Dr. Davese explains that nothing is being sacrificed by the two-week jump and that the clinics are being scheduled when they are because of the encroaching warm weather and its inevitable onslaught of the dread disease. More information will be offered in subsequent issues of the NEWS, but the Health Department urges Grosse Pointe residents to take note of the forthcoming schedule and plan, accordingly, to have their polio shots on one of the three above-mentioned dates.

The wider the track... the steadier the stance... the better the ride!

Slide in behind the controls of this gorgeous automobile, pull away and feel what happens—or doesn't happen—at the first curve or corner. Less lean. Less sway. Wide-Track Wheel design is the reason. No other car, only Pontiac, has it. The wheels are five inches farther apart. This widens the stance but not the car. You're steadier, balanced, more secure. Narrow track cars can't match it. This is a big year for Pontiac—with many more to come. It can be your big year, too. Get a bright new Wide-Track Pontiac from a dealer and take it out for a drive today.

Bicycle Safety Contest Planned

The School Safety Officers of the Pointe and Harper Woods are preparing their annual program for the school children's bicycle safety contest.

The officers will be visiting schools to remind the children to brush up on their bike safety rules, and to put their two-wheelers in top shape for the contest.

This phase of the program will be carried out about the last week of April, and beginning the first week in May, the inspection of bicycles will take place.

The school safety officers are: Park, Patrolmen George Blair; City, Sgt. Douglas Alford; Farms, Patrolman Joseph Miller; Woods, Patrolmen Jack Mast and Donald Collins; and Harper Woods, Patrolman William Maier.

Prizes will be awarded to the children who qualify, at the conclusion of the inspection program.

\$100,000 Estate to Go To Adams' Texas Wife

An estimated \$100,000 estate left by the late James D. Adams, also known as Amason, will go to Mrs. Molly Amason, 54, of Waco, Tex., who according to a ruling made by Probate Judge Ernest C. Boehm on Wednesday, March 18, is the legal widow.

The judge rendered his decision following a hearing in a suit filed by Adams' second wife, Mrs. Corrine Adams, 48, of 320 Moran, who sought to determine the heirs to the estate.

Mr. Adams, a Detroit manufacturer, died on August 25, 1956.

During the hearing, it was brought out that Adams legally changed his name from Amason in 1946, for business reasons, but used his former name for social contacts.

Judge Boehm based his decision on the "preponderance of evidence by Mrs. Molly Amason" that she had not been divorced from him before he married again.

Mrs. Amason testified that she and her husband were married on July 12, 1927, in Waco, and that two years after their son, James D. Amason, Jr., was born, her husband left home.

Mrs. Adams said she met her husband in Nashville, Tenn., in 1933, and they were married in 1935. He told her that he had been married previously, had a son and was divorced, she said.

Mrs. Adams has two daughters by Adams, Mrs. Betty Engelgau of Port Huron, and Mrs. Joyce Rowe of the Moran address.

Mrs. Amason said in court that she had never at any time been served with divorce papers, and further, when she and her son came to Detroit in 1955, they stayed at a hotel

with Mr. Amason for three days. At that time he told her that he had another family, but that he had not received a divorce from her.

Mrs. Adams was not available for comment, as to whether she will appeal Judge Boehm's decision.

thorne, won sixth place. Over 200 exhibits were entered in this category. Rudolph's exhibit concerned X-ray production.
Repeat in Biology
A repeater from last year's contest, Philip Dulmage, 255 McKinley, won 10th place in the biology division where over 400 competed. His entry dealt with Ultra-Violet Radiation. Last year his exhibit, "Alpha Strep" won seventh place in his division.
All of these students, accompanied by parents and their science teachers, were honored at a banquet in downtown Detroit last weekend. Each winner was awarded a plaque, engraved with his name and details of the occasion.
Won Five Last Year
Last year, Grosse Pointe also had five prize winners, one of them being adjudged the best of all entries in the fair. This was Kenneth Kurtz's entry in the physiography division, "Fossils of the Cincinnati Arch."
Qualified observers stated that while the quantity of exhibits was obviously somewhat higher this year than last it was also true that the quality of workmanship and scope of scholarship was considerably improved. Thus, they felt that the five local winners were most deserving of recognition because they had won in the sternest kind of competition.
Many other students from the Grosse Pointe Public Schools entered the contest. All made a splendid showing and upwards of 20 brought home blue or red ribbons denoting the fact that their exhibits rated an honorable mention.
Behind each of these deserving students, who worked many hours perfecting their projects, are devoted parents and dedicated teachers. All are deserving of commendation for their outstanding performance in this competition.
Robert's teacher at Pierce is Bruce Westling. The head of the junior high school science department, Alfred Harris, instructs Donald at Parcels while James Anderson of the Pierce faculty is Ramsey's teacher. At Grosse Pointe High School, Kenneth Cook instructs Rudolph in physics and Howard Thompson is Philip's biology teacher.

