

Farms Police Report Very Busy Year

(Continued from Page 1) simple larceny cases in which \$2,900 were lost and \$1,395 recovered; 17 grand larceny cases resulting in a loss of \$4,492 and \$879 recovered; 28 bad checks accounted for losses amounting to \$1,596 of which \$455 was recovered; and 19 breakings and enterings, \$4,251, with \$1,128 recovered.

struction of property, with damage amounting to \$2,105.50, with the department recovering \$944 for the property owners.

Eighteen Stolen Cars
Eighteen cars were reported stolen, and 18 recovered; 46 bicycles stolen, 40 recovered; and 25 persons reported missing and all found.

Chief Furton revealed the personnel of his department

found 202 home and business doors open, answered 71 fire and 112 ambulance calls in conjunction with the Fire Department; handled 569 bank and City Clerk's office details.

The number of persons bitten by dogs was 52; prowler calls answered, 55; suspicious cars investigated, 93; sick children taken home from schools, 192.

The total number of police calls answered, the chief said, was 2,474; total complaints received, 1,339; adults arrested, (except for traffic), 175; juvenile arrested, (except for traffic), 102; bicycle licenses issued, 490; original operator's licenses issued, 451, renewals, 272; chauffeur's licenses issued, 141; and duplicate licenses granted, 226.

Violations Decrease
Chief Furton revealed that during the entire year, 633 moving traffic violations were handed out, a decrease of 75 from the previous year; 5,600 parking violation tickets were issued, a decrease of 389 from last year; and the total fines collected by the Violation Bureau and the Court was \$1,262.15 below that of the 1957-58 fiscal year.

The five police cars and one dog wagon traveled a total of 197,714 miles in patrolling the city streets, using 21,026 gallons of gasoline. The vehicles averaged 9.40 miles per gallon of gasoline, the chief said.

Nab Burglars

(Continued from Page 1) ried when accused in Detroit, was found on his person.

The 16-year-old, O'Dell and Tobian, was recently released from the Boys Vocational School in Lansing, but was not wanted by authorities at the time of his arrest.

Questioned still further, the three youths admitted they were driving around the streets of the Woods, looking for a store to burglarize. They said they had no particular establishment picked out, but were in town to commit a crime.

The boys said that when they saw Patrolmen Plumb and Mast, they threw their gloves, evidently to prevent leaving fingerprints while committing their crime, under their car.

Storm and Stage were turned over to Detroit police of the Fifth Precinct, and the younger lad was turned over to the Detroit Police Youth Bureau, since the three had not carried out their criminal intent, it was said.

Neighbors Oppose Church Plans for Building

(Continued from Page 1) his home, at the corner of East Jefferson and Rathbone place, he had to pass two parking lots already, those belonging to the National Bank of Detroit and the City park, and he felt that

Woods Safety Program Cited

Grosse Pointe Woods' program for safeguarding pedestrians during 1958 received national recognition this week.

The Woods was one of 12 U.S. cities of comparable size to receive a Special Citation award for pedestrian program activities in AAA's 1958 Pedestrian Protection contest.

Three other Grosse Pointe communities—City, Farms and Park—have received awards for "excellence of record" in the contest.

Mayor Kenneth Koppin was presented with a plaque representing the Woods' award by George Measel, manager of Automobile Club of Michigan's Grosse Pointe division, during ceremonies preceding the regular city council meeting.

St. Joseph and Niles tied for first place in the 10,000 to 25,000 population class in which Grosse Pointe Woods competed. A total of 524 U.S. cities entered the contest in that population grouping.

John Trellay, Auto Club safety consultant, said that 61 percent of the credit earned by Grosse Pointe Woods in the contest was for its pedestrian casualty record. That national death rate for cities of the Woods' size was 2.5 pedestrian fatalities during 1958. The Woods had none.

The city made perfect scores in the use of accident records, pedestrian engineering and school traffic safety phases of the contest, Trellay said. The city was also well above the established standard in the section devoted to public information.

Trellay said that the "entire citizenry, motorists and pedestrian alike, are to be commended for their part in making the award possible." He also commended Director of Public Safety Vern Bailey for his efforts in pedestrian protection.

BEYOND AND ABOVE

Policemen have to do a great variety of jobs in the course of a day — everything from apprehending criminals to getting cats down out of trees — and they have to assist people in various and sundry ways. A few days ago, the City police received a call from the Detroit Metropolitan Airport. It was requested that they contact Mrs. Rose Janek, who works at 14 Rathbone place, and inform her that her daughter had arrived and there was no one there to meet her. Sounds simple, so why didn't the daughter call her mother herself. Simple answer, Mrs. Janek's daughter had just flown in from Germany and could speak no English. Once again, the police to the rescue.

Teener Found 'Dead Drunk'

A 15-year-old Park boy will be filed against in Juvenile Court on a charge of having been intoxicated, according to Park Police Chief Arthur Louwers.

The chief disclosed that a citizen noticed a form lying on the sidewalk on Jefferson, near Nottingham and notified police.

Sgt. Hazen Hennig and Patrolman Don DePlace answered the radio call, and found the boy in what they called a "dead drunk condition."

The officers took the teenager to Bon Secours Hospital, where the boy's stomach was pumped out. The lad was released to police after he became sober.

The boy was later turned over to the custody of his father, who was instructed to appear with his son at a hearing before the Detroit Youth Bureau.

Chief Louwers said that an investigation is underway to determine where the boy obtained the alcoholic beverages.

SPRINKLER VANISHES

Mrs. William C. Nelson of 901 Lincoln road reported the theft of a lawn sprinkler to City police, Friday, July 17. The sprinkler, the oscillating type, was cut off of the hose the previous evening.

OBITUARIES

ALTA RIEMAN
Mrs. Rieman, 59, of 950 Harcourt road, died Monday, July 13.

Born in Cleveland, Ohio, she is survived by her husband Otto J. Rieman; and a sister, Mrs. E. J. Phillips of Cleveland.

Services were held Thursday, July 16 and burial was in Lakewood Park cemetery, Cleveland.

SI A. LEPPER

Mr. Lepper, of 361 Ridgmont road, died on Friday, July 17. He is survived by his wife, Mary, and his parents, Mr. and Mrs. Eden Lepper of Toledo, brothers Wayne of Portage, Ohio, and Horace of Toledo, sisters, Helen and Seney of Perrysburg, Ohio.

Services were held in Midville, Michigan, on Monday, July 20.

JOHN GIGANTE

Mr. Gigante of 462 Bourne-mouth road, age 78, died on Wednesday, July 15. He was the husband of the late Giacoma.

He is survived by his children, Samuel, Joseph, Mrs. Frances Bono, Andrew and Mrs. Angia Misretta.

Services were held Monday, July 20 at Our Lady Star of the Sea Church and burial was in Mt. Olivet.

Pointe Dogs

(Continued from Page 1) city," said Patrolman Fred Messer Jr.

Most Owners Careful
Most people, it seems, take care to see that their dogs do not run loose and are properly licensed, otherwise, there would be far more complaints than there are at present.

With something like 4,500 dogs registered in the Grosse Pointe area, there are only approximately 180 complaints a month. For this, the responsible dog owners should be congratulated. But there are always the inevitable few.

Dogs are here to stay and so are dog lovers, but so are the laws that deal with them. Don't let your dog become a neighborhood nuisance.

Fish Rodeo

(Continued from Page 1) prize will be awarded to any one person; contestants must be registered and must wear a Fish emblem to participate; and prizes will be awarded to contestants only.

Free refreshments will be served to all contestants after the Rodeo, according to Beauvais.

DROWNINGS INCREASE

At least 128 persons have drowned in Michigan waters so far this year with August, the heaviest month of vacationing, yet to come, according to records compiled by the State Police.

Of 172 water accidents reported, 106 were fatal, 46 resulted in personal injury and there were 20 accidents resulting in property damage only.

On the basis of the first six months, it is now feared that the toll for the last half of the year will greatly exceed the 193 dead and 89 injured in 257 accidents in the same period last year unless water enthusiasts exercise greater caution.

Unquestioned as the Best
Value
As every experienced Cadillac owner knows, the Cadillac car represents an extraordinary value. Its initial price includes a host of features that cost extra on most other cars... its sturdiness and dependability assure great savings in maintenance and operation... and after years of service, it traditionally returns a higher percentage of its owner's investment. The chances are excellent that a Cadillac is well within your reach this very day!

Names of Poor Drivers Being Released By State

James M. Hare, Secretary of State, announced that his office will submit a weekly list, for publication, of drivers who have had their operator's licenses suspended or revoked, as a means of keeping these drivers off the road.

During June, 4,782 Michigan drivers, whose traffic conviction records showed 12 points or more, were cited for re-examination by Driver Improvement interviewers of the Department of State, under the State's new traffic violation point system, according to Hare. Hearings were held in the State's 83 counties.

Last month, Hare reported, 1,064 persons were suspended under the State's Financial Responsibility laws. Of these, 249 were for unsatisfactory judgments, 179 were for accident suspensions, and 636 were for drunk driving, negligent homicide, felony committed with a car, use of drugs while operating a motor vehicle, and other mandatory suspensions.

Last week, the Department of State suspended the licenses of 347 drivers, and revoked the driving privileges of 87 additional Michigan motorists.

