THE FIRST of 3,000 National Guardsmen moved out of Detroit on Wednesday after Governor George Romney announced a partial lifting of his state of emergency restrictions. Romney eased emergency restrictions against liquor sales and public assembly and modified the curfew hours. He added that unless there is some change in the situation, the emergency order will be removed entirely today.

POLICE ESTIMATED at least 50 passengers and crewmen of the ocean going ferry the Wahine were drowned in one of the fiercest storms ever to lash New Zealand. Police feared the death toll would rise as the search for survivors continued through the night in the waters of Wellington Harbor along the shore. The vessel hit a rocky shoal about 7 a.m. on Wednesday, just inside of Wellington Harbor as she neared the end of her daily 11-hour run up the east coast of New Zealand's South Island from Christchurch to Wellington, at the southern tip of North Island.

IN WASHINGTON, Congressional passage of open-housing legislation has won plaudits from civil rights leaders as well as demands for massive federal moves on shabby housing and unemployment in the riot-prone slums. A 250-171 House vote on Wednesday sent to the White House a civil rights bill to outlaw discrimination in the sale or rental of 80 percent of the nation's housing by 1970. The president promised to sign the bill into law as soon as possible.

A SECOND MAN arrested in the Mafia-inspired murder of Samuel DiMaggio, of Sterling Township, on March 28, awaits arraignment in Macomb Justice Court. Arrested was John J. Palmer, 29, of 12801 Camden, Detroit. He was held for the murder and kidnaping of DiMaggio. Still at large were Robert Dunaway, 37, of Grosse Pointe Woods, and Peter Vassallo, 23, of Detroit, who are also charged with murder and kidnaping.

KATHERINE HEPBURN and Rod Steiger received the coveted Academy Awards for best actor and actress for their performances in "Guess Who's Coming to Dinner" and "In the Heat of the Night" respectively. "In the Heat of the Night" also won the award for the best picture.

THE FIRST fire in Hazel Park Race Track's 20-year history destroyed a barn valued at \$100,000 and destroyed nine horses on Thursday. Arson was suspected as the cause of the fire. Owner of the horses, Pete Salamen, Jr., of Crimmon King Farms, a Detroit tool and die maker said one of the horses alone was valued at over \$69,000. Peter J. Bellanca, Hazel Park Racing Association secretary said all horses some 450 to 600, were evacuated from the 25 barns. Firemen were unable to estimate the damages or determine the cause of the fire.

AS THE WIDESPREAD investigation of the assassination of Dr. Martin Luther King Jr. stretches into its second week, the FBI issued and then withdrew a pick-up order for a white man named Eric Starvo Galt. Federal agents refused to say why they were seeking Galt or why the order was withdrawn. The original bulletin said that Galt was driving a white Mustang. The message was withdrawn with the explanation that it was released in error.

Sunday, April 14

IT APPEARED that investigators were checking into the possibility that more than one person was involved in the assassination of Dr. Martin Luther King Jr. The FBI, conducting what is said to be the most massive manhunt in its history, maintained silence on all aspects of the investigation. However, a Attorney General Ramsey Clark issued a new

The Lions Club of Grosse Pointe Woods has completed plans for its annual White Cane Week Sales campaign from Sunday, April 21, through Saturday, April 27.

Members of the club will be selling White Canes by door-to-door solicitation. The highlight of the campaign, it was disclosed, will be a demonstration of two Leader Dogs with their trainers, at the Seven Mile-Mack Shopping Center, Saturday morning, April 27.

13 GP Schools Participate in Unusual Art Display Containing 1,000 Pieces

Toothpick Construction, Needlework And String Drawings, Block Carvings, Coats Of Arms Among Diversified Talents

If you haven't been over to the War Memorial to see the art display of Grosse Pointe Public School students work, hustle right over—or at least be sure you make it before April 28. Over 1,000 pieces of art work from the Pointe's 13 public elementary schools and three Junior High Schools is on display.

The elementary school children are the students of Lorraine Krentzin, Susan Spengeman, Mary Williams and Mary Sue Reeves. The Junior High School art teachers are Edith Meldrum and John Wargelin from Pierce; Allen Ebert from Brownell; Emily Scott and Charles Jorgensen from Pierce Junior High School.

Mr. Jorgensen is Department chairman for the show. He had the job of organizing all the entries, and emphasizes that, due to space limitations, not all students' work could be displayed. The exhibit represents a cross-section of their work.

Designs Coats of Arms Among the more unusual displays was Anna Costopoulos' Coat-of-Arms. Anna, a student at Pierce Junior High's, design included a book, a Greek flag, a boat, representing the family's arrival from Greece, two stars,

denoting the number of children in the family and chief, indicating she played an instrument. Other cleverly designed Coats-of-Arms were those created by Martha Wood, Mimi Garrett and Alice Hummel.

Second grader Laurie Marrs of Richard, has a wonderful display using yarn art. Scott Robertson has an intricately made toothpick construction and David Cragg's crayon rubbings are a wonderful blend of color. David is a third grader at Defer School.

A mobile made from clothes hangers and yarn was the contribution of fourth graders Ralph Mann, Drew Peterson, Rick Cardoza and Laurie Stroubinger of Maire School.

Margaret Anderson's banana and apple on burlap were a tempting sight. Margaret is a

Psychologist Lectures at Pierce School

Examines Aims and Methods Of Discipline Suitable At All Ages Of Childhood

The Maire PTA has contracted Dr. Richard Cutler, Vice President of Student Affairs and Professor of Psychology at the University of Michigan, to give a series of three lectures with films at the Pierce Junior High Auditorium.

The first of the series will be "Middle Years." On Tuesday he will explain the roles of collecting and clubs in the lives of seven to ten-year-olds.

When the child reaches seven, Dr. Cutler says, he begins exploring all aspects of the world. He explains that as the child gets curious about science, history and geography and his relationship to them he begins to master his environment.

Dr. Cutler says that the child solves his main problem of bringing the world down to his size by collecting from it, reading about it, and making it his playground. Clubs and secret passwords give the child a mastery of some aspects of the world, according to Dr. Cutler.

Dr. Cutler will also discuss "A Matter of Discipline," an examination of the aims and methods of discipline suitable at all stages of childhood. He has stated that discipline's basic aim is to shape the child's view of the world when he matures; self-discipline is the ultimate goal of all methods. He also will discuss discipline problems and the aims of discipline with age: Physical safety during toddlerhood; social and interpersonal relations as the child leaves the family circle; endorsing values as the adolescent approaches autonomy.

One ticket for \$3 will admit husband and wife, or a single person, to the remaining two lectures. A student may purchase a ticket for 25 cents. Tickets may be obtained at the elementary school in your area or by calling TUxedo 5-8342.

Memorial Tree Planting Program Sought in Farms

Proposed Project To Beautify Municipal Pier-Park Will Give Residents Opportunity To Perpetuate Family Name

Farms officials are hoping that a number of residents will be interested enough to participate in a proposed Memorial Tree Planting Program, whereby selected trees will be planted in the newly expanded area of the Municipal Pier-Park, as part of a landscaping project.

The local program, initiated by Councilman William Kirby, has proved successful in other cities and villages throughout the United States. It gives families an opportunity to perpetuate the memories of loved ones, by the planting of the trees and the placing of suitable plaques.

City Clerk Peter Caputo said that the trees will be purchased and planted by the city, with the interested families being billed for them, and for the plaques. This could be done because the city can buy them at volume prices through bids.

The trees not only can be planted as an individual memorial to a departed loved one, Kirby and Caputo said, but can also be designated as a perpetual family memorial, that is, the name of the family donating a tree being inscribed on the plaque. Too, newly married couples can donate a tree, commemorating their wedding day, or, parents can memorialize the name and birth date of a newly born baby.

Will Give Satisfaction Farms citizens will not only have the satisfaction of knowing that they helped in beautifying their park, but also knowing that their families, or certain members of their families, will be permanently remembered.

The councilman and city clerk said that if enough persons show an interest in this program, letters will be sent to all homes in the Farms, outlining the project, and asking for cooperation and assistance of the people.

For further information regarding the proposed Memorial Tree Planting Program, residents should contact the city clerk at the Municipal Building, 90 Kerby road, phone 885-6600.

Fire Damages Police Vehicle

A Woods police car was slightly damaged by fire on Sunday, April 14, when wiring shorted out and burned the insulation.

Patrolman William Duster, in a report of the incident, stated that he was on routine patrol, traveling south on Mack, when at Preswick, a large cloud of black smoke shot out from under the dashboard of his scout car. He promptly radioed for a fire truck.

The vehicle was towed to a service station where it was found that the wires leading to the rear fan had shorted and caught fire. The blaze also ignited the floor padding near the front seat of the car, it was said.

The patrol car was repaired and returned to service.

18 Babe Ruth League Teams Set For Action

The Woods-Shores Babe Ruth League is now rolling ahead under full steam.

All of the teams have been selected and the league is proud to announce that this year's fine enrollment has created the need for four new teams for this season. Coupled with last year's two team increase, the league has grown from twelve teams in 1966 to this year's total of 18.

The Automotive league has the following teams and managers: Roger Rinke Cadillac, Bill David; Rinke Pontiac, Dave Marstiller; Dick Green Chrysler-Plymouth, Jim Biesenthal; Merrells Chevrolet, Bill Schleicher; Pointe Dodge, Norm Bohm; and Richard Buick, Gene Clem.

Recover Body Of GP Woods Man in Lake

Resident Missing from Home for More than Three Months; Death Under Investigation

The body of a man recovered from the waters of Lake St. Clair on Sunday, April 14, at first unidentified, was later found to be that of a Woods resident reported missing since January 28, it was disclosed by Farms Det. Joseph Miller.

The officer said that the dead man was Earl Edmund Hughes, 56, of 2017 Anita, whose identification was made through fingerprints, dentures, and a deformed leg, caused by a bone break when Hughes was 14 years old. The dead man's wife, Lucy, also identified the body, the detective added.

Miller said death was caused by drowning, but the circumstances surrounding the death are still being investigated.

Motorist Reports Body

Farms police received a call from Richard Polen, desk officer at the Shores station, in which Polen disclosed that a passing motorist stopped in his station and reported seeing the body in the lake.

Farms Patrolman Joseph Belanger, who received the initial dispatch to investigate, radioed that there was a body approximately 75 feet from the seawall, near Harbor Hill Park.

The Coast Guard was notified, and a crew was dispatched in a cutter, but they were unable to reach the dead man because of the shallowness of the water.

John H. Graffius, 17, of 27 Harbor Hill, experienced in skin diving, who heard of the discovery of the body and the Coast Guard's inability to reach it, volunteered his services to Police Chief Jack F. Roh.

The youth entered the water in a wet suit, a rope tied around his waist, and when he reached the dead man, tied another rope around the body and police brought it to shore.

Shortly after helping, Graffius left for New York with a group of Grosse Pointe High School art students. He plans to attend the University of the Americas near Mexico City, next fall.

Chief Roh had estimated at the time, that the dead man had been in the water "for about a month, or more." The body was released to the Wayne County Medical Examiner's Office.

