to the corner formed by the intersection of the above described retaining wall with the concrete retaining wall forming the easterly side of the former swimming area; thence northerly along the retaining wall a distance of 194 feet, more or less, to a point on the southerly line of lot 5 of Windmill Point Subdivision; thence easterly along the southerly lines of lots 5, 6 and 7 of Windmill Point Subdivision a distance of 282 feet, more or less, to the point of beginning.

Section 3. The Council does hereby adopt the said engineers' estimate of 25 years and upwards as the period of usefulness of said project and also the said engineers' estimate of One Hundred Fifty Thousand Dollars (\$150,000) as the cost of said project, including \$3,750 (six months) capitalized interest upon the bonds herein authorized therefor, both of which estimates are on file with the City Clerk.

Section 4. There are hereby authorized to be issued and sold pursuant to the provisions of Act No. 94, Michigan Public Acts of 1933, as amended, revenue bonds in the aggregate principal sum of One Hundred Fifty Thousand Dollars (\$150,000) for the purpose of defraying the cost of the said project. Said bonds shall be known as "Marina Improvement Revenue Bonds"; shall be dated as of June 1, 1968; shall be numbered consecutively in the direct order of their maturities from 1 to 30, both inclusive; shall be coupon bonds in the denomination of \$5,000 each; shall be registrable as to principal only in the manner hereinafter set forth in the bond form; shall bear interest at a rate or rates to be hereafter determined not exceeding 5% per annum, payable on December 1, 1968, and thereafter semi-annually on the first days of June and December in each year; and shall mature on June first in each year as follows: \$5,000 in the year 1969; \$10,000 in the year 1970; \$20,000 in each of the years 1971 through 1975; and \$35,000 in the year 1976.

None of the bonds of said series shall be subject to redemption prior to maturity. The principal and said bonds and the interest thereon shall be payable in lawful money of the United States of America at such bank or trust company, qualified to serve as paying agent under the laws of the State of Michigan or the United States of America, as shall be designated by the original purchaser of the bonds, upon presentation and surrender of said bonds and attached coupons as they severally mature.

Section 5. The Mayor and City Clerk of the city shall execute said bonds for and on behalf of the city and the City Clerk shall cause the seal of the city to be affixed thereto. The Mayor and City Clerk of the city shall execute the interest coupons to be attached to said bonds by causing to be affixed thereto their facsimile signatures. The Treasurer of the city shall deliver said bonds and attached coupons to the purchaser thereof as hereafter determined by the Council, upon receipt of the purchase price therefor.

Section 6. The bonds herein authorized shall be sold in the manner provided in Section 21 of Act No. 94, Michigan Public Acts of 1933, as amended.

Section 7. Said bonds and attached coupons shall not be a general obligation of the city and shall not be an indebtedness of the city within any state constitutional provision or statutory limitation or within any charter limitation. The principal of and interest on said bonds shall be payable solely from the net revenues derived from the operation of the said Marina, including future improvement, enlargements and extensions thereof. To secure the payment of the principal of and interest on the bonds issued hereunder and on any additional bonds of equal standing issued as hereinafter provided, there is hereby created in favor of the holders of said bonds and the interest coupons pertaining thereto, and each of such holders, a first lien (by said Act No. 94, Michigan Public Acts of 1933, as amended, made a statutory lien) upon the net revenues from the said Marina, including future improvements, enlargements and extensions thereof. The net revenues so pledged shall be and remain subject to said lien until the payment in full of the principal of and interest on said bonds.

Section 8. The holder or holders of any of the bonds or interest coupons herein authorized to be issued, shall have all the rights and remedies given by law and particularly by said Act No. 94, Michigan Public Acts of 1933, as amended, for the collection and enforcement of said bonds and coupons and the security therefor, including the right to have a receiver appointed for the said Marina in event of default on the part of the city in the performance of the terms of the bond contract.

Section 9. The system shall be operated upon the basis of a fiscal year beginning on June 1 in each year and ending on May 31 of the following year.

Section 10. The operation, maintenance and management of the Marina shall be under the immediate supervision and control of the Council or such officer or board as shall be designated or created by the Council and subject to its control.

Section 11. The charges or rates for the use of said Marina shall be established from time to time by resolution of the City Council. The charges for the use of individual boat wells for each season commencing in the calendar year 1969 should be as follows:

Well size: 10'x29'	\$125.00
Well size: 12'x29'	\$160.00
Well size: 14'x35'	\$200.00
Well size: 16'x49'	\$250.00
Well size: 18'x55'	\$350.00

Section 12. The charges or rates hereinafter established are estimated to be sufficient to provide for the payment of the expenses of administration and operation of the said Marina and

such expenses for the maintenance thereof as may be necessary to preserve the same in good repair and working order (except to the extent said expenses are paid from the general fund of the City); to provide for the payment of the interest upon and the principal of all bonds payable therefrom, and when the same shall become due and payable, and for the creation of a reserve for the payment of principal and interest as required in this ordinance; and to provide for such other expenditures and funds as are required by this ordinance. Charges or rates shall be fixed and revised from time to time by the Council so as to produce the foregoing amounts, and the city covenants and agrees to maintain at all times such charges or rates pertaining to the said Marina as shall be sufficient to provide for the foregoing.

Section 13. The revenues of the said Marina are hereby pledged for the purpose of the following funds, and as collected shall be set aside into a fund to be known as the "Receiving Fund" of the system, and shall be transferred therefrom periodically into separate and special funds, as follows:

1. **Operation and Maintenance Fund.** Out of the revenue in the Receiving Fund, there shall be first set aside annually into a fund to be designated "Operation and Maintenance Fund," a sum sufficient to provide for the payment for the next year of all current expenses of administration and operation of the said Marina and such current expenses for the maintenance thereof as may be necessary to preserve the same in good repair and working order but only to the extent such expenses are not to be paid from the general fund of the City. The Council at the beginning of each fiscal year, shall adopt a budget covering the foregoing expenses for such year, and such expenses shall not be allowed to exceed the amount specified in such budget.

2. **Bond and Interest Redemption Fund.** Out of the remaining revenues in the Receiving Fund, there shall be next set aside each year into a fund to be designated "Bond and Interest Redemption Fund," a sum proportionately sufficient to provide for the payment as the same become due of the next maturing principal and interest on each issue of bonds then payable from the revenues of the said Marina. Provided, that the amount so set aside for interest on the bonds herein authorized, during the first six (6) months of each fiscal year, shall not be less than the total amount of interest (not capitalized) maturing on the following December 1, and during the last six (6) months of each fiscal year, shall not be less than one-half of the total amount of interest maturing on the following June 1, and that amount so set aside for principal on the bonds herein authorized, in each fiscal year, shall not be less than the amount of principal maturing on the June 1 immediately following such fiscal year, and if there shall be any deficiency in the amount previously set aside, then the amount of such deficiency shall be added to the current requirement. In addition thereto, there shall be also set aside annually for the purpose of creating a reserve in said Bond and Interest Redemption Fund, for the bonds herein authorized, a sum not less than \$5,000 per year during each of the fiscal years beginning on and after June 1, 1968, until said reserve shall equal at least \$15,000, and if at any time thereafter said reserve shall be less than \$125,000 then there shall be set aside in said reserve annually a sum sufficient to restore said reserve to \$15,000 at the earliest possible time. If any additional bonds of equal standing shall be issued, the authorizing ordinance shall provide for a comparable reserve therefor. When the principal amount owing upon any bonds shall be reduced to the amount of the reserve therefor, then the principal of such bonds shall be paid from such reserve. In respect to the allocation and use of moneys in said Bond and Interest Redemption Fund, due recognition shall be given as to priority rights, if any, between different issues or series of outstanding bonds.