The list of drivers taken off the road last month includes three from the Pointe. Their names and reasons for suspen-

sions or revocations, and the dates, are:

Albert J. Assessor III of 2000 Hunt Club, license suspended from June 11, 1959 to September 11, 1959, unsatisfactory driving record.

Robert S. Hoskins of 1315 Berkshire, license revoked on June 22, unsatisfactory driving record and for failure to appear for re-examination. The revocation remain in force until he appears for a hearing.

Charles W. Thorn of 331 Mt. Vernon, declared physically incompetent. His license has been revoked for an indefinite period.

Law abiding citizens are asked to report to local police any driver who is seen operating a motor driven vehicle, during a period of suspension or revocation; if the citizens have such knowledge.

Larry R. Powell Given Promotion

MANNHEIM, GERMANY (AHTNC)—Larry R. Powell, 20, son of Mr. and Mrs. Charles R. Powell, 2010 Huntington, Grosse Pointe, Mich., recently was promoted to specialist four in Germany, where he is a member of the 520th Quartermaster Company.

A driver in the company in Mannheim, Specialist Powell entered the Army in August 1955 and arrived in Europe in October 1956.

He is a 1955 graduate of Grosse Pointe High School.

Woods Municipal Building Takes Form

Construction of the Woods' new city hall is about 10 days behind schedule, but the building contractors assured city officials that the edifice will be completed by the date set, October 26. Work on the building was started about February 19, and will cost \$231,317. It will contain an administration wing and a council-court-

room wing, with future plans calling for a wing to house the Public Safety Department, for which a \$40,000 fund was created by the city council on Monday, July 20, from the 1959-60 Fiscal Budget. The new building is situated in Ghesquiere Park, facing Mack avenue, between Huntington and Kenmore drive.

Driving Safer On Expressways

Expressway driving in Detroit is nearly five times safer than on major surface streets, according to a report prepared

by the Detroit Department of Streets and Traffic. Alger F. Malo, director of the Department of Streets and Traffic, pointed out that there was one accident on the expressways for every 4.70 accidents on the major streets, figured on a 100 million vehicle mile rate.

The report, based on 1958 accidents, showed that on the same basis, there was one injury accident for every 4.05 injury accidents on the expressways, but that one fatal accident occurred on the expressways for every 1.28 fatalities on the surface streets.

Thirteen fatal accidents occurred on the expressways in 1958, the highest ever, Malo pointed out. There were only five fatalities in 1957 when the rate was much lower.

"We hope the 1958 experience was not a true reflection of what we can expect in future

years in expressway fatal accidents," he said.

Malo pointed out that 539,000,000 vehicle miles were rolled up on less than 20 miles of expressways, which is rapidly approaching the mileage volume on the six surface streets. The total vehicle mileage on these streets was 590,700,000, he said.

The six surface streets and their mileages were: Grand River, 149,100,000; Gratiot, 103,400,000; Woodward, 102,700,000; West Fort, 95,100,000; E. Jefferson, 82,400,000, and Michigan 58,000,000.

Lt. Charles W. Finger Takes Missile Course

FORT BLISS, Tex. (AHTNC)—Army 2d Lt. Charles W. Finger III, whose wife, Meredith, lives at 713 E. Kingsley, Ann Arbor, Mich., completed the 16-week surface-to-air missile officer basic course July 8 at The Air Defense School, Fort Bliss, Tex.

Lieutenant Finger, whose parents live at 837 Grosse Pointe court, was graduated from Grosse Pointe High School in 1955 and from the University of Michigan in 1959. He is a member of Tau Kappa Epsilon and Beta Alpha Psi fraternities.

When a man acquires a bad reputation it is up to his children to live it down.

LOST BIKES FOUND
Stray dogs and stray cats, even stray children, are fairly common, but lately there seems to be a rash of stray bikes. Both John Hamann of 441 Rivard boulevard and Candy Geer of 906 Cadieux road had their bicycles go astray during the past week. Thanks to an alert police department, the rightful owners are once again in possession.

MAGIC ENTERTAINMENT
The Grosse Pointe School for Exceptional children, now in its six week summer session, had a special treat last Friday, July 17, in the form of a young magician, David Gnaou.

Pointer Treats Uprising Victim

Mrs. Arthur F. Fushman of Bedford road reports that her son, Dr. John Fushman, a lieutenant in the U.S. Navy, was in Viet Nam during the recent uprising when two Americans were killed.

Dr. Fushman, normally stationed in Japan, is currently doing two months duty with the Army in Saigon, Viet Nam. When the uprising occurred, he and another doctor, Tee Rea, were sent to the scene to give medical aid.

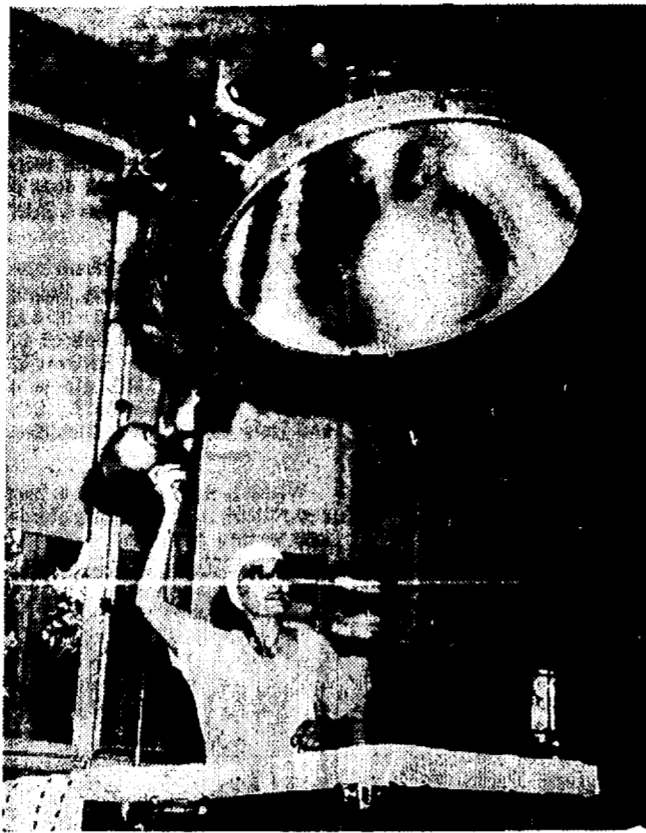

After a rather spooky ride with some native soldiers, the two doctors arrived to find two men already dead, but another only wounded. Dr. Fushman sat up with the wounded man during the night and the next day had him sent to the Clark Air Force base hospital in the Philippines.

Dr. Fushman reports that the man is recovering nicely now, as is Dr. Fushman himself.

NURSE MAGDALENE KOZLOWSKI, supervisor of Operating Rooms, adjusts new surgical light in one of Cottage Hospital's recently remodeled operating rooms. Installation of these new \$2,000 lights marks the completion of a two year operating room expansion program that increases the hospital's major surgery facilities by 30 percent. In addition to operating room improvements, this program included the installation of air conditioning in the post anesthesia recovery room. The Women's Auxiliary of the hospital, through various fund raising events, was able to contribute over \$8,000 to this important remodeling project. Miss Carolyn Wicks, Cottage's administrator, places the total cost of this program at \$12,000.

City Life Saving Classes Popular

A popular group of activities among Teen Ageds at the Grosse Pointe City Park according to Councilman Kenneth F. Bergmann, chairman of park activities, are the Junior and Senior American Red Cross Life Saving Classes which are now meeting in their final week of the first term.

Groups of boys and girls are constantly teaming to perfect various rescue techniques by the use of land and water drills under the leadership of their instructors Kenneth Phillips and Bill Hoffa.

The following students expected to complete the senior course this week are: Lynn Alcott, 17517 Maumee; Peg Bromley, 701 University; Jerry Chouinard, 496 Notre Dame; and Kim Wade, 17521 Maumee.

SILVER LINING
 Courtesy is the lubricant of life's engine — it tends to smooth out the rough spots in our daily tasks.

Church Loses Top Organist

The final concert of the Grosse Pointe Music Festival on Wednesday, July 22 was the public appearance in this area of a prominent local musician, Richard Roেকেleln, who performed on the harpsichord as a member of the Festival Chamber orchestra, is leaving his post as organist and music director at Christ Episcopal Church next month.

In his four years at the church, Mr. Roেকেleln has brought many laurels of the music world to Grosse Pointe. Samuel Barber, as a favor to him, composed "Wondrous Love"—variations on a shaped-note hymn for the dedication service of the new organ at Christ Church last October. The program also contained Mr. Roেকেleln's own composition, "Toccata for Organ."

In 1958 Mr. Roেকেleln was selected by Paul Paray, conductor of the Detroit Symphony, as the official organist and harpsichordist of that organization. Appearing with the symphony in the Worcester (Massachusetts) Musical Festival—the oldest music festival in America—the organist received admirable reviews. He has also performed in Europe and other U.S. cities as well as past programs of the Grosse Pointe Festival.

