The Ones That Didn't Get Away

ONE OF THE GREATEST CATCHES of fish seen in the Pointe in years was brought home on June 10 by CHARLES D. PATTON, left, of 1510 Alter road, and MACK BUMLER of 1097 Lakepointe. Fishing just above the Blue Water bridge on Lake Huron, they caught 17 pickerel and wall-eyed pike in less than three hours. The fish measured from 16 to 29 inches and the biggest one weighed seven pounds. The pair made their catch by deep trolling with pencil plugs which Patton makes himself during the winter. The plugs have two hooks and no bait is used.

SUGAR, last of the rationed necessities of the war era, goes off the ration list... households, hotels and restaurants free to buy without coupons, but are requested to still buy according to needs... still rationed for industrial users... price controls remain. Assurances of larger shipments from Cuba and Java make lifting possible.

JUST AS DETROIT area residents were rejoicing over the settlement of the threatened Briggs strike, 20,000 workers in other plants are made idle... 15,000 Hudson workers refuse to cross picket lines of an office workers' union strike... a sit-down strike at Continental Motors results because the company wants a productivity clause in the contract now being negotiated, and as a check against disciplinary layoffs as a result of previous stoppages. Ford's foreman's strike continues but company says its output has been reduced only two and one-half per cent.

SECRETARY OF AGRICULTURE denies that the recent rise in the price of beef was caused by exports.

THE A. F. OF L. CARPENTERS' STRIKE will be settled on basis of a 20c per hour increase... work will be resumed at once on veterans' homes... painters expected to go back following carpenters.

THE FIVE-DAY general railway strike in France has been settled... the workers get an increase.

TWENTY-FOUR persons were injured when a Trumbull streetcar knocked over a DSR bus at LaBelle and Third. Detroit police say the bus driver failed to stop for red light... no lives lost and only one seriously injured.

PACKARD SETTLES its dispute with its Local 190 UAW... will pay straight 15c per hour raise without free holiday pay but will pay usual double time on holidays worked... retroactive to April 28 with retroactive pay provision implemented by July 11... provides for withdrawal of \$44,000,000 of partial-to-partial pay suits and \$1,765,000 super-seniority suits... provision peculiar to this contract is that only one request for revision can be made in the two years the contract runs... agreement will be submitted for ratification by Local 190 at a meeting at 10:30 a. m. Sunday at Northeastern High School... total cost of the increase, President Christopher says, will be \$2,600,000 annually with 8,000 workers affected.

PICKET LINES WITHDRAWN at Hudson, which had been established in support of office workers' strike and 15,000 men go back to work... company assures that salary negotiations will be resumed today, but CONTINENTAL MOTORS is shut again after company sends home 350 workers on night shift with instructions to report back when notified... union retaliates by placing picket lines against the morning shift.

City Once Again Decides To Quit Salvage Business; To Dismantle Radnor Plant

Everything in Refuse Line to be Hauled to Dump, Making it Necessary to Purchase Additional Trucking Equipment

The City of Grosse Pointe has at last formally decided to get out of the salvage business. At the Council meeting Monday night, June 16, Councilman John Mack moved that the City proceed as soon as possible with the dismantling of the plant at Radnor and Warren and dispose of the remains. The attempt to sell the City's salvageable waste to Detroit junk dealers was a failure. At last reports the City had not yet received the money due it for such waste materials as these parties designed to accept. The actual collection from the homes always was carried on by the City itself but it was hoped that turning over this material to private dealers and the closing of the separation plant might save some money. After the junkmen reneged the salvage plant was reopened on Mayor Netting's orders.

There has never been complete agreement among the council members themselves on whether or not this operation paid. The report of Ernst and Ernst, who made a special examination of this operation, disclosed that a small profit was made in the earlier years of the salvage plant, which mounted to higher figures as the price for salvageable materials advanced during the war. The drop in price of such materials since the war was the real reason the junkmen gave it up after a short trial of a month, which began April 1 this year. As the City will be compelled

Commissioner Begs Relief From Chicken Counting Job

Commissioner of Public Safety Clarence D. Blessed of Grosse Pointe City has become all fed up with the duty of adjudicating the chicken problem in the City. The present chicken ordinance permits the keeping of chickens in the city, under prescribed conditions as to quarters and cleanliness, with the additional border line provision that the flock shall not contain more than 15 birds. Mr. Blessed says he has become thoroughly tired of being called upon in the numerous neighborhood "chicken quarrels," to drop in and count combs. He declines, hereafter, to determine whether there may be 14, (legal), or 17, (illegal), birds in the runway. Beside all this, Mr. Blessed does not believe in anyone having

Humiliation Heaped Upon City Police

Youth Walks Away With Sgt. Ed Trombley's Bicycle Before His Eyes

The Grosse Pointe City police have suffered a gross indignity. As Sergeant Ed. Trombley was working in his garden at noon on Thursday, he happened to look up from his agrarian preoccupations in time to see a husky boy riding off on his, Trombley's bicycle. A loud call failed to stop the hurrying youth. Trombley had to walk back to his home, some distance away, get in his car and start a hunt for the bicycle. He had an idea where to look and in a few minutes was at the station house with bike and boy. The youngster, a boy named Allard of 468 Notre Dame, said he saw the machine and thought somebody had lost it and was going to take it home for safe keeping. The police regarded his story as fishy.

He was instructed to report to the police every day, including Saturdays, for a checkup. Lieutenant Van Beelaere gave directions in easily understood terms. Stealing from the police, police property, from under the noses of the police, was almost too much. Any further complaint about him, Van Beelaere told him, would land him in juvenile court down town.

City to Repair More Streets

After completing its extensive street paving program of last summer the City of Grosse Pointe had a balance of \$53,865.09 left out of the proceeds of a \$300,000 bond issue. The City still has a paving program awaiting, the estimated cost of which will be an additional \$103,000. At the Council meeting on June 16 it was decided to proceed with this program up to the limit of the \$53,000 still available, but to go no farther. The matter was left in the hands of the Carpenter committee to proceed with the order of the streets to be treated and to invite bids for the work. As the committee indicates these streets they will be published for the information of the property owners.

Woods Okays Big Terrace Development

Beautiful New Homes to Be Created in Big Project on Vernier Road

Grosse Pointe Woods will soon have one of the most beautiful terrace developments in this part of the country, to be located on the north side of Vernier road almost directly opposite the Fruehauf School. The project has been developed by L. B. Willeke, architect, whose home is at 1142 Bishop road.

The style of construction will be what Mr. Willeke describes as modified colonial. The buildings will average a story and one-half in height. They will be built in general around an interrupted quadrangle, beautifully landscaped. They will contain 39 family units, each with a living room, dining room, kitchen, two bedrooms and bath. Each apartment will be a complete detached family unit with its own heating plant, oil fuel and air conditioned.

The development is wholly for renting. The promoters cannot tell as yet what the rent will average, stating this depends upon the building costs they encounter.

The project was approved first by the Planning Commission of the Woods Village and last night was unanimously approved by the Board of Village Commissioners, who in addition to their official action individually expressed themselves enthusiastically in favor of the project. It will afford the most welcome relief to the housing shortage in the Woods and will make a substantial addition to the village's tax revenues.

The project has already been approved by the Detroit office of the Federal Housing Administration. Officials there expressed themselves, Mr. Willeke said, as believing it the most attractive development of this nature that had passed through their office. The promoters are ready to go ahead with the construction as fast as materials and building conditions permit.

The property will extend for 365 feet on Vernier with a depth of 314 feet. The presently estimated cost of the whole project is \$325,000.

Old Excavation Ordered Filled

The Farms council Monday night ordered the elimination of a hazard which has produced a number of complaints from residents on the south side of Mt. Vernon. The hazard is in the form of a hole resulting from digging a basement for a house that was never erected, due to material shortages. It is said to have existed since June, 1946.

The excavation is continually partly filled with water and residents have been afraid children might fall in. It is said to be a serious hazard for as long as four days after every rainfall. The owner of the lot was contacted on various occasions by Village Clerk Harry Furton, but took no action, hoping to sell the lot without going to the expense of having the excavation filled. The village trustees Monday ordered that the hole be filled. A number of residents were on hand to add their testimony.

Library Plans Wagon Service

The Grosse Pointe Public Library will start its Book Wagon service the week of June 23. The Library Book Wagon will stop at the Trombley School on Mondays from 10-11 a. m.; on Tuesdays at McMillan and Williams from 10-11 a. m.; and on Thursdays at Touraine and Chalfont from 10-10:45 a. m. and at Madison road from 11-11:30 a. m. This service is given in order to make books readily available for the children who live at a distance from the library. Any resident of Grosse Pointe may borrow books from the collection, which includes books for adults as well as for children.

Tony Told to Stay Off Jefferson Ave. By Supreme Court

Refuses to Extend Stay Granted by Judge Butzel after June 12; Final Disposition of Case May be Months Away

Pierre V. Heftler, attorney for Grosse Pointe Park, received notification from the Supreme Court on June 12 that it had refused to extend beyond June 11 the injunction which Tony the Popcorn man had obtained from Supreme Court Judge Henry M. Butzel on May 27, staying the village from keeping him off Jefferson avenue, in accordance with the opinion handed down by Circuit Judge Clyde I. Webster on May 23.

Tony had sought to stay the whole matter until the State Supreme Court had passed on the issue, which might be many months hence. The Supreme Court had agreed to let him remain on the street until June 11 to give it time to consider whether or not it would make the injunction permanent during its course in the highest court.

A counter argument against the permanent injunction was filed by Attorney Heftler on June 4.

The answer now is no soap, and Tony must keep off Jefferson avenue, nor nearer than 200 feet from it, for the sale of his merchandise to traffic patrons. It was the hazard caused by this kind of patronage which first raised the issue between him and the village.

You Can Call Him Sergeant

It's Sergeant James Furton now. The popular patrolman of the Farms police department was officially elevated to the higher rank Monday night when the village trustees approved the recommendation of the police committee, Trustee George Schlaepfer, chairman. Sergeant Furton joined the Farms force on July 16, 1933. He lives at 387 Kerby road, is married and the father of three sons.

Trio of Hunters Trapped by Prey

An irate driver whose car was shot at by three teen-agers with a BB gun in the Farms on June 15, gave chase and rounded up the trio in the home of one of them. He led the three to the Farms police station, where he reported the offense had happened before. Teh gun was confiscated and the parents of the youngsters were called. After promising to see that justice was meted out, the parents were allowed to escort their offsprings home.

HIDE LIGHTS UNDER BUSHES Some private contractor, or possibly the Park's highway crew, is mourning the loss of three red danger lights. If so they might apply to the Mooney household at 1249 Wayburn. They found three red lanterns that had been thrown in some bushes on the premises.