1968 Donors Lag Blamed on Vacations

Follow-Up Letters Being Sent Friday As Reminders To Pointe Residents

Grosse Pointe War Memorial's 1968 Annual Family Participation Campaign receipts slowed down over the Easter week-end. Returns show donations \$10,000 behind the mid April point in 1967 with approximately 400 fewer givers being heard from to date.

William Huetteman, President of the Association, points out, however, that solicitation mailing was later this year than last and on a day to day basis the campaign is still doing well.

The Center's volunteer Board of Directors realizes that many people are out of town on spring vacation and can be counted on to make their donation when they return. To this end, follow-up letters are being sent this Friday as reminders to all families in the Pointes from whom the Center has not heard. The reminder is in the form of a combination solicitation note and postage free remittance envelope which the Campaign chairman, William B. Cudlip, hopes everyone will rip off and return with check enclosed. All gifts are income tax deductible. The Board of Directors wish to thank the following donors for their gifts already received:

Tournament Closes Kids League Hockey Season

The Grosse Pointe Invitational Tournament, held in Port Huron, marked the end of another successful season for the Grosse Pointe Hockey Association. All the teams in the divisions had a rewarding year.

The first tournament game was held on Saturday, March 30, with the Grosse Pointe Pee Wee "All-Stars" meeting the Forest Legion Auxiliary Pee Wee team from Forest, Ontario. The Forest team came on strong to win 14 to 0.

The "All-Stars" led by the game's second star selection Marty Monforton, included Peter Black, Jeff Welcher, Denis Godin, Tom Carbone, Tom Godfredson, Dave Maxwell, Bruce McDivitt, Bruce Rob, Steve Sicklesteel and Rob Sattler.

The Grosse Pointe Pee Wee Travel team, the "Firebirds" met the St. Clair Shores Pee Wee team in the second game. The "Firebirds" Jack Downing and Dave Sicklesteel spark-

ed their team to a 5 to 2 victory.

The Grosse Pointe Squirt Travel team, the "Mustangs," and the St. Clair Shores Squirt team "Mt. Frederick" then played an exciting over-time game. The "Mustangs" goalie and the game's second star selection Billy Kidd, received much help from his teammates Sam Sherer, Brian Hurley, Pat Fox, Tom Stewart, Jim Farquhar, Dave McIntyre, Jim Bradley, Chad Morris, Jim Klimchuk, Chris Piku, Brian Commett, Steve Olson and Gil Stewart. The final score was 2 to 1 with "Mt. Frederick" winning the game in over-time play.

The final score of the fourth game was St. Clair Shores Pee Wees 4 and the Grosse Pointe "All-Stars" 1. Marty Monforton played his usual good game and was again picked as the game's second star.

The final game of the day saw Forest with an all-out effort and about five minutes left in the third period, score the winning goal. The Grosse Pointe "Firebirds" lost 2 to 1. Jack Downing was again flying low and picked as the game's second star.

On Sunday, the four Grosse Pointe Pee Wee House teams held their play-off games. There were many stars in the five games played, and one in particular was Denis Godin of the "Dolphins." He scored two "hat tricks" for a day's play which is considered outstanding.

The "Dolphins" finished the play-off games in first place followed by the "Hawks," Radke Hardware and Trans-American.

All boys, managers, coaches, and parents connected with "the greatest game in the world" had a wonderful time this year.

Set Decoupage Exhibit at DBC

A special Decoupage Exhibition, the first of its kind ever held in the Metropolitan Detroit area, is scheduled for May 10, from 10 to 4 o'clock at the Detroit Boat Club.

The exhibit will include many objects by Grosse Pointers and will cover all phases of decoupage, ranging from beginner work and glass to repousse and trompe l'oeil.

The event will feature Hiram Manning of Boston, the national authority on decoupage. The name Manning is familiar to most Pointers who have studied decoupage.

The Manning family first introduced decoupage in the United States. Hiram Manning is considered the top decoupage designer in this country, and many Pointers have traveled to Boston to tutor under him at his studio.

The exhibition is planned as an informal-type reception, at which Mr. Manning will be present throughout the day to meet with decoupage enthusiasts and answer their questions.

Light refreshments will be served in the morning and afternoon, (the Boat Club advises that it is unable to serve lunch to non-members due to a capacity crowd).

Sponsored by Marie Mitchell's Decoupage Center, the exhibition is open to all decoupage enthusiasts. However attendance must be limited, and admission will be by ticket only.

Tickets may be purchased at the Mitchell Center in Mack avenue or through J. L. Hudson stores. Tickets will be sold on a first come, first served basis.

Admission is free, and no reservations are necessary.

In addition to Mr. Rob, the panel will include Ross Ellis, district supervisor, Federal Bureau of Narcotics; Herbert A. Raskin, associate professor of Psychiatry, Wayne State University; and Jack Kikenny, district manager, Synanon.

The Detroit Department of Parks and Recreation maintains 233 playfields, playgrounds and playlots comprising 1,176 acres.

PROFESSIONAL SERVICE IS BEST

Here are the Facts

PERHAPS—you could sell your own home yourself and try to save some money—

BUT THAT'S NOT THE WAY IT USUALLY WORKS

You would not save money — the purchaser would save it

BECAUSE—the first thing a prospective purchaser expects in buying from the owner is - that he will reduce the price by the amount of a realtors services and many times much more.

PROFESSIONAL SERVICE IS BEST FOR THE HOME OWNER

BECAUSE—

- IT USUALLY RESULTS IN A HIGHER NET FIGURE.
- IT'S FASTER AND SAVES YOU TIME AND EXPENSE. IT'S SAFER AND MORE RELIABLE FOR BOTH SELLER AND PURCHASER.
- A REALTOR KNOWS PROPERTY VALUES IN THE SELLER'S PARTICULAR AREA, AND HAS PROFESSIONAL KNOWLEDGE OF HOW TO COMPLETE THE SALE WITH THE LEAST INCONVENIENCE TO BOTH PARTIES.

BEST - BECAUSE—It's quite possible that we now have in our files the right prospect for your house - who will pay the top market price for it. Valuation and Professional Real Estate Counseling is available to you upon request.

Grease Fire Damages Flat

City firemen responded with all apparatus to the residence of Gerald McNamara, 649 Neff road, on Thursday, April 11, at 10:25 p.m. Upon arrival fire-fighter found that flames from a grease fire on the stove in the upper flat had shot up through the fan, into the walls then traveled up through the vent hood on the stove and into the attic. The fire over the stove was immediately extinguished. The ceiling above the back wall was then opened and fire was found along the back rear wall and in the attic section, above the kitchen. The roof above this area was also in flames. This too was knocked down and the fire extinguished. After the fire was under control the attic was ventilated and a smoke fan used to remove the heavy concentration of smoke and heat from the area. Off duty firemen were called to assist in the salvage operations and to relieve the initial fire crew. One fireman remained on

stand-by duty. It is estimated that fire damage will run into several thousands of dollars.

Michigan State Coach Duffy Daugherty coached the North team to a 50-6 victory over the in the 1968 Hula Bowl football game at Honolulu. Spartans Jimmy Raye and Bob Apsia played for Duffy's unit.

Here's a good question to ask
 before you take the lowest bid
 on any air conditioning equipment

"How long will it last?"
 We install Carrier equipment because
 it performs so long and so well.
 Call on us to hold down owning and
 operating costs; to meet a standard,
 not a price; to explain why more
 people put their confidence in Carrier
 than in any other make.

The pyramids, of course, have been a
 landmark since 3000 B. C.
 They are a reminder of the old days.

A striking contrast is the all new "space
 age" design of the Carrier Residential Air
 Conditioner. It's built to last, too. It's more
 efficient. Quieter. And Carrier prices are
 at an all time low. Call us today for free
 survey. Fast installation available if you
 decide now not to simmer through Summer.

Serving the entire Pointe area.

Memorial 'Group' Begins 'Thing'

Grosse Pointe War Memorial's "Group" for young business and professional people in their twenties in the Grosse Pointe area, is beginning a new "Thing" a Seven O'clock Supper Series being launched Wednesday, April 24, in Alger House, 32 Lake Shore Road.

"Doc" Greene, colorful, witty, and outspoken columnist of The Detroit News will be the first featured speaker. Hopefully, this will become a monthly midweek attraction at the Center.

"Doc" has been given a completely free rein on the subject matter of his informal chat, this should let the "Group" in for some real hair-raising surprises, a barrel of laughs and some mild shock treatment.

"Doc's" talk will be preceded by a spaghetti supper served in the Reception Room or on

the lake-side Terrace, weather permitting. Total cost for supper and talk is just \$2. Paid reservations in advance will be much appreciated. Stop by the Center's office, or mail in a check for same.

It is suggested folks come either in business greys or Diamond Lil casuals. Just stop home after work for a face wash, or quick change, and relaxing cocktail before coming on down. There's a 100 person limit so get your bid in early.

Long about nine after a full chance for give and take with "Doc." discussion will be continued at Lils by those who wish. It's going to be a gasser. You don't have to be a "Group" member to come "though you're invited to join and participate in the car rallies, sail and scuba picnics and other more serious programs planned.

Jobs in State Reported Up

Traces of a spring uplift in employment made themselves felt in March, according to Malcolm R. Lovell, Jr., director of the Michigan Employment Security Commission.

"Employment in the state, at 3,159,500 on March 15, was up 6,700 over the February employment. Unemployment was off by 1,000 in the state, and at 152,000 or 4.5%, was 11,000 lower than a year ago.

"Detroit area employment (Wayne, Oakland and Macomb counties) was up by 4,000 to 1,562,000, in the MESC's advance estimates on the labor market. Unemployment was down 2,000 from the previous 30 days, to 58,000 or 3.6% of the area's labor force," Lovell said.

"This was also 11,000 lower than that of a year ago."

"Changes in both areas were attributable to seasonal increases in construction, retail trade, services, and smaller increments in state and local educational services," he said.

Michigan claims for unemployment benefits dropped 31,000 between February 1, 1968, and March 21, to 82,219. Detroit claims dropped from 38,693 on February 1 to 24,737 by March 21.

"Placements by the MESC were up about 6% over February placements, or 18,577, compared with February's 17,548. Total for the first quarter was 54,827," Lovell continued.

Benefits available for payment of unemployment claims at the end of March were \$535.2 million. The total was off \$32.1 million from the previous month through payment of \$11.9 million in March benefits and \$21.2 million as repayment of the remaining balance on the MESC's \$113 million loan from the government in 1958.

"There will be a substantial increase in this fund in April because of the large quarterly payment due April 25," Lovell said.

Puppet Show at Center Sunday

Tony Urbano who has been appearing on top TV shows is coming to Grosse Pointe War Memorial this Sunday, April 21 with his puppets to stage "Peter Rabbit" specially for Grosse Pointe children during Easter vacation. There will be two shows in Fries Auditorium — one at 2, the other at 3:30 p.m.

Young people and their parents will love this production because it's staged as a review and costumed in the happy styles of the twenties. At one point Tony Urbano joins his puppets on a human size stage and cavorts with Peter Rabbit, Flopsie, Mopsie and Cotton-Tail in Mr. McGregor's cabbage patch. Tickets are \$1 and are on sale in the Center's office.

Camera Club Meets Tuesday

Members of the Grosse Pointe Camera Club will gather Tuesday evening, April 23, at 8 o'clock in the Grosse Pointe War Memorial. Three prints and three slides may be submitted on the assigned subject, "Ice and Snow." Three nature prints and slides may also be submitted.