The harpsichord Mr. Roেকেleln plays was especially built for him by John Challis of Detroit. The case of this instrument is from a Mozart piano built 200 years ago in England. Mr. Challis, who usually builds his own cases, chose to use this one because of the fine tone quality the old wood provides. The harpsichord was completed in January 1959 and was first heard publicly in "The St. Matthew Passion" by Bach, conducted by Paul Paray and performed last March at the Ford Auditorium.

At present, Mr. Roেকেleln is attending the University of Michigan to complete work for his Masters Degree in Music. He still maintains an address in Grosse Pointe.

SPEEDER ARRESTED
 Robert H. Turrentine of 5708 Missouri, Detroit, was arrested by Woods police on Tuesday, July 14, for speeding on Mack avenue. He was doing 57 miles in a 30-mile zone. He posted a \$50 bond pending an appearance in court.

HURT WHILE DIVING
 Raymond Harris, 10, of 1850 Anita, dove into the pool at the Woods lakefront park on Thursday, July 16, and suffered a five-inch gash on the top of his head when he bumped the pool bottom. He was taken to City Physician Dr. Clarence Candler, who put in a number of stitches to close the wound.

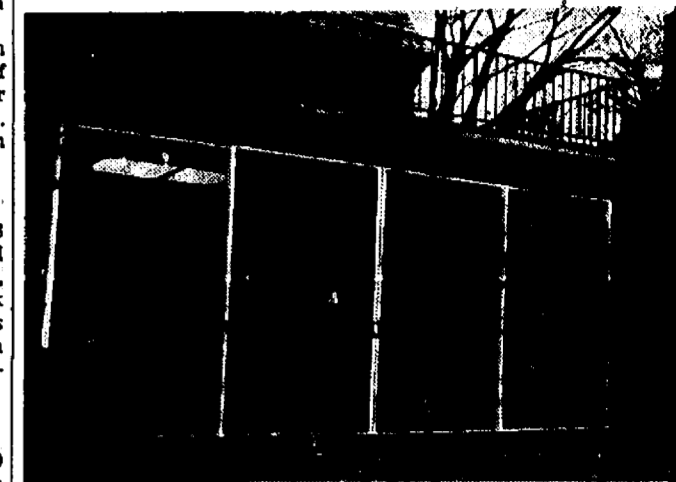

License Shift Leads to Jail

James Somerset, 39, of 140 Seward, Detroit, was sentenced to Jackson Prison by Wayne Circuit Judge Victor Targonski on Monday, July 13.

Somerset was given nine months to two years, after he was found guilty of altering the license plates of his car, for which he was arrested by Farms police on April 19 of this year.

The convicted man was apprehended by Patrolman Otto Glanert on Moross road, when the officer noticed that plates on Somerset's automobile looked too off-color.

A closer inspection showed that 1958 plates had been changed to 1959, by punching out the lower left portion of the digit 8, and the plates painted over.

SILENT

gas refrigerator—a trouble-free wonder with a 10-year warranty

Peace and quiet—it's wonderful! And it's easy to keep it that way if you own a silent gas refrigerator. There's no nerve-jangling stop-and-start noise, because there's no compressor. A clean gas flame does all the work—fast and economically. So trouble-free, it carries a 10-year warranty.

And you never fill an ice-tray! A gas refrigerator makes handy ice-circles automatically, stores them ready-to-use in a basket. So see the RCA Whirlpool gas refrigerator now at your Gas Company—you'll choose gas, naturally.

LET'S BAG SOMETHING BIG

In our town's efforts to build prosperity for its citizens, what is the biggest thing we can bag?

It is a good name—a good name for our town as a good place for industry to succeed and a good place for people to live.

As industry looks for places to locate plants and payrolls, its eye is out for towns that have such assets as:

Strong community spirit and leadership . . . fine schools . . . outstanding public services . . . pleasant residential areas and attractive

business districts . . . sound planning and zoning . . . a good chamber of commerce . . . developed industrial sites . . . adequate plant financing . . . appreciation of present industry . . . productivity everywhere around.

Industry not only has its eye out but has its ear cocked. A good name travels far and a town with a good name goes far.

Join hands with your local industrial development organization and the Michigan Economic Development Department to help your community prosper.

This ad is one of a series published as a public service by this newspaper in cooperation with the Michigan Press Association and the Michigan Economic Development Department.

To Form Classes At City's Beach

Any person interested in some form of physical activity will have a final opportunity to register for the various programs offered for the last time this summer. Second term enrollment will be the week of July 27, according to Councilman Kenneth F. Bergmann, chairman of park activities.

Classes for a four week term will begin Monday, August 3, in the following activities: Basic swimming instruction for boys and girls ages 4 and up; also for men and women.

The following are also for boys and girls who can qualify: basic fancy diving, junior and senior American Red Cross Life Saving; preparation for competitive swimming, and for the ladies exercise classes.

The instruction staff at the Grosse Pointe City Park consists of John Carik, Bill Hoffa, Steve Vandervoort, Joann and Kenneth Phillips, Jerry Mehl and David Kothe.

Blaze Blamed On Stray Spark

Prompt action by Park firemen on Wednesday, July 15, confined an attic and roof fire at the home of the Sherman Wilsons, 1240 Yorkshire, to the chimney area.

Ticket Drivers Following Crash

Two motorists were ticketed by Farms police on Saturday, July 19, following a collision at Vendome and Ridge roads, which resulted in extensive damage to the cars involved.

Police said that Steven S. Lackomar of 12018 Whithorn, Detroit, was driving east on Ridge, when he ran into a car driven by Eva A. Reimer of 187 Irving lane, who was traveling south on Vendome.

The woman pulled out into the intersection, after stopping for the stop street, an accident report disclosed the man could not stop in time to avoid hitting her.

Damage to Lackomar's car was estimated at \$350, and to the other car, \$300. Both vehicles had to be towed away.

The male driver was given a ticket for not having his car under control and causing an accident, and the woman was handed one for cutting in front of moving traffic from a stop street.

Court date was scheduled for yesterday, July 22.

Park's Tennis Tourney Success

"The best tournament ever held at Grosse Pointe Park beach" was the remark Dave Beauvais made after the first matches had been completed over last weekend.

Sixty entries topped the previous high and some exceptionally fine tennis was seen by spectators who crowded around the courts during the finals of the Mixed Doubles, Junior boys and Girls and Womens singles matches.

Fran and Joe Kristufek carried off the mixed doubles honors when they defeated Dave Lamb and Reenie Reilly in straight sets, 6-2; 6-1.

Chuck Dyer captured the Junior boys singles with a straight set win over Tim McCormick, 6-2; 6-2. Both played in the Grosse Pointe High Border Cities League championship team last spring.

Fran Kristufek became the tourney's first double winner when she defeated Barbara Berschbach, 6-3; 6-3, for the Women's singles crown.

Beth Nicholson won the Junior girls' singles title with a 6-0; 6-1 victory over Ann Leach.

The remaining matches will be completed over next weekend, July 25-26, when the Men's singles will be played at 2 p.m., Saturday, July 25, between Joe Kristufek and Bill Paltyn. Kristufek is favored to retain the title which he won last year and become the second winner.

The men's doubles will be played Sunday, July 26, and will pit George Nicholson and Joe Kristufek against Bob Johnson and Bill McHugh.

History repeats itself, but not nearly so often as gossip.

Ignores Light; Has Accident

A motorist who admitted that he failed to stop for a red light and became involved in an accident at Kercheval and Kerby, on Sunday, July 19, was ticketed by Farms police.

Edwin A. Nebel of 19758 Ida lane, said he was driving west on Kercheval and failed to stop for the light at the intersection and ran into a car driven by Donald MacLaren of 22801 Lake Shore, St. Clair Shores, who was going north on Kerby.

MacLaren suffered cuts about the face and head and was taken to Bon Secours Hospital by firemen, where he was treated and released.

Nebel was issued a ticket for going through a red light and causing an accident. Court date is scheduled for August 12.

Damage to Nebel's car was estimated at \$300, and to MacLaren's, \$350. Both cars were not drivable and had to be towed away.

REPORTS ROBBERY

Miss Peg Bromley of 761 University place had the unfortunate experience of having her wallet stolen while she was at the City park. Not only that, the keys to the Cadillac she was driving also disappeared. Luckily, the car was not taken.

BORROWED TIME

Borrowing from Peter to pay Paul merely proves that Peter is an easy mark.

LEISURE TIME

Some men jump at conclusions — others take more time to make the same mistake.

Judge Paterson Hears Five Cases

City Judge Douglas L. Paterson, on Tuesday, July 14, heard the following cases:—

John L. Haney of 520 Helen avenue, Detroit, was charged with speeding (80 miles per hour in a 30 mph zone) found guilty and paid a fine of \$30.

Elizabeth S. Tosich of 17507 Mack avenue, Detroit, was found guilty of not having her car under control and interfering with moving traffic. Her sentence was suspended.

Earl M. Wilson of 323 E. 5 street, Flint, was charged with not having his car under control and causing an accident. He was found guilty and paid a fine of \$25. He was also given a six-month probation and told to pay damages to the other drivers involved.

REPORTS VANDALISM

Gasper Salvaggio, construction contractor working on the Woods' new municipal building, complained to Woods police on Monday, July 13, that vandals damaged bolts and windows around the edifice sometime over the week end. He said damage was about \$125.

Mrs. William Warren of 520 St. Clair avenue was charged with harboring a dog nuisance. The case was dismissed.