3. **Replacement Fund.** Out of the remaining revenues in the Receiving Fund, at the option and direction of the Council, there may be next set aside in a fund to be designated "Replacement Fund," a sum to build up a reserve for any replacements to the said Marina which may become necessary from time to time.

4. **Surplus Fund.** Revenues remaining in said Receiving Fund at the end of any fiscal year after all periodical transfers have been made therefrom as above required, shall be deemed to be surplus and may be left in the Receiving Fund or may be transferred to a fund to be designated "Surplus Fund." Moneys in said Surplus Fund from time to time may be transferred to one or more of the foregoing funds or may be used for the improvement, enlargement or extension of said Marina or may be transferred at the option and direction of the Council to the General Fund of the City.

Section 14. In the event that moneys in the Receiving Fund are insufficient to provide for the current requirements of the Operation and Maintenance Fund or the Bond and Interest Redemption Fund, any moneys and/or securities in other funds above-mentioned shall be transferred, first, to the Operation and Maintenance Fund, and second, to the Bond and Interest Redemption Fund, to the extent of any deficits therein.

Section 15. All moneys in the several funds above-mentioned shall be kept on hand with the bank or trust company at which the principal and interest on the herein authorized bonds are currently payable. The moneys in the several funds, except moneys in the Bond and Interest Redemption Fund and moneys derived from the proceeds of the sale of the bonds, may be kept in one bank account, in which event the moneys in the bank account shall be allocated on the books and records of the city to the respective funds as herein provided. Moneys in the several funds may be invested in United States Government obligations, investments of money in the Bond and Interest Redemption Fund being accumulated for the payment of the next maturing principal and interest shall be limited to United States Government obligations having maturity dates prior to the date of the next maturing principal or interest. In the event of any such investment, the securities representing the same shall be kept on deposit with the bank or trust company having the deposit of the fund from which such purchase was made and the income therefrom shall become a part of such fund.

Section 16. The city hereby covenants and agrees with the holder or holders, from time to time, of the bonds herein proposed to be issued, that it will punctually perform all duties with reference to the said Marina and said bonds required by the constitution and laws of the State of Michigan and the charter of the city and by this ordinance; that it will construct the project herein provided for in substantial accordance with the maps, plans and specifications hereinafter referred to, and will have the same in operation at the earliest possible time; and that it will not sell, lease, mortgage or in any manner dispose of the said Marina or any substantial part thereof, until all bonds payable from the revenues thereof shall have been paid in full. Said city further covenants and agrees with the holders of said bonds that it will maintain the said Marina in good condition and operate the same in an efficient manner and at a reasonable cost, so long as any of said bonds are outstanding; that it will maintain insurance on said Marina for the benefit of the holders of said bonds in an amount which usually would be carried by private companies engaged in a similar type of business; that it will prepare, keep and file such records, statements and accounts as may be required by Act No. 94, Michigan Public Acts of 1933, as now or hereafter amended; that it will promptly file with the original purchasers of said bonds a copy of each annual statement which it is required to file with the Municipal Finance Commission and will also file with such purchasers a copy of the Annual Audit of the said Marina certified to by a Certified Public Accountant, within 120 days after the close of each fiscal year; and that it will furnish a copy of the foregoing statement and audit to any bondholder upon payment of the actual cost of such copy.

Section 17. While any of the bonds herein authorized to be issued shall be outstanding, no additional bonds payable from the revenues of the said Marina shall be issued which shall have a prior or equal standing therewith, except as hereinafter provided. The city shall have the right to issue additional bonds of equal standing for the completion of the project herein described to event the bonds herein authorized shall prove to be insufficient therefor. The city shall have the right to issue additional bonds payable from the net revenues of the said Marina for the purpose of improving, enlarging and/or extending the same, which bonds when issued shall have equal standing with the bonds herein authorized; provided, that no such additional bonds of equal standing shall be issued unless (a) the average net revenues for the then last preceding fiscal year plus (b) the lowest estimated additional net revenues to be derived in any fiscal year commencing more than one year after the completion date of the improvements, as fixed in the ordinance author-

izing the issuance of such additional bonds, from the improvements, enlargements and extensions to be financed by such additional bonds, shall be equal to at least 150% of the largest amount of principal and interest thereafter maturing in said fiscal year on any bonds then outstanding payable from the revenues of the said Marina and on such additional bonds then being issued. Such additional net revenues shall be estimated by a registered professional engineer who shall be selected by the Council but who shall not be a regular officer or employee of the city. The selection of such person shall be subject to disapproval of the Municipal Finance Commission. No such additional bonds shall be issued if the City shall then be in default in making any payments to the Operation and Maintenance Fund or the Bond and Interest Redemption Fund. Permission by the Municipal Finance Commission of the State of Michigan (or such other state commission or agency as shall have jurisdiction over the issuance of municipal bonds) to issue such additional bonds shall constitute a conclusive presumption of the existence of conditions permitting the issuance thereof.

Section 18. The bonds and attached coupons herein authorized to be issued, shall be substantially in the following form, to-wit:

Transferability by delivery may be restored by registration to the bearer. Negotiability of the interest coupons shall not be affected by registration.

It is hereby certified, recited and declared that all acts, conditions and things required to exist, happen and be performed, precedent to and in the issuance of the bonds of this series, existed, have happened and have been performed in due time, form and manner as required by law.

Pointe Theater Doing 'Kismet'

The Grosse Pointe Theater announces open casting for its fourth production of the year, the lavish musical "Kismet," on Wednesday and Thursday evenings, March 6 and 7, and Saturday afternoon, March 9, at the Grosse Pointe War Memorial. Nine performance dates are scheduled for June in the Fries Auditorium.

"Kismet" is the musical fantasy of a poet who rises in one day's time from beggar to adviser to the caliph of Baghdad. The presentation will be filled with the lush themes of Borodin, adapted to modern tastes by the successful composing team of Robert Wright and George Forrest.

Applicants for the singing, dancing and acting roles are not required to supply special audition material. Musical numbers and scenes from the show itself will be used during the try-outs which begin at 8 o'clock in the evenings and at 2 o'clock on Saturday afternoon.

Currently GPT members are rehearsing the group's third show of the season, "Absence of a Cello," a recent Broadway comedy hit by Ira Wallach. Choice seats are still available for the March 27 and 28 performances.

Attention is drawn particularly to the showing in Wednesday, March 27, proceeds from which will be donated to the Salvation Army. For further ticket information, contact Mrs. Marion Consiglio at PR 9-3020.

Lions Ask Help In India Project

All Detroit area Lions Clubs, assisted by the Detroit Dry Cleaning Institute, are sponsoring a humanitarian project, "Eye Glasses for India," with the program to continue through Saturday, March 30.

The Lions Club of Grosse Pointe Woods, and the Grosse Pointe Lions Club, are participants in this effort to help the people of the Asian country.

The establishments of the Dry Cleaning Institute's 600 members in the metropolitan area will act as collection stations, where glasses no longer needed, may be deposited. Dry cleaners taking part in this project, will have signs and containers engraved with the reasons for the collections.

World Medical Relief, 11745 Twelfth street, Detroit, will be the central collection agency, and will make all shipping arrangements under the supervision of its director.