desires of individual property owners. The councils did not act on a majority wish of these people, he said.
He pointed out, as an example, that since Mrs. Trinity wanted her property to be entirely within Harper Woods, her wish will be respected.
The City Administrator said that State statutes permit boundary changes between communities, through mutual resolutions passed by the councils of the cities involved.
He said that the change will solve administrative problems, such as levying of taxes, police and fire protection and other city services, and so on. In the borderline situation, there is a tendency towards duplication of these services, he said.
The owners involved in the border shift, Mr. Lange said, will be notified when the resolutions have been adopted by the two councils, after which time will be allotted to pay outstanding tax bills, special assessments, and so forth, owed to Harper Woods, and the Woods, in Mrs. Trinity's case. The debts must be paid in full before the individual's property line is shifted.
No time has been set for the presentation of the resolutions Mr. Lange said, but as soon as they are prepared, the two councils will study and act on them.
Killing time is just another of many forms of success-suicide.

It's often said that "a dog is man's best friend". He is a companion to your youngsters, guards the security of your home, brings father his slippers, and generally adds to the warmth of living.
But more seriously, a savings account, too, can be a faithful friend—to your whole family. A program of steady savings provides a bulwark against misfortune. It makes dreams of travel, a home,

Veteran Detroit Banker Retires

A. Guy Ropp, senior vice president of Manufacturers National Bank of Detroit, retires under the Bank's retirement plan on March 27. Mr. Ropp began his banking career in 1913 with a national bank in Columbia, South Carolina. He came to Detroit in 1917 and together with Glenn F.

A. GUY ROPP

Turnbull and the late Eugene W. Lewis, started the Industrial Bank of Detroit, pioneers in consumer banking in Michigan.

In 1940 this bank's name was changed to the Industrial National Bank, which, in late 1955, was merged with Manufacturers National Bank. At the time of this merger Mr. Ropp was president of Industrial National Bank. He resides at 1250 Whittier Road.

14 Students Pass Merit Test

Fourteen students at Grosse Pointe High School have successfully passed the second test in the National Merit Scholarship program, making them finalists in the country-wide competition.

Each will receive a certificate of merit stating he "Has Demonstrated High Potential for College Achievement by a Distinguished Performance on the Nation-Wide Selection Tests for Merit Scholarships in 1959."

The scholars are Michael Brady, Barbara Browne, Lindsey Crooks, John Davidson, William Dennes, David Gillis, Carl Jernegan, Claire Langston, Peter Mitchelson, Virginia Pear, Joyce Reuter, Judith Schuknecht, Sharon I. Smith and Robert Stiefel. Their names are automatically circulated among all College Board schools.

Officer Tickets One of Gang

Two Grosse Pointe City officers, suspicious of the actions of a group of boys clustered at the rear of Wrigley's Market, 17410 Mack, at 10 p.m. on Monday night, March 16, attempted to question them.

The youths took flight—the policemen gave chase, and apprehended one of the gang caught in traffic in the middle of the Mack island. The boy gave his name as Kenneth Miller and said he lived at 5817 Marseilles.

He stated he was 17 years old—but that was the extent of the information he gave out. He refused to answer questions about the group's intentions or identities.

A ticket for being a disorderly person was issued Miller, and he was left to tell it to the judge.

Conant Foreign Language Needs Compared to GPHS

Ed. Note: This concludes our series of four articles dealing with a comparison of the Grosse Pointe Public School System (as interpreted by Dr. H. Leroy Selmeier) and "The American High School Today," as viewed by Dr. James B. Lish in his recently published thesis of the same title.

Dr. Conant, in his comprehensive report, believes that the ideal high school situation should provide a tuition-free summer school program, both for needy repeaters and the academically-ambitious.

In analyzing Grosse Pointe High School's summer program, Dr. Selmeier notes that the session has never been tuition-free, pointing out that the intent has been to set a fee at which the basic costs of instruction could be met without resort to those funds used for the program the remainder of the school-year.

Indeed, he says, because of increasing costs and a desire to maintain as low a fee as possible, an increasing subsidy has had to be provided from the regular school budget in recent years.

Dr. Conant has stated that, in his opinion, two years of

any foreign language, are inadequate and so argues for schools to provide third and fourth year classes, regardless of the size of the sessions.