The annual business meeting is scheduled for this meeting. Board members will be nominated for the coming year. Visitors are welcome.

The big tasks in life are expertly completed by men who took pains with the little ones.

WINDOWS SMASHED

City police received two calls on Thursday, March 21, reporting storm windows had been broken with BB guns. The first report was from Bruce Hubbard, 460 Rivard. The second report from Mrs. Inez Hanika, 841 Fisher. Mrs. Hanika said some boys on Lincoln had been shooting BB guns the day before. Upon investigation of officers found the two juveniles. Their mother said she would talk to her sons and contact the complainant.

The people who know it all usually know it all wrong.

Blind Driving Cars in State

Blind people driving in Michigan? Impossible? Not so, says Secretary of State James M. Hare.

Just recently, it was discovered through a check of persons drawing state aid to the blind subsidies that 37 persons who were classified as legally blind in Michigan had driver licenses.

Among the 37, there were 10 who had unrestricted licenses, Hare said. The others needed corrective lenses or additional equipment in their cars. Some were limited to daylight driving only.

Hare said that all 37 cases had been referred to their driver examining stations. Re-exams had been ordered for all

of them.

Some of these persons had been involved in accidents. They had been charged with various violations. Some had surrendered their licenses. One appeared to have been blind when he applied for a driver license. But two others, failing a vision test at an examining bureau, were awarded licenses by the license appeal board.

Three of them had "tunnel" vision . . . that is, they were able to see only straight ahead over a very narrow range.

"These are extreme cases, representing a tiny fraction of the kinds of disabilities which could affect a person's driving. There are thousands of other physical and mental disabilities which affect driving. Perhaps from five to 10 percent of all

accidents involve these persons . . . between 200,000 and 500,000 drivers based on Michigan's driving population."

Hare thinks the prime solution to this problem would be for Michigan to set up a medical evaluation board, comprised of physicians and other medical personnel to advise in cases where there is dispute on the physical or mental fitness of

drivers. A medical evaluation board is one of the standards in the new federal safety program.

Use Tissue Paper
Fifth grader at Trombly School, Joel Crippen's butterfly, made from colorful tissue paper, looked like it was ready for flight.

John Vermulen, sixth grader at Monteith School, had an unusual picture made from colorful bits of paper featuring a regal looking elephant.

Sally Moore, fourth grader at Barnes School, created yellow and pink daisies from colorful tissue paper that looked like a real summer bouquet.

Karen Brody from Mason School had a realistic chicken made out of fluffy cotton and colored yellow, with real chicken corn tucked in the corner, all ready for the chicks dinner.

Clever use of newspaper and paint made for an interesting picture of the city by David Roberts, sixth grader at Davenport School.

A beautiful example of lettering done with India Ink was represented in Debra Stranohager's 'shellpaper scroll of The Night Before Christmas, which was colorfully decorated with sprigs of holly.

One of the high points of the exhibit was the class project of Kathryn Lunt's fifth graders at Richard School. (See Photo.) It was a high product map of the United States made of burlap and yarn. Mrs. Lunt cut out 20 different colors of burlap. Then each child reached into a bowl containing every member

of the classes name, and selected a state.

They then had to find out as much about their particular state as possible. Then using their own creative genius come up with a product to sew on the state. (Mrs. Krentzin taught the children how to sew four stitches using paper and magic marker markings before they actually began on the burlap). Each child did at least one state so the whole classes' work is represented on the map. The result is truly beautiful, so much so that principal Ted E. Jacobs, is planning to hang the map in the school when the exhibit is over. And the children are just thrilled!

Take a few minutes from your busy schedule and visit the War Memorial and view the art display . . . it's well worth the trip . . . a colorful monument to both the teachers and students in the Grosse Pointe Public School System!

Club Sponsors Riding Groups

Four horseback riding trips have been scheduled for the riding enthusiasts in 5th and 6th grade, and Jr. High teens, for Saturdays May 4 and 18, and June 1 and 8.

Margie Sloan, an expert horsewoman on the Neighborhood Club staff, will be in charge of the group. More advanced riders will take to the trail while beginners will start in the ring.

The bus leaves from the Neighborhood Club Teen Center at 9 a.m. Registrations must be made five days in advance of the scheduled trip.

Arrangements for private lessons may be made by calling TU 5-4600. Margie Sloan is the instructor.

Detroit has 5,856 acres of parks, playgrounds, boulevards and miscellaneous open space under the jurisdiction of the Detroit Department of Parks and Recreation.

Crossover

(Continued from Page 1)

authorized the mayor and city clerk to sign a contract with the Board of Wayne County Road Commissions providing for changes in crossovers on Mack avenue and alterations to curb radar at several locations.

The crossovers will be made through the medial strips and will be located in the vicinity of Bournemouth and the 7-Mile Mack Shopping Center. These crossovers should improve the circulation of traffic at 7-Mile and Mack and the ingress to the center.

The alterations to the curb radii will be made at the northwest corner of Mack and Kenmore, northwest and southeast corners of Mack and Lochmoor, northwest corner of Mack and Allard and the southeast corner of Mack and Cook.

The total cost of the project is \$32,000. The Woods will pay 40 percent or \$12,800 and the country will pay 60 percent or \$19,200.

GP City Buys Power Machine

In line with the City of Grosse Pointe's expanded sewer cleaning program, the Council on Monday, April 15, voted to purchase a continuous power rodding machine from the O'Brien Manufacturing Company. The new machine will replace the 10-year-old flexible power rodder machine.

The new machine has three main advantages over the existing machine. First, because of many design improvements, sewers can be cleaned between two and three times faster with no additional manpower than is necessary with the existing machine. Second, because of the continuous rod design as contrasted with the existing flexible rod design, the machine is capable of cleaning the sewers in greater size and length than the city's current machine. It also permits cables necessary for bucketing to be placed in larger diameter sewers by machine rather than by hand as it is presently done, saving significant man hours. Third, the annual cost of rod replacement for the new machine should be much less than required for the existing machine.

The net cost of the new machine will be \$4,169.60 to come from the sewer bond fund.

Recognizes POA

The City of Grosse Pointe Council also voted to recognize the Grosse Pointe City Police Officers' Association as a bargaining representative for the patrolmen of that city.

The Association will be represented by attorney Winston L. Livingston, well-known for the role he played in negotiations between the City of Detroit and the Detroit Police Officers' Association.

Improvements

The City of Grosse Pointe Council on Monday, April 15, voted to approve the City Manager's recommendations for work at the pump station located at Charlevoix and Neff. This work will include the painting of the exterior doors and trim; leveling and seeding the disturbed lawn area and landscaping the building foundation; and constructing a hard-surfaced driveway to the Charlevoix side door. Total costs of these improvements will be \$1,826.90, and will come from the sewer bond fund. Contracts were awarded to John Onstwedder for painting; Vianene Nursery Sales for Landscaping; Eichstedt, Grissim and Young, Design and Inspection.

MEDICINE THIEF

City police received a call on Tuesday, April 9, from Revco Drugs, 17027 Kercheval, reporting a juvenile shoplifter. Upon arrival officers found that a 14-year-old boy had taken two bottles of cough medicine without paying for them. He was taken to City police station where he told officers he had stolen the cough medicine to sell to teenagers to get high on. He was turned over to his older brother until his parents arrived home. Chief Andrew C. Teetaert talked to the boy and his parents.

enjoyable experience for the boys.

All of the teams are now in the process of selecting their queens for the annual Miss Babe Ruth Contest. This will be the eighth year in which girls of 13, 14 or 15, who live in the Woods or Shores will vie for the honor of being Miss Babe Ruth and the honor of reigning over the opening day parade and ceremonies. The contest will be held at the Woods City Hall at 7:30 p.m. on Thursday, April 26, and all friends of the league are urged to attend.

Plans are going forward for the first annual Youth Baseball Day in which the Woods-Shores Babe Ruth and Little League have combined their opening day parades and ceremonies. The big day is Sunday, May 5, and the festivities will begin with the parade down Mack Avenue from Manufacturer's Bank to Ghesquiere Park where the ceremonies will be held. The parade will start at 1 p.m. Ceremonies are scheduled for 1:30 at the park. This will be quite an undertaking for the leagues and the City as there will be approximately 1,000 players and coaches involved in the parade.

Please plan to attend as this is THE DAY for the boys, and they all want to be seen as they begin their seasons. There will be games immediately following the ceremonies, and there will be hot dogs, pop, candy and coffee available at the fields so you can all spend a fine Sunday afternoon enjoying youth baseball in the Woods.

Judge Goodrow dismissed charges against four persons who were in court, and signed warrants for the arrest of six others who failed to appear to answer charges against them.

Library to Hold Film Forum

The last of the 1967-68 Friends Film Forum public programs will be held on Friday, April 19, at 9:15 p.m. in the main reading room of the Central Library.

This program is sponsored by the Friends of the Library and the Grosse Pointe Public Library. The films are selected with a discriminating audience in mind, and it is hoped many people will take advantage of the opportunity to see this month's offering.

"Footsteps in the Fog" (Great Britain)—90 minutes. This is a suspense thriller set in London at the turn of the century. It is based on a short story by W. W. Jacobs, "The Inter-ruption," and it tells of a handsome, patrician householder played by Stewart Granger, who has just poisoned his wife. His servant girl, Jean Simmons, blackmails him and there is a masterful play of attack and defense as each tries to outsmart the other. "Nicely-made period piece . . . viewers will enjoy seeing Stewart and Jean

creep in and out of murder as they continue their diabolic paths." Commonwealth.

The Library now has quite a complete collection of 16 mm. films which are available on loan, and would be useful to people planning Church programs, youth programs and study groups. For information on audio-visual aids call James Titterington, TU 4-2200 extension 42.

Detroit's Grand Circus Park, hub of the wheel-shaped Motor City, was once marshland in the heart of frontier Detroit.

For the second time in as many years, Sports Car Spectacular will again be presented in Detroit. This year's show is scheduled for April 20-28 at Cobo Hall.

With Sports Car Spectacular it is not necessary to provide a stage show. The automobiles on display are the show and they create the excitement as there will be many new production models and prototypes introduced to the public for the first time. In addition, there will be

Schedule Sports Car Spectacular

many racing models from the circuits of Sebring, Daytona, and LeMans. Most importantly, there will be over 200 sports and sporty automobiles for the comparative shopper.

Home Gardeners Warned About Miracle Plant Men

"Springtime opens the season on home gardeners and landscapers for miracle plant men. Don't be taken in by these racketeers" is the warning sounded by Attorney General Frank J. Kelley, Agriculture Director B. Dale Hall and the Michigan Association of Nurserymen.

The public is warned against high pressure salesmen and mail order advertisers using fancy names for ordinary shrubs and plants and making exaggerated claims for their plant material.

Beware of glowing word descriptions and faked photographs of climbing vine peaches, giant climbing strawberries, 1,000 giant red roses on a single bush (unknown to horticulturists), flowering shade trees that grow roof high in a single year, including the "Flowering Maple" that turns out to be the common silver maple with most inconspicuous blooms, etc.