6500 PERMITS MAILED Approximately 6500 permits for use of the Farms Municipal Pier were mailed to applicants on June 13.

The village trustees Monday ordered that the hole be filled. A number of residents were on hand to add their testimony.

Much-Discussed Hospital Street to Be Renovated

Caroline avenue, which constitutes the southern boundary of the Bon Secours Hospital property between Cadieux and Notre Dame is at long last going to have its face lifted. This short stretch of street has long been in deplorable condition and has been the cause of numerous complaints from patients entering or leaving the hospital and of physicians in daily attendance there and others servicing the institution. A heavy truck bringing supplies to the hospital became stuck there one day last winter. That capped the climax. The street has never had any repairs more than the thin scattering of some cinders or broken stone which seemed to regularly

Water Safe As Pollution Flow Ceases

Hope Springs Eternal for Another Uninterrupted Season for Local Natators

Grosse Pointe beaches were thrown open to swimmers on Saturday, June 14 on the recommendation of Dr. Thomas S. Davies, head of the Grosse Pointe Township Health Department. It was announced early last week that Macomb County had stopped dumping drainage and sewage into Lake St. Clair and that the water was clearing.

The closing of the beaches due to the pollution coming down the lake from Macomb wrought very little hardship on the Pointe swimmers this spring, thanks to the weather. Temperatures of both water and air have been so low that only a polar bear or a foolhardy youngster would consider braving the waves.

A few of the young set have given the police the usual trouble by swimming not only in the forbidden waters, but from forbidden locations, such as the Alger-Museum property. One boy cut his hand quite badly last week when he grabbed a rusty wire trying to pull himself from the water up on the breakwater.

Barring unusually hard rains which might make it imperative for Macomb to again disregard the interceptor sewer and resume dumping drainage into the lake, Pointers can probably expect to enjoy the best swimming season, just as last year. Officials of Macomb county have signified their hope to keep their overflow out of the lake. They will only put their pollution into Lake St. Clair if a hard rainfall proves too much for the interceptor to handle.

Boys Confess To Jamming Police Radio

The long search to find out who was jamming the airwaves allocated to WRDR, Grosse Pointe Township police radio station, has come to an end. Two boys have confessed to causing the interference which has been a considerable headache to the police and the Federal Communications authorities.

Godfrey Munn, 16, of 440 Fisher road, and Charles Knoop, 14, of 420 Madison road, both of Grosse Pointe Farms, have made confessions. The youngsters were picked up on a tip a few days ago and after questioning by Sergeant Elmer Labadie and Detective George Champine of the Farms police, and officials of the FCC, admitted their guilt.

The interference has been going on since last February. Every time officials of the FCC came out to the Pointe to check, the ham radio went off the air. A report has been sent to Washington and official orders as to disposal of the case are awaited. In the meantime the boys have been forbidden to operate without a license.

Mack Widening Plans Approved

A communication was received from the Wayne County Road Commission for the council meeting in the City June 17, asking the council to finally approve the Road Commission's plans for the widening of Mack avenue as it fronts the northern boundary of the City. This was a formality as the details of the widening have long been understood. Prescott L. Brown, of the firm of Mason L. Brown and Son, who is also the consulting engineer for the City of Grosse Pointe in addition to being a member of the County Road Commission said that he had already approved the plans as engineer for the City. The Council formally approved the plans.

Detroit Drain Plan Causing Pointe Floods

Woods Says Culverts Are Blocking Flow of Milk River; Demands Bridge

The three-foot culverts which the City of Detroit placed in Milk river to make a crossing to its dumping ground at Alger avenue in Grosse Pointe Shores, have been inadequate to permit the free movement of the water in the river. There have been resulting stoppages and overflows in Woods village areas.

The matter has been taken up with the Detroit Common Council by Woods Village attorney, Bern and the Detroit Engineer's office has promised to put in an additional six foot culvert.

The Woods village authorities are convinced this will not be sufficient to remedy the trouble and want Detroit to place a bridge over the river at that point. This has been the subject of much correspondence between Detroit, the Macomb County Drain Commissioner's office, and the Woods.

A meeting of the three parties has been arranged for some afternoon next week in Drain Commissioner Harper's office. The Woods authorities are insisting the repeated floodings must be stopped.

Woods to Pave Oxford, Kenmore

A public hearing was held Tuesday night, June 17, before the Woods village Board of Commissioners on the proposed paving of Kenmore road from Mack avenue to the village limits and Oxford road from Jackson street to the limits.

There was no protest made by any resident of either road. Council then passed a resolution for the sale of the bonds for both projects and also for the opening of bids for the work, both on July 15.

The estimated cost of the Kenmore pave is \$21,100 and for Oxford slightly over \$9,000.

The Council aims to have the work completed well before the end of the building season this fall. The estimated cost per individual property owner is about \$275 for each forty foot lot. The Council directed that the engineer prepare the improvement assessments at once.

Roof Wreckers

Farms police received a complaint on June 18 that some boys had climbed up the fire escape at the Country Day School on Grosse Pointe boulevard, torn off five slate shingles and thrown them off the roof.

City Approves Final Plan For Classification of Land Affected by Mack Widening

Report and Recommendation of Zoning Given Blessing of Solons After Full Discussion at Council Meeting

The report and recommendation of the Zoning committee of the City of Grosse Pointe, having to do with the rezoning of the Mack avenue frontage in the City, which was finally adopted on Monday night, June 16, after careful discussion and review, is as follows:

(1) The property located between Cadieux and Loraine avenue, now within commercial district zone, be continued in such zone.

(2) The property line between the east line of Loraine avenue and extending through to the east line of Notre Dame avenue, embracing lots numbered One (1) to Nineteen (19) inclusive, in the Pointe Land Subdivision, to be classified as residence A building zone district, and that the 18 foot public alley adjacent to such lots so numbered be vacated by the City of Grosse Pointe and the land contained therein to revert mutually to the lots abutting on both sides thereupon as provided in the statutes.

Lorraine to Notre Dame avenue inclusive, where property is changed to residence A: Enticements of any structures built within such zone are to face or front upon the front lines of the lots facing Notre Dame or Lorraine avenue and that no garage

openings or driveways are to face or front or open onto Mack avenue. The building department was instructed to issue no permits for buildings planned unless in strict compliance with this recommendation. All public utilities required within such building zone district as amended to be the responsibility of the owners benefited therein and must be provided at such owners' expense.

(3) Land in commercial district zone beginning at a point on the westerly line or rear line of the St. Clair avenue property and extending through to the easterly line of the property on the east side of Neff street to be retained and remain as commercial district zone.

Lot 57, St. Clair Park Subdivision, to remain within the existing zone as shown, leaving the triangular corner at the southeast intersection of Lot 57 abutting thereupon Lot 56 and intersecting St. Clair avenue to remain within residence B building zone property.

Lot 58, St. Clair Park Subdivision, to retain existing zone line to the rear or easterly line of such property as shown on the exhibit map submitted at this meeting.

(4) That no change be made in the building zone district of property between the west line of Rivard Blvd., extending through to the west line of property on University place, such building district zone to remain unchanged.

(5) That the zoning area in the so-called commercial zone district within property beginning at the east line of the Neff street property and extending through to the westerly line of the property on St. Clair avenue in such zone, be determined as a maximum of one hundred feet measured at right angles or perpendicular to the widened line of Mack avenue and such property to include such easement or accessway as may be required for public utilities and service.

In all cases of an existing alley within a commercial or business zone whereby land within such zone is redetermined as residence A or B property rather than business or commercial, such existing alley be vacated by the City, the City expressly reserving easement rights for any utilities within such alley and the land within such vacated alleys to revert to the abutting lots or lands as provided by law but with easement or access facilities provided by the property owners affected and at their expense.

The rezoning of the plot known as the Stalen Farm, still unplatted, which straddles the prolongation of Lakeland between Neff and University, which had been held in abeyance by council at the previous meeting, was again taken up at the Monday night meeting.

The owners were notified that in the future platting of this tract the front hundred feet were to be designated as commercial zone area with the rear ten feet of the 100 foot reservation to be designated as an easement for the servicing of the north and south abutting properties.

Jackson to Head Chest Drive Unit

Richard W. Jackson, 124 Merrilweather, Grosse Pointe Farms, vice-president of Hudson Motor Car Co., will serve as chairman of the Industrial Unit of the 1947 Community Chest drive in the fall, John R. Davis, chairman of the campaign, announced.

Jackson has been active in previous Community Chest and War Chest drives. He is a director of the Community Chest and the Council of Social Agencies. In 1946 he was head of the major manufacturing division of the Industrial Unit of the drive. He attended Detroit University School and received his college degree from Yale University.

The Industrial Unit is one of the three largest units in the Red Feather campaign and includes organization of fund solicitation in all industrial plants in the area.

Traffic School Starts June 23

The Grosse Pointe Traffic School will start its session for this season on June 23. This school is sponsored by the police departments of all of Grosse Pointe and is designed to give automobile drivers needed instruction in safe driving.

The sessions will be held in the assembly room of the Grosse Pointe Park police department.

Kerby Library To Be Relocated

The branch library which was operated in the council room of the Farms Municipal Building, largely for the benefit of children of the Kerby School, will be relocated.

At the May meeting of the village trustees it was reported that while the branch was operating it was sometimes so noisy that the village employees in the adjoining clerk's office found it difficult to work.

The Board of Education was advised of the problem and Monday night it was stated at the village trustees' meeting that the board is willing to cooperate in the matter of relocating the branch.

Consulting Engineer Prescott L. Brown, warned the Grosse Pointe City Council Monday night that any paving program which the City has in mind for this year should be started as soon as possible.

The late season this year, shortening up the period for all outdoor work makes it necessary to begin this year's program as soon as possible to assure its completion within the outdoor work period.

Shorter Season Dictates Haste

The presentation of annual awards Thursday of this week will climax the closing exercises of the forty-fourth year of the Detroit Commercial College, which began with the annual luncheon Tuesday and an all-day program of activities Wednesday.

The forty-fifth year of the College will open Monday, September 8. Applications for admission should be made before June 28. All Divisions of the College will be closed for vacation during July and August.

Applicants should apply at the College offices, 602 Book Building, Washington Boulevard. Yearbook and Syllabus of the two-year course of study in academic and business subjects mailed on request.

City Official Granted Help

Building Inspector authorized to hire assistants; work piles up

City Clerk Norbert P. Neff recommended at the City Council meeting June 16 that an additional man be hired to help out Building and Plumbing Inspector Melvin Beatty, who was appointed a few weeks ago and found his work has piled up on him to the point where he needs more help.

At the time he was named it was understood that extra men would be detailed to help him from time to time, and on this point there was a sharp argument between Beatty and Julius Stork, the Highway Superintendent. Beatty claimed he had not always had the help he asked for and Stork said he had.