Interestingly enough, he says at the same time that inasmuch as the major purpose of electing a foreign language is to develop a mastery of same, any individual having difficulty in the first year's study should be advised to drop out.

To date, in Grosse Pointe High School, a fourth year of foreign languages has never been offered—except in the case of Latin. However, it has just been announced that, beginning next fall, a fourth year in French will be offered, in addition to third year courses in Spanish and German (also being introduced for the first time.)

REPORTS VANDALISM

Jay Krimmel, 17, of 19701 Kings court, told Woods police on Sunday, March 22, that someone smashed the rear window of his father's car, parked in front of the house. He said he discovered the damage as he was about to use the car.

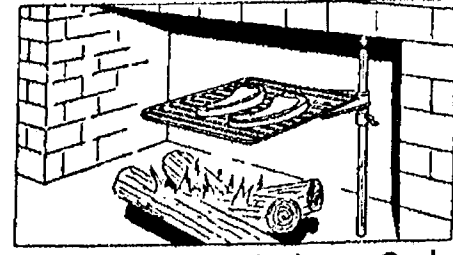

Dr. Selmeier emphatically states "We cannot share Dr. Conant's position of forcing students to drop the study of foreign language because of the initial difficulties. While the average may be in his favor, we have seen so many pupils overcome such difficulties that we prefer to maintain our American attitude of open opportunity to prove your merit."

The final recommendation (there are 21 in all) that Dr. Conant makes in his report is the organization of homerooms for the purpose of developing

an understanding between students of different levels of academic ability and vocational goals—so as to make them significant social units within the school.

Such a system has been incorporated in Grosse Pointe High School for nearly 30 years, according to Dr. Selmeier, with the homerooms representing a cross-section of pupils within each grade. As he points out, theoretically, the membership of the homeroom remains as a unit throughout the three years of the senior high school.

He considers that the greatest need in the community is that council meetings should be held in the evening at 7:30 or 8:00 p.m. instead of 5 o'clock. That way more people would be interested in local government.

*Incumbent.

CITY COUNCIL: 4-year term. No salary. Vote for 3.

He is active in Civil Defense—Auxiliary Police (Detroit) and in Defer and Pierce PTA. He considers the greatest needs in his community to be: (1) adequate civil defense program; (2) to continue the pay-as-you-go capital improvements program except in the cases of extreme emergency; (3) the preservation of the

property at the foot of Three Mile drive (former U.S. Army Anti-Aircraft installation) "as is" until such time as a poll of the residents can be taken and which will indicate a use that will satisfy the majority of the residents.

*STANLEY L. FILDEW, 1105 Harvard road, age 62, was educated at the University of Michigan and Harvard Law School. He has been an appointed member to the Grosse Pointe Park Merit Board, and to the Grosse Pointe Park Council. This can only be accomplished by a greater and much more closer relationship with all the various civic organizations in the community."

CHARGA-LOAN

... exclusive at **DETROIT BANK & TRUST**

Member Federal Deposit Insurance Corporation 55 convenient offices

CHARGA-LOAN IS A NEW KIND OF CONTINUOUS PERSONAL CREDIT THAT LETS YOU CHARGE MONEY AT DETROIT BANK & TRUST JUST LIKE YOU CHARGE CLOTHING, APPLIANCES AND OTHER PURCHASES AT MANY DEPARTMENT STORES!

Once your Charga-Loan is approved, it gives you these wonderful advantages:

1. Provides quick cash in lump sums for taxes, medical bills, household expenses, emergencies, anything!
2. Lets you borrow and re-borrow up to your credit limit simply by mailing us a deposit request.
3. The money you request is deposited in a checking account for you. You may use it at any time just by writing checks against your account.
4. Regardless of your outstanding balance, you pay a regular fixed monthly payment which you determine for yourself according to your ability to pay.
5. As each monthly payment reduces your loan balance, the credit available to you increases.
6. You are charged only one per cent a month on the unpaid balance of the actual amount of money borrowed.
7. You get free insurance coverage that pays your loan in full in the event of death.
8. You make only the first application. There is no waiting after that because your credit is always pre-approved.

HERE'S HOW CHARGA-LOAN WORKS
Determine the amount, from \$25 to \$200, which you can pay monthly on your Charga-Loan. Multiply this by 20 and you will have the maximum amount of continuous credit you may use. Each month you will repay an amount equal to 1/20 of your maximum credit regardless of the amount borrowed.