"All consumer complaints, including verbal misrepresentations are reviewed by the Consumer Protection Division of the Attorney General's office and appropriate action is taken, said Assistant Attorney General Joseph B. Billitzke. "It is our experience that purchasers who deal with established local merchants can see what they are buying and are not misled by photographs or lurid verbal pictures."

"One cannot expect to get high quality stock at ridiculously low prices" said Dean F. Lovitt, chief of the plant industry division of the Department of Agriculture. "Purchasers should always demand a certificate of inspection with the stock as their assurance that it has passed inspection for insects and disease. Local nurserymen usually are familiar with local conditions and the varieties likely to do well in an area, and their advice can be helpful," he said.

"There are reliable mail order

houses but there is no substitute for the expert service on selection, planting and care of the plant that your local nurserymen can give you" said M.A.N. Exec. Sec. Victory C. Beresford. "He wants to protect your interests so he can continue to serve you. That's why we advise — "Ask Your Nurseryman First."

Implied Consent Law Takes Toll

Only one driver in 20 who has refused to take sobriety test in connection with Michigan's implied consent law has escaped suspension of his driving privilege, it was disclosed by Secretary of State James M. Hare.

As of February 2, three months after the program got under way, 403 Michigan drivers have been given mandatory 90-day suspensions for refusal to take sobriety tests when they were arrested, Hare noted.

"Of this total, 295 drivers were suspended through driver improvement action, and 108 were suspended after their appeals were denied by License Appeal Boards," Hare stated. "In only 20 cases were appeals granted.

"Neither actions taken by our Department internally in suspensions nor by license appeal boards determine the guilt or innocence of these persons," Hare said. "Adjudication of the cases is up to the courts."

Water Supply Project to Supply 1,000 Jobs

Construction work planned by Detroit Metropolitan Water Services (DMWS) on the last leg of its Lake Huron Water Supply Project is expected to provide jobs for more than 1,000 building tradesmen.

Payroll of this final phase of the project—Michigan's largest water supply project—will exceed \$30 million, it was estimated today by Gerald J. Remus, general manager DMWS.

First construction on a 28½ mile pipeline through St. Clair County, a filtration plant and a 6-mile tunnel from the plant into Lake Huron is scheduled to start this year. Completion is scheduled for late 1970.

All types of skilled workers will be employed by contractors on the project at one time or another, so it would be impossible to attempt to estimate the number of men or man hours in each trade involved, said Remus.

Remus said contracts signed by DMWS require that contractors give preference in hiring to qualified local labor.

About 25 DMWS employees will be required to live in the Port Huron area during construction. Another 30 DMWS employees will be needed to operate the filtration plant when it is opened.

Construction bids are being taken on the nearly four miles of 120-inch diameter pipe on April 10. Bids on the tunnel will be taken April 24.

Steps Completed
First two steps of the four-year \$120 million Lake Huron Project were completed last year with DMWS putting in 32 miles of 96" diameter main and 23½ miles of 72" diameter main in service at a cost of \$35 million. Water supply service was then begun to Flint, using waters taken from the Detroit River.

The remaining work consists of construction of a raw water tunnel-intake at the edge of Fort Gratiot Township.

A tunnel system will be bored through antrim shale about 190 feet below the water level and will have an inside diameter of 16 feet, large enough to drive a city bus through.

The raw water tunnel will permit Lake Huron water to enter the system by gravity flow through this water intake, located five miles into the lake and 45 feet beneath the water surface, and through a six-mile long tunnel system. One mile of tunnel will be beneath the land, the other five miles under the lake.

Normal capacity of the intake and tunnel will be 800 million gallons daily. Maximum capacity will be 1,200 MGD.

The intake and tunnel will connect with a new filtration plant and 26.5 miles of pipe.

Pick Cardinals Twins to Win

The St. Louis Cardinals are heavily favored to repeat as National League pennant winners and the Minnesota Twins are a strong choice in the American League race, according to an exclusive poll of more than 500 major-leaguers appearing in the May issue of SPORT Magazine.

Picked to fill out the first division behind the Cardinals in the National League are the Pittsburgh Pirates, San Francisco Giants, Cincinnati Reds and Atlanta Braves, followed in order by the Chicago Cubs, Philadelphia Phillies, Los Angeles Dodgers, Houston Astros and New York Mets.

In the American League, the contenders behind the Twins, according to SPORT Magazine's player poll, will be the Detroit Tigers, Chicago White Sox and Baltimore Orioles, with the 1967 pennant-winning Boston Red Sox dropping to fifth, trailed by the California Angels, Cleveland Indians, Washington Senators, New York Yankees and Oakland Athletics.

In the SPORT Magazine poll for top individual performances by National Leaguers, the Pirates' Roberto Clemente was the choice as probable Most Valuable Player and Leading Hitter, the Bucs' Jim Bunning as the Leading Pitcher, Atlanta's Hank Aaron as the Home-run Leader, and the Reds' John Bench as the Outstanding Rookie.

In the American League, the SPORT Magazine players' poll named the Red Sox' Carl Yastrzemski as the circuit's probable Most Valuable Player, the Twins' Tony Oliva and Harmon Killebrew as Leading Hitter and Home-run Leader, respectively, the White Sox' Joel Horlen as Leading Pitcher, and Athletics' Reggie Jackson as Outstanding Rookie.

PORTABLES DAMAGED
Stanley Trevena, custodian at Maire School, 740 Cadioux, called City police on Sunday, April 14, to report that some time between April 12 and that date persons unknown had damaged the portable classrooms. Two porch lights on the portables were broken and 10 screens broken. The Detroit Edison Electric Meter was also damaged.

STOLEN WHEEL FOUND

John Sparks, 808 Lakeland, called City Police on Sunday, March 10, to report he found a new tire and wheel in his backyard. The tire, belonging to Robert Yeager, 1315 Yorkshire, was stolen from Mr. Yeager's car on Monday, March 4, from in front of 532 Neff lane. Mr. Yeager was notified.

The new Mercedes-Benz 220 Diesel: so "over-engineered" you may still be driving it in 1988.

Some Mercedes-Benz Diesels just won't quit. In the 32 years since Mercedes-Benz invented the Diesel-powered passenger car, over 500,000 Diesels have been made, and 87% are still running! One owner in Stockholm recently started his second million miles.

The newest Mercedes-Benz Diesel is the 220 (so-called because its engine displaces 2.2 liters). It costs \$4,494,* and from the million-dollar way it looks and rides, many people believe it should be classified as a luxury car.

An unconventional economy car

Mercedes-Benz says the 220 Diesel is an economy car. Yes, an economy car, because it could save you more money in the long run (say, 100,000 miles or more) than the flimsiest little economy car you could buy.

The 220 Diesel is so economical it doesn't even use gasoline. It sips inexpensive Diesel fuel at a miserly rate, yet has enough power to cruise at 80 (where the law allows). This amazing power plant does away with carburetors, spark plugs, and other paraphernalia of the conventional gasoline engine.

But the engine is not the only unconventional thing about the new Mercedes-Benz 220 Diesel. The whole car is "over-engineered." That's the way one critic put it. He was right. By conventional standards, it is built to far more exacting standards than ordinary motor cars.

What else "over-engineering" can mean to you

The remarkable longevity of the Diesel engine is one good example of how "over-engineering" works for the

man who buys a Mercedes-Benz. But by no means does it tell the whole story. Here are some more examples:

A superior braking system

Many ordinary cars still use old-fashioned drum brakes.

Today's 180-mph Grand Prix racing cars use disc brakes. So does the Mercedes-Benz 220 Diesel. And not just on the front wheels, but on every wheel. Drum brakes are cheaper, but tests prove that disc brakes provide the most precise braking possible—at any speed. So Mercedes-Benz engineers insist on 4-wheel disc brakes as standard equipment. With 421.1 square inches of braking area, it's virtually impossible to outrun the 220 Diesel's brakes.

10,000 body welds

Most conventional cars have a separate body and chassis, held together with bolts. After a while, the bolts can work loose. On a washboard road, the rattles can be deafening.

Mercedes-Benz eliminated the body bolts. In their place are over 10,000 individual welds. Result: a structure of immense strength and rigidity. After 50,000 miles or so, you'll wonder if your 220 Diesel will ever rattle.

A patented suspension

Conventional sedans usually have a little device called an "anti-sway bar" nestled in the front suspension. It pre-

vents the car from leaning on hard turns. Without it, the car would wallow (or the springs would have to be made so stiff that the ride would be ruined).

Mercedes-Benz engineers took this idea one step further. They added a second anti-sway bar at the rear, part of the 220 Diesel's new—and patented— independent rear suspension. This allowed the Mercedes-Benz engineers to make the rear springs softer, too. Result: a vastly superior ride, but still no mush, sway or wallow—even in hairpin turns.

"Fatigue-proof" seats

Take a day-long trip in some cars and you'll wind up feeling like a damp washrag.

The Mercedes-Benz 220 Diesel is engineered as much for human comfort as it is for mechanical efficiency. Ortho-

pedic physicians were consulted in the design of the 220 Diesel's seats so you'll have proper support on cross-country tours as well as short hops to the supermarket. When you first slip into one of the 220 Diesel's carefully contoured seats, it may seem firm, but once you get used to it, you'll never settle for "marshmallow" seats again. Mercedes-Benz engineers have respect for your backbone.

14 gasoline-powered models from \$25,582* to \$4,360*

The legend of Mercedes-Benz Diesels has grown to Brobdingnagian proportions. There are some people who firmly believe Mercedes-Benz makes nothing but Diesels. Not true. In fact, Mercedes-Benz builds a wide range of gasoline-powered models, from the

awesome 600 to the thrifty 220 (a car very much like the 220 Diesel, but with a regular gasoline engine—for people who are diffident about the virtues of the Diesel engine). They include:

600 Grand Mercedes	\$22,299*
300SEL Limousine	9,400*
280SE Coupe	9,174*
280SL Roadster	6,485*

REPORTS BROKEN TREE
Geneva McCullough, 810 Wash-
ington, reported to City police
on Monday, April 8, that a split
tree limb, about 8 to 10 feet

long, was hanging from the tree
in front of her house. The High-
way Department was notified
and they contacted Shock Brothers
to take care of the limb.

Phone Company Troubled By Many Cable Dig-Ups

Dig-ups of telephone cable, oc-
curring on the average of twice
a day, are presenting a serious
service problem to the Michigan
Bell Telephone Company and its
customers.

Last year contractors' trench-
ing machines, power shovels
and bulldozers sliced into un-
derground telephone cables 735
times, causing service disrup-
tions for thousands of phone
users.

"The problem is particularly
acute in the Detroit metropol-
itan area where building excava-
tions and construction of sewer
lines, highways, and water
mains pose almost a constant

hazard to underground phone
lines," said J. W. Allen, general
plant manager of Michigan
Bell's metro area.

Allen attributes most of the
problem to digging by contrac-
tors and builders. He urges con-
tractors and equipment oper-
ators planning to dig to call the
telephone company's repair
service. "The company will tell
contractors, builders and home
owners where telephone cable is
buried," he said. "In critical lo-
cations, a telephone man will
be sent to the site to show cable
routes."

The cable dig-ups are costly.
Michigan Bell spent more than
\$160,000 last year to repair the
damage. Far more important,
however, is the fact that service
interruptions caused missed
messages and inconvenience to
telephone users when the cables
were broken, Allen pointed out.
A cable break can cut off a
town or area completely from
long distance calls for several
hours.