Richard Dana Mayo of 630 Cadieux road was charged with a speeding violation. The complainant refused to sign a complaint and the case was dismissed.

Makes all curves feel banked...

...the curve-hugging Wide-Track Pontiac!

It's been a long time since the public took to an automobile with the verve and vigor of the current admiration for Pontiac. It's now first in sales in its price class. Sleek beauty is one reason. Wide-Track Wheel design is another. The wheels are five inches farther apart

to increase stability on curves and corners. It's a very simple, basic innovation yet the improvement it makes in your control of the car is remarkable. You notice it immediately. You're more comfortable than you've ever been in narrow track cars.

THE ONLY CAR WITH WIDE-TRACK WHEELS

Dotted lines show conventional wheel positions. Pontiac's wheels are five inches farther apart. This widens only the stance, not the car itself. Pontiac hugs tighter on curves and corners. Sway and lean are considerably reduced, ride is smoother, balanced, steadier.

Many Entries In Swim Meet

With only a little more than a week remaining, the entry list for the annual Grosse Pointe Farms swimming meet is growing rapidly. A record entry is expected for the 38 event program which will be held at the Farms pier, Saturday, August 1 and starting at 2:00 p.m.

From the races will come the team which will represent the Farms in the annual Grosse Pointe Inter-City meet to be held at Grosse Pointe Park on Saturday, August 8.

First and second place winners in any of the 25 yard races and in any of the age groups under 16 years old will make the team.

Among those already entered are: Bob Kay, Duane Lynch, Cathy Mulkey, Kathy Hamilton, Susan Richards, Frank Kotcher and John and Mark Rentenbach.

The 25 yard backstroke, breaststroke and freestyle and 50 yard freestyle events are open to boys and girls of all age groups.

A mothers' and fathers' race will climax the program. Entry blanks are available at the checkroom at the Farms beach and must be filled in and filed not later than 6 p.m., Friday, July 31.

Your thumb is getting greener
(Yours and 3,502 others, that is!)

We keep tabs on you here at the Detroit Times. Exactly 3,502 of you wrote us for Gardening Leaflets the first week of this year!

We liked that.

We like to see things grow.

And just in case you think we're trying to "sell" you something, don't be silly. (Our Garden Editor would be incensed. Because she knows the leaflets are offered as a public service . . . and that you want them.)

Point is—

You respond. We like to think it is because we offer what you want.

Thanks. What's for this year? Roses? Wild flowers? Hedges? Ask us—and we'll find out.

Keep your eye on the TIMES!
Phone Woodward 3-8800 for delivery to your home . . . both daily and Sunday!

Headlines of the Week

(Continued from Page 1)
 town at the time of the fire. Neither State Police or O'Brien could give any solid reason for the arson. But Mrs. Paris blamed it on her son's union activities.

PRESIDENT EISENHOWER talked for two hours with the Secretary of Labor, James P. Mitchell, Friday, as the effects of the three day old steel strike cut further into the economy. More walkouts, layoffs and higher production costs are included in the losses to the economy. Mitchell also talked with Joseph Finnegan, chief of the Federal Mediation and Concili-

ation Service, who had returned from New York after conferring with both the Union officials and the Steel Industry.

RUSSIAN COMPOSER of 11 symphonies and many other works of note, Dmitri Shostakovich, will visit the United States in September. He will be accompanied by two other well known composers, Dmitri Kabalevsky and Tihon Khrennikov, and also Eugenn Kapp, an Estonian musician.

Sunday, July 19
AFTER THE BIG CRISIS of his revolutionary reign in Cuba, Fidel Castro is still a hero.

He is expected to become Prime Minister now that Manuel Urrutia, who resigned as President Friday night, took refuge with his family in Bania, a Havana suburb. Castro had accused him of near treason. There is mounting concern in Washington over the trouble developing in Cuba.

THE FORTHCOMING ELECTIONS in the United States and Britain are making negotiation difficult at Geneva. With the British voters going to the polls in October, an acceptable arrangement with Russia, at this time, would be of great help to Britain's Prime Minister McMillan and the Conservative party.

Elections here in the States are over a year away, but it is possible that Soviet Premier Nikita Khrushchev had that in mind when he offered an 18-month "interim period" on the Berlin crisis. That would throw the problem in the lap of a freshly elected, and still confused, American administration.

A DETROIT FATHER Saturday drowned his two year old son "to hurt the baby's mother". Mrs. June Schall divorced Gale Schall four weeks ago because of habitual drunkenness. Schall dropped his son Gary into four feet of water from a foot-bridge in Elizabeth Park. Schall then went to the home of his ex-wife and told her. She didn't believe him at first, but when he convinced her she became hysterical. After a while, the two of them went to the McGraw police station to report what had happened.

Monday, July 20
A BLAZE THAT SHOT flames 50 feet into the air, destroyed Hall's Wholesale Department Store at 4895 E. Eight Mile in Warren, Sunday. The column of smoke could be seen from 20 miles away. Damages were "well over a million dollars," said Jack Surnow, general manager of the store. Spreading rapidly, the fire almost trapped four employees, 10 minutes after the store closed at 6 p.m. "This would have been a tragedy if it had started 20 minutes earlier, because up to 6 p.m. we were mobbed," Surnow said. The fire started in the carpet department and the houseware and small appliances section.

THE MOST POWERFUL VOICE for liberalism in the Dominican Republic's dictatorial government was killed in a mysterious auto accident on a mountain highway, Friday night. Minister of Finance, Ramon Marrero Arista, died in a flaming automobile near Constanza and his body was burned beyond recognition. He had been very persistent in a struggle to "relax the tight dictatorial practices of the regime."

He was a writer, newspaper man and labor specialist.

KIRKUK, BUSY OIL CENTER in Iraq, erupted in civil war, Sunday, thanks to a pro-Communist revolt and Army mutiny. In the fight that is still raging, at least a hundred are reported dead and hundreds more are wounded. The fighting started Tuesday when Iraq was celebrating the July 14 anniversary of Premier Abdel Karim Kassem's 1958 anti-royalist revolution.

Tuesday, July 21
THE PLEASURE SHIP AQUARAMA, carrying 450 passengers, backed out at the Sixth street pier in Cleveland, Monday morning, turned, headed for the breakwater and rammed into the US Navy cruiser, Macon. The Aquarama, which has hit piers, warehouses and seawalls but never another ship during her career, was "shoved" over into the Macon by a heavy breeze that began to blow as she tried to maneuver by the stern of the 875 foot cruiser. The Macon's metal flag pole at its stern was bent and the pole, in the process, took a life preserver and a searchlight off of the Aquarama's deck.

The steel workers union leaders said Monday that they were "concentrating their hopes for shortening the costly tie-up on the possibility of a wage breakthrough in the Big Three aluminum companies." The aluminum industry faces the possibility of a July 31 strike. The steel union intends to start contract negotiations with them. Should the aluminum producers offer higher wages, the steel union will use that as a "lever" in attempts to end their current war between management and labor.

THE DEPARTMENT OF COMMERCE in Washington reported Monday that the business boom has boosted personal income to a record annual rate of \$382,900,000,000 in June. It was the tenth time in 12 months that personal income — a major economic barometer — has reached a new peak. The June 1958 rate was \$23,900,000,000 less when the impact of the recession was being felt. A record 67,342,000 Americans held jobs in June, 1959.

Wednesday, July 22
IN HIS REMAINING 18 months in office, President Eisenhower can foresee no chance of a real tax cut even though he hopes for a treasury surplus of two to five billion dollars in the fiscal year 1960-61. Before considering material tax reduction, he feels the government should have at least one year of solid surplus to go on.

Traffic Ticket Does Good Turn

Traffic tickets may irk some persons but one issued in Michigan last year recently made a Pennsylvania man happy when it led to finding a brother he had not seen nor heard from in five years.

James Heasley, of Irvin, Pa., stopped in at State Police headquarters at East Lansing and asked Captain Murray G. Young, commanding officer of the Records and Statistics Division, if there was any way he might locate his brother, Arthur.

A quick check of traffic arrests in the records bureau came up with a name the same as one given by the man from Pennsylvania. The address was in Detroit. A look in the Detroit phone directory listed the phone number of the wife.

Within a couple of hours the Pennsylvania man was comfortably seated in his brother's living room talking over old times.

March of Dimes To Hold Drive

Their treasuries empty, the Wayne County Chapter of the March of Dimes (The National Foundation) and 53 other county chapters in Michigan will conduct an Emergency Appeal during the month of August, Richard T. Kelly, chapter chairman announced.

"Every day we are getting deeper into debt," Kelly said. "On the basis of the more than 2,500 patients on our rolls, from the 1958 epidemic and previous years, we will owe hospitals, rehabilitation centers, and professional personnel more than \$412,000 by the year's end."

"If we should have another epidemic such as we had last year, the picture will, of course, be darker," Kelly said. "The 1959 March of Dimes held in January did not raise sufficient funds to carry chapters through the year either nationally or in Michigan. During the past year, national headquarters has sent the Wayne County Chap-

ter \$820,000 in emergency funds.

"We are now at the point where unless additional funds are forthcoming from the public, polio patients in Michigan may be stranded without hospitalization, physical therapy and equipment vital to their recovery from this crippling disease," he said. "One hundred per cent of the money raised in August will remain in the county."