If you can pay monthly ...	You can have a Charga-Loan up to ...
\$25	\$ 500
30	600
35	700
40	800
45	900
50	1,000
75	1,500
100	2,000
150	3,000
200	4,000

FOR EXAMPLE . . . if you decide you can pay \$50 a month, your maximum credit available would be \$1000. If you used the full \$1000 in the initial loan, then made 6 monthly payments of \$50, you would have an unpaid balance of \$700, plus the small interest charges. You could now borrow up to \$300 more by simply sending us a deposit request for that amount. Each month you will receive a monthly statement that shows interest charges, loan balance and credit available.

Dow-Ottaway Rites Solemnized Saturday

Daughter of Dr. and Mrs. John P. Ottaway, of Touraine Road Wears Cameo Ivory Taffeta and Embroidered Alencon Lace for Ceremony

A small Florentine cap of passementerie frosted with baroque pearls and paillettes was borrowed from her mother's wedding costume by Jane Ann Ottaway when she spoke her marriage vows Saturday in Grosse Pointe Memorial Church to Peter Anthony Dow.

The daughter of Dr. and Mrs. John P. Ottaway, of Touraine road, wore a Renaissance gown of cameo ivory silk taffeta blended with Alencon lace. A rose pattern was etched over the Empress bodice, outlining in petal motif the batteau decolletage and brief sleeves.

The bouffant skirt featured an accent of Alencon lace in a back fan shaped panel which deepened into a chapel train. Her cap caught a waistlength veil of illusion and she carried Eucharis lilies and stephanotis.

Mrs. David B. Stackpole (the former Alice Jane Hooker) came from Providence, R. I., to be matron of honor. Her maple silk linen dress had a sweetheart neckline and an empire waistline. With it she wore a matching headband and carried narcissus.

Dressed like the honor attendant were the bridesmaids Mrs. Michael B. Moskow, of Chestnut Hill, Mass., and Mrs. Peter Ashurkoff, the bridegroom's sister.

Bryden M. Dow was his brother's best man. They are

the sons of the Douglas Dows, of Seminole avenue.

In the usher corps were Stuart Dow, another brother, John P. Ottaway, Jr., the bride's brother; Carl Eckert, Barret Wayburn, Peter Ashurkoff and Frederick Fordon.

For her daughter's wedding and the reception at the Country Club Mrs. Ottaway chose a dusty rose satin gown with matching accessories and cymbidium orchids.

Mrs. Dow was in Kelly green satin with a tiny matching hat trimmed with gardenias. Gardenias also formed her corsage.

When the newlyweds left for Sanibel Island in the Gulf of Mexico the new Mrs. Dow was wearing a cobalt blue and black checked suit with matching blue accessories.

They will make their home in Sloan drive.

Pointer Reports on 50th State From Experience

Editors Note:
The NEWS is grateful to Mrs. Virginia Dorian, of 275 Roosevelt place, for her firsthand knowledge of our 50th state, Hawaii. She and her family spend part of every year in Honolulu, where they have a home in the suburb of Wai'alai-Kahala.

For more than fifty years, the people of Hawaii have been actively, earnestly, hopefully and determinedly seeking Statehood for this mid-Pacific territory and now they have it. Politically, economically, culturally and in terms of population—the Hawaiian Islands were amply qualified for Statehood.

Politically they have had Territorial Government since 1900. (The annexation of the Republic of Hawaii to the United States was in 1898.) They have had county government almost as long. Honolulu is an incorporated city and county of more than 340,000 people. The record of self-government is good.

Economically Hawaii is commercially prosperous. Their

revenues are such that each year they pay more in taxes to the Federal Treasury than any one of a number of States. Hawaii is growing steadily and soundly. Unemployment is low; new jobs and new businesses increase.

Large amounts of Mainland capital are being invested—proof of the confidence Mainland businessmen have in the present and future economy. Hawaii will be able to sustain the additional cost of Statehood with no strain on its budget.

Culturally, the public and private education are good. The public school system rates high nationally. Private and parochial schools are sound, well administered, well taught and well attended. The oldest school west of the Rocky Mountains is in Honolulu—Punahou—an elementary and high school.

The University of Hawaii has an international reputation. In other cultural aspects: churches, libraries, Parent-Teacher Associations, fraternal, social and religious organizations, Hawaii can say with truth and pride that it measures up to the States. They boast a notably low rate of illiteracy, and a notably high rate of voting at all elections.

Hawaii's civilian population exceeds 575,000 and is growing steadily. Twenty years ago no economist would have dared predict the fantastic post-war growth of Hawaii. No statistician in his right mind could have predicted a tripling of construction volume in Hawaii in the past five years.