Pointe residents are urged to "rummage" around a bit and turn in any eye glasses for which they no longer have any use, and take them to the nearest dry cleaning establishment

Blaze Damages Home in Woods

Fire damaged the home of Mr. and Mrs. Robert Williams, 1359 Hollywood, on Friday, March 1. The blaze originated in the basement of the house, according to a Woods fire report.

Mrs. Williams, who called in the alarm, said she was first alerted by her son, Lee, 12. She said when she opened the basement door she was engulfed in a cloud of smoke.

Mr. Williams said that Lee was burning some straw in the basement incinerator, and apparently a spark landed on some clean rags between the incinerator and a work bench at the east corner of the basement.

The rags smoldered and flared up and ignited several model planes made of balsa wood. The blaze spread to small cans of paint and glue containers on the bench. Mr. Williams said he assembled the planes as a hobby.

The blaze shot up through the cold air duct and into a room on the second floor, causing a bed in the room to catch fire.

Public safety officers, who responded, confined the flames to the basement and the bedroom, putting out the fire within minutes.

The extent of the damage is not known, officials said, and will have to be determined by insurance adjusters.

New Policeman Hired in Park

Park Police Chief Arthur Louwers announced the appointment of a new recruit to his department, to replace Patrolman Robert Corey, who resigned recently to become a police officer in Sterling Township.

The new policeman is Howard H. Karl, 22, of 11826 Camden, Detroit, a two-year veteran of the United States Army. He spent one year in Vietnam where he saw field combat.

Karl is the holder of the Purple Heart, Bronze Star, National Defense Service Medal, Vietnam Service Medal, Good Conduct Medal, Combat Infantry Badge, and the Marksman Badge.

Karl, a native Detroit and a 1963 graduate of Servite High School, started work as a policeman on Monday, February 19, and is being sent to the Police Basic Training School, which started March 1, Chief Louwers said.

Karl was married recently.

in their neighborhood. It was stressed that the cooperation of the citizens is vital to the success of the project, and any assistance rendered by the citizens would be greatly appreciated.

Letters to the Editor

To the Editor:

In response to the letter by Kay and Pierce Smith, and to others who are bewildered and concerned with the very hostile "No" vote (2 to 1 has to be hostile) on recent school proposals for necessary millage increases, and in addition to their prayers that the community will recognize its mistake and correct it on the next election, we should like to submit the following for consideration to help reconcile the "No" vote into a better understanding and achievement of the common purpose of the community.

First, we do not really have a very good picture of the attitudes or concerns of the "No" voter.

a. Is he dissatisfied with the schools? Does he believe the schools are wasting money? Does he believe the schools are not doing their job by continually sending children home loaded down with homework to be overseen by parents who are ill-equipped to deal with the new methods of instruction? Does he believe the school policies are out-dated, e.g. still permitting corporal punishment? Does he believe that not enough emphasis is placed on special education, e.g. one or two rooms in the new high school?

b. Is he dissatisfied with the School Board? Is he dissatisfied with the members' inability to relate to the community future plans and expenses? Is he dissatisfied with individual members' responses to the questions at PTA meetings, etc.?

c. What is the role of the retirees in the "No" vote? What proportion of the community do they make? What percentage of them favor the increased millage? How many of them realistically cannot afford it?

d. What is the role of parents of children attending parochial and private schools in the "No" vote? How do they see the public schools in their home community, and how do they see their responsibility to them?

e. How do the "No" voters see the influence of the quality of the public schools on the value of their property? Do they recognize that there is a direct and positive relationship between the reputation of the public school system and the demand for homes in that community?

f. Are the "No" voters displacing onto the schools hostility from other situations in which they have no voice? How significant is it that school millage is the only chance voters have to vote against an increase in taxes?

Secondly, what is the attitude of the "No" voter as to his responsibility to public schools in general? How does he see the value of the public schools to the community, the state and the nation? Does he consider that public schools serve a social purpose, or only a personal one?

Third, is this really the time to cut back our commitment to education? Is this policy consistent with our best interests?

The usual procedure on a school millage defeat is to wait a few months and re-submit the proposals to the voters. However, unless something changes the attitude of the "No" voters, another vote could just as well be another defeat.

Therefore, in view of the present numerical strength of the "No" voters and in view of the fact that all school millage will be up for vote in another two

years, it would seem that this would be an opportune time for the unofficial leaders in our community to consider a survey (to be paid for by voluntary contributions) by an outside concern, to measure and spell out in depth the various categories and concerns of "No" voters in school millage, in order that changes could be incorporated to win their support for the public schools.

David and Betty Sulridge

Dear Sir:

There have been few times in the past 25 years I have been ashamed to call myself a Grosse Pointe, but never have I felt more ashamed to so identify myself than right now. The reason of course, is the resounding defeat of the school millage proposal. On the heels of removing Dr. Parcels from the Board of Education, it would appear the residents of Grosse Pointe are doing everything in their power to destroy one of the finest public education institutions in the country.

We will not be forgiven, nor should we be. Inkster at least, probably could not afford to pay more for better schools, but for the most affluent community in the Detroit area to refuse to even maintain the status quo is clearly unforgivable.

Grosse Pointe came one step closer to mediocrity on February 26. Let no one be deceived, this decision will diminish every citizen of our community; young or old; with or without children; public or private school supporters alike. It has been said the first step is the hardest. What will be struck down next as this sorry movement gathers momentum?

DR. STUART B. SMITH
19965 Norton Court

February 29, 1968

Gentlemen:—
I believe that the overwhelming defeat of all 3 propositions in the balloting of February 26 is a most healthy sign.

For, although the results will admittedly work some hardship on the Grosse Pointe school and library systems, the outcome is refreshing evidence that the taxpayers have finally mustered the courage to say "no" to the perennial demands for more money made upon them by those in public office.

For years the latter have seemingly operated on the theory that rising costs could always be met with increased tax levies. But they know now that there is a limit to what taxpayers are willing or able to pay for public services.

Grosse Pointe's school system has been regarded for years as one of the nation's finest. Failure of the system to obtain the additional revenues sought in the February 26 referendum will not suddenly relegate it to a 2nd or 3rd rate standing.

Economies will doubtlessly be necessary. Some of the frills will have to go. Classes will conceivably have to be increased in size if it becomes imperative that the teaching staff be reduced. But such moves need not lower the standard of education.

Family units and business organizations, as well, are obliged on occasion to go through economy programs in order to keep income and outgo in proper balance. Such programs are almost always good for the soul and often lead to new and improved efficiencies.

The revolt of the taxpayers may well spark fresh initiative and unleash latent talents within Grosse Pointe's school system.

Sincerely,
John Denler
51 Pine Court.

LOITERERS PICKED UP

The Farms Police took three teenage boys to the City Station on Wednesday, February 27, when they were found loitering on Fisher. Two of the youths, Paul Brideau, 17, and James Jurvis, 17, were taken to Grosse Pointe High School. Both were out of school without permission. The third youth, Thomas Vandeveldt, 17, was sent home with a warning, since he was no longer in school.

What Goes On at Your Library

By Virginia Leonard

Have you ever wished you had a more original way to show your sympathy when you learn of the death of a good friend and you send the usual—flowers? Or have you ever wished for a novel way to honor a living friend—someone who deserves commendation, appreciation or recognition?