Mayor Netting stopped the dispute, saying the Council meeting was no place to wash all the linen, or words to that effect. He said the matter would be looked into.

It was decided to authorize Beatty to employ one or two young men, presumably high school students, to help him read the water meters, which seems to be the immediate bottleneck in his routine duties.

The average enrollment in past summer school sessions at Grosse Pointe High School has been about 600 students.

Five hundred have been pupils regularly enrolled in Grosse Pointe public schools while approximately 50 more attended the parochial and private schools of the community.

In former years there have been about 50 others from various colleges and high schools throughout the country.

Last summer, a foreign country was also represented in the person of a student from the Greek and English College, Athens, Greece.

The old belief that summer school attracted chiefly slow learners has long since been proved a fallacy.

Mr. W. R. Cleminson, principal, stated, "Many students from the top third of their classes attend school because they wish to have something accomplished during the summer."

Summer school enables students to add special courses to their fall curriculum which otherwise would have been impossible.

The summer school term will begin Monday, June 23, and conclude on Friday, August 15.

In past summers it has been impossible to facilitate all those desiring certain courses. To avoid this change of not being accepted, registration should be made as soon as allowed.

Registration will start Monday, June 20, from 2 to 5 o'clock in room 114; Saturday, June 21, from 9 a.m. to 12:30 p.m. and Monday, June 23, 8:00 to 4:00 p.m.

Upon registration, Grosse Pointe residents are requested to pay a fee of seven dollars per course; non-residents, fourteen dollars.

There will be conditional acceptance only of non-residents until 3 p.m., Monday, June 23.

Judge Dismisses Assault Charge

Judge Victor H. DeBaeke quickly disposed of the assault and battery case of Lang vs. Tenbush at a 4 o'clock session of his court on Monday afternoon, June 18. The verdict was not guilty.

Messrs. Lang and Tenbush had had a hot argument over a private business deal on the corner of Kercheval and Maryland on June 7.

Neither man was arrested by the police, although two of the Park policemen had been witnesses from a distance in their scout car of the more or less acrobatic argument. They were not aware that any fight was in progress.

Lang, shortly after the argument, had Tenbush arrested on the charge that he had struck him and thrown him to the ground. There was conflicting testimony on this point but the judge dismissed the whole matter as rather trifling.

VANISHING ACT
 Buell A. Doelle, of 838 Whittier, reported to the police on June 13 that just as he and Mrs. Doelle were returning home about 10 o'clock that night, a heavy set, middle aged woman about 5 ft. 9 in. tall, wearing a long black coat and a babushka over her head, walked rapidly from the rear of their house and disappeared.
 No entrance had been made to the house and nothing had been disturbed.

**"Lap Dogs Vs. Lab Dogs"
 Subject of Rotary Address**

Dr. Mark L. Hiebert, president of the Frederick Stearns Company, was the invited speaker of the day at the Rotary Club meeting last Monday at the Whittier. Doctor Hiebert's subject was "Lap Dogs vs. Lab Dogs." The spirit of his talk was to point out the great service to the development of medical science that dogs and lesser forms of animal life have contributed. The Doctor himself is a well known lover of dogs and is utterly impatient with useless and cruel surgery.
 Contrary to a misinformed conception, only a very small proportion of the animals that are brought into laboratories at any time are ever subjected to surgery. Ninety-eight out of every hundred dogs are used wholly in medical research and this is usually without any deleterious effect on the animal.
 He cited a number of instances where the lives of only a few of these animals had been sacrificed in the discovery of many of the most epochal achievements in the whole realm of medicine.
 The inference of the doctor's remarks was that while the dog is popularly rated as man's best friend it has been in his physical contribution to medical research, usually painless for the animal, that his greatest contribution to man's comfort and welfare has been made.

Boy Swimmers Too Impatient

Boy swimmers throughout the Pointe have been jumping the bathing season like scared frogs off a log. Complaints have come into the police stations from all along the lakefront.

On Tuesday afternoon, June 10, the residents at the foot of Berkshire were alarmed by the cawing of six small boys on a rubber raft. It looked as if some of them were almost too small to swim. The police dispersed the crowd with the warning that the swimming ban had not yet been lifted by the health authorities.

Revelry By Night Disturbs Sleep

The few warm nights we have had thus far in the season have produced a number of complaints from residents living near beer gardens and other places where juke boxes are working full blast. The warm weather brought open doors at the resorts and the open doors have given free egress to a medley of sounds not conducive to a good night's rest for the neighbors. The police have notified a number of such places to keep their doors closed.

Crash Scatters Coin Collection

John Hamilton, aged 53, of 75 Sprout street, Detroit, was in the city police station on Maumee Thursday afternoon, June 12, with a bandage on his chin and a most anxious look on his face. He was fresh from an automobile accident at Mack and Cadieux in which the car he was driving west on Mack got tangled up with a red truck being driven by a woman, Mrs. Jane Hinsen-kamp of 4150 Cadieux, going north on Cadieux.

One or the other of the drivers must have been color blind as each claimed the green light was in their favor. Both were taken to Bon Se-cours hospital where Hamilton had two stitches taken in his chin and Mrs. Hinsen-kamp had stitches taken in her forehead.

What seemed to give Hamilton the greatest concern however was that when the smash occurred several glass jars, well filled with coins belonging to the Disabled Veterans Fund, for which he was a volunteer collector had been broken, and their contents scattered all over the car. The accident had happened on the Detroit side of the inter-section.

Grosse Pointe City police had taken the injured two to the hospital but the Detroit police had taken charge of the cars and contents. The City police set him right on the dual jurisdictions and when last seen he was on his way to locate his car with, he hoped, its contents intact. His immediate objective was the Detroit Accident Prevention Bureau. He promised to let the City police know how his quest turned out and, not hearing from him later, they presumed the disabled veterans were not in for a loss.

OUT OF BOUNDS

Dr. Frank M. Townsend of 15231 Windmill Pointe drive complained to Park police on June 10 that the public was making a picnic ground of a vacant lot across the street from his place. The police were instructed to break up the picnic. The picnickers had gotten out of bounds by about a block and a half from the municipal park.

Claim Violation Of Zoning Law

A delegation of property owners living on Kenmore road in the Woods attended the Council meeting Tuesday night to protest against the occupancy of a small single family house in the 1800 block by two family units.

Some of the more vehement protestants said there were three couples and five children and a grandmother living in the place. Calmer opinion was that the establishment housed two married couples, two children and one elderly woman. Their complaint was that the area was restricted to one family per house. Several of them said they were willing to make formal written complaint.

President Ghesquiere told them the situation would be looked into.

TRUCK STRIPPED

Henry Stephens of 1 Rathbone place, reported to the City police on Thursday that the night before, June 11, he had left a panel truck parked in front of his place and next morning found it stripped of almost everything that could be stolen or pried off. He inventoried his loss at \$113.81.

doctor will be notified. The x-ray takes but two minutes and it is not necessary for one to undress.

Two cars were damaged in a minor accident at Moross and Lake Shore road shortly after 6 p. m. on June 17.

Great Lakes Water

The preservation of the purity of our water is one of the supreme duties of government either local, state or national. It has been much pondered on right here at home where our local health authorities have had to pursue an off-again, on-again sort of policy with respect to bathing in the lake waters. It is an acknowledged fact that this all arises from the dumping of sewage and miscellaneous pollution into the lake. Every last ounce of that matter can be kept out. It is only a question of intelligent, long ranged planning and the willingness to spend a reasonable sum of money.

We were much impressed by reading in the Free Press on Sunday of the work done by one of the country's great industrial concerns to prevent pollution of the water in the Saginaw drainage basin.

Unless the people of this day do what they should do to preserve the purity of the water in our Great Lakes water course, which we inherited as the most beautiful and useful water supply on Earth, we will be damned, and justly, by our children and grand children for all future generations. Nothing in the whole realm of present day planning so closely impinges on the future health and wellbeing of the millions who live along its shores.

The writer recalls driving many hundred miles through southern England a few years ago. Our previous conception of the country had been that of a small county, about 8,000 square miles less than our own state of Michigan, but supporting a population of nearly 40,000,000 people. We had envisaged the usual mess of filth, water pollution, etc., that is the expected accompaniment of crowded American localities. Instead of seeing this we drove for miles on end in a beautiful country side interspersed with water courses as clear and pure as any that ever had their origin in the snow fed streams of the Rockies or the springs of the Pennsylvania mountains. One drive of nearly forty miles along the banks of the Eyr river from Exeter, in Devon, to Minehead on the Bristol coast exhibited men and women fishing for trout and grayling, and catching them too.

In wonderment we asked our chauffeur, a veteran of World War I with the indubitably English name of Stubbins, the name of this great preserve, taking it for granted that this must be a sort of fishermen's paradise reserved for the wealthy few. "Oh! this is all public waters," he said, "anybody can fish here; of course they have to have a license but that doesn't cost much."

Remarking on the pure water we had been seeing all through southern England, Stubbins naively stated "it has to be that way. Anybody putting deleterious matter in any water course any place in all England would be severely punished."

Knowing England's reputation for law enforcement, we raised no further question.

Our own beautiful state of Michigan, surrounded with the most magnificent system of public waters ever bestowed on any people on Earth by the Almighty, is by sheer neglect and indifference destroying its heritage.

The American and Canadian governments are supposed to be wrestling with this problem but meanwhile the destruction goes on with only here and there a trifling abatement. This is not only a question of health, which is the supreme consideration of all public administration, but one of urgent economic importance as well.

If every American who thinks sufficient of this matter would write to our National Department of State, attention of the American-Canadian Great Lakes Commission, and supplement it with a letter to the State Streams Control Commission at Lansing, it might push along faster a vitally needed work.

Coming Show Down

The rapid advance of communism in south eastern Europe which some observers think has a significant coincidence with our pledged aid to Greece and Turkey, seems more reasonably predicated on the age old maxim that possession is nine points of the law. The law in this particular instance being the agreements and pledges mutually exchanged at Teheran, Yalta and Potsdam, and which Russia has studiously and consistently violated since the ink first dried on the signatures.

The Russian strategy is obviously a clever concoction of a social and economic ideology brewed with her own divorce from dynastic despotism and used now as the implement of penetration in other countries, with simple rough shod power politics practiced at Moscow for the building of Russia into a great military and political power. It is a sad turn to the idealistic dreams of the Atlantic Charter.

That our own Government recognizes this discouraging fact is evidenced by our aid already voted to Greece and Turkey in which the significant terms of technical aid and military advice are frankly used.

We have now gone immeasurably farther in Secretary Marshall's proposal that we underwrite a five year plan for world rehabilitation in which our ante would be \$4 billions to \$5 billions a year. To launch this scheme it is proposed by Senator Vandenberg, who approves it provided it is carried out here on a strictly non partisan basis, that a complete over all survey be made of what the world needs and how much we can furnish without imperiling our own domestic economy.