Problem Could Worsen
The problem could worsen in
the future unless those who dig
for a living exercise more cau-
tion, Allen said. Michigan Bell
is committed to a policy of bury-
ing or placing more and more
cable underground.

Allen said that in 1960 Mich-
igan Bell had 9,017 miles of cable
underground. The company now
has 19,236 miles of cable be-
neath the surface.

Michigan Bell takes extensive
precautions to safeguard buried
cable. It erects warning signs
above buried cable. Visits are
made to contractors, builders
and excavators. Checks are
made of construction permits
and efforts are made to warn
contractors in advance of dig-
ging.

Allen said home owners plan-
ning to erect a fence or plant a
tree in areas where telephone
facilities are buried underground
are urged to call repair service
before digging. Generally, he
said, phone lines lie in a direct
path from terminals in the rear
of the property to the point
where the wires enter the house.
Home owners can avoid cutting
off their own phone service by

CONFUSED BUNNY
A Neff road resident called
City police on Saturday, April
13, to report that a white domes-
tic rabbit was eating the flowers
in her garden. Upon arrival of-
ficers were unable to locate the
rabbit. An Easter Bunny con-
fused a day early?

In some cases the engineer of
a train of thought has no con-
trol over the throttle.

making themselves aware of
this stretch between the back-
yard terminal and the location
where telephone lines enter their
home.

Those who dig up telephone
facilities are liable for the cost
of labor and material used in
the restoration of service, Allen

said. Such payments, however,
cannot begin to compensate
phone users for the inconveni-
ence.

In most instances, dig-ups can
be prevented by first telephon-
ing repair service, Allen said.
The number is listed in the front
pages of telephone directories.

they can afford to lose a friend.

Michigan Seeks to Retain Title of Safest State

If Michigan can cut last year's highway death total by five a month from April on, this state may keep its 1967 title as "Safest of the Big Eight States," according to Automobile Club of Michigan.

"Michigan drivers led the nation in traffic safety during 1967, but are 44 deaths ahead of last year's first quarter," states Auto Club General Manager Fred Rehm.

For the first three months of 1968, 420 persons have died in Michigan traffic as compared with 376 for the same period last year.

From a record 2,226 deaths in 1966, however, Michigan reduced its 1967 traffic fatalities to 1,988, a drop of 11 percent. (Both figures are taken from a nationwide compilation. Michigan State Police figures, which take into account delayed and late-reported deaths, are higher.)

Rehm added that Michigan also reduced traffic injuries by 3.3 percent in 1967.

In comparison, the nation as a whole remained unchanged—both in injuries and deaths, according to a statewide traffic study to be released soon by Auto Club. In 1967, Michigan had 4.7 deaths per 100 million miles traveled while the nation averaged 5.5.

The study, called "Portrait of a Year," probes more than 1,600 injury accidents which happened last summer throughout the Lower Peninsula. It will be a companion study to Auto Club's 1966 study, titled "How To Bring More Back Alive!" which covered 20 percent of the year's traffic fatalities.

The rest of the "Big Eight States" were far behind Michigan's 1967 highway record.

Here's how Michigan stacked up in comparison with the seven other largest states (in terms of auto registration):

Michigan, down 11 percent; Ohio, down three percent; Illinois, down one percent; Texas, down one percent; California, down less than one-half a percent; Indiana, up less than one-half a percent; New York, up one percent; and Pennsylvania, up seven percent.

In fact, Rehm points out, Michigan was behind only such low-population states as Alaska, down 31 percent; South Dakota, down 16 percent; Utah, down 16 percent; and Nevada and Arizona, both down 14 percent.

In the cities category, Flint and Grand Rapids led the nation in traffic fatality percentage reduction for most of 1967, with 28 and 24 percent reductions, respectively, in their category.

Detroit, with an 18 percent reduction, placed 11th among 788 cities reporting late last year.

However, Rehm said that traffic deaths began to climb before the end of 1967 and have continued climbing since.

He pointed out that travel was up 9.4 percent in January and 12 percent in February this year as compared with 1967. Deaths dropped four percent in January and jumped 35 percent in February in 1968 as compared with these months in 1967. Mileage figures are not yet known for March, 1968; however, highway deaths are up 13 percent in Michigan for this period as compared with 1967.

"Other Auto Club studies have shown that the primary element in whether accidents increase or decrease is the driver," said Rehm.

"More and more motorists are becoming aware that just one mistake can turn even a good driver into a dead one—a fact that was brought home by our earlier studies," he added.

He said that this awareness is the product of many education, research, promotion and action programs. He cited the new State Police Vehicle Check Lane program, the publicity given traffic safety by federal involvement in the field, and the "Bring 'Em Back Alive!" program, aided by unprecedented cooperation from the communications media.

"The backsliding," Rehm said, "apparently is due to relaxation by drivers once the initial burst of concern and publicity passed last summer."

Detroit led the state in the 1967-68 upturn in injury and fatal accidents. The city was forced to slow down its traffic enforcement, starting about mid-year (due to the July riot and a dramatic jump in street crime).

"There is a direct relationship between enforcement and traffic tolls," Rehm said. "We have always held that a well-marked police car is a traveling safety poster."

"It serves as a reminder to the driver who might through carelessness violate the law and as a warning to the driver who would break the law if he thought he had a chance to get away with it," he added.

R. M. Surdam Elected Burroughs Director

Elected to the board of directors of Burroughs Corporation at the Company's annual meeting of stockholders, was new member Robert M. Surdam, of Provençal road, president, National Bank of Detroit.

Surdam began his banking career with the National Commercial Bank and Trust Co. of Albany, N.Y., in 1939. He joined the National Bank of Detroit in 1947 and became assistant cashier the following year. He was named assistant vice president

in 1951 and vice president in 1954.

Surdam became senior vice president in 1960 and executive vice president in 1964. On June 30, 1966, he was elected president of the National Bank of Detroit.

A U.S. Navy veteran, Surdam served with distinction from 1941 until 1945, when he retired to inactive duty with the rank of lieutenant commander.

Born in Albany, N.Y., in 1917, he attended Deerfield Academy, Deerfield, Mass., and graduated from Williams College, Williamstown, Mass., with the degree of B.A. Cum Laude.

Surdam is a director of Buhl Land Company, Bundy Tubing Company, and the International Bank of Detroit.

He is a director of Harper Hospital and a trustee of the Automotive Safety Foundation. He is also a director of the Greater Detroit Board of Commerce and of the Detroit Symphony Orchestra.

More than 2,200 teams in all major sports make use of the Detroit Department of Parks and Recreation facilities.

Deer on Roads Can Be Fatal

Motorists looking for greener pastures in the spring of the year should be on the alert for deer grazing along the highway, the State Highway Commission warns.

There were 7,077 car-deer accidents in 1967, an increase of nearly 14 percent over 1966. Three persons were killed and investigating authorities suspect that deer were also responsible for some one-car fatalities. Attempting to avoid deer at highway speeds can lead to serious collisions with other objects.

Lower Michigan motorists, secure in the belief that "it can't happen here," should be extra cautious. More than 6,000 of last year's car-deer accidents were in the lower peninsula and more than half of these were near heavily populated areas. The heaviest tolls were near Howell, Jackson, Battle Creek, and in Barry County.

The Department of State Highways has experimented with several proposed methods of keeping deer off highways, to no avail, so it's up to motorists to be on the lookout.

The Highway Commission reminded drivers that a deer grazing along a highway is a spectacular sight, but if the animal turns and leaps in front of a car it can be a frightening and often dangerous experience.

This group has taken steps to prove that reading aloud is very much back in style. Shown with Mrs. Charlotte Gorning, sixth grade teacher at Monteith School, are Nancy Vroom, Laura McMahon and Robert Thomasen, winners in an oral reading contest, which was based on voice, poise, and interpretation of material read. The youngsters cited many instances where reading aloud served an effective service: to read to younger brothers and sisters, to enjoy passages of good literature with others, to read to the sick.

Pointer Heads Detroit Track

A Grosse Pointe executive, William C. McKay, of Alger Place, was recently elected president of the Detroit Race Course.

Mr. McKay succeeds Dale Shaffer, who had been head of the multi-million dollar Thoroughbred racing organization since its founding in 1948. Mr. Shaffer was elevated to the newly-created position of Chairman of the Board.

The new president of the DRC is 45-years old and has been a member of the DRC staff since 1952.

Mr. McKay joined the DRC as assistant secretary and has moved progressively through the organization. He became secretary of the corporation and a director in 1953 and in 1956 was elevated to vice president. In 1962, he assumed additional duties as treasurer and in 1964 became executive vice president.

In addition, Mr. McKay has been general counsel and a member of the executive committee since 1955.

A native of East Tawas, Mr. McKay is a graduate of the University of Michigan. He received his Bachelor's degree in 1946 and graduated from Law School in 1949.

During World War II, Mr. McKay served in the Navy and was commissioned a Lieutenant (j.g.).

Mr. McKay is a member of the Board of Directors of the Thoroughbred Racing Association, an organization of 55 of the Nation's leading tracks. He has been active in business affairs, in addition to his Thoroughbred racing work, and for 10 years was a partner in the growth and operation of a chain of suburban community weekly newspapers.

Mr. McKay is married to the former Mary Lou Rayburn. They have four children, Rayburn, 17; William, Jr., 15; Linda, 13; and Leslie, 10.

How Do You Stand?

Serious problems concerning civil rights, labor disputes, or wars, are not solved by picketing, marching, ranting and raving, demagoguery, looting, fire bombing, or sniping.

History has proved that where grave crises of any nature arise those engaged in the strife must finally engage in conferences, and agree to a treaty of some sort.

War has been described as "nature's pruning fork." Poverty has been called by some "a state of mind." Family squabbles are said to be the result of temporary madness and misunderstanding which result in something called "incompatibility."

In all such situations calm rationalization, and an understanding of the composition of the "other fellow's" mind must be taken into consideration, and weighed at some length.

All of us, rich and poor, humble and powerful, white and black, literate and illiterate, should and MUST face the challenge of today by rearranging our thinking, by erasing our prejudices, by rationalization—and by becoming aware of the fact that we are now living in a revolutionary era as great, if not greater, than ever before faced by the American people.

Every person in the nation, of all colors, creeds, and ethnic backgrounds have a grave responsibility in these crucial days of confusion, apathy, and indifference. We have a bad habit of being temporarily shocked when some national tragedy strikes, and then forgetting the lessons it should have taught.

Unless we stop being slipshod Americans, and realistically face the gargantuan and multitudinous problems now confronting us our "sweet land of liberty" may well go the way of the Roman Empire in the fifth century A.D.

On May 23, 1857, Lord Macaulay in England, wrote to an American friend: "Your Constitution is all sail, and no anchor. Either some Caesar or Napoleon will seize the reins of the American government with a strong hand . . . or your Republic will be fearfully plundered, and laid to waste, during the 20th Century, as the Roman Empire was in the Fifth—with this exception—the Huns and the Vandals who ravaged the Roman Empire came from without—while your Huns and your Vandals will have been engendered within your own Country, and by your own institutions."