Many of our library patrons have thought of a way to solve the above problems—they buy a book (or books), in memory of or in honor of someone who is or has been near and dear to them. They sometimes indicate a specific book, or leave the selection up to us, once they have told us the amount of money they wish to spend and the type of material they want us to purchase. When the books arrive, a book plate is placed in them, suitably identifying the donor and the name of the person for whom they were purchased. The people involved are always notified by letter as to the authors and titles of the books selected, samples of the book plates are also enclosed in the letters, and the donor is billed when the invoices are received. Periodically we try to arrange a display of these books so that the public may have an opportunity to see the attractive books which are being added to our collection—books which we conceivably might never be able to buy from our regular book budget. If you used our Central Library during the past few weeks, you probably saw just such a display near the public card catalog. Here is a sampling of the group that was available for viewing.

"Pictorial History of Michigan: The Early Years" by George S. May was one you may have perused. The author, a graduate of the University of Michigan and currently an associate professor at Eastern Michigan University, was commissioned to write this book by the Michigan Historical Commission. The story is told authentically, with many photographs, paintings and sketches.

Another attractive volume is Charles Hurd's "White House Story." This contains 150 memorable pictures and is full of anecdotes, historical facts and domestic details of the lives of 34 American Presidents and their families. It represents an antique collector's dream; in addition, it is a fine historical document.

The American Heritage books always lend themselves to this sort of memorial purchase. Two recent ones are "The American Heritage History of the Thirteen Colonies," and "The American Heritage History of Colonial Antiques." The first "puts the three crowded centuries of colonial rule into an organized and galloping parade" (so says the blurb). The second is comprehensive, authoritative and generously illustrated.

Rome, interestingly enough, was well represented in this group of books. One, edited by Giulio Giannelli and entitled "The World of Ancient Rome," contains 333 illustrations in color. It is truly a gorgeous volume, representing a reconstruction in words and pictures of a vanished but enduring civilization. It is superbly designed with many distinguished contributors, the other, "The Fountains of Rome" by H. V. Morton, shows how a man can fall under the Latin spell. The author loves fountains for their beauty and is fascinated by them as living links with the remote past. The book contains 49 color photographs, with 100 other illustrations.

Another beautiful addition to this collection is Ian Grant's "Great Interiors," with a preface by Cecil Beaton. It is a lavishly illustrated account of some of the most sumptuous and beautiful interiors created from 1650 to the present time, in England, on the continent, and in the United States. It contains a fine collection of photographs in color and black-and-white.

Another type of book is "The Educated Man," by Paul Nash (and others). Here is a collection of essays by distinguished European and American scholars on the ideal of the educated man as expressed in the writing of influential thinkers in the Western tradition.

We hope this will give you some idea of the type and range of books which have been given to our three libraries as memorials to good friends, or in honor of them.

A book is a beautiful, instructive and lasting thing, and will be used, appreciated by many for years to come. Can you think of a finer tribute?

What's New on THE HILL...

By Sibyl

Mr. Sheridan — Books . . . 81 Kercheval, recommends "Plant Dreaming Deep" by May Sarton. It's a philosophical cook on gardening and nature. She has written it at her charming old house in New Hampshire. Mr. Sheridan tells us people after reading it, order many more for gifts. Call 881-2916 or 881-1671 for delivery.

Antiquers Attention . . . The place to go right now is The Dants — The League Shop because the antiques Ruth VanZile hand-picked for you are arriving. There's an interesting collection of porcelains and silver from England and many little treasures from the Orient.

Spruce Up . . . your wardrobe with a few great new ties. Just in at Picard-Norton, 92 Kercheval, is the latest in Countess Mara and Bronzini neckwear.

Think Aheaders . . . are ordering monogrammed lingerie at Margaret Rice for spring bridal trousseaus and Mother's Day. You know it takes four to six weeks for delivery. Of course when you see how pretty and personal such a gift can be, it's worth the planning. Nighties (long and short), slips and petticoats come in white, pink, blue, maize and champagne and love initialing which contrasts.

The Experienced Traveler . . . relies on handy travel aids from Trail Apothecary, 121 Kercheval. There's a new group of cosmetic kits in bright spring colors. Pick your helpful packable packet . . . Mr. Shine, easy grooming for traveling shoes or Nail Clean or Safe Trip or cold water soaps. By the way, many of their good looking carry-all-cases were specially designed to fit under airplane seats.

The Turtle Tale . . . this year is a fashion story. Handsome mock turtles are found in the new shipment of shapely, small but roomier handbags. White, bone and banana are the new subtle tones. Prices range from thirty-three to forty-two dollars. Umbrellas with turtle covers are meant to match the purses. Saffron leather is also very much in the style scene at the Touch of Elegance, 63 Kercheval in the Colonial Federal Building.

Explore . . . the Bargain Basement at Young Clothes. You'll discover wear-right-now and some spring children's fashions which have been marked forty and fifty per cent off. They are gathered in the basement of 110 Kercheval, for your convenient and very profitable shopping.

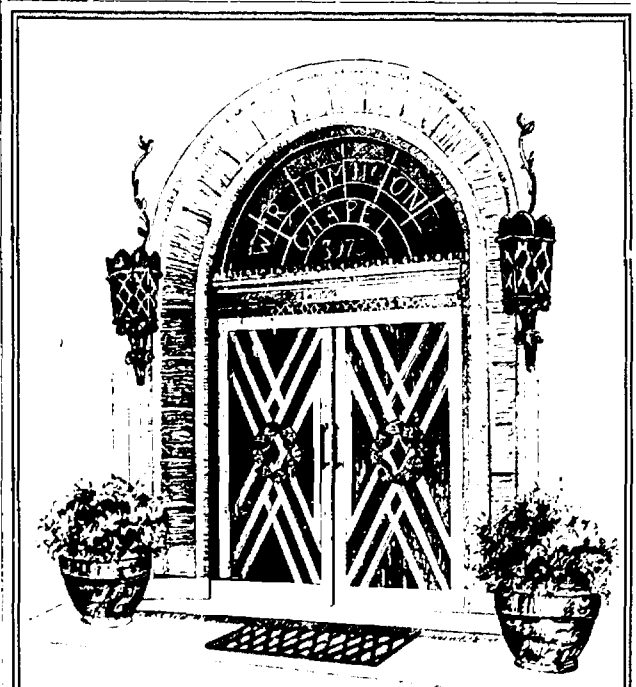

Time-Table . . . for decorative flair is found at the Mermaid in the shape of an hourglass end table. The hourglass actually measures one hour. The table comes in walnut, antique white, yellow or green and costs fifty dollars.

A Must See . . . the carved wooden antique trophy panels at Denler, 77 Kercheval. Carvings of this type were used to decorate old manor houses and castles. One has as its motif farm implements . . . the other has vegetables. They are an important size and lend a special atmosphere.

Hard To Find . . . men's gifts are the stock and trade of Gray's Racquet and Sport Shop, 106 Kercheval. Not only is there an excellent selection of sporting equipment and accessories but items like high intensity reading and work lamps and Swiss army knives are found there.

Window Shopping . . . at The Dants — The League Shop, we admired the very beautiful imported oriental screen. It certainly would make an elegant room divider or background setting. Inside the shop we discovered two smaller ones equally lovely and so decoratively useful.

Authentic Art Treasure . . . a bronze door . . . just inside 123 Kercheval, (The Bronze Door). There are lots of artistic things going for this well known restaurant . . . gourmet specialties, good music by Les Osborne and style shows by Anthony's. For reservations call 886-1932.

From Another Pointe of View

Recent visitors to the Robert E. Sholtz home in Lakeland avenue report that they feel as if they're vicariously taking a trip to Venice.