While the August campaign will not be statewide, the 53 chapters are scattered and the appeal will assume statewide importance.

Kelly paid tribute to the March of Dimes volunteers who have expressed their willingness to back the campaign.

Gari Stroh Claims Bride in Indiana

Weds Linda Catherine Sadlier in St. Joan of Arc Church; After Reception in the Home of the Bride's Parents; Pair Leave for Europe

Mr. and Mrs. Gari Melchers Stroh, Jr., are en route to Europe following their Saturday wedding in St. Joan of Arc Church, Indianapolis, Ind.

The former Linda Catherine Sadlier, daughter of the George Sadliers, of Indianapolis, wore a gown of white silk organza and Chantilly lace. Her veil of silk illusion fell from a lace cap accented with pearls and she carried orchids and lilies of the valley.

and Jane Holton, of Indianapolis.

They were gowned in moss green silk organza and carried baskets of yellow roses and daisies.

Peter Wetherill Stroh was best man for his brother. They are the sons of Mrs. Gari Melchers Stroh, of Edgemont park, and the late Mr. Stroh.

Sandra Honors Smith came from Swamscott, Mass., to be maid of honor and the bridesmaids were Julie Kellan, of New Canaan, Conn.; Jeri Fox, of Denver, Colo.; Alice Frazer, of Grand Rapids; Eleanor McCoy, of Norfolk, Va.; Mrs. Donald Williams, Susan Wishard

Uhuring were another brother, Eric W. Stroh; John Stroh, Jr., and Nicholas Stroh, cousins; Harold Boyer, Jr.; Alger Sheldon, Jr., Milton Henkle, Stephen Edwards and the bride's brother, William G. Sadlier.

Engaged

At a recent family dinner, Dr. and Mrs. John Arnold Ross, of Harbor Hill, announced the engagement of their daughter, ELIZABETH CHARLOTTE, to Emil David Berg, son of the Emil Ludwig Bergs, of Abington road. The bride-elect was graduated from the Academy of the Sacred Heart, Lawrence Avenue, and from Trinity College, Washington, D.C. Her fiance is an alumnus of Notre-Dame and the University of Detroit Law School.

Young Englishman Sees U.S. On Station Wagon Cavalcade

Peter Newman is a 21-year-old Englishman who is driving one of the station wagons on a current cavalcade to west coast and back. These tours, originated by Chet Sampson, have been popular for years with young Pointers. Newman applied for a driving position as an ideal way to see more of America. His impressions are contained in a series of articles, of which this is the second.

Those of us who have read the works of Charles Darwin (and I certainly haven't), will know that one of his cardinal theories referred to the "survival of the fittest" in considering the evolution of the species. He would receive quite a shock, I feel, if he could rise like Lazarus from his grave and take a look at some species from Grosse Pointe — "fit" isn't a sufficiently strong word for them now. If we were to prolong this pseudo-intellectual analogy, we might consider Rousseau and his description of "The Noble Savage". But have no fears, none of the girls have turned into savages yet: their warpaint is far too civilized. What savage, after all, uses Helena Rubenstein?

quately filled by the charity of her friends, and a long-suffering State Police have seen to it that the clothes were sent on.

Au Revoir to The Rockies I didn't realize when I rhapsodized about the Rocky Mountains in my first article that there was so much more to come. Twisting and turning our way up tortuous but awe-inspiring roads, we eventually arrived at Silverton, an authentic western town which has been preserved in its entirety for people like ourselves to gaze and wonder at. One enterprising girl put us all to shame when she contrived to hire a horse and ride it down the main drag like a professional. This, incidentally, is the town with one of the few remaining narrow-gauge railroads in the country, where Mike Todd shot a sequence for his film "Around The World in Eighty Days." All the local traders are dressed up in the costumes of the 1890's, wearing waistcoats that were still a la vogue in Paris 30 years ago. The architecture and interior design of the buildings echoed this same spirit of the old frontier. The girls exercised remarkable control over their purse strings, which was fortunate because Las Vegas and Hollywood have never been renowned for allowing tourists to leave without making a sizeable contribution towards the welfare of the locals.

No Iceboxes for Indians After spending the night in Durango, where an exciting evening was had by all, we pressed on to the Mesa Verde. I had always thought that my bachelor living in a New York apartment tended to be a pretty cramped and squalid affair. But an excellent guided lecture tour around the ancient cliff dwellings of the Pueblo Indians taught me a lesson. We spent a whole morning climbing amongst these fantastic villages perched half way up the sheer face of a limestone cliff. The average size of a living room

A Matter of Routine After five days out, it was inevitable that the intricacies of cameras and K.P. would be mastered: the former with a technical panache that leaves me dumbfounded and the latter with a spirited verve that would make Handel's Water Music sound like rain seeping through a London fog. A routine of sorts has also been established. By this I mean the girls now judge to a nicety the period that they can allow to elapse between three peremptory honks on a horn and the time that they must "creep like snails unwillingly to breakfast". So much for routine in an existence of perpetual flux where everything chops and changes from day to day in a bewildering kaleidoscope of events.

Wagners Visit From Florida

Mr. and Mrs. Elmer A. Wagner have returned to their Sarasota, Fla., home after a two week vacation here. They were honored at several parties while they were the guests of former neighbors Mr. and Mrs. Dan Abbey, of Hawthorne road.

Barbara and Drew Wagner spent the vacation as guests of their uncle and aunt, Mr. and Mrs. John E. Ferrell, of Crescent lane, and Mike, Linda and Nancy Ferrell.

Among those entertaining for the Wagners were the A.O.A. Schmidts, of Lakecrest lane, the B. F. Martins, and the Howard Haarers of Hawthorne road; the Don W. Millers, of Lakecrest lane and the Gordon Wrinnis, of Iroquois avenue.

ON THEIR OWN A few can rest on their laurels — while most men are thrown upon their own resources.

New Boat Club Holds Gathering

The Little Boat Club, a new club for owners of small boats, met last night at the home of the Leo Cowlings, 659 Lakepointe avenue, for a pot luck supper served buffet style in the backyard.

Though this gathering was for adults only, the club was formed with the idea of entertaining the whole family. The members and their families take picnic cruises quite frequently, with their next jaunt planned for this Saturday to Metropolitan Beach. The club is limited to ten families.

Attending the party at the Cowlings home were, Comm. and Mrs. Harold Schall, the Martin Brutons, the Frank Cobbs, the John Millers, Mr. and Mrs. Ted Gunlach, the Leonard Klassens, Mr. and Mrs. Bob Mills and the Jack Siefert.

Whittinghams to Honor Eastern Visitors Saturday

The Thomas G. Whittinghams, of Oxford road, will give an informal dinner Saturday for the Samuel E. Cutlers, Jr., of Concord, Mass., who are visiting Mrs. Cutler's parents, the Burdette Fords, of Sunningdale drive.

Mrs. Whittingham's brother-in-law and sister, the Robert G. Smiths, who have been living in Riverside, Conn., are coming to make their home in the Pointe.

Benson Ford Marks Birthday at Dance

Little Club Transformed into Parisian Scene for Dinner Dance Given by Mrs. Ford to Celebrate His 40th Birthday Saturday Evening

Lester Lanin's orchestra came from New York to play at the dinner dance Mrs. Benson Ford gave Saturday evening for Mr. Ford, who was celebrating his 40th birthday.

The club was transformed into a Parisian scene for the party with tables for eight covered with curry colored cloths and hurricane lamps and white roses set up in the dining room. A copy of the Eiffel Tower outlined in miniature white lights decorated the grill room and a lighted l'Arc de Triomphe twinkled in front of the fireplace. Dancing was on the porch.

George Berg, of Buffalo, who was staying with the Fords.

The Lansing M. Pittmans and their guests, the David Chambers, of Indianapolis, who were at the party left Sunday morning from the Little Club aboard their boat, Pittkin, to cruise in Georgian Bay.

Another party guest, Mrs. Edwin O. Bodkin, left Sunday for Bryn Mawr, Pa., to visit her son-in-law and daughter, the Kirk Halls. Mr. Bodkin will take a party aboard their cruiser to see the start of the Port-Huron to Mackinac Race.

The Fords will leave this Friday for Port Huron aboard their boat, Onika, to see the start of the race.

Staggering Figures Revealed Following Girl Scout Roundup

This is the last news letter received from Sue Tillison, patrol reporter for the Grosse Pointe group at the Girl Scout Round-up of 1959.

July 20, 1959

The Roundup was equipped with many services. For example there was a bank in each section where girls could deposit their money and valuables, such as watches and train tickets. A laundry pick-up was also available. One of the main services that was provided was a daily bulletin. It told about all the activities that were scheduled for the day and it also gave the daily forecast.

Other things provided were: mail delivery (twice a day), film developing service, telephone service, incoming and outgoing, and telegram service.