Which certainly should cause us to pause and wonder where we are going as a world power—if anywhere. Are you trying to help with the solution, or are you part of the problem?

Letters to the Editor

Dear Editor:

The name of the game is fun. And Little Leaguers all over Grosse Pointe are running, throwing, and batting their hearts out for a position on a baseball team. Fortunately, all boys will eventually be placed on either a major league or a minor league team. The major leagues, composed mostly of experienced 11 and 12-year-olds, play baseball as it should be played with fast pitching and base stealing in a healthy competitive manner, living exciting moments they will never forget.

But the name of the game is not the same in the minors. The minor league teams are composed of mostly 9 and 10-year-olds playing baseball for the first time and many 11 and 12-year-olds who could not qualify for the major leagues. Baseball is not a game that can be learned in a year or two, especially by children who have not yet learned to catch a ball. Most 9 and 10-year-olds do not possess the physical coordination to hit a fast pitched hardball thrown over-hand by an 11-year-old who has no idea where the ball will go.

The ball is rarely thrown in the strike zone, yet a child playing baseball for the first time is supposed to time his swing and hit the ball, which is usually nowhere within reach of his bat. What children are supposed to be gaining from such a travesty of the game is beyond anyone who has had any baseball experience. The name of the game is now misery.

Game after game the new Little Leaguers experience the same frustration. They are incapable of producing a single base hit, catching a fly ball, or throwing the ball to first base. Most all players either strike out or get a base on balls. Runs are scored by the dozens without benefit of a base hit. Games last for hours to sheer frustration of spectators and sheer frustration to the players. Teams score 20 to 30 runs on 2 or 3 base hits and one wonders why the game is not changed to be more suited to the talents of the

participants.

It would take little imagination to change the game so that the players might have a chance of getting a base hit their first year as a player. It would be safe to say that most players in the minor leagues of Grosse Pointe Park will play 18 games and never experience the satisfaction of getting a clean base hit, making a put-out, or completing an assist. Introducing children to baseball in this fashion is akin to using the Encyclopedia Britannica to teach first grade children to read.

Educators fit the materials to the learners. Why can't the game of baseball also be adjusted so that the ball is pitched slower and in the strike zone . . . therefore make it more interesting and within the abilities of the players? Is it any wonder that few Little Leaguers from the thousands that participate each year, rarely go on to advanced baseball in their teen years?

League officials may fear that such changes in the game may jeopardize their Little League franchise which has national headquarters in Pennsylvania. But since the changes in the game would effect the minor leagues only which do not participate in inter-city or interstate playoffs, I seriously doubt if such alterations would conflict with the Little League charter.

If the managers, coaches, and league officers are truly interested in teaching the skills of baseball to eager little leaguers, let them stop pretending that children are miniature professional baseball players. Then you can be sure that the name of the game will truly be FUN and not misery and frustration for the great majority of boys who want nothing more than to experience the exciting and wonderful sensation that comes from feeling and hearing a ball come into contact with a bat. To the Editor,

As the thoughts of the Death and Resurrection of a man named Jesus echo throughout the world this holy season, I couldn't help but try to find some sense to it: meaning to us now living here in this community of Grosse Pointe.

I am 82 years of age and have lived to see many Easters come and go. And to me it's a time for dying to all one's short-sightedness and suspicions and fears for the past year and becoming reborn to the hope and faith of a new year.

As I read through the Grosse Pointe News today on Good Friday, I was so pleased to read the statement which the Grosse Pointe Human Relation Council and the Grosse Pointe Committee for Open Housing advertised, asking that we write our home address and go on record for support of fair housing to be presented to our council fathers.

If the resurrection has any meaning at all, it has this to me—that we acknowledge our omissions of the past and now go forward to correct that which is sinful. The resurrection has no meaning at all if we go about this new year in the same manner as we did the past year living in ignorance of

the grave social crisis our country is experiencing.

I hear so many dear souls discussing the race situation when I grocery shop and too many are ignorant of the facts. They believe rumors of all sorts till I wonder sometimes are they children or adults. I believe mankind wants to believe what his soul's generosity wants to believe. Too many people are spiritually impoverished in Grosse Pointe. They seem to have benefited from the material part, the physical part. Beauty shines from within and when a man speaks who loves mankind and the Christ who died for mankind—that man dies a thousand deaths when he hears another man speak of fear or hate or out of ignorance of another's plight.

In conclusion, I only can offer my advice to those interested in the work of building bridges between people. Don't be discouraged ever, for if you accomplish nothing else in this life, you have radiated beauty and hope and faith in this community. Instead of praising you may get threats but you are giving courage to those of us who need you so desperately.

Mrs. Greta Parsons 1991 Maryland

What Goes On at Your Library

By Virginia Leonard

Spring is here. People are taking spring vacations; traveling here and there; buying new clothes. Birds have returned from the south, early flowers are blooming; I THINK it's safe to put away the snow shovel and relegate the winter boots to the basement storage.

What else happens at this time of year? National Library Week is almost here! This year it's April 22-April 27, and we certainly hope you will all pay us a visit at least once that week to help us celebrate this yearly event. "Be all you CAN be." "Read" is the slogan this year. It is printed on book marks, with a background of dark blue, showing a happy astronaut floating in outer space. We aren't asking you all to aspire to be space craft dwellers, but we would hope that, through reading, you might help to develop some of your latent powers, gain new knowledge, and have greater zest for life.

As for the programs at our libraries—let's see what's on the docket. On Tuesday of this next week the students of the 5th and 6th grades of Defer and St. Ambrose will present THE PIED PIPER OF HAMLIN at the Park Branch at 3:45 p.m. Miss Sue Rollins is in charge, and anything that she presents is bound to be good, so try to get your children there to see it.

On Wednesday, April 23, the Woods Branch celebrates the festival by presenting three films for the small fry: TOM THUMB IN KING ARTHUR'S COURT, A VERY SPECIAL DAY, and DRAGON'S TEARS. The program starts at 4 p.m. under the able supervision of Paula Preuthun. W recommend this also.

On Thursday evening at 8 p.m., we highlight the week with our astute teen-agers starring at the Central Library in panel discussion monitored by Mr. Robert Welch, assistant principal of Grosse Pointe North High School. The seven panelists are: Karen Hebbia from St. Ambrose, Ann Schulte from Our Lady Star of the Sea, Barbara Eldredge from St. Paul, Kathy DeSchreiber from Convent of the Sacred Heart, Kyle Kinsey from Grosse Pointe High School, Lisa Finkenstaedt from Liggett School, and Jim French from Grosse Pointe University School.

Our thoughts go out to Jim who is the only young man on the panel.

All the students have read assigned parts of THE PRESENTS REPORT ON CIVIL DISORDERS. From this point Mr. Welch will try to moderate a discussion, which can't help but be lively, stemming from such books as GONE WITH THE WIND, DR. ZHIVAGO, THE OLD MAN AND THE SEA, IN COLD BLOOD, WUTHERING HEIGHTS, THE VALLEY OF THE DOLLS.

From this we should learn things like: What kinds of reading are students doing today? Do teen-agers suffer from any forms of censorship? Does the school help or hinder a love for reading? It might not be a bad night for the parents too!

The piece de resistance comes on Friday night when Renville Wheat gives us a private look into his world of "Maps." As he says, "Man does not learn by books alone." Maps, for instance, communicate meaning, too. He has a distinguished collection and the Friends of the Library feel it is a great honor to have him share his knowledge and excitement with us.

And Saturday, the 27th of April, we are a riot of entertainment and color. Frieda and her Puppets will present two shows. One at 10 a.m. and one at 11 a.m. While she is performing downstairs at the Central Library, three films will be running upstairs. HERCULES,

THE STEADFAST TIN SOLDIER and STONE SOUP. All these appealing events are on for the youngsters while Mr. Robert M. Orr, director of the Public Libraries, will give his famous and exhilarating talks to the parents on "Books America Is Reading, and Why?"

And to really give you a lift, we have balloons. Hundreds of them, full of helium (we hope), bobbing everywhere, escaping to the ceiling, taking off out of doors, floating away to the wide blue yonder, if not clutched firmly in those little hands. One year, you may recall, we heard of one, with note attached, that waddled some 300 miles into New York State.

So you see, we will have "goodies" for people of all ages and all tastes. Come to the library next week. It's fun!

Our hats are off to Ed Chase, son of Mrs. Esther Chase who works part-time for our Processing Department. He placed eighth in ninth grade experiments at the Metropolitan Detroit Science Fair. What is particularly interesting to us is the fact that his topic: "Do Some Antiseptics Produce a Negative Chemotaxis on Paramecium Caudatum?" was inspired by a book in our library entitled: A SOURCEBOOK FOR THE BIOLOGICAL SCIENCES, by Evelyn Morholt and others. We are always glad when we have some tangible evidence of our service. And congratulations to young Ed!

Thief Snatches Woman's Purse

Park police officers dispatched to the corner of Mack and Wayburn on Saturday, April 13, to investigate a report of a woman in trouble, arrived at the scene to find Mrs. Nora Burnett of 3841 Marlborough, Detroit, trying to get up from the sidewalk.

Mrs. Burnett, after being assisted to her feet, told the policemen that she was walking on Mack, when she was approached by a teenage boy, who pushed her to the sidewalk, grabbed her purse and escaped. She said she could not describe the youth, nor could she say in which direction he fled.

The woman said her purse contained \$9 and personal papers. Police searched the area without success.

At about 3:45 p.m., the following day, Mrs. Burnett's purse was found in front of 1219 Beaconsfield, sans the money. An official report disclosed that the incident took place at about 11:30 p.m. Saturday.

Laud Representatives

House Speaker Robert E. Waldron (R-Grosse Pointe) today had high praise for the Michigan House of Representatives as members finished work on House Bills and headed home for Easter and a week's rest.

"It's fabulous, the House leader said, They passed every major piece of legislation before them."

"These are the toughest guys in the world who are handling the toughest issues in the history of state government," the Speaker said. When history records the accounts of the 74th Legislature, it will undoubtedly go down as the legislature of accomplishment, the one that made history commonplace. They have faced every issue every day head-on, and solved them. They started out by putting the backbone back in state government by having the 'guts' to put this state back on a sound

fiscal footing and have continued to meet the issues squarely ever since. Waldron said this Legislature had faced more critical, key issues in the past 15 months than any other in history. The Speaker cited Fiscal Reform, Implied Consent, the Good Roads package, crime and riot prevention, equal opportunity for all citizens, tenant's rights, pollution, lower reorganization, dramatic improvements in school aid, Public Employee Legislation, and many others as prime examples. Speaker Waldron added, "never before in the 14 years I have been in the Legislature have I seen a more cooperative approach toward solving the problems before us. In a House almost evenly split, this cooperation for common good was essential. I salute each and every member of this House for a job well done."

WOMEN'S PAGES

From Another Pointe of View

By Janet Mueller

We know for sure it's spring when we see the ladies of Cottage Hospital Auxiliary heading into the Nurses' Residence in Ridge road, about to begin their annual Kitchen Tour envelope-stuffing session.

An Auxiliary committee, under the chairmanship of Mrs. Ralph Quinones, gathered recently to do just that: Address and fill envelopes, soliciting patronesses for this year's Tour and Bake Sale, scheduled Thursday, May 23.