Some people, sincerely hopeful that the mellow charm of Hawaii can be preserved, may ask, "Can we stop it from happening?" However, the vast majority of Hawaii residents want the benefits of economic development. They are working toward that end while at the same time seeking to preserve and resurrect the atmosphere that is so exclusively Hawaii's.

Statehood will bring to the people of Hawaii not only political equality with fellow-citizens of the U. S. Mainland, but add to the effectiveness of their representatives in the Congress of the United States. The cause of Statehood for Hawaii was not one of political partisanship. It was a cause in which the major political parties of Hawaii joined aggressively, determinedly and unitedly.

As it enters the union, Hawaii may be the most modern and inspiring of the fifty states. It is the only state with an Oriental majority, but with a culture that is bewilderingly rich. It may surpass all others as a source of psychological refreshment—as an example of living the way life ought to be lived.

Gen. S. L. A. Marshall To Speak to League

Military Critic Guest at Annual Meeting April 10 at War Memorial of League of Women Voters; Local Study Items to be Discussed

General S. L. A. Marshall, Editorial Writer and Military Critic of the Detroit News, will be the guest speaker at the annual meeting of the League of Women Voters of Grosse Pointe on Friday, April 10, at 12:30 p.m. at the Grosse Pointe War Memorial.

In World War II he served as expert consultant to the Secretary of War. In 1942 he was assigned as Chief of Orientation, Army of the United States. He established the Army News Service, wrote the basic national policy on Americans of Japanese blood and developed the plan for indoctrination of enemies of war, in addition to other duties as Chief.

In 1943 he was transferred to the newly-formed Historical Division, WDGS, where his initial duty was to make the definite analysis of the First Tokyo Raid for Army, Navy, and Air Force.

In 1943 he was detailed to the Central Pacific Area to develop methods of battlefield research which subsequently became standing procedure in

Later in the same year, he became Historian of the Armies of Occupation, where he installed the system of General Staff research among the defeated enemy commanders.

Among his numerous decorations are the Croix de Guerre with Palm, Ordre d'Armees, Legion of Honor (France), Croci di Guerra, Fatiga di Guerra (Italy), and Ordre de Leopold with Palm, Croix de Guerre with Palm (Belgium).

General Marshall has written many books and articles and is a well known lecturer on military matters.

Following General Marshall's talk there will be a discussion period led by Mrs. James Graves, chairman of the League's Foreign Policy Workshop.

Mrs. George Brown, president of the League, will discuss the business of the League and the membership will be discussed.

SUMMARY OF MINUTES
MARCH 16, 1959

Meeting was called to order at 8:00 P.M.

Present on roll call: Mayor William F. Connolly, Jr., Councilmen Henry E. Bodman, II, J. Lawrence Buell, Jr., William G. Butler, Richard L. Maxon and Edward C. Roney, Jr.

Absent: None.

Mayor William F. Connolly, Jr. presided.

Councilman William G. Kirby was excused from attending the meeting.

Minutes of the regular meeting of March 2, 1959, were approved with minor changes.

The reports of the Police Department, Fire Department and Building Department, for the month of February 1959, were ordered received and filed.

Residents from Hillcrest Road, who are the owners of property abutting Kerby Field, were present at the meeting and stated that they were particularly concerned with such matters as water draining from Kerby Field onto their property, baseballs going over their fences and excessive noise created by a sound car, which is used at the ball diamond when ball games are in progress. The problems discussed by the property owners were referred to the City Engineer for report and recommendation, and the Kerby Field Committee was given power to act and take whatever steps they deemed necessary to alleviate the problems.

Mr. John P. Reed of 371 Kerby Road was granted permission, subject to the provisions of Section 90 of the Traffic Ordinance, to move a house located at 270 Grosse Pointe Boulevard to 304 Kerby Lane.

The contract to operate the Pier Park Concession for the 1959 season was awarded to Mr. Alonzo J. O'Connor of 275 Ridgmont Road.

Approval was given to refund Cox and Baker, the sum of \$480.00, representing the balance of the deposit made with the City to secure the installation of sidewalks in Colonial Farms Subdivision No. 5.

The City Manager was authorized to prepare specifications and to take bids for relocating the air-conditioning unit presently located in the Council chambers, to correct the water conservation tower for excessive noise and to install a ventilating fan in the ceiling of the Police Department.

Acting on the recommendation of the Pier Park Committee, the fees for mooring boats were increased as follows:

Boats having a length of 16 feet and under, to \$20.00 per season.

Boats having a length in excess of 16 feet, to \$2.00 per foot, per season, with no minimum or maximum limits.

Fees for locker rentals were increased to \$5.00 per season.