As a corollary to this survey it is proposed that a meeting of the heads of state of the Great Powers, with Mr. Stalin's presence as a sine qua non, be held at an early date. At this meeting every card of national hope or ambition must be placed on the table and binding pledges there given to faithfully carry out all agreed upon decisions.

If Russia should renege on such a proposal, should even refuse in advance to sit in without a lot of preliminary impossible conditions, she would stand self convicted at the bar of world opinion.

The prime object of such a high council of state would be, as always, the securing of an assured and guaranteed world peace. This proposal coming from the greatest single power on Earth, with clean hands and a promised willingness to advance the greater part of the money and materials needed, would be a step compelling world respect.

"Sweet, be not proud of those two eyes,
Which, star-like, sparkle in their skies;
Nor be you proud that you can see
All hearts your captives, yours yet free;
Be you not proud of that rich hair,
Which wantons with the love-sick air;
When as that ruby which you wear,
Sunk from the tip of your soft ear,
Will last to be a precious stone,
When all your world of beauty's gone!"
(Robert Herrick)

Speaking of delinquent children (or if we weren't we will NOW) . . . a woman called to tell us she came home one afternoon and found her ten year old daughter sitting at her dressing table (the mother's, that is) . . . dipping into all the cosmetics in sight. She was about to smear a blobule of mascara on her eyes, when Ma burst in and upset the make-up cart. When she ejaculated, "Maud, what on earth do you think you're doing? . . . the child replied nonchalantly, "Oh! just trying to look like a murderer!"

Not in the realm of delinquency, but certainly under the heading of Queer Goings-On, is this tale told us by the mother of an 11-year-old boy. Since Junior was scheduled to leave for camp on Sunday morning, his parents thought it would be a nice treat to take him to the movies on Saturday night. When they broached the subject, Junior didn't go into any ecstasies. He hemmed and hawed and finally said, "Well, all right . . . but couldn't we go Saturday afternoon instead?" His parents allowed as how they COULD but WHY . . . since he was always so crazy to go at night. Junior then explained that his horoscope for Saturday said it would be dangerous for him to leave the house after nightfall on that date!!!! GET US OUT OF HERE!

Remember those shaggy dog stories? Heard the following recently. During the war a soldier was sent in a jeep to deliver a very important message some distance away from headquarters, through the African jungle. After going some distance he came across an elephant sitting down right in his path. He got out of the jeep and asked the elephant to move. The elephant refused, merely saying, "No, I won't." The soldier remonstrated with him, telling him he had an important message to deliver and any delay might cost thousands of lives. The elephant finally gave in and said, "Well, in that case, all right." He lumbered off the path and our hero went on his way.

A little later, he came across another elephant, also sitting in the road with his back to the approaching jeep. The soldier got out again and repeated his request to THIS elephant, but the elephant wouldn't budge, no matter what. Finally our friend said, "Listen, I met another elephant back there a way and when I told HIM what I had to do, HE GOT UP and let me pass." The elephant gave him a sorry glance as he rose . . . then he said, "DARN HIM for leaving! We were playing bookends."

A friend of ours recently bought a Remington portable typewriter (this is not an ad) . . . with which came a book of instructions and a few examples of Social Correspondence . . . executed on a typewriter, of course. We were highly fascinated with the samples given but when we got to the proper way to break a dinner engagement, we actually rolled on the floor. The following letter, printed in its entirety, is evidently Remington's idea of what the well dressed woman will write in order to get out of a dull evening.

"Dear Mrs. Smyth:
Mr. Jones and I are extremely sorry that we are not able to accept your invitation for the Sixth. We are pledged for a Dinner and the Theater on that date, and lament that the gods see fit to offer us so many more charming invitations than we are able to accept and profit by. Mr. Jones joins me in kind regards and regrets.

Believe me,
Sincerely yours . . ."

Oh brother! Is that a letter of regret or isn't it? We especially like the part about the gods seeing fit to offer us so many more invitations than we can accept and PROFIT BY! No doubt that "profit by" refers to having a place to stuff your face on the cook's night out. Also, that "many more invitations" might be a nice way to put Mrs. Smyth in her place . . . should she think you are just sitting around hoping.

Another sample letter, but not quite as classic, is the one where YOU, Mrs. Jones invite a "Mr. Harrigan" to break bread with you. This one reads,

"Dear Mr. Harrigan, We would be very pleased to have you dine with us on Monday, the twelfth, at seven o'clock, if not engaged."

This tells Mr. Harrigan very little if anything except the bare facts. In short, have you a daughter of marriageable age and therefore don't want Mr. Harrigan if he is otherwise romantically occupied?

If that isn't the case, what does Mr. Harrigan conclude he is supposed to wear if he accepts your invitation? Black tie, white tie, business suit, slacks? So formal an invitation (by typewriter), suggests at least black tie, but how does Mr. Harrigan know? Of course, (if he has a Remington handbook), he can always regret, if in doubt, on the premise that the gods have offered him so many invitations that he doesn't know which end is up. Frankly, the whole thing has us so confused that we are glad we are not a Mrs. Jones, a Mrs. Smyth or perish-the-thought . . . a Mr. Harrigan.

to composure of the world's ills would be called for a show down. It would, if nothing else, reveal to the world for the first time the true alignment fundamentally existing between those peoples who yearn for a real world peace and those who elect to go on with eternal war, punctuated by brief periods of peace.

Air Safety

If some way cannot be found soon to put a stop to the air tragedies which have recently shocked the nation millions of persons who are present or potential air travellers will permanently seek other means of going places despite the alluring advertisements the commercial lines issue.

Concern for physical safety is the primary law with all humans. When a succession of major tragedies occurs, as in recent days, many persons will believe it more than tragic coincidence.

Many queries arise with the air traveller. Have there been too many planes formerly used in war service bought at bargain prices and hastily reconconditioned for civilian uses? Are there too many pilots acclimated to the hazards of war service flying these planes? Has the rivalry for speed caused a stepping up of time schedules to the imperilment of the travelling public?

Despite the investigations that have been made there is still a dearth of satisfying answers to the questions the public asks.

The President is reported to have named a commission to make a survey of the whole matter.

The public wants a report from this commission that will not be of the "hurt no one variety."

Something is to blame. If that blame rests on the human element, whether in making, management or practical operation of the planes, it must be dragged out into the light. Nothing less will satisfy an alarmed public.

Talley Rant

Remember a little guy in the movies called GEORGE K. ARTHUR? He played comic with a big sidekick named CARL DANE. Just at the top of their stride, DANE died. GEORGE could never find another zany partner with whom he clicked, so he drifted away from the films. That was about 15 years ago.

Yesterday, I bumped into GEORGE, or rather ARTHUR—his real name is AETMUR BREST—on Madison Avenue. He was always tinkering at the typewriter, hoping to turn out the big novel, so it wasn't surprising to hear that he is now editor of a little publication called "GO." He is married to a designer in Lord & Taylor's and could hardly wait to pull out the baby's picture . . . "GO" tells what's what New York—theaters, good food places, cafe society chat. It is smartly put together and is amusingly lively.

Last night, I went with PAUL PALMER, an editor of READERS' DIGEST, to a little party at the MESSMORE KINDALL'S. They have a big sprawling apartment over the Capitol Theatre. There is a small private theatre and we were given a preview of THE HUCKSTERS. GABLE does a superb job but why not? All he has to do is look fierce and fascinating—and smooze. If anybody knows how to smooze, MR. GABLE knows how to smooze. I might even go so far as to say that MR. GABLE has taken the essence of the technique of all other smoozers and perfected it. I can hardly go farther.

MR. PALMER—a handsome brute, if I may digress ever so slightly—said that when READERS' DIGEST published the condensation of THE HUCKSTERS they printed, principally, the continuity about the radio business. They disregarded, for obvious reasons, the very best love episodes. A certain clergyman who's so pleased with such an expose of the sordid business world that he reported favorably to his congregation. The letter received by READERS' DIGEST from the clergyman, a short time later, has been filed away between sheets of asbestos.

A family I know owns mines. They feel their obligations and have tried to do something. To that end, they built a kind of model village for the workers. They put up complete cottages with bathrooms, plenty of windows and gardens. They installed community vacuum cleaners and washing machines. Then they stayed away from the development for two months to let the workers settle in.

A few days ago, one of the owners conducted a tour of inspection. The gardens were yards full of tin cans tossed out of kitchen windows. The community electrical appliances were all broken or burned out. In two bathrooms the tubs were receptacles for coal, and in another the tub was full of straw the better to bed down a sow and her litter. Chickens wandered—equally at home—in the kitchen and living room.

I was playing half cent GIN today with MARIE COMBS, wife of the radio commentator. She was boringly repeating over and over, "Gosh, that's GIN," and I was getting just a teeny bit ragging and furious. Her cleaning woman came to the door and said, "Y'all ast me what ah want fer supper. E'n y'all don mind, gimme SMOKED STURGEON." I understand, now, why it is imperative for MARIE to SCHNEID-ER her best friends.

I had a chat yesterday, in the RITZ GARDEN, with DIANA BARRYMORE. I said what's all this about you calling policemen names. She said all that stuff you and I read in the papers about the corner bickering be-

Self-Medication Has Its Limits

By FRED M. KOPP, R.F.H.
You may be one of those people who understand their own symptoms and know what to do about them. Perhaps at some time your doctor has explained to you what certain signs mean, and from there on in you have been doing a bit of self doctoring.

There are limits to this sort of thing, very definite limits. If the doctor has said that certain diet is good for your Anemia, for example, it is well to adhere to his advice. But do not take this to mean that the same diet is to be followed slavishly for the rest of your life. Occasionally, go back to the doctor and find out if the diet still holds good, or if further changes are indicated.

In short, a regular checkup with your physician pays good dividends in health. So does the selection of a trustworthy druggist.

How can we develop native art in its pure pristine moods? If the gentry feel that for their part No nudes are good nudes

As one Gallery Gazer to another, you've probably been impressed by the number of art shows breaking out in our little hotbed of culture. It seems, as if to compensate for our national reputation as the smelting pot of industrial democracy, we have set out to develop a superiority complex about art. And a superiority complex is the most arduous approach to any of the muses. People who go to a symphony concert or an art show because they feel it's the social thing to do, invariably remind us of Artie Kober's story of the two snob sisters who got together for a heart-to-heart talk—and froze to death.

True art is an expression of emotion. The artist's emotional and emotion cannot penetrate the blank wall of a boarded-up mind. The artist has in each picture, a story to tell, in the same way a musician or author has a story to tell. They just choose different media for their emotion. Anyone who has ever sat down to try to paint a sincere picture knows well that it has a plot as involved as any play.

