HUBERT H. HUMPHREY, in his first presidential campaign appearance in Michigan Wednesday night was greeted in Flint by crowds of pro-Wallace and anti-Humphrey demonstrators. Secret service men had to fight a way open for him to the speaker's stand.

PRESIDENT JOHNSON'S administration shook the automobile industry Wednesday by reports that they were preparing to head off a \$200 average price increase on the 1969 models. There were no official denials of the amount of the increase which would amount to about eight percent, because according to each of the major manufacturers, final cost and price studies have not been completed.

THE DEPARTMENT of Health, Education and Welfare Task Force on prescription drugs, which has been working since May of 1967, claimed in Washington yesterday that the drug industry makes exceptional profits without exceptional risk and that high drug costs probably lead to needless illness among elderly persons. It said elderly persons have far greater needs for prescription drugs than any other group and that many cannot meet their needs with income, savings or insurance coverage.

B. J. TENNERY, Dean of American University Law School, told Senators in Washington Friday who are considering Abe Fortas' nomination as Chief Justice, that Fortas was paid \$15,000 to deliver nine law school lectures this summer. Senator Strom Thurmond, R-S.C., a leading opponent of the nomination, said at a hearing of the Senate Judiciary Committee that it was improper for a Supreme Court justice to be paid for work he does outside the court. Supreme Court observers said it was not unusual for justices to give university lecture series, sometimes for a fee.

Sunday, September 15
PHILIP J. MAY, suspended top fiscal officer at Michigan State University will be back at work by Friday, but with considerable less control over university money matters. His new responsibilities are to be spelled out in what is anticipated to be a stormy session of the MSU Board of Trustees. May was removed from the payroll August 31, following a ruling by Attorney General Frank J. Kelley that May's private business dealings represented a conflict of interest with his role as treasurer and vice president in charge of finance at MSU.

DENNY McLAINE, WAS the man of the hour Saturday when he won his 30th game at Tiger Stadium against the sixth place Oakland Athletics. Willie Horton won Denny's game with a run-scoring single that made McLain the first major-league pitcher in 34 years to win 30 games.

Monday, September 16
DETROIT TELEVISION STATION, WJBK-TV (Channel 2) and WWJ-TV (Channel 4) were among the 140 stations across the nation that aired a documentary film expressing Chicago's official version of the street violence during the Democratic National Convention. Chicago officials put forth the view that the demonstrations had been "a well-conceived and deliberate act of lawlessness." The documentary was entitled "What Trees Do They Plant?" It showed little of the club-swinging violence that took place August 28 in front of the Conrad Hilton Hotel.

Tuesday, September 17
JAMES E. WEBB, head of the National Aeronautics and Space Administration, announced he was resigning his post just four days before a scheduled Apollo launch. He made the announcement after meeting with President Johnson. He said he would be 62 on October 27 and thought he should retire. Mr. Johnson appointed Dr. Thomas Paine, the NASA administrator's deputy as acting chief.

A Woods resident was notified by Detroit police of the recovery of his car, which he did not know had been stolen.

George Cherpelis of 787 North Brys, called Woods authorities and informed them that he had received a call from police of Detroit's Conner Station, Fifteenth Precinct, shortly after 1 p.m. on Wednesday, September 14, notifying him that his automobile had been recovered at Canyon and Warren.

Cherpelis said that when he retired for the night at 11:30 p.m., the vehicle was still parked alongside his house.

The Conner Station officers said that Cherpelis' car was seen with two youths in it, and was involved in a chase, but the pair abandoned the auto at Canyon and Warren, and escaped capture by fleeing on foot before pursuing police could catch them. A brand new key was found in the ignition, it was said.

Pedestrian Access Gates Bone of Much Contention At New North High School

Woods Council Files Pleas of School Board And
Residents For Addition Entrances to Grounds;
Fence Already Damaged

Along with the opening of Grosse Pointe North High School have come problems for the City of Grosse Pointe Woods . . . a natural result of adding a building of this nature to an area which in the past has been primarily residential. At the Woods Council meeting on Monday night, September 9, matters regarding the High School were presented by residents, about 35 to 40 of whom were in the audience.

The first matter brought to the Council's attention was a letter from the president of the Board of Education, Alice Mary Hykes, in which the Board of members stated that they and the administrative staff of North had been approached by parents of students concerning the possible installation of additional pedestrian access gates to the site of the new high school. Mrs. Hykes' letter said that specific inquiries have been made as to the practicability of constructing pedestrian access gates at the terminus of Wedgewood road, both on the North and South perimeters of the school site.

Mrs. Hykes further stated that the City had made it quite clear throughout the entire period of discussions that it opposed the installation of additional pedestrian access gates and that the Board, although not believing this position to be correct, agreed to respect the City's judgment on the problem. Consequently a solid wood fence with no pedestrian access gates was constructed along the perimeter lines in question.

Problem Is Serious
She continued that over the past few months it has become apparent to the Board of Education that the problems created by the lack of additional gates is more serious than (Continued on Page 2)

Richardson Series
Now Being Sailed

With the completion of the spectacular and colorful National and World Tempest Class sailing championships, Grosse Pointe Yacht Club continues its tremendous yacht racing program for this month with the holding of two other major events, the Richardson Yacht Racing Union series and its own classic Blue Nose regatta.

The Richardson, as it is called, is now underway. This promises to be a superlative exhibition of match racing between four championship Great Lakes skippers and crews. Each skipper was selected because he was the best on his lake this summer.

Tom Schoendorf, of Milwaukee, a third generation yachtsman, is representing the Lake Michigan Yachting Association. He, with brother Bill, are co-skippers of the 42-foot Conquest, overall winner of the Chicago-Mackinac Race this summer and just last week adjudged as having the "Boat-of-the-Year" on that lake.

John Odenbach, of Rochester, N.Y., is the Lake Yacht Racing Association representative, (Lake Ontario), and skipper of Madame X, a hard-driving campaigner who makes a habit of hearing winning guns.

Food Machines Cut High Schools Off Aid Program

Federal Help No Longer Provided But System Shares
In Profits of Dispenser; Eliminate Need For
Extra Kitchen Employees

At the regular School Board Meeting of September 9, the question of why Grosse Pointe North and South High Schools no longer receive federal aid through the subsidized Milk Program was raised by trustee Arnold Fuchs.

In an effort to answer some of the questions regarding the loss of the Milk program at the high schools, the NEWS spoke to several administrators and the manager of the cafeterias.

It was told that late this summer, after the vending machine program had already been planned for North High School, administrators were informed that if they used these machines, they would lose this federal aid. Since the loss, according to school officials, amounts to approximately \$4,000, and since the school system would suffer no financial loss because it shares in the profits of the vending machines, the machines remained as planned.

Missing Safe Recovered in Drain Ditch

Macomb Deputies Find
Stolen Woods Restaurant Vault, Sans \$1,800
In Cash And Papers

A store safe, stolen from the Original Pancake House, 20273 Mack avenue, on September 2, was recovered from a ditch in Harrison Township by Macomb County Sheriff's deputies, it was disclosed by Woods Det. Everett Plumb on Tuesday, September 17.

The deputies found the safe at Long street and Coleridge. It was damaged by "peeling," a method used by professional thieves when they cannot open a vault by using a safe's combination lock. The safe was punched and peeled from the top, Plumb said.

The burglars took approximately \$1,800 in cash and about \$200 in checks locked in the safe. Papers kept in the vault were also missing, it was said.

Fireworks Cost Driver \$40 Fine

Charged with illegal possession of fireworks, Charles W. Coleman Jr., 17, of 860 Three Mile drive, was given both a lecture and a \$40 fine by Park Municipal Judge C. Joseph Belanger, Wednesday, Sept. 11.

Police stopped the car Coleman was driving, at Kercheval avenue and Bedford road, after seeing a "loud-banging fire-cracker" tossed into the street out the window on the driver's side at Vernon highway and Devonshire road, they reported. They said they found what they described as two "M-80" fire-crackers in Coleman's automobile.

Coleman's mother came to court with him. She heard the judge order him to go to work and earn the money to repay her for the fine she paid for him.

Complaints of Bus Speeding Backfired on Brys Residents

Residents living in Brys drive, irked by alleged speeding of Lake Shore Coach Line buses on their street, filed a complaint letter with Woods Director of Public Safety Allen Andrews, the first week of September, asking that this practice be made to stop. A copy of the letter was sent to the NEWS.

Andrews, on receipt of the missal, notified the busline officials of the alleged offense, pointing out that the citizens claim that bus drivers were speeding between 33 and 42 miles an hour on Brys drive. The director requested that steps be taken to eliminate this offense.

A return letter, dispatched to the director, dated Friday, September 13, rejected the charges of the Brys residents. The letter bore the signatures of five bus drivers, including that of Robert Turzak, who resides in the Woods, "in Eight Mile road, between Mack and Harper."

Voters Give Support to Proposition 1

Okay 4 1/2 Mill Levy For
Two Years But Turn

For Building Site

Pointe voters approved Proposition #1, the 4 1/2 mill operational levy at the Special Election, Thursday, September 12. They turned down the 1 mill levy each year, for building improvement and site acquisition, over a 10-year period.

The passage of Proposition #1 will allow Grosse Pointe to stay competitive with salary schedules of other nearby school systems and enable the schools to meet increased costs of operations of the schools and public libraries.

The defeat of Proposition #2, according to school authorities "will seriously curtail the Board of Education's attempt at long-range facilities planning and improvement of curriculum." School officials have said that it is difficult to discuss improvements to the instructional program without additional space.

Teacher Salary Hearings Held

A second fact finding session was conducted Wednesday, September 11, 1968, by Dr. Leon Herman, state-appointed fact finder, who is conducting hearings in the Grosse Pointe teachers' salary dispute.

The Grosse Pointe Teachers Association presented its case at that time. Board of Education representatives were scheduled to make their statement on Tuesday, September 16. A final report will be made by Dr. Herman as soon as all facts are established and evaluated. His findings will be advisory only and will not be binding on either party.

BROKEN STATUE
City police officers Edward Miller and Dwight Scott were on routine patrol on Monday, September 16, at 1 a.m., when they observed a damaged ornamental statue lying on the sidewalk in front of 18164 Mack. The statue had been located in front of the building. Unknown persons dropped the statue on the sidewalk while attempting to lift it. The statue was about four feet high and weighed about 200 pounds.

Contention at New High School

(Continued from Page 1)

only five buses capable of handling approximately three hundred students, it would be safe to assume at least half of our students will be pedestrians. Since there is only one sidewalk on the lake-side of the Vernier Road entrance to our campus, our congestion at this point is highly critical, and for this reason we felt it desirable to have speed trap bumps on the entrance. However, since this has not been approved, it only illustrates further the problem of handling properly this area before and after school.

"Students approaching the campus from the south end of the district, again approximately one thousand, will be able to enter the campus only at the Morningside driveway, which is primarily for faculty entrance and parking and is not suitable for easy loading and unloading of students from vehicles.

Some Fence Removed

"The redwood fencing and cyclone fencing around the campus have been placed in such a fashion that students will find it quite easy to gain entrance to the campus through, over, and around segments of the fencing. Already two areas of the redwood fence, along the south end of our campus, have been removed by students for easy access; one area adjacent to our industrial arts building, and the other section at the end of Wedgewood road. No doubt, before the school year is one week old segments of fencing will be removed along the north border of our campus, since many students will find it desirable and convenient to gain entry to our campus from streets that border our campus at that point.

"Many evening activities on

our athletic field and the use of the tennis court will make it difficult for people to gain access to these areas, without finding it advantageous to go through or over the fence. Consequently, there will be many occasions for neighbors to complain justifiably to us for trespassing on their property by students and adults.

Expects Vandalism

"Being a redwood material, I anticipate the existing fence being subject to considerable vandalism and graffiti. I could list perhaps several other factors that concern us in relation to the placement of fencing around our school, but I think it is redundant for us to reiterate the critical need for more gates and openings along our fencing for the easy access and existing of students to and from our campus.

"The second year we will have approximately twenty-seven hundred students attending our high school and these conditions will obviously be further intensified. In my judgment, while it is our desire to work closely and cooperatively with all of the patrons of our community, I strongly recommend that a gate be placed at the Wedgewood entrance to our campus on both the north and south ends. It may materialize after the students are on campus that additional openings might be needed at the far end of the campus, near the Lochmoor Country Club, and I would strongly urge that the two openings at Wedgewood be considered at the earliest possible moment."

Schools Would Pay

In closing Mrs. Hykes said if it were to be agreed that a modification of the present fencing were in order, it could be accomplished at the expense of the School District. She also indicated that Board members would be more than happy to discuss the situation with the Council if it so desired.