The 1959 Girl Scout Roundup lasted only ten days but took three years of preparation. Here is just an idea of the amount of food we all ate and a few other interesting facts. There were 327,000 meals served, 28 tons of meat, chicken and fish consumed, 15 tons of fruit, 3 1/2 tons of fresh butter, 3 tons of sugar, 146,000 quarts of milk, 70,000 eggs, 34-300 loaves of bread, 65,000 rolls, 70,000 servings of soup and nearly 222,800 servings of various jellies and jams. We also used 7 1/2 tons of paper bags (for garbage and waste paper) almost 500,000 paper napkins and nearly 800,000 plastic coated items including cups, plates and dishes.

During the twelve day long encampment of 6,000 tents and nearly 10,000 people, we were the seventh largest city in Colorado. The girls who made up this city came from all fifty states and twenty seven other countries.

Transforming 1,200 acres of prairie rangeland into a community of 10,000 people meant building roads, setting up electric and telephone facilities,

Young Englishman Gives Views of US

(Continued from Page 14)

In these dwellings was about 6x8 feet. It occurred to us that sardines are probably more comfortably off. A tour of the local museum gave us an excellent picture of the arts, crafts and domestic appliances of these people, and a sequence of minutely constructed dioramas depicted the various stages of civilization through which the Indians passed before the great exodus to the south during a severe draught at the end of the thirteenth century.

From here to Gallup, a town containing a population which includes a cosmopolitan cocktail of Mexicans, Indians, plus of course a few Americans! I suppose I'm expected to make some reference about "trotting into Gallup," but I feel certain that someone may have said it before me. At noon the next day, we passed through the Painted Desert and saw the multicolored sands shimmering in the heat with a soft pastel glow. A visit to the Petrified Forest concluded the sightseeing for the day and we went on to our sleeping quarters for the night in the Grand Canyon.

Grandeur in a Canyon

I suppose that one shouldn't be surprised if one of the natural wonders of the world presents such a breathtaking spectacle. This gigantic and ever-deepening gash in the earth's surface is a phenomenon of many moods: at one time warm and inviting in the morning sunlight with its soft red limestone, and at other times sombre and menacing as the shadows creep and lengthen ominously across the face of bottomless gorges.

We spent a relaxed day visiting all the sights in the canyon and listening to a lecture which described how the canyon enshrined the whole span of geological history from time immemorial. In the evening we were fortunate enough to watch one of the best documentary

films I have ever seen. It repeated the ringer lecture in more or less technical terms; but the script contained a brilliantly written commentary which blended the voices of two commentators. One of them would set the scene in prophetic language with vaguely biblical overtones, giving descriptions of a changing earth against a pictorial backdrop of a symbolic ocean. "In the beginning, there was chaos..." in haunting and resonant tones which would alternate with a practical and succinct technical commentary. The music meanwhile surged and erupted in impressive harmony with spouting volcanoes and waters in flood.

Exodus to Zion

Sleeping quarters near the canyon were very comfortable, but they were even more comfortable in Zion National Park where we were destined to spend three days. Immediately above the camping ground lies Lady Mountain which we climbed on our first day. Towering 6,940 feet high, it is a challenge that has daunted some of the most enthusiastic members of Sampson tours in the past.

This time, however, it was to be a different story. An amazing record was established on this trip, by which thirty-nine girls out of a party of fifty-eight climbed to the summit. The climb took most of them around four hours to the summit and back, and was an impressive feat of endurance. Late that same afternoon, the successful mountaineers secretly, and not so secretly, pleased with their performance, trailed home to a delicious dinner of roast beef. As if this wasn't enough, we made a long hike across the bottom of nearby Bryce Canyon next morning. One of the more athletic drivers succeeded in breaking the thirty-seven minute record for the route we took, by running over it in 32 minutes under a blazing sun. As the French might say, "C'est magnifique, mais..."

Most of us, I think, were sorry to leave Zion, because our stay there had verged on the idyllic. Bill Winkler organized a private little camping ground for us with green pasture running down to a cool, swift-running stream. Here we could wash our clothes or swim to our heart's content. At the Lodge, a quarter of a mile down the road there was nightly entertainment which provided a pleasant relaxation after a days' hiking.

The weather on this second stage has been hot but pleasant. Sleeping out on a bed of pine needles under the stars would inspire even the most insensitive person to a Wordsworthian rapture. If you lie in the shade of a tree and look up at the stars through the branches waving in a gentle breeze, they seem to form a framework for a thousand mental images which cross and re-cross the mind until everything wells into slumber.

Pulte-Cummings Troth Revealed in Grand Blanc

Hot Stakes

Out of the frying pans and into the fire of the Nevada Desert on our way to Las Vegas, where we arrived yesterday evening. The phenomenal town, festering at night like a fiery carbuncle on the face of a barren earth, left us all gasping with astonishment; an astonishment that hinged not only on seeing the sumptuous halls of the Desert Inn, the Flamingo and so on down the "strip," but also on the fact that such a scintillating neon jungle had contrived to grow and flourish in the midst of a few sparsely distributed cactus plants. No one has yet been able to explain this satisfactorily to me.

We spent an exciting evening on the town watching the fruit machines or one-armed bandits take their inevitable toll, and the roulette wheels clatter their way inexorably through fortunes.

Most of us were lucky enough to be able to see Louis Prima and Keely Smith give an impressive performance at the Sahara before retiring to sleep. "This evening and tomorrow we will drive on to 'fresh woods and pastures new'—and more specifically, to Hollywood.

Penny Lee Honored At Farewell Party

Dr. and Mrs. Patrick J. Cummings, of Grand Blanc, announce the engagement of their daughter, Patricia Jean, of Huntington Woods, to Michael L. Pulte.

He is the son of the William J. Pultes, of Buckingham road. The bride-elect attended Flint Junior College and John Robert Powers Modeling School in Detroit.

After graduation from Grosse Pointe High School the prospective bridegroom spent two years in the Army. They will be married October 24.

Penny Lee, daughter of the James W. Lees II, of Chalfonte road, was honored at a farewell party Wednesday evening by Terry Kinnear, daughter of the Joseph D. Kinnears, of Seven Mile road.

Among the guests at the buffet supper were Colleen Neill, Anne Wunsch, Peggy Waggoner, Beverly Scales, Ingrid Svenson, Sue Bartholomew, Barbara Knudson, Helen Gray, and Pat McKee, of Mt. Clemens. Penny is moving to Darien, Conn., with her parents shortly.

Grosse Pointe Symphony Plans for Four Concerts

Scheduled for a glorious season of four Sunday afternoon concerts, the Grosse Pointe Symphony Orchestra's officers and board of directors are actively engaged in plans for the 1959-60 events.

The Grosse Pointe Symphony Society held its annual meeting recently at the home of one of its board members, Mrs. Arnold W. Lungershausen of Berkshire road. Heading the Society as president for the 1959-60 season will be Mr. J. Leslie Berry of Sunningdale drive. Other elected officers are: Mrs. Bogden Baynert, executive vice-president; Mrs. Arnold W. Lungershausen, vice-president; Mrs. Reginald T. Murphy, recording secretary; Mrs. Gerald L. Stoetzer, corresponding secretary; and Mrs. John Purcell, treasurer.

The Grosse Pointe Symphony Orchestra was founded seven years ago by Thomas Nestor of Hall place who is now its honorary president.

The board of directors for the society includes: Miss Camilla Ayers, Mrs. Raymond B. Boer, Miss Mary Alice Case, Robert Downie III, Mrs. Winfield S. Jewell, Jr., Jerome Keane, Thomas LoCicero, George F. Mehling, Mrs. Alfred

Three of the concerts will be presented in the auditorium of the Parcels Junior High School in Grosse Pointe, and the fourth at the Grosse Pointe War Memorial. The orchestra will again be under the direction of Felix Resnick, well known to Grosse Pointers and Detroiters as a conductor and violinist. Outstanding artists are slated to appear as guest soloists.

A special feature of the Sunday afternoon concerts will be the social hour after each performance. Here the audience, orchestra, and soloists have an opportunity to meet and visit over a cup of coffee.

HOUSEHOLD HINT

Decorate the small room in your home to look as spacious as possible. Home furnishings specialist at Michigan State University suggest background areas be done in the same or blending colors. These colors should be light and soft. Use bright colors in smaller amounts for accent.

Eight Pointers Choose Glen Lake Vacation

Four couples from the Pointe have traveled to Glen Lake, Mich., to spend their vacation. They are staying at the Glen Eden Hotel.

Mr. and Mrs. J. C. Huysken, of Hampton road; Mr. and Mrs. Fred Rogers, of Huntington road; Mr. and Mrs. L. J. Morrison, of University place; and Mr. and Mrs. Charles M. Knaggs, of Huntington road are at Glen Lake.

Joining them were former Pointers Mr. and Mrs. Jack Kerus, of St. Clair Shores.

GONE FOREVER

The saying that time is money probably comes from the fact that both of them fly.

SO TRUE

To err is human — the man who fails to profit by his mistakes is a classic example.

SETS EXAMPLE

It isn't as much what a man professes, but how he lives his life that really counts.

OVER-CONFIDENT

The man who can turn a bluff into ready cash soon stumbles over his own success.

A fireman carries baby Russell from the burned home.

POTENTATE—Dr. Clayton F. Andrews (above) of Lincoln, Neb., is new imperial potentate of the Ancient Arabic Order of the Nobles of the Mystic Shrine. He's shown after election at 85th convention, Atlantic City.