Six interesting and unusual kitchens will be opened to Tour participants between 1 and 5 o'clock, and the Bake Sale will be held concurrently, as always, in the Nurses Residence, (which is, by the way, a wonderful place to "rest those weary feet" after an afternoon's "touring").

We'll tell you WHICH kitchens will be displayed in a later column... But right now we'd like to know that among the envelope-stuffing contingent were the Mesdames Richard Langs, John Sheehan, W. B. Cram, John Sutton, James E. St. Denis and Walter H. Remter.

Another Sign of Spring

And we know for sure it's spring when Liggett School's dads and daughters gather for their annual Father-Daughter Dinner Dance.

This party this year will be held Friday, April 26, at the Grosse Pointe Yacht Club. The Jerry Ross Band will play for dancing, and a highlight of the evening will be the song contest in which the various Upper School classes sing original lyrics to their fathers, their teachers and their school.

Chairman of this 15th annual Liggett Dance is Jerome Keywell. Other committee members and their daughters who will be attending are Alfred Schrashon and Martha, Carl Larson and Diane, William Krieghoff and Marilyn and Robert Seeber and Diane.

Still other Pointe Liggett dads and daughters who'll be dancing the April night away are George Payne and Suzanne, Alvin Sherman and Nancy, George Watkins and Susan, William Klingbeil and Martha, Lynden Kaufmann and Nancy and his American Field Service exchange student daughter from Germany, Angela Pfless, William Finkenstaedt and Lisa and William Delbridge and Wynn.

Maybe so . . . because some folks have our line pegged as purely decorative, not down-to-earth. They don't see the fact for the frou-frou. The fact is . . . Pointe Residents to Hear Talk on School Problems

An invitation is extended to all residents of the Grosse Pointe Public School District to attend a meeting sponsored by the Grosse Pointe Citizens for Education on Tuesday, April 23, at 8 p.m. at Parcels Junior High School Auditorium, located at Mack avenue and Vernier road.

Dr. Theos I. Anderson, superintendent of Grosse Pointe Public Schools, will be the guest speaker. Dr. Anderson's topic will be "Where Do We Go From Here?"

Dr. Anderson will discuss the problems faced by the schools as a result of the recent school millage defeat, and its effect on the various school programs. He will explore the various alternatives, which are being considered and, following his address, Dr. Anderson will answer questions from the audience relative to the subject discussed.

Mr. Kenneth F. Bergmann, chairman, stated that this session will be the first of a series of discussion meetings relative

to school issues which the Grosse Pointe citizens for education plan to sponsor. It is felt that such open forums will enable all interested citizens to become more thoroughly acquainted with school programs and the problems faced by the school system.

Grosse Pointe Citizens for Education is a voluntary organization of concerned citizens formed to study the goals of public education in the Grosse Pointe Public School District. Any adult resident of the school district may become a member by contributing \$5 or more. Those interested should write to the Membership Chairman of Grosse Pointe Citizens for Edu-

Portrait Painter to Demonstrate

A free demonstration of Portrait Painting will be given to the Grosse Pointe Artists' Association and the interested public at Grosse Pointe War Memorial Wednesday morning, April 24, at 9:30 in the Fries Crystal Ballroom.

Carol Wald, recently returned from a one-man show in Fort Lauderdale, will do the demonstration. She is a skilled portrait painter, educated at Arts and Crafts, Cranbrook and the Skowhegan, Maine, School of Painting. She currently teaches at both Grosse Pointe War Memorial and the Birmingham Art Association as well as maintaining her own gallery.

Miss Wald will select a model from among her audience and proceed to render a portrait with explanations of the various processes involved.

ocation, P.O. Box 6872, Grosse Pointe Farms, 48236.

Supt. Theos I. Anderson will deliver a talk on "Christian Education" at St. James Lutheran Church of Grosse Pointe, McMillan and Kercheval, Sunday, April 21 at 3 p.m.

Main points to be discussed by Dr. Anderson will include consideration of emphasis placed on Christian education in relationship to content and time; the responsibility of home and church to set the kinds of examples youth will relate with and seek to emulate; the importance of cooperation between church, home, school and community to define common goals of morality and ethics, and then the necessity to strive in unison to achieve these objectives.

Because of his training, background, and experience in the field of public education and his concern for Christianity, Dr. Anderson is particularly qualified to speak on the topic.

Dr. Anderson became superintendent of the Grosse Pointe system last year following six years in that capacity at Cleveland Heights, Ohio.

This fourth presentation in a series of Sunday Seminars, sponsored by the Board of Christian Education of St. James Church, is open to all. Further information may be obtained by phoning the church office at TU 4-0511.

Christina Wall Clark Weds Mr. Drummy

Newlyweds Vacation at Montego Bay Following April 6 Ceremony in Bal Harbor, Fla., and Reception at Indian Creek Club

St. Joseph's Catholic Church, Bal Harbor, Fla., was the setting for the Saturday, April 6, ceremony at which Christina Wall Clark and John Leonard Drummy, Jr., exchanged marriage vows. She is the daughter of Mr. and Mrs. William Petzold Clark, of Kenwood road and Bal Harbor. The bridegroom is the son of Mr. and Mrs. John Leonard Drummy, of Lothrop road.

A reception at Bal Harbor's Indian Creek Club followed the noon rites.

The bride, given in marriage by her father, wore Elizabeth Arden's short white Chantilly lace wedding gown, embroidered with seed pearls and styled with a Princess neckline and cap sleeves, and a shoulder length Chantilly lace veil.

She carried a cluster of miniature white orchids.

She was attended by her sister, Marilyn Wall Clark, who selected a turquoise blue parchment silk sheath, fashioned with a sleeveless bodice and trimmed with opalescent beading at her high neckline.

A tiny rosebud caught her cap of illusion veiling and she carried a nosegay of turquoise blue carnations and white daisies.

Thomas Drummy acted as his brother's best man.

The newlyweds will return from a vacation at Montego Bay, Jamaica, to make their home in Grosse Pointe Farms.

Among those attending the wedding and reception were Miss Mary Josephine Clerk, the bride's aunt, of Grosse Pointe Farms, and the bride's brother, Lieutenant William Petzold Clark, Jr., who came from Pensacola, Fla., for the ceremony.

J.D. Owens is planning a hunt in Kuala Lumpur. Want to go along?

Mr. J. D. Owens of Buckingham Road, Grosse Pointe Park: former news correspondent, ex-columnist, world-famous raconteur, professional PR consultant and patron of the Grosse Pointe War Memorial Association.

There's nothing Mr. Owens would rather do than stalk the wily Malay tiger or Africa's elusive dik-dik, especially from the safety and comfort of a theatre seat in the Grosse Pointe War Memorial Center.

Mr. Owens is an avid fan of George Pierrot's Adventure Series, a recent addition to the Center's regular program schedule. He and his family have discovered an almost unlimited variety of cultural, social and recreational activities at the Center, ranging from legitimate theatre and chamber music through bridge clubs and French classes. Mr. Owens is checking into the Gourmet Club and, of course, the Adult Ski Club. He's a War Memorial contributor.

You see, the Center earns about three-quarters of its operating expense, but that just isn't enough; so each year people like you and Mr. Owens—from all the Pointes—join in a Family Participation Campaign

to meet the rest of the budget, so we can continue our full schedule. This year our goal is \$80,000. Any size gift is greatly appreciated.

Want to go along on one of Mr. Owens' "trips"? Great. You've probably already received a Free Activities Pass in the mail. It includes five excellent programs for every member, every age group of your family. This Pass is good only through April 19th, but there are worthwhile events every day of the week, no matter when you come. See for yourself.

We think that once you get acquainted you'll agree a contribution to the Grosse Pointe War Memorial Center is just another way of supporting your own family.

Right J. D.?
Indubitably.

Won't you send your check today to:

ON A QUIET street which leads to the lake, we'll show you a real grandstander. This painted white, farm colonial should really pull them in. Once there they'll see a beautiful step-down living room, large dining room with parquet floor and bay window, beamed ceiling library with fireplace, large kitchen that has been redone, great screened and glassed porch with access to both the living room and library. Four family bedrooms plus two more for

WE ARE PROUD to offer a choice of two properties to you who are searching for a two-family flat. Try our super deluxe duplex on Trombley with an extra lot. For the budget minded we can offer a newer but smaller place at \$37,500.

THIS ONE SPEAKS for itself. Its distinctive appearance from Lake Shore Road calls you inside to see more. Once there you'll see how the house "opens up" from the tremendous entrance hall with a large living room, dining room and paneled library. Upstairs are five family bedrooms and several more for live-in help. The three-car garage is in a separate building with its own chauffeur's apartment.

THE MOST POPULAR . . . tops our list . . . we're sure you will . . . agree with us that this newer colonial in the City containing those four bedrooms with two full second floor baths . . . could be the ideal solution to your shopping problem. This one has a den and a family room. Promise Mom anything but give her a house.

THE ONLY STEP you'll have to take is the one to your phone, if it results in seeing, loving and buying this French influenced home on Balfour Road. Four family bedrooms serviced by two baths are supplemented by two maids' rooms and another bath. Shows as well inside as it does from the curb.

THE STRAIGHT PITCH on this next listing is sure to catch your looking. We'll deliver a "low ball" in the form of a price reduction of \$5500 on this four bedroom colonial in the City. There is a large family room as well as a paneled library in this hot prospect. Well tagged at \$59,500, this is waiting to be gathered in.

by whoozit

Save your tickets . . . for "Meet The Masters" benefit recital, featuring pianist Ruth Buczynk . . . The concert, originally scheduled for April 5, at 8:30 o'clock, in the Grosse Pointe War Memorial's Fries Auditorium, then cancelled because of the curfew following Dr. Martin Luther King's murder, has been re-scheduled . . . It will now be held Friday evening, April 26. Time is the same as that of the originally scheduled event, but there's been a Change of Place: Mrs. Buczynk will appear in the auditorium of Parcels Junior High School and, because the School auditorium can accommodate a larger audience than Fries, extra tickets will be available at the door . . . Recital proceeds, as you know, will be donated to the Summertime Music Scholarship Fund for Pointe high school students . . .

Here's a hint . . . for all of you who plan to visit the six Pointe homes to be opened Sunday afternoon, May 5, for "Living With Art," the second annual tour of local collectors' residences sponsored by the Women's Republican Club of Grosse Pointe . . . Now, we don't mean to downgrade the "art" inside the houses — each collection is magnificent — but we DO want to make certain you don't forget, when you get to Mr. and Mrs. Gayford W. Gillis, Jr.'s home in Merriweather road, to look out at the gardens . . . They are, we think, a true example of "living art" . . .

And here's a hint . . . for families who'd like to get out more often, do things together . . . The Neighborhood Club, in Waterloo avenue, (right behind "The Village"), schedules Family Nights at its new Teen Center every Wednesday evening, from 7 to 9 o'clock . . . All Pointe families with children eight years of age and over are cordially invited to participate . . . Pool, ping-pong and other table games are part of the Club's standard equipment, and refreshments are available . . .