In a letter to the city Administrator and Council, Director Andrews, made the following comments on the matter.

"In view of the letter from the President of the Board of Education concerning pedestrian access to the Grosse Pointe North High School campus, it seems advisable for me to comment on this matter.

"In the absence of the experience to be gained in the coming school year, this office is opposed to opening pedestrian access into the campus from either of the Wedgewood dead ends. An opening from the north would give the small children of the Wedgewood-Maple Lane area direct access into a teenage driveway as soon as they wandered through such a gate. The inconvenience of no access on the south is minimal for students living directly south or east of the school.

See Difficulties

"However, it has been my conviction all along that access for students living southwest, west and northwest of the school is necessary if we are to avoid difficulties; but, such access should be to the school grounds at the northwest and southwest corners of the property if at all possible.

"Access by pedestrians at these locations, if it could be

arranged, would detour the great bulk of the pedestrian traffic for the high school away from the Vernier Road with its inadequate sidewalks and away from the Sunningdale and Hidden Lane residents. Access at these locations would be of significant benefit both to the students and to the residents adjacent to the high school.

"It is my recommendation that the school board should be encouraged to explore with affected property owners the possibility of securing access for pedestrians to the northwest and southwest corners of the school. If it is possible, the benefits and drawback of such a plan could then be discussed with the Council.

Residents Complain

Some residents, who were present at Monday night's meeting, expressed concern over the fact that there were no pedestrian accesses. They said that students were using their property to gain entrance by jumping the redwood fence and added that portions of the fence have already been damaged or broken.

Property owners residing at 20601 and 20612 Wedgewood drive, requested that Wedgewood drive be vacated to the maximum extent permitted by law, north from its present terminus on the north boundary of North High School. These lots are located on opposite sides of the street and are the lots immediately adjacent to the redwood fencing which encloses a portion of the new campus. They stated that the matter had been discussed with a majority of other interested property owners along Wedgewood drive, north to Vernier road, and residents of Maple Lane, and that if a formal petition bearing their signatures was necessary to support their requests, they could furnish it.

Request Is Filed

The Council maintained its position that no pedestrian access gates would be provided and placed the communications received, on file.

In still another matter involving North High School, the Council passed a Loitering Ordinance covering school grounds. Director of Public Safety, Andrews, said the existing loitering ordinance was inadequate to deal with the severe problems of drop-out, expelled student and non-student loitering which is to be expected at the new high school.

The ordinance was drawn up by City Attorney Catlin. Mr. Andrews indicated that without

Wily Youths

who had taken the car for a test run, apparently stopped some place to make a duplicate key, and that the pair returned at night to take the car.

Cherpelis said that the lad who remained to talk to him was about five feet ten inches tall, weighed about 180 pounds, had light brown hair, and had dark-rimmed glasses. The driver was described only as being five feet eight inches tall, about 150 pounds, and having dark hair.

the ordinance the City would not be able to cite juveniles to Juvenile Court or prosecute non-Juveniles in Municipal Court.

He added that the matter has full support of Dr. Craig and is essential to preserving order on the campus, restricting purveying of drugs on the campus by these individuals, and preventing interruption of school affairs. The ordinance became effective September 12.

Kind acts are stepping stones to contentment and happiness. Revenge may give satisfaction, but try and collect on it.

Public School System Has Professional Staff of 714

"When school opened this fall, the professional staff of The Grosse Pointe Public School System numbered 714, including public librarians," Lawrence F. Kennedy, Assistant Superintendent-Professional Personnel for The Grosse Pointe Public School System, said.

"This represents an increase of approximately 50 positions over the 1967-68 staff," he said. "By and large we can report that the 144 newcomers to the faculty represent quality replacements and additions, most of whom will make important contributions to local public education," he added.

Mr. Kennedy reported on staffing activities for the 1968-69 school year at the regular monthly meeting of the Board of Education, held Monday night, September 9, at Monteith School.

His remarks fell into three categories: applicants, new employes, and losses from the 1967-68 staff.

Mr. Kennedy said that the schools conduct an extensive search for applicants each year, including visits to 76 campuses from January through June.

"In addition," he said, "we contact other possible candidates from six major sources: (1) computerized responses from files maintained by national educational personnel agencies; (2) referrals from current staff members; (3) contacts made at professional conferences; (4) responses to Grosse Pointe literature placed in placement bureaus in 300 colleges and universities; (5) teachers familiar with the school system who contact Grosse Pointe by letter and by telephone; and (6) residents who wish to enter or re-enter the teaching field.

"Nearly a thousand written applications for teaching posi-

tions in Grosse Pointe for the fall of 1968 were received in the Personnel Office. About 650 of these were for secondary school opportunities, 230 for elementary school positions, and 74 for special education posts," Mr. Kennedy commented.

"These applications were the net result of more than 3000 prospective candidates contacted in one way or another this spring and summer. From 600 to 700 were interviewed on 76 campuses but not all made written application. The rest represented letter or telephone inquiries, or referrals from numerous sources, many of whom did not actively pursue a position in Grosse Pointe by submitting an application," the Assistant Superintendent said.

"Of the 650 secondary school applicants in all subject matter fields 95 or about 14 percent were employed. At the elementary school level, 39 teachers or about 16 percent were hired from the field of 230 applicants. Ten of 74 applicants, or 14 percent, were employed for special education positions where three vacancies remain to be filled," Mr. Kennedy said.

Mr. Kennedy said that as of August 28, 1968 the Personnel Office had filled 144 vacancies in the 1968-69 professional staff. Three vacancies remained to be filled: math and mentally handicapped at North; and emotionally disturbed at Maire.

"Several candidates are under consideration for the mathematics position while prospects for filling the two special education positions are bleak indeed," he said. The 144 replacements and additions are composed of 136 teachers new to the district, (five had been employed in earlier years and have returned), and 8 returning from a leave status. Fifty or 35 percent of the newcomers are male. Ninety-four or 65 percent are female. This compares with 1967-68 replacements when 25 percent were male and 75 percent were female.

"Grosse Pointe regularly looks for as well-experienced replacements as are available. This recruiting season we were successful in employing, (or having return 105 experienced teachers out of 144. An overall average experience of 5.1 years of experience is represented by this group. This compares to 3.5 years of experience which has been the average in several preceding years. The range of experience was from 23 years to zero," Mr. Kennedy said. "Thus, 73 percent of the new contingent is experienced. Last year the figure was 71 percent. In 1966 the percent experienced

was 74 while in 1965 it was 70 per cent and 77 percent in 1964," he commented. Mr. Kennedy said that training of the replacements and additions, (exclusive of those returning from leave), took place in 15 states other than Michigan. Thirty-six teachers earned their degrees in 29 out-of-state institutions.

Mr. Kennedy added that level of training is another important criterion in the quality of a teaching staff. This year we were able to employ 56 or 40 percent with a master's degree or higher. This is higher than usual as the pattern is generally about one in three. Overall, the staff in 1967-68 was composed of 40.5 percent with bachelors' degrees and 59.5 percent with the masters.

Commenting upon losses among the teaching staff, Mr. Kennedy said that as of August 28, 1968 a total of 85 teachers had resigned or gone on leave from active teaching positions. Eight went on leave and 77 resigned for various reasons, including five who retired. Five others resigned from "On Leave" having left active teaching posts in prior years. "Those leaving included 24 males and 61 females, 40 of the latter were elementary school teachers. A total of 46 losses were elementary school personnel while 39 had filled secondary school positions," Mr. Kennedy commented.

St. Clair after four hours sleep. If this seems to be some kind of banality you must remember that Fisher and his gang are determined to win this year where they lost in 1967. The practice session went on for about three hours. Ask any skipper how much work there would be in jibing a boat 42 times in succession. Conquest crew, among other maneuvers, did this last Sunday afternoon.

To Use Cal-40s
Cal-40s again will be used in the match races with each skipper facing off against each of the other three in the round robin.

The World Tempest championship six-race series indeed, must be one of the most exciting, certainly the hardest fought, one-design scraps ever held on Lake St. Clair.

It also was one of the best run, in every respect, afloat and ashore, according to George Hinman, a commodore of the New York Yacht Club, Cruising Club of America and Yacht Racing Union, who acted as head judge. He praised the efforts organized by Lynn Stedman, Jr., Frank McBride, John Pappas, Dave Davenport and the large group who run this international yachting show.

Kelly, Connell Win
You've probably read, or heard, how Billy Kelly and his crew, Bob Connell, from the Larchmont YC, both in their late 20s, sailed sensationally in all kinds of weather as they proved conclusively that they were the best team sailing in the World Championships.

The week before this pair had won the National championship as they came on, like gaug-busters, as the phrase goes, to take the last three races. They were even more adept in their handling of their 22-foot sloop in the World. In this series they won three firsts, (coming on to take the last two starts). They had two seconds and an eighth. In international one-design racing, a skipper is allowed to throw out his poorest race in a six-race series.

Won Half of Races
During the 12 races in two weeks they thus won six starts—half of the races. More, the last race turned into a fluke. Three times during this ghoster, Kelly's boat was behind and in a hole. Each time he and his

chase, from vending machines, anything from soup to candy at a nominal fee. There are approximately 12 vending machines at North High.

Officials at North told the NEWS that approximately 60 per cent of the students use the Student Commons Area at lunchtime, which would bear out the need and popularity of this vending machine service.

Supplement Lunches
South, which also has two eating areas for students, relies on the girls' gymnasium to handle students who carry their lunches. Here students may supplement their packed lunches with beverages or pastries through the vending machines. Sandwiches are also provided but through the school lunch program, since this facility is constantly in use as a gymnasium. The presence of the pastry machine at South meant that they too were ruled ineligible for the Milk Program subsidy.

These machines eliminate the need for extra kitchen help. They are also used before school and after school hours for activity groups or students.

Now as to the cost of milk at both high schools, if a student purchases a unit price hot lunch for 60 cents, the price of milk is never more than five cents and sometimes less than five cents, according to the cafeteria manager. However, if a student buys milk separately or from a vending machine the cost is 10 cents.

Our Middle Schools and Elementary Schools still receive Federal Aid under the Milk Program.

Pointe Students Remain In Scholarship Competition

21 Grosse Pointe students have been named Semi-finalists in the 1968-69 National Merit Scholarship Program.

The students are: Christine Corcoran, Katherine Dietrich, Gary D. Enzmann, Elsa J. Frohman, Carl T. Graham, William B. Harrison, Irving E. Ingraham, Lincoln A. Lee, Mary E. McLeod, George H. Mandich, Ellen E. Martin, Charles J. Olmstead, Christine J. Pittel, Sara E. Via, Carolyn L. Westoff and Karen J. Wilson, from Grosse Pointe High School; Lisa H. Bowers, Linda McPherson, Christina Zukowski, from Grosse Pointe University School and Dorothy M. McBryan and Jane A. McLuckie from Our Lady Star of the Sea.

The 15,000 Semifinalists appointed are among the nation's most intellectually able high school seniors and will compete for some 3,000 Merit Scholarships to be awarded in 1969.

The Semifinalists were the highest scorers in their states on the National Merit Scholarship Qualifying Test, given last February in 17,500 schools nationwide. They constitute less than one percent of the graduating secondary school seniors in the United States.

The Semifinalists show high promise for leadership in their adult careers, according to John M. Stalnaker, president of the National Merit Scholarship Corporation. "They have already demonstrated both high intellectual capacity and a readiness to develop their abilities," he said.

These students deserve credit and honor. They bring honor to their families, who deserve much credit, as do their teachers and their communities. Their future success, however, will depend increasingly upon their ability to become productive at the high intellectual levels of which they are capable."

Semifinalists must advance to Finalist standing to be considered for Merit Scholarships, since all winners will be selected from the Finalist group. Semifinalists become Finalists by receiving the endorsement of their schools, submitting scores from a second examination, and providing information about their achievements and interests.

Every Semifinalist who becomes a Finalist will be considered for one of the 1,000 National Merit \$1,000 Scholarships, allocated by state. Many will also be considered for the four-year Merit Scholarships provided by some 400 corporations, foundations, colleges, unions, trusts, professional associations, other organizations, and individuals.

Winners of four-year Merit Scholarships may receive up to \$1,500 a year for four college years, depending on their individual need. Winners of the National Merit \$1,000 Scholarships will receive one-time stipends of \$1,000 upon enrollment in college.

SHOPLIFTER NABBED
An alert cashier at Kroger's at 16919 Kercheval, noticed a 16-year-old youth place a carton of cigarets in his shirt and leave the store. She told store manager George Sassin, who immediately stopped the youth and called the City police. Upon arrival officers spoke to the boy, who said he had been grounded by his dad for two weeks and was upset because he wanted to go to a dance. He had stayed away from his home since his grounding. The boy's parents did not report him missing. He was turned over to them and the cigarets held.