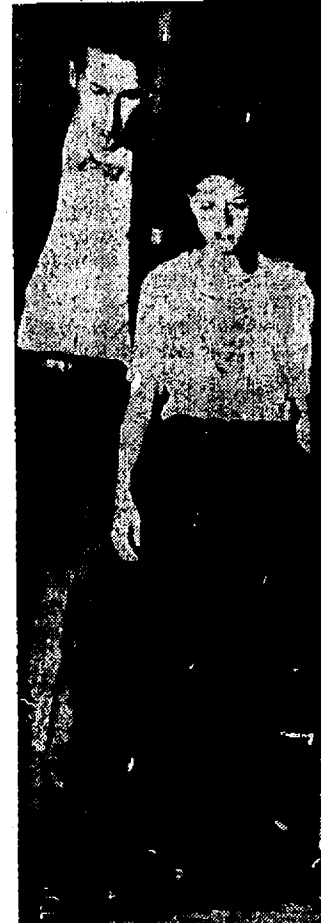

SECRETARY RECEIVES NEW CRUTCHES—Secretary of State Christian Herter (center) talks with Herman Vander Mohlen (left), Grand Rapids, Mich., crutch maker, after Vander Mohlen presented him with a pair of newly-developed walking aids. Vander Mohlen walked from Grand Rapids to Washington, D. C., to test his new crutches; said they are easier to use than others he has tried. Herter suffers from an arthritic condition; Vander Mohlen has only one leg. At the right is Rep. Gerald Ford (R), Michigan, who arranged meeting.

CONSIDER DOMINICAN REPUBLIC PLEA—Members of the Council of the Organization of American States confer in Washington on the request of the Dominican Republic that a foreign ministers meeting be held under terms of the Rio pact—the Dominican Republic accuses Cuba and Venezuela of aggression and aiding invasion attempts. From left: Dr. Gonzalo Escudero, Ecuador, chairman; Raul Roa, Cuba; Falcon Bricano, Venezuela; Diaz Ordenez, the Dominican Republic.

Margaret Langois is helped after leap from second floor.

FIVE CHILDREN PERISH—Flames which are believed to have started in the kitchen left these scenes and five children of Mrs. Margaret Langois, 26, dead in Mount Clemens, Mich. A sixth child, Deborah, 8, escaped by leaping from a second story with her mother. Both Deborah's legs were broken.

SPORTS MODEL—Linda Beddoe, as "Miss Tri-State Autorama," displays best-car-of-the-show trophy for the conclave of sports cars to be shown at the Cuyahoga County fairgrounds July 10-12. The cars will come from Ohio, Michigan and Pennsylvania. (Central Press)

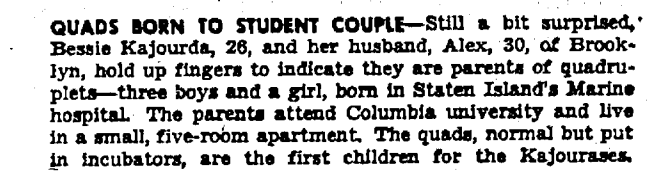

STILL HOPEFUL—While the steel industry was preparing to begin banking furnaces for a nation-wide strike of 500,000 workers, David J. McDonald, president of the United Steelworkers of America, told newsmen in Washington he has not abandoned hope that a settlement could be reached before the June 30 midnight deadline.

RULES ON LONG—Judge Robert D. Jones (above) of the 22nd judicial district, New Orleans, La., will rule on Louisiana Gov. Earl K. Long's habeas corpus petition to obtain his freedom from a state mental hospital. Long claims he was "railroaded" by his wife and nephew, U. S. Senator Russell B. Long.

14, KILLED BOY—A detective escorts Kenneth De Voe, 14, from police station in New York after the boy admitted bludgeoning 6-year-old Zoltan Toth to death. The victim's body was found in an empty tenement basement, the skull split open by a blow from an iron pipe. The Toth boy was son of Hungarian parents who fled from the 1956 revolt.

QUADS BORN TO STUDENT COUPLE—Still a bit surprised, Bessie Kajourda, 26, and her husband, Alex, 30, of Brooklyn, hold up fingers to indicate they are parents of quadruplets—three boys and a girl, born in Staten Island's Marine hospital. The parents attend Columbia university and live in a small, five-room apartment. The quads, normal but put in incubators, are the first children for the Kajourdas.

COOL POOL—The ice man dropped around just in time to help Linda Lusader make her pool cool in Riverside, Calif.

FOUND AFTER 29 YEARS—Mrs. Mildred Debonis, 32, and her mother, Mrs. Ruby Shelton, 63, are tearfully reunited in Los Angeles after a 29-year separation. It came about after the woman Mrs. Debonis thought was her mother told her, last fall, "No wonder you don't stick by me. You're not my daughter anyhow." Mrs. Debonis then began a search, checking county clerks in Kansas, Missouri and Arkansas. Finally she traced an aunt in Oxnard, Calif., who told her her mother was in Las Vegas, Nev. The woman Mrs. Debonis thought was her mother had spirited her away while her actual mother was at work.

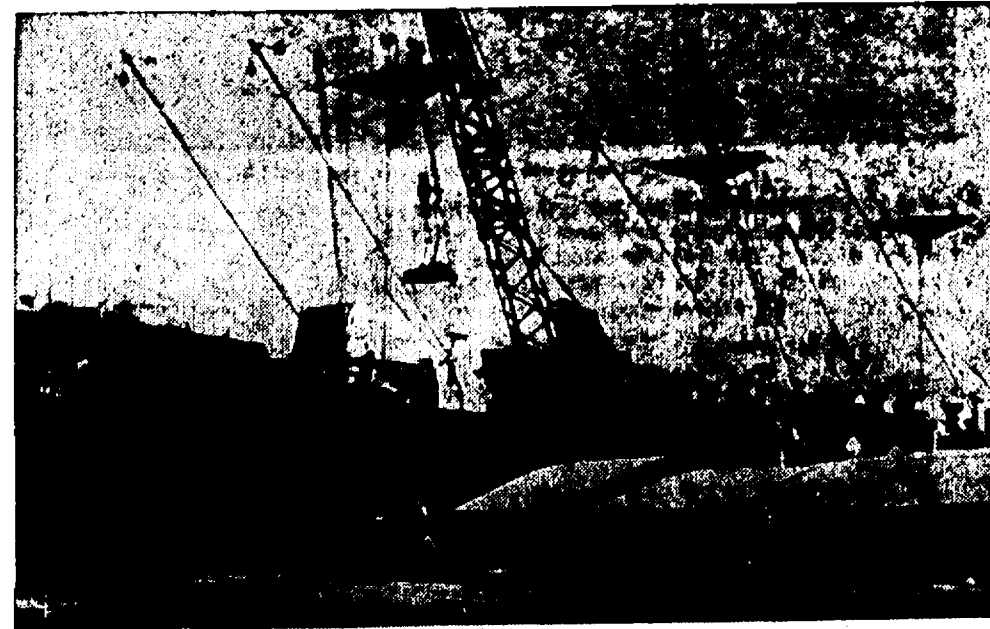

HITCHCOCK PRESENTS!—Just returned from a marathon honeymoon trip with her disabled third husband, Mrs. Helen Babin Bartlett, a 52-year-old grandmother, was arrested in Buffalo for the 1966 bathtub drowning of her heavily-insured second husband. She was charged with first degree murder after she made a signed statement admitting she killed Alfred J. Babin, 43, while he was bathing. Police were put on her trail when insurance companies reported she had obtained, or applied for, a series of accident insurance policies on No. 3, Wright Bartlett, 69, amounting to over \$100,000.

HONEYMOON DELAYED—Married in the living room of the sheriff's quarters at Summit county jail in Akron, O., Nanslee El. McDonald Schultz, 24, kisses her husband, Robert L. Schultz, also 24, before he is returned to his cell. It may be years before she kisses him again. He faces three charges of armed robbery and said he had decided to plead guilty.

CHARMING—At the last session of the St. Petersburg, Fla., Charm school, girls chose Beverly Harrell (left), 16, "Miss Summertime," and Charlotte Van Buren, 14, "Junior Miss."

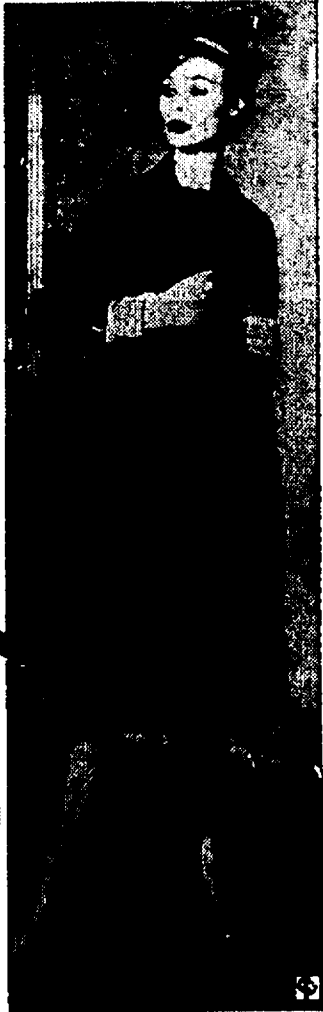

50 STEEL COMES FROM JAPAN—A Japanese ship unloads steel plate at Houston, Tex., as the steel strike swings into high gear over the nation. Five ships unloaded 21,600 tons of steel at the port.

