As soon as the running commentary has been attached to each slide, the Council plans to send to the many organizations in the area, a notice of this augmented slide-lecture on outdoor Christmas lighting so clubs can plan well in advance to include the talk in the planning of their programs. There will also be a public showing.

The Council wishes it had been possible to take many more pictures as there were so many and such different displays of real merit. The Council does wish to express its appreciation, however, to the thousands of homeowners who expended thought and criginality in dressing up their homes for the holidays.

To the merchants and municipalities and those connected with the public buildings and hospitals the Council ex-tends a very big "thank you." The decorations in the shopping centers, the large lighted trees, the many welcoming entrances, the spiritual themes and the jolly sleighs and Santas for the children, completed a beautiful picture

The magic of the new Italian and twinkling lights, and the pastels of the spots and floods on the snow, can now produce effects that are breathtaking. Never has Grosse Pointe been more lovely. The Council hopes that everyone had time to drive around the community to appreciate and feel the glory of the message of Christmastide.

D. LYLE FIFE, 570 Ballantyne road, was honored recently by Detroit's Mayor LOUIS C. When questioned at the police station by Captain Andrew Teetaert, Pinard admitted that he had entered the station, using his key, on two previous occasions and had taken some \$37 in cash.

Mural of International Adages

This photo-mural on the west wall of the Adult Reading Room of the Pointe's Main Library, Kercheval and Fisher, is a photomontage consisting of enlargements of various examples of ancient scripts: Greek, Roman, Hebrew, Arabic, Sanscrit, Egyptian, Chinese and others. This decoration was made by Herbert Matter of New York, one of the most creative photo-

graphers in the United States, who was commissioned by Hawkins Ferry of Neff road to do the work in 1953. Each example of script is an ancient saying or proverb, and represents early examples of communications by the written word, an appropriate decoration for a library. The mural has attracted a great deal of attention from the users of the library.

Auto Accidents *Injure 25,000*

Nearly 25,000 persons were injured in motor vehicle accidents in Detroit in 1960, according to reports of the Detroit Police Accident Prevention Bureau.

Too many of these persons were severely injured, permanently crippled or impaired for life, the Traffic Safety Association says, crippling injuries re-

Grosse Pointe High School's swimming squad resumed competition after a three-week layoff and whipped Dearborn Fordson 7-34 on Friday, January 6. It was the third straight Border Cities League victory for the

The always powerful Monroe Trojans will provide a stern test for the Devils Friday at Monroe. A Grosse Pointe triumph over Monroe would virtually assure a second straight undefeated BCL championship season for the Devils. Monroe has already defeated Wyandotte, the only BCL team besides Monroe that the Devils haven't met and conquered.

Times Very Good

The times of the Blue Devil tankers were surprisingly fast in view of the toned down schedule of vacation practice sessions, Although no records were broken many swimmers recorded their fastest times of the season.

With the state swimming championship to be decided at East Lansing in only two months, the big push is on to reduce times to a minimum. Coach Paul Wheeler and his team want to repeat as state champions and are working hard

It will be about two weeks before the season gets into full and are held once a week-of swing. During this time, all the teams will play one another in order to determine their abilities. They will then be placed into one of three divisions, either A, B, or C.

So far nine churches have been represented. They include: St. Paul, Grosse Pointe Woods Presbyterian, Grosse Pointe Congregational, Grosse Pointe Methodist, St. James, St. Michael's, Grosse Pointe Memorial, Our Lady Star of the Sea, and Christ Church.

Of these teams, Grosse Pointe Woods Presbyterian looks like the one to beat in the A division. St. Paul is always a threat in all three divisions and so is Our Lady Star of the Sea. Christ Church also put on a good showing in the A division. All games are played at the

The Inside Story

Next time you see a truck on the road, picture some of the things you buy right along . . . or have in your home . . . or hope to own some day . .. and you'll have the inside story on what that truck's carrying. For it's a fact that everything you eat, wear or use travels part or all of the way to you in trucks. The familiar things that are required to run a household— or a business—they all depend on trucks to get where they're needed. So, you see, the real inside story is that trucks are absolutely essential to your everyday living!