Bearing this in mind, it may not come as such a shock to The Starch to know that some of the greatest art collections in the country are in—of all places—Hollywood. Among actors and actresses tramping through these middle western wilds, we've encountered an almost childlike appreciation of both modern and classic paintings. The art they collect reflects to them a personal experience.

Take the little true story Mary Martin gayly told us of the acquisition of her Degas painting. She'd been working far too strenuously trying to finish up a picture in double quick time to meet a Broadway commitment. In the evenings, she sometimes relaxed by covering the art galleries. One painting particularly held her imagination—a Degas of two French peasant washerwomen, rub-a-dubbing away at the studio. On the evening the film was finally finished Mary Martin came home to find, hanging in her own living room the precious Degas painting with a note from her husband: "You worked harder than they did, darling."

Among owner art enthusiasts we've encountered in show business are Helen Hayes, Hildegarde, Billy Rose, Edward G. Robinson and Gene Tierney, who in her real life role as the Countess Cassini, of the green eyes and auburn hair, is at once the inspiration and desperation of artists who try to capture her beauty. Hildegarde has recently had a sculpture of her head done by Gwen Lux from our own Arts and Crafts, who has made such a sensational debut in New York this season, capturing one prize after another. Watching her a few years ago, sculpturing the prize winning head of our teacher, Guy Palazola, it took no fortune teller to predict Gwen Lux' future as a leading American sculptor.

If you have Billy Rose Fever from reading his stimulating columns (especially the "Variety" sagas in which he is strictly himself) you'll not be surprised to hear he is one of the most sensitive art collectors in the big town. He has as "house guests," as he puts it, Benton, Hals, Renoir, Rembrandt and a horde of other distinguished names. Ari is perhaps a little like a love affair. Could that be why they refer to her followers as art lovers? It takes two to make an affair. It takes two to make an art lover—the artist and the admirer. Usually it turns out to be a lifelong attachment. And art seldom cares where the lightning strikes or whom it strikes. The fact that it appeals to the common man can never make art common.

HIT-AND-MISS PARADE The lucky dogs of New York owners have a new hobby—having their dog horoscopes read. In fact, many dog fanciers now pick their pets with reference to the stars on the date and hour of their birth. Our Corky comes up with a most propitious reading, under his dog stars of

Laird Beamer Makes Bow at Country Club

First Debutante of Season Presented at Tea by Her Mother, Mrs. William Lloyd Beamer of Grosse Pointe Boulevard

Grosse Pointe's first debutante of the season is Laird Beamer, who was presented to society on Saturday at a tea in the Country Club from 4 to 6 p. m. Laird was introduced by her mother, Mrs. William Lloyd Beamer of Grosse Pointe boulevard. The deb made her bow in a long dress of corded white silk woven with hairline black stripes. The gown had a square neckline, fitted bodice, cap sleeves and a bouffant skirt.

Laird's father presented her bouquet, which was a colonial one of sweetheart roses outlined with bachelor buttons and decorated with a lacy frill and looped with ribbon.

Mrs. Beamer wore a flowered dress of silk jersey, printed in rose, green and purple on white. The gown was fashioned with a square neckline, cap sleeves and long draped skirt.

For the tea, the Country Club was decorated with baskets of pink peonies and roses and blue delphinium. The same flowers banked the mantel.

The tea table in the dining room was centered with the flowers, and silver candelabra held lighted tapers at each end of the table.

Mrs. Beamer was assisted by Mrs. Cassius G. Selden, Mrs. Alvin G. Sherman, Mrs. Winslow Howarth, and Mrs. John W. Fleischer.

Assisting Laird were Patricia Baumgarten, Marjorie Watkins, Ginny Hebb, Joyce Skelton, Joan Rockwell and Ruth Duffield.

The deb had as her houseguests for the party Connie Thompson of Concord, N.H.; Caroline Gouverneur of Rochester, N.Y.; Mary Ellen Brown of Boston; and Doris Dahlen of St. Louis. All the girls are Laird's classmates at Bennett Junior College.

Society News Gathered from All of the Pointes

From Another Pointe of View

by Jane Schermerhorn

In society departments... saying "wedding" during the month of June is dangerous...

This year has been no exception... with society tempers bordering on the hair trigger type... what with at least four of the most important brides... being from out-of-town...

Which makes it all the more difficult to get the wedding details... all the more hazardous to time the arrival of the wedding pictures for Sunday's paper...

OUT OF TOWN BRIDES

This week-end... all the society reporters will flock to Akron to guide their own cameramen in the informal shots to record for posterity and week-end reads... the beauty and ceremony of the William Clay Ford-Martha Firestone nuptials...

Three other lovely out of town girls... who will be coming to Detroit to make their home, some day, figured in society page art this past week...

They were: Virginia Ranlet Durand of Rochester, N. Y. ... now Mrs. William Warren Sheldon...

Sally Warren of Milwaukee, now Mrs. Wendel W. Anderson, Jr. And Elizabeth Worcester of Winterport, Me. ... now Mrs. Frank J. Sleden, Jr. ...

AS ADVERTISED

Two wedding thoughts occur to us this June... With a breath of relief... we realize... that in all our years of writing about the veil of French illusion which extended the full length of the bride's sash train... we have never had a bride left waiting at the church...

But there was a long time before we could take in stride having the whole wedding story in type... and IN the paper on Saturday morning (though the ceremony was to take place Saturday AFTER-NOON) for Sunday's papers.

We remember a cancellation or two... but it occurred conveniently early enough and these occurred so long before the actual wedding date... that the stories were never written... And the only disposition made... was to forget through silence.

WEDDING GUESTS

The other thought... beautifully expressed, we thought, by Free Press Society Editor Marguerite Riley at the time of Henry Ford's death...

Is how much all will miss his gallant figure at his favorite weddings and receptions... And who is there... to take his place... as the inveterate wedding guest? ... Gentlemen (of another generation) who could vie... are David O. Hamilton... and Bob Tannehill...

FATHERS CLUB

The young fathers of the Pointe have been having quite a social time of it... as they meet in the halls of Harper... Boasting to each other about the most beautiful babies in the world...

We know of at least three fathers... who could belong to this club in just the past few days... Art Rohde... Ned Skae... and Bill Joy. But to be more formal...

Mr. and Mrs. Arthur J. Rohde (Virginia Rebaut) announce the birth of a son, Arthur Jr. on June 12... Mr. and Mrs. Edward A. Skae (Jean Derrick) announce the birth of a daughter...

Mr. and Mrs. William M. Joy (Patricia Schlotman) announce the birth of a daughter, June 9...

JUNIORS TO DANCE AT GPYC

Ann Stahl is the junior chairman at Grosse Pointe Yacht Club, deep in fun plans for the College Home Coming party scheduled for this Saturday evening...

It will mark the first get-together of the college set since the close of halls of learning... And sons and daughters of the members... will be on hand... to plan still more summertime gaiety... at the beautiful club on the lake...

ALL AROUND TOWN

Men About Town: The dashing racing commissioner... Lewis L. Bredin... leaving a party which feted former Tiger catcher Birdie Tabbetts... and looking dashing as ever... carrying his umbrella, British style, as he walked...

Carl Larsen... at the Wonder Bar... and we hear, he'll soon wheel a fabulous foreign made automobile from his garage... he has owned a long line of other country cars.

PERSONAL APPEARANCES

ANNE FORD didn't change her reputation for being one of the best dressed gals in America when she appeared in that lovely delphinium blue evening gown recently. It was a Carnegie model, the skirt of satin with a bodice of blue lace over flesh colored chiffon. That shade of blue is particularly becoming to Mrs. Ford, but I've yet to see her wear anything that wasn't becoming.

PEG FARR was wearing a smart black crepe dress at a recent "shindig" with an adorable white crownless hat bound with black velvet. Pale pink roses on the front of the "off the face" brim were nodding "Howdy" in the same friendly way as their wearer, and the black chenille veil was an added touch of hot-cha.

ANNIE WOODHOUSE'S elfin face was surrounded by a black cartwheel straw hat when last I saw her. She was wearing a striking gown of cerise crepe with a printed design of black geometric figures and her long black suede gloves were an addition to the smart picture she made.

PILFERINGS

LEONARD LYONS tells of the following—Bing Crosby was en route to New York recently. He left his drawing room during a stop-off in the evening, and walked along the platform. The train conductor who was standing on the platform told him: "We got a real big celebrity on this train." . . . "Yeah? Who?" asked Crosby. The conductor said: "Bim Crosslin." The next morning the conductor told Crosby "You didn't fool me for a minute. I knew all the time you were Bim Crosslin. Would you do me a favor?" . . . "Sure," said Bing. . . . "If my wife ever knew I had Bim Crosslin on my train," said the conductor, "she'd never forgive me if I didn't get an autograph." Bing obliged and signed "Bim Crosslin."

When FRED ALLEN was reminded that his was the only program on which Al Jolson didn't guest-star this year, he said: "That's so that Al will have something to look forward to next season."

ALFRED HITCHCOCK, the famous movie producer, is also well known as a gourmet. He dined at a French restaurant in New York recently and told the waiter: "We're going to start with some Creme de Velaille Sultane, and then some Supremes de Sole Champenoise. After that some Noisettes d'Agneau aux Primeurs. With that we'll have Asperges Froides Sauce Antiboise and Pommes a l'Anglaise. We'll also have some Coeurs de Laitues Momosa and an order of Le Biscuit Glace Montequieu." . . . The waiter turned to leave and Hitchcock added: "And a cuppa kawfee."

Pointer of Interest

MRS. FERRIS FITCH OF MERRIWEATHER ROAD

By Olive H. Henry

It was natural that Mrs. Fitch should turn to painting as a means of expression, being the daughter of the well known artist, George Hodges, Sr. She grew up in a household that was the gathering place of many artists, and she laughingly remarked that she and her six sisters rarely sat down to read or knit but that some artist would ask them "to hold that pose."

Mrs. Fitch studied at the Art Students League and the National Academy of Design in New York. Among her teachers were Louis Mora, Paul Vincent Dumand and George Bellows. Due to her father and his friends she was greatly influenced by "the old school" of painting.

She returned to Detroit with the desire to have a career in commercial art. Her first commission was to design a page to be used in the New York, Chicago and Detroit theatre programs advertising a chemical product. At this point Cupid entered the picture and that was the end of the commercial art career. Mrs. Fitch says that she knows that she would never have been a great artist and that her career as a wife and mother has been so much more worthwhile that she has never regretted her decision to give up commercial art for matrimony. Her five children were the inspiration for many pictures during their growing up period.

For the past four years, Mrs. Fitch has been on the board of the Fine Arts section of the Michigan Academy of Science, Arts and Letters. She is a charter member of the Grosse Pointe Artists Association and some years ago when they exhibited at the Neighborhood Club won several blue ribbons. She has also exhibited her oils, mostly landscapes, in Detroit, Grosse Pointe and Ann Arbor, and has sold several. Mrs. Fitch feels that the greatest progress will be made by putting into practice by painting, one's understanding of the fundamentals of art.