IN THE MIDDLE—Ingrid Bergman is "in the middle" as result of a decision by a Rome court of appeals, which ruled she still is married to Roberto Rossellini (left), although she wed Lars Schmidt (right) after getting an annulment. The court of appeals reversed the annulment. Now then, huh?

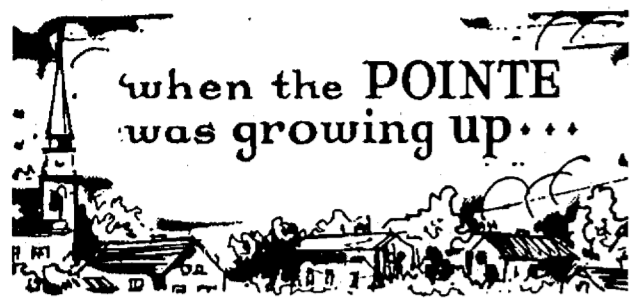

SUIT YOURSELF THIS FALL

Left: "Jean Harlow" suit by Anne Klein in oatmeal tweed. Center: Monte-Sano and Pruzan's youngberry chiffon suede velour suit with matching wool lace blouse and turban. Right: Brown and pink-beige checked suit by Tonraye of Marquise.

A WIDE CHOICE is yours this autumn, when it comes to suits. The fluffy-furred blonde look of the 1930s is back in vogue (left) with fur trim everywhere. The little-boy look, with wide collar and straight-lined front, continues, with added sleeve interest (center). For the conservative there are comfy Chanel-type jackets and pleated skirts (right); the traditional fitted jacket is also back.

When the POINTE was growing up...

Pine cut from the surrounding forest in the early 1800's hides behind synthetic siding in the old Jerry Vernier home...

Jerry Vernier was a cousin to Jean Baptiste Vernier di Ladoucier, who was granted four hundred acres of land in 1808.

Verniers in the past have been road house proprietors. In 1888 John Vernier ran a roadhouse at the foot of the road which bore his name.

Under his management the frame building expanded its activities, became a gambling house and hotel as well as restaurant.

In 1915 Ed Vernier abandoned this hotel and opened a larger one north and west of the original roadhouse.

The home now owned by the Robert Verniers has been handed down along with the land through the years.

Robert Vernier, who has worked as a janitor and builder, married Alice Maison, whose family came from L'Anse Creuse...

Legend has it that a young Frenchman cursed the church and the priest in charge and soon after his blasphemy and early death a huge storm lashed the settlement...

Alice Maison and Jerry Vernier brought up 16 children in the venerable house in Vernier road. Today eight of their offspring live in the Grosse Pointe area.

But the interior's sagging stairs and wide old pine floors show the passing years. It has the old low ceilings and pine wainscoting...

A feline fan is a devoted one and unfortunately cats seem to be, unlike dogs, an animal you either love or can't abide.

When the tired husband arrived home from the office the other evening he found the senior cat on the doorstep and let him in as he had let him out on the way to work that morning.

Authentic Early American decorators are a determined group of collectors and Michigan is far from an exciting treasure trove to garner antiques.

Mrs. John Leigh Edwards was surprised by two callers last week, aged six and eight. Fred and Mary Arnes, hand and hand, had wandered from their Cranford Lane home...

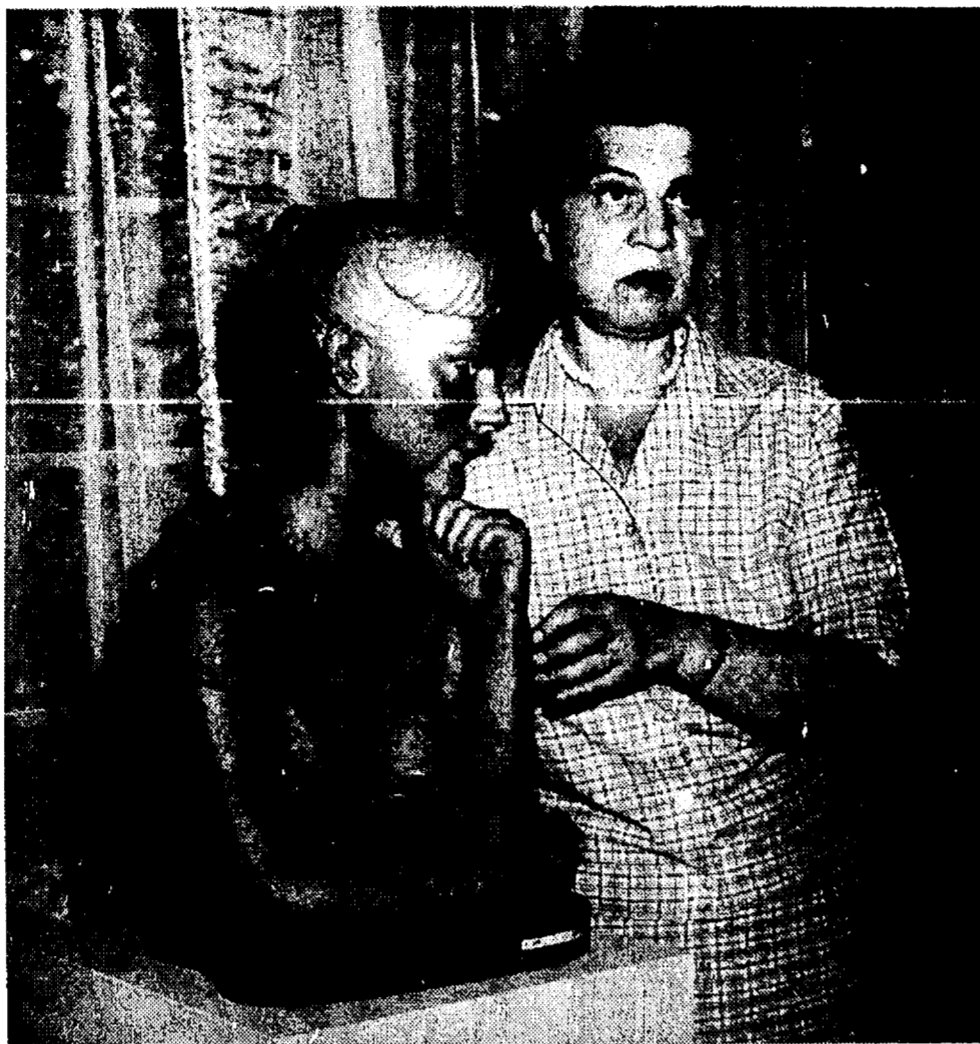

PILFERINGS

"Do you have any wild rice?" a customer asked a waiter in a restaurant.

Sin and dandelions are very much alike. To get rid of them is a lifetime fight and you never quite win it.

The American influence has reached Paris—with modification. A tourist walking in Luxembourg Gardens saw a group of children playing in a sandbox.

Pointer of Interest

MRS. RUTH HUTTON ANCKER, OF NEFF ROAD

By Patricia Talbot

Creating a prize winning piece of sculpture takes talent, but for a woman it also demands great physical strength.

A quiet reflective woman with more than her share of poise, Mrs. Ancker can be a demon at work. For years she was a fine commercial artist for the fashion world...

Many of her friends and critics had told her that her fashion designs had a three dimensional quality. When she decided to take up fine arts professionally...

How to Begin

Sculpture, the type Mrs. Ancker does, begins with an armature, a frame, which she may make herself from wood or metal on which to build the clay.

On her living room table is a remarkable ballerina, done in pink fiberglass, one of the pieces which drew favorable critical comment during her New York show.

Water Color Artist, Too

Her home in Neff road is filled with her work and copies of heads she has already sold. Sculpture, unlike painting, may be copied.

When a bust is commissioned she packs the back of her station wagon with clay, pedestals, sacks full of tools and drives away to the subject...

Years of Study

Mrs. Ancker has studied at the Art Museum School in Philadelphia; Parson's School of Design in New York and Columbia University.

—Photo by Fred Runnells

She's a Neat Worker

Mrs. Ancker is a real professional and her working habits are too. She does not create in a welter of rags, clay and confusion.

In ten years, (she began exhibiting in 1950) she has become a star in her chosen field, but she reminds the artistically inclined she began with years of training in the highly competitive commercial art world of fashion.

BREAK EVEN

The millennium will have arrived when a vacation plan is devised that will give the pocketbook one at the same time.

TIP TO MOTORISTS

People who travel at too fast a pace on highways are only hurrying the footsteps of Father Time.

Good Taste

Favorite Recipes of People in The Know

ITALIAN EGGS

Contributed by Mrs. John Randolph Stearns. 1 Tb minced onion, 2 Tb melted fat, 1 Tb minced parsley, 2 cups pureed tomatoes, 1/4 cup diced soft cheese, 4 eggs.

Mrs. French Entertains At Georgian Bay Home

Mrs. John H. French, of Lakeshore road, and her sister, Mrs. Charles Mear, of Sunningdale drive, left Thursday for Mrs. French's summer home...

DREAMER

A man may think he can make a success of anything he undertakes, but only too often he turns out to be an unsuccessful thinker.