Jack Wachter and Glen Cross shared scoring honors for St. Paul while Mike Goff and Tom aliers, St. Paul showed the great | toughest team in the league.

High, St. Stanislaus became one defense they have by shutting of the victims of the high flying out Ambrose the first quarter and three and a half minutes of the second.

When a confident spectator asked Coach Lauer at the half, 16-10, whether the Lakers would reach 50 he replied, "I'm concerned about winning the game first." The 50th and 51st point came as Chick Hiener sank a one handed set shot with less than a minute to go.

St. Paul's co-captains were both on the injured list. Joe Ayrault missed Tuesday's and after a victory Tuesday but it Friday's games while Tom Moxley was also benched, both have sprained ankles but will be ready for the next game, which will be Friday against St. Ladislaus, at their gym. Valuable Acquisition

Tape recordings of the entire Lenten Lecture Series which proved so popular in the Pointe last year, have been donated to the Grosse Pointe Public Library. This is a valuable acquisition which was enthusiastically accepted by unanimous vote of the board of directors of the Friends of the Grosse Pointe Public Library.

Joseph N. Jennings, president of the Friends group, has acknowledged the gift in a letter to George R. Mc-Mullen of St. Paul avenue, layman affiliated with Christ Episcopal Church, who conceived the idea of the lecture series and organized the program. The lectures were taped as a public service by Radio Station WJR.

Seven churches participated in the program last year, with the minister of each delivering a lecture on successive Tuesday nights from March 1 through April 12. Audiences packed the Pierce Junior High School each week to hear the spiritual leaders talk on the history, organization and tenets of their particular faiths. Believed to be the first time such a program has been staged anywhere in the country, the series attracted national attention and many other communities are expected to take up the idea. Question and answer periods followed each lecture and those who attended acquired a very comprehensive understanding of the various churches which serve the Pointe.

Robert Orr, director of the Public Libraries, is very pleased with the gift and hopes to have the tapes duplicated for loan purposes so they can be of real service to the community.

How do we read prescriptions?

By FRED KOPP, R.Ph. According to some of our

customers, prescriptions are not written-they're doodles. Yet your pharmacist looks at the cryptic scribbles and calmly reaches for a bottle. The right bottle. Prescriptions are written in a special international language known to physicians and pharmacists . . . a kind of universal, standardized shorthand that's grammar- and penmanshipproof. It exists so any registered pharmacist anywhere can fill your prescription accurately. That's how we're always able to give you just the drug your physician prescribes, and why the directions are always correct.. We are pleased to serve you whenever prescription medication is required.

Among the most exciting sagas in the growth of Grosse Pointe is the story of public school evpansion. As late as 1925 there was no high school although the pupil enrollment had increased to 205. Graduation exercises were held in elementary schools.

The twenties were the years of great residential growth and with this came the demand for the schools. Many students attended Hanstein School which was north of Mack, but in 1925 this school was about to be annexed by Detroit leaving another gap.

The land for the proposed high school in Fisher road had been purchased for \$247,500 although the school was not to be completed for several years. High School students studied at Cadieux School, where the Board of Education officers are now located.

There was the need for new schools but some controversy over the land to be purchased. The school board had purchased property on Beaconsfield, Nottingham and St. Paul for a school but this was condemned and sold in 1926 for \$43,937.20.

1925 was the decisive year for the high school plans were completed, Trombley and Defer schools built and most important of all, the Pointe schools were consolidated after much arguing. By May 1928 voters went to the polls to vote on

bond issues which would buy the land which is now Richard School, Kerby School and a parcel in Rosyln road. The issue passed. The Pointe School system was now spending about \$130 a year on each school student, and there were 2,055 enrolled in the entire system, fewer than attend the high school alone today.

The present Grosse Pointe University School, then a private school for boys only, began building in June, 1928. The school building was to cost \$400,000. On the a Community Values Commitboard of trustees at the old school, located at Parkview tee, headed by Dexter Ferry. avenue downtown were Charles B. Warren, Edsel Ford, Edgar Bowen, Ford Ballantyne, Allan Shelden, C. Henry Haberkorn and Mrs. Charlotte Berry Sherrard, is mainly interested in forming

By 1928 the need for future junior high schools was already felt. There were four proposed sites-Nottingham and Berkshire; a parcel adjacent to the High School; Cook road near DUS and Roslyn road. None of these help for these law breakers sites was ever used.