The City Manager was authorized to participate in Mayor Exchange Day as in prior years.

Authority was given to purchase 4 five-row sections of bleacher seats from the Clyde Bickel Company, at their quoted price of \$260.00, per section, for installation at Kerby Field.

Approval was given to pay Northwood Motors Incorporated, the sum of \$3,876.66, for furnishing the City with a 17 cubic yard International truck with a Load Packer body.

On proper motion made, supported and carried, the meeting adjourned at 9:30 P.M.

MERRY-GO-STRAIGHT—Like a carousel tired of going around in circles, this wagon train heads straight for greener pastures in Rome. The pedal-powered ponies and their carts are being led by their owner to the Borghese Gardens, where children will be able to take a ride for a small fee.

PAST TENSE, PRESENT PERFECT—Spelling out the good news, six-year-old Christopher Keller tells his friends he's over the measles at home in Monroe, Wis. The lad's 10-day illness also provided a grammar lesson in the use of "have" and "had." Now all he needs is a lesson in how to space the letters of the sign.

SOCCER SYLPHS—Forsaking her high-heel shoes and sheer nylon stockings (foreground) for woolen knee-socks and soccer shoes, this pretty signorina in Rome prepares for a rough-and-tumble workout with the Eternal City's first all-girl soccer team. These soccer sylphs train three days a week, but so far they have not played a single match. The difficulty seems to be that female soccer teams are quite rare in Italy, and the beautiful booters may be having a hard time finding female opponents.