Woods Service Station Robbed

Burglars broke into a Woods gas service station approximately 20 minutes after a routine check of doors of business places were made by police during the early hours of Friday, September 13.

Patrolman Albert Abend, who made the check, discovered the break-in of the Summers Pure Oil Station, 19733 Mack avenue, as he was cruising by in his scout car, at about 5 a.m.

The thieves entered the building by breaking the glass of the overhead door, and when they departed, they left the door raised and the rifled cash register open.

Ray Summers, of Detroit,

owner of the station was called, and he arrived to take inventory.

All he could determine that was missing, he told police, was about eight dollars in quarters he had placed in the cash register the evening before. The station had been closed at 11 p.m. by two employees, he added.

The matter was referred to officers of the Detective Bureau for further investigation.

Catch Women with Stolen Merchandise in Their Car

Three Negro females were apprehended on Saturday, September 14, after having walked out of Jacobson's store, 17030 Kercheval, with over \$400 worth of merchandise.

Two of the trio were spotted by clerks in the store as they walked out with the merchandise. The sales clerks followed the pair out into the parking lot and saw them enter a black vinyl topped Chevrolet.

In attempting a fast getaway, the driver of the car drove over the restraining curb, brushing another car parked in the lot at the time. They then headed south on Notre Dame. An alarm was sent out to all cars in the Pointe area.

The trio was spotted and stopped at Alter and Jefferson by Patrolman Andrew Meeker and Collin LaLonde, of the Park police. Officer John Drummond was also at the scene.

Police found on the floor of the car, a zipper clothing bag. The three were taken to the City station. The bag was removed from the automobile by Lt. Robert Van Tiem.

Manager of Jacobson's, Philip Culmone, was asked to come to the station to identify the merchandise. He did so, and a quick inventory revealed that the women had taken over \$400 worth of merchandise.

The three women were identified as Toni Johnson, 23, of 4950 Woodward, Eloise Jones, 28, of the same address and Mary Lee Lindsey, 41, of 1724

Woods Mailing Sample Ballots

In an effort to better acquaint residents with the candidate and to facilitate voting in the November 1968 Presidential Election, the City of Grosse Pointe Woods will mail sample ballots to each resident.

The Woods found this practice most successful during the 1964 Presidential Election. Election Inspectors reported at that time that it speeded up the voting.

The instruction ballot will give the names of the candidates, the Propositions to be voted upon and how to use the voting machine. Residents are urged to mark their choices and take the ballot with them to assist them in voting.

The City Clerk's office will be open for Voting Registrations Saturday, September 28, between the hours of 8 a.m. and 5 p.m.; Monday through Friday, September 30 through October 4, between the hours of 8 a.m. and 8 p.m.

City Clerk Leona D. Liddle advises that voting registration has been very heavy this entire year and she anticipates a large number of registrations during next month.

Judge Sutherland Hears Five Cases

Lenard Annorino, 1516 Gray, Det., was charged with reckless driving. He stood mute and was found guilty and fined \$50.

Michael Morgan, 1014 Yorkshire, was charged with possession of alcoholic beverages in a motor vehicle. He pled guilty and was found guilty and fined \$25. He was put on six months probation to the court, and forbidden to drive for 30 days.

Ria Thibodeau, 491 St. Clair, was charged with failure to yield the right of way resulting in an accident. She stood mute and was found not guilty. The case was dismissed.

In this age of gimcracks and chrome, is there a place for a car so "over-engineered" that 90 percent of its value is invisible?

Mercedes-Benz thinks so.

Yesterday's dreamboats had enormous tail fins.

Today, it's fastbacks, racing stripes, and shark-mouthed chrome grilles.

Obviously, there are millions every year who are willing to buy a car that's "in vogue"—even though they know newer gimcracks and styling quirks will soon erode their investment.

But Mercedes-Benz refuses to play the "planned obsolescence" game. At Mercedes-Benz, iron-willed engineers, not stylists, rule the roost. And they insist on putting value where they think it belongs: at the heart of their machines.

That's why Mercedes-Benz motor cars can cost anywhere from about \$4,500 to \$26,000 without, to some tastes, "looking" it.

Form follows function

Make no mistake. The perfectionists at Mercedes-Benz do not apologize for those classic lines—free of faddish touches—that will still be handsome years from now. They simply think form should follow function instead of fashion.

The contours of that 250 sedan at right were dictated by the need to provide proper headroom, hiproom, legroom and protective packaging for five adults. Dictated by the proportions required for nimble maneuverability.

The car is both shorter and leaner than its overweight rivals. Yet it bristles with sophisticated, ultra-performance features available only as extra-cost options, if at all, on domestic sedans.

A superb machine

"Over-engineered," some critics say. Nonsense, retort Mercedes-Benz engineers. If a man can afford to invest thousands in a superb driving machine, he is entitled to get something superb.

What he gets in a Mercedes-Benz is legendary in automotive circles.

An expert from *Car and Driver* tested the "new" 250 when it was released early in 1968 after an incubation period of five years. His verdict: "Offhand, I can't think of any other 4-door sedan in the world—with the possible exception of the Maserati Quattroporte—that handles, steers and stops like the Mercedes."

Scrapping the solid rear axle system of most domestic cars, the 250 uses an all-independent suspension—plus anti-sway bars front and rear. This endows it with the agility of a scrambling quarterback.

You can blast it over rutted and potholed gravel lanes. It behaves with almost eerie calm. You can thread it through the corkscrew turns of a mountain road, and enjoy yourself.

There's no sloppy play in the steering. No mushiness. When you hold the wheel, you "feel" the road. When you turn the wheel, the car darts instantly where you aim. Suddenly, you are a more confident driver.

Heroic stopping power

Stopping? Unless you have driven a 180-mph Grand Prix racing car or a Mercedes-Benz, chances are you have never experienced the security that comes from having really good brakes.

Disc brakes. A few domestic cars have front-wheel disc brakes, and others offer front-wheel discs as an option. But every Mercedes-Benz comes with massive disc brakes on all four wheels. Standard.

Result: You get more stopping

power than you may ever need. But you sleep better at night.

The pinnacle of safety

As for safety, Mercedes-Benz engineers applaud the intent of the new U.S. Government regulations, and carry their protective measures beyond

And there's more. Construction of every Mercedes-Benz begins in a shower of sparks. Where conventional cars use bolts to tie body and chassis together, Mercedes-Benz uses thousands of welds to create a single unit of immense strength. After 50,000 miles or so, you may begin to wonder if your 250 will ever rattle.

When welding stops, the raw body is dunked whole, like a taffy apple, into a gigantic vat of primer. It emerges with 24 pounds of rust protection.

More hidden value

Every car gets 20 more pounds of primer and paint. Even the insides of the hub caps are coated. As a final flourish in its armament against corrosion, each car gets a 24-pound factory slathering of undercoating.

The six-cylinder, overhead cam engine of every 250 is bench tested before installation, for more than 60 minutes. A hint of trouble in this grueling test and the engine is torn down and rebuilt. Mercedes-Benz finds the lemons—not you.

Revealing showroom tests

Run a finger along the body of the 250. No "orange peel" texture. Slide in and open the glove compartment. Fully trimmed. Close the car door. Ka-chunk.

Now flex your back. This is no marshmallow seat. It supports you, mile after mile. It should: it was designed with the guidance of orthopedic physicians.

Crank the window and fiddle with some knobs. "Everything worked with delightful precision, eliciting the same sort of satisfaction that comes

when the shifter mechanism crackles shut on a good reflex camera," reported *Car and Driver's* expert.

That's the beauty of the 250. It's built as if it were a 3,000-pound Hasselblad camera!

Over-engineered? By conventional standards, emphatically so. But Mercedes-Benz does not make conventional cars—and never will.

24-page brochure

If you'd like more facts on this remarkable \$5,085* machine, mail the coupon for a full-color brochure.

Of course, the quickest way to verify the 250's virtues, both visible and invisible, is simply to test-drive it. Just ask for the keys.

Other Mercedes-Benz models to ponder:

280S Sedan—the most road-worthy car you can buy in the luxury class, \$5,990*.

280SL Roadster—a sports car for grown-ups, combines soul-stirring performance with comfort, \$6,638*.

220 Diesel—the only diesel Mercedes-Benz makes, gives you small-car economy in a big, safe sedan that may well endure for half a million miles, \$4,580*.

the letter of these laws.

The 250's best defense against blundering drivers is, of course, its uncanny evasive ability. But, if the worst happens, your Mercedes-Benz is designed to shield you.

The entire passenger compartment is built as a sturdy "safety zone." Doors are designed to stay closed on impact. The front and rear sections of the car are engineered to crumple in a violent crash at a controlled rate, absorbing shock and reducing the threat of serious injury.

Car and Driver's sober conclusion: Of all the world's motor cars, the current Mercedes-Benz line "represents the present pinnacle in safe car engineering."

VANDALISM REPORTED

An unknown citizen called police at 2 a.m. on Saturday, September 14, to report the sound of breaking glass in the 300 block of Hillcrest. Officers who arrived at the scene, said they found that someone had smashed the left front window of a car registered to Fredricka and Ellen Stoepel of 360 McKinley, parked in front of 311 Hillcrest, at which address Fredericka was staying for the night.

give the public the best of service, and instead we are receiving criticism.

"I, Robert Turzak, one of the Lake Shore Coach Lines' drivers, live in Grosse Pointe Woods on Eight Mile road between Mack and Harper. I have driven down Brys drive many times in my own car and have noticed cars that do not stop for the stop street, yet your letter does not mention this, or the high rate of speed these motorists travel, which actually is a worse hazard than that travelled by the buses.

"Our accident record is very low in the Grosse Pointe Woods area. Also, there was nothing mentioned in your letter about the children that throw just about everything they can get their hands on at the buses, besides standing in the street discussing world problems, and not moving one inch to allow the bus drivers to go by.

"It is not our intention in writing this letter to offend anyone. If we are at fault, we will do everything possible to correct this situation. The public never hears our side of the story, and that is the reason why we are replying to your letter."

Director Andrews said that it was his opinion that the complainants believed that the bus drivers were speeding, when the drivers step on the gas pedal to begin motion, and the noise of the motors possibly make the sound of vehicles traveling at high speed.

Nevertheless, to settle the matter, the director ordered a radar watch on Brys, with surprising results, he disclosed on Monday, September 16. He said that his officers assigned to the watch, found not a single offending bus driver, but ticketed a number of automobile drivers for speeding — including seven motorists living in Brys drive.

tion, Johnson placed the envelope containing \$515.26, on the front passenger seat beside him. At almost the same instant Patton and Saiford moved in and took him into custody.

The checks, handed to the teller and allegedly endorsed with forgeries made by Johnson, were made payable to John and Anne Miller who live in a four-family flat at 982 Nottingham road, and who are presently out of the country.

Three of the six checks were for Social Security payments, and three were for pensions from the Chrysler Corporation. The two detectives working on the case reported that Johnson had stolen them from the Miller mail box at the Nottingham address, where he had once resided.

Johnson was arraigned before Park Municipal Judge C. Joseph Belanger, Thursday, Sep-

tember 12. He stood mute, and a plea of not guilty was entered for him. He is scheduled to appear for examination Wednesday, October 2. When he was unable to post a \$5,000 surety bond he was sent to Wayne County jail.

Inspectors of both the Post-office Department, and the U.S. Treasurer's office are investigating the case. Meantime Detectives Paton and Saiford were highly praised

by Grosse Pointe Park police officials for the "super-efficient manner in which they handled a difficult situation."

Alert Policeman Credited With Arrest of Car Thieves

An alert City police officer, responsible for the apprehension of five persons who were attempting to steal automobiles from Jim Causley's Pontiac, 17801 Mack, Detroit, on Sunday, September 15.

On that date, officer Richard Lanski observed seven suspicious looking Negro youths parked in front of the auto dealership. He parked his unmarked car nearby in the Shell Station a Mack and Neff, where he kept a careful watch on the boys. He then called for another City of Grosse Pointe scout car. Lanski then observed two of the boys, who apparently were serving as lookouts, take their posts at Hereford and Mack. The other five entered the used car lot and pushed two '68 cars onto Windsor, west of Neff.

The second City of Grosse Pointe car arrived and Virgil G. Beaupre and John Drummond, along with officer Lanski, apprehended the five youths. The two

lookouts fled. At this point, police from the 15th Precinct arrived and took the five into custody.