Seems that the Sholtzes, with Mr. and Mrs. Ronald Phillips, are busy gathering Venetian-type props for the upcoming production of "The Time of the Cuckoo," to be presented by The Fine Arts Society of Detroit March 15 and 16, at the Players Playhouse in East Jefferson avenue.

And, since the props will be moved out to the Playhouse so very soon, there's not much point in storing them in the Sholtz' attic — therefore their home has acquired a very definite, if ephemeral, Venetian flavor.

Mrs. Donald W. Kuhn, director of the comedy-drama, has been conducting rehearsals at the Wellington place home of the show's producers, Mr. and Mrs. William R. Evans.

The stage set, a pensione garden edging one of the canals of Venice, has been designed by the talented Albert A. Siewert. Mrs. Clifford K. Badger is playing the part of the American secretary, portrayed originally on Broadway by Shirley Booth, and James B. Hughes is the romantic Venetian merchant.

Mrs. Frank Finney appears as the pensione's owner, Signora Floria. Members of the supporting cast include Mrs. Jac E. Purdon, Peter Rettig, Mrs. S. John Petz, Mrs. Kenneth Locke, Kenneth A. More, Rick Stander and Patrick Petz. Mrs. Frank E. Standish is serving as assistant to the director.

Supervising the traditional candlelight suppers following each performance are Mr. and Mrs. Leon H. Hanselman.

The Leslie W. Joys, John W. Kinseys, Donald W. H. Rothangs, R. Malcolm McLellans and Donald Worleys will assist the Hanselmans as hosts and hostesses.

A kick-off coffee hour in the home of Mrs. Stephen Sweeney, at Wellington place, set into motion plans for the April 5 piano recital by Grosse Pointe's Ruth Burczyk for the benefit of the Summertime Music Scholarship Fund of the Grosse Pointe Public School System.

Symphony in Muskegon. She has proven herself to be a truly gifted keyboard artist in her sensitive interpretations of the great classics.

Her program will include selections by Liszt, Chopin, Brahms, Poulenc, Griffes, Beethoven and Bach.

An active member of the Mu Phi Epsilon international professional music sorority and various other musical organizations, Mrs. Burczyk is also a prominent teacher in this area.

Staples, now assistant concertmaster with the Detroit Symphony, will be the seventh concertmaster after the retirement of Mischa Mischakoff in August. He plays the famed "Hilari" Stradivarius.

All concerts will begin at 8:30 o'clock.

Fiedler will present a different musical program with each soloist, including familiar light classics, stirring overtures, show tunes, movie themes, ballet excerpts and other exciting orchestral music.

The Cabaret "Pops" Concerts lend themselves to a relaxed nightclub atmosphere with seating at attractive tables for four. Glowing candles in multicolored globes add a festive touch to the tables, decorated in pastel linens.

Walters and waitresses will take orders for cocktails, wine, beer, hot beverages and snacks of sandwiches, ice cream, popcorn, peanuts, potato chips or pretzels.

Tables, (seating four), are priced at \$16, \$12 and \$8. Tickets are on sale at Ford Auditorium Box Office, (961-0700), all 15 Grinnell's stores, all Hudson's stores and at the Light Guard Armory (366-8900).

Mail orders should be addressed to Detroit Symphony "Pops," 20 East Jefferson, Detroit 48226, accompanied by a self-addressed, stamped envelope.

Special rates are available for large groups and may be obtained by calling 961-0700.

The 18th annual national convention of Questers, an organization dedicated to the study and appreciation of antiques and objects of art, as well as their historical context, which has aided in the restoration and preservation of many historic sites throughout the country, will be held May 1 through 3 at Detroit's Sheraton-Cadillac Hotel.

Chairman of the convention, which will draw members from 250 United States Quester Chapters, is Mrs. Pierre Palmentier, of Fair court.

The first day's activities, May 1, will include the National Board meeting and luncheon, at the Hotel.

Questers not on the Board will leave the hotel by chartered bus to enjoy luncheon in the Grosse Pointe War Memorial's Crystal Ballroom. Following luncheon, Board mem-

bers will join the group at the War Memorial to view the Fries building and Alger House, after which chartered busses will transport everyone on a tour to several Pointe homes, especially selected for their lovely antiques.

Presidents of Michigan Quester Chapters will preside as hostesses at the first evening meeting and reception at the Hotel.

Arch Rankin, of Neff road, will bring one of his fabulous

music boxes to the gathering, and Mrs. Robert Charles Sheridan will present "Lace Legacy." The delegates and observers will be able to view the bequest collection of laces belonging to the late Richard Cranch Greenleaf, former advisor of the Cooper Union Museum.

The Presidents' Council Meeting and Program Workshop May 2 will be followed by the Questers' annual luncheon in the Hotel's Grand Ballroom. Professor Richard M. Daugherty, of Macomb Community College, will speak on the "Architectural Heritage of Michigan."

Mrs. Charles O. Walker, Jr., heads a committee of members from the Questers' state organization making arrangements for the May 2 evening reception. Henry D. Brown, director of the Detroit Historical Museum, will speak on the theme chosen for the convention, "Early French Detroit."

A lecture explaining the work of the United States Food and Drug Administration (FDA) will be offered to women of this area at St. James Lutheran Church on Wednesday, March 13, at a 12:30 o'clock luncheon.

Mrs. Diane McLane Place, a consumer's specialist from the FDA, will inform the consumer of the standards set to promote honesty and fair dealing in the labeling of food and drugs.

The FDA yearly analyzes thousands of foods and drugs to prevent false or misleading labeling.

Mrs. Place will be accompanied by Mrs. Virginia Hatzenbuehler, who will describe her work as a micro-biologist for the Detroit district of the FDA.

Local women are cordially invited to attend this luncheon to become familiar with regulations which protect food and drugs.

The St. James Women's Guild requests that reservations for the luncheon, (donation \$1), be made by phoning the Church office at TU 4-0511 or Mrs. E. F. Stoetzer at TU 1-6181. A nursery will be provided for young children.

Flower Fixing Course Offered

How to most effectively use the very welcome early spring blooms will be the central theme of the Spring Flower Arranging Course to be held Friday afternoons from 1 to 3 at the Grosse Pointe War Memorial beginning March 15.

Instructor is Mrs. Richard T. Gerathy and the fee is \$15 for six weeks.

Mrs. Gerathy has taught flower arranging for many seasons at Grosse Pointe War Memorial, and is a fully accredited flower show judge and arranging instructor throughout the state.

She finds and furnishes all the

materials necessary for her students and introduces them to unusual assemblages of foliage and blossoms suitable for centerpieces, occasional tables, mantels, wall brackets and patio highlights. Best of all, she shows how to preserve blossoms for long periods and how to substitute fresh blossoms in longer lasting materials to enable keeping arrangements longer.

Mrs. Gerathy's students learn to keep their homes bright with highly individual and creative floral arrangements for just a few dollars a month.

Her elbow length illusion veil was scalloped and fell from a pearl and lace crown. She carried a cascade of stephanotis and camellias.

The bride will receive her Bachelor of Science degree in August from Eastern Michigan University, where she is major-

ing in Special Education for the Deaf. She is also working as an elementary teacher in the Trenton Public Schools.

A groom consultant will be available all week long on the 2nd Floor near the 1206 Shop.

First Floor, Farmcr side, will have a Pantry Shop demonstration featuring the Fantastic World of Frozen Foods.

All this, and much more, will be found in Hudson's Downtown IDEA FAIR during March 9 through March 16.