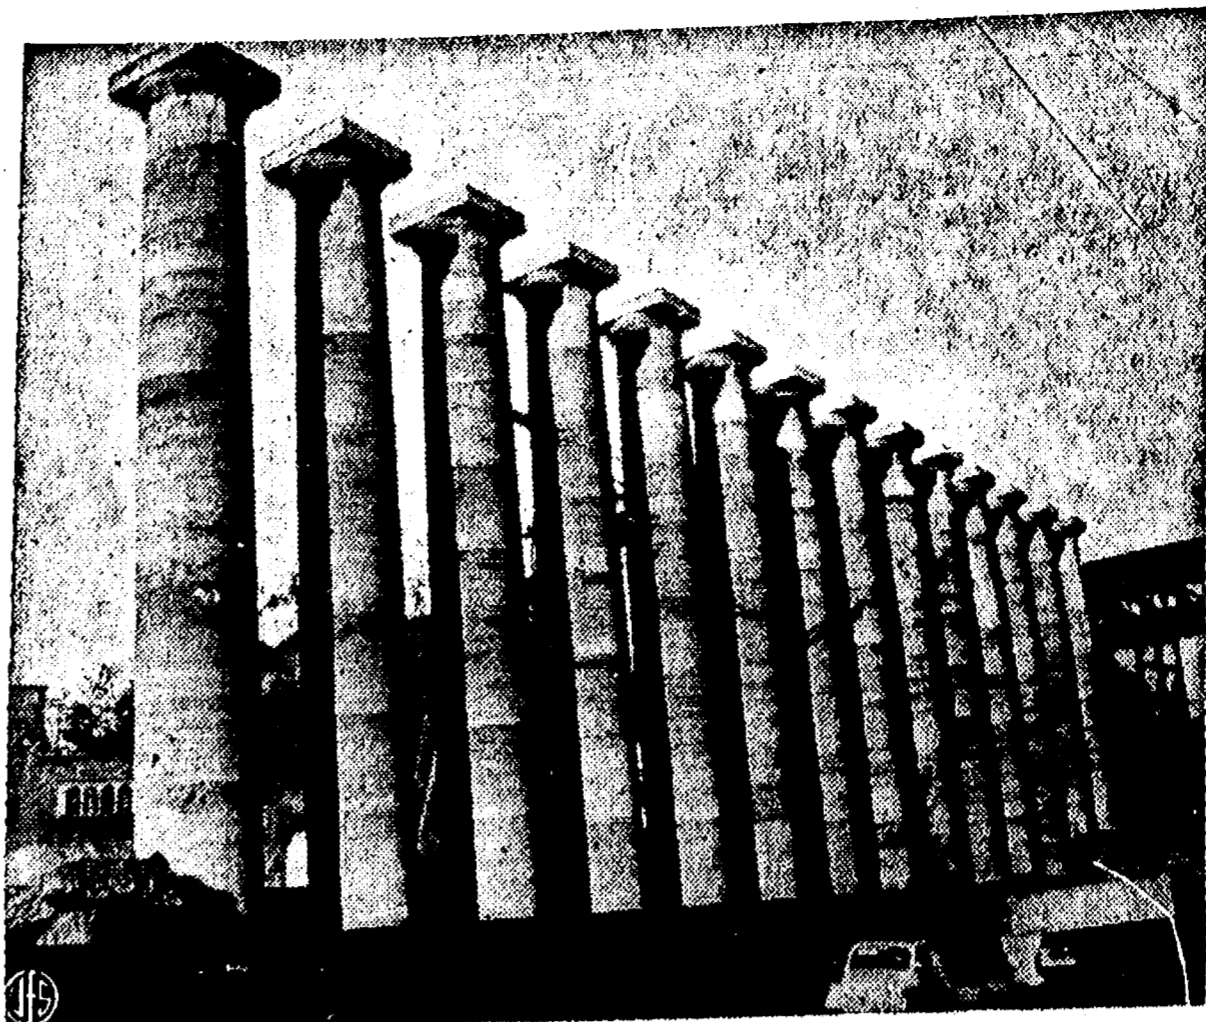

IN GOOD FAITH—Symbols of religious faith, a rude wooden cross and a modern church stand in effective contrast near Rendsburg, Germany. In a program designed to remedy the shortage of churches in West Germany, the Evangelical Lutheran Church Building Society was established in 1957 to increase the rate of church building. This recently completed church is the first one erected under the program. It was built at a cost of only \$5,500.

BOW-TIED MARTIAN—Looking like a bow-tied Martian, this Cyclopean apparition is really just a technician at the Cooper Alloy Corp., in Hillside, N.J. The fearsome head is a radio-isotope machine called, appropriately, "Cyclops," which is made by the Picker X-ray Corp. and can take pictures through a 12-inch thickness of steel. Incidentally, the technician leaves the concrete blockhouse in which the machine is installed before it is turned on—the evilly gleaming "eye" does its job with deadly gamma rays.

GRIPPED BY PAIN—You'd cry, too, if you had to wear a cumbersome cast like the one that holds one-year-old Karmyn Duncan from neck to hip. It's tough to be brave all the time, and sometimes she just has to give in at Orthopaedic Hospital in San Francisco, where the plaster cast is helping to straighten her congenitally crooked spine. Karmyn is one of some 80,000 crippled children aided by the hospital, which is currently trying to raise \$6,500,000 to continue its work.

TALL ORDER—Know anybody in the market for some concrete pillars? These pillars have been standing around for 15 years, serving no useful purpose in Stuttgart, Germany. Originally ordered by Adolf Hitler, the columns were to be a gift to Benito Mussolini. Now, the company that erected the pillars is still looking for a buyer.