Four of the youths were juveniles and were turned over to juvenile authorities and filed on. The fifth youth, 17-year-old Hoover Heags, 3158 Canton, was charged with auto theft.

The group had already placed one stolen license plate on one of the cars and had another on the ground near them at the time of apprehension. The plates had been stolen from Van and Son Collision Shop, 17465 Mack, across the street from Causley Pontiac.

Both Detroit Police and Jim Causley, owner of the dealership, lauded the quick and thorough action of the City police officers.

Detroit police added that the apprehension of these youths also cleared up an earlier case of car theft.

Police Attacker Carried Drugs

Charged with illegal possession of a "restrictive drug", Mark D. D'Achille, 17, of 2603 Beniteau, Detroit, appeared for trial Wednesday, September 11, before Grosse Pointe Park Municipal Judge C. Joseph Belanger, was found guilty, and the case was referred to the Wayne County probation department for a pre-sentencing investigation.

On Wednesday, August 14, D'Achille, and a juvenile were arrested by Park police when they were found engaged in a fight, one with a tire iron, the other with an iron pipe, at Mack and Devonshire.

D'Achille was said to have attempted to strike Park Patrolman Ralph Moore with the pipe. Moore and Patrolman Donald DelPlace wrestled the weapon from the youth, and he was placed under arrest, charged with felonious assault.

During the melee the juvenile, 16 years old, fled from the scene. He was pursued by citizens, brought back, and turned over to the police, then to the Juvenile Court.

Det. Sgt. James La Pratt reported that, while making a custodial search of D'Achille, officers confiscated two green capsules which were analyzed by the Detroit Police Scientific Laboratory, and found to contain barbituates.

As a result of that finding a warrant charging him with "illegal possession of a restrictive drug" was later issued by the Wayne County prosecutor's office.

D'Achille was arraigned before Judge Belanger, Thursday, August 15 on the felonious assault charge. He stood mute and a plea of innocence was entered for him, after which the case was sent to Wayne Circuit Court.

On the "illegal possession" charge the court is awaiting the result of the probation investigator's report, before final sentencing. The youth is now free on a \$1,000 personal bond.

THIEF STEALS TOOLS
Robert E. Unger of 1854 Alford, notified Woods authorities on Sunday, September 15, that sometime between September 8 and 13 someone broke into his garage and stole a metal box containing \$50 worth of tools. Also taken, he said, was a barbecue utensil set, value not given.

Whitney Young To Speak Here

Dr. Harry C. Meserve, president of the Grosse Pointe Human Relations Council, has announced that final plans have been made for the appearance of Whitney M. Young, Jr., at Grosse Pointe High School South on Tuesday evening, October 1.

Mr. Young, Executive Director of the Urban League, who will speak to Grosse Pointe residents on the subject "Our World—Our Youth—NOW", will be introduced by Grosse Pointe resident Henry Ford II.

Dr. Meserve indicated that Mr. Young's appearance will keynote a series of meetings featuring speakers covering topics dealing with the important and timely subject of social and economic matters as they will effect and influence the youth of Grosse Pointe now and in the future.

"Through this series we hope to expose Grosse Pointe youth and their parents", Dr. Meserve said, "to the changes and the problems they must face today to become better citizens tomorrow."

"We were privileged to have Mr. Young accept our invitation to speak to our community", Dr. Meserve said. "Mr. Young has a distinguished record as an educator and thinker on American social problems, as well as being a renowned Negro leader. His point of view on social matters should be inspiring." Dr. Meserve advised that tickets for Mr. Young's talk went on sale September 13. They can be obtained by mailing a self-addressed envelope to the Grosse Pointe Human Relations Council office, 32 Lake Shore, Grosse Pointe, Michigan 48236 or all Grosse Pointe churches. Adult tickets are priced at \$2 and student tickets at \$1.

"We anticipate a demand far in excess of seating capacity of the High School Gymnasium", Meserve said, "and I would urge residents to act promptly in obtaining their tickets."

School Meetings Undergo Change

Dr. Theos I. Anderson, Superintendent of Schools, announced at the September 9 meeting of the Board of Education that during the 1968-69 school year no formal educational presentations would be made during the first half hour of the regular monthly meetings.

Youth Accosting Cases Reported to City Police

Two similar cases involving youth accosting were reported to City police on Sunday, September 15. Both cases involved a dark Dodge. The incidents took place 15 minutes apart, one at 11:30 p.m. the other at 11:45 p.m.

The delayed report was given to City police officer Edmund Benthuyts, while he was on routine patrol. Two youths stopped the officer and said they wish to speak to police. Patrolman Benthuyts took the boys to the station and found that both incidents occurred on Friday, September 13.

The first youth, a 13-year-old, told Benthuyts that he was walking home from a dance at the War Memorial at about 11:30 p.m. when a dark Dodge stopped just ahead of him on University place and asked where Jarvis street was. The youth went over to the car. The driver then asked the 13-year-old if he would like to make an easy \$10 by taking a message to a friend. The boy asked what the message was and the man then told him to remove his shoes and socks. He then pulled a silver shiny object that clicked from his pocket, the youth said he thought it was a knife but could not be sure. The man continued to engage the youth in conversation and then indicated that he wanted the youth to get into the car. The boy fled.

The second incident was described to City police by a 14-year-old Farms boy, who was with another youth of 13, at the time of the incident. The youth said that they were walking on Stephens near Kercheval and Ridge, at about 11:45 p.m. when he noticed a black Dodge parked at the curb. As he and his friend approached the car, the driver got out of the car and asked where a certain street was. He then asked the boys if they wanted to earn \$10. The boys said yes, how? The man then said he had a knife and a gun and was dangerous. He told

them he wanted them to deliver a message. He then tried to get one of the boys into his car, warning him again that he was a dangerous man. While the 14-year-old was talking to the man his friend had run for help.

The 14-year-old then became frightened and ran across the street to the home of a boy he knew. Just as he approached the house, the resident pulled in the driveway. When the accoster saw the car he fled.

The youth was able to give police the following description of the man, a white male about five feet eleven inches tall, about 20 years of age, with dark hair and wearing thick glasses.

Police are currently investigating both incidents. The youths told officers they had not reported the incidents earlier because they were afraid their parents might ground them. But after thinking it over both decided they must tell police. The boys' parents were notified of the incidents.

Memorial Adds Intern to Staff

Robert Allan Miller is doing his intern year at Grosse Pointe Memorial Church after two years at Princeton Seminary. A native of Ebenburg, Penn., where his father is school principal, Mr. Miller is a graduate of Westminster College.

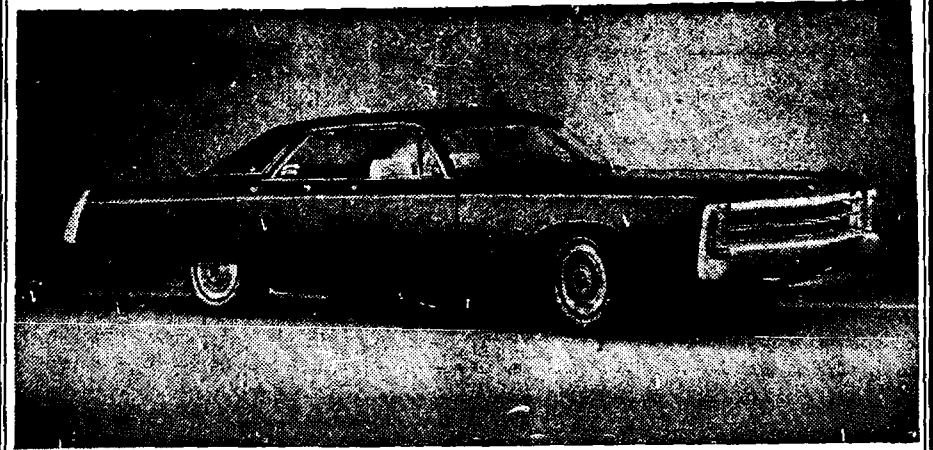

For the past six summers he has been counselor at Presbyterian Summer Camps in Pennsylvania and Michigan. His field work during seminary has been done in the Bronx, New York City, and in Manhattan, working in inner-city churches.

An intern works in various departments of the Church in order to gain practical experience in all aspects of the church's life, so that when he returns to the seminary for his final year, he will have seen a large church at work and learned about his philosophy of work and service.

Grosse Pointe Memorial was invited by Princeton to undertake the internship because it has a multiple staff. Mr. Miller

will work for two months under the direction of each of the five ministers. He will also have regular assignments in parish calling, teaching, and administration.

If you are less than proud of your lawn maybe the grass itself is to blame!

AFTER all, most people don't start with a lawn of their own choosing. It usually comes with the house. And the grass may be an unsuitable kind or an inferior variety.

If you hate the thought of digging up and starting all over, consider seeding WINDSOR grass right into your present lawn. This won't change a poor lawn overnight. But thousands of homeowners have discovered to their satisfaction what a box of Windsor and a little patience can do. And now is the naturally right time to seed.

Windsor, the improved variety of Kentucky Bluegrass, is an exclusive development of Scotts research. Windsor is unusually attractive and hard wearing. Also, its extraordinary root strength makes it a grass that thrives in summer's heat, stays green longest during drought, and spreads underground to occupy bare spots.

Just as this is the right time to seed, it's the time to fertilize, for a better lawn this fall and next year. Your grass is probably hungry right now. Feed it with Turf Builder, the fertilizer that makes grass multiply itself.

A money-saving combination. Right now Scotts dealers are having a timely Seed-and-Feed Sale. You can save money on Windsor seed bought together with Turf Builder. Stop at one of the retailers listed here, and you can be on your way to a better lawn this very weekend.

No-quibble guarantee. All Scotts products are fully guaranteed. If they don't work to your complete satisfaction—just let us know and you'll get your money back promptly and with no quibbling. SCOTTS, the grass people, Marysville, Ohio.

These leaders will conduct the business of the Student Senate's weekly meetings and the organization of the school's activities program. They will be joined by the officers of the various homeroom sections as well as Mr. Thomas E. Bailey, Vice Principal of Activities.

President Tim Garvey is the son of Mr. and Mrs. Paul Garvey of Kensington drive. Tim has been most active at Austin as a football and basketball manager. He has served on the Poster Club, vice-president of this section, secretary of the National Honor Society, a member of the Dance Committee, in the Austin Players, and on the Honor Roll for three years. As a junior he served as Junior Prom chairman and was active in the St. Clair Teen Club.

He served as president of the Poster Club, a member of the Dance Committee, the Austin Players and the Junior Float Committee. Outside of Austin Tim has been active in his Teen Club, the Detroit Science Fair and the Gabriel Richard Society.

Taking the position of Senate treasurer is Joe Scalis, son of Mr. and Mrs. Jack Scalis of Three Mile drive. Joe's activities include serving on the Senate for two years as well as being active in the St. Clair Teen Club.

President of the Poster Club for 1968-69 is Terry Murphy. This annual post is appointed by the Senate and is filled by a junior. Terry replaces Tim Kasper of the Senior Class.

Child Accosted By Cab Driver

Quick thinking by an alert, bright-eyed, 10-year-old girl on Thursday, September 5, led to the apprehension of Irving Daryle Wallace, 61, a cab driver, who was charged with disorderly conduct, accosting a female child.

On that date Wallace is said to have stopped his car and called to the girl asking her if he could give her a ride home. The girl refused and Wallace asked again. The child ran home immediately, with the license number and a description of the man, which her mother phoned to the police. Wallace was ordered to appear at the City of Grosse Pointe jail but did not do so. Chief Andrew C. Teetert then had two officers pick up Wallace and take him to the City station where he was arraigned before Judge Douglas L. Paterson.

Wallace stood mute and a plea of Not Guilty was entered by the court. He was placed on \$1000 personal bond and given a court date of Monday, September 9.

At that time Wallace was found guilty by Judge Paterson and a pre-sentence probation report was ordered.

State Penalizes Six GP Drivers

Two Pointe residents had their operator's licenses temporarily suspended and four others had theirs revoked, according to a weekly report, dated August 31, received from Secretary of State James M. Hare, in Lansing.

Whether or not, for any reason, driving privileges have been restored to those listed on the penalty roster, was not disclosed.

Named on the suspension list, were Thomas E. Elliott of 2263 Stanhope, whose driver's license was taken from him on July 31 because of an unsatisfactory driving record, and which will not be returned until January 31, 1969; and Robert E. Strange of 1297 Lochmoor boulevard, whose is denied the right to operate a motor vehicle from August 12 through November 12, for driving while his license was suspended.