Children's Hospital expects to move into its new facility in the Detroit Medical Center in late 1969. The Auxiliary's current project is already raising money for a New Equipment Fund.

Members of the Auxiliary will also act as hostesses at the Show, staff the Guest Book Desk and be available at an Information Center to answer questions regarding the New Children's Hospital and the Equipment Fund.

Among those working on the project are Mrs. William Beall, in charge of invitations, and hostesses Mrs. Victor Calcaterra, chairman, Mrs. Mel Shane, Mrs. Philip Huber, Mrs. Charles Jennings, Mrs. Ned Chalot, Mrs. William P. Heller, Mrs. Boyd Turner and Mrs. Edward H. Forton.

Our Rainboutique Collection

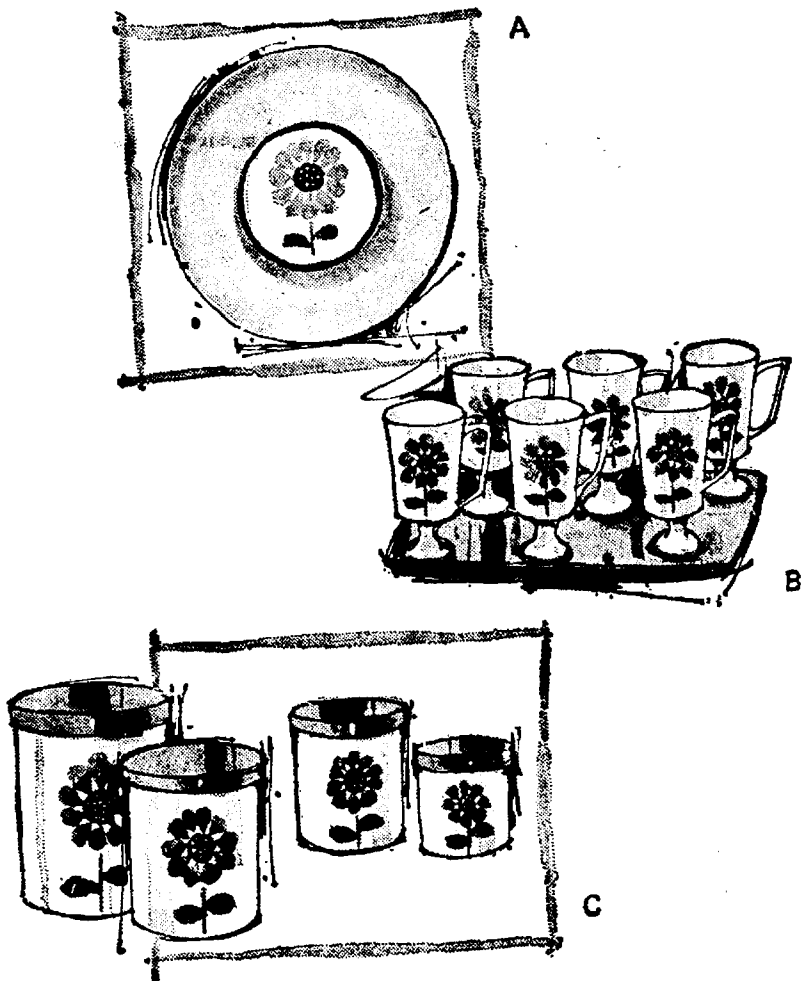

IS TEEMING WITH RAINTHINGS THAT DO MORE THAN KEEP OUT THE RAIN

When it's raining, who needs something drab? A nice little morale-booster would be more like it. Say a soft belted nylon that's as near to glove leather as man can make it. Rousing red, white and blue cotton plaid. Perhaps slick white vinyl with black flower appliqué. Or cotton canvas rainsuiting with a jacket long enough to be a coat. Enough to shatter the single raincoat theory. For now, nothing less than a wardrobe will do. Including these from \$80 to \$200. With 6 to 14 sizes. In the fashionable shelter we set aside for our Rainboutique Collection.

to create effective wall hangings through imaginative stitching. An opportunity to learn how every will be offered at Grosse Pointe War Memorial Wednesday afternoons from 1 to 3 o'clock beginning March 13. Instructor will be Mrs. Marshall Massey who received her art

major at Radcliffe. Every fall, Mrs. Massey's colorful and highly individual wall hangings are a highlight of the Grosse Pointe Artists' outdoor exhibit at the Center where they are the envy of other exhibitors and viewers alike. Now Mrs. Massey is shar-

ing her talents and know-how with others.

According to Mrs. Massey, one goes about creative stitching and wall hanging in, the same manner one would project a painting or collage using the same principles of color, line and design with, of course, an added emphasis on texture.

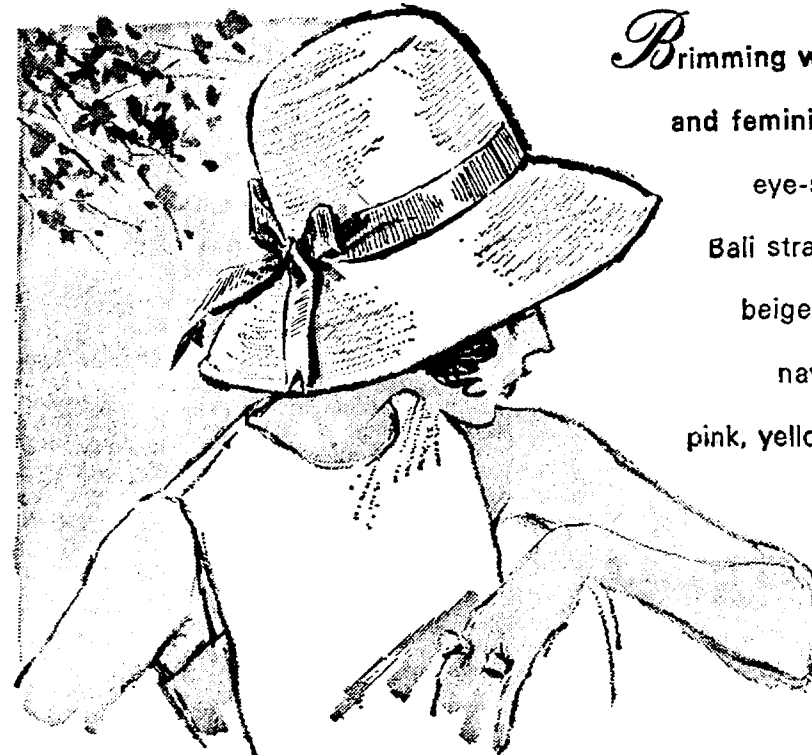

Yarn is used to outline and a wide variety of materials are

applied to the basic background to produce the subject. No patterns or copy work are used. The results are true works of art which are decorative wall hangings for nearly every room in the home or office.

Fee for the Creative Stitchery course is \$20 for 6 weeks. Advance enrollment will be appreciated.

Enjoying Life At Lundi Gras

Detroit's Lundi Gras, the gourmet gala at the London Chop House benefitting the Archives of American Art, held annually the Monday evening before Lent begins, again proved to be a high point of the winter social season. MR. and MRS. WALKER L. CISLER, of Devonshire road, (right), enjoying the evening with MR. and MRS. LEE HILLS, (Mrs. Hills and Mrs. Sidney E. Chapin served as this year's Lundi Gras co-

chairmen), were among Pointers who attended the fabulous affair. The 1968 Lundi Gras decorators chose a theme of black and white and crystal, featuring columns hung with vertical strands of crystal beads entwined with white Italian lights. Jean Le Direach, soon-to-depart French Consul General in Detroit, was guest of honor and proposed Lundi Gras' traditional French toast.