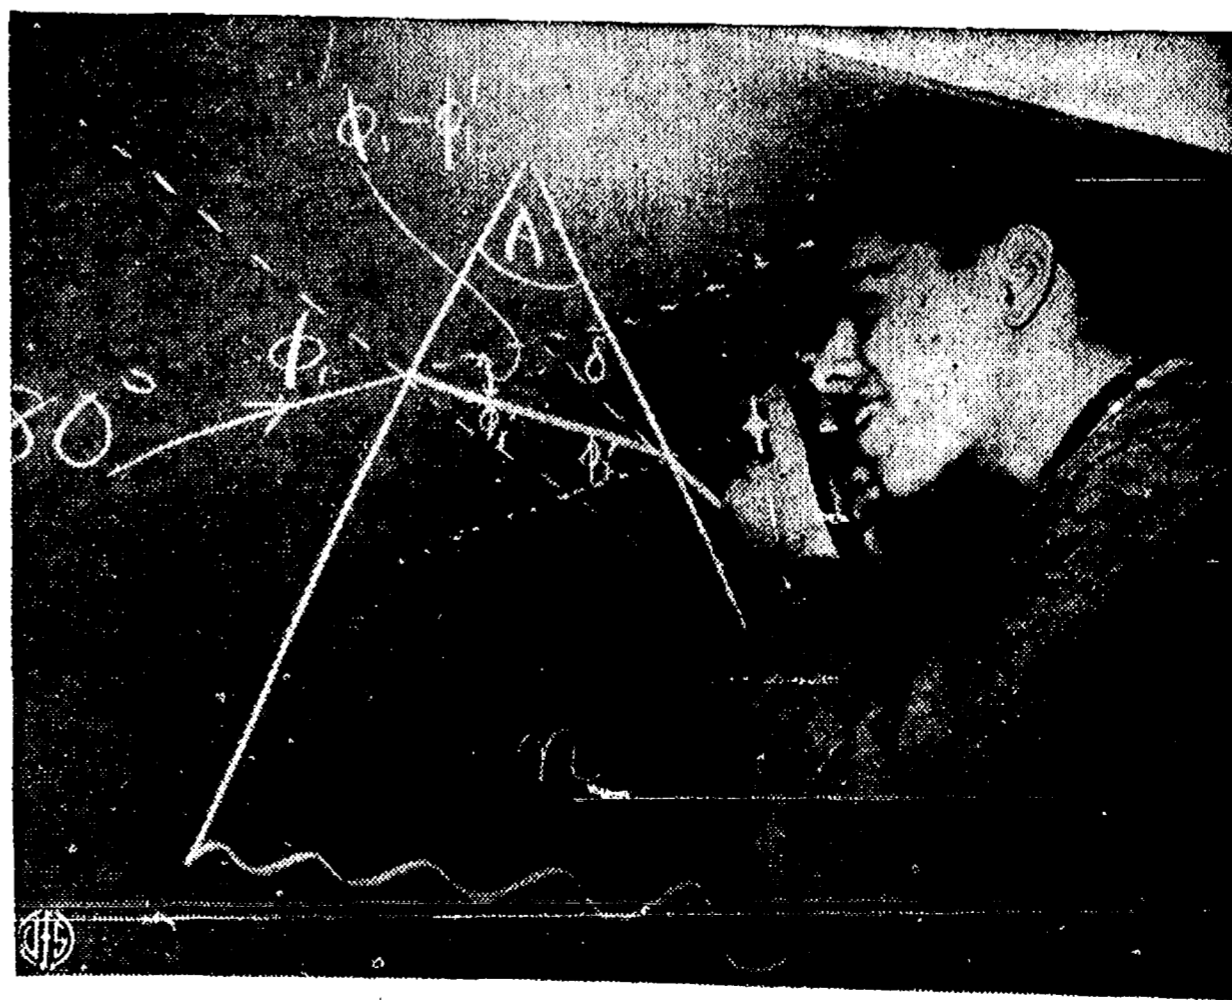

HOCUS CROCUS—After the long winter's sleep, it seems almost magical the way these crocus buds are sprouting suddenly from the earth in London's Hyde Park. Impressed with the wonder of it all, three-year-old Neil, MacRae points admiringly to the budding flowers.

B.B. GUN—The girl behind the gun is just the highest-caliber glamor girl in the world—Brigitte Bardot—so who says it's impolite to point? The "sex kitten," or "B.B.," as she's known to her fans, showed off her shooting technique during a Paris TV show plugging her new movie, "Babette Goes to War."

REFUELING—Three candidates for the 1960 U.S. Olympic Alpine Ski Team warm up with hot buttered soup at the Roundhouse at Sun Valley, Idaho. Left to right they are: Beverly Anderson of Mullan, Idaho, and University of Washington star, who recently won the women's downhill title; Bud Werner of Steamboat Springs, Colo., who has just annexed four national Alpine crowns; and Sally Deaver of Whitmarsh, Pa., who is one of the top women skiers in the country.

CLASSY CLICKING—Physics is just a snap course for Roger Field, who photographs the blackboard instead of taking notes in a classroom at Columbia College in New York. A sophomore, Roger has found it much easier and more accurate to use his 35-mm. camera rather than pencil and paper to copy elaborate formulas and diagrams in his science courses. He says his professors don't mind, since he does his picture-taking after class, and his fellow students set up quite a demand for prints, which Roger sells.

REUNION—Fred MacMurray and actress-wife Haver are greeted by Shaggy, who stars with the duo in Walt Disney's "The Shaggy Dog," upon arrival in New York. The MacMurrays came for the New York opening of the picture on March 10.

NAILS DOWN A ROLE—Nailing down a part for himself in a movie he is writing with a setting in China, Wong-Ming Woon, 72, works on the script while living a son at Tyrone, Ark. Wong, who lives in Van Nuys, Calif., wrote the story, called "The Recluse," after retiring from the import-export business. During the past 31 months he cultivated his beard and let his gennalls grow, some as long as 3 1/2 inches, so he could play the part of the principal character, a bearded man.

BATTING 1,000—Batting 1,000 in juvenile club sports ensemble was designed for the sub-teen Mme. Schiaparelli of Parisian high fashion fame. In crisp white cotton and trimmed with parallel stripes of red, the outfit consists of a sleeveless middie-length skirt and short matching shorts.

SIR SHUTTERBUG—A good knight, Carl Hahn clamps his halberd under his elbow while using his hands on a press camera at Delafield, Wis. The year-old Milwaukee youth was costumed for a school pageant staged at St. John's Military Academy.