Licenses of the following have been revoked:

Joe Sipos of 2032 Anita, for driving while under the influence of liquor, and because of

Reveal Costello Burglary Loot

The burglars who broke into the home of the late James Costello, Sr., 19817 Edshire, on August 21, escaped with some loot, it was disclosed by Woods Det. Everett Plumb on Friday, September 20.

The detective said that information given by Mrs. Costello, who witnessed the death of her husband and two of her children, in a head-on collision on M-72, near Millen Township on August 19, and who had been hospitalized for shock, revealed that the thieves took a \$500 black Persian lamb coat with

violation of the Financial Responsibility Law, as of July 27; and Harold B. Coates of 1063 Beaconsfield, for driving while under the influence of liquor, and violation of the Financial Responsibility Law, as of July 31.

Also, John H. Laaz, of 292 Chalfonte, as of August 13, because of an unsatisfactory driving record; and Paul J. Deleuw, Jr., of 928 Nottingham, as of July 13, because of an unsatisfactory driving record.

a brown ranch mink collar; an unknown number of Kennedy half dollars, and silver quarters from her husband's dresser drawer, possibly totaling 50 coins; and about \$15 in assorted change from a son's bedroom.

Mrs. Costello said that she is still trying to determine if anything else is missing, and will let the authorities know of any further losses, as soon as it is known.

Mr. Costello, 46, general manager of the Detroit Automobile Club Inter-Insurance Exchange, his 14-year-old son, Patrick, and seven-year-old daughter, Kerry, were killed in the crash, as was a passenger in the car that collided with the Costello vehicle, Dennis A. Stewart of Owendale, Mich.

James Costello, Jr., 16, who was driving the family auto, and his brother, Peter, 12, were both injured, as was the driver of the second car, John Comment of Owendale.

Mrs. Costello was following in another car with their two other children, Matthew, 5, and Thomas, 11.

With Our Blessings

This is the time of year when we say goodbye to young men and women who are leaving for college. Some of you who attend institutions close by will be back with us often; others will not return until the Thanksgiving or Christmas vacation periods.

If your powers of perception were abnormally keen, you could find, tucked away in that outrageous assortment of luggage and duffle which is always affected by the college crowd, things other than the equally absurd collection of personal items which go everywhere with you. You would see a million tiny, unuttered thoughts, bits of advice which we never quite got around to passing on to you. There would be a trunk full of fervent wishes and bright hopes, a generous sprinkling of prayers, and those myriad stains would be the remnants of tears, dropped mostly by the mothers of the youngsters who are leaving home for the first time.

So much of us goes with you, it is just as well you do not know. Accepted with the seriousness with which it is sent, it would constitute a burden that young people should not be called upon to carry.

It is an unchanging law of life that the younger generations grow constantly further away from their parents. And it is, for us, a sad truism that just the reverse holds with the oldsters. Our interests turn inward and focus sharper with every passing year on the events which make up the lives of our children and have it no other way.

Advice is easy, and there are so many things we think we could and should have told you, to make things easier. Looking back, we are so prone to think of these years through which you are now passing a painless period of enchantment and frivolity. Time is a great eraser and most of us have forgotten that all things are relative; that the troubles of youth, though they may seem negligible to us, may be just as bitter to swallow as our own most devastating trials. If we are lacking in understanding, we ask your forgiveness.

The shyness of youth, if such a thing still exists, is surely equalled by the shyness of a parent who is afraid to bare his soul to his own children lest he appear weak, or in fear that he may embarrass the youngster with a display of maudlin sentiment. In removed repose, it appears to us that a great deal more of this interchange of inner feeling would be a healthy and highly satisfying experience.

We wish we had not hesitated to tell you how proud of you we are, and what tremendous boons you have granted us through your accomplishments. We are sorry about the beratings we felt at the time were merited, and we wonder fearfully whether they were harmful or helpful.

We are so mindful of our own first days in college, and of little incidents and soul-shaking experiences, which followed in quick succession through all those wonderful years. We are going through them again with you now, and hoping that something we have imparted is helping you, either to get the utmost enjoyment or the least sorrow out of them as they come along.

College is such an immense hodge-podge of opportunities and pitfalls, with so many doors that should be opened and entered, and so many others that should remain closed; so many roads that should be explored, and endless turns that should never be taken. Now, infinitely more than ever before, you are going to have to rely on your own judgment. But we want you to know that if you err, and if help is needed, we want to be given the first chance to provide the help.

There is so much said about our "future citizens," the "leaders of tomorrow," the "hope of the world," that we trust you will pardon us for mentioning these old cliches. We like to remember the college president who told the entering freshman class: "If by the time you have been graduated from here you have learned how to educate yourselves and can use a library intelligently, we shall consider that we have done a good job."

These years are but preparatory ones for the many, many which lie ahead, each pregnant with possibilities for broadening your education. The truly wise man is the one who continues to learn every day of his life, who is always honest enough to admit he does not know the answer, but then makes a point of finding out.

Your education has to do not only with classrooms and textbooks and lecture halls, but with mixing with your fellow students and faculty members, both socially and intellectually. Understanding is an attitude to be devoutly cultivated.

Let religion be a large part of your lives and be thankful that there is a noticeable surge today in the movement back to the Greatest Teacher. There will be many times when you find yourselves in need of His instruction and you will find it helpful to be on close terms with Him.

These are the golden years and yours is the privilege to make them what you will. If we have helped you walk across the threshold with confidence, we are grateful. If we have failed you, forgive us.

Ahh, Autumn in Michigan

Autumn. Ahh, the Loveliness of autumn! Do you remember? Sweet, crisp apples, and succulent pears hanging low in orchards. Purple grapes, clinging to green vines in an arbor. Sturdy branches bending beneath the weight of luscious peaches.

Chrysanthemums and asters glistening, diamond-spattered, by the morning dew. The glamor of the sumac, the goldenrod, and geraniums. Autumn in Michigan, now tiptoeing toward us with a cautious silence.

Corn in fields, shocked and ready for husking,

Harvest-time everywhere. A time of maturity, and ripening. Golden pumpkins, green squash, proudly lying in expansive fields. Pheasants zooming up from stubbled areas. And rabbits scooting to their hideaways.

Autumn, the grand and glorious portion of a dying year . . . a season which etches memories deep in the minds of those who experience its miracles. Leaves, rainbow-hued, smiling down from sap-drained trees, beginning to carpet the earth with their splendor.

Autumn. Friendly curlicues of smoke from a bonfire floating in the cooling breeze at dusk. Fresh honey, and newly-pressed apple cider. A time for migratory birds to assemble and discuss their flights to far-off places. A time when Nature begins to think about pulling over her blanket, and settling down to rest until spring. A time to fondly remember departed friends who will see no more of earthly autumns.

As William Carriuth wrote: "Some of us call it autumn, and others call it God." Autumn brings the harvest moon, the magnificent sunsets, aurora borealis, seeming low-hanging stars in the heavens, and Indian summer.

Ah, autumn . . . autumn in Michigan. Travel where you will—among lofty mountains, along rushing streams and through majestic forests—you'll find no more natural beauty than in our own great state of Michigan at this time of year.

June has long been glamorized by poets, but here in Michigan there are "rarer days" now at hand than June ever knew.

Breathe deep, look about you, sit awhile alone with your thoughts . . . the autumnal equinox soundlessly arrives next Sunday at 6:26 p.m. Ah, autumn. It may never come again for you and for me, so let's enjoy it to its fullest!

Hurray For The Tigers!

Hail, all hail, the victors valiant, those never-give-up terrific Tigers, for what they have done to bolster the spirits of the people of Detroit and Michigan. It took them 23 years to get to the top of the heap once again but they did it, and the great Motor City now is an excited and a happy old town.

We congratulate John Fetzer, team owner; Jim Campbell, general manager; Mayo Smith, team manager, and every last one of the Bengal squad, including the coaches, trainer, team physician, bench warmers, and bat boy, for an all-around magnificent job. We also wish them the best of luck in the World Series. Go get 'em, Tigers!

By the way, we have nary a ticket for the big play-off games in October. We plan to watch them on television. We just thought you'd like to know.

To wind up on a "punny note," it seems there's one thing the American League pennant winner should bear in mind . . . when they play that Missouri outfit next month, the Cards will be stacked against them. Ouch!

W.W.F.

Where Were They?

It is pretty difficult to lose 30,128 people but The Pointe did just that in the recent Special Election on Thursday, September 12. Only 10,462 persons took time to visit the polls to vote for or against a millage that would seriously affect Pointe children and their schools.

It is pretty difficult to understand how a community such as ours, supposedly so full of vital, intelligent, interested citizens could make this kind of a showing on election day.

Often people blame apathy at the polls on bad weather . . . Thursday was a lovely day. Lack of publicity? Interested citizens, Board members, groups opposing the millage, groups for the millage, and The NEWS, certainly kept the public informed!

How does anyone arouse this community's interest at the polls?

Soon we will be facing a presidential election let us hope that Americans don't show the same apathy Pointers showed last Thursday.

Letters to the Editor

Gentlemen:

About a year ago, Mrs. Taylor was impressed by one of your many interesting editorials. It concerned the flying of the U.S.A. flag on the automobile antenna.

which would last more than a short time?

This is an appropriate time for such symbolism of unity when, in the heat of the campaign, we may forget that U.S. also means us.

With appreciation, Nelson Taylor, M.D., 722 Notre Dame Avenue.

Would it be possible to interest some of our local merchants in selling a good grade of flag

Public Schools in Focus

(By Dr. Theos I. Anderson, Superintendent of Schools)

In September, as in no other month, schools are news. And, although the river of recent statistics and other bits of information on education that will characterize the 1968-69 school year have not yet begun to trickle into the mass media and the journals, last year's figures give residents an idea of the magnitude of the educational enterprise in the United States.

A research report covering 1967-68 published by the National Education Association reveals that:

- 1. One American in every 100 now works as a member of the public school instructional staff.
2. Last year saw an increase by 2.9 per cent over the preceding year in the number of instructional staff members in the nation's elementary and secondary schools.
3. Enrollment in the nation's public schools rose 1.9 per cent over the last year. The school age population makes up more than one-fourth of the total U. S. population, compared to one-fifth in 1950.
4. The 1967-68 year found nearly two and one-half million students graduating from high school.
5. Total expenditures for all public schools in the nation exceeded \$31 billion — up 6.9 per cent over the preceding fiscal year.

are appearing throughout the nation at the rate of more than one per week.

- 3. By 1970 it is expected that there should be more than 1,000 junior colleges from coast to coast enrolling more than 2 million students. And it has been estimated that by 1975 junior colleges will be teaching more than half of the freshman and sophomore students in the nation.

And, as you might expect, recent events have produced changes in the schools' curriculum, with other changes indicated. A recent survey conducted by the National Education Association revealed that although about a third of school districts with 12,000 or more pupils offer instruction in Russian, languages of Africa, Asia and India are virtually neglected.

Growth is evident, at the college level as well. For example:

- 1. College enrollments reached new highs in 1967-68 — 3,584,645 full-time and a total of 5,219,218 students.
2. Two-year junior colleges

systems provide training electronics; 6 per cent in data processing; and 3 per cent in computer programming. Approximately 75 per cent of all districts offer driver education, and nearly 17 per cent of all schools provide college level advanced placement courses.

What Goes On at Your Library

By Virginia Leonard

Fall, in our library milieu, always seems to be heralded in officially by our annual September staff meeting, complete with rolls and coffee, attended not only by our own library personnel, but also by members of the Board of Education, Friends officers and school administrators.

This year, the principal speaker was Mr. William Chait, Director of public libraries for Dayton and Montgomery County (Ohio). Mr. Chait is a nationally known public library administrator, and is head of one of the finest public libraries in the Middle West. He hailed from Brooklyn, originally, and received his library degrees from Brooklyn College and Columbia University. Prior to his present appointment in 1965, he was Director of the Kalamazoo School District Public Library.

Mr. Chait's subject, generally, was: what challenges do public libraries face today? He began his talk by assuming that Grosse Pointe was no longer an island; that Grosse Pointers also were insecure and possibly reflected the sense of division we all feel is harming our country. Perhaps the libraries, as well as the schools, can help to heal these breaches. Actually, said Mr. Chait, a better name for his speech would be: "Tell it like it is, baby." And this is what he sought to do.

During the past 30 years, libraries have changed—otherwise they would have disappeared. We seem to be breaking records in many directions. We are purchasing more books, AV materials; we are developing new library systems; we are breaking many records. Perhaps it is a good sign if we have crowded conditions rather than too much space. This would seem to be a sign of progress and of usefulness.