Dr. Robert W. Youngs officiated at the small family ceremony, after which the newly-

For the 10:30 o'clock rites, the bride selected a street length, A line dress of white satin and net ribbon. She carried a nosegay of white pom-poms and acacia, and wore a matching floral headpiece.

She was attended by Mrs. Richard De Vore, who wore a yellow dacron suit and carried a nosegay of yellow pom-poms. Richard De Vore served as his brother's best man.

The mother of the bride chose a beige knit suit and a green cymbidium orchid corsage.

Fine Pointes of Real Estate

By C. W. Toles, Jr., Realtor

"I Have A Realtor, Why Pay An Attorney?"

Sometimes the most difficult part of preparing for the final closing of a real estate transaction is convincing the buyer that he should engage an attorney. "You're an experienced Realtor and I trust your judgment, so why should I pay a legal fee?", he asks.

While a Realtor is expected to coordinate the various steps involved in obtaining mortgages and other closing details, there are certain things, such as the examination of the title, which fall into the realm of legal service and should be done by a lawyer, just as the drawing of a will should be done by a lawyer.

Although the training of a competent Realtor includes a course in real estate law, he does not attempt to practice law on the strength of this, nor is he permitted to. Besides, we have an agreement with the lawyers. They won't sell real estate if we don't practice law.

THIS COLUMN OF REAL ESTATE TOPICS IS PUBLISHED BY TOLES REAL ESTATE, 74 KERCHIEVAL ON THE HILL.

Lorin Hollander With Symphony

HEAP BIG wigwag for large tribe, located deep in St. Paul's territory. If you are looking for a bigger reservation with 4, 5, 6 or 7 bedrooms, and a modern kitchen grab the check book and bring the chief over. Don't delay—look what happened to Custer!

LOOKING FOR a three bedroom colonial tepee south of Jefferson? Let us show you 921 BEDFORD. Central air conditioning, new carpeting and drapes are included in this "mint" condition home. It's a lot of wigwag for the wampum!

OUR POLL takers predict that these two candidates on UNIVERSITY PLACE are running neck and neck in popularity. For those who prefer the Farm colonial flavor we can offer a four-bedroom with conventional size family room and caucas-size den. There's also an impressive front porch, perfect for making that inaugural address. If your choice tends towards the conservative, we have the candidate in this five bedroom English, with three full baths on the second floor. Our survey shows this to be the number one bet in its size and price category.

THIS LARGE house offers the perfect combination to those who want lotsa land, and a house with rooms to roam in. The kitchen has been completely done over and includes every gadget in the catalogue. A greenhouse with its independent heating and watering system makes it a focal point of the large entrance gallery. Bedrooms and baths for a large family. All this on a deadend street leading to the lake.

LAKE SHORE ROAD has long been known for its magnificent mansions, but few of the great old homes are left. We are proud to offer a complete estate which has been maintained in superior condition. Call when you have a few minutes to talk and we'll illuminate the many features of this special listing

who, where and whatnot

by wboozit

Every Moving Day . . . has its Small Casualties — so when Ruth (Mrs. Otis U.) Walker broke the lid of a favorite sugar bowl while transferring some of her belongings from Balfour road to Earl court last year, she chalked the incident up as a just-one-of-those-things accident, resigned herself to using the sugar bowl, sans lid, forever after . . . Then a few weeks ago, cruising in the Caribbean, she came upon a table of odds-and-ends for sale in one of her ship's ports of call . . . And there, in the center of the "stuff," was a sugar bowl lid . . . And it looked EXACTLY like HER sugar bowl lid, (before she broke it, of course) . . . So she bought it, for a few pennies, and wrapped it carefully, and carried it home, and set it on her sugar bowl . . . And sure enough, it was a PERFECT fit! . . .

Among the things we've missed . . . since the downtown newspapers went into the Land of Limbo, are our Morning Coffee Sessions with Erma Bombeck, who, we think, more than any other columnist, deserves the title of "The Woman Writer Other Women Identify With Most" . . . Well, we may not be able to read what Erma's writing these days, but we DO have an opportunity to hear what she's been doing and thinking and feeling, from her own lips, next Thursday morning — and we're going to take it . . . Mrs. Bombeck, final speaker in this season's Grosse Pointe Celebrity Series, sponsored by the Bon Secours Hospital Assistance League, will appear at the Esquire Theatre at 11 o'clock in the morning, talk on until 12 . . . Title of her program? "Group Therapy With Erma Bombeck" . . .

"Grandma Sullivan" . . . (Mrs. Allen Sullivan, of Unionville, Mich.), is still writing "verse letters" to her Marine grandson, Rick Tyrrell . . . and Rick, son of the Donald E. Tyrrells, of Roslyn road, is still in Vietnam . . . Here's what "Grandma" has to say in her latest message to:

Dearest Rick:
Each time the news comes on the air,
You know the family's gathered there.
We sit and watch the TV screen
And say a prayer that YOU'LL be seen.
With aching hearts we watch the war
And think of what you're fighting for:
How every day you risk your life
Amidst those terrible scenes of strife.
No mail at all for, Oh! So long!
So MANY things we picture wrong!
Then comes a letter—Happy Day!!
Things look a little bit more gay.
We hear the news with tears of joy
And swell with pride in our brave boy
Whose courage earned a fine Bronze Star
In that sad country where you are.
Each day we'll watch, and wait, and pray
For news that Peace is on the way,
And ask our Father up above
To send us home the boy we love.

Grandma

PILFERINGS

"In 'Not Under Oath,' John Kieran recalls the time the 'Information Please' group appeared at Radio City Music Hall:

"We were put through our paces on the forward section of the big stage and, instead of dropping the curtain on us at the finish, they began to lower our section of the stage out of sight behind the footlights. As a frequent customer in the theater I'd often seen the orchestra disappear in that way before the movie came on, but we hadn't been warned that we were to be lowered, and I was a bit startled when the platform began to sink under me. Not Franklin P. Adams! He stood up, waved in answer to the applause and just before our heads and shoulders disappeared into the depths he cupped his hands and shouted to audience, 'Don't forget to write!'"

The music had just stopped at one of those dances where each partner twists around individually as he sees fit. As a youth walked toward the sidelines, a girl rushed up to him and thanked him for the dance. "I wasn't dancing with you," the young man hastily replied. "I was trying to get past you to the Coke machine."

This story is making the rounds of parents with college-age kids — but not all of them are sure it's a joke. The mother of a recently married daughter met a friend, who asked after the newlyweds. "Oh, they're so happy!" exclaimed the mother. "They just got back from a month in Bermuda, and they're moving into a new apartment. She's getting new furniture for it, and as soon as they're settled they're buying a car."

"My," said the friend, "your son-in-law certainly must be doing well."

"Indeed he is," said the mother. "He's getting straight A's."

Pointer of Interest

MRS. BROWN MCGREGOR, OF RIVER ROAD

By Janet Mueller

Mary McGregor's been keeping busy these past 10 years. Partly, she's been involved with the "usual things" — gardening, travel, family — the standard, delightful preoccupations of every grandmother.

But there's been another theme running through Mrs. McGregor's life for a decade now.

She's chairman of St. Michael's Episcopal Church Little Thrift Shop and has been directing its activities since the Shop first opened, 10 years ago this month, in St. Michael's organ chamber.