During the war she put aside her painting and devoted herself to serving the soldiers. In the spring of 1942 the Grosse Pointe Hostess Corps was formed and Mrs. Fitch was asked to be chairman of the Grosse Pointe area. In two and one-half years Mrs. Fitch billeted between 1200 and 1300 servicemen. The majority of these were serving in the R. A. F. and the Fleet Air Corps. They came from England, Australia, New Zealand and Canada. She felt

that the real need was for those boys to meet and know American people in good American homes and that it would result in mutual understanding and tolerance between the British and American boys and help to make the future peace. All during the war her own home was filled every weekend and many of the boys returned to their Grosse Pointe billets when they had the opportunity, even after they had left this vicinity. One of Mrs. Fitch's guests returned from Pensacola to spend a seven day leave in her home.

Mrs. Fitch is well known for her love of children, not only her own but other people's; this is her first interest, after her family, needless to say, and then come painting and gardening. Her great grandmother and grandfather, with their Indians, blazed the trail from Detroit to Pontiac. She remembers her grandmother telling of being chased by wolves in the country which is now Royal Oak. Her father lives in the home which has been in the family for 65 years, and owned the first automobile in Oakland county, a "Searchmont."

With Mrs. Fitch's background it is easy to understand why she may be classed as a "doer" and how she has not only made her own life interesting, but helped others to be, also.

REUNION

"I really should look more wicked," she said to herself as she peered into her smudged purse mirror for perhaps the fiftieth time that day. "For a bold adventuresome on her way to have cocktails with an old flame, I look—well—practically suburban. Still, considering I've been married 20 years, I've kept as young as I could what with hair dyes and chin straps and not thinking too much."

Where her friends had faded and sagged she had hardened and crystallized. Her soft brown hair was now jet; her soft curves were angles and controlled planes; and her soft pucker-pink lips were large and shimmering raspberry shapes now.

It was almost 25 years since she'd seen Alan. Twenty-five cautious, disciplined, orderly years of wifehood and motherhood. George, her husband, and Georgie, her son, were sleek, comfortable and well-oriented, like contented, cream-fed cats purring in the sun. She had done a good job. They were happy; and now this chaotic disturbance, this return of Alan into her life. Alan, a well-known explorer now, as demanding and selfish and exciting as ever probably.

"Dora," he'd written, "I shall be in town Thursday, the fourth, for a lecture. Meet me at Joe's for cocktails at 5. Alan." Just that after 25 years.

Her taxi was drawing up to Joe's murky front door now. It was 5:20. She began to feel frightened and silly, but she held her head high as she walked in. The place was dark and crowded and very smoky and noisy. She elbowed her way to a little table

she looked up again he was talking to a very pretty young girl. They laughed suddenly and unannouncedly.

Dora threw a dollar on the table and pushed her way dazedly to the door. She had a terrible yearning to see George. He, at least, would never think she had changed beyond recognition.

She sank back against the cushions of the taxi and gave the driver the address of George's club. Nothing was lost. Alan hadn't recognized her, or she started to tremble a little, or had he?

She sat still and tense pretending to scan the wine list. Now, now his eyes were coming to rest on her. This was the moment! In a second he would be pushing his way through the jostling crowd, smiling and waving. Her heart pounded. Little flames of excitement darted through her. She waited, hardly breathing—then she knew his eyes had traveled past her unseeing. Anger flooded through her and something else that was almost like relief.

The waiter stood in front of her. She ordered a martini automatically. His eyes still searched the room. People milled past, in and out of the door. Her martini was brought and she sipped it slowly and numbly. Suddenly he got up and started for the bar. She looked hastily away. When

Hattie Carnegie has arrived in town! Not in person, but she's certainly making her "presents" felt as well as "smelt" at KOPP'S. Her new cologne, "Four Winds" can be had in three sizes; \$2.00 size, the atomizer-top bottle for \$3.00 and the 16 ounce bottle for \$5.00. "Four Winds" also comes in a bath mixture and body talc. For brides, Carnegie offers a dream package consisting of a bottle of her famous perfume (in the blue box) nestling on a sterling silver tray . . . all wrapped in filmy white net and tied with a gold cord in which are entwined two gardenias. This is only \$12.75! Another charming gift for your favorite bride is the large powder box, which when opened reveals two white satin pillow sachets tied with blue ribbon. This holds "Carnegie Blue" famous "bead" bottle of perfume and two nosegay of posies decorated with lace bows, only \$10.00 . . . Besides the array of Carnegie bath oils, (singly or five in a box), skin sachets, deodorant creams and "Cologne Concentrate," KOPP'S also carry the viddy new and viddy chic Carnegie lipsticks . . . gold-wash with double jewel chokers or "rodium" . . . that looks exactly like silver but will not tarnish. These are \$10.00 and refills can be had for \$1.00. Believe me, a visit to the Carnegie section at KOPP'S will keep you smell-bound!

Of course you've been waiting for that amazing post-war gadget, the "Wire Recorder." Well, you don't have to wait any longer; you can purchase same at GRINNELL'S right now. The whole thing comes in a small compact red leatherette bag of the "overnight" type and costs only \$149.50 complete. In case you don't know, you can record anything from the baby's first "da-da" to an hour long symphony . . . all on a small spool of wire! If you want to preserve what you recorded, you can, and play it for your great grandchildren a hundred years from now. If you get bored with anything you've recorded, you simply use the same spool over again to record something else. Fascinating? A good thing for your husband to dictate his correspondence over and keep the secretary off his knee. Also, your young fry would love one in College to record lectures for future homework instead of peering over the shoulder of the guy in front of him!

While you're in GRINNELL'S . . . be sure to look at the new television sets. You won't want to live without one.

You don't need television to see that QUEEN CLEANERS do the best 'girl durn' cleaning in these parts. I was about to say they clean ANYTHING and everything that isn't nailed down . . . but that isn't quite accurate, because they DO clean what is nailed down. Your rugs, for example, never need leave the comfort of your happy home. They can be QUEEN-cleaned on the floor without a smitch of inconvenience to you. Also, if you want anything stored for the summer, this is the time to call QUEEN, the King of cleaners.

The GROSSE POINTE FLORISTS looks a little empty these days, but don't let that fool you. The summer cut flowers are going out as fast as they come in and the green houses are making ready for the planting of those beautiful fall plants for which "Jimmy" is so famous. If you hurry and you're lucky, you may still be able to get one of these heavenly looking geranium plants called "Better Times." They are a pure American Beauty shade and will do wonders for your porch.

Something brand new has been added at HAWTHORNE HOUSE and if you don't try it, you're not a Class A hostess. I refer to the most delicious rolls called "Buttercrust." They are "dinner" size and will add considerably to the chic of your next party. And speaking of parties, don't overlook those thin pepper-mint wafers that HAWTHORNE HOUSE has again. They come in mouth-watering pastels . . . and taste every bit as good as they look. Do try the "wintergreen." Also in the party mood . . . they have delectable petit fours; tea cookies, chocolate chips and a new raisin cookie on the "chewy" side. And if you're hors d'oeuvres minded, HAWTHORNE HOUSE can supply you with better-than-homemade miniature sandwiches, both open and closed face . . . but never two-faced.

Henry Stephens was his brother's best man.

After the ceremony, a small reception was held in the Sweeney home. The rooms were decorated with bowls of white summer flowers.

Queens to Meet in Mills Race

'Stormy Weather', 'Blitzen' Matched in Toledo Thriller

Both boats have great ocean records; will meet again in Port Huron Macinac event scheduled to start July 12

By FRED RUNNELLS Two ocean queens, Freddie Temple's "Stormy Weather" and "Blitzen" co-owned by Ernie Grates and Murray Knapp, will be pitted against each other for the first time in next Saturday's Toledo Yacht Club's popular 70-mile Mills Trophy Race around the Western end of Lake Erie.

Both ships had great racing records in ocean racing before coming to the Great Lakes. "Stormy" has won Bermuda, Fastnet and trans-Atlantic races, five Miami-Nassau starts, finished first in both Nassau and Havana races last winter.

Blitzen's record shows victories in the Bermuda race in 1938 and the Havana and the 2,400 mile Honolulu races in 1939.

Since coming to the fresh water "Blitzen" has received the winning gun four times in the Port Huron and Chicago-Mackinac races, taking the overall prize once in each event. She has been in three Port Huron-Mackinac races and was first around the course each time but was forced to take second place last year on corrected time to Charlie Buysee's "Last Straw."

The Mills race will give local sailors a chance to compare these two sea queens, but regardless of which one wins, it will be a nip and tuck affair, barring accidents, all around the long distance course. The loser will have a chance to redeem itself three weeks later when these two wind wagons set sail for Mackinac in the Port Huron-Mackinac event which starts July 12 off of Gratiot Beach in Lake Huron.

Although the Stormy Weather-Blitzen scrap will be the feature of the Mills race they both will have to watch a hot cruising fleet, which includes such champions as:

Wilfred (Toot) Gmeiner's N. Y. 32, "Apache," two time winner of the Mills race in 1942 and 1943; Clete Welling's "Vitesse," another N. Y. 32, winner in 1944; "Last Straw," owned by Charlie Buysee;

George Nauman's 52-foot yawl "Estralita" the 1940 winner.

John B. Ford's "Royono" will be the scratch boat of the fleet and the biggest ship in the race and most likely will finish first. Being scratch boat "Royono" must give time to every boat in the race and probably will be topped from her top position on corrected time.

Fred Ford Jr.'s beautiful "Persephone," resplendent in her new shiny black paint job, is very much in the running for top honors and may spring the big surprise of the day.

You can't forget Clare Jacob's "Revelry," Ledge Mitchells "Soubrette," winner of the Bayview Yacht Club's regatta in the cruising division last Saturday, and the three new Mackinacs, Charley Beck's "Hostess," Dave Sios "Kathmar," and Wilfred McGuire's "Kandau."

Although the Mackinac class has received a drubbing in the first two D.R.Y.A. regattas this season, it must be remembered they are brand new boats and their skippers and the crews are just getting used to them. It is quite possible any one of the three may sail off with the top honors next Saturday.

Detroit will be represented in the racing division by four eight meters, Perce Darnell's and Clyde Palmer's "Pintail," Bob Kerr's and Eddie Wunsch's "Shamrock" and Gordie Saunders' and Bruce Tappan's "Armidia."

Most of the fleet will leave Friday for Toledo and be inspected by the race committee Friday night at the Toledo Yacht Club headquarters for the race.