What will the future hold? A new book by Herman Kahr and Anthony Wiener, THE YEAR 2000, contains many exciting speculations for the next 33 years. Mr. Chait cited some of these in the area of new techniques for institutions of adult education, programmed learning, video communication, and rapid language teaching. A far-off possibility is the fact that we may all soon be living 150 plus years! Another book, THE BIOLOGICAL TIME BOMB by Gordon Taylor, also probes the future in terms of various body transplants, the postponing of death, the artificial creation of

life, and other such biological changes in the human race.

Many of us seem overwhelmed by the rapid developments in the various fields, because, as Mr. Chait feels, we didn't "tell it like it is, baby." Thus we have many of our young people who want to overthrow the existing society.

Mr. Chait is against censorship. We may deplore all the perversion, obscenity and sex in recent books, but people should be allowed freedom to read. Parents should rule children's reading — not the state. In Sweden, where pornography was put out in the open in the stores, the only curious lookers were American tourists! In Denmark, when censorship was abandoned, sex crimes diminished 26%.

Are we happy? asked Mr. Chait. Do we have enough education to have a serene family life? Not enough, it would appear, for our divorce rates are high, we are surrounded by juvenile delinquency, and there is constant trouble and rioting in cities.

Libraries enter this picture as they must maintain a record of man's development through the ages—not always in book form, but this knowledge must be recorded in some form. Will technical advances eliminate the book? No one knows, but some media for this recording will be used.

Smaller libraries, in order to keep going, will have to link themselves with larger libraries and thus larger and larger systems will develop. Mr. Chait believes that the relationship between the reader and the book will not disappear, but he would like to see less emphasis put on the kinds of books one can buy in a drug store and more on books of thought provocation.

Libraries must make books and other media available — must become community information centers. He feels we are not completely successful as long as the need for such newspaper features as "Action Line" exist!

It will cost more and more money to maintain libraries in the future. Books constantly cost more and we need extension of many programs, as well as creation of new ones to meet future needs. To carry out their destinies, libraries will need better and smarter librarians, new technologies and new ways in new media.

From Another Pointe of View

By Janet Mueller

Over lunch with 1968-69 Grosse Pointe Celebrity Series "Star Planners" Franny (Mrs. Charles) Bayer and Ginny (Mrs. Charles, Jr.) Wollenzin, we learned a startling fact: A few tickets for this year's Series are STILL available!

Why startling? ... Well, the six-lecture program is just about THE most looked-forward-to "culture-plus-fun" event offered annually in The Pointe, and we can't imagine anyone who's aware tickets can be had not rushing to reserve one ... or a pair ... or three ... or four ...

Of course, the fact that the Celebrity Series has been turning away patrons for several years now may have something to do with the current unprecedented availability; people DO get tired of being told "No, I'm sorry ..."

But there's still time to order this season's tickets: A call to ticket chairman Mrs. Elmer C. VanTiem, TUXedo 2-1536, or co-chairman Mrs. Clayton Alandt, TUXedo 1-8504, will reserve a seat for Drew Pearson's Series-opener Thursday evening, October 10, in the Esquire Theatre, and for all five following lectures.

Celebrities Series' sponsor is the Assistance League of Bon Secours Hospital.

Wilson, brochures chairman; Miss Marie Louise Anderson and Mrs. Ben Beyer, in charge of mailing; Mrs. John D. Benfield and Mrs. James A. Lafer, posters and publicity chairman, respectively.

Mrs. Dodds will entertain presidents of the Grosse Pointe garden clubs working with the Center to make

These are tips.

You won't mind giving them. In fact, you may find yourself being more generous than usual. Because we really have the nicest beauty people in town. Our shampoo people tend to spoil you with little neck massages and nice cool rinses at the end. Our stylist people are involved with making you look pretty — not just your hair. Our nail people make nice over you right up to your elbows. All of which means that we have standards and we care and we'd never want you to tip anybody unless it was earned. Not a dollar. Not a quarter. Not one little penny.

THEY'VE ARRIVED

DEAR PAT,

This morning I found just the chuckle I needed to offset the gloom Miss Dracula of the hotel switchboard had thrown me into. I did want her to wake me but good God, an alarm clock is friendlier and far more soothing. At any rate the damage was done and I knew I must be on my merry way, eventually ensconcing myself into a crowded elevator (those dreaded things). The gentleman beside me disembarked in cadence with me. We turned in opposite directions but were immediately snapped back with fanbelt force. You won't believe this—Our handbags had become entangled—I kid you not! Mine was black with chunky metal—his was brown with shoulder straps. The metal and the straps shared an immediate desire for one another and there we were side by side—the center of a marvelous farce. I struggled not to climb the walls in wild hysteria managing, simply, to say "What, no gloves?" as we proceeded with an "after you Alphonse" kind of routine. I'm all for men's fashions being current, but really, this was a bit much.

I was still chuckling when I jingled the bell on the door that read KATJA OF SWEDEN. Quickly did I forget the humor of earlier incidents as I became enthralled with the whimsy of this enchanting knit line.

Pat, we are going to have so much fun with this group. They are gay, happy dresses that kick up their heels a bit and enjoy life a lot. Dear, adorable Paul had to verbally slap my wrists several times reminding me that I must not cause such a scene in the showroom.

I'll have to describe these in alphabetical order because I have no favorites—I love them all. For openers—the cotton prints—a marvelous weight to be worn through seasons—little zip front long sleeve treasures—or a fantastic plaid with low hem pockets. There is a little grey number with convertible roll collar that I know will become that something I keep in the shop to jump into when I don't feel quite right in whatever else I've worn some days.

The Jacquards!—sweetie the Jacquards are heaven—flared skirts—little cowl necks and color combinations that had to flow from the looms of a most ebullient people.

In the printed wool category a terrific black and white with small collar and long flare sleeves that screams to belong to that delightful Mrs. P. on Irvine lane. Or how about a pleated low torso in a green—navy combination that really moves.

Can't wait until you see the incredible velvet prints. These are truly loving hands at home—a unique, entertaining group of hostess wear that will have him enchanted to be there with you.

You, no doubt think I was impressed with Katja of Sweden. Pat, it was six acts of vaudeville and this show should run forever.

Best love,
Jo

DREAMER

A man may be the architect of his fortune, but he still can't get the sun in every room.

Welded Sculpture In the Home, Not the Museum

It is this crux of sculptor Silas Seandel's aesthetic concept is resolved as functional metal sculptures for interiors are created in his Third Avenue studio in New York City as free-form furniture, light fixtures, screens, and fountains.

Jacobson's brings Detroit its second assembly with the sculptor and his collection which embodies a close in the gap between art and functional home furnishings. Seandel will make a personal appearance from 2 to 5 p.m. at Jacobson's, Grosse Pointe, on Thursday, Sept. 26th. His sculptures will be exhibited through October 15th.

The natural presence of steel, copper, bronze, and gleaming chrome ingratiate the strong, purposeful and visually appealing Seandel designs. As the copper tarnishes and steel mottles with age, so improves the aesthetic integrity of these art forms. The finishes are sculptural rather than furniture finishes, according to the artist. "I'm using many 20th century materials. A distressed steel technique, the tortured look (molten steel infused with copper), with traditional characteristics of contemporary in feeling." His treatments elevate the temporal environment. "My mirror-finished chrome is unmistakably today."

Miss Weitenberner Is September Bride

Alex Weitenberner Gives His Niece in Marriage to Donald Jerome Knoblock; St. Jean of Arc Church is Setting for Rites

Following the Friday evening, September 6, wedding of Marilou Kathryn Weitenberner and Donald Jerome Knoblock, the bride's mother, Mrs. Henry F. Weitenberner, of Moorland drive, entertained at a reception in Geisz Hall.

Setting for the 6 o'clock rites was St. Joan of Arc Church.

The bride, who is also the daughter of the late Mr. Weitenberner, was given in marriage by her uncle, Alex Weitenberner.

Her peau de soie gown was accented with re-embroidered Alencon lace and seed pearls, and her short illusion veil fell from a pearl-studded lace headpiece. She carried a cascade of white orchids.

Honor matron Mrs. Henry Weitenberner and bridesmaids Marsha Hubbard, Lynda Knoblock, and Karen Knoblock, sisters of the bridegroom, Ann Bissell and Janice Weitenberner, the bride's cousin, wore green chiffon frocks styled with lace bodices, and matching headpieces. Their cascades were

fashioned of pink roses.

Daniel J. Knoblock served as his twin brother's best man, and two other brothers, Kenneth and Gerry Knoblock, were among the usher corps. They are the sons of Mr. and Mrs. Edwin Knoblock, of Port Austin, Mich.

Also ushering were Henry W. Weitenberner, brother of the bride, and Edward and Daniel Gavrilis, of Bay City, the bride's cousins.

A blue silk dress and coat ensemble was Mrs. Weitenberner's choice for her daughter's wedding and the reception. The bridegroom's mother selected a blue-green silk ensemble. Both mothers chose white orchid corsages.

The newlyweds will return from a Bermuda vacation to make their home in Madison Heights.

Robert O. Billner Weds In Texas

Robert Owen Billner, son of Mr. and Mrs. Frank Billner, of Brys drive, claimed Dorothy Marie Zimmerer, daughter of Mr. and Mrs. J. F. Zimmerer, of Gainesville, Tex., as his bride Saturday, August 24.

Celebrant of the 5 o'clock Nuptial Mass in St. Peter's Catholic Church, Lindsay, Tex., was The Reverend John Walbe.

A Cathedral length train complemented the bride's floor length cape gown of imported candlelight Alencon lace over peau de soie. Scalloped lace accented her seed pearl-trimmed neckline.

Lace petals studded with seed pearls held her tiered illusion veil, and she carried an arrangement of cymbidium orchids and stephanotis.

In floor length A line frocks of avocado peau de soie, accented with neckline beading, were Mrs. Ernest Wolf, of Gainesville, who served as her sister's matron of honor, and bridesmaids Mrs. Donald Van Hove, sister of the bridegroom, and Mrs. Frank Novacek, of Fort Worth, Tex., another sister of the bride.

Frank Billner, Jr., acted as best man for his brother. In the usher corps were Ernest Wolf, Albert Zimmerer, the bride's brother, Donald Van Hove and Frank Novacek. The bride's niece and nephew, Shelly Zimmerer and Troy Wolf, were flower girl and ring bearer.

When the newlyweds left for a vacation in Acapulco, Mexico, following a reception in the Church Parish Hall, the bride was wearing a three-piece ensemble of mauve pink Alaskine. They will make their home in West Palm Beach, Fla.

Language may be a vehicle of thought, but in some cases it's just an empty wagon.

Old Christ Church, Detroit, was the scene of the candlelight service Saturday evening, September 14, at which Kurt Armin Reinstein, son of Mrs. Frederick Kruger Reinstein, of Lakeshore road, and the late Mr. Reinstein, claimed Rebecca Margaret Garfinkel as his bride.

A reception at the 19th century Sibley House, next to the Church, and a champagne party at the East Jefferson avenue, Detroit home of the bride's parents, Mr. and Mrs. Samuel E. Garfinkel, followed the 8 o'clock rites.

Officiating at the ceremony were the Reverend Frank J. Haynes and Assistant Minister Harry Cook, II.

The bride, given in marriage by her father, wore a gown of Belgian Alencon lace, fashioned with a ruffled neckline, long sleeves trimmed with small scallops and a scalloped edge train.

A small Juliet cap of Alencon lace and pearls secured her Cathedral length mantilla of pearl-trimmed Chantilly lace, and she carried an arrangement of fresh and dried flowers, miniature gypsophylla, baby's-breath and starflowers.

In Victorian frocks of satin and lace, their skirts extending into slight trains, with their hair arranged in traditional Vic-

orian curls, were honor maid Gloria Lopata, whose gown was green, bridesmaids Mrs. Sidney Koslen and Mrs. Everett Butler and junior bridesmaid Marie Buckley, whose gowns were gold.

All wore matching velvet headbows and carried miniature dried flower bouquets.

Flower girl Dorrit Koslen wore a Princess style floor length frock of white satin and lace and carried a small basket filled with rose petals.

Best man was Don Bruner, of Columbia, Mo. In the usher corps were Samuel Garfinkel, brother of the bride, John McKinney and Richard Weber. Guy Koslen was ring bearer.

The mother of the bride wore a violet crepe gown fashioned with a cowl neckline and three-quarter length cuffed sleeves, and pinned a violet orchid to her purse.

The bridegroom's mother selected a pearl-trimmed floor length dress of beige mohair silk. She pinned a cream-colored orchid to her purse.

After a brief vacation in New York, the newlyweds will leave for study and travel in Northern Europe.

A man may be self-satisfied, but it's the other fellow's opinion that really counts.