There was great dispute about the junior high school problem. Albert Meader told the board "I wish the Board of Education would stop its 'childs play' and settle the business before it in a business like fashion." Charles A. Poupard, a school board member refused to vote when a site on St. Paul and Audubon was rejected in favor of the land near the high school. The cost to the tax payers in the delay over the agreement was estimated to cost \$50,000.

Dr. Samuel Brownell said the Pointe must have the schools by 1931 but in that year there was still debate and the proposed sites had been changed again. By 1932 there was still argument raging and charges that politics had entered the school board elections were rife. Pointe school enrollment continued to grow and taxes to rise.

who, where and whatnot

Teaching children telephone manners is an arduous chore in which a little humor can lighten the situation. The Rev. W. J. Goodwin, of the Salvation Army, reports that in making a routine call to the McKinley avenue offices, plus scenes in the front home of Joseph G. Black, fifth grader the Junior Joey answered; "This is the Black summer home, some are home and some are not. Who do you wish to speak?" Something special in greetings from the Black menage which charmed the reverend and us.

Mrs. C. Henry Haberkorn, III has taken on the job ped in the entire country. It is of giving the junior Girl Scouts a little education in the always visited by travel authorihistory of Grosse Pointe, She is particularly interested in finding some historic spots the girls could visit . . . was amazed to learn that her mother-in-law, the senior Mrs. H., lives in one of the few remaining Victorian lakeshore mansions, "Beaurivage", built by John Dyer before the turn of the century when the Pointe was still a summer resort.

Our apologies to Mrs. W. Hurst Montee who kindly contributed a receipe for beef and noodles last week. One ingredient was omitted when the recipe was printed.... It won't be a success unless a cup of cottage cheese is added.

One way to teach the very young how to play bridge is to have a foursome at home as the Robert Warmholds have ... there is sister Karen, now at the U. of M., twins Joan and Jean and one year younger Barbara. All three CITY MICHIGAN of the junior high lassess are cracker jack players, can even beat their mentor and teacher, Mrs. W.

Dogs and cats are proper pets for the young set, even an occasional gold fish or parakeet, but in the Perry TeWalt family there are no complaints because daughter Jessa's favorite is a white mouse, which periodically escapes.

PILFERINGS

No one ever regarded the first of January with indifference. It is that from which all date their time, and count upon what is left. Of all sound of bells most solemn and touching is the peal which rings out the old year. I never heard it without a gathering up of my mind to a concentration of all the images that have been diffused over the past twelve-month. All I have done or suffered, performed or neglected-in that regretted time. I begin to know its worth as when a person dies. It takes personal color; nor was it a political flight of a contemporary when he exclaimed: I saw the skirts of the departing year'. It is no more than what in sober sadness, every one of us seems to be conscious of in that awful leave taking. . . Charle Lamb.

Trying to impress the minister making a sick call, old Mrs. Smith called to her young granddaughter to bring her the Bible. "Betty Anne", she called, "bring Granny the big book she is always reading."

Seconds went by before young Betty Ann showed up carrying two heavy volumes. "Granny," she asked, "do you want Sears, Roebuck or Montgomery Ward?

One way to learn the value of money is to try to

Grosse Pointe's "Kercheval on the Hill" shopping area took on the appearance of a motion picture set last Saturday, when Chet Sampson's Travel Service was utilized as the background for a coming motion picture

The scenes were shot for a film which is expected to be seen on television during this winter season. Included were exterior shots of the Sampson reception area as well as of the private conference rooms.

Transportation and hotel people who visit offices of travel services throughout the country claim the local agency to be the most beautiful and best-equipties when they come to Detroit

The only portion visible from the street is the reception area, but behind this area are a series of beautifully-furnished conference rooms. A fullyequipped kitchen makes it possible for the agency to arrange for large parties, and a short time ago a buffet dinner for 175 representatives of the travel industry was held at the office. Many of these features will be seen in the completed film.