Tied for Lead in Class E Baseball League

Members of the Grosse Pointe News baseball team that is tied for the lead in the Class E Grosse Pointe Baseball League are, standing, from left to right: COACH BUZZ CRONIN, GEORGE KYPROS, DANNY BURKE, BARRY MUNRO, ALLAN BRYANT, DICK O'CONNELL, and COACH BOB GOVIN. Kneeling are: MANAGER JOE FROMM, JIM THAYER, DON WILLIAMS, BILL WINKLER, DICK RYDBERG, JIM BARKER, and BOB HAFFER. Not pictured are: Joe Hipfel, Vince Schoeck, Bayard Johnson, Bob Sabo and Coach Tucker Hawk.

Graduation Grabs Stars

By FRED RUNNELLS Probably not since the days when the late Kenesaw Mountain Landis, former baseball commissioner, freed 90 "baseball slaves" several years back, has any one organization faced the predicament that Grosse Pointe High School will face come the fall semester next September.

Twenty-six stellar athletes will receive their diplomas on Thursday, thus ending their high school athletic careers and dashing the Blue Devils' hopes of retaining the Border Cities League All-Sports Trophy for the 1946-47 season. The school has won the trophy for the past two years.

Football will take the biggest loss with the graduation of Ed Isbey, Earl Brabb, Dan Beck, George Cherpelis, Harry Garman, Johnny Rummel, Dick Wuerker, Jerry Thiede and Nick Sertis. All were regulars on last year's team and it makes for a difficult job for Coach Ed. Wernet next season.

Graduation will wipe out all but one of the Blue Devils' championship basketball team. Only Tom Willson will return to the court next winter, but he will graduate in January, thus leaving Coach Wernet with a "Kelley Green" squad to battle for top Border Cities League honors. Leaving are: Bob Olson and Paul Grubbs, winners of the Grosse Pointe News All Star team awards, Ed Isbey, Don Graham, Johnny Rummel, George Mantho and Ray Sawusch.

Swimming Coach Frank Banach already has placed his order for an extra large supply of crying towels due to the fact he is losing three ace free stylists in Bill Kildow, Michigan State High School 100 yard free style champion; Cobby Bartlett and Fred LaFerte.

Coach Banach's track team will take almost as tough a rap as the football team when Beck, Isbey, Campbell, Cowan, Redmond, Fraser, Gall and Russell don the cap and gown this June.

Coach Larry Westerville will have a tough job in filling the spots left vacant by Paul Grubbs, Bill Penoyer, Don Broadbridge and Tom Willson. This may seem like a tough rap for the netters but when you think back to last June when the team lost the services of its five top boys in Andy Creamer, Butch Skau, Ax Jermal, Bob King and Jim Kennedy, and still tied for the Border Cities League and the State championship, one has little fear about next season. Westerville seems to have extremely large sleeves from which to pull top notch tennis players. There are probably plenty of good boys just itching to take a crack at B. C. L. opponents.

Coach Pat Kaulitz's baseball team get off the easiest of all by losing only three players, George Mantho, John Rummel and Ray Sawusch.

Pete Klaver and Dave Bogle will have to bid goodbye to the school's crew after this summer. They will still be eligible for competition during the summer and will take part in the National Rowing Championships sponsored by the Detroit Boat Club this coming July.

Bad Weather Stalls Annual Country Club Net Tourney

By FRED RUNNELLS Inclement weather during the past week threw a monkey wrench into the Country Club's tennis tournament and as the result very few matches have been played since the first two days of the event.

In the Junior division the youngsters were a little more handy than their elders and the Boys' and Girls' singles tournament was completed along with the Boys' and Girls' Consolation doubles tournament.

Woodruff and Barnum became the Consolation girls' doubles champions by defeating O'Leary and Zimmerman, 6-2, 6-2, in the finals.

Smith and S. Phelps won the boys' doubles championship in the Consolation tournament by defeating Hamilton and Sutherland, 6-2, 6-4.

After drawing a bye in the first round of the girls' singles tournament, A. LaFerte swept through five matches to win the championship. In winning, she defeated B. Barnum in the second round, 6-0, 6-1. In the third round M. Phelan went down to defeat, 6-0, 6-9, before LaFerte's powerful game.

In the quarter finals LaFerte had trouble with Stewart and was forced to go three sets before earning the right to enter the finals against M. Haggerty. The scores were 6-3, 3-6, 6-4. Haggerty and LaFerte gave the spectators a good close match to watch when they went three sets with LaFerte coming out on top, 6-4, 4-6, 6-2.

The boys' singles tournament reached its climax when Hester defeated Murphy in three sets for the championship, 3-6, 6-3, 6-1. In the finals Hester defeated Smith 6-2, 6-2, while Murphy was extended by Bob Edgar, but won after a bitterly fought match. The scores were 6-4, 3-6, 6-3.

In the Women's doubles only one match was played this week, that being between the M. Tiedeman and J. Waldo team and Mrs. Ford and Caulkins, the former combine winning in two sets, 6-2, 6-1.

Only two matches in the Men's singles were played, P. Thurber defeating J. Danaher in the first round, 6-1, 6-0. In the other match J. Chapin defeated B. Stroh in the first round, 6-2, 6-1.

Two matches were played in the Men's doubles. McClure and Holley defeated R. Dykema and W. C. Goddard, 6-6, 9-7, 7-5, in a thriller in the first round.

The one match played in the second round saw the Warren-

Thurber combination continue its winning way by downing Ford and Grawn, 6-1, 6-0.

In the Mixed doubles three new scores were posted. Mr. and Mrs. Hodges advanced to the second round by defeating P. Thurber and A. Stringer, 8-6, 6-0. R. Dykema and Mrs. Jordan went into the second round of the tournament by defeating F. LaFerte and S. O'Leary, 6-2, 4-6, 7-5, in one of the closest matches to date in the event.

Mr. and Mrs. W. E. Ford and Mr. and Mrs. D. Simmons both drew byes in the first round, and squared off in their first match of the tournament with Mr. and Mrs. Ford coming off the winners, 6-3, 7-5, to advance to the semi-finals.

Four matches were played in the Women's singles tournament. A. Stringer advanced to the semi-finals by defeating S. O'Leary, 6-4, 6-4. O'Leary earned the right to play Stringer by defeating Mrs. Loud, 6-1, 6-4, in the second round.

Mrs. E. T. Giancy went into the quarter finals by defeating Miss M. Tiedeman, 6-2, 6-3.

Mrs. Lewis and Mrs. Bloom squared off in their first round match, with Mrs. Lewis coming off the winner in two sets, 6-2, 6-2.

If the weather permits the tournament should reach its climax in all events over the weekend.

BANK ANNOUNCES CHANGE The Grosse Pointe Bank announced Wednesday that in cooperation with Detroit Banks it would be closed Wednesday afternoons from now until further notice.

From Joe To You

By Joe Fromm Bayard Johnson, catcher for the Grosse Pointe News baseball team, celebrated his 15th birthday a week ago Tuesday by collecting two hits in the game against Tom Boyd.

Last Monday's baseball game between Monroe and Grosse Pointe High School was rained out just before it was ready to begin. Frank Banach, athletic director, while waiting a decision to call it off, said, "If the rain keeps up, it won't come down."

Joe Caterino of Wyandotte, right now is the best athlete in the Border Cities League. To show an example of his athletic prowess, just look at his record this spring. Caterino played baseball all spring and without any training or actual competition placed second in the 100-yard dash and fourth in the broad jump in the regional held at Monroe.

In a Class E Grosse Pointe Baseball game a week ago Tuesday a bad accident happened. Malinasky, playing first base for Harper Auto, was very badly spiked when a baserunner from Kiwanis accidentally stepped on his ankle, requiring treatment in the police station across from the field. Malinasky had his foot on the bag and pulled it away. The runner went into the bag and Malinasky put his foot back where he had it, right under the runner's foot.

Now that the baseball season is over for the three high schools in Grosse Pointe, I would like to thank Dick VanGoetham, the coach of St. Ambrose, for helping me to secure information on St. Ambrose games. I would also like to thank Ray Huettnerman and Don Simpson of St. Paul for their help on St. Paul games. Thanks, fellows!

LANISING, June 13—The Border Cities League is well represented by athletes here in Wolverine Boys' State. Tom Willson, Tom Dewey, and John Jervis represented the lettermen from Grosse Pointe High. Royal Oak has track man Don Miller; Jim Duvall, baseball and basketball, and Tommy Dorsey, baseball, football, basketball and boxing. Monroe has Jim Eldridge and Herbert Scogg of basketball and swim-

Scores 22-0 Diamond Win

St. Clare Team Swamps Bob's Drugs; Gragg - Scherer Finally Beaten

Scoring two runs in the first, seven in the third, one in the fifth, four in the seventh, two in the eighth and six in the ninth innings, St. Clare C.Y.O. shut out Bob's Drugs, 22 to 0, last Saturday to move into a two-way tie for second place with the Wolverines in the Grosse Pointe Baseball League, Class B.

St. Clare collected 21 hits off Gene Egan over the regulation route and scored its 22 runs with the aid of 11 errors committed by Bob's Drugs.

George Neirnick limited Bob's Drugs to six hits to score his shut-out. First Baseman Jim Bingham led the St. Clare attack with five hits in six times at bat. Team-mate Frank DeDekker collected four hits in six times at bat.

Ray MacRae collected half of his team's hits, getting three out of four for the lost cause. Gragg and Scherer Lose

The Grosse Pointe Woods Business Men squeaked out a 4 to 3 victory in a 12-inning pitching duel between Ernie Roberts and Larry Broquet to hand Gragg and Scherer its first defeat in 16 starts. G. and S. won 15 straight games last year in winning the Grosse Pointe Class B championship and had started out this season with a victory.

The winning run was scored after two were out in the last half of the 12th inning. Larry Broquet allowed G. and S. 11 hits while striking out eight and walking one to receive credit for the victory.

Ernest Roberts, the losing pitcher, allowed five hits and walked two and struck out 19 in eleven and two-thirds innings. The Business Men committed three errors as against G. and S.'s five.

Moceri Team Wins The Joe Moceri team made an impressive start in its debut in the Grosse Pointe Baseball League last Sunday by defeating Bob's Drugs, 3 to 2, behind the four-hit pitching of Ray Lingeman.

Both teams scored twice in the first inning and then the game settled down to a pitching duel between Lingeman and Lou D'Angelo until the eighth, when Ed Hahn scored the winning run. It was Hahn who drove in Moceri's first two runs with a screaming double.

Hahn was the batting star of the day getting two hits in four times at bat, both extra base blows, a double and triple. Moceri seemed troubled with first game jitters and committed three errors as against Bob's Drugs none.

Gale-Like Winds Buffet Fleet in Bayview Regatta

By FRED RUNNELLS Heavy winds and seas dealt out a pasting to both ships and sailors last Saturday afternoon when a 25-mile-an-hour Sou'wester that puffed up to 40 miles swept Lake St. Clair and ripped and tore at rigging and canvas and forced several of the 81 starters in the Bayview Yacht Club's annual regatta out of the races.