Kocsin-Quinn Vows Spoken August 30

Attendants Wear Rainbow-Colored Chiffon Frocks; Bride's Gown Is Alencon Lace Over Ivory Peau de Soie

Dr. and Mrs. William T. Quinn entertained at a reception in the garden of their Audubon road home following the Friday evening, August 30, wedding of their daughter, Carol Jean Quinn, and Daniel Stephen Kocsis, son of Mr. and Mrs. Geza Kocsis, of Southgate.

The Reverend Gary Gruber officiated at the candlelight rites in Grosse Pointe Memorial Church, for which the bride selected a gown of Alencon lace over ivory peau de soie.

Her ivory illusion veil fell from a lace headpiece, and she carried a Colonial bouquet of ivory daisies and carnations with color accents of strawflowers and baby's-breath.

Her attendants wore floor length frocks of chiffon, styled with Empire bodices, ruffled collars and cuffs and satin sashes, each girl's a different color: Powder blue, pink, lime, aqua, yellow and lavender.

Monica Quinn was her sister's honor attendant, and bridesmaids were Janet Quinn, an-

other sister of the bride, Ann Noecker, Claire Bertel, Mrs. Terence J. O'Neill, the bridegroom's sister, and Mrs. Kenneth C. McCormack.

The mother of the bride selected a floor length gown of samarron rose silk. The bridegroom's mother wore a lace-bodiced gown of bright yellow silk crepe. Both mothers chose corsages of roses.

The newlyweds, vacationing at the Lake Michigan shore and Southern California, will be making their home in East Lansing.

Out-of-town guests included Mr. and Mrs. James Phelps Edwards, of Okemos, the John J. Quinns, of Sault Sainte Marie, Ont., Mrs. Robert Moscrip Quinn, of Toronto, Ont., Dr. and Mrs. Harold Lee DeWeese, of Carbondale, Ill., the W. G. Stuelpes, of Fort Wayne, Ind., and Mrs. Arthur Perry DeWeese, of Bloomington, Ill.

They carried Colonial arrangements of complementary mixed flowers.

Acting as best man for his brother was David Kocsis. Seating the guests were Terence J. O'Neill, of Saginaw, Robert D. Morgan, Kenneth C. McCor-

YOU'RE SURE TO FALL IN LOVE . . . WITH NEW CAPE COD

So often we've been handed the challenge, "Find me a house which shows as well inside as it does from the curb, requires a minimum of maintenance and above all . . . has few but large rooms." We believe what is pictured above will fill the bill. If you desire first floor living or prefer to sleep upstairs, this delightful house has two bedrooms on each floor, and all four have their own bathrooms. The living room is thirty feet long, and the large library has random-width-pegged floors and a charming fireplace wall. The most elaborated heating and cooling system was built into the house to keep the temperature as you desire. A special attachment also electrically cleans the air and removes most impurities, which naturally makes for a dust free house and less frequent decorating. All this just a few feet from the lake on Deeplands.

Old World Market Opens October 10

Annual Folk Arts Fair at Detroit's International Institute is "Moved Up" A Month; Will Run Through October 13

In these changing times in today's changing world, even the International Institute's Old Market, Detroit's original folk arts fair, is being geared to "changes" on its agenda and is to be held at the Institute, a Torch Drive Agency in East Kirby street, Detroit, a month earlier than usual.

For many years the Market was presented the week preceding Thanksgiving. This year it is slated for Thursday through Sunday, October 10, 11, 12 and 13.

But the thousands of visitors who have come annually to browse and buy, to sample international goodies and to literally soak up an atmosphere of other lands, may rest assured that other traditions remain static, and they may continue to look forward to the wealth of color and pageantry of other Markets.

Hours daily are 12 noon to 10 o'clock, except on Sunday when the closing time is 9 o'clock. Visitors are reminded, too, that the Municipal Parking Lot under the south wing of the Institute of Arts is only a block away and a handy place to park.

Mrs. Morton W. Adler, Market chairman for the second year, is promising activities of interest to all ages — and a Slovakian booth for the very first time. Assisting her in arrangements are vice-chairman is Sigurd Rudzitis.

For the many segments of the Market there are a variety of chairmen, among them Louis

Hopping, in charge of finance; Mrs. Doyle Davison and Mrs. Edward Korkeo, manning the Pantry Shop and the Food Service, respectively; and Mrs. Lucille Keese, in charge of hosts and hostesses.

Mrs. Modelle Jerome is chairing the lounge for volunteers, and Howard Rasch and Norman Fink are handling volunteer assignments for the Market.

Others in key positions include Mrs. Remus Robinson, Mrs. Donald Baxter, Miss Angela Maglia, Dr. Marjorie Peeble-Meyers, Miss Ruth Cronkite, Mrs. Richard Lawrence and Miss Rena Thompson.

Throughout the Institute, areas of the world will be emphasized by decor in specific points and the niches in the Hall of Nations will glow with exhibits of harvest customs of more than 40 countries.

In an outdoor setting fronting the Institute, autumnal color will be reflected in arrangements of corn shocks and field pumpkins adding flavor to mugs of cider, hot or cold, supplemented with fresh doughnuts to be dispensed by members of American Youth Hostels, lending a hand to the Old World Market this year.

Mrs. Donal Gauthier will again have her long, slim loaves of French bread for sale — and the chestnut man is bound to be just around the corner.

Inside, Patisserie tables will be groaning under trays of goodies, and luncheons and dinners may be enjoyed at the International Buffet in the cafeteria or at the American Snack Bar.

So nothing will really be changed at the Old World Market, except the dates October 10 through October 13. And, as always, the Market will continue to enable the foreign-born to regale visitors with outstanding examples of Old World culture and to reflect the Institute's role in the community as Detroit's helping hand to people who come here from other lands.

'Paper Lion' Premiere Invitations Go Out

Among the coolest places in town in the middle of a midsummer heat wave is the garden of the Daniel W. Good-enoughs' home in Lothrop road, where a group of local ladies gathered one day last month to address invitations to the world premiere of the United Artists' movie "Paper Lion," which will

be shown as a benefit for the Merrill-Palmer Institute at the Adams Theatre October 3. MRS. PETER THURBER, MRS. MERRITT JONES, JR., and MRS. CHARLES WRIGHT, III, (left to right), picked a shady spot in which to wield their pens.

the Tour an assured success. She's invited them to join her for coffee in her Cloverly road home Wednesday morning, September 25, at 10:30 o'clock.

She'll distribute tickets for pre-sale to each of the presidents. The public can also purchase tickets the days of the tour.

Thrift Shop Fashion Show

A bundle of clothing or bric-a-brac, labeled with the donor's name, is the ticket of admission to one of autumn's most delightful events: The Board of the Neighborhood Thrift Shop's tea following the annual fashion show, to be presented this year Tuesday, October 1, by the Shops of Walter-Pierce, at 2:15 o'clock in the Grosse Pointe War Memorial's Fries Auditorium.

Fashion Show chairman is Mrs. Oscar Buhr. Tea chairman is Mrs. Frederick Colby. Mrs. William Canfield and Mrs. John Odell are responsible for staging, and a quartet of dedicated ladies, Mrs. Bruce Chalmers, Mrs. Jeremiah V. Jenks, Mrs. Alfred Reuther, Jr., and Mrs. Eric Stroh, have volunteered to transport all "bundles" from the War Memorial to the Thrift Shop in Waterloo avenue.

Thrift Shop Board president is Mrs. Theodore Foster.

Tennis And Crumpets: Conclusion

Tomorrow marks the conclusion of 1968's Tennis and Crumpets Tournament, with final play-offs in Classes A and B followed by a 6 o'clock exhibition match at the Country Club of Detroit, pitting such pros as Tony Traebert and Gene Scott against the best of The Pointe's local talent.

In charge of this year's benefit, (proceeds are donated to Childrens Hospital), is Mrs. Miles M. O'Brien, Jr. Mrs. David S. Summers is Tennis and Crumpets president.

Wellesley Club Meeting

"The Wellesley Woman in the Community—Working with Inner-City Children" will be the theme of the Detroit Wellesley Club's September meeting, featuring Dr. Marjorie Sanger, a Wellesley graduate and chairman of Community Affairs at the Merrill-Palmer Institute.

Mrs. Robert Everett will open her Woodland Shores drive home next Thursday, September 26, to Club members. Assisting her in planning the 12:30 o'clock luncheon is a committee headed by Mrs. Robert Patterson.

Because of the Club's traditional project of selling gift wrappings, Mrs. Raymond Brown, president, and Mrs. Frederick Keydel, Ways and Means chairman, have arranged for a demonstration of attractive packaging ideas to be presented by Adele Huebner.

Woodwind Quintet To Entertain

Pointer Mrs. Harvey A. Fischer, chairman of arrangements for the Social Affairs committee of the Women's Association for the Detroit Symphony Orchestra, has announced that the organization's first luncheon meeting of the season will be held tomorrow, at Bloomfield Hills Country Club.

Mrs. Winfield S. Jewell, Jr., also of The Pointe, has asked localites Mrs. Philip C. Baker and Mrs. Joseph H. Spitzley to serve on the reception committee.

Entertainment will be provided by the Detroit Symphony Woodwind Quintet: Arno Mariotti, oboe; Ervin Monroe, flute; Arthur Krebbel, French horn; Paul Schaller, clarinet; and Charles Sirard, bassoon. Mrs. Joseph Jennings, of Whittier road, is program chairman for the season.

Women's Association president and concert harp-sichordist Mrs. Arnold W. Lumgershausen, of Berkshire road, will conduct the brief business session.

Engaged

Mrs. Stirling Loud, of Trombly road, announced the engagement of her daughter, BONNIE BART, to Robert Vincent Callahan, son of Mr. and Mrs. Vincent G. Callahan, of Uniondale, N.Y., at a small cocktail party Friday, September 13.

The bride-elect is also the daughter of Robert Barit, of Warwick, Bermuda. She is a graduate of Grosse Pointe University School, attended Connecticut College, New London, Conn., and will be attending George Washington University in Washington, D.C. this fall.

She made her debut in Washington at a reception and a dance given by her cousins, Mr. and Mrs. Edward Burling, Jr., and in Detroit in June, 1967, at a reception given by her mother.

The prospective bridegroom is a graduate of Wesleyan University, Middletown, Conn., where he affiliated with Psi Upsilon. He will be attending graduate school at George Washington University this fall, majoring in American Studies.

Rain Can't Spoil A 'Perfect Party'

If versatility is the key to being a good hostess, congratulations are the order of the day for Mrs. Harold Huck, of Moorland drive. When it rained all over her pool party and barbecue plans recently, she moved her guests from her home to the banquet room of Huck's Lakeshore.

Swimming and steaks became a sing-a-long and roast beef buffet.

Mrs. Huck had volunteered to entertain the staff, residents and interns of St. Joseph's Hospital in East Grand boulevard. St. Joseph's, being an Inner-City hospital, doesn't enjoy the same volunteer benefits many of the newer hospitals receive. It's one hospital where volunteer service is really needed and appreciated.

Only one of the interns and residents is an American: the rest are a long way from home and friends. India, Thailand, Korea, Germany, Iran and The Philippines can seem even further away on an American holiday weekend: That's why Mrs. Huck selected Sunday in the

Plans for a May 3 wedding are being made by LYNNE DELL STEYER and Frederick Alan Noble, whose engagement has been announced by her parents, Mr. and Mrs. George F. Steyer, Jr., of Westchester road.

Both the bride-elect and her fiancé, who is the son of Mr. and Mrs. Guy M. Noble, of Roslyn road, are students at the University of Michigan, where she is affiliated with Alpha Delta and he with Sigma Phi Epsilon.

Dr. and Mrs. Bhogilal Doshi and his staff, Sister Denise Marie, a new addition to the hospital staff, Brother Augustine and Brother Michael of the Augustinian Monastery and Dr. and Mrs. Paul Dionne also attended the party. Mrs. Dionne is possibly the hospital's most invaluable volunteer.

Helen Pilzner, director of St. Jude's Clinic, and her husband, Stan, also joined in the fun. St. Jude's Clinic is a facility of St. Joseph's Hospital operated for the benefit of the less fortunate. St. Joseph's residents are the backbone of the clinic staff.

The watchword at St. Jude's is personal communication with a weather-eye to all the treatable human ills, not just the medical.

Sister Mary Quentin, R.S.M., assistant director of Nursing, brought along her guitar and the two German medical students serving as "externs" at the hospital this summer surprised everyone with their hearty rendition of "Clementine."

Wilhelm Schlenker, of Munich, and Rudolf Menzel, of Mainz, will spend a total of eight weeks at St. Joseph's and four weeks touring the country before their return to Germany for their final year of medical school.