As chairman, she's adjusted to a schedule of long hours and hard work. She's coped with a few headaches—and experienced more than a few joys.

She's been busy, not with "busy" but with detailed, responsible work . . . And she's been happy in her job.

Better Than Bridge

"I really don't know what I would have done with my time without the Little Thrift Shop," she muses. "Played some bridge, perhaps, done some more gardening . . ."

And, from the way she says this, one knows that Mary McGregor is sure she has chosen the better part . . .

By nature, she's a "Martha." "I always had my fingers in something," she explains, "even when I was bringing up the children."

The "children," three of them, are grown now, with children of their own. Daughter Janet Wilson has three daughters, Christy, Linda and Edith, (known to all as "Deedee"), Wilson.

Son Alan McGregor, who lives in Berea, O., has a daughter, Susan, and a son, Alan McGregor, III. Frederick McGregor, a Pointer like his sister, has one son, Frederick McGregor, Jr.

Alumna of Liggett

Mary McGregor is a native Detroit, an alumna of Liggett School. Nineteen years ago, she moved "back" to The Pointe from St. Clair, Mich., a small town on the St. Clair river, south of Port Huron.

She loved living in St. Clair, where she was president of a Music Club, director of a choir and community chorus—and worked in sales at a local Thrift Shop.

"I hated to leave," she admits. (St. Clair is her "family" town—her father was born there, her mother came to live there at about the age of seven), but of course Grosse Pointe is nice too . . . And I had two children here . . .

She moved into her present home in River road 15 years ago, when River road was literally a country lane. She watched the fields and trees disappear as new streets were laid out, new houses built.

She can't help wishing a few fields, a few stands of trees, could have remained.

Her Home Is Gracious

Her home is her own gracious, personal setting, its walls hung with paintings she's collected in Europe. ("I've been to Paris, Rome, the usual places," she says), tables dotted with family photographs, a grand piano, sheet music spread open above the keys, standing in one corner of the living room.

And a bowl of daisies, bright petals promising spring, in another corner . . . "I can't say that I like winter," Mary McGregor admits. In past years, she's "escaped" to Florida: "I'd have liked to have gone earlier, but I hardly ever got down until the middle of March," she smiles. "Something always came up . . ."

Often, that "something" would be connected in some way with St. Michael's Little Thrift Shop.

Mrs. McGregor has been a member of St. Michael's Church

Joined Church Group

Naturally, she also joined the Episcopal Church Women at St. Michael's. She credits Mrs. John W. Mason, a fellow E.C.W. member and current Shop treasurer, with the original idea for the Little Thrift Shop.

The Little Thrift Shop, Mrs. Mason reports, began as an offshoot of a rummage sale. Ten years ago, the women of St. Michael's raised their funds in many ways, among the most profitable of which were rummage sales.

Each time a sale was held, the workers mumbled that many of the truly beautiful things donated sold at a fraction of their value, because rummage sale prices must necessarily be very low, and the value of others was decreased because of rough handling, (again a "necessary evil" in rummage sales).

Originally, a donated merchandise-only shop was suggested, but somewhere between the first planning session and the official Shop opening it developed into a genuine resale shop, handling merchandise on consignment, (60 percent of the sale price goes to the consignor, 40 percent to the E.C.W.), not only for members of the parish but for the general public.

From The Beginning

Mrs. McGregor was "in on" the Shop from the very beginning. "They asked me to help, and I said yes," she recalls.

"There were probably not more than 20 women involved when we first opened the Little Thrift Shop," she adds. "As of last June, the number of women involved was 65 . . ."

"People give a day when they can, some come once a week, some come once a month, working in sales, receiving, marketing . . ."

Marking, Mrs. McGregor admits, is a difficult assignment for a novice:

"We decide on a price through experience. As it happens, we've been lucky: Our prices have been with us since we started . . ."

Ten years ago, the Little Thrift Shop, located in St. Michael's small organ chamber, was open Fridays only, from 2 to 5 o'clock.

Today, in its headquarters in St. Michael's new addition, the Shop is open three days a week, from 10 in the morning until 3 in the afternoon, and one evening per week, from 7 to 9 o'clock.

Replaced Other Events

It has replaced bake sales, nut sales, rummage sales and fairs, and is now the E.C.W.'s sole important money-raising project. Funds raised via the Shop have been used to pave part of St. Michael's parking lot, to pay off the balance due on a loan to support a chaplain at Detroit General Hospital, to build a mission school and sponsor full tuition for the theological education of two priests.

"We're fond of saying that we sell anything—if it isn't too big," Mrs. McGregor, who has worked in all phases of Shop activities, reports.

That "anything" has included, so far, a wedding dress—and a wooden Indian! Veteran Shop staffers know better than to attempt to predict what will sell next week!

Mrs. McGregor recalls the early years, in the organ chamber, as hectic, crowded — and fun. And Mrs. Mason reminisces:

Many Memories

"In addition to its small size, the organ chamber had one great drawback — a large window opening into the church which, of course, could be closed off due to the necessity of letting the sound of the organ pass through."

"Unfortunately, it also let all sorts of other sounds pass through which necessitated a complete shut-down of the Shop if there were an unscheduled service such as a funeral."

"And in spite of all our precautions there were a few occasions when we neglected to silence the telephone which could be distinctly heard supplementing the organ on Sunday morning."

Size, however, was the main problem. The tiny Shop could accommodate only merchandise ready for sale.

Donations had to be received in the sexton's office, priced and ticketed in the auditorium, then carried by hand or in a cart back outside the church and around the corner to the organ chamber. In wet or windy weather, this was not exactly a pleasure trip . . .

Delighted With Move

So all the Shop volunteers, Mary McGregor included, were delighted when the Little Thrift Shop moved into "spacious" quarters, its very own sales room, a small office plus a convertible room to be used by the Shop on weekdays but available for classes Sundays, in St. Michael's new addition.

The new Shop opened January 18, 1961—and today its quarters don't look quite so spacious. As the business grew, larger than anyone had anticipated, more merchandise, more records, more workers began to tumble over one another.

The Little Thrift Shop STILL takes in more merchandise than it can adequately display; the receiving department now takes over the whole church auditorium on Fridays.

Veteran shoppers, (the Thrift Shop has many faithful customers, people who come back week after week to search for new bargains—one "repeater" was so delighted by the quality of the merchandise and the friendliness of the personnel that she baked "her" Little Thrift Shop workers a cake!), head first for the "Little, Little Thrift Shop," the overflow racks of new merchandise waiting outside in the corridor for floor space in the Shop itself.

Like "Repeaters"

Mrs. McGregor, like every Little Thrift Shop worker, is especially fond of these "repeaters:"

"We get to know some of them by name, to know their family situations, their likes and dislikes . . ."

"Our customers come from all over . . . Of course, sometimes we get a disagreeable customer or consignor, a situation anyone would dislike, but that isn't the rule, that doesn't happen too often . . ."

"I can honestly say I've enjoyed all of my work with the Little Thrift Shop, my association with the volunteer workers and the customers, the time I've spent in the office—that's where I do most of my work—even working on the books at home . . ."

"No, I wouldn't want to have a 'real' shop of my own . . . Oh, we volunteers often say, when we're at the Shop, 'I wish this belonged to me . . . But I think that would be a REAL headache!'"

"I'm happy doing what I'm doing. I have loved it. I've often said that the Little Thrift Shop has done much more for me than I have for it . . ."

But that, according to the women who have worked with Mrs. McGregor for St. Michael's Little Thrift Shop, is a most point . . .