Mother Nature didn't pull her punches as the wind snapped the spar of Hal Howe's six meter "Dodo," broke the rudder cap on Jimmy McGregor's "Balquhider," snapped the foremast of "Lady Gay" a staunch schooner, and made match wood of the lower starboard spreader on Perce Darnell's "Pintail."

Bill Nagle's "Host" suffered a ripped main and Cap Johnson's "Spookie," a big cutter, ripped her spinnaker on the first leg of the 19 mile triangle but finished the race with her working canvas.

Harold Waldo and his crew were picked up when his cat boat capsized on the windward leg home. Frank Perron, crewing for Andy Carnegie in one of the cat boat races, slipped overboard. Carnegie put about and rescued his pal, but was too far behind and quit the race.

"Blitzen," co-owned by Ernie Grates and Murray Knapp, queen of the Detroit fleet, lost her spinnaker on the first leg of the race. She finished first in the Cruising A division but was forced down to third place on corrected time behind Ledyard Mitchell's "Soubrette," which won his first regatta of the young season, and Charley Buysee's "Last Straw."

Clare Jacobs' "Revelry," Toot Gmeiner's "Apache," Wilfred White's "Tigriss" (up from Vermillion, Ohio for the regatta), Clete Welling's "Vitesse" and Cap Johnson's "Spookie" finished in that order.

Andy Langhammer and his crew sailed the pants off "Rambler VII" and gave the three new Mackinac's a shellacking again. Wilfred McKuire's "Kandau," Dave Sloss' "Kathmar" and Charley Cook's "Hostess" finished in that order.

Freddie Temple sailed his eight meter "Thisbe" to its second straight D. R. Y. A. victory over Bob Kerr's and Eddie Wunsch's "Shamrock" and Mill Gross' "Venture" and "Pintail" DNF.

Dr. Carlyle Wilson's "Solenta" took a nip and tuck battle from Jimmy Grant's "Sprig," skippered by George Van, Detroit Times Yachting editor, by 57 seconds. "Challenge" finished third.

"Albacore," a yacht of the new Pilot class, owned and sailed by Jimmy Cuilen, won the Barnacle Trophy awarded annually to the boat that makes the best corrected time of all yachts entered in the race.

"Albacore" is 33 feet lang and sails in the cruising C division. Her feat was remarkable in the fact that she whipped bigger and better known boats like "Blitzen," "Apache," "Soubrette" and "Rambler" VII.

The little boats of the fleet took a beating and many turned back to their home ports before crossing the starting line.

Laird Aherns led the Lightnings home first with a bit of conservative sailing and kept his tippy little craft on an even keel through the gusty winds.

Ted Kuhn got back in the championship groove by taking the "L" class but not until after he had a busy time staying ahead of Dr. Chris Smith's "Skimmer" sailed by the writer. Kuhn won by a scant minute and a half over the twelve mile course and only because he gambled on a reefed mainsail throughout the race. This bit of strategy paid off on the long six mile windward leg to the finish line while Dr. Smith and his crew flew everything the most would take. Smith is leading in points for the D.R.Y.A. "L" class championship as the result of his first place in the Memorial Day regatta, in which Kuhn placed third.

Other winners were: "Mistress" (Al McIntosh) in the 30 square meter, "Joal VII" (Al Grundy) in the 22 square meter, CK team (individual Maurice DeClare), JK Free-for-all won by F. Houghton, "Nancy Lee" (Milton Powers) in the C class.

Kid Bits

By Mary Prevo

The setting for the SENIOR PROM in Grosse Pointe-high school was a charm spot of the DEEP SOUTH. In this garden of dreams, no fairer maidens nor more gallant men ever danced to such heavenly music...

Others dancing in this land of enchantment were Dottie Lander and Bob MacKenzie, Lou Ellen Marks and Alex Berdy, Izzy Zimmerman and Dick Stahl, Marilyn Gates and Ken Beraw, Joan Young and Hunter Stair, Marilyn Bower and Bruce O'Neill, Betty

Happy lads and lassies were recalling memories of past school days over at BARBARA WARBLE'S and JIM FIKANY'S too. ANITA FRAZIER, PAT HALLY, SHIRLEY HEYMES, ALCY CAMMANN, LORNA BYRNE and JOAN WALSH were also hostesses at post-graduation parties. JOE ALFES, DIANE TRIPLET, MARIAN VERKEYN, PAUL KELLY and ROGER BOILEAU complete the list of party givers after this most memorable occasion.

Getting back to the G.P.H.S. senior prom, we hear that still another place of jollity afterward was the HORSELEY home. BUD was with Sandy Britt, Barb Stoerkel was with Phil Skillman, Sally Dalton with Sandy Malcomson, Lois Riech with Bob Essert, Margie Stoerkel, Joan Kirkland was there with Lee Walker, Jean Collinson with Rich Winkler, Kathie Strek with Doug Krieger and Alice Neville.

The same group met at SANDY BRITT'S after the Horseley party, and still later went over to PHIL SKILLMAN'S.

Rounding up the whole evening for JIM BROWN and his crowd was that stupendous breakfast put on in the Brown home on McMillan road. Seated around the table were Jim and Margie Stoerkel, Sandy Britt and Bud Horsesley, Barb Stoerkel and Phil Skillman, Lois Riech and Bob Essert, Sally Dalton and Sandy Malcomson, Joan Kirkland and Lee Walker, Kathie Strek

Boys to Cover 8,000 Miles In Five Weeks Motor Trip

Eighteen Pointe boys are part of a group leaving this Friday, June 20, for an exciting trip to the Canadian Rockies and the Pacific Northwest. They will be gone five weeks, returning on July 25.

Chet Sampson, former Navy officer and member of the teaching staff of the Pointe school system, will be in charge of the trip. The boys will travel in four new station wagons. There will be 32 in all.

Each boy will have a sleeping bag and most of the nights will be spent in national or state parks. The boys also do most of the cooking themselves.

The trip will cover 8,000 miles and five American National parks and five Canadian National Parks will be visited. The Pointe boys making the trip are:

Bob and Bill Bokram, Hank Wilson, Barry Munro, Harvey Reyst, Phil Droll, Bill Hamilton, Ray Hughes, Stu Ward, Doug Ramsay, Phil Robertson, Don Dr-

and Doug Krieger, Pat Gullberg and Dick Phillips.

Places were also marked for Joyce Schreiber and Randy Zeeb, Alice Sellars and Rob Phillips, Sallie Slocum and Don Graham, Ellie Hewitt and Bill Penoyar, Betty Smith and Don Carozze, Sallie Brady and George Morrison, Mary Ellen Alice Neville and Whity Haigh and Alice Neville and Buster Knope. (That really sounds like a jolly folk put on!)

Sunday morning, when the wonderful senior prom was but a memory lingering in the minds of all the gay attenders, FLORENCE ERINGER entertained the clean-up committee at a breakfast of scrambled eggs, coffee cake and bacon in her home on Mt. Vernon. The gang included Jack McGrae, Bill Siebert, Nance Weed, Barb Elliot, Jack Wilson, Lorne Norton, Don Lewis, Sue Rogers, Minnie Hewitt, Shirley Davis, Joe Hipfel, Kyle Worley, Joanne Brown and Walter Joachim.

Latest birthday news is that of BOB ESSERT who turned 17 last week-end. Dr. and Mrs. Paul L. Essert planned a surprise dinner, buffet style for Bob and invited Lois Riech, Marge Stoerkel and Jim Brown, Joan Kirkland, and Lee Walker, Jean Collinson and Rich Winkler, Marge Bots and Doug Krieger. Others arriving at the Essert home on the evening of the 14th were Barb Stoerkel and Phil Skillman, Joyce Schreiber and Randy Zeeb, Marjorie Rennie and Bill Kildow, Sandy Britt and Bud Horsesley and Bev Martin and Gene Stebbins.

The kids gave Bob a beautiful wrist watch and a gala spirit prevailed at the party. Many trekked out to Eastwood later in the evening.

IGNORES STOP SIGN; CRASHES

Dorothy W. Owens, of Mount Vernon, G.P.F., driving a '46 Plymouth east on Charlevoix Monday afternoon, struck a car being driven north on St. Clair by John A. Hannum of 21824 McCormick, Detroit.

Hannum had failed to stop at the sign. Both cars were badly damaged and the Owens car could not be driven away. The Hannum car got it on both sides by being driven against a fire hydrant, which was also damaged. Hannum got a ticket for failure to stop at sign.

Slattery, of Boston, Mass., former Trustee of Wellesley College; and Mrs. Vesta G. Peeke, of Alexandria, Va., a Wellesley graduate of the class of 1889, now a bright and young 82, who spent 40 years of her life in Japan with her husband, where she raised her family.

The Rev. Fr. Edward Sweeney officiated at the 10 a. m. rites.

Rosemary's gown was in the Victorian style, of ivory satin with a bustle of duchess lace and a full-length train. A tiara of orange blossoms held in place the fingertip veil.

The bridal bouquet was of white orchids and stephanotis.

Mary DeRidder was Rosemary's maid of honor and her bridesmaids were Winifred Chartier, Virginia McLinden and Ann Marcano. All four attendants were gowned alike in heaven blue taffeta, with sweetheart necklines and bustles. The maid of honor carried a bouquet of pink carnations and the honor maids carried French bouquets of yellow daisies.

John McLinden was his brother's best man. Bertram Chartier, Joseph Marr and Dr. Joseph Cahalin seated the guests.

A reception was held at the Whittier following the ceremony.

For her daughter's wedding, Mrs. Chartier chose a melon colored gown designed on Grecian lines, with which she wore a matching hat and chartreuse accessories. Her corsage was of bronze orchids.

Bill's mother, Mrs. McLinden, wore an aqua gown with matching hat and accessories and a corsage of talisman roses.

The police had no difficulty in picking up an English pheasant that had apparently been well mangled by dogs and was dead tired. He was minus his tail feathers, which gave him that strange look.

The police turned him over to Harry Rust's aviary at 17530 Jefferson avenue for protection.

KOOLSHADE® SUN SCREEN will make it delightfully cooler!
KEEPS HEAT OUTSIDE - LETS IN LIGHT WITHOUT GLARE
Put an end to sweltering in rooms on the sunny side!
KOOLSHADE keeps your rooms cooler... keeps you comfortable! It's a bronze fabric (made like a tiny Venetian blind—as fine as insect screen) that stops Sun Heat outside your windows. Lets in the breeze and abundant glareless light. Doesn't obstruct the view. Inexpensively installed like ordinary screens and keeps out insects, too. Enjoy this summer in KOOLSHADE comfort! Phone for demonstration.