"As you can see," writes Nancy S. Foreman, formerly of Anita avenue, in a letter accompanying a poetic contribution to this column, "this verse was written nearly 32 years ago by a wonderful woman, (I think, my mother) . . . A few years ago, we published a poem by Mrs. Foreman's mother, Virginia Titus Schleicher, under a pen name — and the poet's daughter thinks mother should never have used a pen name, as she is a Very Talented Lady . . . We think so too . . . And we're pleased to print, under her True Name, this time, the thoughts of a then-22-year-old woman, written in September, 1936 . . .

DESTINY

Tonight, I walked alone for hours
In the gathering twilight
And the loneliness of my existence
Beat with a thousand-fold intensity
Against the aching hollow of my heart.
I listened to the angry wind
As it rushed ceaselessly onward
Contorting the branches of the trees
Into arms that begged and pleaded for mercy—
Lest from their very life, they be torn apart.
I watched the waves—as they roared and tossed
In splendid fury—sending gleaming banners
Of silver foam, dashing madly to its death
Against the jagged rocks that lay there,
Waiting for their prey.

I raised my eyes to the heavens and watched
The tattered clouds racing furiously—
Ever onward, to a destination
Even to themselves unknown;
For their journey's end was hidden
In vast swirls of misty grey.
The sullen beauty of the night entranced me—
Yet my heart cried out for peace—
Then as if in answer to my silent prayer
I saw a tiny star in all the mighty vastness
Of the sky—alone yet unafraid—
And with this thought in mind—I found new hope
To face the coming day.

PILFERINGS

While money isn't everything, it does keep you in touch with your children. —Changing Times

Sorting out some recollections on the eve of his retirement as registrar at the University of Massachusetts, Marshall Lamphear remembered a long letter from an applicant who asked a number of searching questions. His last two sentences read: "I understand your college is coed. Can I get a room by myself?" —Brown Alumni Monthly

Nobody knows the trouble we've seen — but we keep trying to tell them. —Mignon McLaughlin, "Atlantic Monthly"

The Wayne State University Board of Governors has accepted a grant of \$248,841 from the United States Public Health Service for "Studies on Human Reproduction and Contraception" to be supervised by Dr. Kamran E. Moghissi, of North Bays drive, associate professor of Gynecology and Obstetrics in WSU's School of Medicine.

ROBERT W. CRORY, of Cook road, executive director of the Engineering Society of Detroit, has announced the promotion of two staff men to newly-created positions. J. DOUGLAS MATHIESON has been named administrative manager and GLENN E. BURG has been named manager of educational and professional activities.

Pointers of Interest

MRS. CHARLES W. BOLTON, OF NORTH OXFORD RD., AND RICHARD MOTSCHALL, OF WHITTIER RD.

By Pepper Whitelaw

Like Stanley and Livingstone, Rowan and Martin, Bolton and Motschall are proving that two good heads are better than one. The last-named two heads belong to Mrs. Charles Bolton and Richard Motschall, brother and sister team who are handling the Austin Catholic Prep School Fiesta to be held on April 26 and April 27 in the school gymnasium, between 2:30 and 9 o'clock on Friday and 11 to 9 o'clock on Saturday.

This is the first time a brother and sister team has undertaken the staggering job of organizing the Fiesta. Dick is working with the Austin Dads' Club, Betty with the Mothers' Club. Both love to work with large groups, (they've had plenty of experience—they come from a family of seven children.

Native Pointers, Dick and Betty devote a good deal of their extra time to Austin. Betty's son, Mike, and Dick's son, Rick, are juniors at Austin this year.

Betty has three other children: Terry, her 14-year-old daughter; Tim, 10, and Billy, 8. Dick has two other children. Rick is the oldest, then come Margie, 13, and Tom, 5, and completing the family circle is "Charlie Brown," an almost human-type Schnauzer.

Things in Common

The sister and brother team have many things in common. Both, for instance, met their spouses while still in school. Betty met Chuck while attending St. Clare School, Dick met Margery at St. Paul's.

Both are very enthusiastic about Austin's Fiesta, which will have a Gay Nineties theme. Ladies will be attired in long skirts and ruffled blouses and

the men will wear red and white vests, straw hats and armbands. The booths will be manned by members of the Mothers' and Dads' Clubs of Austin, some 250-300 men and about 150 women.

Among the varied departments will be a Boutique, where people can purchase homemade bulletin boards, yarn dolls and stuffed animals; a Fish Pond for the toddlers; a Duck Game; a Toy Booth with toys for children of all ages; a Bakery, Soda Bar, Hula Hoop, Peppis Toss, Shuffleboard and Milk Bottle Toss.

Senior Boys' Booth

The senior boys are handling a Pie Toss booth. Dick laughingly says, "This will probably be the busiest booth of all . . . with very surprising targets for those shaving cream pies!" Thomas Misuraca, president of the senior class, is chairman of this booth.

"And don't forget the Golf Putting booth," Betty interjects. "Here frustrated putters can practice and win golf balls at the same time."

Food aplenty will be available. Friday will be sloppy joe, pizza and submarine sandwich day. On Saturday, spaghetti dinners will be added to the menu.

The brother and sister team in charge of the festivities are being assisted by Mrs. Robert Cavanaugh, Joseph Thieman and Abraham Michael, their co-chairmen.

School and Children

Betty and Dick devote most of their spare time to school projects and children, and we're willing to bet that Dick's the only dad who ever took 27 girls camping at a CYO camp! A few years back, the mother who

was scheduled to take the girls became ill . . . so Dick volunteered to step in. Everyone had a ball!

Dick also has been active in the Boy Scouts of America. He founded a local Boy Scout Baseball League some years back.

Both Betty and Dick are bridge buffs. They learned the game from their bridge-loving parents, Mr. and Mrs. John Motschall, when they were just youngsters.

Betty loves to do anything that involves working with her hands. She's helped with handicrafts for scouts, has made wastepaper baskets, bulletin boards and straw bags. She knits and gardens too—you name it, she's made it.

Love Cottage Living

Betty and Dick both love cottage living and spend a great deal of time in lower Michigan with their families when the weather is nice.

Both are very proud of Austin. Dick says, "Do you know that 98 percent of the students at Austin go on to college?" Betty adds, "We have an active, young, interested and interesting group of priests from the Augustinian order. We have 18 lay teachers and 12 priests, with Father Albert Hillebrand as principal and Father Leo J. Burke as prior."

"Why, just three years ago," Dick adds, "Austin had four boys at various Service Academies at one time. Currently, we have two at the Academies and two more applying . . . We're very proud of Austin's academic standing."

Dick and Betty both attended St. Clare school. Then Betty went on to St. Mary's in Monroe and to Barry College in Miami.

Dick went to St. Paul's and then to Xavier and the University of Detroit.

"Oh, let's not forget about two special features connected with the fiesta," smiles Betty.

"We're giving first graders in the area free balloons . . . and thanks to Chuck Muer of the Pontchartrain Hotel, we will have FREE bus service to the Fiesta from 'The Village' every hour: From 4 to 7 o'clock on Friday and from 3:30 to 5:30 o'clock on Saturday."

"And we will bus girls from Dominican High School, Star of the Sea and Sacred Heart Academy on Friday afternoon so they too can enjoy the Fiesta. The boys at Austin are delighted with THIS plan."

The Fiesta sounds like a real family affair . . . Lots of food, lots of games, lots of fun and prizes.

Betty and Dick and their hardworking committee members hope to see you there!

Michigan Roads Among Leaders

Michigan continues as a leader among the states in completion of the national interstate highway system, the State Highway Commission reports.

A status report from the U.S. Department of Transportation shows that as of December 31, Michigan ranked eighth in percentage and seventh in miles of interstate open to traffic.

Michigan had opened 837 miles, or 77.4 percent of its allotted 1,081-mile system.

Oregon had 88.4 percent, Connecticut and Maine, 88.3; New York, 84.9; Wisconsin, 84.3; Kansas, 79.2, and Maryland, 78 percent.

Texas had 1,965 miles, California, 1,351; Ohio, 1,078; New York, 1,039; Pennsylvania, 1,015, and Illinois, 955.

Michigan was second in percentage and fourth in miles of interstate completed to standards adequate for future traffic, a category that excludes toll roads and those interstates requiring more work to bring them up to ultimate standards.

Michigan had 788 miles, or the only state with a higher percentage, six points above Michigan. Texas, California and Ohio had more miles—1,679, 1,024 and 818, respectively—but the amounts represented smaller percentages of their allotted systems.

Nationally, 63 percent of the 41,000-mile interstate system is open to traffic and 49 percent is classified as adequate for future traffic.

In other categories, Michigan ranked 28th in miles of interstate under construction with 72, and 22nd in miles on which engineering or right-of-way acquisition are in progress with 172.

Michigan was also among 21 states in which some form of work is underway on 100 percent of their allotted systems. Nationally, some form of work is underway on 97 percent of the total.

Michigan ranked seventh in expenditures for construction, engineering and right-of-way for completed interstates, spending \$83.7 million since July 1, 1956, but its cost per mile was only slightly above the national average.

KIMBERLY HADLEY, of Lakepointe avenue, is among 255 Northern Michigan University students who will be honored for high academic achievement May 2, at the University's second annual Honors Banquet.

Headlines of the Week

(Continued from Page 1) statement that dropped his earlier reference to "one man on the run."

UNITED NATION'S Secretary General U Thant said Saturday that preliminary peace talks on Vietnam will begin "very soon." Thant issued an appeal to the United States and North Vietnam for a speedy agreement on a place for the talks. He added that further delay would be "most unfortunate" in view of the continuing devastation in Vietnam.

UNITED STATES forces sweeping the area near Koh Sanh uncovered a major enemy arms cache on Saturday and captured it after a brief battle. U. S. officials said that among the stores of arms and ammunition were 5,000 rounds of mortar shells. The discovery came as the war was in a general lull throughout South Vietnam. Ground action was described officially as "light and scattered."

Monday, April 15
TWO AMERICANS and two South Koreans were ambushed and killed on Sunday by North Koreans who attacked their U.N. Command truck half a mile south of the Panmunjon armistice meeting site. The attackers escaped. The U.N. Command called the ambush "a flagrant violation" of the Korean armistice and filed a protest note.

TWO UNMANNED SOVIET spacecrafts accomplished history's second fully automatic link-up in orbit on Monday according to reports received from

Soviet news agency Tass. The agency said the link-up was accomplished by Cosmos satellites Number 212, which was launched Sunday, and 213 which was launched today.

MIDNIGHT TONIGHT is the deadline for filing 1967 income tax returns and the government estimates 18 million Americans waited until this past weekend to file. Returns must be post-marked by midnight tonight although rules have been extended for persons affected by last week's racial violence, including police, firemen and National Guardsmen called to duty.

Tuesday, April 16
PRESIDENT JOHNSON called on North Vietnam Monday to promptly make a serious and considerate reply to U.S. proposals for a neutral meeting site for peace overtures. "As of now, we have had no response or comment from Hanoi, other than radio signals, about any one of the locations we suggested," added Mr. Johnson.

EQUIPPED WITH the best U.S. rifles, South Vietnamese soldiers will soon replace many Americans along the northern frontier and some have already swung into action, an American source reported on Monday. It was considered highly probable that the South Vietnamese will take over Con Thien, the much bombarded marine outpost just south of the demilitarized zone, and Khe Sanh, the combat base in the extreme northwest that was besieged by the North Vietnamese for 77 days.