Linda Huck and Judy Collins enjoyed the afternoon with these two boys, chatting amiably about the differences and similarities in German and American education and youth in general.

Film to Benefit Bon Secours

Setting for the kick-off party for a benefit premiere week showing of "Funny Girl" Saturday, October 26, at the Northland Theatre, sponsored by the Bon Secours Hospital Guild and the Maronite Apostolic Exarchate Missions, was the Ruth Joyce Salon.

Guests included Bishop Francis M. Zayek, D.D., Archbishop Ignatius Ziade, of Beirut, Lebanon, and Consul General of Lebanon Souheil Freijy and Mrs. Freijy.

The Guild will donate proceeds from the movie to Bon Secours Hospital for its expansion program.

MRS. STERLING P. BERRY OF LAKELAND COURT WITH (LEFT TO RIGHT) JULIA, MARTHA, BARBARA AND GINNA.

By Janet Mueller

Ask Anne Berry to help you address theater benefit invitations at a neighbor's house next Tuesday, and chances are she'll say, "I'm sorry . . ." Ask her if she's available for an hour or so next Thursday, could she volunteer that hour to "work in a good cause?" — and chances are she'll say, "I'd really love to; unfortunately . . ."

BUT, if you've got something going next Wednesday, don't hesitate to give Anne a call.

She may still say No—after all, there's only so much a person can do on any given Wednesday—but your chances of getting her to say Yes are 100 percent greater than they'll be if you request her help on any other day of the week.

Wednesday is Anne's day out. "I'm sort of 'too' busy this year," she admits, "but there isn't one volunteer job I'm doing currently that I haven't done before."

Heads Church Nursery She's been re-elected president of the (Grosse Pointe Memorial Church) Memorial Nursery. She's treasurer of her chapter of the Colonial Dames of America, and has been "for so many years that I can't remember how long."

She's on the Junior Board of Williams House and Membership chairman of the Grosse Pointe League of Women Voters. Both Boards meet—naturally!—on Wednesdays.

Of course, she "snatches" time, 10 minutes there, 15 here, at home all during the week to work on her volunteer projects.

"I do try to set aside days, sometimes weeks, for each specific organization," she admits. Her Filing System is rather unique: She uses grocery bags, labeled "Nursery School," "Colonial Dames," "LWV" . . .

"If I want to do some work, I just empty the appropriate grocery bag on the dining room table and plunge in . . ."

Except on Wednesdays . . . Wednesday Rene Hedrick, her cleaning lady for, many years, takes over and on Wednesday Anne plunges OUT.

The Girls Don't Mind The Berry girls, Julia, eight, and Ginna, six, in the Third and First Grades at Maire School respectively, Martha, who'll be four in October and has just started her second year at Memorial Nursery, and Barbara, who'll be two in November, don't mind their mother's weekly departure. They know she'll be back; their parents spend plenty of time with them.

"We've always taken summer vacations with the children, and we have great hopes of taking them skiing," Anne, who skied with Sterling just about every other weekend before they were married—and has been skiing exactly TWICE since they were married!—observes.

The Berrys DID try a Family Camping excursion for the first time this turned into a Comedy of Errors, they're ready for more . . .

"Everything that could go wrong, did," Anne laughs. They planned to travel to Harrisville, then through Michigan's Upper Peninsula, returning home via Burt Lake.

Car piled high with tents and equipment and provisions and children, the Berrys set forth. An hour or so out of Grosse Pointe, their radiator began boiling over.

They limped—slowly—into Bay City. It was Saturday

can I, what can one person, possibly DO . . . ?"

Can Support Candidates Anne emphasizes that individual League members are encouraged to work for the candidates and political parties of their choice: "Only Board members must be non-partisan, and their husbands cannot hold any political office higher than Precinct Delegate." The League itself may take a stand on issues, but never on candidates.

The membership-at-large is encouraged to write legislators, to make viewpoints known; the League provides information on specific Bill numbers and who to write to about them.

League members, (membership in the Grosse Pointe League of Women Voters automatically results in membership in the State and National LWV organizations), receive local bulletins monthly, plus legislative news from the State organization and the "National Voter," bulletin of the National organization.

Guides Published Before each election, the League publishes a "Voter's Guide."

"We send a list of questions to the candidates, and we print their answers, without comment," Anne explains. "If they don't answer, we print that, too . . ."

The League sponsors pre-election rallies, at which candidates are invited to address the public. Study items, on local, state and national levels, are constantly being reviewed, examined for a year or more before any attempts to reach consensus recommendations are made.

"I've rarely met people who bend so FAR over backwards to be fair," Anne notes.

Currently, local League of Women Voters membership stands at approximately 160—but Anne would like to see that number of doubled, tripled, quadrupled.

"I will, maybe I won't Pointe lady. "The dues have just been raised, I know; they're now \$10 a year . . . but we've figured out that our services cost \$10.05 per member per year, and our year runs from the month a members joins, September to September, October to October, November to November, so you always get your full \$10's worth . . ."

Directory Completed As Membership chairman, Anne has just completed work on the LWV's annual Directory, a list of League members and officers, names and addresses of state and national representatives, city and county officials, dates, times and places of City Council and School Board meetings.

This Directory is revised and re-issued every fall — which means that Anne must work on it during the summer. She does not mind.

"Summers are usually busy, as far as I'm concerned," she says. "I find if I can get things organized in the summers, the winters aren't so bad . . ."

This summer, in between typing Memorial Nursery and LWV lists, selling tickets for the Junior League's FashionScope and "surviving" her Disaster Vacation, Anne helped a bit with yard work—until her fever forced her inside the house. She doesn't view her Departure From The Fields as a great loss to the Berry Acres Beautification Program.

Husband Is Gardener "Sterling is the gardener in the family," she admits. "Every tree that's here, he planted." Their house stands on what used to be the old Stahelin Farm. When they moved in eight years ago, (Anne and Sterling, both native Pointers, lived in Detroit briefly after they were married but moved back into The Pointe as soon as

BAKED COHO SALMON WITH SOUR CREAM DRESSING

An MSU Extension Service Recipe

3 or 4 lbs. dressed coho salmon (or other dressed fish), fresh or frozen
1 1/2 tpsps. salt
Sour cream stuffing
2 Tbsps. melted fat or oil
Thaw frozen fish. Clean, wash and dry. Sprinkle inside with salt. Place fish on well-greased bake-and-serve platter. Stuff fish loosely. Brush fish with fat. Bake in moderate (350°) oven for 45 to 60 minutes, until fish flakes easily when tested with a fork. Baste occasionally with fat. Serves 6.

Stuffing

3/4 C. chopped celery
1/2 C. chopped onion
1/4 C. melted fat or oil
1 qt. toasted bread cubes (commercial herb-seasoned croutons may be substituted)

1/2 C. sour cream
1/4 C. diced peeled lemon
2 Tbsp. grated lemon rind
1 tsp. salt
1 tsp. paprika

Cook celery and onion in fat until tender. Combine all ingredients and mix thoroughly. Stuff approximately 1 qt. stuffing.

(they started their own family), there was nothing surrounding it but grass.

Now, tall trees and bushes, offspring of "snips and snaps stolen from parents and friends," dot the front and large backyard, where the Berrys grow most of their own vegetables.

Children dot it too, running in and out of the house, and over the lawn, usually in groups of more-than-four. (The Berry girls, a gregarious bunch, attract their share of friends.)

And Ann wonders why she's so busy . . . "I used to love to swim, but I haven't been out of the baby pool at the Park in years," she says. "I used to sew—I either made or re-made all the draperies in the house—but I can't seem to find the time now . . ."

Faces Upholstery Job "I've got to learn to re-upholster; the kids have destroyed the sofa . . ."

Occasionally, when she gets "bogged down with the laundry," Anne thinks wistfully back to the days before she was married, when as a Medical Secretary she worked for Ford Hospital's ophthalmologist-in-chief.

She was especially fascinated by Research, loved her job and would like to return to it some day . . .

But not tomorrow, Anne's about as "fulfilled" as she can get right now she couldn't care less about the "Feminine Mystique" . . .

If things get too hectic at home, she simply looks ahead. There's always Wednesday . . .

MRS. WALTER WEED opened her Hollywood avenue home Wednesday evening, September 18, for a meeting of the East Side area group of the Detroit Alumnae Chapter of Alpha Chi Omega. Chairman of the group is MRS. THOMAS HEYDMAN, of Cloverly road, and MRS. THOMAS WOODRUFF, of Harper Woods, and HELEN JAMES, of Wood lane, assisted Mrs. Weed as co-hostesses.

Grosse Pointe Alumnae of Sigma Kappa gathered for an evening meeting September 11 in the home of their president, MRS. J. DALE PETROSKY, of Heather lane.

"I blew my teens . . . on panty raids and 'phone booth stuffing, spent my twenties lost in the violence on the boob tube and was three years into my money-grubbing 'thirties before I asked my first question. I guess I'm a late bloomer" . . . We admit to being HIGHLY intrigued by this Capsule Autobiography of Ric Masten, Big Sur singer of sermons, who'll present his Question Songs at the Grosse Pointe Unitarian Church tomorrow evening, September 20, at 8:30 o'clock . . . Mr. Masten is staying with the Charles Drakes, of Notre Dame avenue . . . He's on his first Midwest tour, sponsored by the Unitarian-Universalist Billings Lecture Fund; tickets for his "Happening" are \$2 each at the Church . . .

To paraphrase Caesar . . . all braille is divided into six dots. This system of touch reading for the blind utilizes a "cell" of six embossed dots. With combinations of these dots, it is possible to transcribe ANY language using the Roman alphabet into Braille . . . Beginning next Thursday, September 26, at 10 o'clock in the morning, the Grosse Pointe Braille Club will offer interested persons an opportunity to acquire this worthwhile skill. Braille transcription classes, with Mrs. Lawson Potter as teacher, will meet regularly on Thursdays at the Grosse Pointe Main Library, Kercheval avenue at Fisher road . . .

"Braille transcription . . . certainly does not fall into the 'busy work' category," Mrs. Potter says. "There is a real need for this rewarding service. Commercially printed braille is extremely expensive, and requests can be filled more quickly on a person-to-person basis" . . . (additional information concerning the classes may be obtained by calling 886-3226 or 881-0686; equipment necessary for the course is provided at cost, about \$5 per student) . . .

The Grosse Pointe Braille Club . . . a non-profit volunteer group, is affiliated with the Tri-County Braille Volunteers. Similar organizations in Wayne, Oakland and Macomb counties have united to coordinate braille work in the area. In October, Tri-County will offer a course in the Nemeth Code of Mathematics for certified brailleists. Mrs. John Huetteman, Jr., Grosse Pointe Club president, is Tri-County representative . . . Club members continue to transcribe a wide variety of materials into braille. In addition to compete textbooks, they have transcribed religious and medical pamphlets, a medical glossary, music compositions and numerous volumes of fiction and non-fiction for the Marquette, Mann and Cleveland school libraries. Requests for work from residents of Grand Rapids, Birmingham and Toledo have been filled as well . . .

A bindery . . . now under the direction of Mrs. Prosper DeCoster, is operated by the Club. After materials are transcribed into braille on standardized heavy paper, the pages are permanently joined, by mechanical means, in volumes . . . Club members perform the various operations . . .

The Club also contributes . . . to the support of Telephone Services for the Blind. Blind persons in this area may dial this Service for current information of interest to them . . . Mrs. W. A. Huegli is in charge of assigning requested transcription work to Club members. Mrs. Norman Hurd acts as membership chairman. Other officers include Mrs. John Ellis, vice-president, who arranged the Club's several social functions each year, and Mrs. Ben McLachlan, publicity chairman.

We goofed! We admit it! . . . And we apogize profusely to Marge (Mrs. Richard C.) Hudson, last week's "Pointer of Interest" . . . Very occasionally, a printer will "drop" a line or two of type when he's setting a story, and our proofreader, checking that story in the last-minute rush before the paper finally is "put to bed," will not catch the error IF the telescoped paragraph makes sense . . . That's what happened to Marge's statement on her brief career as a Little League coach . . . "One year," Marge told us, "the coach of my son's Little League team was unable to get to the playing field until after 5, and the team wanted extra work SO badly, another mother and I went out and just coached the heck out of the boys" . . . In last week's article, Marge's words came out as "One year, the coach of my son's Little League was SO bad, (our proofreader must have x'd out the "ly" as a "typographical error"), another mother and I went out and just coached the heck out of the boys" . . . HE WASN'T a bad coach at all, Marge explains, just a very busy man . . . and the "other mother" who worked out, with Marge, with the team was his wife!
